ATOMIC ENERGY COMMISSION

[Docket No. 50-193]

RHODE ISLAND AND PROVIDENCE PLANTATIONS ATOMIC ENERGY COMMISSION

Notice of Application for Construction Permit and Utilization Facility License

Please take notice that Rhode Island and Providence Plantations Atomic Energy Commission, 108 East Hall, University of Rhode Island, Kingston, Rhode Island, under section 104c of the Atomic Energy Act of 1954, as amended, has submitted an application for a license to construct and operate a three megawatt (thermal) pool-type nuclear research reactor at Fort Kearney in Narragansett, Rhode Island.

A copy of the application is available for public inspection in the AEC Public Document Room, 1717 H Street NW., Washington, D.C.

Dated at Germantown, Md., this 1st day of February 1962.

For the Atomic Energy Commission.

ROBERT H. BRYAN,
Chief, Research and Power Reactor Safety Branch, Division of Licensing and Regulation.

[F.R. Doc. 62-1313; Filed, Feb. 8, 1962; 8:45 a.m.]

[Docket No. 50-54]

UNION CARBIDE CORP.

Notice of Issuance of Facility License Amendment

Please take notice that the Atomic Energy Commission has issued Amendment No. 3, set forth below, to Facility License No. R-81. The license authorizes Union Carbide Corporation to operate its pool-type nuclear reactor located in Sterling Forest, New York. The amendment adds a condition to the license providing certain limitations on the excess reactivity which may be loaded into the reactor.

The Commission has found that operation of the reactor in accordance with the license, as amended, will not present undue hazard to the health and safety of the public and will not be inimical to the common defense and security.

The Commission has further found that prior public notice of proposed issuance of this amendment is not necessary in the public interest since operation of the reactor in accordance with the license, as amended, would not present any substantial change in the hazards to the health and safety of the public from those previously considered and evaluated in connection with the previously approved operations.

In accordance with § 2.102(a) of the Commission's rules of practice (10 CFR Part 2) the Commission will direct the holding of a formal hearing on the matter of issuance of the license amendment upon receipt of a request therefor from the licensee or a petition to intervene pursuant to § 2.705 of the rules of practice within 30 days after the issuance of the license amendment. Petitions for leave to intervene and requests for a formal hearing shall be filed in accordance with the provisions of § 2.700 of the Commission's rules of practice (10 CFR Part 2).

The licensee's letter dated December 1, 1961 reporting certain reactivity values measured during reactor startup may be inspected at the Commission's Public Document Room, 1717 H Street NW., Washington 25, D.C.

Dated at Germantown, Md., this 1st day of February 1962.

For the Atomic Energy Commission.

ROBERT H. BRYAN,
Chief, Research and Power Reactor Safety Branch, Division of Licensing and Regulation.

[License No. R-81; Amdt. 3]

License No. R-81 which authorizes Union Carbide Corporation to operate its pool-type nuclear reactor located in Sterling Forest, New York, is hereby amended by adding the following condition thereto:

The reactor shall always be loaded in such a manner that it would be subcritical by a reactivity of at least 0.5 percent delta k/k if the maximum worth rod were in its withdrawn position and all other rods inserted; provided, however, that in no case shall the reactor be loaded with an excess reactivity of greater than 10.2 percent delta k/k.

This amendment is effective as of the date of issuance.

Date of issuance: February 1, 1962.

For the Atomic Energy Commission.

ROBERT H. BRYAN,
Chief, Research and Power Reactor Safety Branch, Division of Licensing and Regulation.

[F.R. Doc. 62-1314; Filed, Feb. 8, 1962; 8:45 a.m.]

[Docket No. 50-43]

U.S. NAVAL POSTGRADUATE SCHOOL

Notice of Issuance of Facility License Amendment

Please take notice that no request for a formal hearing having been filed following filing of the notice of proposed action with the Office of the Federal Register on June 21, 1961, the Atomic Energy Commission has issued Amendment No. 1 to Facility License No. R-31 authorizing U.S. Naval Postgraduate School to operate its reactor [illegible] AGN-201, Serial No. 100, continuously at power levels up to 20 watts (thermal) and intermittently at power levels up to 1000 watts (thermal) at the new location in Building 224 on the School's campus in Monterey, California. The notice of proposed issuance was published in the FEDERAL REGISTER on June 22, 1961, 26 F.R. 5586.

Dated at Germantown, Md., this 29th day of January 1962.

For the Atomic Energy Commission.

ROBERT H. BRYAN,
Chief, Research and Power Reactor Safety Branch, Division of Licensing and Regulation.

[F.R. Doc. 62-1315; Filed, Feb. 8, 1962; 8:45 a.m.]

CIVIL AERONAUTICS BOARD

[Docket No. 13376; Order E-17687]

NORTHWEST AIRLINES, INC.

Alaskan Fare Increases

Adopted by the Civil Aeronautics Board at its office in Washington, D.C., on the 6th day of February 1962.

By tariff filing effective February 12, 1962, Northwest Airlines, Inc. proposes to increase its local tourist class fares between Seattle and Anchorage by three percent, and to increase other local and joint tourist class fares between points in the 48 States, on the one hand, and points within Alaska, on the other, not to exceed three percent. No change has been proposed in Northwest's first-class jet and propeller fares between points within the 48 States, on the one hand, and points within Alaska, on the other, except for joint fares between Seattle and Galena.

Northwest has submitted no data in support of its tariff proposal to indicate a need of increased revenue from its services to Alaska, nor does the Board have available current data of its operating results from which we can find a need for an increase in revenues for this carrier in this market.

Northwest operates jet aircraft between Seattle and Anchorage providing both first-class and tourist service and also provides tourist service to Alaska with piston powered equipment in an all tourist configuration. The present tourist fares to Alaska approximate 77-78 percent of the first-class fares. Northwest's proposal to increase its tourist fares by three percent with no such increase in the first-class fares will reduce the fare differential between these services by a significant amount. The Board, in its Order of Investigation and Suspension in the Matter of Passenger Fares Proposed by United Air Lines, Inc.[1] stated that it was not convinced that the existing fare differential in domestic service between first-class and coach fares is greater than the difference between the cost-to-sale costs of the respective services or that coach services are inherently less profitable than first-class. In that order we noted that the effectuation of a general revenue increase by raising coach fares might tend to inhibit the growth of traffic and magnify the difficulty in improving load factors. The existing fare relationships between first-class and coach in Northwest's service to Alaska approximates the relationships existing in domestic service over similar lengths of haul. The carrier has advanced no reasons in support of a decrease in the fare differential between first-class and tourist service in the Alaskan market.

Under these circumstances, the Board has concluded that the tariff proposal of Northwest should be investigated. In view of the fact that we have no data before us upon which to conclude that increased revenues are needed in service to Alaska for this carrier, and upon consideration of the disruption of the relationship between first-class and tourist fares, we have concluded to suspend the proposal pending investigation.

Accordingly, pursuant to the Federal Aviation Act of 1958, particularly sections 204(a) and 1002 thereof,

It is ordered, That:

1. An investigation is instituted to determine whether the tourist class fares and provisions on 2d Revised Page 9, 3d Revised Page 10, 2d and 3d Revised Pages 11, 2d and 3d Revised Pages 12 and 2d Revised Page 13 of C.A.B. No. 331 of Northwest Airlines, Inc., are, or will be, unjust or unreasonable, unjustly discriminatory, unduly preferential, unduly prejudicial, or otherwise unlawful, and if found to be unlawful, to determine and prescribe the lawful fares and provisions.

2. Pending hearing and decision by the Board, the tourist class fares and provisions on 3d Revised Page 9, 2d Revised Page 10, 2d and 3d Revised Pages 11, 2d and 3d Revised Pages 12, and 3d Revised Page 13 of C.A.B. No. 331 of Northwest Airlines, Inc., so far as applicable to interstate air transportation, are suspended and their use deferred to and including May 10, 1962, unless otherwise ordered by the Board and that no changes be made therein during the period of suspension except by order or special permission by the Board.

3. The proceeding ordered herein be assigned for hearing before an examiner of the Board at a time and place hereafter to be designated.

4. Copies of this order be filed with the aforesaid tariff and be served upon Northwest Airlines, Inc., Alaska Airlines, Inc., Cordova Airlines, Inc., New York Airways, Inc., Northern Consolidated Airlines, Inc., Pacific Northern Airlines, Inc., Trans World Airlines, Inc., United Air Lines, Inc., West Coast Airlines, Inc., and Western Air Lines, Inc., which are made parties to this proceeding.

This order will be published in the FEDERAL REGISTER.

By the Civil Aeronautics Board.

[SEAL] HAROLD R. SANDERSON,
Secretary.

[F.R. Doc. 62-1355; Filed, Feb. 8, 1962; 8:50 a.m.]

[1] Order E-17685, dated December 28, 1961, docket 13313.

[Docket No. 11017]

HANS TISCHER ET AL.; COMMON CONTROL AND INTERLOCKING RELATIONSHIPS

Notice of Prehearing Conference

In the matter of the application for approval of interlocking relationship by Hans O. Tischer, Joseph Adasko & United Forwarders Service Inc. re United Travelers.

Notice is hereby given that a prehearing conference in the above-entitled proceeding is assigned to be held on February 14, 1962, at 10 a.m., e.s.t., in Room 1029, Universal Building, Connecticut and Florida Avenues NW., Washington, D.C., before Examiner James S. Keith.

Dated at Washington, D.C., February 5, 1962.

[SEAL] FRANCIS W. BROWN,
Chief Examiner.

FEDERAL MARITIME COMMISSION

CALCUTTA/U.S.A. CONFERENCE ET AL.

Notice of Agreements Filed for Approval

Notice is hereby given that the following described agreements have been filed with the Commission for approval pursuant to section 15 of the Shipping Act, 1916 (39 Stat. 733, 75 Stat. 763; 46 U.S.C. 813):

Agreement 8700, between the member lines of the Calcutta/U.S.A. Conference (Agreement 6500, as amended), operating from Calcutta to U.S. Atlantic ports (Portland to Hampton Roads inclusive); the member lines of the Calcutta/U.S.A. South Atlantic and Gulf Freight Conference (Agreement 8560) operating from Calcutta to U.S. South Atlantic ports (south of Hampton Roads but not inclusive) and U.S. Gulf ports, by direct call or transhipment; and the member lines of the East Coast of India (Calcutta and Tuticorin excluded) and East Pakistan/U.S.A. Atlantic and Gulf Freight Conference (Agreement 8570), operating from the East Coast of India south of Calcutta and north of Tuticorin (both ports excluded) and East Pakistan to the U.S. Atlantic and Gulf ports, by direct call or transhipment; provides for the establishment of the Calcutta, East Coast of India and East Pakistan/U.S.A. Joint Conference Agreement, under which the member lines of the three said conferences may confer, discuss and agree, from time to time, on matters of rates, charges, classifications and related tariff matters to be charged or observed by the member lines of the said conferences in the trades covered, respectively, but with reservation of the right of independent action by the member lines of each conference to alter any rate, charge, classification or related tariff matter thus previously agreed upon, by first giving the member lines of the other two conferences not less than forty-eight (48) hours' advance notice thereof. This agreement also provides that any other carrier becoming a member of any of the aforesaid conferences shall thereupon automatically become a party to this agreement, as a member of the conference in which it has acquired membership. The termination of any carrier's membership in any of the aforesaid conferences shall automatically terminate such carrier's participation in this agreement as a member of the conference of which it has ceased to be a member.

Agreement 6500-16, between the member lines of the Calcutta/U.S.A. Conference;

Agreement 8560-1, between the member lines of the Calcutta/U.S.A. South Atlantic and Gulf Freight Conference; and

Agreement 8570-1, between the member lines of the East Coast of India (Calcutta and Tuticorin excluded) and East Pakistan/U.S.A. Atlantic and Gulf Freight Conference;

are similar modification agreements which amend the basic agreement of the respective conferences, described above, to provide that new members of such conferences will automatically become parties to, and members withdrawing from such conferences will automatically cease to be parties to, any agreement(s) entered into between the member lines of the respective conferences (jointly) and any other carrier or other person subject to the Shipping Act, 1916, as amended, and approved pursuant to section 15 of said Act.

Interested parties may inspect these agreements and obtain copies thereof at the Bureau of Foreign Regulation, Federal Maritime Commission, Washington, D.C., and may submit within 20 days after publication of this notice in the FEDERAL REGISTER, written statements with reference to any of these agreements and their position as to approval, disapproval, or modification, together with request for hearing should such hearing be desired.

Dated: February 6, 1962.

By order of the Federal Maritime Commission.

THOMAS LISI,
Secretary.

FEDERAL POWER COMMISSION

[Docket Nos. CP61-184, CI61-1006]

CITIES SERVICE GAS CO. AND ROUNDS & PORTER LUMBER CO., INC.

Notice of Applications and Date of Hearing

FEBRUARY 2, 1962.

Take notice that on January 5, 1961, Cities Service Gas Co. (Cities Service) filed in Docket No. CP61-184 an application and on January 23, 1961, and April 18, 1961, a supplement and amendment thereto, respectively, pursuant to section 7 of the Natural Gas Act, for a certificate of public convenience and necessity authorizing Cities Service to construct and operate certain facilities for the transportation of natural gas in interstate commerce, as hereinafter described, subject to the jurisdiction of the Commission.

Cities Service proposes to construct and operate the following facilities:

(1) A 7100-horsepower compressor station in the proposed gasoline plant of Rounds & Porter Lumber Co., Inc. (Rounds & Porter), together with appurtenant meter and regulating equipment located in the Southwest Quarter of Section 2, Township 19 South, Range 3 East, Marion County, Kans., which compressor station is proposed to be used both on the intake and discharge sides of the plant.

(2) 10.5 miles of 8-inch pipeline from the outlet of Rounds & Porter's gasolene plant in the Southwest Quarter (SW¼) of Section 2, Township 19 South, Range 3 East, thence southeasterly to a connection with Cities Service's 26-inch main line in the Northwest Quarter (NW¼) of Section 25, Township 20 South, Range 3 East, all in Marion County, Kans.

Cities Service alleges that these facilities will be used to compress natural gas which will be purchased from said gasolene plant and to transport said gas from the outlet of said plant into Cities Service's Hugoton 26-inch main [illegible] system.

These facilities will be used to transport a flow of approximately 21,000 Mcf of natural gas per day at 1450 psia, which will be delivered to Cities Service by Rounds & Porter.

The estimated cost of the proposed facilities is $2,100,000, which will be paid for out of treasury cash.

The estimated natural gas reserves which are now dedicated to Cities Service behind Rounds & Porter's gasolene plant are 111,381,000 Mcf, which is composed of 92,592,000 Mcf previously dedicated to Cities Service, together with 18,789,000 Mcf, which has been dedicated to Cities Service by Rounds & Porter's letter of April 12, 1961.

Take further notice that on January 6, 1961, Rounds & Porter Lumber Co., Inc., a Kansas corporation having its principal place of business at 600 North Waco Street, Wichita, Kans., filed in Docket No. CI61-1006, an application, pursuant to section 7 of the Natural Gas Act, for a certificate of public convenience and necessity authorizing the sale and delivery to Cities Service of natural gas which it has gathered from numerous leases in the East Antelope, Antelope, Klenda and Hillsboro Fields, Marion County, Kans., pursuant to the terms of a gas sales contract dated December 31, 1960, between Rounds & Porter and Cities Service. It is alleged that said gas will be transported in interstate commerce, Rounds & Porter will gather gas from said leases and will remove the liquids therefrom before delivery to Cities Service. It proposes to construct the necessary facilities to remove the liquids and will operate the compressor stations proposed to be constructed by Cities Service. Said gas sales contract provides for an initial price of 15 cents per Mcf at 14.65 psia, with a price adjustment of 1 cent per Mcf each succeeding five year period thereafter during the life of the contract, which is for a term of twenty years and thereafter until terminated by either party on thirty days' written notice to the other. The estimated initial volume of gas to be delivered is 24,600 Mcf per day at 14.65 psia.

Rounds & Porter will secure gas from approximately 120 leases under percentage type contracts whereby the lessor holders in said leases will receive approximately 60 percent of the proceeds of the sale of residue gas and Rounds & Porter approximately 40 percent. Royalty interest holders will also receive 20 percent of the proceeds from the sale of processed liquids.

The applications in the above-numbered dockets together with the exhibits are on file with the Commission and open for public inspection.

These related applications should be heard on a consolidated record and to that end:

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing will be held on April 2, 1962, at 10:00 a.m., e.s.t., in a Hearing Room of the Federal Power Commission, 441 G Street NW., Washington, D.C., concerning the matters involved in and issues presented by such applications.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D.C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before March 28, 1962.

GORDON M. GRANT,
Acting Secretary.

[F.R. Doc. 62-1324; Filed, Feb. 8, 1962; 8:46 a.m.]

[Docket No. E-6577]

DEPARTMENT OF THE INTERIOR, BUREAU OF RECLAMATION; FALCON PROJECT

Notice of Request for Approval of Rates and Charges

FEBRUARY 2, 1962.

Notice is hereby given that the Secretary of the Interior, on behalf of the Bureau of Reclamation, has filed with the Federal Power Commission for confirmation and approval, pursuant to the provisions of the Act of Congress dated June 18, 1954 (68 Stat. 255), rates and charges for wholesale power service from the United States share of power from the Falcon project to customers with their own generating facilities for a five-year period beginning January 1, 1963, all as set forth in the following proposed rate schedule:

SCHEDULE OF RATES FOR WHOLESALE POWER SERVICE TO CUSTOMERS HAVING THEIR OWN GENERATING FACILITIES

Effective: January 1, 1963.

Available: At the 138-kv Switchyard of Falcon Powerplant.

Applicable: To wholesale power customers who normally maintain generating facilities or other sources of energy sufficient to supply their requirements when Falcon Powerplant energy is not available, and who contract to accept all energy which can be delivered, without exceeding the peaking energy and off-peak energy contract rates of delivery, at hours and periods stated herein under "Definitions": *Provided*, That deliveries exceeding the contract rates of delivery may otherwise be mutually agreed upon in writing by representatives of the United States and the customer. The customer normally will be expected to contract for peaking energy at a contract rate of delivery equal to or exceeding his contract rate of delivery for off-peak energy, Provided; that peaking energy is available therefor within the limits hereinafter defined.

Character and conditions of service: Alternating current, sixty cycles, three-phase, delivered and metered at the 138-kv bus of the Falcon Powerplant. The service hereunder shall be considered in two categories; (1) peaking energy, and (2) off-peak energy, as defined herein under "Definitions", and each category of service will be made available in accordance with the provisions herein and of the contract rates of delivery set forth in the contract.

Monthly rate:

Demand charge: None.

Energy charge—Peaking Energy: 5.5 Mills per kilowatt-hour.

Off-Peak Energy: 1.5 mills per kilowatt-hour.

Definitions—Peaking energy: That energy delivered between the hours of 8:00 a.m., and 10:00 p.m., of any day, except Saturdays and Sundays.

Off-Peak Energy: That energy delivered at any other time.

Customers pro rata share of Falcon Powerplant energy: Is the customer's pro rata share of peaking energy and/or off-peak energy generated at the United States Falcon Powerplant, and shall be in the ratio that the customer's contract rate of delivery therefor bears to the total of all customer contract rates of delivery for such energy. For purposes thereof, the total of all customer contract rates of delivery for peaking energy or for off-peak energy shall not exceed 31,500 kilowatts for each category of energy.

Minimum bill: None.

Adjustments—For character and conditions of service: None.

For power factor: None. The customer will normally be required to maintain a power factor at the point of delivery between 90 percent lagging and 90 percent leading.

Scheduling of energy deliveries: Availability of energy will be declared by the United States both as to quantity and time available as far in advance as is practicable.

The proposed new Rate Schedule set forth above is on file with the Commission for public inspection. Any person desiring to make comments or suggestions for Commission consideration with respect to the proposed Rate Schedule should submit the same in writing on or before February 20, 1962, to the Federal Power Commission, Washington 25, D.C.

GORDON M. GRANT,
Acting Secretary.

[Docket No. CP62-130]

MICHIGAN WISCONSIN PIPE LINE CO.

Notice of Postponement of Hearing

FEBRUARY 2, 1962.

Notice is hereby given that the hearing now scheduled to be held in Washington, D.C., on March 8, 1962, at 9:30 a.m., e.s.t., in the above-entitled matter is hereby postponed to a date to be hereafter fixed.

GORDON M. GRANT,
Acting Secretary.

[F.R. Doc. 62-1325; Filed, Feb. 8, 1962; 8:46 a.m.]

[Docket No. CP62-38 etc.]

NORTH CENTRAL GAS CO. ET AL.

Notice of Applications and Date of Hearing

FEBRUARY 2, 1962.

North Central Gas Company, Docket No. CP62-38; Kansas-Nebraska Natural Gas Company, Inc., Docket No. CP62-39; Tower Oil and Gas Company of Texas, Docket No. CI62-193.

Take notice that on August 17, 1961, as supplemented on October 25, 1961, North Central Gas Company (North Central), Casper, Wyoming, filed in Docket No. CP62-38 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the construction and operation of a meter station on its 12-inch pipeline near Orin, Platte County, Wyoming, in order to enable North Central to receive natural gas from Tower Oil and Gas Company of Texas (Tower), and authorizing the exchange of natural gas with Kansas-Nebraska Natural Gas Company (Kansas-Nebraska) at an existing point of interconnection[1] near the Huntsman Field, Cheyenne County, Nebraska.

Take further notice that on August 17, 1961, Kansas-Nebraska, Hastings, Nebraska, filed in Docket No. CP62-39 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the aforementioned exchange of natural gas near the Huntsman Field, Cheyenne County, Nebraska.

The proposals of North Central and Kansas-Nebraska are more fully set forth in their respective applications on file with the Commission and open to public inspection.

North Central and Kansas-Nebraska have entered into a contract, dated June 20, 1961, with Tower under which each would purchase from Tower in the ratio of 50 percent of available gas produced by Tower in the Shawnee area, Converse County, Wyoming. Since Kansas-Nebraska has no transmission facilities in the Shawnee area, and in order to eliminate the necessity of Kansas-Nebraska constructing duplicate facilities, North Central proposes to receive and transport all gas purchased by both companies from Tower with equivalent volumes due Kansas-Nebraska being delivered to it by North Central from the latter's Huntsman reserves in Nebraska. The subject exchange will be made pursuant to an agreement, dated June 20, 1961, between North Central and Kansas-Nebraska.

The subject sale of gas will be made at a rate of 12 cents per Mcf at 15.025 psia.

On August 15, 1961, Tower, 520 Fidelity Union Life Building, Dallas, Texas, filed in Docket No. CI62-193 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the above described sale of natural gas to North Central and Kansas-Nebraska, all as more fully described in the application on file with the Commission and open to public inspection.

The applications in these proceedings indicate that the proposed sale and the proposed exchange of natural gas may be an interim arrangement and that in the event Tower has under control in the Shawnee area prior to April 1, 1964, reserves of 146 billion cubic feet of gas and

[1] Said facilities were modified under temporary authorization granted to Kansas-Nebraska on November 30, 1959, in Docket No. G-17850.

sufficient capacity to deliver a maximum of 30,000 Mcf per day, then the gas sales contract between the three Applicants and the exchange agreement between North Central and Kansas-Nebraska will terminate. In the event the foregoing contracts are terminated, the applications indicate further that Intermountain Gas Company (Intermountain) has agreed to construct and operate a pipeline from the Shawnee area to Mitchell, Nebraska, and sell gas purchased from Tower to Kansas-Nebraska and North Central; North Central would deliver Kansas-Nebraska's share of this gas at a point near Scottsbluff, Nebraska. However, none of the Applicants in these proceedings are seeking authorization, herein, with respect to the alternate arrangements or proposals. Such information has been included in order to demonstrate the possibilities of the development of the Shawnee area.

The estimated cost of North Central's proposed facilities in Docket No. CP62–38 is $2,112, which cost will be financed out of current working funds.

These related matters should be heard on a consolidated record and disposed of as promptly as possible under the applicable rules and regulations and to that end:

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing will be held on March 8, 1962, at 9:30 a.m., e.s.t., in a Hearing Room of the Federal Power Commission, 441 G Street NW., Washington, D.C., concerning the matters involved in and the issues presented by such applications: *Provided, however,* That the Commission may, after a non-contested hearing, dispose of the proceedings pursuant to the provisions of § 1.30(c) (1) or (2) of the Commission's rules of practice and procedure. Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicants to appear or be represented at the hearing.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D.C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before February 26, 1962. Failure of any party to appear at and participate in the hearing shall be construed as waiver of and concurrence in omission herein of the intermediate decision procedure in cases where a request therefor is made.

GORDON M. GRANT,
Acting Secretary.

[F.R. Doc. 62–1326; Filed, Feb. 8, 1962; 8:46 a.m.]

[Docket Nos. CP62–2, CP62–3]

OHIO FUEL GAS CO. AND TEXAS EASTERN TRANSMISSION CORP.

Notice of Applications and Date of Hearing

FEBRUARY 2, 1962.

Take notice that The Ohio Fuel Gas Company (Ohio Fuel), an Ohio Corporation having its principal place of business at 99 North Front Street, Columbus, Ohio, filed on July 6, 1961, an application in Docket No. CP62–2, and on August 3, 1961, a supplement thereto, pursuant to section 7 of the Natural Gas Act, for a certificate of public convenience and necessity authorizing the establishment of an additional point of delivery and sale to The Dayton Power and Light Company (Dayton) in Madison Township, Fayette County, Ohio, to deliver natural gas to Dayton for resale in Dayton's prospective new market area of New Holland and Waterloo, Ohio, and vicinity. Said additional point of delivery and sale is identical with the point of delivery to Ohio Fuel proposed by Texas Eastern Transmission Corporation (Texas Eastern) in its companion application in Docket No. CP62–3 hereinafter described.

Additional facilities required will include a tap on Texas Eastern's main line facilities, together with necessary measuring and regulating equipment and other appurtenances required for practical operation. The cost is estimated at $26,300. Construction of required facilities will be undertaken by Texas Eastern and Ohio Fuel will reimburse Texas Eastern for the cost of the measuring and regulating facilities and assume ownership thereof.

Ohio Fuel estimates, from information received from Dayton, that the combined total natural gas requirements of New Holland and Waterloo are as follows:

Year	Mcf at 14.73 psia	
	Peak day	Annual
1	325	34,649
2	509	56,221
3	666	77,123

Take further notice that Texas Eastern Transmission Corporation, a Delaware corporation with its principal office in Shreveport, Louisiana, filed on July 6, 1961, an application in Docket No. CP62–3, pursuant to section 7 of the Natural Gas Act, for a certificate of public convenience and necessity authorizing it to construct and operate a metering and regulating station together with the appurtenant facilities at a point on its main transmission line in Fayette County, Ohio, approximately 5 miles west of Texas Eastern's Compressor Station No. 17. The establishment of this additional delivery point, Texas Eastern states, is for the purpose of making deliveries of natural gas to The Dayton Power and Light Company for the account of Ohio Fuel in order to permit Dayton to provide service to New Holland and Waterloo, Ohio.

These related matters should be heard on a consolidated record and disposed of as promptly as possible under applicable rules and regulations and to that end:

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing will be held on March 7, 1962 at 9:30 a.m., e.s.t., in a hearing room of the Federal Power Commission, 441 G Street NW., Washington, D.C., concerning the matters involved in and the issues presented by such applications: *Provided, however,* That the Commission may after a non-contested hearing, dispose of the proceedings pursuant to the provisions of § 1.30(c) (1) or (2) of the Commission's rules of practice and procedure. Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicants to appear or be represented at the hearing.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D.C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before February 23, 1962. Failure of any party to appear at and participate in the hearing shall be construed as waiver of said concurrence in omission herein of the intermediate decision procedure in cases where a request therefor is made.

GORDON M. GRANT,
Acting Secretary.

[F.R. Doc. 62–1327; Filed, Feb. 8, 1962; 8:46 a.m.]

[Docket No. G–18442 etc.]

SENECA GAS COMPANY OF WEST VIRGINIA, INC., ET AL.

Notice of Applications and Date of Hearing

FEBRUARY 2, 1962.

Seneca Gas Company of West Virginia, Inc., Atlantic Seaboard Corp., and Seneca Gas Company of West Virginia, Inc., Complainant; and Navgas, Inc., Defendant; Docket Nos. G–18442, CP61–67, and CP62–115.

Notice of the application of Seneca Gas Company of West Virginia, Inc. (Seneca) in Docket No. G–18442 was issued by the Secretary of the Commission on December 2, 1959, and published in the FEDERAL REGISTER on December 9, 1959 (24 F.R. 9918) setting said matter for hearing on January 11, 1960. On January 7, 1960, said hearing was continued, subject to further notice by the Secretary.

Take notice that Atlantic Seaboard Corporation (Seaboard), a Delaware corporation having its principal place of business at 1700 McCorkle Avenue SE., Charleston, West Virginia, filed on September 15, 1961, an application, pursuant to section 7(c) of the Natural Gas Act, for a certificate of public convenience and necessity authorizing the construction and operation of measuring and regulating facilities and the delivery and sale of natural gas to Navgas, Inc., a new wholesale customer, to enable Navgas, Inc., to render service to the Naval Radio Research Station near the Village of Sugar Grove, Pendleton County, West Virginia.

Seaboard alleges that Navgas, Inc. has requested an interconnection between its proposed 6⅝" gas transmission line and Seaboard's 26" and 20" loop transmission pipelines at a point in Hardy County, West Virginia, 10.6 miles east of Seaboard's compressor station. Seaboard alleges that it is informed that

Navgas, Inc. plans to construct a 6⅝" natural gas transmission line from said point of interconnection with Seaboard's facilities southerly 24.2 miles to the Naval Radio Research Station.

Navgas, Inc.'s estimated peak day and annual requirements are as follows:

12-month period ending—	Peak day demand, Mcf	Annual requirements, Mcf
June 30, 1963	1,400	197,000
June 30, 1964	1,700	440,250
June 30, 1965	2,000	549,000

The estimated cost of Seaboard's proposed facilities is $19,600, which will be financed from funds on hand.

Take further notice that Seneca Gas Company of West Virginia, Inc., filed on November 3, 1961, in Docket No. CP62–115, a complaint and request for order to show cause against Navgas, Inc. Seneca alleges that it has been authorized by the Public Service Commission of West Virginia to construct and operate natural gas transmission and distribution facilities in Hardy and Pendleton Counties, West Virginia. Seneca alleges that it has pending before this Commission an application under section 7(a) for an order directing Seaboard to establish physical connection of its transportation facilities with the facilities proposed to be constructed by Seneca and to sell and deliver natural gas to Seneca. All of the facts referred to in said complaint relating to Seneca's application are more particularly set out in the Notice of Application in Docket No. G–18442 issued December 2, 1959.

Seneca alleges that Navgas, Inc. on March 22, 1961, also filed with this Commission in Docket No. CP61–251 an application under section 7(a) of the Act seeking an order directing Seaboard to establish physical connection of its facilities with the proposed facilities of Navgas, Inc., and to sell and deliver natural gas to it for the limited purpose of providing the Navy with all of its natural gas requirements at its Sugar Grove installation, which application is still pending.

Seneca asserts, among other things, that Navgas, Inc. is not exempt from the provisions of the Natural Gas Act by section 1(c) thereof because Navgas Inc.'s proposed rates and service are not regulated by the Public Service Commission of West Virginia. Seneca states that Navgas, Inc., is in the process of constructing facilities for the purposes of engaging in the transportation and sale of natural gas to the Navy, and, in so proceeding, Navgas, Inc. has violated the Natural Gas Act in that it has neither made application with, nor been granted a certificate of public convenience and necessity by this Commission, authorizing said construction.

The applications and complaint in the above numbered dockets are on file with the Commission and open for public inspection.

These related matters should be heard on a consolidated record and disposed of as promptly as possible under the applicable rules and regulations and to that end:

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing will be held on April 9, 1962, at 10:00 a.m., e.s.t., in a Hearing Room of the Federal Power Commission, 441 G Street NW., Washington, D.C., concerning the matters involved in and the issues presented by the applications in Dockets Nos. G–18442 and CP62–67 and also by the complaint and answer in Docket No. CP62–115.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D.C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before March 20, 1962.

GORDON M. GRANT,
Acting Secretary.

SECURITIES AND EXCHANGE COMMISSION

[File No. 70–4010]

WEST PENN POWER CO.

Notice of Filing Regarding Issuance and Sale of First Mortgage Bonds

FEBRUARY 1, 1962.

Notice is hereby given that West Penn Power Company ("West Penn"), Greensburg, Pa., an exempt holding company and also a public-utility subsidiary company of Allegheny Power System, Inc., a registered holding company, has filed with this Commission an application, pursuant to the Public Utility Holding Company Act of 1935 ("Act"), regarding a proposal to issue and sell First Mortgage Bonds; and has designated therein section 6(b) of the Act and Rule 50 promulgated thereunder as applicable to the proposed transactions.

All interested persons are referred to the application on file at the office of this Commission for a statement of the transactions proposed, which are summarized as follows:

West Penn proposes to issue and sell, pursuant to the competitive bidding requirements of Rule 50 promulgated under the Act, $30,000,000 principal amount of First Mortgage Bonds, Series S, __ percent, due March 1, 1992. The interest rate (which shall be a multiple of ⅛ of 1 percent) and the price, exclusive of accrued interest, to be paid to the company for the bonds (which shall be not less than the principal amount nor more than 102¾ percent thereof) will be determined by the competitive bidding. The bonds will be issued under the Mortgage and Deed of Trust dated March 1, 1916, between the company and The Chase Manhattan Bank, as Trustee, as heretofore supplemented and as to be further supplemented by a supplemental indenture, dated March 1, 1962.

The net proceeds from the sale of the bonds will be used to pay $5,500,000 of outstanding short-term bank notes, issued under the exemption afforded by the first sentence of section 6(b) of the Act, to obtain funds for construction expenditures. The remainder of such proceeds will be used to finance, in part, the construction requirements of the company during 1962 and 1963, estimated at $54,500,000.

The fees and expenses to be incurred in connection with the proposed transactions are estimated at an aggregate of $84,000, consisting of Federal issue stamp taxes of $33,000, legal fees of $12,500, Trustee's fees and expenses $12,250, printing expenses $15,000, accountant's fees $4,500, registration fee $3,083, blue sky fees and expenses $1,000, and miscellaneous expenses of $2,667. The fee of independent counsel for the underwriters, to be paid by the purchaser of the bonds, is estimated at $8,000.

The application states that registration by the Pennsylvania Public Utility Commission of a securities certificate with respect to the bonds is required for their issue and sale, that such a securities certificate has been filed with that Commission, and that a copy of the securities certificate and the order of that Commission will be made a part of the record by amendment.

Notice is further given that any interested person may, not later than February 20, 1962, request in writing that a hearing be held in respect of such matters, stating the nature of his interest, the reasons for the request, and the issues of fact or law, if any, raised by the application which he desires to controvert; or he may request that he be notified should the Commission order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington 25, D.C. A copy of such request should be served personally or by mail (air mail if the person being served is located more than 500

miles from the point of mailing) upon applicant, and proof of service (by affidavit, or, in case of an attorney-at-law, by certificate) filed or dispatched contemporaneously with the request. At any time after said date the application, as filed or as it may be amended, may be granted, as provided by Rule 23 of the general rules and regulations promulgated under the Act; or the Commission may grant exemption from its rules as provided in Rules 20(a) and 100 thereof, or take such other action as it deems appropriate.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

INTERSTATE COMMERCE COMMISSION

FOURTH SECTION APPLICATIONS FOR RELIEF

FEBRUARY 6, 1962.

Protests to the granting of an application must be prepared in accordance with Rule 40 of the general rules of practice (49 CFR 1.40) and filed within 15 days from the date of publication of this notice in the FEDERAL REGISTER.

LONG-AND-SHORT HAUL

FSA No. 37541: *Substituted service—C&EI, et al., for Motor Carrier Service.* Filed by the Eastern Central Motor Carriers Association, Inc., Agent (No. 212), for interested carriers. Rates on property loaded in highway trailers and transported on railroad flat cars, between points in central, middlewest, and southwestern territories, on the one hand, and points in middle Atlantic and New England territories, on the other.

Ground for relief: Motor-truck competition.

Tariff: Supplement 6 to Eastern Central Motor Carriers Association tariff MF-I.C.C. A-200.

FSA No. 37542: *Cast iron soil pipe from Holt, Ala.* Filed by O. W. South, Jr., Agent (No. A4152), for interested rail carriers. Rates on cast iron soil pipe and related articles, in carloads, from Holt, Ala., to Newark, N.J., Glendale (New York) and New York, N.Y.

Grounds for relief: Private truck competition.

Tariff: Supplement 56 to Southern Freight Association tariff I.C.C. S-6.

FSA No. 37543: *Motor fuel anti-knock compounds from Baton Rouge, La.* Filed by O. W. South, Jr., Agent (No. A4151), for interested rail carriers. Rates on motor fuel anti-knock compound, in tank-car loads, from Baton Rouge and North Baton Rouge, La., to East St. Louis, Hartford, Wood River and Roxana, Ill.

Grounds for relief: Barge competition.

FSA No. 37544: *Substituted service—Southern territory.* Filed by Southern Motor Carriers Rate Conference, Agent (No. 72), for interested carriers. Rates on property loaded in highway trailers and transported on railroad flat cars, between points in southern territory, on the one hand, and points in southern, eastern, New England, middlewestern and southwestern territories, on the other.

Grounds for relief: Motor-truck competition.

Tariff: Southern Motor Carriers Rate Conference tariff MF-I.C.C. 1187 and I.C.C. 36.

By the Commission.

INDIVIDUAL COMMISSIONERS

Assignment of Duties

FEBRUARY 2, 1962.

The Interstate Commerce Commission has amended its Organization Minutes, being assignment of work, business and functions pursuant to section 17 of the Interstate Commerce Act, as amended, issue of March 7, 1961, revised to May 1, 1961 (26 F.R. 4773, 5167, 8434 and 10991), as follows:

Under the heading *Assignment of Duties to Individual Commissioners*, paragraph (b) of Item 6.5, assignments to the Chairman of Division Three, has been amended to read as follows:

(b) Matters relating to closing of transactions in accordance with such terms and conditions as may have been prescribed by the Commission or Division 3 under the provisions of Part V of the Act, including the execution on behalf of the Commission of contracts and other instruments incident to the closing of such transactions; and matters relating to the administration of loans and other financing guaranteed under Part V of the Act, including the giving of consents by the Commission under guaranty agreements and the construction of provisions contained in such agreements and other agreements entered into in connection with such loans or other financing. The Commissioner may certify to Division 3 any matter which in his judgment should be passed on by that division, or the Commission.

[SEAL] HAROLD D. MCCOY, *Secretary.*

Title 7—AGRICULTURE

Chapter IX—Agricultural Marketing Service (Marketing Agreements and Orders), Department of Agriculture

[Navel Orange Reg. 6]

PART 907—NAVEL ORANGES GROWN IN ARIZONA AND DESIGNATED PART OF CALIFORNIA

Limitation of Handling

§ 907.306 Navel Orange Regulation 6.

(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 907, as amended (7 CFR Part 907), regulating the handling of navel oranges grown in Arizona and designated part of California, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674), and upon the basis of the recommendations and information submitted by the Navel Orange Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of handling of such navel oranges, as hereinafter provided, will tend to effectuate the declared policy of the act by tending to establish and maintain such orderly marketing conditions for such oranges as will provide, in the interests of producers and consumers, an orderly flow of the supply thereof to market throughout the normal marketing season to avoid unreasonable fluctuations in supplies and prices, and is not for the purpose of maintaining prices to farmers above the level which it is declared to be the policy of Congress to establish under the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this section until 30 days after publication hereof in the FEDERAL REGISTER (5 U.S.C. 1001–1011) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. The committee held an open meeting during the current week, after giving due notice thereof, to consider supply and market conditions for navel oranges and the need for regulation; interested persons were afforded an opportunity to submit information and views at this meeting; the recommendation and supporting information for regulation during the period specified herein were promptly submitted to the Department after such meeting was held; the provisions of this section, including its effective time, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such navel oranges; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period herein specified; and compliance with this section will not require any special preparation on the part of persons subject hereto which cannot be completed on or before the effective date hereof. Such committee meeting was held on February 8, 1962.

(b) *Order.* (1) The respective quantities of navel oranges grown in Arizona and designated part of California which may be handled during the period beginning at 12:01 a.m., P.s.t., February 11, 1962, and ending at 12:01 a.m., P.s.t., February 18, 1962, are hereby fixed as follows:

(i) District 1: 200,000 cartons;
(ii) District 2: 375,000 cartons;
(iii) District 3: Unlimited movement;
(iv) District 4: Unlimited movement.

(2) As used in this section, "handled," "District 1," "District 2," "District 3," "District 4," and "carton" have the same meaning as when used in said amended marketing agreement and order.

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Dated: February 8, 1962.

PAUL A. NICHOLSON,
Acting Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[F.R. Doc. 62-1473; Filed, Feb. 9, 1962; 11:26 a.m.]

[Grapefruit Reg. 2]

PART 909—GRAPEFRUIT GROWN IN ARIZONA; IN IMPERIAL COUNTY, CALIF., AND IN THAT PART OF RIVERSIDE COUNTY, CALIF., SITUATED SOUTH AND EAST OF WHITE WATER, CALIF.

Limitation of Shipments

§ 909.302 Grapefruit Regulation 2.

(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 909, as amended (7 CFR Part 909), regulating the handling of grapefruit grown in the State of Arizona; in Imperial County, California; and in that part of Riverside County, California, situated south and east of White Water, California, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674), and upon the basis of the recommendations of the Administrative Committee (established under the aforesaid amended marketing agreement and order), and upon other available information, it is hereby found that the limitation of shipments of grapefruit, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this section until 30 days after publication thereof in the FEDERAL REGISTER (5 U.S.C. 1001–1011), because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective date. The Administrative Committee held an open meeting on February 1, 1962, to consider recommendations for a regulation, after giving due notice of such meeting, and interested persons were afforded an opportunity to submit their views at this meeting; the recommendation and supporting information for regulation during the period specified herein were promptly submitted to the Department after such open meeting; necessary supplemental economic and statistical information upon which this recommended

regulation is based was received by the Fruit Branch on February 6, 1962; information regarding the provisions of the regulation recommended by the committee has been disseminated to shippers of grapefruit, grown as aforesaid, and this section, including the effective time thereof, is identical with the recommendation of the committee; it is necessary, in order to effectuate the declared policy of the act, to make this section effective on the date hereinafter set forth so as to provide for the continued regulation of the handling of grapefruit; and compliance with this section will not require any special preparation on the part of persons subject thereto which cannot be completed on or before the effective date hereof.

(b) *Order.* (1) During the period beginning at 12:01 a.m., P.s.t., February 11, 1962, and ending at 12:01 a.m., P.s.t., February 25, 1962, no handler shall handle:

(i) From the State of California or the State of Arizona to any point outside thereof any grapefruit of any variety grown in the State of Arizona; in Imperial County, California; or in that part of Riverside County, California, situated south and east of White Water, California, unless such grapefruit grade at least U.S. No. 2: *Provided*, That included in the tolerances for defects permitted by such grade not more than 5 percent, by count, shall be allowed for grapefruit having peel more than one inch in thickness at the stem end, measured from the flesh to the highest point of the peel; or

(ii) From the State of California or the State of Arizona to any point outside thereof in the United States, any grapefruit, grown as aforesaid, which measure less than $3^{11}/_{16}$ inches in diameter, except that a tolerance of 5 percent, by count, of grapefruit smaller than the foregoing minimum size shall be permitted which tolerance shall be applied in accordance with the provisions for the application of tolerance, specified in the revised United States Standards for Grapefruit (California and Arizona), 7 CFR 51.925–51.955: *Provided*, That, in determining the percentage of grapefruit in any lot which are smaller than $3^{11}/_{16}$ inches in diameter, such percentage shall be based only on the grapefruit in such lot which are of a size $4^{7}/_{16}$ inches in diameter and smaller.

(2) As used herein, "handler," "variety," "grapefruit," and "handle" shall have the same meaning as when used in said amended marketing agreement and order; the term "U.S. No. 2" shall have the same meaning as when used in the aforesaid revised United States Standards for Grapefruit; and "diameter" shall mean the greatest dimension measured at right angles to a line from the stem to blossom end of the fruit.

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Dated: February 6, 1962.

F. L. SOUTHERLAND,
Acting Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[F.R. Doc. 62–1394; Filed, Feb. 9, 1962; 8:49 a.m.]

[Lemon Reg. 7]

PART 910—LEMONS GROWN IN CALIFORNIA AND ARIZONA

Limitation of Handling

§ 910.307 Lemon Regulation 7.

(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 910, as amended (7 CFR Part 910), regulating the handling of lemons grown in California and Arizona, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674), and upon the basis of the recommendation and information submitted by the Lemon Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of handling of such lemons as hereinafter provided will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this section until 30 days after publication hereof in the FEDERAL REGISTER (5 U.S.C. 1001–1011), because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. The committee held an open meeting during the current week, after giving due notice thereof, to consider supply and market conditions for lemons and the need for regulation; interested persons were afforded an opportunity to submit information and views at this meeting; the recommendation and supporting information for regulation during the period specified herein were promptly submitted to the Department after such meeting was held; the provisions of this section, including its effective time, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such lemons; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period herein specified; and compliance with this section will not require any special preparation on the part of persons subject hereto which cannot be completed on or before the effective date hereof. Such committee meeting was held on February 6, 1962.

(b) *Order.* (1) The respective quantities of lemons grown in California and Arizona which may be handled during the period beginning at 12:01 a.m., P.s.t., February 11, 1962, and ending at 12:01 a.m., P.s.t., February 18, 1962, are hereby fixed as follows:

(i) District 1: 9,300 cartons;

(ii) District 2: 186,000 cartons;

(iii) District 3: Unlimited movement.

(2) As used in this section, "handler," "District 1," "District 2," "District 3," and "carton" have the same meaning as when used in the said amended marketing agreement and order.

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Dated: February 7, 1962.

FLOYD F. HEDLUND,
Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[F.R. Doc. 62–1405; Filed, Feb. 9, 1962; 8:50 a.m.]

[Grapefruit Reg. 1]

PART 912—GRAPEFRUIT GROWN IN THE INDIAN RIVER DISTRICT IN FLORIDA

Limitation of Handling

§ 912.301 Grapefruit Regulation 1.

(a) *Findings.* (1) Pursuant to the marketing agreement and order (7 CFR Part 912; 27 F.R. 87) regulating the handling of grapefruit grown in the Indian River District in Florida, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674), and upon the basis of the recommendations and information submitted by the Indian River Grapefruit Committee, established under the said marketing agreement and order, and upon other available information, it is hereby found that the limitation of handling of such grapefruit, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this section until 30 days after publication hereof in the FEDERAL REGISTER (5 U.S.C. 1001–1011) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. The committee held an open meeting during the current week, after giving due notice thereof, to consider supply and market conditions for Indian River grapefruit, and the need for regulation; interested persons were afforded an opportunity to submit information and views at this meeting; the recommendation and supporting information for regulation during the period specified herein were promptly submitted to the Department after such meeting was held; the provisions of this section, including its effective time, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such Indian River grapefruit; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period herein specified; and compliance with this section will not require any special preparation on the part of persons subject hereto which cannot be completed on or before the effective date hereof. Such committee meeting was held on February 8, 1962.

(b) *Order.* (1) The quantity of grapefruit grown in the Indian River District which may be handled during the period beginning at 12:01 a.m., e.s.t., February 12, 1962, and ending at 12:01 a.m., e.s.t., February 19, 1962, is hereby fixed at 160,601 standard packed boxes.

(2) As used in this section, "handled," "Indian River District," "grapefruit," and "standard packed box" have the same meaning as when used in said marketing agreement and order.

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Dated: February 8, 1962.

PAUL A. NICHOLSON,
Acting Director, Fruit and Vegetable Division, Agricultural Marketing Service.

Title 9—ANIMALS AND ANIMAL PRODUCTS

Chapter I—Agricultural Research Service, Department of Agriculture

SUBCHAPTER C—INTERSTATE TRANSPORTATION OF ANIMALS AND POULTRY

PART 78—BRUCELLOSIS IN DOMESTIC ANIMALS

Subpart D—Designation of Modified Certified Brucellosis Areas, Public Stockyards, Specifically Approved Stockyards, and Slaughtering Establishments

MODIFIED CERTIFIED BRUCELLOSIS AREAS

Pursuant to § 78.16 of the regulations in Part 78, as amended, Title 9, Code of Federal Regulations, containing restrictions on the interstate movement of animals because of brucellosis, under sections 4, 5, and 13 of the Act of May 29, 1884, as amended, sections 1 and 2 of the Act of February 2, 1903, as amended, and section 3 of the Act of March 3, 1905, as amended (21 U.S.C. 111–113, 114a–1, 120, 121, 125), § 78.13 of said regulations designating modified certified brucellosis areas is hereby amended to read as follows:

§ 78.13 Modified certified brucellosis areas.

The following States, or specified portions thereof, are hereby designated as modified certified brucellosis areas:

Alabama: Barbour, Calhoun, Chambers, Chilton, Clay, Cleburne, Coffee, Covington, Coosa, Dale, De Kalb, Escambia, Etowah, Geneva, Henry, Houston, Jackson, Lauderdale, Lee, Limestone, Madison, Marshall, Morgan, Randolph, Russell, and Talladega Counties.

Arizona: The entire State.

Arkansas: Ashley, Baxter, Benton, Boone, Bradley, Calhoun, Carroll, Clark, Clay, Cleburne, Cleveland, Columbia, Conway, Craighead, Crawford, Crittenden, Cross, Dallas, Drew, Faulkner, Franklin, Fulton, Garland, Grant, Greene, Hempstead, Hot Spring, Howard, Independence, Izard, Jackson, Jefferson, Johnson, Lafayette, Lawrence, Lee, Lincoln, Logan, Lonoke, Madison, Marion, Miller, Mississippi, Montgomery, Nevada, Newton, Ouachita, Perry, Pike, Poinsett, Polk, Pope, Prairie, Pulaski, Randolph, St. Francis, Saline, Scott, Searcy, Sebastian, Sevier, Sharp, Stone, Union, Van Buren, Washington, White, and Yell Counties.

California: Alameda, Alpine, Amador, Butte, Calaveras, Colusa, Contra Costa, Del Norte, El Dorado, Fresno, Glenn, Humboldt, Imperial, Inyo, Kern, Kings, Lake, Lassen, Madera, Marin, Mariposa, Mendocino, Merced, Modoc, Mono, Monterey, Napa, Nevada, Placer, Plumas, Riverside, Sacramento, San Benito, San Bernardino, San Diego, San Francisco, San Joaquin, San Luis Obispo, San Mateo, Santa Barbara, Santa Clara, Santa Cruz, Shasta, Sierra, Siskiyou, Solano, Sonoma, Stanislaus, Sutter, Tehama, Trinity, Tulare, Tuolumne, Ventura, Yolo, and Yuba Counties.

Colorado: Alamosa, Archuleta, Baca, Chaffee, Conejos, Costilla, Custer, Delta, Denver, Dolores, Eagle, Garfield, Gunnison, Hinsdale, Huerfano, La Plata, Las Animas, Lincoln, Logan, Mesa, Mineral, Moffat, Montezuma, Montrose, Ouray, Phillips, Pitkin, Pueblo, Rio Grande, Saguache, San Juan, San Miguel, Sedgwick, Washington, and Yuma Counties; Southern Ute Indian Reservation, and Ute Mountain Ute Reservation.

Connecticut: The entire State.

Delaware: The entire State.

Florida: Baker, Bay, Bradford, Calhoun, Columbia, Dixie, Escambia, Flagler, Franklin, Gadsden, Gilchrist, Gulf, Hamilton, Holmes, Jackson, Jefferson, Lafayette, Leon, Levy, Liberty, Madison, Nassau, Okaloosa, Santa Rosa, Suwannee, Taylor, Union, Wakulla, Walton, and Washington Counties.

Georgia: The entire State.

Idaho: The entire State.

Illinois: Alexander, Bond, Boone, Bureau, Carroll, Champaign, Christian, Clark, Clay, Clinton, Coles, Cook, Crawford, Cumberland, De Kalb, De Witt, Douglas, DuPage, Edgar, Edwards, Effingham, Fayette, Ford, Franklin, Gallatin, Greene, Grundy, Hamilton, Iroquois, Jackson, Jasper, Jefferson, Jo Daviess, Johnson, Kane, Kankakee, Kendall, Knox, Lake, La Salle, Lawrence, Lee, Livingston, Logan, McHenry, McLean, Macon, Madison, Mason, Massac, Menard, Mercer, Monroe, Montgomery, Morgan, Moultrie, Ogle, Perry, Pulaski, Putnam, Randolph, Richland, Rock Island, St. Clair, Saline, Shelby, Stark, Stephenson, Tazewell, Union, Vermilion, Wabash, Washington, Wayne, Whiteside, Will, Williamson, Winnebago, and Woodford Counties.

Indiana: The entire State.

Iowa: Audubon, Carroll, Clinton, Delaware, Dickinson, Emmet, Fayette, Greene, Hamilton, Lyon, Mitchell, Monona, O'Brien, Osceola, Palo Alto, Pocahontas, Polk, Sac, Scott, Wapello, Warren, Winnebago, Woodbury, and Wright Counties.

Kansas: Barton, Cheyenne, Clark, Clay, Comanche, Decatur, Ford, Franklin, Geary, Gove, Graham, Gray, Greeley, Hamilton, Harper, Haskell, Jefferson, Johnson, Kearney, Kingman, Kiowa, Leavenworth, Logan, Marshall, Meade, Miami, Mitchell, Morris, Morton, Nemaha, Norton, Osage, Osborne, Pawnee, Rawlins, Reno, Rice, Rooks, Sheridan, Sherman, Smith, Thomas, Trego, Wallace, Wichita, and Wyandotte Counties.

Kentucky: Allen, Anderson, Ballard, Barren, Boone, Boyd, Bracken, Breathitt, Breckinridge, Butler, Calloway, Campbell, Carlisle, Carroll, Carter, Clinton, Crittenden, Cumberland, Edmonson, Elliott, Estill, Floyd, Franklin, Fulton, Gallatin, Grant, Graves, Green, Greenup, Hardin, Harrison, Hart, Henderson, Henry, Hickman, Hopkins, Jackson, Jefferson, Johnson, Kenton, Knott, Knox, Larue, Laurel, Lawrence, Leslie, Letcher, Lincoln, Livingston, Logan, McCracken, McCreary, McLean, Magoffin, Marion, Marshall, Martin, Mason, Meade, Menifee, Mercer, Metcalf, Monroe, Morgan, Muhlenberg, Nelson, Ohio, Oldham, Owen, Pendleton, Perry, Pulaski, Robertson, Rockcastle, Rowan, Shelby, Simpson, Spencer, Todd, Trigg, Trimble, Warren, Washington, Wayne, Webster, Whitley, and Wolfe Counties.

Louisiana: Ascension, Assumption, Claiborne, St. Helena, St. John the Baptist, and Webster Parishes.

Maine: The entire State.

Maryland: The entire State.

Massachusetts: The entire State.

Michigan: The entire State.

Minnesota: The entire State.

Mississippi: Alcorn, Amite, Attala, Benton, Choctaw, Clay, DeSoto, Forrest, Franklin, George, Greene, Hancock, Harrison, Itawamba, Jackson, Jasper, Jefferson Davis, Jones, Lamar, Lawrence, Leake, Lee, Lowndes, Marion, Neshoba, Newton, Oktibbeha, Pearl River, Perry, Pike, Pontotoc, Prentiss, Smith, Stone, Tallahatchie, Tippah, Tishomingo, Union, Walthall, Webster, Winston, and Yalobusha Counties.

Missouri: Adair, Andrew, Barry, Bates, Bollinger, Boone, Buchanan, Caldwell, Callaway, Camden, Cape Girardeau, Carter, Cass, Cedar, Chariton, Christian, Clark, Clinton, Cole, Cooper, Crawford, Dallas, Daviess, Dent, Douglas, Dunklin, Gasconade, Gentry, Grundy, Harrison, Henry, Hickory, Holt, Howard, Iron, Jasper, Jefferson, Johnson, Lafayette, Lawrence, Lincoln, Linn, Livingston, McDonald, Macon, Madison, Maries, Marion, Mercer, Miller, Moniteau, Montgomery, New Madrid, Newton, Oregon, Ozark, Pemiscot, Perry, Phelps, Platte, Polk, Pulaski, Ralls, Randolph, Ray, Reynolds, Ripley, St. Charles, St. Francois, St. Genevieve, St. Louis, Scotland, Scott, Stoddard, Stone, Sullivan, Taney, Texas, Vernon, Warren, Washington, Wayne, and Wright Counties.

Montana: Beaverhead, Big Horn, Blaine, Broadwater, Carbon, Carter, Cascade, Chouteau, Daniels, Dawson, Deer Lodge, Fallon, Fergus, Flathead, Gallatin, Garfield, Glacier, Golden Valley, Granite, Hill, Jefferson, Judith Basin, Lake, Lewis and Clark, Liberty, Lincoln, McCone, Madison, Meagher, Mineral, Missoula, Musselshell, Park, Petroleum, Phillips, Pondera, Powell, Prairie, Ravalli, Richland, Roosevelt, Rosebud, Sanders, Sheridan, Silver Bow, Stillwater, Sweet Grass, Teton, Toole, Treasure, Valley, Wheatland, Wibaux, and Yellowstone Counties.

Nebraska: Adams, Banner, Burt, Butler, Cass, Cedar, Chase, Cheyenne, Clay, Colfax, Cuming, Dakota, Deuel, Dixon, Dodge, Douglas, Dundy, Fillmore, Franklin, Furnas, Gage, Gosper, Hall, Hamilton, Harlan, Hitchcock, Howard, Jefferson, Johnson, Kimball, Lancaster, Madison, Merrick, Nance, Nemaha, Nuckolls, Otoe, Pawnee, Perkins, Pierce, Platte, Polk, Richardson, Saline, Sarpy, Saunders, Seward, Stanton, Thayer, Thurston, Washington, Wayne, Webster, and York Counties.

Nevada: The entire State.

New Hampshire: The entire State.

New Jersey: The entire State.

New Mexico: The entire State.

New York: The entire State.

North Carolina: The entire State.

North Dakota: Adams, Barnes, Benson, Bottineau, Bowman, Burke, Cass, Cavalier, Divide, Dunn, Eddy, Emmons, Foster, Grand Forks, Grant, Griggs, Hettinger, McHenry, McKenzie, McLean, Mercer, Morton, Mountrail, Nelson, Oliver, Pembina, Pierce, Ramsay, Ransom, Renville, Richland, Rolette, Sargent, Sheridan, Sioux, Slope, Stark, Steele,

Traill, Walsh, Ward, Wells, and Williams Counties.

Ohio: Allen, Athens, Auglaize, Belmont, Butler, Carroll, Champaign, Clark, Clinton, Columbiana, Coshocton, Crawford, Cuyahoga, Darke, Defiance, Delaware, Fayette, Franklin, Fulton, Greene, Guernsey, Hancock, Hardin, Harrison, Henry, Hocking, Knox, Lake, Licking, Logan, Lorain, Lucas, Mahoning, Marion, Medina, Meigs, Mercer, Miami, Monroe, Montgomery, Morgan, Morrow, Muskingum, Noble, Ottawa, Paulding, Perry, Pickaway, Pike, Portage, Preble, Putnam, Ross, Sandusky, Scioto, Seneca, Shelby, Stark, Summit, Tuscarawas, Union, Van Wert, Vinton, Warren, Washington, Williams, Wood, and Wyandot Counties.

Oklahoma: Adair, Choctaw, Cimarron, Delaware, Mayes, and Nowata Counties.

Oregon: The entire State.

Pennsylvania: The entire State.

Rhode Island: The entire State.

South Carolina: Abbeville, Aiken, Allendale, Bamberg, Barnwell, Beaufort, Berkeley, Calhoun, Charleston, Cherokee, Chester, Chesterfield, Clarendon, Colleton, Darlington, Dillon, Edgefield, Florence, Georgetown, Greenwood, Hampton, Horry, Jasper, Kershaw, Lancaster, Laurens, Lee, Lexington, McCormick, Marion, Marlboro, Newberry, Orangeburg, Pickens, Richland, Saluda, Spartanburg, Sumter, Union, Williamsburg, and York Counties.

South Dakota: Brookings, Buffalo, Butte, Campbell, Clay, Codington, Custer, Day, Deuel, Edmunds, Faulk, Hamlin, Harding, Lawrence, Lincoln, McPherson, Marshall, Miner, Minnehaha, Moody, Perkins, Roberts, Turner, Union, and Walworth Counties.

Tennessee: The entire State.

Texas: Andrews, Bandera, Baylor, Blanco, Borden, Brewster, Brown, Burnet, Childress, Coke, Coleman, Concho, Cottle, Crane, Crockett, Culberson, Dallam, Dawson, Ector, Edwards, El Paso, Fisher, Gillespie, Glascock, Hardeman, Hartley, Haskell, Howard, Hudspeth, Irion, Jeff Davis, Kendall, Kerr, Kimble, King, Kinney, Lampasas, Lipscomb, Llano, Loving, McCulloch, Martin, Mason, Menard, Midland, Mills, Mitchell, Motley, Nolan, Ochiltree, Oldham, Parmer, Pecos, Presidio, Reagan, Real, Reeves, Runnels, San Saba, Schleicher, Scurry, Shackelford, Stephens, Sterling, Stonewall, Sutton, Taylor, Terrell, Throckmorton, Tom Green, Upton, Val Verde, Ward, Winkler, and Young Counties.

Utah: The entire State.

Vermont: The entire State.

Virginia: Accomack, Alleghany, Amelia, Appomattox, Arlington, Augusta, Bath, Bedford, Bland, Botetourt, Brunswick, Buchanan, Buckingham, Campbell, Caroline, Carroll, Charles City, Chesterfield, Clarke, Craig, Culpeper, Cumberland, Dickenson, Dinwiddie, Essex, Fairfax, Fluvanna, Franklin, Frederick, Giles, Gloucester, Greene, Greensville, Halifax, Hanover, Henrico, Highland, Isle of Wight, James City, King and Queen, King George, King William, Lancaster, Lee, Loudoun, Louisa, Lunenburg, Madison, Mathews, Mecklenburg, Middlesex, Nansemond, Nelson, New Kent, Norfolk, Northampton, Northumberland, Nottoway, Orange, Page, Pittsylvania, Powhatan, Prince George, Prince William, Princess Anne, Pulaski, Rappahannock, Richmond, Roanoke, Rockingham, Scott, Southampton, Spotsylvania, Stafford, Surry, Sussex, Warren, Washington, Westmoreland, Wise, Wythe, and York Counties; City of Hampton, and City of Newport News.

Washington: The entire State.

West Virginia: The entire State.

Wisconsin: The entire State.

Wyoming: Albany, Big Horn, Campbell, Crook, Fremont, Hot Springs, Laramie, Lincoln, Niobrara, Park, Sweetwater, Teton, Uinta, Washakie, and Weston Counties.

Puerto Rico: The entire area.

Virgin Islands of the United States: The entire area.

(Secs. 4, 5, 23 Stat. 32, as amended, secs. 1, 2, 32 Stat. 791–792, as amended, sec. 3, 33 Stat. 1265, as amended, sec. 13, 65 Stat. 693; 21 U.S.C. 111–113, 114a-1, 120, 121, 125; 19 F.R. 74, as amended; 9 CFR 78.16)

Effective date. The foregoing amendment shall become effective upon publication in the FEDERAL REGISTER.

The amendment adds the following additional areas to the list of areas designated as modified certified brucellosis areas because it has been determined that such areas come within the definition of § 78.1(i): Barbour, Cullman, and Limestone Counties in Alabama; Crittenden, Cross, and St. Francis Counties in Arkansas; Riverside and San Bernardino Counties in California; De Witt, Mercer, and Stark Counties in Illinois; Gibson County in Indiana; Greene County in Iowa; Comanche, Graham, Hamilton, Kiowa, Morton, and Norton Counties in Kansas; Clinton, Estill, Henderson, Letcher, Mason, Menifee, Monroe, and Nelson Counties in Kentucky; Callaway, Holt, Miller, and Sullivan Counties in Missouri; Cheyenne County in Nebraska; McLean and Ransom Counties in North Dakota; Butler and Warren Counties in Ohio; Nowata County in Oklahoma; Aiken, Charleston, and Williamsburg Counties in South Carolina; Hardeman, Mills, Parmer, and Val Verde Counties in Texas; Halifax, and Lunenburg Counties in Virginia; and Teton County in Wyoming.

The amendment deletes the following areas from the list of areas designated as modified certified brucellosis areas because it has been determined that such areas no longer come within the definition of § 78.1(i): Monroe County in Mississippi; Carroll, Dade, Morgan, Pettis, Putnam, and Shelby Counties in Missouri; Towner County in North Dakota; Jackson County in Ohio; and Grant County in South Dakota.

Certain Indian reservations in Wyoming, heretofore specifically designated as modified certified brucellosis areas, are within counties so designated, therefore, specific reference to said reservations in this section has been discontinued.

The amendment imposes certain restrictions necessary to prevent the spread of brucellosis in cattle and relieves certain restrictions presently imposed. It should be made effective promptly in order to accomplish its purpose in the public interest and to be of maximum benefit to persons subject to the restrictions which are relieved. Accordingly, under section 4 of the Administrative Procedure Act (5 U.S.C. 1003), it is found upon good cause that notice and other public procedure with respect to the amendment are impracticable and contrary to the public interest, and good cause is found for making the amendment effective less than 30 days after publication in the FEDERAL REGISTER.

Done at Washington, D.C., this 7th day of February 1962.

F. J. MULHERN,
Director, Animal Disease Eradication Division, Agricultural Research Service.

Title 14—AERONAUTICS AND SPACE

Chapter I—Federal Aviation Agency

[Reg. Docket No. 652; Amdt. 40-8]

PART 40—SCHEDULED INTERSTATE AIR CARRIER CERTIFICATION AND OPERATION RULES

Mechanical Reliability Reports

The Federal Aviation Agency published as a notice of proposed rule making (26 F.R. 1410) and circulated as Civil Air Regulations Draft Release No. 61-2 dated February 8, 1961, a proposal to amend Parts 40, 41, 42, and 46 of the Civil Air Regulations to establish requirements for the reporting of specific types of malfunctions, failures, and defects occurring to airplanes.

With the adoption of this amendment, it should be noted that the title, Daily Mechanical Report (DMR), is changed and will hereafter be known as the Mechanical Reliability Report (MRR). The Federal Aviation Agency believes the name to be appropriate in that it is more descriptive of the concept of the report.

The currently effective provisions of Part 40 require operators to submit daily a report known as a daily mechanical report (DMR) which contains information concerning each failure, malfunctioning, or other defect, regardless of where detected, which may reasonably be expected by the air carrier to cause a serious hazard in the operation of an airplane.

The lack of specific reporting requirements and the fact that each air carrier reported only those items which, in the opinion of the air carrier, constitute a hazard, heretofore resulted in inadequate and nonuniform reporting. Various attempts were made to correct these inadequacies, such as joint industry-government meetings and the use of a trial reporting guide for a six-month period. Some improvement in reporting was accomplished; however, satisfactory reporting was not achieved. In accordance with the proposal contained in Draft Release 61-2, this amendment specifies certain airplane and airplane component failures, malfunctions, or defects which must be reported by air carriers in mechanical reliability reports. In addition, an air carrier is required to report other airplane and airplane component failures, malfunctions, or defects, even though they are not specified in the rule, when the air carrier is of the opinion that they may seriously endanger the safe operation of its airplanes.

In Draft Release 61-2 it was proposed to require air carriers to report engine shutdowns during flight necessitated or caused by airplane component failure, malfunction, or defect. Although the Agency evaluates the significance of every engine shutdown, regardless of cause or effect, it has been determined that it is presently not necessary to require all engine shutdowns to be included in mechanical reliability reports. Accordingly, in this amendment, the proposed rule has been changed to require mandatory reporting of engine shutdowns only when they involve engine flameout, foreign object ingestion or icing, external damage to the engine or airplane structure, or when more than one engine is shutdown during flight. Paragraph (b)(17) of § 40.508 has been worded to make it clear that action taken to shutdown an engine in flight need not be reported as an emergency action under the requirements of that provision.

Draft Release 61-2 contained a proposal to require reports of failures of the landing gear to extend or retract properly during flight. To avoid any misunderstanding of our intention that landing-gear doors be included in this reporting requirement, this final rule expressly provides for reporting the occurrence of a failure, malfunction, or defect which involves the extension or retraction of the landing gear, or the opening or closing of the landing-gear doors during flight.

Also, it will be noted that paragraph (b)(15) of § 40.508 has been changed from the original proposal so that failures, malfunctions, or defects in airplane structures are required to be reported only if a major repair is necessary.

Many failures, malfunctions, or defects are required to be included in the mechanical reliability report only if they occur during "flight." A note has been added to the rule to explain that in complying with the reporting requirements of § 40.508 an airplane is to be considered in "flight" from the moment it leaves the surface of the earth on takeoff until it touches down at a place of landing.

Attention is directed to the fact that Draft Release 61-2 proposed 13 specific reporting items while this amendment contains 17 reportable items. This increase in the number of items is the result of rewording and expanding the previous items to facilitate administrative handling of the reports within the Agency with automatic data processing equipment.

Another change has been made in this amendment which differs from the original proposal. This change provides that the report shall cover a 24-hour period beginning at 0900 hours local time each day and is to be submitted by 0900 hours of the following day rather than the midnight to midnight report period proposed. In this respect, local time is considered to be the time at each air carrier's main maintenance base. This revision does not alter the 24-hour interval made in the proposal, but is incorporated so that the reports can be handled more expeditiously by the Agency under its new automatic data processing system for evaluating individual reports and for distributing mechanical reliability report summaries.

Each air carrier is presently required by paragraph (a) of § 40.509 (Mechanical interruption summary report) to regularly file a summary report of "All interruptions to a scheduled flight, unscheduled changes of airplanes en route, and unscheduled stops and diversions from route which result from known or suspected mechanical difficulties or malfunctions." In response to comment received, paragraph (a) of § 40.509 is being amended to avoid duplicate reporting under paragraph (a) of those malfunctions or mechanical difficulties required to be reported under § 40.508.

The Federal Aviation Agency believes that reports of the failures, malfunctions, and defects required under this amendment, plus additional reports received from the air carriers regarding other occurrences of failures, malfunctions, and defects they consider hazardous, will provide complete, accurate, and uniform reporting. Safety will be served better by this amended reporting procedure as the Agency will be able to disseminate to industry improved reports of hazardous conditions pertaining to airplane systems, components, and equipment. In addition, through analysis of information developed from reports received, the Agency will be able to detect deteriorating conditions in airplane systems, components, and equipment, and issue Airworthiness Directives and Alert Notices before such conditions reach hazardous proportions.

Interested persons have been afforded an opportunity to participate in the making of this amendment and due consideration has been given to all relevant matter presented.

In consideration of the foregoing, Part 40 of the Civil Air Regulations (14 CFR Part 40, as amended) is hereby amended as follows, effective March 12, 1962:

1. By amending § 40.508 to read as follows:

§ 40.508 Mechanical reliability reports.

(a) Each air carrier shall report the occurrence or detection of those failures, malfunctions, or defects specified in paragraph (b) of this section. In addition, each air carrier shall report any other failure, malfunction, or defect which occurs or is detected at any time in an airplane or airplane component (including airplane systems, appliances, powerplants, and propellers) used by the air carrier, when, in the carrier's opinion, such failure, malfunction, or defect has endangered or may endanger the safe operation of an airplane used by the air carrier. The report shall be in written form covering a period of 24 hours beginning at 0900 hours local time of each day and ending at 0900 hours local time the next day, and shall be submitted to the Federal Aviation Agency maintenance inspector assigned to the air carrier by 0900 hours local time of the following day: *Provided,* That reports which are due on Saturday or Sunday may be submitted on the following Monday and in case of legal holidays on the following workday.

NOTE: Failures, malfunctions, or defects reported in accordance with the accident reporting provisions of Part 320 of the regulations of the Civil Aeronautics Board need not be included.

(b) The air carrier shall report each occurrence or detection of a failure, malfunction, or defect involving:

(1) Fires during flight and whether the related fire-warning system functioned properly;

(2) Fires during flight and whether the related fire-warning system did not function properly;

(3) Fires during flight not protected by a related fire-warning system;

(4) False fire warning during flight.

(5) Engine exhaust systems which result during flight in damage to engine, adjacent structure, equipment, or components;

(6) An airplane component which results during flight in the accumulation or circulation of smoke, vapor, or toxic or noxious fumes in the crew compartment of cabin;

(7) Engine shutdown during flight due to engine flameout;

(8) Engine shutdown during flight when external damage to the engine or to the airplane structure has occurred;

(9) Engine shutdown during flight due to foreign object ingestion or icing;

(10) Engine shutdown during flight of more than one engine on an airplane;

(11) Propeller feathering system or ability of the system to control overspeeding during flight;

(12) Fuel or fuel-dumping systems affecting fuel flow or causing hazardous leakage during flight;

(13) Landing gear extension or retraction or opening or closing of landing-gear doors during flight;

(14) Brake system components which result in loss of brake actuating force while the airplane is in motion on the ground;

(15) Airplane structure which requires major repair;

(16) Cracks, permanent deformation, or corrosion of airplane structure which exceed the maximum limits acceptable to the manufacturer or the Federal Aviation Agency; and

(17) Airplane components or systems which result during flight in the taking of emergency actions; except that action taken to shutdown an engine need not be reported as an emergency under this provision.

NOTE: Under the provisions of this paragraph, an airplane is in flight from the moment it leaves the surface of the earth on takeoff until it touches down at a place of landing.

(c) Reports required by paragraph (a) of this section shall be transmitted in a manner and on a form convenient to the air carrier's system of communication and procedure, and shall include in the first daily report as much of the following information as is available:

(1) Type and identification number of the airplane, name of the operator, date, flight number, and stage during which the incident occurred; e.g., preflight, takeoff, climb, cruise, descent, landing, inspection;

(2) Emergency procedure effected; e.g., unscheduled landing, emergency descent;

(3) Nature of condition; e.g., fire, structural failure;

(4) Identification of part and system involved, including available information pertaining to type designation of the major component and time since overhaul;

(5) Apparent cause of trouble; e.g., wear, crack, design deficiency, personnel error;

(6) Disposition; e.g., repaired, replaced, airplane grounded, part sent to manufacturer; and

(7) Brief narrative summary of other pertinent information necessary for more complete identification, determination of seriousness, and corrective action.

(d) Reports required by paragraph (a) shall not be withheld pending accumulation of all information specified in paragraphs (b) and (c) of this section. When additional information is obtained relative to the incident, including any that may be furnished by the manufacturer or other outside agency, it shall be expeditiously submitted as a supplement to the first report, referencing the date and place of submission of such report.

2. By amending § 40.509(a) to read as follows:

§ 40.509 Mechanical interruption summary report.

* * * * *

(a) All interruptions to a scheduled flight, unscheduled changes of airplanes en route, and unscheduled stops and diversions from route which result from known or suspected mechanical difficulties or malfunctions that are not required to be included in mechanical reliability reports.

The reporting requirements contained herein have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

(Secs. 311, 313(a), 601, 605; 72 Stat. 751, 752, 775, 778; 49 U.S.C. 1352, 1354, 1421, 1425)

Issued in Washington, D.C., on February 6, 1962.

N. E. HALABY,
Administrator.

[Reg. Docket No. 652; Amdt. 41-43; Supp. 32]

PART 41—CERTIFICATION AND OPERATION RULES FOR SCHEDULED AIR CARRIER OPERATIONS OUTSIDE THE CONTINENTAL LIMITS OF THE UNITED STATES

Mechanical Reliability Reports

The Federal Aviation Agency published as a notice of proposed rule making (26 F.R. 1410) and circulated as Civil Air Regulations Draft Release No. 61-2 dated February 8, 1961, a proposal to amend Parts 40, 41, 42, and 46 of the Civil Air Regulations to establish requirements for the reporting of specific types of malfunctions, failures, and defects occurring to airplanes.

With the adoption of this amendment, it should be noted that the title, Daily Mechanical Report (DMR), is changed and will hereafter be known as the Mechanical Reliability Report (MRR). The Federal Aviation Agency believes the name to be appropriate in that it is more descriptive of the concept of the report.

The currently effective provisons of Part 41 require operators to submit daily a report known as a daily mechanical report (DMR) which contains information concerning each failure, malfunctioning, or other defect, regardless of where detected, which may reasonably be expected by the air carrier to cause a serious hazard in the operation of an airplane.

The lack of specific reporting requirements and the fact that each air carrier reported only those items which, in the opinion of the air carrier, constitute a hazard, heretofore resulted in inadequate and nonuniform reporting. Various attempts were made to correct these inadequacies, such as joint industry-government meetings and the use of a trial reporting guide for a six-month period. Some improvement in reporting was accomplished; however, satisfactory reporting was not achieved. In accordance with the proposal contained in Draft Release 61-2, this amendment specifies certain airplane and airplane component failures, malfunctions, or defects which must be reported by air carriers in mechanical reliability reports. In addition, an air carrier is required to report other airplane and airplane component failures, malfunctions, or defects, even though they are not specified in the rule, when the air carrier is of the opinion that they may seriously endanger the safe operation of its airplanes.

In Draft Release 61-2 it was proposed to require air carriers to report engine shutdowns during flight necessitated or caused by airplane component failure, malfunction, or defect. Although the Agency evaluates the significance of every engine shutdown, regardless of cause or effect, it has been determined that it is presently not necessary to require all engine shutdowns to be included in mechanical reliability reports. Accordingly, in this amendment, the proposed rule has been changed to require mandatory reporting of engine shutdowns only when they involve engine flameout, foreign object ingestion or icing, external damage to the engine or airplane structure, or when more than one engine is shutdown during flight. Paragraph (b)(17) of § 41.130 has been worded to make it clear that action taken to shutdown an engine in flight need not be reported as an emergency action under the requirements of that provision.

Draft Release 61-2 contained a proposal to require reports of failures of the landing gear to extend or retract properly during flight. To avoid any misunderstanding of our intention that landing-gear doors be included in this reporting requirement, this final rule expressly provides for reporting the occurrence of a failure, malfunction, or defect which involves the extension or retraction of the landing gear, or the opening or closing of the landing-gear doors during flight.

Also, it will be noted that paragraph (b)(15) of § 41.130 has been changed from the original proposal so that failures, malfunctions, or defects in airplane structures are required to be reported only if a major repair is necessary.

Many failures, malfunctions, or defects are required to be included in the mechanical reliability report only if they occur during "flight." A note has been added to the rule to explain that in complying with the reporting requirements of § 41.130 an airplane is to be considered in "flight" from the moment it leaves the surface of the earth on takeoff until it touches down at a place of landing.

Attention is directed to the fact that Draft Release 61-2 proposed 13 specific reporting items while this amendment contains 17 reportable items. This increase in the number of items is the result of rewording and expanding the previous items to facilitate administrative handling of the reports within the Agency with automatic data processing equipment.

Another change has been made in this amendment which differs from the original proposal. This change provides that the report shall cover a 24-hour period beginning at 0900 hours local time each day and is to be submitted by 0900 hours of the following day rather than the midnight to midnight report period proposed. In this respect, local time is considered to be the time at each air carrier's main maintenance base. This revision does not alter the 24-hour interval made in the proposal, but is incorporated so that the reports can be handled more expeditiously by the Agency under its new automatic data processing system for evaluating individual reports and for distributing mechanical reliability report summaries.

The currently effective provisions governing daily mechanical reports are set forth in the manual material in § 41.130-1(a). For purposes of consolidation and clarification, we are taking this opportunity to delete § 41.130-1(a) and incorporate in § 41.130 of the basic regulation all of the requirements prescribed in this amendment for mechanical reliability reports.

Likewise, requirements for daily reports concerning chronic mechanical difficulties are currently prescribed in the manual material in § 41.130-1(b). For purposes of consolidation and clarification, we are also deleting § 41.130-1(b) and incorporating the substance of that reporting requirement in a new § 41.130a which is being added to the basic regulation. While the title and phraseology of new § 41.130a have been changed to achieve regulatory uniformity, the substantive requirements of the amended rule are the same as those currently contained in the manual material in § 41.130-1.

It will be noted that the provisions of § 41.130a prescribe, in order to avoid duplicate reporting, that those malfunctions or mechanical difficulties reported in mechanical reliability reports need not be reported under the requirements of § 41.130a(a).

The Federal Aviation Agency believes that reports of the failures, malfunctions, and defects required under this amendment, plus additional reports received from the air carriers regarding other occurrences of failures, malfunctions, and defects they consider hazardous, will provide complete, accurate, and uniform reporting. Safety will be served better by this amended reporting procedure as the Agency will be able to disseminate to industry improved reports of hazardous conditions pertaining to airplane systems, components, and equipment. In addition, through analysis of information developed from reports received, the Agency will be able to detect deteriorating conditions in airplane systems, components, and equipment, and issue Airworthiness Directives and Alert Notices before such conditions reach hazardous proportions.

Interested persons have been afforded an opportunity to participate in the making of this amendment and due consideration has been given to all relevant matter presented.

In consideration of the foregoing, Part 41 of the Civil Air Regulations (14 CFR Part 41, as amended) is hereby amended as follows, effective March 12, 1962:

1. By amending § 41.130 to read as follows:

§ 41.130 Mechanical reliability reports.

(a) Each air carrier shall report the occurrence or detection of those failures, malfunctions, or defects specified in paragraph (b) of this section. In addition, each air carrier shall report any other failure, malfunction, or defect which occurs or is detected at any time in an airplane or airplane component (including airplane systems, appliances, powerplants, and propellers) used by the air carrier, when, in the carrier's opinion, such failure, malfunction, or defect has endangered or may endanger the safe operation of an airplane used by the air carrier. The report shall be in written form covering a period of 24 hours beginning at 0900 hours local time of each day and ending at 0900 hours local time the next day, and shall be submitted to the Federal Aviation Agency maintenance inspector assigned to the air carrier by 0900 hours local time of the following day: *Provided*, That reports which are due on Saturday or Sunday may be submitted on the following Monday and in case of legal holidays on the following workday.

NOTE: Failures, malfunctions, or defects reported in accordance with the accident reporting provisions of Part 320 of the regulations of the Civil Aeronautics Board need not be included.

(b) The air carrier shall report each occurrence or detection of a failure, malfunction, or defect involving:

(1) Fires during flight and whether the related fire-warning system functioned properly;

(2) Fires during flight and whether the related fire-warning system did not function properly;

(3) Fires during flight not protected by a related fire-warning system;

(4) False fire warning during flight;

(5) Engine exhaust systems which result during flight in damage to engine, adjacent structure, equipment, or components;

(6) An airplane component which results during flight in the accumulation or circulation of smoke, vapor, or toxic or noxious fumes in the crew compartment or cabin;

(7) Engine shutdown during flight due to engine flameout;

(8) Engine shutdown during flight when external damage to the engine or to the airplane structure has occurred;

(9) Engine shutdown during flight due to foreign object ingestion or icing;

(10) Engine shutdown during flight of more than one engine on an airplane;

(11) Propeller feathering system or ability of the system to control overspeeding during flight;

(12) Fuel or fuel-dumping systems affecting fuel flow or causing hazardous leakage during flight;

(13) Landing gear extension or retraction or opening or closing of landing-gear doors during flight;

(14) Brake system components which result in loss of brake actuating force while the airplane is in motion on the ground;

(15) Airplane structure which requires major repair;

(16) Cracks, permanent deformation, or corrosion of airplane structure which exceed the maximum limits acceptable to the manufacturer or the Federal Aviation Agency; and

(17) Airplane components or systems which result during flight in the taking of emergency actions; except that action taken to shutdown an engine need not be reported as an emergency under this provision:

NOTE: Under the provisions of this paragraph, an airplane is in flight from the moment it leaves the surface of the earth on takeoff until it touches down at a place of landing.

(c) Reports required by paragraph (a) of this section shall be transmitted in a manner and on a form convenient to the air carrier's system of communication and procedure, and shall include in the first daily report as much of the following information as is available:

(1) Type and identification number of the airplane, name of the operator, date, flight number, and stage during which the incident occurred; e.g., preflight, takeoff, climb, cruise, descent, landing, inspection;

(2) Emergency procedure effected; e.g., unscheduled landing, emergency descent;

(3) Nature of condition; e.g., fire, structural failure;

(4) Identification of part and system involved, including available information pertaining to type designation of the major component and time since overhaul;

(5) Apparent cause of trouble; e.g., wear, crack, design deficiency, personnel error;

(6) Disposition; e.g., repaired, replaced, airplane grounded, part sent to manufacturer; and

(7) Brief narrative summary of other pertinent information necessary for more complete identification, determination of seriousness, and corrective action.

(d) Reports required by paragraph (a) shall not be withheld pending accumulation of all information specified in paragraphs (b) and (c) of this section. When additional information is obtained relative to the incident, including any that may be furnished by the manufacturer or other outside agency, it shall be expeditiously submitted as a supplement to the first report, referencing the date and place of submission of such report.

2. By adding a new § 41.130a to read as follows:

§ 41.130a Mechanical interruption summary report.

Each air carrier shall submit regularly and promptly to the Administrator a summary report containing information on the following occurrences:

(a) All interruptions to a scheduled flight, unscheduled changes of airplanes en route, and unscheduled stops and diversions from route which result from known or suspected mechanical difficulties or malfunctions that are not required to be included in mechanical reliability reports.

(b) The number of engines removed prematurely because of mechanical trouble, listed by make and model of engine and the airplane type in which the engine was installed.

(c) The number of propeller featherings in flight, listed by type of propeller and type of engine and the airplane on which the propeller is installed. Propeller featherings accomplished for training, demonstration, or flight check purposes need not be reported.

§ 41.130-1 [Deletion]

3. By deleting § 41.130-1.

The reporting requirements contained herein have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

(Secs. 311, 313(a), 601, 605; 72 Stat. 751, 752, 775, 778; 49 U.S.C. 1352, 1354, 1421, 1425)

Issued in Washington, D.C., on February 6, 1962.

N. E. HALABY,
Administrator.

[Reg. Docket No. 652; Amdt. 42-38; Supp. 46]

PART 42—IRREGULAR AIR CARRIER AND OFF-ROUTE RULES

Mechanical Reliability Reports

The Federal Aviation Agency published as a notice of proposed rule making (26 F.R. 1410) and circulated as Civil Air Regulations Draft Release No. 61-2 dated February 8, 1961, a proposal to amend Parts 40, 41, 42, and 46 of the Civil Air Regulations to establish requirements for the reporting of specific types of malfunctions, failures, and defects occurring to aircraft.

With the adoption of this amendment, it should be noted that the title, Daily Mechanical Report (DMR), is changed and will hereafter be known as the Mechanical Reliability Report (MRR). The Federal Aviation Agency believes the name to be appropriate in that it is more descriptive of the concept of the report.

The currently effective provisions of Part 42 require operators to submit daily a report known as a daily mechanical report (DMR) which contains information concerning each failure, malfunctioning, or other defect, regardless of where detected, which may reasonably be expected by the air carrier to cause a serious hazard in the operation of an aircraft.

The lack of specific reporting requirements and the fact that each air carrier reported only those items which, in the opinion of the air carrier, constitute a hazard, heretofore resulted in inadequate and nonuniform reporting. Various attempts were made to correct these inadequacies, such as joint industry-government meetings and the use of a trial reporting guide for a six-month period. Some improvement in reporting was accomplished; however, satisfactory reporting was not achieved. In accordance with the proposal contained in Draft Release 61–2, amendment specifies certain aircraft and aircraft component failures, malfunctions, or defects which must be reported by air carriers in mechanical reliability reports. In addition, an air carrier is required to report other aircraft and aircraft component failures, malfunctions, or defects, even though they are not specified in the rule, when the air carrier is of the opinion that they may seriously endanger the safe operation of its aircraft.

In Draft Release 61–2 it was proposed to require air carriers to report engine shutdowns during flight necessitated or caused by aircraft component failure, malfunction, or defect. Although the Agency evaluates the significance of every engine shutdown, regardless of cause or effect, it has been determined that it is presently not necessary to require all engine shutdowns to be included in mechanical reliability reports. Accordingly, in this amendment, the proposed rule has been changed to require mandatory reporting of engine shutdowns only when they involve engine flameout, foreign object ingestion or icing, external damage to the engine or aircraft structure, or when more than one engine is shutdown during flight. Paragraph (b)(17) of § 42.96 has been worded to make it clear that action taken to shutdown an engine in flight need not be reported as an emergency action under the requirements of that provision.

Draft Release 61–2 contained a proposal to require reports of failures of the landing gear to extend or retract properly during flight. To avoid any misunderstanding of our intention that landing-gear doors be included in this reporting requirement, this final rule expressly provides for reporting the occurrence of a failure, malfunction, or defect which involves the extension or retraction of the landing gear, or the opening or closing of the landing-gear doors during flight.

Also, it will be noted that paragraph (b)(15) of § 42.96 has been changed from the original proposal so that failures, malfunctions, or defects in aircraft structures are required to be reported only if a major repair is necessary.

Many failures, malfunctions, or defects are required to be included in the mechanical reliability report only if they occur during "flight." A note has been added to the rule to explain that in complying with the reporting requirements of § 42.96 an aircraft is to be considered in "flight" from the moment it leaves the surface of the earth on takeoff until it touches down at a place of landing.

Attention is directed to the fact that Draft Release 61–2 proposed 13 specific reporting items while this amendment contains 17 reportable items. This increase in the number of items is the result of rewording and expanding the previous items to facilitate administrative handling of the reports within the Agency with automatic data processing equipment.

Another change has been made in this amendment which differs from the original proposal. This change provides that the report shall cover a 24-hour period beginning at 0900 hours local time each day and is to be submitted by 0900 hours of the following day rather than the midnight to midnight report period proposed. In this respect, local time is considered to be the time at each air carrier's main maintenance base. This revision does not alter the 24-hour interval made in the proposal, but is incorporated so that the reports can be handled more expeditiously by the Agency under its new automatic data processing system for evaluating individual reports and for distributing mechanical reliability report summaries.

The currently effective provisions governing daily mechanical reports are set forth in the manual material in § 42.96–1. For purposes of consolidation and clarification, we are taking this opportunity to delete § 42.96–1 and incorporate in § 42.96 of the basic regulation all of the requirements prescribed in this amendment for mechanical reliability reports.

Likewise, requirements for a monthly report of chronic mechanical difficulties are currently prescribed in the manual material in § 42.96–1. For purposes of consolidation and clarification, this monthly reporting requirement is also being set forth, without substantive change, in a new § 42.96a which is being added to the basic regulation.

The Federal Aviation Agency believes that reports of the failures, malfunctions, and defects required under this amendment, plus additional reports received from the air carriers regarding other occurrences of failures, malfunctions, and defects they consider hazardous, will provide complete, accurate, and uniform reporting. Safety will be served better by this amended reporting procedure as the Agency will be able to disseminate to industry improved reports of hazardous conditions pertaining to aircraft systems, components, and equipment. In addition, through analysis of information developed from reports received, the Agency will be able to detect deteriorating conditions in aircraft systems, components, and equipment, and issue Airworthiness Directives and Alert Notices before such conditions reach hazardous proportions.

Interested persons have been afforded an opportunity to participate in the making of this amendment and due consideration has been given to all relevant matter presented. Since the portion of the amendment pertaining to the monthly report of chronic mechanical difficulties is minor in nature and imposes no additional burden on any person, I find that notice and public procedure hereon is unnecessary.

In consideration of the foregoing, Part 42 of the Civil Air Regulations (14 CFR Part 42, as amended) is hereby amended as follows, effective March 12, 1962:

1. By amending § 42.96 to read as follows:

§ 42.96 Mechanical reliability reports.

(a) Each air carrier operating large aircraft shall report the occurrence or detection of those failures, malfunctions, or defects specified in paragraph (b) of this section. In addition, each air carrier shall report any other failure, malfunction, or defect which occurs or is detected at any time in an aircraft or aircraft component (including aircraft systems, appliances, powerplants, and propellers) used by the air carrier, which, in the carrier's opinion, such failure, malfunction, or defect has endangered or may endanger the safe operation of an aircraft used by the air carrier. The report shall be in written form covering a period of 24 hours beginning at 0900 hours local time of each day and ending at 0900 hours local time the next day, and shall be submitted to the Federal Aviation Agency maintenance inspector assigned to the air carrier by 0900 hours local time of the following day: Provided, That reports which are due on Saturday or Sunday may be submitted on the following Monday and in case of legal holidays on the following workday.

NOTE: Failures, malfunctions, or defects reported in accordance with the accident reporting provisions of Part 320 of the regulations of the Civil Aeronautics Board need not be included.

(b) The air carrier shall report each occurrence or detection of a failure, malfunction, or defect involving:

(1) Fires during flight and whether the related fire-warning system functioned properly;

(2) Fires during flight and whether the related fire-warning system did not function properly;

(3) Fires during flight not protected by a related fire-warning system;

(4) False fire warning during flight;

(5) Engine exhaust systems which result during flight in damage to engine, adjacent structure, equipment, or components;

(6) An aircraft component which results during flight in the accumulation or circulation of smoke, vapor, or fumes or noxious fumes in the crew compartment or cabin;

(7) Engine shutdown during flight due to engine flameout;

(8) Engine shutdown during flight when external damage to the engine or to the aircraft structure has occurred;

(9) Engine shutdown during flight due to foreign object ingestion or icing;

(10) Engine shutdown during flight of more than one engine on an aircraft;

(11) Propeller feathering system or inability of the system to control overspeeding during flight;

(12) Fuel or fuel-dumping systems affecting fuel flow or causing hazardous fuel leakage during flight;

(13) Landing gear extension or retraction or opening or closing of landing-gear doors during flight;

(14) Brake system components which result in loss of brake actuating force while the aircraft is in motion on the ground;

(15) Aircraft structure which requires major repair;

(16) Cracks, permanent deformation, or corrosion of aircraft structure which exceed the maximum limits acceptable to the manufacturer or the Federal Aviation Agency; and

(17) Aircraft components or systems which result during flight in the taking of emergency actions; except that action taken to shutdown an engine need not be reported as an emergency under this provision.

NOTE: Under the provisions of this paragraph, an aircraft is in flight from the moment it leaves the surface of the earth on takeoff until it touches down at a place of landing.

(c) Reports required by paragraph (a) of this section shall be transmitted in a manner and on a form convenient to the air carrier's system of communication and procedure, and shall include on the first daily report as much of the following information as is available:

(1) Type and identification number of the aircraft, name of the operator, date, flight number, and stage during which the incident occurred; e.g., preflight, takeoff, climb, cruise, descent, landing, inspection;

(2) Emergency procedure effected; e.g., unscheduled landing, emergency descent;

(3) Nature of condition; e.g., fire, structural failure;

(4) Identification of part and system involved, including available information pertaining to type designation of the major component and time since overhaul;

(5) Apparent cause of trouble; e.g., wear, crack, design deficiency, personnel error;

(6) Disposition; e.g., repaired, replaced, aircraft grounded, part sent to manufacturer; and

(7) Brief narrative summary of other pertinent information necessary for more complete identification, determination of seriousness, and corrective action.

(d) Reports required by paragraph (a) shall not be withheld pending accumulation of all information specified in paragraphs (b) and (c) of this section. When additional information is obtained relative to the incident, including any that may be furnished by the manufacturer or other outside agency, it shall be expeditiously submitted as a supplement to the first report, referencing the date and place of submission of such report.

2. By adding a new § 42.96a to read as follows:

§ 42.96a Monthly report of chronic mechanical difficulties.

As soon as practicable after the end of each calendar month, each irregular air carrier operating large aircraft shall submit to the assigned maintenance inspector three copies of a report covering the mechanical difficulties experienced during the preceding month which the air carrier considers chronic or otherwise particularly significant from a safety standpoint. The report shall fully identify all aircraft and aircraft components involved (i.e., manufacturer, model and type), and shall contain enough information to serve as a basis for corrective action and to enable a determination to be made of the trend of aircraft and aircraft component failures, malfunctions, or defects. The detailed information from which such reports are prepared shall be kept current and available at the air carrier's main headquarters for examination by any authorized representative of the Administrator or Board.

§ 42.96–1 [Deletion]

3. By deleting § 42.96–1.

The reporting requirements contained herein have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

(Secs. 311, 313(a), 601, 605; 72 Stat. 751, 752, 775, 778; 49 U.S.C. 1352, 1354, 1421, 1425)

Issued in Washington, D.C., on February 6, 1962.

N. E. HALABY,
Administrator.

[Reg. Docket No. 652; Amdt. 46–4]

PART 46—SCHEDULED AIR CARRIER HELICOPTER CERTIFICATION AND OPERATION RULES

Mechanical Reliability Reports

The Federal Aviation Agency published as a notice of proposed rule making (26 F.R. 1410) and circulated as Civil Air Regulations Draft Release No. 61–2 dated February 8, 1961, a proposal to amend Parts 40, 41, 42, and 46 of the Civil Air Regulations to establish requirements for the reporting of specific types of malfunctions, failures, and defects occurring to aircraft.

With the adoption of this amendment, it should be noted that the title, Daily Mechanical Report (DMR), is changed and will hereafter be known as the Mechanical Reliability Report (MRR). The Federal Aviation Agency believes the name to be appropriate in that it is more descriptive of the concept of the report.

The currently effective provisions of Part 46 require operators to submit daily a report known as a daily mechanical report (DMR) which contains information concerning each failure, malfunctioning, or other defect, regardless of where detected, which may reasonably be expected by the air carrier to cause a serious hazard in the operation of a helicopter.

The lack of specific reporting requirements and the fact that each air carrier reported only those items which, in the opinion of the air carrier, constitute a hazard, heretofore resulted in inadequate and nonuniform reporting. Various attempts were made to correct these inadequacies, such as joint industry-government meetings and the use of a trial reporting guide for a six-month period. Some improvement in reporting was accomplished; however, satisfactory reporting was not achieved. In accordance with the proposal contained in Draft Release 61–2, this amendment specifies certain helicopter and helicopter component failures, malfunctions, or defects which must be reported by air carriers in mechanical reliability reports. In addition, an air carrier is required to report other helicopter and helicopter component failures, malfunctions, or defects, even though they are not specified in the rule, when the air carrier is of the opinion that they may seriously endanger the safe operation of its helicopter.

In Draft Release 61–2 it was proposed to require air carriers to report engine shutdowns during flight necessitated or caused by helicopter component failure, malfunction, or defect. Although the Agency evaluates the significance of every engine shutdown, regardless of cause or effect, it has been determined that it is presently not necessary to require all engine shutdowns to be included in mechanical reliability reports. Accordingly, in this amendment, the proposed rule has been changed to require mandatory reporting of engine shutdowns only when they involve engine flameout, foreign object ingestion or icing, or external damage to the engine or helicopter. Paragraph (b)(17) of § 46.508 has been worded to make it clear that action taken to shutdown an engine in flight need not be reported as an emergency action under the requirements of that provision.

Also, it will be noted that paragraph (b)(15) of § 46.508 has been changed from the original proposal so that failures, malfunctions, or defects in helicopter structures are required to be reported only if a major repair is necessary.

Many failures, malfunctions, or defects are required to be included in the mechanical reliability report only if they occur during "flight." A note has been added to the rule to explain that in complying with the reporting requirements of § 46.508 a helicopter is to be considered in "flight" from the moment it leaves the surface of the earth on takeoff until it touches down at a place of landing.

Attention is directed to the fact that Draft Release 61–2 proposed 13 specific reporting items while this amendment contains items numbered one through 18 with some numbers vacant. This change in reporting items is the result of rearranging and expanding the previous items to adopt them to helicopter operations and to facilitate administrative handling of the reports within the Agency with automatic data processing equipment.

Another change has been made in this amendment which differs from the original proposal. This change provides that the report shall cover a 24-hour

period beginning at 0900 hours local time each day and is to be submitted by 0900 hours of the following day rather than the midnight to midnight report period proposed. In this respect, local time is considered to be the time at each air carrier's main maintenance base. This revision does not alter the 24-hour interval made in the proposal, but is incorporated so that the reports can be handled more expeditiously by the Agency under its new automatic data processing system for evaluating individual reports and for distributing mechanical reliability report summaries.

Each air carrier is presently required by paragraph (a) of § 46.509 (Mechanical interruption summary report) to regularly file a summary report of "All interruptions to a scheduled flight, unscheduled changes of helicopters en route, and unscheduled stops and diversions from route which result from known or suspected mechanical difficulties or malfunctions." In response to comment received, paragraph (a) of § 46.509 is being amended to avoid duplicate reporting under paragraph (a) of those malfunctions or mechanical difficulties required to be reported under § 46.508.

The Federal Aviation Agency believes that reports of the failures, malfunctions, and defects required under this amendment, plus additional reports received from the air carriers regarding other occurrences of failures, malfunctions, and defects they consider hazardous, will provide complete, accurate, and uniform reporting. Safety will be served better by this amended reporting procedure as the Agency will be able to disseminate to industry improved reports of hazardous conditions pertaining to helicopter systems, components, and equipment. In addition, through analysis of information developed from reports received, the Agency will be able to detect deteriorating conditions in helicopter systems, components, and equipment, and issue Airworthiness Directives and Alert Notices before such conditions reach hazardous proportions.

Interested persons have been afforded an opportunity to participate in the making of this amendment and due consideration has been given to all relevant matter presented.

In consideration of the foregoing, Part 46 of the Civil Air Regulations (14 CFR Part 46, as amended) is hereby amended as follows, effective March 12, 1962:

1. By amending § 46.508 to read as follows:

§ 46.508 Mechanical reliability reports.

(a) Each air carrier shall report the occurrence or detection of those failures, malfunctions, or defects specified in paragraph (b) of this section. In addition, each air carrier shall report any other failure, malfunction, or defect which occurs or is detected at any time in a helicopter or helicopter component (including helicopter systems, appliances, powerplants, and propellers) used by the air carrier, when, in the carrier's opinion, such failure, malfunction, or defect has endangered or may endanger the safe operation of a helicopter used by the air carrier. The report shall be in written form covering a period of 24 hours beginning at 0900 hours local time of each day and ending at 0900 hours local time the next day, and shall be submitted to the Federal Aviation Agency maintenance inspector assigned to the air carrier by 0900 hours local time of the following day: *Provided*, That reports which are due on Saturday or Sunday may be submitted on the following Monday and in case of legal holidays on the following workday.

NOTE: Failures, malfunctions, or defects reported in accordance with the accident reporting provisions of Part 320 of the Regulations of the Civil Aeronautics Board need not be included.

(b) The air carrier shall report each occurrence or detection of a failure, malfunction, or defect involving:

(1) Fires during flight and whether the related fire-warning system functioned properly;

(2) Fires during flight and whether the related fire-warning system did not function properly;

(3) Fires during flight not protected by a related fire-warning system;

(4) False fire warning during flight;

(5) Engine exhaust systems which result during flight in damage to engine, adjacent structure, equipment, or components;

(6) A helicopter component which results during flight in the accumulation or circulation of smoke, vapor, or toxic or noxious fumes in the crew compartment or cabin;

(7) Engine shutdown during flight due to engine flameout;

(8) Engine shutdown during flight when external damage to the engine or to the helicopter structure has occurred;

(9) Engine shutdown during flight due to foreign object ingestion or icing;

(10) (Reserved.)

(11) (Reserved.)

(12) Fuel systems affecting fuel flow or causing hazardous leakage during flight;

(13) (Reserved.)

(14) (Reserved.)

(15) Helicopter structure which requires major repair;

(16) Cracks, permanent deformation, or corrosion of helicopter structure which exceed the maximum limits acceptable to the manufacturer or the Federal Aviation Agency;

(17) Helicopter components or systems which result during flight in the taking of emergency actions; except that action taken to shutdown an engine need not be reported as an emergency under this provision; and

(18) Main rotor or auxiliary rotor system.

NOTE: Under the provisions of this paragraph, a helicopter is in flight from the moment it leaves the surface of the earth on takeoff until it touches down at a place of landing.

(c) Reports required by paragraph (a) of this section shall be transmitted in a manner and on a form convenient to the air carrier's system of communication and procedure, and shall include in the first daily report as much of the following information as is available:

(1) Type and identification number of the aircraft, name of the operator, date, flight number, and stage during which the incident occurred; e.g., preflight, takeoff, climb, cruise, descent, landing, inspection;

(2) Emergency procedure effected; e.g., unscheduled landing, emergency descent;

(3) Nature of condition; e.g., fire, structural failure;

(4) Identification of part and system involved, including available information pertaining to type designation of the major component and time since overhaul;

(5) Apparent cause of trouble; e.g., wear, crack, design deficiency, personnel error;

(6) Disposition; e.g., repaired, replaced, aircraft grounded, part sent to manufacturer; and

(7) Brief narrative summary of other pertinent information necessary for more complete identification, determination of seriousness, and corrective action.

(d) Reports required by paragraph (a) shall not be withheld pending accumulation of all information specified in paragraphs (b) and (c) of this section. When additional information is obtained relative to the incident, including any that may be furnished by the manufacturer or other outside agency, it shall be expeditiously submitted as a supplement to the first report, referencing the date and place of submission of such report.

2. By amending § 46.509(a) to read as follows:

§ 46.509 Mechanical interruption summary report.

* * * * *

(a) All interruptions to a scheduled flight, unscheduled changes of airplane en route, and unscheduled stops and diversions from route which result from known or suspected mechanical difficulties or malfunctions that are not required to be included in mechanical reliability reports.

The reporting requirements contained herein have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

(Secs. 311, 313(a), 601, 606; 72 Stat. 751, 752, 775, 778; 49 U.S.C. 1353, 1354, 1421, 1426)

Issued in Washington, D.C., on February 6, 1962.

N. E. HALABY,
Administrator.

[F.R. Doc. 62-1365; Filed, Feb. 9, 1962; 8:45 a.m.]

Chapter III—Federal Aviation Agency

SUBCHAPTER E—AIR NAVIGATION REGULATIONS

[Airspace Docket No. 61-LA-89]

PART 601—DESIGNATION OF CONTROLLED AIRSPACE, REPORTING POINTS, POSITIVE CONTROL ROUTE SEGMENTS, AND POSITIVE CONTROL AREAS

Alteration of Control Area Extensions and Designation of Transition Areas

Correction

In F.R. Doc. 61-12219, appearing at page 12507 of the issue for Wednesday, December 27, 1961, the following correction is made in § 601.10859: The words reading "and 7 miles of the San Simon" should read "and 7 miles S of the San Simon".

[Airspace Docket No. 61-WA-171]

PART 601—DESIGNATION OF CONTROLLED AIRSPACE, REPORTING POINTS, POSITIVE CONTROL ROUTE SEGMENTS, AND POSITIVE CONTROL AREAS

Designation, Revocation, and Alteration of Federal Airway Intersections; Change of Amendment

On November 14, 1961, there were published in the FEDERAL REGISTER (26 F.R. 10835) amendments to Part 601 of the Regulations of the Administrator. These amendments consisted of the designation, revocation and alteration of several intersections. One of these actions pertained to the alteration of the Turlock, Calif., Intersection which was described as based on the intersection of the Merced, Calif., VORTAC 010° and the Fresno, Calif., VORTAC 322° radials. Subsequent to the publication of the rule, it was determined that this intersection should have been based, in part, on the Castle, Calif., VOR 010° radial instead of the Merced, Calif., VORTAC.

Since this action imposes no additional burden on any person, this change is made in compliance with section 4 of the Administrative Procedure Act.

In consideration of the foregoing, and pursuant to the authority delegated to me by the Administrator (25 F.R. 12582), effective immediately, the following action is taken:

In the text of § 601.7001 (14 CFR 601.7001, 26 F.R. 10635) Turlock INT: "Merced, Calif., VORTAC" is deleted and "Castle, Calif., VOR" is substituted therefor.

(Sec. 307(a), 72 Stat. 749; 49 U.S.C. 1348)

Issued in Washington, D.C., on February 5, 1962.

D. D. THOMAS,
Director, Air Traffic Service.

Title 16—COMMERCIAL PRACTICES

Chapter I—Federal Trade Commission

[Docket C-2]

PART 13—PROHIBITED TRADE PRACTICES

Frank P. Becker, Inc., and Frank P. Becker

Subpart: Advertising falsely or misleadingly: § 13.15 *Business status, advantages, or connections:* § 13.15–5 Advertising and promotional services; § 13.95 *Identity of product;* § 13.155 *Prices:* § 13.155–40 Exaggerated as regular and customary; § 13.235 *Source or origin:* § 13.235–60 Place: § 13.235–60(a) Domestic products as imported. Subpart: Furnishing means and instrumentalities of misrepresentation or deception: § 13.1055–50 *Preticketing merchandise misleadingly.* Subpart: Misrepresenting oneself and goods—Prices: § 13.1811 *Fictitious preticketing.* Subpart: Passing off: § 13.2105 *Passing off products as competitor's.*[1]

(Sec. 6, 38 Stat. 721; 15 U.S.C. 46. Interpret or apply sec. 5, 38 Stat. 719, as amended; 15 U.S.C. 45) [Cease and desist order, Frank P. Becker, Inc., et al., New York, N.Y., Docket C-2, Oct. 17, 1961]

Consent order requiring New York City distributors of perfumes and toilet waters, along with other kinds of merchandise, to cease representing falsely in advertising and labeling that their perfumes had been "Nationally advertised since 1940 Vogue, Mademoiselle, Harper's Bazaar"; that excessive amounts were usual retail selling prices; that products labeled with the corresponding initials were the same as those sold under the well-known brand names "Chanel", "Arpege", "Crepe de Chine", "White Shoulders", and "My Sin"; and through use of the picture of the Eiffel Tower, the words "Paris Inspired", "Ellyn Deleith, Inc. . . . Distributor", etc., that its "Blue Flame" perfume was manufactured in France.

The order to cease and desist, including further order requiring report of compliance therewith, is as follows:

It is ordered, That respondents Frank P. Becker, Inc., a corporation, and its officers, and Frank P. Becker, individually and as an officer of said corporation, and respondents' representatives, agents and employees, directly or through any corporate or other device, in connection with the offering for sale, sale or distribution of perfumes, toilet waters, cosmetics, or any other articles of merchandise, in commerce, as commerce is defined in the Federal Trade Commission Act, do forthwith cease and desist from:

1. Representing, directly or indirectly, that said products have been frequently and continuously advertised from 1940 to the present time in Vogue, Mademoiselle or Bazaar magazines; or that said products have been advertised in any magazines or publications or in any other manner or for any period of time unless such is the fact.

2. Representing, directly or indirectly, by preticketing or in any other manner, that any amount is the usual and regular retail price of merchandise when such amount is in excess of the price at which said merchandise is usually and regularly sold at retail in the trade area or areas where the representations are made.

3. Using the letters "C", "A", "CC", "WS", or "MS" or any other letters, numerals or symbols either singly or in combination in the advertising or labeling of said perfumes, toilet waters or cosmetics to designate or describe the kind or quality thereof without clearly and conspicuously revealing in immediate connection therewith the actual trade name of the manufacturer of said products.

4. Using the words "Paris Inspired", "Inspired in France" or any other words indicating French origin or using pictures of the Eiffel Tower or of any other typically French scenes in advertising or labeling to describe perfumes, toilet waters or cosmetics which are not manufactured or compounded in France.

5. Using any words, terms or pictures in advertising or in labeling which represent, directly or indirectly, that said merchandise was manufactured or compounded or originated in a given country or geographical area unless such is the fact.

6. Furnishing or placing in the hands of retailers or dealers in said merchandise the means and instrumentalities by and through which they may mislead or deceive the public in the manner or as to the things hereinabove inhibited.

It is further ordered, That the respondents herein shall within sixty (60) days after service upon them of this order, file with the Commission a report in writing setting forth in detail the manner and form in which they have complied with this order.

Issued: October 17, 1961.

By the Commission.

[SEAL] JOSEPH W. SHEA,
Secretary.

[F.R. Doc. 62-1371; Filed, Feb. 9, 1962; 8:46 a.m.]

[1] Amended to read as set forth.

[Docket C-4]

PART 13—PROHIBITED TRADE PRACTICES

Eugene J. Friedman et al.

Subpart: Advertising falsely or misleadingly: § 13.155 *Prices:* § 13.155–40 Exaggerated as regular and customary; § 13.285 *Value.* Subpart: Invoicing products falsely: § 13.1106 *Invoicing products falsely:* § 13.1108–45 Fur Products Labeling Act. Subpart: Neglecting, unfairly or deceptively, to make material disclosure: § 13.1845 *Composition:* § 13.1845–30 Fur Products Labeling Act; § 13.1852 *Formal regulatory and*

statutory requirements: § 13.1852–35 Fur Products Labeling Act; § 13.1865 *Manufacture or preparation:* § 13.1865–40 Fur Products Labeling Act.

(Sec. 6, 38 Stat. 721; 15 U.S.C. 46. Interpret or apply sec. 5, 38 Stat. 719, as amended; sec. 8, 65 Stat. 179; 15 U.S.C. 45, 69f) [Cease and desist order, Eugene J. Friedman et al. trading as Giba-Friedman, Los Angeles, Calif., Docket C–4, Oct. 17, 1961]

In the Matter of Eugene J. Friedman and John R. Giba, Individually and as Copartners Trading as Giba-Friedman

Consent order requiring Los Angeles furriers to cease violating the Fur Products Labeling Act by failing to disclose the true animal name of the fur used in fur products, and that certain fur was dyed; by setting forth fictitious prices and abbreviated information on invoices; by making claims concerning prices and values of fur products in advertising while failing to maintain adequate records as a basis therefor.

The order to cease and desist, including further order requiring report of compliance therewith, is as follows:

It is ordered, That Eugene J. Friedman and John R. Giba, individuals and copartners trading as Giba-Friedman or under any other trade name and respondents' representatives, agents and employees, directly or through any corporate or other device, in connection with the introduction into commerce, or the sale, advertising, or offering for sale in commerce, or the transportation or distribution in commerce of fur products; or in connection with the sale, advertising, offering for sale, transportation or distribution of fur products which are made in whole or in part of fur which has been shipped and received in commerce, as "commerce", "fur" and "fur product" are defined in the Fur Products Labeling Act, do forthwith cease and desist from:

1. Falsely or deceptively invoicing fur products by:

A. Failing to furnish to purchasers of fur products invoices showing all the information required to be disclosed by each of the subsections of section 5(b)(1) of the Fur Products Labeling Act.

B. Representing directly or by implication that the regular or usual price of any fur product is any amount in excess of the price at which the respondents have usually and customarily sold such products in the recent regular course of business.

C. Setting forth information required under section(b)(1) of the Fur Products Labeling Act and the rules and regulations promulgated thereunder in abbreviated form.

2. Falsely or deceptively advertising fur products through the use of any advertisement, representation, public announcement or notice which is intended to aid, promote or assist, directly or indirectly, in the sale or offering for sale of fur products, and which:

A. Represents directly or by implication that the regular or usual price of any fur product is any amount in excess of the price at which the respondents have usually and customarily sold such products in the recent and regular course of business.

B. Misrepresents in any manner the savings available to purchasers of respondents' fur products.

3. Making claims and representations of the types covered by subsections (a), (b), (c), and (d) of Rule 44 of the rules and regulations promulgated under the Fur Products Labeling Act unless there are maintained by respondents full and adequate records disclosing the facts upon which such claims and representations are based.

It is further ordered, That the respondents herein shall, within sixty (60) days after service upon them of this order, file with the Commission a report in writing setting forth in detail the manner and form in which they have complied with this order.

Issued: October 17, 1961.

By the Commission.

[SEAL] JOSEPH W. SHEA, *Secretary.*

[F.R. Doc. 62–1372; Filed, Feb. 9, 1962; 8:46 a.m.]

[Docket C–3]

PART 13—PROHIBITED TRADE PRACTICES

Roberts Electric Co. and Robert Boos

Subpart: Advertising falsely or misleadingly: § 13.70 *Fictitious or misleading guarantees;* § 13.85 *Government approval, action, connection or standards:* § 13.85–60 Standards, specifications, or source; § 13.155 *Prices:* 13.155–40 Exaggerated as regular and customary.

(Sec. 6, 38 Stat. 721; 15 U.S.C. 46. Interpret or apply sec. 5, 38 Stat. 719, as amended; 15; U.S.C. 45) [Cease and desist order, Roberts Electric Co. et al., Docket C–3, Oct. 17, 1961]

Consent order requiring Chicago distributors of electric generators, gas and electric motors, air compressors, etc., to cease representing falsely in newspaper advertisements and catalogs that the "Wisconsin 4-Cycle Gas Driven Engine Generating Plant" and all its parts were Government surplus property; that it cost the U.S. Government $548 and purchasers saved the difference between that and their price of $249; that excessive amounts were the usual selling prices for a "Reduction Unit", a "3 HP AC Motor", and a "Briggs & Stratton 4-Cycle Air-Cooled Gasoline Engine", and that their lower prices afforded savings to purchasers; and that said products were fully guaranteed.

The order to cease and desist, including further order requiring report of compliance therewith, is as follows:

It is ordered, That respondents, Roberts Electric Company, a corporation, and its officers, and Robert Boos, individually, and as an officer of said corporation, and respondents' representatives, agents, and employees, directly or through any corporate or other device, in connection with the offering for sale, sale, or distribution of respondents' electric generators, gas and electric motors, air compressors or any other articles of merchandise, in commerce, as "commerce" is defined in the Federal Trade Commission Act, do forthwith cease and desist from:

1. Representing, directly or indirectly, that:

(a) Said products, or any parts or components thereof, are surplus government property or were secured from any other governmental or private source, unless such is the fact.

(b) The United States Government, or any other governmental agency or former owner, paid or is paying for said products any amount greater than is the fact.

(c) Any amount is respondents' customary and usual price for said merchandise when such amount is in excess of the price at which said merchandise is customarily and usually sold by respondents in the recent, regular course of business.

(d) Any saving from respondents' selling price is afforded to the purchasers of respondents' merchandise, unless the price at which it is offered constitutes a reduction from the price at which said merchandise has been customarily and usually sold by respondents in the recent, regular course of business.

(e) Any product is guaranteed unless the terms and conditions of the said guarantee and the manner in which the guarantor will perform thereunder are clearly and conspicuously set forth.

2. Using the words "regular," or "reg.," or any other words or terms of similar import or meaning, to describe or refer to respondents' prices for said merchandise unless such prices constitute the prices at which the advertised merchandise has been sold by respondents in the recent, regular course of business.

3. Misrepresenting, in any manner, the amount of savings available to purchasers of respondents' merchandise or the amounts by which the prices of said merchandise are reduced from the prices at which said merchandise is customarily and usually sold in the recent regular course of business.

It is further ordered, That the respondents herein shall, within sixty (60) days after service upon them of this order, file with the Commission a report in writing setting forth in detail the manner and form in which they have complied with this order.

Issued: October 17, 1961.

By the Commission.

[SEAL] JOSEPH W. SHEA, *Secretary.*

Title 17—COMMODITY AND SECURITIES EXCHANGES

Chapter II—Securities and Exchange Commission

[Release 33–4445 (34–6721)]

PART 231—INTERPRETATIVE RELEASES RELATING TO THE SECURITIES ACT OF 1933 AND GENERAL RULES AND REGULATIONS THEREUNDER

PART 241—INTERPRETATIVE RELEASES RELATING TO THE SECURITIES EXCHANGE ACT OF 1934 AND GENERAL RULES AND REGULATIONS THEREUNDER

Distribution by Broker-Dealers of Unregistered Securities

Recent decisions of the courts and of the Securities and Exchange Commission have raised important questions concerning the standards of conduct expected of a registered broker-dealer in connection with the distribution to the public of substantial blocks of unregistered securities, particularly in situations where the securities are those of relatively obscure and unseasoned companies and where all of the circumstances surrounding the proposed distribution are not known to the broker-dealer.[1] Particularly significant are the following: What steps the broker-dealer should take to make sure that he is not participating in an illegal distribution in violation of section 5 of the Securities Act of 1933? What investigation he should make concerning the issuer in order to avoid violations of the anti-fraud provisions of the Federal securities laws in the course of the distribution, and particularly section 17 of the Securities Act and section 10(b) of the Securities Exchange Act and Rule 10b–5 (17 CFR 240.10b–5) thereunder?

In view of certain apparent misconceptions with regard to the responsibilities of a broker-dealer under these circumstances, it seems appropriate to set forth for the guidance of the industry and the bar certain standards that the Commission believes applicable.

With regard to the registration requirements of the Securities Act of 1933, certain basic principles should be borne in mind. In the first place, section 5 of the Securities Act of 1933 broadly prohibits the use of the mails or facilities of interstate commerce to sell a security unless a registration statement is in effect. A dealer or other person claiming the benefit of an exemption from this requirement has the burden of proving entitlement to it.[2] Where unregistered securities are offered to a dealer for distribution, exemption is commonly claimed under the first and third clauses of section 4(1) of the Securities Act which, speaking generally, exempt transactions not involving any distribution by, or for an issuer or for a person controlling, controlled by, or under common control with the issuer. Consequently, in order for this exemption to be available, a dealer must not be participating directly or indirectly in any such distribution. He may become such a participant even if he has no direct contractual relationship or privity with an issuer or person in a control relationship if he, in fact, engaged in steps necessary to such a distribution.[3] Section 4(1) exempts trading transactions between individual investors with respect to securities already issued. It does not exempt distributions by issuers or control persons or acts of other individuals who engage in steps necessary to such distributions.[4] Consequently, a dealer who offers to sell, or is asked to sell a substantial amount of securities must take whatever steps are necessary to be sure that this is a transaction not involving an issuer, person in a control relationship with an issuer or an underwriter. For this purpose, it is not sufficient for him merely to accept "self-serving statements of his sellers and their counsel without reasonably exploring the possibility of contrary facts."[5]

The amount of inquiry called for necessarily varies with the circumstances of particular cases. A dealer who is offered a modest amount of a widely traded security by a responsible customer, whose lack of relationship to the issuer is well known to him, may ordinarily proceed with considerable confidence. On the other hand, when a dealer is offered a substantial block of a little-known security, either by persons who appear reluctant to disclose exactly where the securities came from, or where the surrounding circumstances raise a question as to whether or not the obstensible sellers may be merely intermediaries for controlling persons or statutory underwriters, then searching inquiry is called for.

The problem becomes particularly acute where substantial amounts of a previously little-known security appear in the trading markets within a fairly short period of time and without the benefit of registration under the Securities Act of 1933. In such situations, it must be assumed that these securities emanate from the issuer or from persons controlling the issuer, unless some other source is known and the fact that the certificates may be registered in the names of various individuals could merely indicate that those responsible for the distribution are attempting to cover their tracks.

In United States v. Crosby,[6] the court found persuasive the contention of defendant dealers that, in selling large blocks of unregistered stock of Texas-Adams Oil Co., Inc., in reliance on a legal opinion based upon incomplete facts, they were "doing business as usual" and, to their best knowledge, according to acceptable standards. The court perhaps found this argument persuasive in the context of that criminal conspiracy trial, since no evidence to the contrary was before it. The experience of the Commission, however, clearly demonstrates that the conduct of these dealers did not meet acceptable standards. Not only did the transactions in fact violate section 5 of the Securities Act, as the court found, but the surrounding circumstances made such violations altogether likely. Shortly after the transfer of control of Texas-Adams to a small group of related persons, large blocks of unregistered stock commenced to appear in the market, accompanied by a drumfire of optomistic publicity from the management, obviously designed to keep the price of the stock up. In such situations, responsible dealers, aware that they have the burden of proving the availability of an exemption,[7] and confronted with both an absolute liability to buyers under section 12(1) of the Securities Act, and with the possibility of civil, administrative, or criminal proceedings—proceed with far more caution than was displayed in the Texas-Adams case, and the Commission expects, and will continue to expect, all dealers to do so. It was up to these dealers to make an appropriate investigation as to who their seller was[8] and not simply to rely upon the opinion of the seller's attorney that no control relationship existed.

There have been a number of cases in which dealers have unsuccessfully sought to justify a claim to exemption under section 4(1) of the Securities Act simply by securing from the sellers, actual or ostensible, representations that such persons are neither officers, directors, nor large stockholders of the issuer, and submitting such representations to an attorney who then gives an opinion to the effect that, assuming the correctness of such representations, exemption under section 4(1) is available. Obviously, an attorney's opinion based upon hypothetical facts is worthless if the facts are not as specified, or if unspecified but vital facts are not considered. Because of this, it is the practice of responsible counsel not to furnish an opinion concerning the availability of an exemption from registration under

the Securities Act for a contemplated distribution unless such counsel have themselves carefully examined all of the relevant circumstances and satisfied themselves, to the extent possible, that the contemplated transaction is, in fact, not a part of an unlawful distribution. Indeed, if an attorney furnishes an opinion based solely upon hypothetical facts which he has made no effort to verify, and if he knowns that his opinion will be relied upon as the basis for a substantial distribution of unregistered securities, a serious question arises as to the propriety of his professional conduct.[9]

A broker-dealer undertaking the sale of a block of securities under the circumstances referred to herein has the further problem of avoiding conduct which will violate the antifraud provisions of the Federal securities laws. In making such a distribution, he will probably find it necessary, or at least desirable, to recommend purchase of the security by his customers. The Commission has, however, repeatedly held that it is a violation of the antifraud provisions for a broker-dealer to recommend a security unless there is an adequate and reasonable basis for the recommendations [10] and, further, that such recommendations should not be made without disclosure of facts known or reasonably ascertainable, bearing upon the justification for the recommendation.[11] As indicated, the making of recommendations for the purchase of a security implies that the dealer has a reasonable basis for such recommendations which, in turn, requires that, as a prerequisite, he shall have made a reasonable investigation. In addition, if such a dealer lacks essential information about the issuer, such as knowledge of its financial condition, he must disclose this lack of knowledge and caution customers as to the risk involved in purchasing the securities without it.[12]

In view of the foregoing principles, it would appear that if a dealer undertakes the retail distribution of a block of securities without obtaining reliable information concerning the issuer, there is a substantial risk that he will violate the antifraud provisions of the securities laws, either by making recommendations without an adequate basis or by failing to disclose the absence of available information. Indeed, a serious question arises as to whether a dealer who undertakes an aggressive retail distribution to individuals of an obscure, unregistered security, with regard to which reliable information is not readily available, can meet his obligation to treat customers fairly and in accordance with the standards of the profession.[13] The mere fact that a security may allegedly be exempt from the registration requirements of the Securities Act of 1933 does not relieve a dealer of these obligations. On the contrary, it may increase his responsibilities, since neither he nor his customers receive the protection which registration under the Securities Act is designed to provide.

[SEAL] ORVAL L. DUBOIS,
Secretary.

Title 21—FOOD AND DRUGS

Chapter I—Food and Drug Administration, Department of Health, Education, and Welfare

SUBCHAPTER B—FOOD AND FOOD PRODUCTS

PART 121—FOOD ADDITIVES

Subpart D—Food Additives Permitted in Food for Human Consumption

POLYSORBATE 80

The Commissioner of Food and Drugs, having evaluated the data submitted in a petition filed by The Upjohn Company, 7000 Portage Road, Kalamazoo, Michigan, and other relevant material, has concluded that the following regulation should issue in conformance with section 409 of the Federal Food, Drug, and Cosmetic Act, with respect to the food additive polysorbate 80 as an emulsifier in caloric dietary supplements. Therefore, pursuant to the provisions of the Federal Food, Drug and Cosmetic Act (sec. 409(c)(1), 72 Stat. 1786; 21 U.S.C. 348(c)(1)), and under the authority delegated to the Commissioner by the Secretary of Health, Education, and Welfare (25 F.R. 8625), § 121.1009(c) of the food additive regulations (21 CFR 121.1009; 26 F.R. 4739, 5036, 5254, 8283, 9856) is amended by adding thereto a new subparagraph (6), reading as follows:

§ 121.1009 Polysorbate 80 (polyoxyethylene (20) sorbitan monooleate).

* * * * *

(c) * * *

(6) In special dietary foods, as an emulsifier for edible oils, with directions for use which provide for the ingestion of not to exceed 360 milligrams of polysorbate 80 per day.

Any person who will be adversely affected by the foregoing order may at any time prior to the thirtieth day from the date of its publication in the FEDERAL REGISTER file with the Hearing Clerk, Department of Health, Education, and Welfare, Room 5440, 330 Independence Avenue SW., Washington 25, D.C., written objections thereto. Objections shall show wherein the person filing will be adversely affected by the order and specify with particularity the provisions of the order deemed objectionable and the grounds for the objections. If a hearing is requested, the objections must state the issues for the hearing. A hearing will be granted if the objections are supported by grounds legally sufficient to justify the relief sought. Objections may be accompanied by a memorandum or brief in support thereof. All documents shall be filed in quintuplicate.

Effective date. This order shall be effective on the date of its publication in the FEDERAL REGISTER.

(Sec. 409(c)(1), 72 Stat. 1786; 21 U.S.C. 348(c)(1))

Dated: February 6, 1962.

GEO. P. LARRICK,
Commissioner of Food and Drugs.

[F.R. Doc. 62-1388; Filed, Feb. 9, 1962; 8:47 a.m.]

PART 121—FOOD ADDITIVES

Subpart F—Food Additives Resulting From Contact with Containers or Equipment and Food Additives Otherwise Affecting Food

RESINOUS AND POLYMERIC COATINGS

The Commissioner of Food and Drugs, having reviewed comments submitted by the following firms and other relevant material, has concluded that certain changes in the text of § 121.2514 are needed to clarify the order:

Can Manufacturers Institute, Inc., 821 15th Street NW., Washington 5, D.C.
National Paint, Varnish and Lacquer Association, Inc., 1500 Rhode Island Avenue, NW., Washington 5, D.C.
Interchemical Corp., P.O. Box 659, Newark 1, N.J.
Owens-Illinois Technical Center, 1700 North Westwood, Toledo, Ohio.
Esso Research and Engineering Co., P.O. Box 111, Linden, N.J.
W. R. Grace & Co., Dewey and Almy Chemical Division, Cambridge, Mass.
American Can Co., 100 Park Avenue, New York, N.Y.
Stoner-Mudge Co., 2000 Westhall Street, Pittsburgh, Pa.
The Glidden Co., 900 Union Commerce Building, Cleveland, Ohio.
Firestone Plastics Co., P.O. Box 600, Pottstown, Pa.
Enjay Chemical Co., 15 West 51st Street, New York, N.Y.

Therefore, pursuant to the provisions of the Federal Food, Drug, and Cosmetic Act (sec. 409(c)(1), 72 Stat. 1786; 21 U.S.C. 348(c)(1)), and under the authority delegated to the Commissioner by the Secretary of Health, Education, and Welfare (25 F.R. 8625), § 121.2514 (21 CFR 121.2514; 26 F.R. 7668) is amended as follows:

1. Section 121.2514(b)(3) is amended to read:

§ 121.2514 Resinous and polymeric coatings.

* * * * *

(b) * * *

(3) Any substance employed in the production of resinous and polymeric coatings that is the subject of a regulation in this subpart F conforms with any specification in such regulation, and any substance that is not the subject of a regulation in this subpart F conforms with the specification, if any, provided in an order extending the effective date of the statute for such substance as an indirect additive to food. Substances named in this subparagraph and further identified as required:

2. Paragraph (b)(3)(xv) is amended by deleting the item "Maleic acid ester of glycerol" and substituting therefor the words "Methyl, ethyl, propyl, butyl, amyl, hexyl, heptyl, or octyl esters of maleic acid."

3. Paragraph (b)(3)(xxv) is amended by deleting the words "*N,N'*-Distearyl ethylenediamine" and substituting therefor the item "*N,N'*-Distearoyl ethylenediamine".

4. Paragraph (b)(3)(xxxi) is amended by deleting the item "di-Pentamethylene thiuram disulfide" and substituting therefor the item "di-Pentamethylene thiuram tetrasulfide."

5. Paragraph (c) is amended to read as follows:

(c) The coating in the finished form in which it is to contact food, when extracted with the solvent or solvents characterizing the type of food, and under conditions of time and temperature characterizing the conditions of its intended use as determined from Tables 1 and 2 of paragraph (d) of this section, shall yield chloroform-soluble extractives, corrected for zinc extractives as zinc oleate, not to exceed the following:

(1) From a coating intended for or employed as a component of a container not to exceed 1 gallon and intended for one-time use, not to exceed 0.5 milligram per square inch nor to exceed that amount as milligrams per square inch that would equal 0.005 percent of the water capacity of the container, in milligrams, divided by the area of the food-contact surface of the container in square inches. From a fabricated container conforming with the description in this subparagraph, the extractives shall not exceed 0.5 milligram per square inch of food-contact surface nor exceed 50 parts per million of the water capacity of the container as determined by the methods provided in paragraph (e) of this section.

(2) From a coating intended for or employed as a component of a container having a capacity in excess of 1 gallon and intended for one-time use, not to exceed 1.8 milligrams per square inch nor to exceed that amount as milligrams per square inch that would equal 0.005 percent of the water capacity of the container in milligrams, divided by the area of the food-contact surface of the container in square inches.

(3) From a coating intended for or employed as a component of a container for repeated use of continuous service, not to exceed 18 milligrams per square inch nor to exceed that amount as milligrams per square inch that would equal 0.005 percent of the water capacity of the container in milligrams, divided by the area of the food-contact surface of the container in square inches.

(4) From coating intended for repeated use or continuous service, and employed other than as a component of a container, not to exceed 18 milligrams per square inch of coated surface.

6a. Paragraph (d) is amended by changing items I and II in Table 1 to read:

I. Nonacid (pH above 5.0), aqueous products; may contain salt or sugar or both, and including oil-in-water emulsions of low- or high-fat content.
II. Acidic (pH 5.0 or below), aqueous products; may contain salt or sugar or both, and including oil-in-water emulsions of low- or high-fat content.

b. Paragraph (d) is further amended by changing the title of Table 2 to read: "Table 2—Test procedures for determining the amount of extractives from resinous or polymeric coatings, using solvents simulating types of foods and beverages"; by inserting in Table 2, item A, food types I, IV–B, in the column under "Extractant Heptane [1 2] Time and temperature," the words "150° F., 2 hr"; and by changing footnote 2 under Table 2 to read: "[2] Heptane extractivity results must be divided by a factor of five in arriving at the extractivity for a food product."

7. Paragraph (e) *Analytical methods* is amended by inserting the following note preceding subparagraph (5):

NOTE: The tests specified in subparagraph (4)(i) through (xvii) of paragraph (e) are applicable to flexible packages consisting of coated metal contacting food, in which case the closure end is double-folded and clamped with metal spring clips by which the package can be suspended.

8. Paragraph (e)(3) is amended by changing the phrase "⅛-inch x ¼-inch" to read, "⅛-inch—¼-inch".

9a. In paragraph (e)(4)(i) through (xvii), inclusive, the last sentence in each subdivision is changed to read: "Proceed with the determination of the amount of extractives by the method described in subparagraph (5) of this paragraph."

b. In paragraph (e)(4)(vi), the word "baker" in the eleventh line is changed to read "beaker".

10. Paragraph (e)(5) is changed to read:

(5) *Determination of amount of extractives*—(i) *Total residues.* Evaporate the food-simulating solvents from subparagraph (4)(i) to (xvii), inclusive, of this paragraph to about 100 milliliters in the Pyrex flask and transfer to a clean, tared platinum dish, washing the flask three times with the solvent used in the extraction procedure, and evaporate to a few milliliters on a nonsparking low-temperature hotplate. The last few milliliters should be evaporated in an oven maintained at a temperature of 212° F. Cool the platinum dish in a desiccator for 30 minutes and weigh the residue to the nearest 0.1 milligram (*e*). Calculate the extractives in milligrams per square inch and in parts per million for the particular size of container being tested and for the specific food-simulating solvent used.

(*a*) *Water and 8-percent alcohol.*

Milligrams extractives per square inch = $\frac{e}{s}$.

Extractives residue = $Ex = \frac{(e)(a)(1000)}{(c)(s)}$.

(*b*) *Heptane.*

Milligrams extractives per square inch = $\frac{e}{(s)(F)}$.

Extractives residue = $Ex = \frac{(e)(a)(1000)}{(c)(s)(F)}$.

Where:
Ex = Extractives residue in parts per million for any container size.
e = Milligrams extractives per sample tested.
a = Total coated area, including closure, in square inches.
c = Water capacity of container, in grams.
s = Surface of coated area tested, in square inches.
F = Five, the ratio of the amount of extractives removed from a coated container by heptane under exaggerated time-temperature test conditions compared to the amount extracted by a fat or oil from a container tested under exaggerated conditions of thermal sterilization and use.
e' = Chloroform-soluble extractives residue.
ee' = Zinc corrected chloroform-soluble extractives residue.

e' or *ee'* is substituted for *e* in the above formulas when necessary.

If when calculated by the formulas in (*a*) and (*b*) of this subdivision, the concentration of extractives residue (*Ex*) exceeds 50 parts per million or the extractives in milligrams per square inch exceed the limitations prescribed in paragraph (c) of this section for the particular container size, proceed to subdivision (ii) of this subparagraph (method for determining the amount of chloroform-soluble extractives residue).

(ii) *Chloroform-soluble extractives residue.* Add 50 milliliters of chloroform (freshly distilled reagent grade or a grade having an established consistently low blank) to the dried and weighed residue, (*e*), in the platinum dish, obtained in subdivision (i) of this subparagraph. Warm carefully, and filter through Whatman No. 41 filter paper in a Pyrex funnel, collecting the filtrate in a clean, tared platinum dish. Repeat the chloroform extraction, washing the filter paper with this second portion of chloroform. Add this filtrate to the original filtrate and evaporate the total down to a few milliliters on a low-temperature hotplate. The last few milliliters should be evaporated in an oven maintained at 212° F. Cool the platinum dish in a desiccator for 30 minutes and weigh to the nearest 0.1 milligram to get the chloroform-soluble extractives residue (*e'*). This *e'* is substituted for *e* in the formulas in (*a*) and (*b*) of subdivision (i) of this subparagraph. If the concentration of extractives (*Ex*) still exceeds 50 parts per

million or the extractives in milligrams per square inch exceed the limitations prescribed in paragraph (c) of this section for the particular container size, proceed as follows to correct for zinc extractives ("C" enamels only): Ash the residue in the platinum dish by heating gently over a Meeker-type burner to destroy organic matter and hold at red heat for about 1 minute. Cool in the air for 3 minutes, and place the platinum dish in the desiccator for 30 minutes and weigh to the nearest 0.1 milligram. Analyze this ash for zinc by standard Association of Official Agricultural Chemists methods or equivalent. Calculate the zinc in the ash as zinc oleate, and subtract from the weight of chloroform-soluble extractives residue (*e'*) to obtain the zinc-corrected chloroform-soluble extractives residue (*ee'*). This *ee'* is substituted for e in the formulas in (*a*) and (*b*) of subdivision (i) of this subparagraph.

To comply with the limitations in paragraph (c) of this section, the chloroform-soluble extractives residue (but after correction for zinc extractives in case of "C" enamels) must not exceed 50 parts per million and must not exceed in milligrams per square inch the limitations for the particular article as prescribed in paragraph (c)(1) of this section.

Notice and public procedure and delayed effective date are not necessary prerequisites to the promulgation of this order, and I so find, since the amendments serve only to clarify and interpret existing regulations.

Effective date. These amendments shall become effective upon publication of this order in the FEDERAL REGISTER.

(Sec. 409(c)(1), 72 Stat. 1786; 21 U.S.C. 348(c)(1))

Dated: February 6, 1962.

GEO. P. LARRICK,
Commissioner of Food and Drugs.

[F.R. Doc. 62-1390; Filed, Feb. 9, 1962; 8:48 a.m.]

PART 121—FOOD ADDITIVES

Subpart F—Food Additives Resulting From Contact With Containers or Equipment and Food Additives Otherwise Affecting Food

FILTERS, RESIN-BONDED

The Commissioner of Food and Drugs, having evaluated the data submitted in petitions filed by Johnson and Johnson, 4949 West 65th Street, Chicago 38, Illinois, and The Kendall Company, Walpole, Massachusetts, and other relevant material, has concluded that the following order should issue with respect to resin-bonded filters intended for use in filtering milk and edible oils. Therefore, pursuant to the provisions of the Federal Food, Drug, and Cosmetic Act (sec. 409(c)(1), 72 Stat. 1786; 21 U.S.C. 348(c)(1)), and under the authority delegated to the Commissioner by the Secretary of Health, Education, and Welfare (25 F.R. 8625), Subpart F of the food additive regulation (21 CFR Part 121) is amended by adding thereto the following new section.

§ 121.2536 Filters, resin-bonded.

Resin-bonded filters may be safely used in producing, manufacturing, processing, and preparing food, subject to the provisions of this section.

(a) Resin-bonded filters are prepared from natural or synthetic fibers to which have been added substances required in their preparation and finishing, and which are bonded with resins prepared by condensation or polymerization of resin-forming materials, together with adjuvant substances required in their preparation, application, and curing.

(b) The quantity of any substance employed in the production of the resin-bonded filter does not exceed the amount reasonably required to accomplish the intended physical or technical effect or any limitation further provided.

(c) Any substance employed in the production of resin-bonded filters that is the subject of a regulation in this Subpart F of this part conforms with any specification in such regulation, and any substance that is not the subject of a regulation in such subpart conforms with the specification, if any, provided by an order extending the effective date of the statute for such substance as an indirect additive to food.

(d) Substances employed in the production of resin-bonded filters include the following, subject to any limitations provided:

List of Substances and Limitations

(1) *Fibers:*
Cotton.
Nylon. (From nylon resins complying with the provisions of applicable regulations in Subpart F.)
Rayon (viscose).
(2) *Substances employed in fiber finishing:*
Titanium dioxide.
Oleic acid.
Sodium oleate.
(3) *Resins:*
Polyvinyl alcohol.
Polyvinyl alcohol with the copolymer of acrylic acid-allyl sucrose.
Polyvinyl alcohol with melamine formaldehyde.
Polyvinyl acetate with melamine formaldehyde.
(4) *Adjuvant substances:*
Dimethyl polysiloxane with methylcellulose and sorbic acid. (As an antifoaming agent.)
Phosphoric acid.
Polysorbate 80.

(e) Resin-bonded filters conforming with the specifications of subparagraph (1) of this paragraph are used as provided in subparagraph (2) of this paragraph:

(1) *Total extractives:* The finished filter, when exposed to distilled water at 100° F. for 2 hours, yields total extractives not to exceed 2.8 percent by weight of the filter.

(2) *Conditions of use:* It is used to filter milk at operating temperatures not to exceed 100° F.

(f) Resin-bonded filters conforming with the specifications of subparagraph (1) of this paragraph are used as provided in subparagraph (2) of this paragraph:

(1) *Total extractives:* The finished filter, when exposed to distilled water at 145° F. for 2 hours, yields total extractives not to exceed 4.0 percent by weight of the filter.

(2) *Conditions of use:* It is used to filter milk at operating temperatures not to exceed 145° F.

(g) Resin-bonded filters conforming with the specifications of subparagraph (1) of this paragraph are used as provided in subparagraph (2) of this paragraph.

(1) *Total extractives:* The finished filter, when exposed to *n*-hexane at reflux temperature for 2 hours yields total extractives not to exceed 0.2 percent by weight of the filter.

(2) *Conditions of use:* It is used to filter edible oils.

Any person who will be adversely affected by the foregoing order may at any time prior to the thirtieth day from the date of its publication in the FEDERAL REGISTER file with the Hearing Clerk, Department of Health, Education, and Welfare, Room 5440, 330 Independence Avenue SW., Washington 25, D.C., written objections thereto. Objections shall show wherein the person filing will be adversely affected by the order and specify with particularity the provisions of the order deemed objectionable and the grounds for the objections. If a hearing is requested, the objections must state the issues for the hearing. A hearing will be granted if the objections are supported by grounds legally sufficient to justify the relief sought. Objections may be accompanied by a memorandum or brief in support thereof. All documents shall be filed in quintuplicate.

Effective date. This order shall be effective on the date of its publication in the FEDERAL REGISTER.

(Sec. 409(c)(1), 72 Stat. 1786; 21 U.S.C. 348(c)(1))

Dated: January 29, 1962.

GEO. P. LARRICK,
Commissioner of Food and Drugs.

[F.R. Doc. 62-1389; Filed, Feb. 9, 1962; 8:48 a.m.]

Title 29—LABOR

Chapter V—Wage and Hour Division, Department of Labor

SUBCHAPTER B—STATEMENTS OF GENERAL POLICY OR INTERPRETATION NOT DIRECTLY RELATED TO REGULATIONS

PART 784—PROVISIONS OF THE FAIR LABOR STANDARDS ACT APPLICABLE TO FISHING AND OPERATIONS ON AQUATIC PRODUCTS

Revision

Part 784 of Chapter V, Title 29 of the Federal Regulations, is hereby revised in the manner indicated below in order to adapt it to the Fair Labor Standards Amendments of 1961 (Pub. LAW 87-30).

As this revision is concerned solely with interpretative rules, neither public procedure nor delay in the effective date is required by section 4 of the Administrative Procedure Act, and it will become effective upon publication in the FEDERAL REGISTER.

As revised, 29 CFR Part 784 reads as follows:

Subpart A—General

INTRODUCTORY

Sec.
784.0 Purpose.
784.1 General scope of the Act.
784.2 Matters discussed in this part.
784.3 Matters discussed in other interpretations.
784.4 Significance of official interpretations.
784.5 Basic support for interpretations.
784.6 Interpretations made, continued, and superseded by this part.

SOME BASIC DEFINITIONS

784.7 Definition of terms used in the Act.
784.8 "Employer", "employee", and "employ".
784.9 "Person".
784.10 "Enterprise".
784.11 "Establishment".
784.12 "Enterprise engaged in commerce or in the production of goods for commerce".
784.13 "Commerce".
784.14 "Production".
784.15 "Goods".
784.16 "State".
784.17 "Regular rate".

APPLICATION OF COVERAGE AND EXEMPTION PROVISIONS OF THE ACT

784.18 Basic coverage in general.
784.19 Commerce activities of employees.
784.20 Commerce activities of enterprise in which employee is employed.
784.21 Exemption from the Act's provisions.
784.22 Guiding principles for applying coverage and exemption provisions.
784.23 Minimum wages and overtime pay for "old" and "new" coverage.
784.24 Pay standards for employees subject to "old" coverage of the Act.
784.25 Pay standards for "newly covered" employees.

Subpart B—Exemption Provisions Relating to Fishing and Aquatic Products

THE STATUTORY PROVISIONS

784.100 The section 13(a)(5) exemption.
784.101 The section 13(b)(4) exemption.

LEGISLATIVE HISTORY OF EXEMPTIONS

784.102 General legislative history.
784.103 Adoption of the exemption in the original 1938 Act.
784.104 The 1949 amendments.
784.105 The 1961 amendments.

PRINCIPLES APPLICABLE TO THE TWO EXEMPTIONS

784.106 Relationship of employee's work to named operations.
784.107 Relationship of employee's work to operations on the specified aquatic products.
784.108 Operations not included in named operations on forms of aquatic "life".
784.109 Manufacture of supplies for named operations is not exempt.
784.110 Performing operations both on nonaquatic products and named aquatic products.
784.111 Operations on named products with substantial amounts of other ingredients are not exempt.
784.112 Substantial amounts of nonaquatic products; enforcement policy.
784.113 Work related to named operations performed in off- or dead-season.
784.114 Application of exemptions on a workweek basis.
784.115 Exempt and nonexempt work performed during the workweek.
784.116 Exempt and nonexempt work in the same workweek.
784.117 Combinations of exempt work.
784.118 Work subject to different minimum wage rates in same workweek.

GENERAL CHARACTER AND SCOPE OF THE SECTION 13(a)(5) EXEMPTION

784.119 The exemption is intended for work affected by natural factors.
784.120 Effect of natural factors on named operations.
784.121 Application of exemption to "offshore" activities in general.
784.122 Exempt fisheries operations.
784.123 Operations performed as an integrated part of fishing.
784.124 Operations performed on fishing equipment.
784.125 Going to and returning from work.
784.126 Loading and unloading.
784.127 Operation of the fishing vessel.
784.128 Office and clerical employees under section 13(a)(5).

FIRST PROCESSING, CANNING, OR PACKING OF MARINE PRODUCTS UNDER SECTION 13(a)(5)

784.129 Requirements for exemption of first processing, etc. at sea.
784.130 "Marine products".
784.131 "At sea".
784.132 "As an incident to, or in conjunction with", fishing operations.
784.133 The exempt operations.
784.134 "First processing".
784.135 "Canning".
784.136 "Packing".

GENERAL CHARACTER AND SCOPE OF THE SECTION 13(b)(4) EXEMPTION

784.137 "Shore" activities exempted under section 13(b)(4).
784.138 Relationship of exemption to exemption for "offshore" activities.
784.139 Perishable state of the aquatic product as affecting exemption.
784.140 Scope of exempt operations in general.
784.141 Fabrication and handling of supplies for use in named operations.
784.142 Examples of nonexempt employees.

"CANNING"

784.143 Meaning and scope of "canning" as used in section 13(b)(4).
784.144 "Necessary preparatory operations".
784.145 Preliminary processing by the canner.
784.146 Preliminary processing by another employer as part of "canning".
784.147 Preservation of aquatic products for later canning.
784.148 Processing of aquatic products for canning and for other disposition.
784.149 "Hermetically sealing and sterilizing or pasteurizing".
784.150 "Subsequent operations".
784.151 Employees "employed in" canning.

PROCESSING, FREEZING, AND CURING

Sec.
784.152 General scope of processing, freezing, and curing activities.
784.153 Typical operations that may qualify for exemption.
784.154 Named operations performed on previously processed aquatic products.
784.155 Operations performed after product is rendered nonperishable.
784.156 Operations performed on byproducts.

MARKETING, STORING, PACKING FOR SHIPMENT, AND DISTRIBUTING

784.157 General scope of named operations.
784.158 Relationship to other operations as affecting exemption.
784.159 Activities performed in wholesale establishments.

APPLICATION OF SECTION 13(b)(4) IN CERTAIN ESTABLISHMENTS

784.160 Establishments exclusively devoted to named operations.

AUTHORITY: §§ 784.0 to 784.159 issued under secs. 1-19 52 Stat. 1060, as amended; 75 Stat. 65; 29 U.S.C. 201-219.

Subpart A—General

INTRODUCTORY

§ 784.0 Purpose.

It is the purpose of this part to provide an official statement of the views of the Department of Labor with respect to the application and meaning of those provisions of the Fair Labor Standards Act which govern rights and obligations of employees and employers in the various enterprises engaged in fishing and related activities and in operations on aquatic products. The application of the Act to employment in such enterprises was broadened by amendments effective September 3, 1961. Under the amended Act, a substantial number of employees employed in the processing (other than canning), marketing, freezing, curing, storing, packing for shipment, or distributing of fish, shellfish, or other aquatic forms of animal or vegetable life and their by-products will be subject to its minimum wage provisions for the first time. Also, certain employers engaged in some of these activities may have employees who are newly subject to the Act under the amendments extending coverage to employees employed in specified enterprises engaged in commerce or in the production of goods for commerce. An exemption from minimum wages as well as overtime pay has been extended by the 1961 amendments to certain employees employed in canning of marine products at sea. It is an objective of this part to make available in one place, for the information of those who may be concerned with these and related provisions of the law, the official interpretations of such provisions by which the Department of Labor will be guided in carrying out its responsibilities under the Act.

§ 784.1 General scope of the Act.

The Fair Labor Standards Act, as amended, is a Federal statute of general application which establishes minimum wage, overtime pay, and child labor requirements that apply as provided in the Act. Employers and employees in enterprises engaged in fishing and related activities, or in operations on aquatic products on shore, need to know how the Act applies to employment in these enterprises so that they may understand their rights and obligations under the law. All employees whose employment has the relationship to interstate or foreign commerce which the Act specifies are subject to the prescribed labor standards unless specifically exempted from them. Employers having such employees are required to comply with the Act's provisions in this regard and with specified record-keeping requirements con-

tained in Part 516 of this chapter. The law authorizes the Department of Labor to investigate for compliance and, in the event of violations, to supervise the payment of unpaid minimum wages or unpaid overtime compensation owing to any employee. The law also provides for enforcement in the courts.

§ 784.2 Matters discussed in this part.

This part discusses generally the provisions of the Act which govern its application to employers and employees in enterprises and establishments of the fisheries, seafood processing, and related industries. It discusses in some detail those exemption provisions of the Act in sections 13(a)(5) and 13(b)(4) which refer specifically to employees employed in described activities with respect to seafood and other forms of aquatic life.

§ 785.3 Matters discussed in other interpretations.

Interpretations having general application to others subject to the law, as well as to fishermen and seafood canners, processors, or distributors and their employees, have been issued on a number of subjects of general interest. These will be found in other parts of this chapter. Reference should be made to them for guidance on matters which they discuss in detail, which this part does not undertake to do. They include Part 777 of this chapter, discussing methods of payment of wages; Part 778 of this chapter, discussing computation and payment of overtime compensation; Part 785 of this chapter, discussing the calculation of hours worked; Part 791 of this chapter, discussing joint employment relationships; and Part 776 of this chapter, discussing the general coverage provisions of the Act. Reference should also be made to Subpart G of Part 4 of this title, which contains the official interpretations of the child labor provisions of the Act.

§ 784.4 Significance of official interpretations.

The regulations in this part contain the official interpretations of the Department of Labor pertaining to the exemptions provided in sections 13(a)(5) and 13(b)(4) of the Fair Labor Standards Act of 1938, as amended. It is intended that the positions stated will serve as "a practical guide to employers and employees as to how the office representing the public interest in its enforcement will seek to apply it" (Skidmore v. Swift, 323 U.S. 134, 138). These interpretations indicate the construction of the law which the Secretary of Labor and the Administrator believe to be correct and which will guide them in the performance of their duties under the Act, unless and until they are otherwise directed by authoritative decisions of the courts or conclude upon the re-examination of an interpretation that it is incorrect. The interpretations contained herein may be relied upon in accordance with section 10 of the Portal-to-Portal Act (29 U.S.C. 251–262), so long as they remain effective and are not modified, amended, rescinded, or determined by judicial authority to be incorrect.

§ 784.5 Basic support for interpretations.

The ultimate decisions on interpretations of the Act are made by the courts (Mitchell v. Zachry, 362 U.S. 310; Kirschbaum v. Walling, 316 U.S. 517). Court decisions supporting interpretations contained in this part are cited where it is believed they may be helpful. On matters which have not been determined by the courts, it is necessary for the Secretary of Labor and the Administrator to reach conclusions as to the meaning and the application of provisions of the law in order to carry out their responsibilities of administration and enforcement (Skidmore v. Swift, 323 U.S. 134). In order that these positions may be made known to persons who may be affected by them, official interpretations are issued by the Administrator on the advice of the Solicitor of Labor, as authorized by the Secretary (Reorganization Plan 6 of 1950, 64 Stat. 1263; Gen. Ord. 45A, May 24, 1950; 15 F.R. 3290). As included in the regulations in this part, these interpretations are believed to express the intent of the law as reflected in its provisions and as construed by the courts and evidenced by its legislative history. References to pertinent legislative history are made in this part where it appears that they will contribute to a better understanding of the interpretations.

§ 784.6 Interpretations made, continued, and superseded by this part.

On and after publication of this Part 784 in the FEDERAL REGISTER, the interpretations contained therein shall be in effect and shall remain in effect until they are modified, rescinded or withdrawn. This part supersedes and replaces the interpretations previously published in the FEDERAL REGISTER and Code of Federal Regulations as Part 784 of this chapter. Prior opinions, rulings, and interpretations and prior enforcement policies which are not inconsistent with the interpretations in this part or with the Fair Labor Standards Act as amended by the Fair Labor Standards Amendments of 1961 are continued in effect; all other opinions, rulings, interpretations, and enforcement policies on the subjects discussed in the interpretations in this part are rescinded and withdrawn. The interpretations in this part provide statements of general principles applicable to the subjects discussed and illustrations of the application of these principles to situations that frequently arise. They do not and cannot refer specifically to every problem which may be met by employers and employees in the application of the Act. The omission to discuss a particular problem in this part or in interpretations supplementing it should not be taken to indicate the adoption of any position by the Secretary of Labor or the Administrator with respect to such problem or to constitute an administrative interpretation or practice or enforcement policy. Questions on matters not fully covered by this part may be addressed to the Administrator of the Wage and Hour and Public Contracts Divisions, United States Department of Labor, Washington 25, D.C., or to any Regional Office of the Divisions.

SOME BASIC DEFINITIONS

§ 784.7 Definition of terms used in the Act.

The meaning and application of the provisions of law discussed in this part depend in large degree on the definitions of terms used in these provisions. The Act itself defines some of these terms. Others have been defined and construed in decisions of the courts. In the following sections some of these basic definitions are set forth for ready reference in connection with the part's discussion of the various provisions in which they appear. These definitions and their application are further considered in other interpretative bulletins to which reference is made, and in the sections of this part where the particular provisions containing the defined terms are discussed.

§ 784.8 "Employer", "employee", and "employ".

The Act's major provisions impose certain requirements and prohibitions on every "employer" subject to their terms. The employment by an "employer" of an "employee" is, to the extent specified in the Act, made subject to minimum wage and overtime pay requirements and to prohibitions against the employment of oppressive child labor. The Act provides its own definitions of "employer", "employee", and "employ", under which "economic reality" rather than "technical concepts" determines whether there is employment subject to its terms (Goldberg v. Whitaker House Cooperative, 366 U.S. 28; United States v. Silk, 331 U.S. 704; Rutherford Food Corp. v. McComb, 331 U.S. 722). An "employer", as defined in section 3(d) of the Act, "includes any person acting directly or indirectly in the interest of an employer in relation to an employee but shall not include the United States or any State or political subdivision of a State, or any labor organization (other than when acting as an employer), or anyone acting in the capacity of officer or agent of such labor organization". An "employee", as defined in section 3(e) of the Act, "includes any individual employed by an employer", and "employ", as used in the Act, is defined in section 3(g) to include "to suffer or permit to work". It should be noted, as explained in Part 791 of this chapter, dealing with joint employment, that in appropriate circumstances two or more employers may be jointly responsible for compliance with the statutory requirements applicable to employment of a particular employee. It should also be noted that "employer", "enterprise", and "establishment" are not synonymous terms, as used in the Act. An employer may have an enterprise with more than one establishment, or he may have more than one enterprise, in which he employs employees within the meaning of the Act. Also, there may be different employers who employ employees in a particular establishment or enterprise.

§ 784.9 "Person".

As used in the Act (including the definition of "enterprise" set forth below in § 784.10), "person" is defined as meaning "an individual, partnership, association, corporation, business trust, legal representative, or any organized group of persons" (Act, section 3(a)).

§ 784.10 "Enterprise".

The term "enterprise" which may, in some situations, be pertinent in determining coverage of this Act to employees employed by employers engaged in the procurement, processing, or distribution of aquatic products, is defined in section 3(r) of the Act. Section 3(r) states:

> Enterprise means the related activities performed (either through unified operation or common control) by any person or persons for a common business purpose, and includes all such activities whether performed in one or more establishments or by one or more corporate or other organizational units including departments of an establishment operated through leasing arrangements, but shall not include the related activities performed for such enterprise by an independent contractor • • •.

The scope and application of this definition is discussed in Part 776 of this chapter and in §§ 779.200–779.235 of this chapter.

§ 784.11 "Establishment".

As used in the Act (including the provision quoted below in § 784.12), the term "establishment", which is not specially defined therein, refers to a "distinct physical place of business" rather than to "an entire business or enterprise" which may include several separate places of business. This is consistent with the meaning of the term as it is normally used in business and in government, is judicially settled, and has been recognized in the Congress in the course of enactment of amendatory legislation (Phillips v. Walling, 324 U.S. 490; Mitchell v. Bekins Van & Storage Co., 352 U.S. 1027; 95 Cong. Rec. 12505, 12529, 14697; H. Rept. No. 1455, 81st Cong., 1st Sess., p. 25). This is the meaning of the term as used in sections 3(r), 3(s), and 6(b) of the Act.

§ 784.12 "Enterprise engaged in commerce or in the production of goods for commerce".

Portions of the definition of "enterprise engaged in commerce or in the production of goods for commerce" (Act, section 3(s)) which may in some situations determine the application of provisions of the Act to employees employed by employers engaged in the procurement, processing, or distribution of aquatic products are as follows:

> (s) "Enterprise engaged in commerce or in the production of goods for commerce" means any of the following in the activities of which employees are so engaged, including employees handling, selling, or otherwise working on goods that have been moved in or produced for commerce by any person:
>
> • • • • •
>
> (2) any establishment of any such enterprise • • • which has employees engaged in commerce or in the production of goods for commerce if the annual gross volume of sales of such enterprise is not less than $[amount].
>
> • • • • •
>
> Provided, That an establishment shall not be considered to be an enterprise engaged in commerce or in the production of goods for commerce, or a part of an enterprise engaged in commerce or in the production of goods for commerce, and the sales of such establishment shall not be included for the purpose of determining the annual gross volume of sales of any enterprise for the purpose of this subsection, if the only employees of such establishment are the owner thereof or persons standing in the relationship of parent, spouse, or child of such owner.

The application of this definition is considered in Part 776 of this chapter.

§ 784.13 "Commerce".

"Commerce" as used in the Act includes interstate and foreign commerce. It is defined in section 3(b) of the Act to mean "trade, commerce, transportation, transmission, or communication among the several States or between any State and any place outside thereof." (For the definition of "State", see § 784.16.) The application of this definition and the kinds of activities which it includes are discussed at length in Part 776 of this chapter dealing with the general coverage of the Act.

§ 784.14 "Production".

To understand the meaning of "production" of goods for commerce as used in the Act it is necessary to refer to the definition in section 3(j) of the term "produced". A detailed discussion of the application of the term as defined is contained in Part 776 of this chapter, dealing with the general coverage of the Act. Section 3(j) provides that "produced" as used in the Act "means produced, manufactured, mined, handled, or in any other manner worked on in any State; and for the purposes of this Act an employee shall be deemed to have been engaged in the production of goods if such employee was employed in producing, manufacturing, mining, handling, transporting, or in any other manner working on such goods, or in any closely related process or occupation directly essential to the production thereof, in any State." (For the definition of "State" see § 784.16.)

§ 784.15 "Goods".

The definition in section 3(i) of the Act states that "goods", as used in the Act, means "goods (including ships and marine equipment), wares, products, commodities, merchandise, or articles or subjects of commerce of any character, or any part or ingredient thereof, but does not include goods after their delivery into the actual physical possession of the ultimate consumer thereof other than a producer, manufacturer, or processor thereof." Part 776 of this chapter, dealing with the general coverage of the Act, contains a detailed discussion of the application of this definition and what is included in it.

§ 784.16 "State".

As used in the Act, "State" means "any State of the United States or the District of Columbia or any Territory or possession of the United States" (Act, section 3(c)). The application of this definition in determining questions of coverage under the Act's definition of "commerce" and "produced" (see §§ 784.13, 784.14) is discussed in Part 776 of this chapter, dealing with general coverage.

§ 784.17 "Regular rate".

As explained in Part 778 of this chapter, dealing with overtime compensation, employees subject to the overtime pay provisions of the Act must generally receive for their overtime work in any workweek as provided in the Act not less than one and one-half times their regular rates of pay. Section 7(d) of the Act defines the term "regular rate" "to include all remuneration for employment paid to, or on behalf of, the employee" except certain payments which are expressly described in and excluded by the statutory definition. This definition, which is discussed at length in Part 778 of this chapter, determines the regular rate upon which time and one-half overtime compensation must be computed under section 7(a) of the Act for employees within its general coverage who are not exempt from the overtime provisions under either of the fishery and seafood exemptions provided by sections 13(a)(15) and 13(b)(4) or under some other exemption contained in the Act. It should be noted that if such an employee is not himself engaged in commerce or in the production of goods for commerce as defined by the Act and in the courts, and is within the Act's coverage only by reason of his employment in an enterprise engaged in commerce or in the production of goods for commerce, under the amendments to the Act effective on September 3, 1961, there is no obligation to pay overtime to him until September 3, 1963, as explained below in § 784.25.

APPLICATION OF COVERAGE AND EXEMPTION PROVISIONS OF THE ACT

§ 784.18 Basic coverage is general.

Except as otherwise provided in specific exemptions, the minimum wage, overtime pay, and child labor standards of the Act are generally applicable to employees who engage in specified activities concerned with interstate or foreign commerce. The employment of oppressive child labor in or about establishments producing goods for such commerce is also restricted by the Act. Beginning on September 3, 1961, the monetary and child labor standards of the Act are also generally applicable to other employees, not specifically exempted, who are employed in specified enterprises engaged in such commerce or in the production of goods for such commerce. The monetary standards applicable to all the foregoing employees, covered under the provisions discussed below in §§ 784.19 and 784.20, are explained subsequently in §§ 784.23 to 784.25 of this Subpart A. The employer must observe these monetary standards with respect to all such employees in his employ except those who may be denied one or both of these benefits by virtue of some specific exemption provision of the Act, such as section 13(a)(5) or 13(b)(4). It should be noted that enterprises having employees subject to these exemptions may also have other employees who may be exempt under section 13(a)(1) of the Act, subject to conditions

specified in regulations, as employees employed in a bona fide executive, administrative, or professional capacity, or in the capacity of outside salesman. The regulations governing these exemptions are set forth and explained in Part 541 of this chapter.

§ 784.19 Commerce activities of employees.

The Fair Labor Standards Act has applied since 1938 to all employees, not specifically exempted, who are engaged (a) in interstate or foreign commerce or (b) in the production of goods for such commerce, which is defined to include any closely related process or occupation directly essential to such production (29 U.S.C. 206(a), 207(a); and see §§ 784.13 to 784.16 for definitions governing the scope of this coverage). The Act as amended in 1961 continues this coverage. In general, employees of businesses concerned with fisheries and with operations on seafood and other aquatic products are engaged in interstate or foreign commerce, or in the production of goods for such commerce, as defined in the Act, and are subject to the Act's provisions except as otherwise provided in sections 13(a)(5) and 13(b)(4) or other express exemptions. A detailed discussion of the activities in commerce or in the production of goods for commerce which will bring an employee under the Act is contained in Part 776 of this chapter, dealing with general coverage.

§ 784.20 Commerce activities of enterprise in which employee is employed.

Under amendments to the Fair Labor Standards Act, effective September 3, 1961 (Pub. Law 87–30, 75 Stat. 65), employees not covered by reason of their personal engagement in interstate commerce activities, as explained in § 784.19, are nevertheless brought within the coverage of the Act if they are employed in an enterprise which is defined in section 3(s) of the Act as an enterprise engaged in commerce or in the production of goods for commerce, or by an establishment described in section 3(s)(3) of the Act (see § 784.12.) Such employees, if not exempt from minimum wages and overtime pay under section 13(a)(5) or exempt from overtime pay under section 13(b)(4), will have to be paid in accordance with these monetary standards of the Act unless expressly exempt under some other provision. This would generally be true of employees employed in enterprises and by establishments engaged in the procurement, processing, marketing or distribution of seafood and other aquatic products, where the enterprise has an annual gross sales volume of $1,000,000 or more. Enterprise coverage is more fully discussed in Part 776 of this chapter, dealing with general coverage.

§ 784.21 Exemptions from the Act's provisions.

The Act provides a number of specific exemptions from the general requirements previously described. Some are exemptions from the overtime provisions only. Others are from the child labor provisions only. Several are exemptions from both the minimum wage and the overtime requirements of the Act. Finally, there are some exemptions from all three—minimum wage, overtime pay, and child labor requirements. An examination of the terminology in which the exemptions from the general coverage of the Fair Labor Standards Act are stated discloses language patterns which reflect congressional intent. Thus, Congress specified in varying degree the criteria for application of each of the exemptions and in a number of instances differentiated as to whether employees are to be exempt because they are employed by a particular kind of employer, employed in a particular type of establishment, employed in a particular industry, employed in a particular capacity or occupation, or engaged in a specified operation. (See 29 U.S.C. 203(d); 207 (b), (c), (h); 213 (a), (b), (c), (d). And see Addison v. Holly Hill, 322 U.S. 607; Mitchell v. Trade Winds, Inc., 289 F. 2d 278; Mitchell v. Stinson, 217 F. 2d 210.) In general, there are no exemptions from the child labor requirements that apply in enterprises or establishments engaged in fishing or in operations on aquatic products see Part 4, Subpart G of this Title). Such enterprises or establishments will, however, be concerned with the exemption from overtime pay in section 13(b)(4) of the Act for employees employed in specified "on-shore" operations (see § 784.101) and the exemption from minimum wages and overtime pay provided by section 13(a)(5) for employees employed in fishing, fish-farming, and other specified "off-shore" operations on aquatic products. These exemptions, which are subject to the general rules stated in § 784.22, are discussed at length in Subpart B of this Part 784.

§ 784.22 Guiding principles for applying coverage and exemption provisions.

It is clear that Congress intended the Fair Labor Standards Act to be broad in its scope. "Breadth of coverage is vital to its mission" (Powell v. U.S. Cartridge Co., 339 U.S. 497). An employer who claims an exemption under the Act has the burden of showing that it applies (Walling v. General Industries Co., 330 U.S. 545; Mitchell v. Kentucky Finance Co., 359 U.S. 290; Tobin v. Blue Channel Corp., 198 F. 2d 245, approved in Mitchell v. Myrtle Grove Packing Co., 350 U.S. 891; Fleming v. Hawkeye Pearl Button Co., 113 F. 2d 52). Conditions specified in the language of the Act are "explicit prerequisites to exemption" (Arnold v. Kanowsky, 361 U.S. 388). In their application, the purpose of the exemption as shown in its legislative history as well as its language should be given effect. However, "the details with which the exemptions in this Act have been made preclude their enlargement by implication" and "no matter how broad the exemption, it is meant to apply only to" the specified activities (Addison v. Holly Hill, 322 U.S. 607; Maneja V. Waialua, 349 U.S. 254). Exemptions provided in the Act "are to be narrowly construed against the employer seeking to assert them" and their application limited to those who come "plainly and unmistakably within their terms and spirit." This construction of the exemptions is necessary to carry out the broad objectives for which the Act was passed (Phillips v. Walling, 324 U.S. 490; Mitchell v. Kentucky Finance Co., supra; Arnold v. Kanowsky, supra; Calad v. Gonzalez, 127 F. 2d 934; Bowie v. Gonzalez, 117 F. 2d 11; Mitchell v. Stinson, 217 F. 2d 210; Fleming v. Hawkeye Pearl Button Co., 113 F. 2d 52).

§ 784.23 Minimum wages and overtime pay for "old" and "new" coverage.

Under the Act as amended in 1961, an employer may have some employees subject to its minimum wage, overtime pay, or child labor provisions who would be covered by such provisions under the "old" law even if the amendments had not been enacted, and other employees whose coverage under such provisions was provided for the first time by the 1961 amendments. As previously explained, such provisions of the Act, as amended, may apply to an employee by reason of the activities in which he is individually engaged, or because he is employed in an enterprise whose activities satisfy the conditions prescribed in the law. However, the minimum wage rates and overtime pay provisions will not be uniform for all such employees until September 3, 1965. On and after that date, every such employee subject to the minimum wage provisions will be entitled to not less than $1.25 an hour and every such employee subject to the overtime provisions will be entitled to overtime pay for all hours worked in excess of 40 in a workweek at a rate not less than one and one-half times his regular rate of pay. In contrast, during the period beginning with the effective date of the 1961 amendments on September 3, 1961 and ending September 2, 1965, the minimum wage rates applicable to employees subject to the minimum wage provisions, and the overtime pay provisions applicable to such employees who are not specifically exempt therefrom, will be different for employees in employment brought under the Act for the first time by the amendments than for employees whose coverage may be based on the "old" provisions of the Act. During this period employees whose coverage depends on the "new" provisions may be paid a lower minimum wage rate than those covered under the "old" provisions and may be employed for a longer workweek without overtime pay, as specified in the Act. Accordingly, employers who do not wish to pay to all covered employees the minimum wages and overtime pay required for employees covered under the "old" provisions will need to identify those employees who are covered under the "old" and those who are covered under the "new" provisions when wages are computed and paid under the Act.

§ 784.24 Pay standards for employees subject to "old" coverage of the Act.

The 1961 amendments did not change the tests described in § 784.20 by which coverage based on the employee's individual activities is determined. Any employee whose employment satisfies those tests and would not have come within some exemption (such as section 13(a)(5)) in the Act prior to the 1961 amendments is subject to the "old" provisions of the law and entitled to a minimum wage of at least $1.15 an hour beginning September 3, 1961 and not less than $1.25 an hour beginning September 3, 1963 (29 U.S.C. 206(a)(1)), unless expressly exempted by some provision of the amended Act. Such an employee is also entitled to overtime pay for hours worked in excess of 40 in any workweek at a rate not less than one and one-half times his regular rate of pay (29 U.S.C. 207(a)(1)), unless expressly exempt from overtime by some exemption such as section 13(b)(4). (Minimum wage rates in Puerto Rico, the Virgin Islands, and American Samoa are governed by special provisions of the Act (29 U.S.C. 206(a)(3); 206(c).) Information on these rates is available at any office of the Wage and Hour and Public Contracts Divisions.

§ 784.25 Pay standards for "newly covered" employees.

There are some employees whose individual activities would not bring them within the minimum wage or overtime pay provisions of the Act as it was prior to the 1961 amendments, but who are brought within minimum wage or overtime coverage or both for the first time by the new "enterprise" coverage provisions or changes in exemptions, or both, which were enacted as part of the amendments and made effective September 3, 1961. Typical of such employees are those who, regardless of any engagement in commerce or in the production of goods for commerce, were exempt from minimum wages as well as overtime pay by virtue of section 13(a)(5) of the Act until the 1961 amendments, but who by virtue of these amendments are exempt only from overtime pay on and after September 3, 1961, under the amended section 13(d)(4) of the Act. These "newly covered" employees for whom no specific exemption has been retained or provided in the amendments must be paid not less than the minimum wages for hours worked and unless exempted by section 13(d)(4) or some other provision, not less than one and one-half times their regular rates of pay (see § 784.18) for overtime, as shown in the following schedule:

Beginning:	Minimum wage (29 U.S.C. 206(b))	Overtime pay (29 U.S.C. 207(a)(2))
Sept. 3, 1961	$1 an hour	None required.
Sept. 3, 1963	No change	After 44 hours in a workweek.
Sept. 3, 1964	$1.15 an hour	After 42 hours in a workweek.
Sept. 3, 1965 and thereafter.	$1.25 an hour	After 40 hours in a workweek.

[1] Requirements identical to those for employees under "old" coverage. (Minimum wage rates for newly covered employees in Puerto Rico, the Virgin Islands, and American Samoa are set by wage order on recommendations of special industry committees (29 U.S.C. 206(a)(3); 206(c)). Information on these rates may be obtained at any Office of the Wage and Hour and Public Contracts Divisions.)

Subpart B—Exemption Provisions Relating to Fishing and Aquatic Products

THE STATUTORY PROVISIONS

§ 784.100 The section 13(a)(5) exemption.

Section 13(a)(5) grants an exemption from both the minimum wage and the overtime requirements of the Act and applies to "any employee employed in the catching, taking, propagating, harvesting, cultivating, or farming of any kind of fish, shellfish, crustacea, sponges, seaweeds, or other aquatic forms of animal and vegetable life, or in the first processing, canning or packing of such marine products at sea as an incident to, or in conjunction with, such fishing operations, including the going to and returning from work and loading and unloading when performed by any such employee."

§ 784.101 The section 13(b)(4) exemption.

Section 13(b)(4) grants an exemption only from the overtime requirements of the Act and applies to "any employee employed in the canning, processing, marketing, freezing, curing, storing, packing for shipment, or distributing of any kind of fish, shellfish, or other aquatic forms of animal or vegetable life, or any byproduct thereof."

LEGISLATIVE HISTORY OF EXEMPTIONS

§ 784.102 General legislative history.

(a) As originally enacted in 1938, the Fair Labor Standards Act provided an exemption from both the minimum wage requirements of section 6 and the overtime pay requirements of section 7 which was made applicable to "any employee employed in the catching, taking, harvesting, cultivating, or farming of any kind of fish, shellfish, crustacea, sponges, seaweeds or other aquatic forms of animal and vegetable life, including the going to and returning from work and including employment in the loading, unloading, or packing of such products for shipment or in propagating, processing, marketing, freezing, canning, curing, storing, or distributing the above products or byproducts thereof" (52 Stat. 1060, sec. 13(a)(5)).

(b) In 1949 the minimum wage was extended to employees employed in canning such products by deleting the word "canning" from the above exemption, adding the parenthetical phrase "(other than canning)" after the word "processing" therein, and providing a new exemption in section 13(b)(4), from overtime pay provisions only, applicable to "any employee employed in the canning of any kind of fish, shellfish, or other aquatic forms of animal or vegetable life, or any byproduct thereof". All other employees included in the original minimum wage and overtime exemption remained within it (63 Stat. 910).

(c) By the Fair Labor Standards Amendments of 1961, effective September 3, 1961 (75 Stat. 65), both these exemptions were further revised to read as set forth in §§ 784.100 and 784.101. The effect of this change was to provide a means of equalizing the application of the Act as between canning employees and employees employed in other processing, marketing, and distributing of aquatic products on shore, to whom minimum wage protection, formerly provided only for canning employees, was extended by this action. The 1961 amendments, however, left employees employed in fishing, in fish farming, and in related occupations concerned with procurement of aquatic products from nature, under the existing exemption from minimum wages as well as overtime pay.

§ 784.103 Adoption of the exemption in the original 1938 Act.

Although in the course of consideration of the legislation in Congress before passage in 1938, provisions to exempt employment in fisheries and aquatic products activities took various forms, section 13(a)(5), as drafted by the conference committee and finally approved, followed the language of an amendment adopted during consideration of the bill by the House of Representatives on May 24, 1938, which was proposed by Congressman Bland of Virginia. He had, earlier on the same day, offered an amendment which had as its objective the exemption of the "fishery industry", broadly defined. This amendment had been defeated (83 Cong. Rec. 7408), as had an amendment subsequently offered by Congressman Mott of Oregon (to a pending amendment proposed by Congressman Coffee of Nebraska) which would have provided an exemption for "industries engaged in producing, processing, distributing, or handling * * * fishery or seafood products which are seasonal or perishable" (83 Cong. Rec. 7421–7423). Against this background, when Congressman Bland offered his amendment which ultimately became section 13(a)(5) of the Act he took pains to explain: "This amendment is not the same. In the last amendment I was trying to define the fishery industry. I am now dealing with those persons who are exempt, and I call the attention of the Committee to the language with respect to the employment of persons in agriculture * * * I am only asking for the seafood and fishery industry that which has been done for agriculture." It was after this explanation that the amendment was adopted (83 Cong. Rec. 7443). When the conference committee included in the final legislation this provision from the House bill, it omitted from the bill another House provision granting an hours exemption for "employees in any place of employment" where the employer was "engaged in the processing of or in canning fresh fish or fresh seafood" and the provision of the Senate bill providing an hours exemption for employees "employed in connection with" the canning or other packing of fish, etc. (see Mitchell v. Stinson, 217 F. 2d 210; McComb v. Consolidated Fisheries, 75 F. Supp. 798). The indication in this legislative history that the exemption in its final form was intended to depend upon the employment of the particular employee in the

specified activities is in accord with the position of the Department of Labor and the weight of judicial authority.

§ 784.104 The 1949 amendments.

In deleting employees employed in canning aquatic products from the section 13(a)(5) exemption and providing them with an exemption in like language from the overtime provisions only in section 13(b)(4), the conferees on the Fair Labor Standards Amendments of 1949 did not indicate any intention to change in any way the category of employees who would be exempt as "employed in the canning of" the aquatic products. As the Supreme Court has pointed out in a number of decisions, "When Congress amended the Act in 1949 it provided that pre-1949 rulings and interpretations by the Administrator should remain in effect unless inconsistent with the statute as amended 63 Stat. 920" (Mitchell v. Kentucky Finance Co., 359 U.S. 290). In connection with this exemption the conference report specifically indicates what operations are included in the canning process (see § 784.143). In a case decided before the 1961 amendments to the Act, this was held to "indicate that Congress intended that only those employees engaged in operations physically essential in the canning of fish, such as cutting the fish, placing it in cans, labelling and packing the cans for shipment are in the exempt category" (Mitchell v. Stinson, 217 F. 2d 210).

§ 734.105 The 1961 amendments.

(a) The statement of the Managers on the Part of the House in the conference report on the Fair Labor Standards Amendments of 1961 (H. Rep. No. 327, 87th Cong., 1st Sess., p. 16) refers to the fact that the changes made in sections 13(a)(5) and 13(b)(4) originated in the Senate amendment to the House bill and were not in the bill as passed by the House. In describing the Senate provision which was retained in the final legislation, the Managers stated that it "changes the exemption in the act for" the operations transferred to section 13(b)(4) from section 13(a)(5) "from a minimum wage and overtime exemption to an overtime only exemption." They further stated: "The present complete exemption is retained for employees employed in catching, propagating, taking, harvesting, cultivating, or farming fish and certain other marine products, or in the first processing, canning, or packing such marine products at sea as an incident to, or in conjunction with, such fishing operations, including the going to and returning from work and loading and unloading when performed by such an employee." In the report of the Senate committee on the provision included in the Senate bill (S. Rep. No. 145, 87th Cong., 1st Sess., p. 33), the committee stated: "The bill would modify the minimum wage and overtime exemption in section 13(a)(5) of the act for employees engaged in fishing and in specified activities on aquatic products." In further explanation, the report states that the bill would amend this section "to remove from this exemption those so-called onshore activities and leave the exemption applicable to 'offshore' activities connected with the procurement of the aquatic products, including first processing, canning or packing at sea performed as an incident to fishing operations, as well as employment in loading and unloading such products for shipment when performed by any employee engaged in these procurement operations." It is further stated in the report that "persons who are employed in the activities removed from the section 13(a)(5) exemption will have minimum wage protection but will continue to be exempt from the Act's overtime requirements under an amended section 13(b)(4). The bill will thus have the effect of placing fish processing and fish canning on the same basis under the Act. There is no logical reason for treating them differently and their inclusion within the Act's protection is desirable and consistent with its objectives."

(b) The language of the Managers on the Part of the House in the conference report and of the Senate committee in its report, as quoted above, is consistent with the position supported by the earlier legislative history and by the courts, that the exemption of an employee under these provisions of the Act depends on what he does. The Senate report speaks of the exemption "for employees engaged in fishing and in specified activities" and of the "activities now enumerated in this section". While this language confirms the legislative intent to continue to provide exemptions for employees employed in specified activities rather than to grant exemption on an industry, employer, or establishment basis (see Mitchell v. Trade Winds, Inc., 289 F. 2d 278), the report also refers with apparent approval to certain prior judicial interpretations indicating that the list of activities set out in the exemption provisions is intended to be "a complete catalog of the activities involved in the fishery industry" and that an employee, to be exempt, need not engage directly in the physical acts of catching, processing, canning, etc. of aquatic products which are included in the operations specifically named in the statute (McComb v. Consolidated Fisheries Co., 174 F. 2d 74). It was stated that an interpretation of section 13(a)(5) and section 13(b)(4) which would include within their purview "any employee who participates in activities which are necessary to the conduct of the operations specifically described in the exemptions" is "consistent with the congressional purpose" of the 1961 amendments. (See Sen. Rep. No. 145, 87th Cong., 1st sess., p. 33; Statement of Representative Roosevelt, 107 Cong. Rec. (daily ed.) p. 6716, as corrected May 4, 1961.) From this legislative history the intent is apparent that the application of these exemptions under the Act as amended in 1961 is to be determined by the practical and functional relationship of the employee's work to the performance of the operations specifically named in section 13(a)(5) and section 13(b)(4).

Principles Applicable to the Two Exemptions

§ 784.106 Relationship of employee's work to the named operations.

It is clear from the language of section 13(a)(5) and section 13(b)(4) of the Act, and from their legislative history as discussed in §§ 784.102–784.105, that the exemptions which they provide are applicable only to those employees who are "employed in" the named operations. Under the Act as amended in 1961 and in accordance with the evident legislative intent (see § 784.105), an employee will be considered to be "employed in" an operation named in section 13(a)(5) or 13(b)(4) where his work is an essential and integrated step in performing such named operation (see Mitchell v. Myrtle Grove Packing Co., 350 U.S. 891, approving Tobin v. Blue Channel Corp., 196 F. 2d 245; Mitchell v. Stinson, 217 F. 2d 210), or where the employee is engaged in activities which are functionally so related to a named operation under the particular facts and circumstances that they are necessary to the conduct of such operation and his employment is, as a practical matter, necessarily and directly a part of carrying on the operation for which exemption was intended (Mitchell v. Trade Winds, Inc., 289 F. 2d 278; see also Waller v. Humphreys, 133 F. 2d 138 and McComb v. Consolidated Fisheries Co., 174 F. 2d 74). Under these principles, generally an employee performing functions without which the named operations could not go on is, as a practical matter, "employed in" such operations. It is also possible for an employee to come within the exemption provided by section 13(a)(5) or section 13(b)(4) even though he does not directly participate in the physical acts which are performed on the enumerated marine products in carrying on the operations which are named in that section of the Act. However, it is not enough to establish the applicability of such an exemption that an employee is hired by an employer who is engaged in one or more of the named operations or that the employee is employed by an establishment or in an industry in which operations enumerated in section 13(a)(5) or section 13(b)(4) are performed. The relationship between what he does and the performance of the named operations must be examined to determine whether an application of the above-stated principles to all the facts and circumstances will justify the conclusion that he is "employed in" such operations within the intendment of the exemption provision.

§ 784.107 Relationship of employee's work to operations on the specified aquatic products.

It is also necessary to the application of the exemptions that the operations of which the employee's work is a part be performed on the marine products named in the Act. Thus, the operations described in section 13(a)(5) must be performed with respect to "any kind of fish, shellfish, crustacea, sponges, seaweeds, or other aquatic forms of animal and vegetable life". The operations

enumerated in section 13(b)(4) must be performed with respect to "any kind of fish, shellfish, or other aquatic forms of animal or vegetable life, or any by-product thereof". Work performed on products which do not fall within these descriptions is not within the exemptions (Fleming v. Hawkeye Pearl Button Co., 113 F. 2d 52; Mitchell v. Trade Winds, Inc., 289 F. 2d 278; Walling v. Haden, 153 F. 2d 196).

§ 784.108 Operations not included in named operations on forms of aquatic "life".

Since the subject matter of the exemptions is concerned with "aquatic forms of animal and vegetable life", the courts have held that the manufacture of buttons from clam shells or the dredging of shells to be made into lime and cement are not exempt operations because the shells are not living things (Fleming v. Hawkeye Pearl Button Co., 113 F. 2d 52; Walling v. Haden, 153 F. 2d 196, certiorari denied 328 U.S. 866). Similarly, the production of such items as crushed shell and grit, shell lime, pearl buttons, knife handles, novelties, liquid glue, isinglass, pearl essence and fortified or refined fish oil is not within these exemptions.

§ 784.109 Manufacture of supplies for named operations is not exempt.

Employment in the manufacture of supplies for the named operations is not employment in the named operations on aquatic forms of life. Thus, the exemption is not applicable to the manufacture of boxes, barrels, or ice by a seafood processor for packing or shipping its seafood products or for use of the ice in its fishing vessels. These operations, when performed by an independent manufacturer, would likewise not be exempt (Dize v. Maddrix, 144 F. 2d 284 (C.A. 4), affirmed 324 U.S. 697, and approved on this point in Farmers' Reservoir Co. v. McComb, 337 U.S. 755).

§ 784.110 Performing operations both on nonaquatic products and named aquatic products.

By their terms, sections 13(a)(5) and 13(b)(4) provide no exemption with respect to operations performed on any products other than the aquatic products named in these subsections (see § 784.107). Accordingly, neither of the exemptions is applicable to the making of any commodities from ingredients only part of which consist of such aquatic products, if a substantial amount of other products is contained in the commodity so produced (compare Walling v. Bridgeman-Russell Co., 6 Labor Cases 61,422, 2 WH Cases 785 (D. Minn.) and Miller v. Litchfield Creamery Co., 11 Labor Cases 63,247, 5 WH Cases 1039 (N.D. Ind.), with Mitchell v. Trade Winds, Inc., 289 F. 2d 278). Thus, the first processing, canning, or processing of codfish cakes, clam chowder, dog food, crabcakes, or livestock food containing aquatic products is often not exempt within the meaning of the relevant exemptions.

§ 784.111 Operations on named products with substantial amounts of other ingredients are not exempt.

To exempt employees employed in first processing, canning, or processing products composed of the named commodities and a substantial amount of ingredients not named in the exemptions would be contrary to the language and purposes of such exemptions which specifically enumerate the commodities on which exempt operations were intended to be performed. Consequently, in such situations all operations performed on the mixed products at and from the time of the addition of the foreign ingredients, including those activities which are an integral part of first processing, canning or processing are nonexempt activities. However, activities performed in connection with such operations on the named aquatic products prior to the addition of the foreign ingredients are deemed exempt operations under the applicable exemption. Where the commodity produced from named aquatic products contains an insubstantial amount of products not named in the exemption, the operations will be considered as performed on the aquatic products and handling and preparation of the foreign ingredients for use in the exempt operations will also be considered as exempt activities.

§ 784.112 Substantial amounts of nonaquatic products; enforcement policy.

As an enforcement policy in applying the principles stated in §§ 784.110 and 784.111, if more than 20 percent of a commodity consists of products other than aquatic products named in section 13(a)(5) or 13(b)(4), the commodity will be deemed to contain a substantial amount of such nonaquatic products.

§ 784.113 Work related to named operations performed in off- or dead-season.

Generally, during the dead or inactive season when operations named in section 13(a)(5) or 13(b)(4) are not being performed on the specified aquatic forms of life, employees performing work relating to the plant or equipment which is used in such operations during the active season are not exempt. Illustrative of such employees are those who repair, overhaul, or recondition fishing equipment or processing or canning equipment and machinery during the off-season periods when fishing, processing, or canning is not going on. An exemption provided for employees employed "in" specified operations is plainly not intended to apply to employees employed in other activities during periods when the specified operations are not being carried on, where their work is functionally remote from the actual conduct of the operations for which exemption is provided and is unaffected by the natural factors which the Congress relied on as reason for exemption. The courts have recognized these principles. See Maneja v. Waialua, 349 U.S. 254; Mitchell v. Stinson, 217 F. 2d 210; Maisonet v. Central Coloso, 6 Labor Cases (CCH) par. 61,337, 2 WH Cases 753 (D. P.R.); Abram v. San Joaquin Cotton Oil Co., 49 F. Supp. 393 (S.D. Calif.), and Heaburg v. Independent Oil Mill Inc., 46 F. Supp. 751 (W.D. Tenn.). On the other hand, there may be situations where employees performing certain preseason or postseason activities immediately prior or subsequent to carrying on operations named in section 13(a)(5) or section 13(b)(4) are properly to be considered as employed "in" the named operations because their work is so close in point of time and function to the conduct of the named operations that the employment is, as a practical matter, necessarily and directly a part of carrying on the operation for which exemption was intended. Depending on the facts and circumstances, this may be true, for example, of employees who perform such work as placing boats and other equipment in condition for use at the beginning of the fishing season, and taking the necessary protective measures with respect to such equipment which are required in connection with termination of the named operations at the end of the season. Where such work is integrated with and is required for the actual conduct of the named operations on the specified aquatic forms of life, and is necessarily performed immediately before or immediately after such named operations, the employees performing it may be considered as employed in the named operations, so as to come within the exemption. It should be kept in mind that the relationship between the work of an employee and the named operations which is required for exemption is not necessarily identical with the relationship between such work and the production of goods for commerce which is sufficient to establish its general coverage under the Act. Thus, repair, overhaul, and reconditioning work during the inactive season which does not come within the exemption is nevertheless closely related and directly essential to the production of goods for commerce which takes place during the active season and, therefore, is subject to the provisions of the Act (Farmers' Reservoir Co. v. McComb, 337 U.S. 755; Mitchell v. Stinson, 217 F. 2d 210; Bowie v. Gonzalez, 117 F. 2d 11; Weaver v. Pittsburgh Steamship Co., 153 F. 2d 597, cert. den. 328 U.S. 858).

§ 784.114 Application of exemptions on a workweek basis.

The general rule is that the unit of time to be used in determining the application of the exemption to an employee is the workweek (see Overnight Motor Transportation Co. v. Missel, 316 U.S. 572; Mitchell v. Stinsen, 217 F. 2d 210; Mitchell v. Hunt, 263 F. 2d 913; Puerto Rico Tobacco Marketing Co-op. Ass'n. v. McComb, 181 F. 2d 697). Thus, the workweek is the unit of time to be taken as the standard in determining the applicability to an employee of section 13(a)(5) or section 13(b)(4) (Mitchell v. Stinson, supra). An employee's workweek is a fixed and regularly recurring period of 168 hours—seven consecutive 24-hour periods. It may begin at any hour of any day set

by the employer and need not coincide with the calendar week. Once the workweek has been set it commences each succeeding week on the same day and at the same hour. Changing the workweek for the purpose of escaping the requirements of the Act is not permitted. If in any workweek an employee does only exempt work he is exempt from the wage and hours provisions of the Act during that workweek, irrespective of the nature of his work in any other workweek or workweeks. An employee may thus be exempt in one workweek and not the next (see Mitchell v. Stinson, supra). But the burden of effecting segregation between exempt and nonexempt work as between particular workweek is on the employer (see Tobin v. Blue Channel Corp., 198 F. 2d 245).

§ 784.115 Exempt and noncovered work performed during the workweek.

The wage and hours requirements of the Act do not apply to any employee during any workweek in which a portion of his activities falls within section 13(a)(5) if no part of the remainder of his activities is covered by the Act. Similarly, the overtime requirements are inapplicable in any workweek in which a portion of an employee's activities falls within section 13(b)(4) if no part of the remainder of his activities is covered by the Act. Covered activities for purposes of the above statements mean engagement in commerce, or in the production of goods for commerce, or in an occupation closely related or directly essential to such production or employment in an enterprise engaged in commerce or in the production of goods for commerce, as explained in §§ 784.17 and 784.18.

§ 784.116 Exempt and nonexempt work in the same workweek.

Where an employee, during any workweek, performs work that is exempt under section 13(a)(5) or 13(b)(4), and also performs nonexempt work, some part of which is covered by the Act, the exemption will be deemed inapplicable unless the time spent in performing nonexempt work during that week is not substantial in amount. For enforcement purposes, nonexempt work will be considered substantial in amount if more than 20 percent of the time worked by the employee in a given workweek is devoted to such work (see Mitchell v. Stinson, 217 F. 2d 210). Where exempt and nonexempt work is performed during a workweek by an employee and is not or cannot be segregated so as to permit separate measurement of the time spent in each, the employee will not be exempt (see Tobin v. Blue Channel Corp., 198 F. 2d 245; Walling v. Public Quick Freezing and Cold Storage Co., 62 F. Supp. 924).

§ 784.117 Combinations of exempt work.

The combination of exempt work under sections 13(a)(5) and 13(b)(4), or of one of these sections with exempt work under another section of the Act, is permitted. Where a part of an employee's covered work in a workweek is exempt under section 13(a)(5) and the remainder is exempt under another section which grants an exemption from the minimum wage and overtime provisions of the Act, the wage and hours requirements are not applicable. If the scope of the exemption is not the same, however, the exemption applicable to the employee is that provided by whichever exemption provision is more limited in scope unless, of course, the time spent in performing work which is nonexempt under the broader exemption is not substantial. For example, an employee may devote part of his workweek to work within section 13(b)(4) and the remainder to work exempt from both the minimum wage and overtime requirements under another section of the Act. In such a case he must receive the minimum wage but is not required to receive time and one-half for his overtime work during that week (Cf. Mitchell v. Myrtle Grove Packing Co., 350 U.S. 891; Tobin v. Blue Channel Corp., 198 F. 2d 245). Each activity is tested separately under the applicable exemption as though it were the sole activity of the employee for the whole workweek in question. Unless the employee meets all the requirements of each exemption a combination exemption would not be available.

§ 784.118 Work subject to different minimum wage rates in same workweek.

Work subject to different minimum wage rates in the same workweek calls for application of a rule similar to that generally applied where work subject to two exemptions unequal in scope is involved. For example, section 13(b)(4) exempts both employment in canning and employment in processing other than canning of the named marine products from the overtime requirements, but the minimum wage requirements that must be observed for the two operations will not be the same until September 3, 1965. If employed in canning for his entire workweek, an employee will be entitled to the higher minimum wage rate prescribed by section 6(a) of the Act; if employed in processing other than canning throughout the workweek, he will be entitled only to the lower minimum wage rate prescribed by section 6(b). Prior to the 1961 amendments the situation differed only in that the Act provided a minimum wage exemption for the employment in processing other than canning. An employee employed in canning in a particular workweek was entitled to the minimum wage applicable to such employment, however, even where his processing of aquatic products for canning was intermingled in the same workweek with the processing of such products for other purposes (see Tobin v. Blue Channel Corp., 198 F. 2d 245, approved in Mitchell v. Myrtle Grove Packing Co., 350 U.S. 891).

General Character and Scope of the Section 13(a)(5) Exemption

§ 784.119 The exemption is intended for work affected by natural factors.

As indicated by the legislative history, the purpose of the section 13(a)(5) exemption is to exempt from the minimum wage and overtime provisions of the Act employment in those activities in the fishing industry that are controlled or materially affected by natural factors or elements, such as the vicissitudes of the weather, the changeable conditions of the water, the run of the catch, and the perishability of the products obtained (83 Cong. Rec. 7408, 7443; S. Rep. No. 145, p. 33 on H.R. 3935, 87th Cong., 1st sess.; Fleming v. Hawkeye Pearl Button Co., 113 F. 2d 52; Walling v. Haden, 153 F. 2d 196, certiorari denied 328 U.S. 869).

§ 784.120 Effect of natural factors on named operations.

The various activities enumerated in section 13(a)(5)—the catching, taking, propagating, harvesting, cultivating, or farming of aquatic forms of animal or vegetable life as well as "the going to and returning from work" are materially controlled and affected by the natural elements. Similarly, the activities of "first processing, canning or packing of such marine products at sea as an incident to, or in conjunction with, such fishing operations" are subject to the natural factors mentioned above. The "loading and unloading" of such aquatic products when performed at sea are also subject to the natural forces.

§ 784.121 Application of exemption to "offshore" activities in general.

The expression "offshore activities" is used to describe the category of named operations pertaining to the acquisition from nature of aquatic forms of animal and vegetable life. As originally enacted in 1938, section 13(a)(5) exempted not only employees employed in such "offshore" or "trip" activities but also employees employed in related activities on shore which were similarly affected by the natural factors previously discussed (see § 784.103, and Fleming v. Hawkeye Pearl Button Co., 113 F. 2d 52). However, the intent of the 1961 amendments to the Act was to remove from the exemption the so-called onshore activities and "leave the exemption applicable to 'offshore' activities connected with the procurement of the aquatic products" (S. Rep. 145, 87th Cong., 1st sess., p. 33). Despite its comprehensive reach (see §§ 784.105 and 784.106), the exemption, like the similar exemption in the Act for agriculture, is "meant to apply only" to the activities named in the statute (see Maneja v. Waialua, 349 U.S. 254; Farmers Reservoir Co. v. McComb, 337 U.S. 755).

§ 784.122 Exempt fisheries operations.

Employees engaged in the named operations, such as "catching" or "taking," are clearly exempt. As indicated in § 784.106, employees engaged in activities that are "directly and necessarily a part of" an enumerated operation are also exempt (Mitchell v. Trade Winds, Inc., 289 F. 2d 278). The "catching, taking, propagating, harvesting, cultivating, or farming" of the various forms of aquatic life includes not only the actual performance of the activities, but also the usual duties inherent in the occupations of those who perform the activities. Thus, the fisherman who is engaged in "catching" and "taking" must see to it that his lines, nets, seines, traps, and other equipment are not fouled and are in working order. He may also have to mend or replace his lines or nets or repair or construct his traps. Such activities are an integral part of the operations of "catching" and "taking" of an aquatic product.

§ 784.123 Operations performed as an integrated part of fishing.

Certain other activities performed on a fishing vessel in connection with named operations are, functionally and as a practical matter, directly and necessarily a part of such operations. For example, maintenance work performed by members of the fishing crew during the course of the trip on the fishing boat would necessarily be a part of the fishing operation, since the boat itself is as much a fishing instrument as the fishing rods or nets. Similarly, work required on the vessel to keep in good operating condition any equipment used for processing, canning or packing the named aquatic products at sea is so necessary to the conduct of such operations that it must be considered a part of them and exempt.

§ 784.124 Operations performed on fishing equipment.

On the principle stated in § 784.122, the replacement, repair, mending, or construction of the fisherman's equipment performed at the place of the fishing operation would be exempt. Such activities performed in contemplation of the trip are also within the exemption if the work is so closely related both in point of time and function to the acquisition of the aquatic life that it is really a part of the fishing operation or of "going to * * * work." For example, under appropriate facts, the repair of the nets, or of the vessel, or the building of fish trap frames on the shore immediately prior to the opening of the fishing season would be within the exemption. Activities at the termination of a fishing trip which are similarly related in time and function to the actual conduct of fishing operations or "returning from work" may be within the exemption on like principles. Similarly, the fact that the exemption is intended generally for "offshore" activities does not mean that it may not apply to employment in other activities performed on shore which are so integrated with the conduct of actual fishing operations and functionally so necessary thereto that the employment is, in practical effect, directly and necessarily a part of the fishing operations for which the exemption is intended. In such circumstances the exemption will apply, for example, to an employee employed by a vessel owner to watch the fishing vessel, its equipment, and the catch when it comes to port, check the mooring lines, operate bilge pumps and heating and cooling systems on the vessel, and assist in the loading and unloading of the fishing equipment and the catch. Work of the kinds referred to may be exempt when performed by the fisherman himself or by some other employee of the fishing organization. However, the exemption would not apply to employees of a manufacturer of supplies or to employees of independent shops which repair boats and equipment (Dize v. Maddrix, 144 F. 2d 584, affirmed 324 U.S. 697).

§ 784.125 Going to and returning from work.

The phrase "including the going to and returning from work" relates to the preceding named operations which pertain to the procuring and appropriation of seafood and other forms of aquatic life from nature. The expression obviously includes the time spent by fishermen and others who go to and from the fishing grounds or other locations where the aquatic life is reduced to possession. If going to work requires fishermen to prepare and carry the equipment required for the fishing operation, this would be included within the exemption. In performing such travel the fishermen may be required to row, guide or sail the boat or otherwise assist in its operation. Similarly, if an employee were digging for clams or other shellfish or gathering seaweed on the sand or rocks it might be necessary to drive a truck or other vehicle to reach his destination. Such activities are exempt within the meaning of this language. However, the phrase does not apply to employees who are not employed in the activities involved in the acquisition of aquatic animal or vegetable life, such as those going to or returning from work at processing or refrigerator plants or wholesale establishments.

§ 784.126 Loading and unloading.

The term "loading and unloading" applies to activities connected with the removal of aquatic products from the fishing vessel and their initial movement to markets or processing plants. The term, however, is not without limitation. The statute by its clear language makes these activities exempt only when performed by any employee employed in the procurement activities enumerated in section 13(a)(5). This limitation is confirmed by the legislative history of the 1961 amendments which effectuated this change in the application of this term (S. Rep. 145, 87th Cong., 1st sess., p. 33). Consequently, members of the fishing crew engaged in loading and unloading the catch of the vessel to another vessel at sea or at the dockside would be engaging in exempt activities within the meaning of section 13(a)(5). On the other hand, dock workers performing the same kind of tasks would not be within the exemption.

§ 784.127 Operation of the fishing vessel.

In extending the minimum wage to seamen on American vessels by limiting the exemption from minimum wages and overtime provided by section 13(a)(14) of the Act to "any employee employed as a seaman on a vessel other than an American vessel," and at the same time extending the minimum wage to "onshore" but not "offshore" operations concerned with aquatic products, the Congress, in the 1961 amendments to the Act, did not indicate any intent to remove the crews of fishing vessels engaged in operations named in section 13(a)(5) from the exemption provided by that section. The exemption provided by section 13(a)(14), above noted, and the general exemption in section 13(b)(6) from overtime for "any employee employed as a seamen" (whether or not on an American vessel) apply, in general, to employees, working aboard vessels, whose services are rendered primarily as an aid to navigation. It appears, however, that it is not the custom or practice in the fishing industry for a fishing vessel to have two crews namely a fishing crew whose duty it is primarily to fish and to perform other duties incidental thereto and a navigational crew whose duty it is primarily to operate the boat. Where, as is the typical situation, there is but one crew which performs all these functions, the section 13(a)(5) exemption would apply to its members. For a further explanation of the seaman's exemption see Part 783 of this chapter.

§ 784.128 Office and clerical employees under section 13(a)(5).

Office and clerical employees, such as bookkeepers, stenographers, typists, and others who perform general office work of a firm engaged in operating fishing boats are not for that reason within the section 13(a)(5) exemption. Under the principles stated in § 784.106, their general office activities are not a part of any of the named operations even when they are selling, taking and putting up orders, or recording sales, taking cash or making telephone connections for customer or dealer calls. Employment in the specific activities enumerated in the preceding sentence would ordinarily, however, be exempt under section 13(b)(4) since such activities constitute "marketing" or "distributing" within the meaning of that exemption (see § 784.157). In certain circumstances, office or clerical employees may come within the section 13(a)(5) exemption. If, for example, it is necessary to the conduct of the fishing operations that such employees accompany a fishing expedition to the fishing grounds to perform certain work required there in connection with the catch, their employment under such circumstances may, as a practical matter, be directly and necessarily a part of the operations for which exemption was intended, in which event the exemption would apply to them.

First Processing, Canning, or Packing of Marine Products Under Section 13(a)(5)

§ 784.129 Requirements for exemption of first processing, etc., at sea.

A complete exemption from minimum and overtime wages is provided by section 13(a)(5) for employees employed in the operations of first processing, canning, or packing of marine products at sea as an incident to, or in conjunction with "such" fishing operations—that is, the fishing operations of the fishing vessel (S. Rep. 145, 87th Cong., 1st sess., p. 33). To qualify under this part of the exemption, there must be a showing that (1) the work of the employees is such that they are, within the meaning of the Act, employed in one or more of the named operations of first processing, canning or packing, (2) such operations

are performed as an incident to, or in conjuction with, fishing operations of the vessel, (3) such operations are performed at sea, and (4) such operations are performed on the marine products specified in the statute.

§ 784.130 "Marine products."

The marine products which form the basis of the exemption are the "fish, shellfish, crustacea, sponges, seaweeds, or other aquatic forms of animal and vegetable life" mentioned in section 13(a)(5). The exemption contemplates aquatic products currently or recently acquired and in the form obtained from the sea, since the language of the exemption clearly indicates the named operations of first processing, canning, or packing must be performed "at sea" and "as an incident to, or in conjunction with", fishing operations. Also, such "marine products" are limited to aquatic forms of "life."

§ 784.131 "At sea."

The "at sea" requirement must be construed in context and in such manner as to accomplish the statutory objective. The section 13(a)(5) exemption is for the "catching, taking, propagating, harvesting," etc., of "aquatic forms of animal and vegetable life." There is no limitation as to where these activities must take place other than, as the legislative history indicates, that they are "offshore" activities. Since the purpose of the 1961 amendments is to exempt the "first processing, canning or packing such marine products at sea as an incident to, or in conjunction with, such fishing operations," it would frustrate this objective to give the phrase "at sea" a technical or special meaning. For example, to define "at sea" to include only bodies of water subject to the ebb and flow of the tides or to saline waters would exclude the Great Lakes which obviously would not comport with the legislative intent. On the other hand, one performing the named activities of first processing, canning, or packing within the limits of a port or harbor is not performing them "at sea" within the meaning of the legislative intent although the situs of performance is subject to tidewaters. In any event it would not appear necessary to draw a precise line as to what constitutes "at sea" operations, for, as a practical matter, such first processing, canning, or packing operations are those closely connected with the physical catching of the fish and are performed on the fishing vessel shortly or immediately following the "catching" and "taking" of the fish.

§ 784.132 "As an incident to, or in conjunction with" fishing operations.

The statutory language makes clear that the "first processing, canning or packing," unlike the other named operations of "catching, taking, propagating, harvesting, cultivating, or farming" are not exempt operations in and of themselves. They are exempt only when performed "as an incident to, or in conjunction with such fishing operations" (see Farmers Reservoir Co. v. McComb, 337 U.S. 755). It is apparent from the context that the language "such fishing operations" refers to the principal named operations of "catching, taking, propagating, harvesting, cultivating, or farming" as performed by the fishermen or fishing vessel (compare Bowie v. Gonzalez, 117 F. 2d 11). Therefore to be "an incident to, or in conjunction with such fishing operations," the first processing, canning, or packing must take place upon the vessel that is engaged in the physical catching, taking, etc., of the fish. This is made abundantly clear by the legislative history. In Senate Report No. 145, 87th Congress, 1st session, at page 33, it pointed out:

> For the same reasons, there was included in section 13(a)(5) as amended by the bill an exemption for the "first processing, canning or packing" of marine products "at sea as an incident to, or in conjunction with such fishing operations." The purpose of this additional provision is to make certain that the Act will be uniformly applicable to all employees on the fishing vessel including those employees on the vessel who may be engaged in these activities at sea as an incident to the fishing operations conducted by the vessel.

In accordance with this purpose of the section, the exemption is available to an employee on a fishing vessel who is engaged in first processing fish caught by fishing employees of that same fishing vessel; it would not be available to such an employee if some or all of the fish being first processed were obtained from other fishing vessels, regardless of the relationship, financial or otherwise, between such vessels (cf. Mitchell v. Hunt, 263 F. 2d 913; Farmers Reservoir Co. v. McComb, 337 U.S. 755).

§ 784.133 The exempt operations.

The final requirement is that the employee on the fishing vessel must be employed in "the first processing, canning or packing" of the marine products. The meaning and scope of these operations when performed at sea as an incident to the fishing operations of the vessel are set forth in §§ 784.134 to 784.136. To be "employed in" such operations the employee must, as previously explained (see §§ 784.106 and 784.122), be engaged in work which is clearly part of the named activity.

§ 784.134 "First processing."

Processing connotes a change from the natural state of the marine product and first processing would constitute the first operation or series of continuous operations that effectuate this change. It appears that the first processing operations ordinarily performed on the fishing vessels at sea consist for the most part of eviscerating, removal of the gills, beheading certain fish that have large heads, and the removal of the scallop from its shell. Icing or freezing operations, which ordinarily immediately follow these operations, would also constitute an integral part of the first processing operations, as would such activities as filleting, cutting, scaling, or salting when performed as part of a continuous series of operations. Employment aboard the fishing vessel in freezing operations thus performed is within the exemption if the first processing of which it is a part otherwise meets the conditions of section 13(a)(5), notwithstanding the transfer by the 1961 amendments of "freezing," as such, from the exemption to the exemption from overtime only provided by section 13(b)(4). Such preliminary operations as cleaning, washing and grading of the marine products, though not exempt as first processing since they effect no change, would be exempt as part of first processing when done in preparation for the first processing operation described above including freezing. The same would be true with respect to the removal of the waste products resulting from the above described operations on board the fishing vessel.

§ 784.135 "Canning."

The term "canning" was defined in the legislative history of the 1949 amendments (House (Conference) Report No. 1453, 81st Cong., 1st sess.; 95 Cong. Rec. 14878, 14932–33). These amendments made the "canning" of marine products or byproducts exempt from overtime only under a separate exemption (section 13(b)(4)), and subject to the minimum wage requirements of the Act (see § 784.137 et seq.). The same meaning will be accorded to "canning" in section 13(a)(5) as in section 13(b)(4) (see § 784.143 et seq.) subject, of course, to the limitations necessarily imposed by the context in which it is found. In other words, although certain operations as described in § 784.143 et seq. qualify as canning, they are, nevertheless, not exempt under section 13(a)(5) unless they are performed on marine products by employees of the fishing vessel at sea as an incident to, or in conjunction with, the fishing operations of the vessel.

§ 784.136 "Packing."

The packing of the various named marine products at sea as an incident to, or in conjunction with, the fishing operations of the vessel is an exempt operation. The term "packing" refers to the placing of the named product in containers, such as boxes, crates, bags and barrels. Activities such as washing, grading, sizing and placing layers of crushed ice in the containers are deemed a part of packing when performed as an integral part of the packing operation. The packing operation may be a simple or complete and complex operation depending upon the nature of the marine product, the length of time out and the facilities aboard the vessel. Where the fishing trip is of short duration, the packing operation may amount to no more than the simple operation of packing the product in chipped or crushed ice in wooden boxes, as in the case of shrimp, or placing the product in wooden boxes and covering with seaweed as in the case of lobsters. Where the trips are of long duration, as for several weeks or more, the packing operations on fishing vessels with the proper equipment sometimes are integrated with first processing operations so that together these operations amount to readying the product in a marketable form. For example, in the case of shrimp, the combined operations may consist of the following series of operations—washing, grading, sizing, placing in 5-pound boxes already labeled for direct marketing, placing in trays with other boxes, loading into a quick freezer locker, removing after freezing, emptying the box, glazing the contents with a spray of fresh water, replacing in box, packing them in 50-pound master cartons and finally stowing in refrigerated locker.

GENERAL CHARACTER AND SCOPE OF THE SECTION 13(b)(4) EXEMPTION

§ 784.137 "Shore" activities exempted under section 13(b)(4).

Section 13(b)(4) provides an exemption from the overtime but not from the minimum wage provisions of the Act for "any employee employed in the canning, processing, marketing, freezing, curing, storing, packing for shipment, or distributing" aquatic forms of animal and vegetable life or any byproducts thereof. Originally, all these operations were contained in the exemption provided by section 13(a)(5) but, as a result of amendments, first "canning," in 1949, and then the other operations in 1961, were transferred to section 13(b)(4). (See the discussion in §§ 784.102 to 784.106.) These activities are "shore" activities and in general have to do with the movement of the perishable aquatic products to a nonperishable state or to points of consumption (S. Rep. 145, 87th Cong., 1st sess., p. 33).

§ 784.138 Relationship of exemption to exemption for "offshore" activities.

The reasons advanced for exemption of employment in "shore" operations, now listed in section 13(b)(4), at the time of the adoption of the original exemption in 1938, had to do with the difficulty of regulating hours of work of those whose operations, like those of fishermen, were stated to be governed by the time, size, availability and perishability of the catch, all of which were considered to be affected by natural factors that the employer could not control (see 83 Cong. Rec. 7408, 7422, 7443). The intended limited scope of the exemption in this respect was not changed by transfer of the "shore" activities from section 13(a)(5) to section 13(b)(4). The exemption of employment in these "shore" operations may be considered, therefore, as intended to implement and supplement the exemption for employment in "offshore" operations provided by section 13(a)(5), by exempting from the hours provisions of the Act employees employed in those "shore" activities which are necessarily somewhat affected by the same natural factors. These "shore" activities are affected primarily, however, by fluctuations in the supply of the product or by the necessity for consumption or preservation of such products before spoilage occurs (see Fleming v. Hawkeye Pearl Button Co., 113 F. 2d 52; cf. McComb v. Consolidated Fisheries, 174 F. 2d 74).

§ 784.139 Perishable state of the aquatic product as affecting exemption.

(a) Activities performed after the conversion of an aquatic product to a nonperishable state cannot form the basis for application of the section 13(b)(4) exemption unless the subsequent operation is so integrated with the performance of exempt operations on the aquatic forms of animal and vegetable life mentioned in the section that functionally and as a practical matter it must be considered a part of the operations for which exemption was intended. The exemption is, consequently, not available for the handling or shipping of nonperishable products by an employer except where done as a part of named operations commenced on the product when it was in a perishable state. Thus, employees of dealers in or distributors of such nonperishable products as fish oil and fish meal, or canned seafood, are not within the exemption. Similarly, there is no basis for application of the exemption to employees employed in further processing of or manufacturing operations on products previously rendered nonperishable, such as refining fish oil or handling fish meal in connection with the manufacture of feeds. Further specific examples of application of the foregoing principle are given in the subsequent discussion of particular operations named in section 13(b)(4).

(b) In applying the principle stated in paragraph (a) of this section, the Department has not asserted that the exemption is inapplicable to the performance of the operations described in section 13(b)(4) on frozen, smoked, salted, or cured fish. The Department will continue to follow this policy until further clarification from the courts.

§ 784.140 Scope of exempt operations in general.

Exemption under section 13(b)(4), like exemption under section 13(a)(5), depends upon the employment in the actual activities named in the section, and an employee performing a function which is not necessary to the actual conduct of a named activity, as explained in § 784.106, is not within the exemption. It is also essential to exemption that the operations named in section 13(b)(4) be performed on the forms of aquatic life specified in the section and not on other commodities or on mixed commodities a substantial part of which consist of materials or products other than the named aquatic products. Application of these principles has been considered generally in the earlier discussion, and further applications will be noted in the following sections and in the subsequent discussion of particular operations mentioned in the section 13(b)(4) exemption.

§ 784.141 Fabrication and handling of supplies for use in named operations.

(a) As noted in § 784.109, the exemption for employees employed "in" the named operations does not extend to an employee by reason of the fact that he engages in fabricating supplies for the named operations. Employment in connection with the furnishing of supplies for the processing or canning operations named in section 13(b)(4) is not exempt as employment "in" such named operations unless the functional relationship of the work to the actual conduct of the named operations is such that, as a practical matter, the employment is directly and necessarily a part of the operations for which exemption is intended. Employees who meet the daily needs of the canning or processing operations by delivering from stock, handling, and working on supplies such as salt, condiments, cleaning supplies, containers, etc., which must be provided as needed if the named operations are to continue, are within the exemption because such work is, in practical effect, a part of the operations for which exemption is intended. On the other hand, the receiving, unloading, and storing of such supplies during seasons when the named operations are not being carried on, for subsequent use in the operations expected to be performed during the active season, are ordinarily too remote from the actual conduct of the named operations to come within the exemption (see § 784.113), and are not affected by the natural factors (§ 784.138) which were considered by the Congress to constitute a fundamental reason for providing the exemption. Whether the receiving, unloading, and storing of supplies during periods when the named operations are being carried on are functionally so related to the actual conduct of the operations as to be, in practical effect, a part of the named operations and within the exemption, will depend on all the facts and circumstances of the particular situation and the manner in which the named operations are carried on. Normally, where such activities are directed to building up stock for use at a relatively remote time and there is no direct integration with the actual conduct of the named operations, the exemption will not apply.

(b) It may be that employees are engaged in the same workweek in performing exempt and nonexempt work. For example, a shop machinist engaged in making a new part to be used in the repair of a machine currently used in canning operations would be doing exempt work. If he also in the same workweek makes parts to be used in a manufacturing plant operated by his employer, this work, since it does not directly or necessarily contribute to the conduct of the canning operations, would be nonexempt work causing the loss of the exemption if such work occupied a substantial amount (for enforcement purposes, more than 20 percent) of the employee's worktime in that workweek (see § 784.116 for a more detailed discussion).

§ 784.142 Examples of nonexempt employees.

An employer who engages in operations specified in section 13(b)(4) which he performs on the marine products and byproducts described in that section may operate a business which engages also in operations of a different character or one in which some of the activities carried on are not functionally necessary to the conduct of operations named in section 13(b)(4). In such a business there will ordinarily be, in addition to the employees employed in such named operations, other employees who are nonexempt because their work is concerned entirely or in substantial part with carrying on activities which constitute neither the actual engagement in the named operations nor the performance of functions

which are, as a practical matter, directly and necessarily a part of their employer's conduct of such named operations. Ordinarily, as indicated in § 784.160, such nonexempt employees will not be employed in an establishment which is exclusively devoted by the employer to the named operations during the period of their employment. It is usually when the named operations are not being carried on, or in places wholly or partly devoted to other operations, that employees of such an employer will be performing functions which are not so necessarily related to the conduct of the operations named in section 13(b)(4) as to come within the exemption. Typical illustrations of the occupations in which such nonexempt workers may be found (although employment in such an occupation does not necessarily mean that the worker is nonexempt) are the following: General office work (such as maintaining employment, social security, payroll and other records, handling general correspondence, etc., as distinguished from "marketing" or "distributing" work like that described in § 784.159), custodial, maintenance, watching, and guarding occupations; furnishing food, lodging, transportation, or nursing services to workers; and laboratory occupations such as those concerned with development of new products. Such workers are, of course, not physically engaged in operations named in section 13(b)(4) in the ordinary case, and they are not exempt unless they can be shown to be "employed in" such operations on other grounds. But any of them may come within the exemption in a situation where the employer can show that the functions which they perform, in view of all the facts and circumstances under which the named operations are carried on, are actually so integrated with or essential to the conduct of the named operations as to be, in practical effect, directly and necessarily a part of the operations for which exemption was intended. Thus, for example, if canning operations described in section 13(b)(4) are carried on in a location where the canning employees cannot obtain necessary food unless the canner provides it, his employment of culinary employees to provide such food is functionally so necessary to the conduct of the canning operations that their work is, as a practical matter, a part of such operations, and the exemption will apply to them. On like principle, the exemption may apply to a watchman whose services are required during performance of the named operations in order to guard against spontaneous combustion of the products of such operations and other occurrences which may jeopardize the conduct of the operations.

"CANNING"

§ 784.143 Meaning and scope of "canning" as used in section 13(b)(4).

Section 13(b)(4) exempts any employee employed in the canning of aquatic forms of animal or vegetable life or byproducts thereof from the overtime requirements of the Act. As previously stated, it was made a limited exemption by the Fair Labor Standards Act Amendments of 1949. The legislative history of this section in specifically explaining what types of activities are included in the term "canning" and the antecedents from which this section evolved make it clear that the exemption applies to those employees employed in the activities that Congress construed as being embraced in the term and not to all those engaged in the fish canning industry (Mitchell v. Stinson, 217 F. 2d 214). Congress defined the term "canning" (House (Conference) Report No. 1453, 81st Cong., 1st sess. 95 Cong. Rec. 14878, 14932–33) as follows:

> Under the conference agreement "canning" means hermetically sealing and sterilizing or pasteurizing and has reference to a process involving the performance of such operations. It also means other operations performed in connection therewith such as necessary preparatory operations performed on the products before they are placed in bottles, cans, or other containers to be hermetically sealed, as well as the actual placing of the commodities in such containers. Also included are subsequent operations such as the labeling of the cans or other containers and the placing of the sealed containers in cases or boxes whether such subsequent operations are performed as part of an uninterrupted or interrupted process. It does not include the placing of such products or byproducts thereof in cans or other containers that are not hermetically sealed as such an operation is "processing" as distinguished from "canning" and comes within the complete exemption contained in section 13(a)(5).

Of course, the processing other than canning, referred to in the last sentence quoted above, is now, like canning, in section 13(b)(4) rather than section 13(a)(5).

§ 784.144 "Necessary preparatory operations."

All necessary preparatory work performed on the named aquatic products as an integral part of a single uninterrupted canning process is subject to section 13(b)(4) (see Tobin v. Blue Channel Corp., 198 F. 2d 245, approved in Mitchell v. Myrtle Grove Packing Co., 350 U.S. 891). Such activities conducted as essential and integrated steps in the continuous and uninterrupted process of canning are clearly within the definition of "canning" as contemplated by Congress and cannot be viewed in isolation from the canning process as a whole. Exempt preparatory operations include the necessary weighing, cleaning, picking, peeling, shucking, cutting, heating, cooling, steaming, mixing, cooking, carrying, conveying, and transferring to the containers the exempt aquatic products (see Mitchell v. Stinson, 217 F. 2d 214). But the preparatory operations do not include operations specified in section 13(a)(5) pertaining to the acquisition of the exempt products from nature. Therefore, if a canner employs fishermen or others to catch, take, harvest, cultivate, or farm aquatic animal and vegetable life, section 13(a)(5) and not section 13(b)(4) would apply to these particular operations.

§ 784.145 Preliminary processing by the canner.

The mere fact that operations preparatory to canning are physically separated from the main canning operations of hermetically sealing and sterilizing or pasteurizing would not be sufficient to remove them from the scope of section 13(b)(4). Where preparatory operations such as the steaming or shucking of oysters are performed in an establishment owned, operated, or controlled by a canner of seafood as part of a process consisting of a continuous series of operations in which such products are hermetically sealed in containers and sterilized or pasteurized, all employees who perform any part of such series of operations on any portion of such aquatic products for canning purposes are within the scope of the term "canning."

§ 784.146 Preliminary processing by another employer as part of "canning."

If the operations of separate processors are integrated in producing canned seafood products, all employees of such processors who perform any part of the described continuous series of operations to accomplish this result would be "employed in the canning of" such products. Moreover, preliminary operations performed in a separately owned processing establishment which are directed toward the particular requirements of a cannery pursuant to some definite arrangement between the operators of the two establishments would generally appear to be integrated with the cannery operations within the meaning of the above principles, so that the employees engaged in the preliminary operations in the separate establishment would be employed in "canning" within the meaning of section 13(b)(4) of the Act. Whether or not integration exists in a specific case of this general nature will depend, of course, upon all the relevant facts and circumstances in such case.

§ 784.147 Preservation of aquatic products for later canning.

The cooling, icing, or refrigeration of the acquatic products in the course of canning does not constitute such a break or discontinuance of the process as to bring the preparatory operations within other named operations in section 13(b)(4) instead of canning if the purpose of the refrigeration is to prevent spoilage for a short period, such as over the weekend, or during the transfer or shipment of the prepared products, or directly prior to the opening of the canning season. On the other hand, the freezing of aquatic products to be stored for a protracted or indefinite period for future canning is too remote from the actual canning to be considered as a part of that operation; it would, however, qualify as a "freezing" operation which is an exempt operation named in section 13(b)(4). This distinction is not without significance, for, as an exempt freezing operation, employees engaged therein are entitled to the minimum wage prescribed by section 6(b) of the Act for those to whom the minimum wage benefits are being extended for the first time as a result of the Fair Labor Standards Act amendments of 1961, rather than the minimum wage prescribed by section 6(a) of the Act for employees performing work which was

subject to the minimum wage prior to these amendments (§§ 784.23 to 784.25).

§ 784.148 Processing of aquatic products for canning and for other disposition.

Where canning and processing operations are intermingled, the former and not the latter exemption applies (see Mitchell v. Myrtle Grove Packing Company, 350 U.S. 891; Tobin v. Blue Channel Corporation, 198 F. 2d 245). Thus, where preparatory operations are performed on fish or seafood, some of which are to be canned and some of which are for processing, all the necessary preparatory operations are exempt as part of canning until that point in the operations where the commodity is channeled to accomplish the separate objectives, namely, canning or processing. Thereafter, the canning operations would be exempt as canning and the processing operations would be exempt as processing. For example, all the preparatory activities in a roe canning plant such as any unloading of the fish, cutting off the heads and tails, cleaning and sealing leading up to and including the extraction of the roe would qualify as canning operations, whereas the subsequent boning and filleting of the fish would come within processing operations when none of the filleted fish is to be canned. The minimum rates applicable in such a situation would be determined in accordance with the principles stated in §§ 784.23 to 784.25 of Subpart A of this Part 784.

§ 784.149 "Hermetically sealing and sterilizing or pasteurizing."

As previously indicated in § 784.143, hermetically sealing and sterilizing or pasteurizing are the operations which characterize the process of canning. Employment in such operations is clearly within the section 13(b)(4) exemption. Employees whose work does not relate to a process which includes these operations are not employed in canning. A process involving the placing of the aquatic products in cans or containers without hermetically sealing and sterilizing or pasteurizing is not canning, within the meaning of the exemption. Depending on the operations involved it may be "processing" or "packing for shipment" within the scope of the exemption, in which event the pay provisions for "new" rather than those for "old" coverage will be applicable, as explained in §§ 784.23 to 784.25, in Subpart A of this Part 784.

§ 784.150 "Subsequent operations."

Canning, within the meaning of the exemption, includes operations performed after hermetic sealing of the cans or other containers, such as labeling of them and placing of them in cases or boxes, which are required to place the canned product in the form in which it will be sold or shipped by the canner. This is so whether or not such operations immediately follow the actual canning operations as a part of an uninterrupted process. Storing and shipping operations performed by the employees of the cannery in connection with its canned products, during weeks in which canning operations are going on, to make room for the canned products coming off the line or to make storage room come within the exemption as a part of canning. The fact that such activities relate in part to products canned during previous weeks or seasons would not affect the application of the exemption, provided canning operations such as hermetic sealing and sterilizing, or labeling, are currently being carried on. When, however, operations with respect to the aquatic products processed by the employer are performed as a part of his activities in "marketing * * * storing, packing for shipment, or distributing" such products rather than as a part of canning as above described (cf. Calaf v. Gonzalez, 127 F. 2d 934; Tobin v. Blue Channel Corp., 198 F. 2d 245; Mitchell v. Myrtle Grove Packing Co., 350 U.S. 891), these operations, while also exempt under section 13(b)(4), are subject to the minimum wage provisions of section 6(b) rather than section 6(a) of the Act and, if intermingled with those which are part of canning, will be subject to the rules stated previously in §§ 784.23 to 784.25, in Subpart A of this Part 784.

§ 784.151 Employees "employed in" canning.

All employees whose activities are directly and necessarily a part of the "canning" of the specified aquatic forms of life are within the exemption provided by section 13(b)(4). Thus, employees engaged in handling the fish or seafood, placing it into the cans, providing steam for cooking it, or operating the machinery that seals the cans or the equipment that sterilizes the canned product are engaged in exempt activities. In addition, can loft workers, those engaged in removing and carrying supplies from the stock room for current use in canning operations, and employees whose duty it is to reform cans, when canning operations are going on, for current use, are engaged in exempt activities. Similarly, the repairing, oiling, or greasing during the active season of canning machinery or equipment currently used in the actual canning operations are exempt activities. The making of repairs in the production room such as to the floor around the canning machinery or equipment would also be deemed exempt activities where the repairs are essential to the continued canning operations or to prevent interruptions in the canning operations. These examples are illustrative but not exhaustive. Employees engaged in other activities which are similiarly integrated with and necessary to the actual conduct of the canning operations will also come within the exemption. Employees whose work is not directly and necessarily a part of the canning operations are not exempt. See §§ 784.106, 784.141, and 784.142.

PROCESSING, FREEZING, AND CURING

§ 784.152 General scope of processing, freezing, and curing activities.

Processing, freezing, and curing embrace a variety of operations that change the form of the "aquatic forms of animal and vegetable life." They include such operations as filleting, cutting, scaling, salting, smoking, drying, pickling, curing, freezing, extracting oil, manufacturing meal or fertilizer, drying seaweed preparatory to the manufacture of agar, drying and cleaning sponges (Fleming v. Hawkeye Pearl Button Co., 113 F. 2d 52).

§ 784.153 Typical operations that may qualify for exemption.

Such operations as transporting the specified aquatic products to the processing plant; moving the products from place to place in the plant; cutting, trimming, eviscerating, peeling, shelling and otherwise working on the products; packing the products; and moving the products from the production line to storage or to the shipping platform are typical of the operations in processing plants which are included in the exemption. Removal of waste, such as clam and oyster shells, operation of processing and packing machinery, and providing steam and brine for the processing operations (see Mitchell v. Trade Winds, Inc., 289 F. 2d 278, explaining Waller v. Humphreys, 133 F. 2d 193) are also included. As for the application of the exemption to office, maintenance, warehouse, and other employees, see the discussion in § 784.106 et seq., and §§ 784.141 and 784.142.

§ 784.154 Named operations performed on previously processed aquatic products.

It will be noted that section 13(b)(4) refers to employees employed in "processing" the named aquatic commodities and not just to "first processing" as does the provision in section 13(a)(5) for such processing at sea. Accordingly, if the aquatic products, though subjected to a processing operation, are still in a perishable state, the subsequent performance of any of the enumerated operations on the still perishable products will be within the exemption no matter who the employer performing the exempt operations may be. He may be the same employer who performed the prior processing or other exempt operations, another processor, or a wholesaler, as the case may be. As noted in § 784.139(b), the Department has not questioned the applicability of the foregoing rule where the operation is performed on frozen, salted, smoked, or cured fish.

§ 784.155 Operations performed after product is rendered nonperishable.

As indicated in § 784.139, after the character of the aquatic products as taken from nature has been altered by the performance of the enumerated operations so as to render them nonperishable (e.g., drying and cleaning sponges) section 13(b)(4) provides no exemption for any subsequent operations on the preserved products, unless the subsequent operation is performed as an integrated part of the operations named in the exemption which are performed by an employer on aquatic commodities described in section 13(b)(4) after receiving them in the perishable state. In the case of an employer who is engaged in performing on perishable aquatic forms of life specified in section 13(b)(4) any operations named in that section which result in a nonperishable product, the employment of his employees in the storing, marketing, packing for shipment, or

distributing of nonperishable products resulting from such operations performed by him (including products processed during previous weeks or seasons) will be considered to be an integrated part of his operations on the perishable aquatic forms of life during those workweeks when he is actively engaged in such operations. The employees employed by him in such work on the nonperishable products are, accordingly, within the exemption in such workweeks.

§ 784.156 Operations performed on byproducts.

The principles stated in the two preceding sections would also be applicable where the specified operations are performed on perishable byproducts. Any operation performed on perishable fish scraps, an unsegregated portion of which is to be canned, would come within the canning (not the processing) part of the exemption (see § 784.148). Fish-reduction operations performed on the inedible and still perishable portions of fish resulting from processing or canning operations, to produce fish oil or meal, would come within the processing part of the exemption. Subsequent operations on the oil to fortify it would not be exempt, however, since fish oil is nonperishable in the sense that it may be held for a substantial period of time without deterioration.

MARKETING, STORING, PACKING FOR SHIPMENT, AND DISTRIBUTING

§ 784.157 General scope of named operations.

The exemption from the overtime pay requirements provided by section 13(b)(4) of the Act extends to employees "employed in the * * * marketing * * * storing, packing for shipment, or distributing of any kind of" perishable aquatic product named in the section. An employee's work must be functionally so related to the named activity as to be, in practical effect, a part of it, and the named activity must be performed with respect to the perishable aquatic commodities listed in section 13(b)(4), in order for the exemption to apply to him. The named activities include the operations customarily performed in the marketing, storing, packing for shipment, or distributing of perishable marine products. For example, an employee engaged in placing perishable marine products in boxes, cartons, crates, bags, barrels, etc., preparatory to shipment and placing the loaded containers on conveyances for delivery to customers would be employed in the "packing for shipment" of such products. Salesmen taking orders for the perishable aquatic products named in the section would be employed in the "marketing" of them. Employees of a refrigerated warehouse who perform only duties involved in placing such perishable marine products in the refrigerated space, removing them from it, and operating the refrigerating equipment, would be employed in "storing" or "distributing" such products, depending on the facts. On the other hand, employees of a public warehouse handling aquatic products which have been canned or otherwise rendered nonperishable, or handling perishable products which contain a substantial amount of ingredients not named in section 13(b)(4), would not be within the exemption. Office, clerical, maintenance, and custodial employees are not exempt by reason of the fact that they are employed by employers engaged in marketing, storing, packing for shipment, or distributing seafood and other aquatic products. Such employees are exempt only when the facts of their employment establish that they are performing functions so necessary to the actual conduct of such operations by the employer that, as a practical matter, their employment is directly and necessarily a part of the operations intended to be exempted (see, for some examples, § 784.159).

§ 784.158 Relationship to other operations as affecting exemption.

Employment in marketing, storing, distributing, and packing for shipment of the aquatic commodities described in section 13(b)(4) is, as such, exempted from the overtime pay provisions of the Act. This means that the employees actually employed in such operations on the named commodities are within the exemption without regard to the intimacy or remoteness of the relationship between their work and processing operations also performed on the commodities, so long as any prior processing has not rendered the commodity nonperishable (as in the case of a canned product) and therefore removed it from the category of marine products referred to by section 13(b)(4). If the commodity has previously been rendered nonperishable, the marketing, storing, distributing, or packing for shipment of it by an employee can come within the exemption only if the activity is one performed by his employer as an integrated part of a series of the named operations which commenced with operations on the perishable marine products to which section 13(b)(4) refers. Some examples of this situation are given in §§ 784.150 and 784.155.

§ 784.159 Activities performed in wholesale establishments.

The section 13(b)(4) exemption for employment in "marketing * * * storing, or distributing" the named aquatic products or byproducts, as applied to the wholesaling of fish and seafood, affords exemption to such activities as unloading the aquatic product at the establishment, icing or refrigerating the product and storing it, placing the product into boxes, and loading the boxes on trucks or other transportation facilities for shipment to retailers or other receivers. Transportation to and from the establishment is also included (Johnson v. Johnson & Company, Inc., N.D. Ga., 47 F. Supp. 650). Office and clerical employees of a wholesaler who perform general office work such as posting to ledgers, sending bills and statements, preparing tax returns, and making up payrolls are not exempt unless these activities can be shown to be functionally necessary, in the particular fact situation, to the actual conduct of the operations named in section 13(b)(4). Such activities as selling, taking and putting up orders, recording sales, and taking cash are, however, included in employment in "marketing" or "distributing" within the exemption. Employees of a wholesaler engaged in the performance of any of the enumerated operations on fresh fish or fish products will be engaged in exempt work. However, any such operations which they perform on aquatic products which have been canned or otherwise rendered nonperishable are nonexempt in accordance with the principles stated in §§ 784.139 and 784.158.

APPLICATION OF SECTION 13(B)(4) IN CERTAIN ESTABLISHMENTS

§ 784.160 Establishments exclusively devoted to named operations.

As noted in § 784.106 and elsewhere in the previous discussion, the section 13(b)(4) exemption depends on employment of the employee in the operations named in that section and does not apply on an establishment basis. However, the fact that an establishment is exclusively devoted to operations specified in section 13(b)(4) is, in the absence of evidence to the contrary, an indication that the employees employed there are employed in the named operations either directly or through the performance of functions so necesasry to conducting the operations that the employment should in practical effect, be considered a part of the activity intended to be exempted. Where this is the case, it is consistent with the legislative intent to avoid segmentation and treat all employees of the establishment in the same manner (see Sen. Rep. No. 145, 87th Cong. 1st sess., p. 33). Accordingly, where it can be demonstrated that an establishment is, during a particular workweek, devoted exclusively to the performance of the operations named in section 13(b)(4), on the forms of aquatic life there specified, any employee of the establishment who is employed there during such workweek will be considered to be employed in such operations and to come within the exemption if there are no other facts pertinent to his employment that require a particular examination of the functions which he performs in connection with the conduct of the named operations. If, however, there are any facts (for example, the employment of the same employee at the establishment or the engagement by other employees in like duties there during periods when none of the named operations are being carried on) which raise questions as to whether he is actually engaged in the exempt activities, it will be necessary to scrutinize what he is actually doing during the conduct of the operations named in section 13(b)(4) in order to determine the applicability of the exemption to him. This is necessary because an employee who would not otherwise be within the exemption, such as a carpenter doing repair work during the dead season, does not become exempt as "employed in" one of the named activities merely because the establishment begins canning or processing fish.

Signed at Washington, D.C., this 2d day of February 1962.

CLARENCE T. LUNDQUIST,
Administrator.

[F.R. Doc. 62-1395; Filed, Feb. 9, 1962; 8:49 a.m.]

Title 41—PUBLIC CONTRACTS

Chapter 50—Division of Public Contracts, Department of Labor

PART 50–202—MINIMUM WAGE DETERMINATIONS

Office, Computing, and Accounting Machines Industry

Miscellaneous exceptions have been filed criticizing the findings and conclusions expressed in the tentative decision determining prevailing minimum wages in the office, computing, and accounting machines industry (26 F.R. 10517).

The American Federation of Labor and Congress of Industrial Organizations (AFL-CIO) contends that the data on which the tentative decision was based were distorted downward because there is evidence that the survey table on which the tentative decision was based reflects the wage rates paid to a few beginners at a low rate in two large establishments which affects the employment median for the entire industry by 13 cents. It recommends that the wage determination be based upon an employment median 13 cents higher than the one used in the tentative decision. It contends that it would be appropriate to raise the prevailing minimum wage determination by 9 or 10 cents, still giving weight to the median establishment minimum wage. In order to allow for the newly excluded beginners it also recommends that a beginner tolerance be granted to establishments which had a beginner tolerance comparable to the one used by the two establishments discussed.

The adoption of this recommendation would involve a clear inequity in the application of the Act to this industry in that it would provide one set of standards for establishments which, prior to this determination, have established one particular type of employment practice and another for the rest of the industry. This exception is rejected.

The AFL–CIO also contends that prevailing minimum wages have continued to rise since the hearing and are now about 12 or 13 cents higher than they were on the date of the BLS survey and 7 or 8 cents higher than they were determined to be in the tentative decision. In support of this they cite recently published BLS data showing that an 11-percent increase has taken place in the average straighttime earnings in this industry between the survey date of May 1960 and August 1961.

The Administrative Procedure Act requires that an opportunity be accorded to parties to rebut evidence such as this at a reopened hearing (5 U.S.C. 1006(d)): (See the Attorney General's Manual on the Administrative Procedure Act, p. 79.) It is clear that the providing of such an opportunity would involve a substantial further delay in the making of any wage determination for this industry. I have concluded that the merits involved in the possible discovery of any recent increases in the prevailing minimum wage are outweighed by the advantage of a prevailing minimum wage determination in this industry without further delay.

New contentions have been made on behalf of manufacturers of typewriters, adding machines, and calculating machines to the effect that the definition of the industry contained in the tentative decision groups the manufacture of products which are dissimilar in various important respects.

This contention has not been advanced on a timely basis. The leading manufacturers of these machines were well represented at the panel conference where arrangements for product divisions of the wage data are most conveniently made. They were also well represented at the hearing. If prior to the hearing the contention had been made that it would be appropriate for me to make separate prevailing minimum wage determinations for various segments of the industry, the Department might have gathered evidence upon which branch determinations could have been established. The contention could have been made as late as the hearing if supported by evidence which would warrant and could form a reasonable basis for making branch determinations.

The question of whether a separate wage determination should be made for various branches of an industry is a matter of discretion; considering all the circumstances here involved, I do not deem it proper to give favorable consideration to this request, which, it may be noted, is made for the first time after the record has been closed. Any other decision in regard to this matter would virtually involve discarding several years of effort to determine the prevailing minimum wage in this industry, and beginning proceedings anew. The record contains information on the minimum wages paid by two of the three individual typewriter companies which filed exceptions to the tentative determination. At the time of the hearing in April 1960 the minimum hiring rate of the Royal McBee plant at Hartford, Conn., was $1.54. The operations of Smith-Corona Marchant, Inc., were being reorganized with the view of transferring the activities of the Syracuse, N.Y., plant to the Groton-Cortland area where the minimum hiring rate was $1.40 an hour. In view of the time which has elapsed since the hearing, it is apparent from these data that any adjustment which may be posed for these plants by a determination of $1.55 an hour would not be of sufficient magnitude to justify a separate product break within the industry.

Many of the other exceptions merely repeat contentions fully discussed in rulings of record, including the tentative decision. Some of them do not relate to the material issues of fact, law, and discretion presented by the evidence of record in this proceeding. Though not all of the remaining ones were deemed of sufficient persuasiveness to merit discussion in the tentative decision, none are new in the sense that they were not considered in the preparation of that decision. Each exception has been carefully considered. None appears to warrant further discussion here. Each is overruled. Each finding and conclusion, together with the reason and basis therefor, which is expressed in the tentative decision is hereby made final.

Accordingly, upon the findings and conclusions stated herein, pursuant to authority under the Walsh-Healey Public Contracts Act (41 U.S.C. sec. 35 et seq.), and in accordance with the Administrative Procedure Act (5 U.S.C. 1001), Title 41 of the Code of Federal Regulations, Part 50–202, is hereby amended by the addition of § 50–202.26 in the manner indicated below. The amendment shall become effective 30 days following its publication in the FEDERAL REGISTER.

The new § 50–202.26 of Title 41, Code of Federal Regulations, reads as follows:

§ 50–202.26 Office, computing, and accounting machines industry.

(a) *Definition.* (1) The office, computing, and accounting machines industry is defined as that industry which manufactures or furnishes computing machines and machines of a type designed for office or business use (including parts specially designed for such machines), such as the following: Accounting machines, adding machines, addressing machines (manual and automatic), billing machines, bookkeeping machines, calculating machines, cash registers, change making machines, check handling machines, collating machines, currency and coin handling machines, dating machines (automatic), dictating and transcribing machines, duplicating machines (except photocopy, blueprint, and printing), electronic computing and associated information processing equipment (except airborne), envelope handling machines (automatic), folding machines, inserting machines, key punch machines, label pasting machines, mailing machines, payroll machines, perforating and cancelling machines (except hand punches), postal permit mailing machines, post office cancelling machines, punched card tabulating machines, shorthand machines, sorting machines, stamp affixing machines, stencil machines, tabulating machines, time recorders, time stamping machines (except hand stamping), typewriters, and varitypers.

(2) This definition does not include (i) devices of simple construction and normally hand operated, such as pencil sharpeners, paper punches, staplers, gummed tape moisteners, seal presses, erasing machines, autographic registers, and rubber stamps; (ii) electron tubes; (iii) solid-state semiconductors; and (iv) functional electronic component parts such as resistors, capacitors, relays, connectors, and complex components, packaged components, modules, and other similar component combinations manufactured as a single unit.

(b) *Minimum wages.* The minimum wage for persons employed in the manufacture or furnishing of products of the office, computing, and accounting machines industry shall be $1.55 an hour.

(Secs. 1, 4, 49 Stat. 2063, as amended, 2038; 41 U.S.C. 35, 38)

Signed at Washington, D.C., this 2d day of February 1962.

ARTHUR J. GOLDBERG,
Secretary of Labor.

[F.R. Doc. 62-1378; Filed, Feb. 9, 1962; 8:46 a.m.]

PART 50-205—ENFORCEMENT OF SAFETY AND HEALTH STANDARDS BY STATE OFFICERS AND EMPLOYEES

Pursuant to section 4 of the Walsh-Healey Public Contracts Act (49 Stat. 2038, 41 U.S.C. 38), Chapter 50 of Title 41, Code of Federal Regulations, is hereby amended by adding thereto an additional part, designated Part 50-205, concerning the agreements for participation of State officers and employees in the enforcement of the safety and health provisions of the Act. The new Part 50-205 shall become effective upon publication in the FEDERAL REGISTER.

Neither notice and public procedure nor a delay in effective date with regard to the making of these regulations is provided since they set forth general statements of policy, exempt from the notice, public procedure, and delayed effective date requirements of section 4 of the Administrative Procedure Act.

The new Part 50-205 of Chapter 50 of Title 41, Code of Federal Regulations, reads as follows:

Sec.
50-205.1 Purpose and scope.
50-205.2 Definitions.
50-205.3 Agreement with a State agency.
50-205.4 Plan of cooperation.
50-205.5 Inspections by State agency.
50-205.6 Complaints.
50-205.7 Manual of instructions.
50-205.8 Reports of inspections.
50-205.9 Inspections by the Department of Labor.
50-205.10 Modification or termination of agreement.

AUTHORITY: §§ 50-205.1 to 50-205.10 issued under sec. 4, 49 Stat. 2038, 41 U.S.C. 38. Interpret or apply sec. 1, 49 Stat. 2036, 41 U.S.C. 35.

§ 50-205.1 Purpose and scope.

The Walsh-Healey Public Contracts Act authorizes and directs the Secretary of Labor to utilize, with the consent of a State, such State and local officers and employees as he may find necessary to assist in the administration of the Act. It is the purpose of this part to prescribe the rules governing the use of such State and local officers in inspections (or investigations) relating to the enforcement of the stipulation required by the Act providing that no part of a contract subject thereto will be performed nor will any materials, supplies, articles, or equipment to be manufactured or furnished under such a contract be manufactured or fabricated in any plants, factories, buildings, or surroundings or under working conditions which are unsanitary or hazardous or dangerous to the health and safety of employees engaged in the performance of the contract, and the enforcement of the safety and health standards interpreting and applying that stipulation published in Part 50-204 of this chapter.

§ 50-205.2 Definitions.

(a) "Act" means the Walsh-Healey Public Contracts Act.

(b) "Secretary" means the Secretary of Labor.

(c) "State agency" means any authority of a State government which is responsible for the enforcement of State laws or regulations prescribing safety and health standards for employees.

(d) "Administrator" means the Administrator of the Wage and Hour and Public Contracts Divisions or his duly authorized representative.

§ 50-205.3 Agreement with a State agency.

The Secretary may enter into an agreement with the head of a State agency providing for the use of State or local officers and employees in the conduct of inspections under the safety and health provisions of the Act as interpreted or applied in Part 50-204 of this chapter whenever he finds that the utilization of such State or local officers is necessary to assist in the administration of those provisions. In making such a finding, consideration may be given to the State laws or regulations administered by the State agency providing safety and health standards, the central and field organization of the State agency, and the qualifications of its investigative personnel.

§ 50-205.4 Plan of cooperation.

Each agreement under this part shall incorporate a plan of cooperation between the Department of Labor and the State agency. The plan shall include the operative details of the cooperation contemplated in the making of safety and health inspections. The plan shall include a statement of the location of the State offices designated to make inspections and those of the Department of Labor designated to cooperate with such State offices.

§ 50-205.5 Inspections by State agency.

Inspections shall be conducted by the State agency with whom an agreement has been made under this part in order to determine the extent of compliance by Government contractors subject to the Act (as determined by the Department of Labor) with the safety and health provisions interpreted or applied in Part 50-204 of this chapter. Inspectors of the State agency shall be considered authorized representatives of the Secretary of Labor in making inspections including the examining of the records of the Government contractor maintained under §§ 50-201.501 and 502 of this chapter. Inspections shall be made upon request of the Department of Labor or concurrently with inspections made to ascertain the compliance by employers with State safety and health requirements.

§ 50-205.6 Complaints.

When a complaint of alleged safety and health violations by an employer apparently subject to the Act is filed with a State agency, that agency shall transmit a copy of the complaint to the cooperating office of the Department of Labor within 5 days from the receipt of the complaint. All complaints shall be considered confidential and shall not be disclosed to any employer without the consent of the complainant.

§ 50-205.7 Manual of instructions.

The Administrator shall provide the State agency with a manual of instructions which shall be used in the making of inspections.

§ 50-205.8 Reports of inspections.

The State agency shall furnish the Department of Labor with a report of its inspection when the following circumstances exist:

(a) The inspection was requested by the Department of Labor;

(b) The inspection discloses serious violations of the safety and health requirements of Part 50-204 of this chapter by an employer apparently subject to the Act;

(c) The inspection discloses minor violations of the safety and health requirements of Part 50-204 of this chapter by an employer apparently subject to the Act which are not corrected promptly when such apparent violations are brought to the attention of the employer or as to which fully reliable assurances of future compliance are not or cannot be obtained.

§ 50-205.9 Inspections by the Department of Labor.

The Administrator may conduct such inspections as he may find appropriate to assure compliance with the safety and health provisions of the Act or whenever he may find that a safety and health inspection should be carried out along with investigation under other provisions of the Act or the Fair Labor Standards Act of 1938. Whenever an inspection by the Administrator discloses apparent violations of State safety and health requirements the Administrator shall report such disclosures to the State agency.

§ 50-205.10 Modification or termination of agreement.

Any agreement entered into this part may be modified at any time with the consent of both parties, and may be terminated by either party after notifying the other party 60 days prior thereto.

Signed at Washington, D.C., this 1st day of February 1962.

ARTHUR J. GOLDBERG,
Secretary of Labor.

Title 43—PUBLIC LANDS: INTERIOR

Chapter I—Bureau of Land Management, Department of the Interior

APPENDIX—PUBLIC LAND ORDERS

[Public Land Order 2558]

[Colorado 048874]

COLORADO

Withdrawing Lands in National Forests for Use of the Forest Service for Administrative Sites and Recreation Areas

Correction

In F.R. Doc. 61-11925, appearing at page 12081 of the issue for Saturday, December 16, 1961, the following corrections are made in the land descriptions for New Mexico Principal Meridian:

RIO GRANDE NATIONAL FOREST

. . . . . .

Middle Forks Meadow Campground

T. 35 N., R. 3 E.,
Sec. 15, S½SW¼SW¼, S½SE¼SW¼;
Sec. 22, N½NW¼NW¼, NW¼NE¼NW¼.

. . . . . .

Valdez Community Campground

T. 35 N., R. 4½ E.,
Sec. 13, W½NE¼SE¼, NW¼SE¼, E½NE¼SW¼, SE¼SW¼, SW¼SE¼, SE¼SE¼;
Sec. 24, NE¼NE¼NE¼, NW¼NE¼NE¼, SW¼NE¼NE¼, NW¼NE¼, E½NE¼NW¼, SW¼NE¼, W½SE¼NE¼.

. . . . . .

McEntyre Campground

T. 35 N., R. 4½ E.,
Sec. 1, All of Lot 6, Lot 11, W½ Lot 14, W½ Lot 19, Lot 20, N½SW¼NW¼;
Sec. 2, All of Lot 13.

[Public Land Order 2602]

[Colorado 024153]

COLORADO

Withdrawing Public Lands for Use in Connection With the Shadow Mountain National Recreation Area

By virtue of the authority vested in the President, and pursuant to Executive Order No. 10355 of May 26, 1952, it is ordered as follows:

Subject to valid existing rights, the following described public lands are hereby withdrawn from all forms of appropriation under the public land laws, including the mining laws, and reserved under the jurisdiction of the National Park Service, Department of the Interior, for public recreation purposes and for the protection of the Shadow Mountain National Recreation Area:

SIXTH PRINCIPAL MERIDIAN

T. 2 N., R. 76 W.,
Sec. 4, lot 8.
Containing 39.91 acres.

JOHN A. CARVER, JR.,
Assistant Secretary of the Interior.

FEBRUARY 5, 1962.

[F.R. Doc. 62-1374; Filed, Feb. 9, 1962; 8:46 a.m.]

[Public Land Order 2603]

MONTANA, NEW MEXICO, AND WASHINGTON

Withdrawing Lands for Use of the Forest Service for Administrative Sites and Recreation Areas; Correcting Public Land Orders No. 2434 of July 13, 1961, and No. 2569 of December 19, 1961

By virtue of the authority vested in the President, and pursuant to Executive Order No. 10355 of May 26, 1952, it is ordered as follows:

1. Subject to valid existing rights, the following described lands within the national forests hereafter named, are hereby withdrawn from prospecting, location, entry and purchase under the mining laws of the United States, in aid of programs of the Forest Service, Department of Agriculture, for use of the surface of the lands as administrative sites and recreation areas, as indicated:

[Montana 036030]

PRINCIPAL MERIDIAN

GALLATIN NATIONAL FOREST

Yankee Jim Camp and Picnic Area

T. 7 S., R. 7 E.,
Sec. 33, SW¼NW¼SW¼.

Montanapolis Mineral Springs Recreation Area

T. 6 S., R. 10 E., unsurveyed, but when surveyed probably will be:
Sec. 29, NW¼NE¼NE¼.

Montanapolis Public Service Site

T. 6 S., R. 10 E., unsurveyed, but when surveyed probably will be:
Sec. 29, N½SE¼NE¼ and NE¼SW¼NE¼.

Roadside Camp and Picnic Area

T. 9 S., R. 15 E.,
Sec. 20, SW¼SW¼.

Clarks Fork Camp and Picnic Area

T. 9 S., R. 15 E.,
Sec. 28, W½ lot 6.

Chief Joseph Campground

T. 9 S., R. 15 E.,
Sec. 28, NW¼ lot 7.

Cooke Administrative Site

T. 9 S., R. 15 E.,
Sec. 29, NE¼NW¼NW¼.

Soda Butte Campground

T. 9 S., R. 15 E.,
Sec. 30, S½ lot 1.

CUSTER NATIONAL FOREST

Pine Grove Campground

T. 6 S., R. 17 E.,
Sec. 28, S½SW¼SW¼, SE¼SW¼, W½ lot 9, SE¼ lot 9, and SW¼ lot 8;
Sec. 32, E½NE¼NE¼, NE¼SW¼NE¼, S½SW¼NE¼, SE¼NE¼, and NW¼NW¼SE¼;
Sec. 33, NE¼NE¼NW¼, W½NE¼NW¼, NW¼NW¼, N½SW¼NW¼, and SW¼SW¼NW¼.

KANIKSU NATIONAL FOREST

Willow Creek Recreation Area

T. 24 N., R. 29 W., unsurveyed, but when surveyed probably will be:
Sec. 3, SW¼NW¼NW¼;
Sec. 4, SE¼NE¼NE¼.

Big Eddy Recreation Area

T. 27 N., R. 34 W.,
Sec. 25, NW¼SE¼SW¼SW¼, NE¼SE¼SW¼SW¼, SE¼SE¼SW¼SW¼, S½NW¼SW¼SE¼SW¼, SW¼SW¼SE¼SW¼, SE¼SW¼SE¼SW¼, and S½S½SE¼SE¼SW¼.

The areas described total in the aggregate 483.08 acres.

2. In Public Land Order No. 2434 of July 13, 1961 (Washington 01484), withdrawing lands in national forests for use of the Forest Service, and appearing in the FEDERAL REGISTER issue of July 19, 1961, at pages 6474-5, the description "T. 16 N., R. 10 E. (Unsurveyed)", preceding the description "Sec. 3, W½W½", for the Mather-Memorial Parkway Roadside Zone, is hereby corrected to read "T. 17 N., R. 10 E. (Unsurveyed)".

3. In Public Land Order No. 2569 of December 19, 1961 (1969385; New Mexico 0141063), revoking Public Land Order No. 629 of January 13, 1950, and appearing in the FEDERAL REGISTER issue of December 23, 1961, the description "Sec. 4, lot 4" appearing in T. 25 S., R. 15 E., is hereby corrected to read "Sec. 4, lot 1".

JOHN A. CARVER, JR.,
Assistant Secretary of the Interior.

FEBRUARY 5, 1962.

[Public Land Order 2604]

[Utah 073096]

UTAH

Withdrawal for Use of National Park Service (Hovenweep National Monument)

By virtue of the authority vested in the President and pursuant to Executive Order No. 10355 of May 26, 1952, it is ordered as follows:

1. Subject to valid existing rights, the following described public lands are hereby withdrawn from all forms of appropriation under the public land laws, including the mining laws, and reserved for use of the National Park Service in connection with administration of the Hovenweep National Monument:

SALT LAKE MERIDIAN

T. 39 S., R. 26 E.,
Sec. 21, W½NE¼, N½NW¼, SE¼NW¼, NE¼SW¼, and NW¼SE¼.
Containing 280 acres.

2. The lands shall continue to be administered by the Bureau of Land Management for grazing purposes.

JOHN A. CARVER, JR.,
Assistant Secretary of the Interior.

Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 et seq.), and the applicable rules of practice and procedure governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), notice is hereby given of the filing with the Hearing Clerk of this recommended decision of the Assistant Secretary of Agriculture, with respect to proposed amendments to the tentative marketing agreements, and orders regulating the handling of milk in each of the marketing areas heretofore specified. Interested parties may file written exceptions to this decision with the Hearing Clerk, United States Department of Agriculture, Washington 25, D.C., not later than the close of business the 5th day after publication of this decision in the FEDERAL REGISTER. The exceptions should be filed in quadruplicate.

Preliminary statement. The hearing, on the record of which the proposed amendments, as hereinafter set forth, to the tentative marketing agreements and to the orders, were formulated, was conducted at Chicago, Ill., on January 17, 18, and 19, 1962, pursuant to notice thereof which was issued January 8, 1962 (27 F.R. 314).

The material issues on the record of the hearing relate to:

1. Basic formula prices used to compute Class I prices (and Class II price in the Chicago order),

2. Basic butterfat test in certain markets, and

3. Conforming changes in order language.

Findings and conclusions. The following findings and conclusions on the material issues are based on evidence presented at the hearing and the record thereof:

1. The monthly average price received by farmers for manufacturing grade milk in Minnesota and Wisconsin as published by the Department on about the 5th day following the month (adjusted to 3.5 percent butterfat) should be the basic formula price from which the Class I milk price is computed in each of the Federal orders named herein. This basic formula price should also be used in the computation of the Class II milk price under the Chicago order.

Class I prices in Federal order markets are established under the authority of the Agricultural Marketing Agreement Act. The standards for milk order prices described in the Act require that such prices reflect economic conditions which affect market supply and demand for milk in the marketing area. In accordance with these standards, Class I milk pricing formulas have been developed for use in the several Federal orders.

Class I milk price formulas, in markets here considered, employ a basic formula price representing a manufacturing milk value. To this is added a price differential, and in most of these markets a further adjustment is made to reflect the changing relationship of milk supplies to Class I milk disposition. The latter adjustment is commonly referred to as a supply-demand adjustment. Six of the orders considered here do not have basic formula prices, since the Class I prices thereunder are established at differentials from the Class I prices of other orders. Six additional orders contain basic formula prices but do not use them to compute prices for Class I milk. Prices under these orders are likewise maintained in fixed relationship to those of other orders.

Among the several markets, there is a considerable diversity of basic formulas employed. All of the basic formulas include alternative computations of which the highest is the effective formula. In each of these formulas the average Midwest condensery paying price is one of the alternatives. Also, each basic formula (except in the Chicago order for a few recent months) uses a butter-powder formula computation. Eight different butter-powder formulas are employed in the several orders. Five of the orders use computations based on butter and cheese prices, of which there are three variations. In five orders, paying prices reported by local manufacturing plants is an alternative computation.

Producer groups and handlers generally supported the adoption of a uniform basic formula for all the orders. The average price for manufacturing grade milk f.o.b. plants in Wisconsin and Minnesota as reported by the Department was supported by many of the producer groups as a basis for achieving such uniformity. Some producer groups and handlers favored use of a butter-powder formula either as the basic formula price or as an alternative computation.

Proponents of the Wisconsin-Minnesota manufacturing grade milk price as a basic formula price supported its adoption for the following reasons: (1) Current basic formulas are subject to certain defects or weaknesses; (2) the proposed price is a better measure of manufacturing milk values; and (3) a single basic formula price in all the orders would provide a desirable basis for price alignment among the several orders.

The lack of uniformity among the various basic formulas and the consequent diversity of results produced in Class I prices constitutes a serious problem with respect to coordination of prices among these markets. The extent to which the Midwest condensery price, common to all orders, has been the effective price, has mitigated this problem in the past.

The Midwest condensery price was originally based on reports by 18 plants. From time to time individual plants have ceased operations. Recently, eight plants (6 in Wisconsin and 2 in Michigan) have been reporting prices. Four of these are operated by a single firm and two others by another firm. A further reduction in number of plants included is anticipated. The plant at New Glarus, Wisconsin, is reported to be ceasing operations. In addition to the effect that reductions in the number of plants have had in impairing this average price as a representative value of manufacturing milk, there is substantial evidence that the posted pay prices reported for the two Michigan plants in the series do not currently reflect the total cost of milk to such plants. As a consequence of these developments the Midwest condensery price can no longer be considered fully reliable as an accurate measure of manufacturing milk value.

...formula computations based on ...and nonfat dry milk prices are in...ded to reflect a manufacturing milk ...e based on prices of these products. ...among the eight butter-powder formulas ...ed, yield factors representing the ...ount of nonfat dry milk obtained from ...pounds of milk vary from 7.0 pounds ...pounds. Also the amount deducted ...give recognition to cost of processing ...vary among the formulas. Such cost ...tions are rigid elements in these for...ulas which do not respond to changes ...efficiency.

...The formulas based on prices of but...and cheese are affected by considera...tions similar to those in connection with ...ter-powder formulas.

...Local plant paying prices have tended ...play a lesser role in establishing basic ...ula prices. Generally they have ...been lower than other alternative for...ula computations. Since different ...groups of plants are used in each order, ...uniformity of pricing among orders ...cannot be attained by use of such prices.

...Uniformity of basic formulas is de...sirable for the purposes of aligning ...prices among related markets and pro...moting understanding of order pricing ...methods among parties in the industry. ...Further, in view of the disadvantages ...inherent in the existing formulas based ...on product prices and the lessening rep...resentation provided by the Midwest con...densery prices, it is imperative that a ...sounder basis for determining basic for...mulas be provided.

...The price for manufacturing grade ...milk in the two-state area of Wisconsin ...and Minnesota is issued by the State-...Federal Crop Reporting Service on about ...the 5th day of each month for milk re...ceived at manufacturing plants in these ...States in the previous month. Plant ...operators report the total pounds of ...manufacturing grade milk received from ...farmers, the butterfat content, and total ...money paid to farmers for the milk. ...The two-state area is one in which there ...is heavy concentration of manufactur...ing grade milk and where many plants ...are competing for such supply. In Min...nesota about 80 percent of the milk sold ...off farms is manufacturing grade and in ...Wisconsin, about 65 percent. About 50 ...percent of the manufacturing grade milk ...sold off farms in the United States is ...produced in these two states.

...The average price for manufacturing ...grade milk in Minnesota and Wisconsin, ...as available on the 5th day following ...the month, better meets the require...ments for a basic formula price than ...other formulas now used. It is repre...sentative of prices paid to farmers for ...about half of the manufacturing grade ...milk produced in the country. It is a ...price level determined by competitive ...conditions which are affected by demand ...in all of the major uses of manufactured ...dairy products. The system of reporting ...has been developed so that a reliable ...average price is available promptly and ...thus it provides just as current a basis ...for pricing milk as existing basic ...formulas.

...It is concluded that the average price ...for manufacturing grade milk in Wis...consin and Minnesota, as reported by the Department on about the 5th day of the following month should be adopted as the basic formula price in these orders, excepting those where prices are determined on the basis of differentials from other markets.

Inasmuch as the manufacturing milk price for the two-state area is reported by the Department as the price at actual butterfat test, a method for adjustment to the butterfat test (3.5 percent) used in these orders must be adopted. For this purpose a generally recognized value of butterfat, 0.12 times the average wholesale price for 92-score butter at Chicago, should be used. Such a method of adjustment was favored by producer groups at the hearing. A handler representative suggested that adjustment by direct ratio method would be more representative of the practice among plants purchasing manufacturing milk. It was shown, however, that at 116 manufacturing plants in Wisconsin, payment for manufacturing grade milk was made on the direct ratio basis by only 21 of the plants. Ninety-one of the plants adjusted from 3.5 percent prices by use of butterfat differentials which, if used for conversion of the Minnesota-Wisconsin price to a 3.5 percent basis, would result in a price no less than that resulting from the differential proposed herein.

The proposal to use a butter-powder formula as an alternative basic formula computation is not adopted. To be effective, such a butter-powder formula would need to be constructed so that it represents about the same level of price as the Minnesota-Wisconsin manufacturing milk price. To the extent that it did become effective, it would tend to represent milk values in these particular uses rather than the general value in all major uses represented by the Minnesota-Wisconsin manufacturing milk price. Thus, it would tend to be less truly representative of manufacturing milk prices. Accordingly, such an alternative computation is unnecessary and undesirable.

Representatives of producer interests in these markets asked that certain adjustments be made in the Class I price differentials which are added to the basic formula price if the Minnesota-Wisconsin manufacturing milk price were used as the basic formula. Based upon average relationships in a seven year period (1955–1961) they asked that Class I differentials in individual markets be increased by amounts ranging from 2–3 cents in most markets to 10–13 cents in markets for which basic formula prices of the orders now include or have included particularly favorable butter-powder or butter-cheese alternative formulas. A number of handlers argued that the conversion should be based strictly upon current relationships prevailing for either the last five months of 1961 or for some portion of that period, and that action be such as to provide no current increase of price from the conversion. On this basis a suggestion was offered that the Class I differentials of most orders be reduced 10 cents, and that no change be made in the differentials of those few orders in which the butter-powder formula price currently exceeds the Minnesota-Wisconsin price.

Because of the variety of basic formulas among the various markets, a uniform basis for considering a need for such adjustments is not possible. Further, the existing basic formulas have not maintained precise relationships with the Minnesota-Wisconsin series during the years 1955 through 1961. In view of the variations in such relationships it is not possible to establish with any precision relationships which might be expected to obtain in the future.

In the Chicago order, effective beginning with September 1961, the price for manufacturing grade milk in Wisconsin and Minnesota became an alternative, along with the Midwest condensery price, for the basic formula price. This formula is accordingly reflected in eight markets whose prices are based on Chicago. These markets included Cedar Rapids-Iowa City, Des Moines, North Central Iowa, Ozarks, Quad Cities-Dubuque, Rockford-Freeport, St. Louis and Suburban St. Louis.

The transition to pricing Class I milk on the basis of the Minnesota-Wisconsin manufacturing milk price has already been accomplished without change in Class I differentials with respect to the Chicago market and the eight markets previously named in which the Class I price is established at a differential above or below the Chicago price. Because the Midwest condensery price has been lower than the Minnesota-Wisconsin price, the latter has established the level of Class I price. The price data for both series (condensery and Minnesota-Wisconsin) do not provide any basis for adjusting the Class I level in the Chicago order from that currently established on the basis of the Minnesota-Wisconsin price and existing Class I price differentials. For the three most recent years, 1959, 1960, and 1961, the Midwest condensery price has averaged 1 cent less than the Minnesota-Wisconsin price. Except for the latter part of 1961, the Midwest condensery price and the Minnesota-Wisconsin price represented virtually the same level of price. During recent months the Midwest condensery price has been below its former relationship with paying prices in the area, and has not reflected its usual relationship to values of manufactured dairy products. This relative weakness of the condensery price is a symptom of its progressive failure to represent accurately manufacturing milk values. In view of this situation it would not be appropriate to decrease Class I differentials in these markets to reflect recent levels in the condensery price.

For those orders which use the same basic formula price as contained in the Chicago order prior to the September 1, 1961, amendment, the same method of transition should be used. This will provide the best method of maintaining price alignment among markets. These markets include Milwaukee, Michigan Upper Peninsula, Northeast Wisconsin, Duluth-Superior and South Bend-LaPorte-Elkhart.

The Paducah order basic formula differs from those of the orders in this group only in the use of local plant prices. Since the local plant prices have

been lower than the alternative computations they have not been effective as a basic formula. Accordingly, the same method of transition to the new basic formula would apply for the Paducah order as other markets with basic formulas which differ only in not including local plant prices.

The transition for 13 other markets considered at this hearing represents a problem similar to that in markets just discussed which have basic formulas of the type in the Chicago market prior to the September 1, 1961, amendment. These markets include:

Northeastern Ohio.	Muskegon.
Toledo.	Upstate Michigan.
Fort Wayne.	Kansas City.
Wheeling.	St. Joseph.
Clarksburg.	Minneapolis-St. Paul.
North Central Ohio.	Youngstown-Warren.
Southern Michigan.	

Among these, St. Joseph has a Class I price based on the price under the Kansas City order. Although the order contains a basic formula price this is not used to establish Class I prices. The Youngstown-Warren order similarly contains a basic formula price which is not used, since the price is established by relationship to the price under the Northeastern Ohio order. The North Central Ohio order contains no basic formula price, and the Class I price is based on the Class I price under the Northeastern Ohio order.

For all of these 13 markets, the effective basic formula prices in recent months have been only slightly different from the basic formula prices in markets with the type used in the Chicago order prior to September 1, 1961. The average difference of the basic formulas from the Wisconsin-Minnesota manufacturing milk price in the years 1959, 1960, and 1961 has been less than one cent. It is concluded that the transition to the new basic formula should be made without change in the Class I price differentials. Proposed reductions in the Class I differentials for some of these markets are denied because (1) such reductions would result in distortion of present price alignments among markets, and (2) the differentials should not be reduced to reflect the current weakness in condensery prices cited elsewhere in this decision.

In some markets basic formula prices in recent months have exceeded the Minnesota-Wisconsin manufacturing milk price. These markets include Dayton-Springfield, Cincinnati, Columbus, Indianapolis, Louisville-Lexington, and Ohio Valley. In the Memphis and Central Arkansas markets, also, this relationship has existed, but a recommended decision has been issued (October 20, 1961; 26 F.R. 9860) which would change the basic formula price to conform to that under the Paducah order. With respect to Dayton-Springfield and other markets of this group (excluding Memphis and Central Arkansas) an adjustment of the Class I price differentials should be made such that substitution of the Minnesota-Wisconsin manufacturing milk price as a basic formula would not have resulted in lower Class I prices in recent months. (These months would include those beginning with August 1961, which was the first month for which the Minnesota-Wisconsin manufacturing milk price was published on current basis, and through December.) For the Dayton-Springfield, Indianapolis, Ohio Valley, Louisville-Lexington and Cincinnati markets this would be accomplished by an upward adjustment of 4 cents per hundredweight in the stated differentials. For the Columbus market this would be accomplished with an upward adjustment of 1 cent per hundredweight.

The suggested adjustment of Class I price differentials based on a comparison of order basic formula prices with the Minnesota - Wisconsin manufacturing milk price in earlier years does not provide a valid basis for transition from current levels of the existing basic formula prices. The suggested comparison does not allow for recognized changes in the industry. The butter-powder formulas contained in these orders do not reflect the increasing efficiency of manufacturing plants. The margin of such butter-powder price formulas over the Minnesota-Wisconsin series during the 1955–61 period has shown a trend towards convergence. During the year 1960 the relationship was reversed and for several months the Minnesota-Wisconsin manufacturing price was the higher of the two.

No amendment will be required to carry out the conclusions of this decision with respect to thirteen of the orders affected. There are no basic formulas included in the orders for the Cedar Rapids-Iowa City, Des Moines, North Central Iowa, Quad Cities-Dubuque, Rockford-Freeport, or North Central Ohio markets. The North Central Ohio Class I price is in fixed relation to that of the Northeastern Ohio order and Class I prices of the other orders named are in fixed relation to the Chicago price. Basic formulas in the St. Louis, Ozarks, Suburban St. Louis, St. Joseph, and Youngstown-Warren orders are not used in the computation of prices for Class I milk, as Class I prices in these markets are also maintained, either directly or individually in fixed relationship to other markets for which amendments are herein provided. Since the date of this hearing recommended decisions, based on prior hearings, have been issued which would relate the Michigan Upper Peninsula price directly to that of the Northeastern Wisconsin order, deleting the basic formula price, and merge the Ohio Valley and Louisville-Lexington orders into a single regulation. Therefore, no amendment is proposed for the Michigan Upper Peninsula order. A single amendment is proposed for the proposed combination of Ohio Valley and Louisville-Lexington orders. As in certain other markets for which decisions are now outstanding, but for which amendment action is not completed, the amendments herein proposed with respect to these markets represent further modifications of the amendments proposed in such decisions.

Conforming changes are required in a substantial number of the remaining orders to continue without change the pricing provisions for milk classified in classes other than Class I (or Class II under the Chicago order). In a few orders conforming changes have been adopted to avoid duplication of language. For uniformity, the basic formula price has been defined as the manufacturing milk pay price for the current month. All orders in which one month's basic price is now used to compute the Class I price for the succeeding month will continue that practice.

2. Prices under the Central Arkansas and Memphis orders should be stated on a 3.5 percent butterfat basis.

Class prices and producer prices under these orders are presently stated on a four percent butterfat basis. In order that the uniformity of basic formula prices provided herein may be maintained prices in these markets should be stated at the same butterfat content, 3.5 percent, as for other markets involved in this hearing. The Class I price in these orders is presently adjusted from 4.0 percent to other butterfat tests by a butterfat differential identical with that herein proposed for conversion of the Minnesota-Wisconsin pay price from the price reported at test to a 3.5 percent basis.

In order that change in the basis for test will not affect the level of the Class II price at any given test it is provided that the price presently computed at 4.0 percent butterfat be converted to a 3.5 percent price by use of the Class II butterfat differential of the order. Producer prices under the order should also be announced at a 3.5 percent test to avoid confusion. Cooperative associations will not thereby be prevented from using the 4.0 percent basis in distributing returns to their members producer. The producer price at any given test will remain the same whether computed on a 3.5 percent or a 4.0 percent basis.

Evidence was also received concerning use of a 3.5 percent pricing basis in the orders for the Louisville-Lexington and Ohio Valley marketing areas. Subsequent to this hearing a recommended decision was issued on the basis of evidence received at a public hearing held September 17–21, 1961, in which merger of these orders into a single regulation with prices stated on a 3.5 percent basis was recommended. This record corroborates the findings of that decision with respect to the basic butterfat test to be used.

Rulings on special appearance and on proposed findings and conclusions. In a special appearance entered on behalf of certain handlers in a single market (Cincinnati), objection was raised that the location and duration of the hearing did not afford "reasonable opportunity to be heard" and that the notice of hearing was not sufficiently specific. Such objections are hereby overruled. The location of the hearing was central for the 36 markets at issue. All witnesses who desired to testify were heard. There was no request for extension of time or change in location of the hearing. No evidence was received with respect to changes in those provisions concerning which the objector claimed that additional preparation and testimony would be required.

Briefs and proposed findings and conclusions were filed on behalf of certain

interested parties. These briefs, proposed findings and conclusions and the evidence in the record were considered in making the findings and conclusions set forth above. To the extent that the suggested findings and conclusions filed by interested parties are inconsistent with the findings and conclusions set forth herein, the requests to make such findings or reach such conclusions are denied for the reasons previously stated in this decision.

General findings. The findings and determinations hereinafter set forth are supplementary and in addition to the findings and determinations previously made in connection with the issuance of the aforesaid orders and of the previously issued amendments thereto; and all of said previous findings and determinations are hereby ratified and affirmed, except insofar as such findings and determinations may be in conflict with the findings and determinations set forth herein.

(a) The tentative marketing agreements and the orders, as hereby proposed to be amended, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the Act;

(b) The parity prices of milk as determined pursuant to Section 2 of the Act are not reasonable in view of the price of feeds, available supplies of feeds, and other economic conditions which affect market supply and demand for milk in the marketing areas, and the minimum prices specified in the proposed marketing agreements and the orders, as hereby proposed to be amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest; and

(c) The tentative marketing agreements and the orders, as hereby proposed to be amended, will regulate the handling of milk in the same manner as, and will be applicable only to persons in the respective classes of industrial and commercial activity specified in, a marketing agreement upon which a hearing has been held.

Recommended marketing agreements and orders amending the orders. The following orders amending the orders regulating the handling of milk in the specified marketing areas are recommended as the detailed and appropriate means by which the foregoing conclusions may be carried out. The recommended marketing agreements are not included in this decision because the regulatory provisions thereof would be the same as those contained in the respective orders, as hereby proposed to be amended:

Amendments to Part 1008 regulating the handling of milk in the Greater Wheeling marketing area.

1. Delete § 1008.50 and substitute therefor the following:

§ 1008.50 Basic formula price.

The basic formula price shall be the average price per hundredweight for manufacturing grade milk, f.o.b. plants in Wisconsin and Minnesota, as reported by the United States Department of Agriculture for the month. Such price shall be adjusted to a 3.5 percent butterfat basis by a butterfat differential rounded to the nearest one-tenth cent computed at 0.12 times the Chicago butter price for the month. The basic formula price shall be rounded to the nearest full cent.

§ 1008.51 [Amendment]

2. Delete § 1008.51(b) and substitute therefor the following:

(b) *Class II milk price.* The Class II milk price shall be the highest of the prices computed pursuant to subparagraphs (1), (2), and (3) of this paragraph, rounded to the nearest whole cent.

(1) The average of the basic or field prices per hundredweight reported to have been paid or to be paid for milk of 3.5 percent butterfat content received from farmers during the month at the following plants or places for which prices have been reported to the market administrator or to the Department:

Company and Location

Borden Co., New London, Wis.
Carnation Co., Richland Center, Wis.
Pet Milk Co., Belleville, Wis.
Pet Milk Co., Coopersville, Mich.
Pet Milk Co., New Glarus, Wis.
Pet Milk Co., Wayland, Mich.
White House Milk Co., Manitowoc, Wis.
White House Milk Co., West Bend, Wis.

(2) The price resulting from the following computation:

(i) Multiply by 6 the simple average as computed by the market administrator, of the daily wholesale selling prices (using the midpoint of any price range as one price) of Grade A (92-score) bulk creamery butter per pound at Chicago as reported by the Department of Agriculture during the month for which prices are being computed;

(ii) Add an amount equal to 2.4 times the simple average as published by the Department of Agriculture of the prices determined per pound of "Cheddars" on the Wisconsin Cheese Exchange for the trading days that fall within the month; and

(iii) Divide by 7 and to the resulting amount add 30 percent; and then multiply by 3.5;

(3) The price per hundredweight computed by adding together the plus values of subdivisions (i) and (ii) of this subparagraph:

(i) From the Chicago butter price, subtract 3 cents, add 20 percent thereof, and multiply by 3.5.

(ii) From the simple average as computed by the market administrator of the weighted averages of the carlot prices per pound for nonfat dry milk solids, spray and roller process, respectively, for human consumption, f.o.b. manufacturing plants in the Chicago area, as published for the period from the 26th day of the immediately preceding month through the 25th day of the current month by the Department, deduct 5.5 cents and multiply by 8.2.

Amendments to Part 1009 regulating the handling of milk in the Clarksburg, West Virginia, marketing area.

1. Delete § 1009.50 and substitute therefor the following:

§ 1009.50 Basic formula price.

The basic formula price shall be the average price per hundredweight for manufacturing grade milk, f.o.b. plants in Wisconsin and Minnesota, as reported by the United States Department of Agriculture for the month. Such price shall be adjusted to a 3.5 percent butterfat basis by a butterfat differential rounded to the nearest one-tenth cent computed at 0.12 times the Chicago butter price for the month. The basic formula price shall be rounded to the nearest full cent.

§ 1009.51 [Amendment]

2. Delete § 1009.51(b) and substitute therefor the following:

(b) *Class II milk price.* The Class II milk price shall be the highest of the prices computed pursuant to subparagraphs (1), (2), and (3) of this paragraph, rounded to the nearest whole cent.

(1) The average of the basic or field prices per hundredweight reported to have been paid or to be paid for milk of 3.5 percent butterfat content received from farmers during the month at the following plants or places for which prices have been reported to the market administrator or to the Department:

Company and Location

Borden Co., New London, Wis.
Carnation Co., Richland Center, Wis.
Pet Milk Co., Belleville, Wis.
Pet Milk Co., Coopersville, Mich.
Pet Milk Co., New Glarus, Wis.
Pet Milk Co., Wayland, Mich.
White House Milk Co., Manitowoc, Wis.
White House Milk Co., West Bend, Wis.

(2) The price resulting from the following computation:

(i) Multiply by 6 the simple average as computed by the market administrator, of the daily wholesale selling prices (using the midpoint of any price range as one price) of Grade A (92-score) bulk creamery butter per pound at Chicago as reported by the Department of Agriculture during the month for which prices are being computed;

(ii) Add an amount equal to 2.4 times the simple average as published by the Department of Agriculture of the prices determined per pound of "Cheddars" on the Wisconsin Cheese Exchange, for the trading days that fall within the month; and

(iii) Divide by 7 and to the resulting amount add 30 percent; and then multiply by 3.5.

(3) The price per hundredweight computed by adding together the plus values of subdivisions (i) and (ii) of this subparagraph:

(i) From the Chicago butter price, subtract 3 cents, add 20 percent thereof, and multiply by 3.5; and

(ii) From the simple average as computed by the market administrator of the weighted averages of the carlot prices per pound for nonfat dry milk solids, spray and roller process, respectively, for human consumption, f.o.b. manufacturing plants in the Chicago area, as published for the period from the 26th day of the immediately preceding month through the 25th day of the current

month by the Department, deduct 5.5 cents and multiply by 8.2.

Amendments to Part 1030 regulating the handling of milk in the Chicago, Illinois, marketing area.

1. Delete § 1030.50 and substitute therefor the following:

§ 1030.50 Basic formula price.

The basic formula price shall be the average price per hundredweight for manufacturing grade milk, f.o.b. plants in Wisconsin and Minnesota, as reported by the United States Department of Agriculture for the month. Such price shall be adjusted to a 3.5 percent butterfat basis by the butterfat differential pursuant to § 1030.82. The basic formula price shall be rounded to the nearest full cent.

§ 1030.52 [Amendment]

2. In § 1030.52 (a) and (b) change the phrase "the basic formula price plus" to "the basic formula price for the preceding delivery period plus".

3. Replace § 1030.52(c) with the following:

(c) *Class III milk.* The price per hundredweight for Class III milk shall be the basic formula price.

Amendments to Part 1031 regulating the handling of milk in the South Bend-LaPorte-Elkhart, Indiana, marketing area.

1. Delete § 1031.51 and substitute therefor the following:

§ 1031.51 Basic formula price.

The basic formula price shall be the average price per hundredweight for manufacturing grade milk, f.o.b. plants in Wisconsin and Minnesota, as reported by the United States Department of Agriculture for the month. Such price shall be adjusted to a 3.5 percent butterfat basis by a butterfat differential rounded to the nearest one-tenth cent computed at 0.12 times the simple average of the daily wholesale selling prices (using the midpoint of any price range as one price) of Grade A (92-score) bulk creamery butter per pound at Chicago, as reported by the United States Department of Agriculture for the month. The basic formula price shall be rounded to the nearest full cent.

§ 1031.53 [Amendment]

2. In § 1031.53 immediately after the words "basic formula price" insert "for the preceding month".

§ 1031.54 [Amendment]

3. Delete § 1031.54(a) and substitute therefor the following:

(a) The average of the basic or field prices reported to have been paid, or to be paid, per hundredweight for milk of 3.5 percent butterfat content received, from farmers during the month at the following plants or places for which prices have been reported to the market administrator or to the Department:

Present Operator and Location

Borden Co., New London, Wis.
Carnation Co., Richland Center, Wis.
Pet Milk Co., Belleville, Wis.
Pet Milk Co., Coopersville, Mich.
Pet Milk Co., New Glarus, Wis.
Pet Milk Co., Wayland, Mich.
White House Milk Co., Manitowoc, Wis.
White House Milk Co., West Bend, Wis.

Amendments to Part 1033 regulating the handling of milk in the Cincinnati, Ohio, marketing area.

1. Delete § 1033.50 and substitute therefor the following:

§ 1033.50 Basic formula price.

The basic formula price shall be the average price per hundredweight for manufacturing grade milk, f.o.b. plants in Wisconsin and Minnesota, as reported by the United States Department of Agriculture for the month. Such price shall be adjusted to a 3.5 percent butterfat basis by a butterfat differential rounded to the nearest one-tenth cent computed at 0.12 times the Chicago butter price for the month. The basic formula price shall be rounded to the nearest full cent.

§ 1033.51 [Amendment]

2. In § 1033.51(a) change "$1.30" to "$1.34".

§ 1033.52 [Amendment]

3. Delete § 1033.52(b) and substitute therefor the following:

(b) *Class II milk.* Multiply the Chicago butter price by 118, subtract therefrom the amount computed in subparagraph (1) of this paragraph and divide the result by 1000;

(1) From the average of carlot prices per pound for nonfat dry milk, spray process, for human consumption, f.o.b. manufacturing plants in the Chicago area, as published for the period from the 26th of the immediately preceding month through the 25th day of the current month by the United States Department of Agriculture, deduct 6.4 cents and multiply the result by 8.2.

4. In § 1033.52(c) change "§ 1033.51 (b)(2)" to "§ 1033.52(b)(1)".

Amendments to Part 1034 regulating the handling of milk in the Dayton-Springfield, Ohio, marketing area.

1. Delete § 1034.50 and substitute therefor the following:

§ 1034.50 Basic formula price.

The basic formula price shall be the average price per hundredweight for manufacturing grade milk, f.o.b. plants in Wisconsin and Minnesota, as reported by the United States Department of Agriculture for the month. Such price shall be adjusted to a 3.5 percent butterfat basis by a butterfat differential rounded to the nearest one-tenth cent computed at 0.12 times the Chicago butter price for the month. The basic formula price shall be rounded to the nearest full cent.

§ 1034.51 [Amendment]

2. In § 1034.51(a) change "$1.20" to "$1.24".

Amendments to Part 1035 regulating the handling of milk in the Columbus, Ohio, marketing area.

1. Delete § 1035.50 and substitute therefor the following:

§ 1035.50 Basic formula prices.

(a) The basic formula price for Class I milk shall be the average price per hundredweight for manufacturing grade milk, f.o.b. plants in Wisconsin and Minnesota, as reported by the United States Department of Agriculture for the month. Such price shall be adjusted to a 3.5 percent butterfat basis by a butterfat differential rounded to the nearest one-tenth cent computed at 0.12 times the Chicago butter price for the month. The basic formula price shall be rounded to the nearest full cent.

(b) The basic formula price for Class II and Class III milk shall be the higher of the prices as computed to the nearest one-tenth of a cent by the market administrator pursuant to subparagraphs (1) and (2) of this paragraph:

(1) The arithmetical average of the basic (or field) prices per hundredweight reported to have been paid, or to be paid, for milk of 3.5 percent butterfat content received from farmers during the month at the following places for which prices are reported to the market administrator or to the Department by the companies listed below:

Company and Location

Borden Co., New London, Wis.
Carnation Co., Richland Center, Wis.
Pet Milk Co., Belleville, Wis.
Pet Milk Co., Coopersville, Mich.
Pet Milk Co., New Glarus, Wis.
Pet Milk Co., Wayland, Mich.
White House Milk Co., Manitowoc, Wis.
White House Milk Co., West Bend, Wis.

(2) The price per hundredweight computed by adding together the plus amounts calculated pursuant to subdivisions (i) and (ii) of this subparagraph:

(i) From the Chicago butter price, subtract 3.5 cents, and multiply the difference by 4.2; and

(ii) From the nonfat dry milk price, subtract 4 cents and multiply the difference by 8.2.

§ 1035.51 [Amendment]

2. In § 1035.51(a) change the phrase "basic formula price for the preceding month, plus $1.10" to "basic formula price computed pursuant to § 1035.50(a) for the preceding month, plus $1.11".

3. In § 1035.51 (b) and (c) change the phrase "basic formula price" to "basic formula price determined pursuant to § 1035.50(b)".

4. In § 1035.51(d) change the reference "§ 1035.50(b) (1) and (2)" to "§ 1035.50 (b)(2) (i) and (ii)".

Amendments to Part 1036 regulating the handling of milk in the Northeastern Ohio marketing area.

1. Delete § 1036.50 and substitute therefor the following:

§ 1036.50 Basic formula price.

The basic formula price shall be the average price per hundredweight for manufacturing grade milk, f.o.b. plants in Wisconsin and Minnesota, as reported by the United States Department of Agriculture for the month. Such price shall be adjusted to a 3.5 percent butterfat basis by a butterfat differential rounded to the nearest one-tenth cent computed

at 4.12 times the simple average of the daily wholesale selling prices (using the midpoint of any price range as one price) of Grade A (92-score) bulk creamery butter per pound at Chicago, as reported by the United States Department of Agriculture for the month. The basic formula price shall be rounded to the nearest full cent.

2. Delete § 1036.52 and § 1036.53 and substitute therefor the following:

§ 1036.52 Class II milk prices.

The minimum price per hundredweight to be paid by each handler, f.o.b. his plant, for producer milk of 3.5 percent butterfat content received from producers or from a cooperative association during the month, which is classified as Class II utilization, shall be the higher of the prices per hundredweight of milk of 3.5 percent butterfat content computed by the market administrator pursuant to paragraphs (a) and (b) of this section, plus 30 cents.

(a) The average of the basic (or field) prices ascertained to have been paid per hundredweight for milk of 3.5 percent butterfat content received from farmers during the month at the following plants or places for which prices have been reported to the market administrator by the Department of Agriculture or by the companies indicated below:

Company and Location

Borden Co., New London, Wis.
Carnation Co., Richland Center, Wis.
Pet Milk Co., Belleville, Wis.
Pet Milk Co., Coopersville, Mich.
Pet Milk Co., New Glarus, Wis.
Pet Milk Co., Wayland, Mich.
White House Milk Co., Manitowoc, Wis.
White House Milk Co., West Bend, Wis.

(b) The price per hundredweight computed by adding together the plus amounts pursuant to subparagraphs (1) and (2) of this paragraph:

(1) From the average of the daily wholesale selling prices per pound (using the midpoint of any price range as one price) of Grade A (92-score) bulk creamery butter for the month as reported by the Department of Agriculture for the Chicago market, subtract 3 cents, add 20 percent of the resulting amount and then multiply by 3.5; and

(2) From the simple average of the weighted averages of the carlot prices per pound of spray and roller process nonfat dry milk solids for human consumption, f.o.b. manufacturing plants in the Chicago area, as published for the period from the 26th day of the immediately preceding month through the 25th day of the current month by the Department of Agriculture, deduct 5.5 cents, multiply by 8.5 and then multiply by 0.965.

§ 1036.53 Class III milk prices.

The minimum price per hundredweight to be paid by each handler, f.o.b. his plant, for producer milk of 3.5 percent butterfat content received from producers or from a cooperative association during the month, which is classified as Class III utilization, shall be the basic formula price, as computed pursuant to § 1036.50, but in no event shall the Class III price exceed the price computed pursuant to § 1036.52(b) plus 10 cents.

Amendments to Part 1039 regulating the handling of milk in the Milwaukee, Wisconsin, marketing area. (The following amendments represent further modification to the extent necessary to carry out the conclusions of this decision and with respect to the provisions specified, of the amendments proposed in the recommended decision issued December 22, 1961 (26 F.R. 12580).)

1. Delete § 1039.50 and substitute therefor the following:

§ 1039.50 Basic formula price.

The basic formula price shall be the average price per hundredweight for manufacturing grade milk, f.o.b. plants in Wisconsin and Minnesota, as reported by the United States Department of Agriculture for the month. Such price shall be adjusted to a 3.5 percent butterfat basis by a butterfat differential rounded to the nearest one-tenth cent computed at 0.12 times the butter price. The basic formula price shall be rounded to the nearest full cent.

§ 1039.51 [Amendment]

2. Delete § 1039.51(b) and substitute therefor the following:

(b) *Class II milk price.* The price for Class II milk shall be the basic formula price for the month.

Amendments to Part 1040 regulating the handling of milk in the Southern Michigan marketing area.

1. Delete § 1040.50 and substitute therefor the following:

§ 1040.50 Basic formula price.

The basic formula price shall be the average price per hundredweight for manufacturing grade milk, f.o.b. plants in Wisconsin and Minnesota, as reported by the United States Department of Agriculture for the month. Such price shall be adjusted to a 3.5 percent butterfat basis by a butterfat differential rounded to the nearest one-tenth cent computed at 0.12 times the simple average of the daily wholesale selling prices (using the midpoint of any price range as one price) of Grade A (92-score) bulk creamery butter per pound at Chicago, as reported by the United States Department of Agriculture for the month. The basic formula price shall be rounded to the nearest full cent.

2. Delete § 1040.52 and substitute therefor the following:

§ 1040.52 Class II milk price.

The minimum price per hundredweight to be paid by each handler, f.o.b. his plant, for milk of 3.5 percent butterfat content received from producers or from a cooperative association during the month which is classified as Class II utilization shall be as follows:

(a) In the months of February through September the higher of:

(1) The average of the prices per hundredweight reported to have been paid, or to be paid, for milk of 3.5 percent butterfat content received from farmers during the month at the following plants, except any which meet the qualification of § 1040.16, for which prices have been reported to the market administrator:

Present Operator and Location

Borden Co., Mt. Pleasant, Mich.
Carnation Co., Sheridan, Mich.
Carnation Co., Sparta, Mich.
Fairmont Foods Co., Bad Axe, Mich.
Kraft Foods, Clare, Mich.
Kraft Foods, Pinconning, Mich.
Nestle Co., Ubly, Mich.; or

(2) The price per hundredweight computed by subtracting 18.3 cents from the sum of the plus amounts computed pursuant to subdivisions (i) and (ii) of this subparagraph:

(i) From the average of the daily wholesale selling prices per pound (using the midpoint of any price range as one price) of Grade A (92-score) bulk creamery butter for the month as reported by the Department of Agriculture for the Chicago market, subtract three cents, add 20 percent of the resulting amount and then multiply by 3.5; and

(ii) From the simple average of the weighted averages of the carlot prices per pound of spray and roller process nonfat dry milk solids for human consumption, f.o.b. manufacturing plants in the Chicago area, as published for the period from the 26th day of the immediately preceding month through the 25th day of the current month by the Department of Agriculture, deduct 5.5 cents, multiply by 8.2; and

(b) In the months of October, November, December and January, add 20 cents per hundredweight to the price determined pursuant to paragraph (a) of this section.

Amendments to Part 1041 regulating the handling of milk in the Toledo, Ohio, marketing area.

§ 1041.50 [Amendment]

1. Delete § 1041.50(b) and substitute therefor the following:

(b) *Class II milk price.* The Class II milk price shall be the highest of the prices per hundredweight for milk of 3.5 percent butterfat content computed pursuant to subparagraphs (1) and (2) of this section.

(1) The average of the basic (or field) prices reported to have been paid or to be paid per hundredweight for milk of 3.5 percent butterfat content received from farmers during the month at the following plants or places for which prices have been reported to the market administrator or to the Department on or before the 5th day after the end of the month by the companies indicated below:

Companies and Location

Borden Co., New London, Wis.
Carnation Co., Richland Center, Wis.
Pet Milk Co., Belleville, Wis.
Pet Milk Co., Coopersville, Mich.
Pet Milk Co., New Glarus, Wis.
Pet Milk Co., Wayland, Mich.
White House Milk Co., Manitowoc, Wis.
White House Milk Co., West Bend, Wis.

(2) The price per hundredweight computed by adding together the plus values pursuant to subdivisions (i) and (ii) of this subparagraph:

(i) From the Chicago butter price subtract three cents, and multiply by 4.2; and

(ii) From the arithmetical average of the carlot prices per pound for nonfat dry milk (not including that specifically designated animal feed), spray and roller process, f.o.b. manufacturing plants in the Chicago area, as published by the Department during the month, deduct 5.5 cents, and multiply by 8.2, except that if such agency does not publish such prices f.o.b. manufacturing plants, there shall be used for the purpose of this computation the arithmetical average of the carlot prices thereof delivered to Chicago, Illinois, as published weekly by such agency during the month; and in the latter event the figure "7.5" shall be substituted for "5.5" in the above formula.

2. Delete § 1041.51 and substitute therefor the following:

§ 1041.51 Basic formula price.

The basic formula price shall be the average price per hundredweight for manufacturing grade milk, f.o.b. plants in Wisconsin and Minnesota, as reported by the United States Department of Agriculture for the month. Such price shall be adjusted to a 3.5 percent butterfat basis by a butterfat differential rounded to the nearest one-tenth cent computed at 0.12 times the Chicago butter price for the month. The basic formula price shall be rounded to the nearest full cent.

Amendments to Part 1042 regulating the handling of milk in the Muskegon, Michigan, marketing area.

1. Delete § 1042.50 and substitute therefor the following:

§ 1042.50 Basic formula price.

The basic formula price shall be the average price per hundredweight for manufacturing grade milk, f.o.b. plants in Wisconsin and Minnesota, as reported by the United States Department of Agriculture for the month. Such price shall be adjusted to a 3.5 percent butterfat basis by a butterfat differential rounded to the nearest one-tenth cent computed at 0.12 times the simple average of the daily wholesale selling prices (using the midpoint of any price range as one price) of Grade A (92-score) bulk creamery butter per pound at Chicago, as reported by the United States Department of Agriculture for the month. The basic formula price shall be rounded to the nearest full cent.

Amendments to Part 1043 regulating the handling of milk in the Upstate Michigan marketing area.

1. Delete § 1043.50 and substitute therefor the following:

§ 1043.50 Basic formula price.

The basic formula price shall be the average price per hundredweight for manufacturing grade milk, f.o.b. plants in Wisconsin and Minnesota, as reported by the United States Department of Agriculture for the month. Such price shall be adjusted to a 3.5 percent butterfat basis by a butterfat differential rounded to the nearest one-tenth cent computed at 0.12 times the simple average of the daily wholesale selling prices (using the midpoint of any price range as one price) of Grade A (92-score) bulk creamery butter per pound at Chicago, as reported by the United States Department of Agriculture for the month. The basic formula price shall be rounded to the nearest full cent.

2. Delete § 1043.51 (b) and (c), and substitute therefor the following:

(b) *Class II milk.* The Class II milk price shall be the highest of the prices computed pursuant to subparagraphs (1), (2), and (3) of this section.

(1) The average of the basic or field prices per hundredweight reported to have been paid, or to be paid, for milk of 3.5 percent butterfat content received from farmers during the month at the following plants or places for which prices have been reported to the market administrator or to the USDA:

Present Operator and Location

Borden Co., New London, Wis.
Carnation Co., Richland Center, Wis.
Pet Milk Co., Coopersville, Mich.
Pet Milk Co., Belleville, Wis.
Pet Milk Co., New Glarus, Wis.
Pet Milk Co., Wayland, Mich.
White House Milk Co., Manitowoc, Wis.
White House Milk Co., West Bend, Wis.

(2) The price per hundredweight computed by adding together the plus values computed pursuant to subdivisions (i) and (ii) of this subparagraph:

(i) From the simple average, as computed by the market administrator, of the daily wholesale selling prices (using the mid-point of any price range as one price) of Grade A (92-score) bulk creamery butter per pound at Chicago as reported by the USDA during the month; subtract 3 cents, add 20 percent thereof and multiply by 3.5.

(ii) From the simple average, as computed by the market administrator, of the weighted averages of carlot prices per pound for nonfat dry milk solids, spray and roller process, respectively, for human consumption, f.o.b. manufacturing plants in Chicago area, as published for the period from the 26th day of the immediately preceding month through the 25th day of the current month by the U.S.D.A., deduct 5.5 cents and then multiply by 8.2.

(3) The average of the basic or field prices per hundredweight reported to have been paid for milk of 3.5 percent butterfat content received from farmers during the month at the following plants:

Kraft Foods Co., Cadillac, Mich.
Borden Co., Mount Pleasant, Mich.
Carnation Co., Sparta, Mich.
Kraft Foods Co., Clare, Mich.

(c) *Class III milk.* The Class III milk price shall be the Class II milk price less 20 cents.

§ 1043.62 [Amendment]

3. In § 1043.62 change "§ 1043.50(b)(1)" to "§ 1043.51(b)(2)(i)".

Amendments to Part 1045 regulating the handling of milk in the Northeastern Wisconsin marketing area. (The following amendments represent further modifications, to the extent necessary to carry out the conclusions of this decision with respect to the provisions specified, of the amendments proposed in the recommended decision issued February 1, 1962.)

1. Delete § 1045.50 and substitute therefor the following:

§ 1045.50 Basic formula price.

The basic formula price shall be the average price per hundredweight for manufacturing grade milk, f.o.b. plants in Wisconsin and Minnesota, as reported by the United States Department of Agriculture for the month. Such price shall be adjusted to a 3.5 percent butterfat basis by a butterfat differential rounded to the nearest one-tenth cent computed at 0.12 times the simple average of the daily wholesale selling prices (using the midpoint of any price range as one price) of Grade A (92–score) bulk creamery butter per pound at Chicago, as reported by the USDA for the month. The basic formula price shall be rounded to the nearest full cent.

2. Delete § 1045.52 and substitute therefor the following:

§ 1045.52 Class II milk price.

The Class II milk price shall be the basic formula price.

§ 1045.53 [Amendment]

3. In § 1045.53 change the reference to "§ 1045.52" to "§ 1045.50".

Amendments to Part 1046 regulating the handling of milk in the Louisville-Lexington-Evansville marketing area. (The following amendments represent further modifications, to the extent necessary to carry out the conclusions of this decision with respect to the provisions specified, of the regulation proposed in the recommended decision issued January 31, 1962, as a means of merging the orders regulating the handling of milk in the Louisville-Lexington, Kentucky, and Ohio Valley marketing areas, to be accomplished by amendment of Part 1046.)

1. Delete § 1046.50 and substitute therefor the following:

§ 1046.50 Basic formula price.

The basic formula price shall be the average price per hundredweight for manufacturing grade milk, f.o.b. plants in Wisconsin and Minnesota, as reported by the United States Department of Agriculture for the month. Such price shall be adjusted to a 3.5 percent butterfat basis by a butterfat differential rounded to the nearest one-tenth cent computed at 0.12 times the simple average of the daily wholesale selling prices (using the midpoint of any price range as one price) of Grade A (92–score) bulk creamery butter per pound at Chicago, as reported by the USDA for the month. The basic formula price shall be rounded to the nearest full cent.

§ 1046.51 [Amendment]

2. In § 1046.51(a), in the language preceding subparagraph (1), delete "$1.25" and substitute "$1.29".

Amendments to Part 1047 regulating the handling of milk in the Fort Wayne, Indiana, marketing area.

1. Delete § 1047.50 and substitute therefor the following:

§ 1047.50 Basic formula price.

The basic formula price shall be the average price per hundredweight for manufacturing grade milk, f.o.b. plants in Wisconsin and Minnesota, as reported by the United States Department of Agriculture for the month. Such price shall be adjusted to a 3.5 percent butterfat basis by a butterfat differential rounded to the nearest one-tenth cent computed at 0.12 times the Chicago butter price for the month. The basic formula price shall be rounded to the nearest full cent.

§ 1047.51 [Amendment]

2. Replace § 1047.51(b) with the following:

(b) *Class II milk price.* The price for Class II milk of 3.5 percent butterfat content shall be the higher of the prices per hundredweight of milk of 3.5 percent butterfat content computed by the market administrator pursuant to subparagraphs (1) and (2) of this paragraph rounded to the nearest cent:

(1) The average of the basic (or field) prices ascertained to have been paid per hundredweight for milk of 3.5 percent butterfat content received from farmers during the month at the following plants or places for which prices have been reported to the market administrator by the Department or by the companies indicated as follows:

Present Operator and Location

Borden Co., New London, Wis.
Carnation Co., Richland Center, Wis.
Pet Milk Co., Belleville, Wis.
Pet Milk Co., Coopersville, Mich.
Pet Milk Co., New Glarus, Wis.
Pet Milk Co., Wayland, Mich.
White House Milk Co., Manitowoc, Wis.
White House Milk Co., West Bend, Wis.

(2) The price per hundredweight computed by adding together the plus amounts pursuant to subdivisions (i) and (ii) of this subparagraph:

(i) From the Chicago butter price, subtract three cents, and then multiply by 4.2; and

(ii) From the simple average of the weighted averages of the carlot prices per pound of spray and roller process nonfat dry milk solids for human consumption, f.o.b. manufacturing plants in the Chicago area, as published for the period from the 26th day of the immediately preceding month through the 25th day of the current month by the Department, deduct 5.5 cents and multiply by 8.2.

Amendments to Part 1049 regulating the handling of milk in the Indianapolis, Indiana, marketing area.

1. Delete § 1049.50 and substitute therefor the following:

§ 1049.50 Basic formula price.

The basic formula price shall be the average price per hundredweight for manufacturing grade milk, f.o.b. plants in Wisconsin and Minnesota, as reported by the United States Department of Agriculture for the month. Such price shall be adjusted to a 3.5 percent butterfat basis by a butterfat differential rounded to the nearest one-tenth cent computed at 0.12 times the butter price for the month. The basic formula price shall be rounded to the nearest full cent.

§ 1049.51 [Amendment]

2. Delete § 1049.51(a) and substitute therefor the following:

(a) *Class I milk price.* The price for Class I milk shall be the basic formula price for the preceding month, plus $1.29.

3. Delete § 1049.51(b) and substitute therefor the following:

(b) *Class II milk price.* The price for Class II milk shall be the higher of the prices, rounded to the nearest cent, computed as follows:

(1) The average of the basic or field prices reported to have been paid or to be paid per hundredweight for milk of 3.5 percent butterfat content received from farmers during the month at the following plants or places for which prices have been reported to the market administrator or to the Department:

Present Operator and Location

Borden Co., New London, Wis.
Carnation Co., Richland Center, Wis.
Pet Milk Co., Belleville, Wis.
Pet Milk Co., Coopersville, Mich.
Pet Milk Co., New Glarus, Wis.
Pet Milk Co., Wayland, Mich.
White House Milk Co., Manitowoc, Wis.
White House Milk Co., West Bend, Wis.

(2) The sum of the amounts computed pursuant to subdivision (i) and (ii) of this subparagraph.

(i) Multiply the butter price by 4.2.

(ii) From the arithmetical averages of the weighted average of carlot prices per pound of spray and roller process nonfat dry milk for human consumption, f.o.b. manufacturing plants in the Chicago area, as published for the period from the 26th day of the preceding month through the 25th day of the current month by the Department, deduct 5.5 cents and multiply by 8.2.

Amendments to Part 1064 regulating the handling of milk in the Greater Kansas City marketing area.

1. Delete § 1064.50 and substitute therefor the following:

§ 1064.50 Basic formula price.

The basic formula price shall be the average price per hundredweight for manufacturing grade milk, f.o.b. plants in Wisconsin and Minnesota, as reported by the United States Department of Agriculture for the month. Such price shall be adjusted to a 3.5 percent butterfat basis by a butterfat differential rounded to the nearest one-tenth cent computed at 0.12 times the simple average of the daily wholesale selling prices (using the midpoint of any price range as one price) of Grade A (92-score) bulk creamery butter per pound at Chicago, as reported by the United States Department of Agriculture for the month. The basic formula price shall be rounded to the nearest full cent.

§ 1064.52 [Amendment]

2. In § 1064.52 (a) and (b), and in § 1064.82, delete "§ 1064.50(b)(1)" and substitute therefor "§ 1064.50".

Amendments to Part 1068 regulating the handling of milk in the Minneapolis-St. Paul, Minnesota, marketing area.

1. Delete § 1068.51 and substitute therefor the following:

§ 1068.51 Basic formula price.

The basic formula price shall be the average price per hundredweight for manufacturing grade milk, f.o.b. plants in Wisconsin and Minnesota, as reported by the United States Department of Agriculture for the month. Such price shall be adjusted to a 3.5 percent butterfat basis by a butterfat differential rounded to the nearest one-tenth cent computed at 0.12 times the simple average of the daily wholesale selling prices (using the midpoint of any price range as one price) of Grade A (92-score) bulk creamery butter per pound at Chicago, as reported by the United States Department of Agriculture for the month. The basic formula price shall be rounded to the nearest full cent.

§ 1068.53 [Amendment]

2. In § 1068.53 change the phrase "basic formula price" to "basic formula price for the preceding month".

3. Delete § 1068.54 and substitute therefor the following:

§ 1068.54 Class II price.

The price per hundredweight for Class II milk shall be the basic formula price.

Amendments to Part 1069 regulating the handling of milk in the Duluth-Superior marketing area.

1. Delete § 1069.50 and substitute therefor the following:

§ 1069.50 Basic formula price.

The basic formula price shall be the average price per hundredweight for manufacturing grade milk, f.o.b. plants in Wisconsin and Minnesota, as reported by the United States Department of Agriculture for the month. Such price shall be adjusted to a 3.5 percent butterfat basis by a butterfat differential rounded to the nearest one-tenth cent computed at 0.12 times the simple average of the daily wholesale selling prices (using the midpoint of any price range as one price) of Grade A (92-score) bulk creamery butter per pound at Chicago, as reported by the United States Department of Agriculture for the month. The basic formula price shall be rounded to the nearest full cent.

§ 1069.51 [Amendment]

2. Replace § 1069.51(b) with the following:

(b) *Class II milk.* The Class II price per hundredweight of milk of 3.5 percent butterfat content shall be determined each month as follows:

(1) Multiply by 4.24 the simple average, as computed by the market administrator, of the daily wholesale selling prices (using the midpoint of any price range as one price) of Grade AA (93–score) bulk creamery butter per pound at Chicago, as reported by the Department, during the delivery period: *Provided*, That if no price is reported for Grade AA (93-score) butter, the highest of the prices reported for Grade A (92–score) butter for that day shall be used

in lieu of the price for Grade AA (93-score) butter;

(2) Multiply by 8.2 the weighted average of carlot prices per pound for spray process nonfat dry milk solids, for human consumption, f.o.b. manufacturing plants in the Chicago area, as published for the period from the 26th day of the immediately preceding month through the 25th day of the current month, by the Department; and

(3) From the sum of the results arrived at under subparagraphs (1) and (2) of this paragraph subtract 75.2 cents and adjust to the nearest full cent.

Amendments to Part 1097 regulating the handling of milk in the Memphis, Tennessee, marketing area. (The following amendments represent further modifications, to the extent necessary to carry out the conclusions of this decision with respect to the provisions specified, of the amendments proposed in the recommended decision issued October 17, 1961 (26 F.R. 9860)).

1. Delete § 1097.50 and substitute therefor the following:

§ 1097.50 Basic formula price.

The basic formula price shall be the average price per hundredweight for manufacturing grade milk, f.o.b. plants in Wisconsin and Minnesota, as reported by the United States Department of Agriculture for the month. Such price shall be adjusted to a 3.5 percent butterfat basis by a butterfat differential rounded to the nearest one-tenth cent computed at 0.12 times the Chicago butter price for the month. The basic formula price shall be rounded to the nearest full cent.

§ 1097.51 [Amendment]

2. In § 1097.51(b) delete the period at the end of the paragraph and add: "and from which shall be subtracted 5 times the butterfat differential for the respective month computed pursuant to § 1097.52(b)".

§§ 1097.52, 1097.71 and 1097.92 [Amendments]

3. In §§ 1097.52, 1097.71, and 1097.92, delete "4.0" wherever it appears and substitute therefor "3.5".

Amendments to Part 1099 regulating the handling of milk in the Paducah, Kentucky, marketing area.

1. Delete § 1099.50 and substitute therefor the following:

§ 1099.50 Basic formula price.

The basic formula price shall be the average price per hundredweight for manufacturing grade milk, f.o.b. plants in Wisconsin and Minnesota, as reported by the United States Department of Agriculture for the month. Such price shall be adjusted to a 3.5 percent butterfat basis by a butterfat differential rounded to the nearest one-tenth cent computed at 0.12 times the simple average of the daily wholesale selling prices (using the midpoint of any price range as one price) of Grade A (92-score) bulk creamery butter per pound at Chicago, as reported by the United States Department of Agriculture for the month. The basic formula price shall be rounded to the nearest full cent.

§ 1099.51 [Amendment]

2. Delete § 1099.51(b) and substitute therefor the following:

(b) *Class II milk price.* The highest of the prices computed pursuant to subparagraphs (1), (2), and (3) of this paragraph shall be the Class II price during the months of August through March, and such price shall be reduced ten cents during the months of April through July: *Provided*, That in no case shall such price be less than the price determined in subparagraph (3) of this paragraph.

(1) The average of the basic or field prices per hundredweight reported to have been paid or to be paid for milk of 3.5 percent butterfat content received from farmers during the month at the following plants or places for which prices have been reported to the market administrator or to the Department of Agriculture:

Present Operator and Location

Pet Milk Co., Wayland, Mich.
Pet Milk Co., Coopersville, Mich.
Borden Co., New London, Wis.
Carnation Co., Richland Center, Wis.
Pet Milk Co., New Glarus, Wis.
Pet Milk Co., Belleville, Wis.
White House Milk Co., Manitowoc, Wis.
White House Milk Co., West Bend, Wis.

(2) The sum of the amounts determined pursuant to subdivision (i) and (ii) of this subparagraph less 75 cents.

(i) Multiply by 4.24 the simple average, as computed by the market administrator of the daily wholesale selling prices (using the midpoint of any price range as one price) of 93 score bulk creamery butter per pound at Chicago, as reported by the Department of Agriculture, during the month: *Provided*, That if no price is reported for 93 score butter, the highest of the prices reported for 92 score butter for the day shall be used in lieu of the price for 93 score butter.

(ii) Multiply by 8.2 the weighted average of carlot prices per pound for spray process nonfat dry milk solids, for human consumption, f.o.b. manufacturing plants in the Chicago area, as published for the period from the 26th day of the immediately preceding month through the 25th day of the current month by the Department of Agriculture.

(3) Or the price shall be the average of the basic (or field) prices reported to or ascertained by the market administrator to have been paid, or to be paid, without deductions for hauling or other charges to be paid by the farm shipper, for milk of 4.0 percent butterfat content received during the month by the Pet Milk Company at its manufacturing plant located at Mayfield, Kentucky, less 5 times the butterfat differential calculated pursuant to § 1099.52(b).

Amendments to Part 1108 regulating the handling of milk in the Central Arkansas marketing area. (The following amendments represent further modifications, to the extent necessary to carry out the conclusions of this decision with respect to the provisions specified, of the amendments proposed in the recommended decisions issued October 17, 1961 (26 F.R. 9860), and concurrently herewith.

1. Delete § 1108.50 and substitute therefor the following:

§ 1108.50 Basic formula price.

The basic formula price shall be the average price per hundredweight for manufacturing grade milk, f.o.b. plants in Wisconsin and Minnesota, as reported by the United States Department of Agriculture for the month. Such price shall be adjusted to a 3.5 percent butterfat basis by a butterfat differential rounded to the nearest one-tenth cent computed at 0.12 times the Chicago butter price for the month. The basic formula price shall be rounded to the nearest full cent.

§§ 1108.51, 1108.52, 1108.71, 1108.91 and 1108.73 [Amendments]

2. In §§ 1108.51, 1108.52, 1108.91, 1108.72 and 1108.73 change "4.0 percent" to "3.5 percent".

Signed at Washington, D.C., on February 7, 1962.

JAMES T. RALPH,
Assistant Secretary.

[F.R. Doc. 62-1406; Filed, Feb. 9, 1962; 8:50 a.m.]

[7 CFR Parts 1044, 1045]

[Docket Nos. AO-299-A2 and AO-361-A5]

MILK IN MICHIGAN UPPER PENINSULA AND NORTHEASTERN WISCONSIN MARKETING AREAS

Notice of Recommended Decision and Opportunity To File Written Exceptions on Proposed Amendments to Tentative Marketing Agreements and to Orders

Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 et seq.), and the applicable rules of practice and procedure governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), notice is hereby given of the filing with the Hearing Clerk of this recommended decision of the Assistant Secretary of Agriculture with respect to proposed amendments to the tentative marketing agreements and orders regulating the handling of milk in the Michigan Upper Peninsula and Northeastern Wisconsin marketing areas. Interested parties may file written exceptions to this decision with the Hearing Clerk, U.S. Department of Agriculture, Washington 25, D.C., not later than the close of business the 7th day after publication of this decision in the FEDERAL REGISTER. Five copies of the exceptions should be filed.

Preliminary statement. The hearing on the record of which the proposed amendments, as hereinafter set forth, to the tentative marketing agreements and to the orders, were formulated, was conducted at Marinette, Wis., on November 7-9, 1961, pursuant to notice thereof which was issued October 18, 1961 (26 F.R. 9947).

The material issues on the record of the hearing relate to:

1. Pricing of Class I milk;
2. Classification and pricing of milk used for manufacturing purposes;
3. Classification of fluid milk products fortified with nonfat milk solids;
4. Inclusion of the city of Carney, Mich., in Zone 1(a);
5. Allocation of receipts of packaged fluid milk products;
6. Elimination of base-excess plan;
7. Classification of cream transferred to a second nonpool plant;
8. Reclassification of inventory;
9. Definition of pool plant;
10. Weight factors for certain fluid milk products; and
11. Miscellaneous changes.

Issues 1, 2, and 3 relate to both the Michigan Upper Peninsula and Northeastern Wisconsin orders; issue 4 relates only to the Michigan Upper Peninsula order; and issues 5 through 11 relate only to the Northeastern Wisconsin order.

Several proposed amendments contained in the notice of hearing were not supported by proponents and no testimony on those proposals was offered by any other interested parties. Accordingly, they will not receive further consideration.

Findings and conclusions. The following findings and conclusions on the material issues are based on evidence presented at the hearing and the record thereof:

(a) *Class I pricing.* The Class I differentials of the Northeastern Wisconsin order should not be changed but the Class I price of that order should be adjusted each month by a supply-demand factor based on relationship of combined producer receipts and Class I sales at pool plants regulated by the Northeastern Wisconsin and Michigan Upper Peninsula orders. Michigan Upper Peninsula Class I prices should be fixed in the same relationship to Northeastern Wisconsin Class I prices in all months of the year. The Minnesota-Wisconsin milk price series should not be included in either basic formula at this time.

The Michigan Upper Peninsula and Northeastern Wisconsin orders provide Class I differentials which vary inversely with the seasonality of milk production. The annual average of Northeastern Wisconsin differentials at most pool plants is 74 cents, and is 84 cents at the remaining plants which are located in the northern part of the marketing area. The annual average of Michigan Upper Peninsula differentials applicable to plants in Zone 1(a) is 87 cents. The Class I differentials each month at plants in Zones 1 and 2 of the Upper Peninsula order are 10 and 30 cents higher, respectively, than the differential applicable at plants located in Zone 1(a). The difference between the Class I differentials at plants in the lower price area of Northeastern Wisconsin and that paid at plants in Zone 2 of the Upper Peninsula order is 41 cents in all months of the year except July when it is 61 cents. The basic formulas of the two orders are the same.

The primary market of plants regulated by the Northeastern Wisconsin order is the marketing area of that order. However, a significant volume of milk disposed of from such plants is distributed in the Upper Peninsula marketing area. In turn, plants regulated by other Federal orders, particularly those regulated by the Milwaukee order, distribute milk in the Northeastern Wisconsin marketing area.

Several proposed amendments relating to Class I price levels in the Michigan Upper Peninsula and Northeastern Wisconsin orders were considered at the hearing. In general, the testimony relating to these proposals may be summarized as follows:

Bargaining-type cooperative associations representing Northeastern Wisconsin producers proposed an increase in that order's Class I price level citing increased costs associated with milk production.

Operating type cooperative associations on the Northeastern market cautioned that any contemplated increase in Class I price must give consideration to the competition for sales in the Northeastern Wisconsin marketing area by plants regulated by other orders.

Proprietary plant handlers were also concerned with the effect any increase in the Class I price level would have on the competition for sales with plants regulated by other Federal orders.

A cooperative association representing the majority of producers on the Upper Peninsula market proposed that that order's Class I price be increased. It cited increased production costs and the relatively short production season in the Upper Peninsula. Individual producers not members of this association also proposed a Class I price increase.

Michigan Upper Peninsula handlers testified that the spread between the Northeastern Wisconsin prices and those in the Upper Peninsula was too high. However, while they desired a decrease in the spread, they testified that the Northeastern Wisconsin Class I price level should be increased rather than the Upper Peninsula level decreased.

The present Class I differentials have been effective since the promulgation of the two orders on December 1, 1958, except for the modification occasioned by the amendment providing for Zone 1(a) in the Upper Peninsula order on July 1, 1960. Each of the markets has been adequately supplied with milk since the inception of the orders. During the first 9 months of 1959, 1960, and 1961 producer receipts averaged 133, 135, and 142 percent, respectively, of Class I sales by Northeastern Wisconsin handlers; and in the Upper Peninsula market producer receipts averaged 157, 156 and 138 percent, respectively, of Class I sales.

The milkshed of the Northeastern Wisconsin market lies almost entirely within the largest milk production State in the Union. In this milkshed the farms of Northeastern Wisconsin producers are interspersed with the farms of producers who deliver to plants regulated by the Chicago order and farms engaged in the production of ungraded milk to be used only for manufacturing purposes. The immediate increase in the uniform price occasioned by a Class I price increase would encourage these dairy farmers to shift to Northeastern Wisconsin pool plants. The response to a price increase would be facilitated in this market because several Northeastern Wisconsin handlers maintain other plant facilities, some of which are pool plants under the terms of the Chicago order and some of which receive ungraded milk for manufacturing. Any Class I price increase in the Northeastern Wisconsin order would encourage additional supplies of milk for the market thereby reducing uniform prices.

The Agricultural Marketing Agreement Act of 1937 under which authority Federal milk orders are promulgated and administered requires that order prices be set at levels which reflect milk supply and demand conditions. In accordance with this standard, Class I prices in the nearby Federally regulated markets of Chicago and Milwaukee are subject to supply-demand adjustment factors which increase Class I prices when milk supply is relatively short and decrease such prices when it is relatively long. A supply-demand adjustment factor was not included originally in the Northeastern Wisconsin and Michigan Upper Peninsula Class I price provisions. This provision was omitted at that time to permit the accumulation of milk supply-demand data in the two markets on which to construct such a provision. Adequate data are now available and Class I prices in the orders should be subject to a supply-demand adjustment factor.

Alignment of Class I prices between the Northeastern Wisconsin and Michigan Upper Peninsula orders is necessary because significant volumes of Class I milk are disposed of in the Upper Peninsula market from plants regulated by the Northeastern Wisconsin order. For example, in September 1961, when the overall Class I utilization of Upper Peninsula handlers was 7.6 million pounds, Class I distribution in the Upper Peninsula marketing area from plants not subject to that order was about 1.5 million pounds. This distribution was principally from plants regulated by the Northeastern Wisconsin order. Should the Class I prices in the Upper Peninsula market exceed the prices in Northeastern Wisconsin plus the cost of moving milk to the Upper Peninsula, the Upper Peninsula handlers would be placed at a disadvantage in Class I sales with Northeastern Wisconsin handlers. Under this condition the Upper Peninsula producers could lose Class I sales and this would lower uniform prices.

In order to maintain necessary price alignment, the Class I prices of both orders should be adjusted by a common supply-demand adjustor. Such an adjustor should be based on the relationship of combined producer receipts to combined Class I sales in the two markets.

Since the two orders became effective there has been an increase of combined producer receipts in relation to combined Class I sales. During the first 9 months of 1961, total producer receipts were 141

percent of total Class I sales, and for the comparable periods in 1960 and 1959 they were 140 and 139 percent, respectively. A supply-demand adjustment factor would act to decrease the Class I price should production continue to increase over fluid needs. On the other hand, should production decrease or sales increase, the supply-demand adjustment would tend to increase the Class I price and insure adequate supplies.

The Class I prices each month would be adjusted depending on the relationship of current supply-demand conditions to a norm or "standard utilization range." The standard utilization range would vary seasonally in recognition of the seasonality of milk production and Class I sales. The annual average standard utilization range would be 134–139 percent. Producer receipts and Class I sales for the second and third preceding months would be combined in computing the "current utilization percentage." In order to avoid erratic price movements, a 4-cent limit should be placed on the amount by which the supply-demand price adjustment for a particular month can exceed or be less than the adjustment computed for the preceding month. Since no supply-demand provision is now provided in the order, the 4-cent limit on the monthly change in the supply-demand adjustment should be from that for the second preceding month for the first year of its applicability. This will provide an orderly transition in the market to the operation of the supply-demand provision.

The first adjustment under the revised order would be limited to 4 cents, plus or minus. No adjustment would be made whenever the current utilization percentage falls within the range for the month.

The table of standard utilization percentages should be as follows:

Pricing month	2 months used	Receipts as percentage of sales	
		Minimum	Maximum
January	October–November	123	128
February	November–December	128	133
March	December–January	130	135
April	January–February	133	138
May	February–March	135	140
June	March–April	140	145
July	April–May	145	150
August	May–June	150	155
September	June–July	145	150
October	July–August	130	135
November	August–September	123	128
December	September–October	123	128

The Class I price would be increased or decreased 2 cents for each percent the current utilization is below or above, respectively, the minimum and maximum of the standard utilization range. The increase or decrease in the Class I price would be limited to a maximum of 24 cents. This limit is provided for supply-demand adjustments under the Chicago and Milwaukee orders.

If the supply-demand adjustment had been effective during 1961, Class I prices would have been decreased an average of one-half of a cent per month. They would have been increased 2, 2, 4, and 4 cents, respectively in January and February; decreased 2, 2, 4, and 4 cents, respectively, in March, July, August, and December; and unchanged in April, May, June, September, October, and November.

A 20-cent higher Class I differential in the Upper Peninsula area for the month of July previously was provided to attract milk to the Peninsula market to cover increases in Class I sales in July in this vacation area. However, the demand for Class I milk in relation to producer receipts in the Upper Peninsula in July has not been so high as to warrant continuance of the high Class I differential.

The Class I differential applicable in the month of July in each zone of the Upper Peninsula order should be reduced 20 cents. With this change, the difference between Class I prices in the Upper Peninsula and the Northeastern Wisconsin order will be constant in each month of the year.

There should be no further decrease in the spread between Northeastern Wisconsin and Michigan Upper Peninsula Class I differentials. Upper Peninsula handlers testified that the difference between the Class I prices of the two orders in the other 11 months of the year is more than the cost of moving milk into the Upper Peninsula from Northeastern Wisconsin, thereby placing them at a competitive disadvantage in Class I sales. Data presented relating to actual costs of moving milk were conflicting and inadequate. However, the data relating to Class I sales by local handlers were reviewed. The overall Class I utilization at Upper Peninsula pool plants has increased at a faster rate than has distribution in the Upper Peninsula marketing area from other plants. In January through September 1961, the Class I utilization at Upper Peninsula pool plants was 68.5 million pounds compared to 67.0 million pounds in the same 9 months of 1960, a 2.3-percent increase. Class I distribution in the Upper Peninsula marketing area in January through September 1961 from plants not regulated by the order of 14.4 million pounds was unchanged from that for the same period a year earlier. This distribution was principally from plants regulated by the Northeastern Wisconsin order.

The Minnesota-Wisconsin manufacturing grade price series should not be included in the basic price formula of either order on basis of the record of this proceeding. Official notice is taken of the issuance of a notice of joint hearing on proposals to include the series in these and 34 other Federal orders (26 F.R. 314). Amendment of the basic formulas will be considered on the basis of the record of the regional hearing.

The Northeastern Wisconsin order should not provide a 12-month moving average basic formula. The use of such a basic formula was supported on the basis that, in conjunction with a level Class I differential, monthly fluctuations in the Class I price would be eliminated. It is not the aim of the basic formula to provide level pricing. Rather it is used as a measure of changes in the value of milk used for manufacturing purposes. Elimination of fluctuations in the basic formula would not reflect adequately the relationship between the value of milk for manufacturing and that disposed of for fluid consumption.

Seasonal variation in Class I differentials should be maintained. Testimony on a proposal to provide level differentials emphasized the adverse effect seasonal pricing might have on the demand for fluid milk. Seasonal Class I pricing has the desirable effect of encouraging more even seasonal production. Moreover, since plants regulated by many Federal orders which do not provide level differentials compete with plants regulated by the subject orders for Class I sales and in the procurment of milk, it would not be in the interest of orderly marketing of available supplies to provide level differentials at this time.

2. *Classification and pricing of milk used for manufacturing purposes.* The utilization of milk now designated as Class II and Class III under each of the orders should be included in one class (designated Class II) and priced at the average price per hundredweight for manufacturing grade milk, f.o.b. plants in Wisconsin and Minnesota as reported by the U.S. Department of Agriculture.

The Upper Peninsula and Northeastern Wisconsin orders each classify in Class III all skim milk and butterfat used to produce butter, nonfat dry milk and cheese (except cottage cheese); in addition milk disposed of for animal feed or dumped, and in allowable shrinkage. Class II includes skim milk and butterfat used to produce those manufactured milk products not in Class III and those contained in inventories of fluid milk products on hand at the end of the month.

The Class III price in each order is related to the market prices of butter and nonfat dry milk but the Class II price under the Northeastern Wisconsin order is fixed at a higher level than that of the Upper Peninsula order. The Class II price in each order is the same, namely, the higher of the average price paid at selected Midwest condenseries or a price based on the prices of butter and nonfat dry milk.

Cooperative associations representing the majority of producers on both markets proposed that skim milk and butterfat used to produce all manufactured milk products be placed in one class and that the price for skim milk and butterfat so classified be the average price paid for manufacturing grade milk received at plants in Minnesota and Wisconsin. Three operating cooperative associations and proprietary operators of plants pooled under the Northeastern Wisconsin order opposed the use of such Minnesota-Wisconsin price for this purpose.

Fluid milk markets must have a supply of milk which includes some reserve over fluid sales to accommodate daily and seasonal variations in the demand for fluid milk. The price for such reserve milk should be established at levels low enough to allow for its orderly disposition for manufacturing but should not be so low as to encourage excessive supplies of milk to be used only for manufacturing. The Class III price levels and, at times, the Class II price levels of the Northeastern Wisconsin and

Upper Peninsula orders have been lower than prices paid for ungraded milk in the supply areas. Under these circumstances, supplies of Grade A milk in excess of Class I sales and a reasonable reserve are encouraged because milk sales to dairy product manufacturers may be reduced by using surplus Grade A rather than manufacturing grade milk.

Operators of several plants regulated by each of the orders purchase manufacturing grade milk as well as Grade A milk; and several handlers operating plants regulated by the Northeastern order also operate plants regulated pursuant to the Chicago order. The average price paid by one handler whose plant is regulated by the Northeastern Wisconsin order for ungraded milk containing 3.5 percent butterfat received during January through September 1961 was $3.25. One cooperative association proposing the use of the Minnesota-Wisconsin price represents 9,000 dairy farmers who deliver ungraded milk to manufacturing plants located in Wisconsin. Prices paid for this milk at one hundred of these manufacturing plants, some of which are operated by cooperative associations, averaged $3.23 for the January–September period of 1961. Such average prices do not include premiums paid or hauling subsidies. The average Minnesota-Wisconsin price for this period, adjusted to a 3.5 percent butterfat differential by the Chicago butterfat differential, was $3.24. Northeastern Wisconsin Class II and Class III prices during this period averaged $3.21 and $3.19, respectively, and in the Upper Peninsula order they averaged $3.21 and $3.20.

The price of reserve or excess supplies of milk received at Northeastern Wisconsin and Upper Peninsula plants should be based on the competitive value of ungraded milk used in various manufactured products rather than on prices paid at a very limited number of condensing plants or on a formula which reflects fixed yield factors and processing costs associated with only two manufactured milk products, namely, butter and nonfat dry milk. The utilization of the excess milk received at order pool plants is not limited to the manufacture of condensed milk, butter or nonfat dry milk. Excess milk also is used to produce ice cream, cottage cheese and many other types of cheeses. The Minnesota-Wisconsin price measures the competitive value of ungraded milk used in a wide variety of milk products and, therefore, better reflects the full value of milk used for manufacturing purposes than do the present formulas.

In a highly competitive milk procurement area, individual manufacturing plants tend to pay prices for milk which approximate pay prices of the most efficient plants in the area. As shifts occur in the relationship between returns of the various manufactured dairy products, processors engaged in manufacturing the most remunerative products will be able to pay the highest prices for milk. Processors of other less remunerative products must meet these prices or lose their supplies of milk.

The milkshed of the Northeastern Wisconsin order is a highly competitive milk procurement area. It lies almost entirely within the State of Wisconsin in which the largest quantities of manufacturing grade milk in the United States are produced. Large quantities of manufacturing grade milk are produced in Minnesota also. The Minnesota-Wisconsin price is computed from pay prices for manufacturing grade milk purchased in competition in these two States. It would measure appropriately the value of Northeastern Wisconsin surplus Grade A milk which must compete with manufacturing grade milk for a market.

The milkshed of the Michigan Upper Peninsula order is not within such a highly competitive ungraded milk procurement area. There are, however, large numbers of producers of ungraded milk on the Upper Peninsula. The products made from this ungraded milk compete for markets with those manufactured in Wisconsin and, therefore, the value of Upper Peninsula ungraded and surplus Grade A milk is not dissimilar from that of Wisconsin milk.

The separate classification and pricing of milk used in various manufactured products under the two orders has tended to favor the processors of some products in recent years. This is the unavoidable result of classifying and pricing milk for manufacturing purposes into separate classes according to products.

Further, the greater the disparity between individual class prices and the competitive level of manufacturing grade milk for the same uses, the more incentive there is to shift surplus Grade A milk into the lowest priced class because of the wider operating margin allowed. As a result, producers' incomes are adversely affected.

Information on prices paid at manufacturing plants in Wisconsin and Minnesota is assembled by the Statistical Reporting Service, United States Department of Agriculture. Plant operators report total pounds of manufacturing grade milk received from farmers, total butterfat content and total dollars paid for such milk, f.o.b. plant. These prices are available on a monthly basis and are announced on or before the 5th day of the following month.

The average of prices paid farmers in the various States for manufacturing grade milk as reported by the Statistical Reporting Service is at the average butterfat test of such milk. Since Orders 44 and 45 (formerly Orders 111 and 116) announce prices on a 3.5 percent butterfat basis, it is necessary that the announced Minnesota-Wisconsin price be adjusted to this basis. Official notice is taken of the amendment to the Chicago order which became effective September 1, 1961 (26 F.R. 7957). This amendment provides for using the Minnesota-Wisconsin price as the Class III price and adjusting it to a 3.5 percent butterfat basis by a differential equal to the average quotation for the month of Grade A (92-score) butter at Chicago times 0.12. This method is appropriate for the Northeastern Wisconsin and Michigan Upper Peninsula orders and should likewise be used for adjusting the announced Minnesota-Wisconsin price to a 3.5 percent butterfat basis.

The butterfat differential currently applicable for adjusting Class II and Class III milk prices is the 92-score bulk creamery butter price at Chicago times 0.115. This differential would be maintained as the handler butterfat differential for the newly designated Class II utilization.

3. *Classification of fluid milk products fortified with nonfat dry milk solids.* Fluid milk products fortified with nonfat milk solids should be classified as Class I milk in an amount equal only to the weight of an equal volume of a like unmodified product of the same butterfat content. The skim milk equivalent of the added solids in excess of such weight should be classified as Class II.

The Upper Peninsula and Northeastern Wisconsin orders provide that the skim milk equivalent of nonfat milk solids used in fortifying fluid milk products be classified as Class I. Handlers, including cooperative associations operating plants regulated by the Northeastern Wisconsin order, proposed that the equivalent of these solids be classified as Class II. Bargaining cooperative associations on both markets opposed the proposed change in classification on the basis, generally, that it would reduce the income of producers and that nonfat solids would replace producer milk for fluid use if the skim milk equivalent were not accounted for as Class I.

Fortified fluid milk products usually result from the addition of nonfat milk solids to fluid milk or skim milk, thus producing a fininshed product of higher nonfat solids content. Reconstituted products, on the other hand, result from adding such solids to water thus yielding a weight of products approximating the weight of milk from which the solids were obtained.

Nonfat dry milk and condensed skim milk, the principal products used for fortifying, may be obtained from unpriced milk or from milk which has been priced as surplus under the terms of other Federal orders. These products are not necessarily obtained from producer milk.

An economic incentive exists for handlers to substitute reconstituted fluid milk products for fluid milk products processed from producer milk. Since such substitution would displace an equivalent amount of producer milk in Class I, the application of Class I skim equivalent pricing in this circumstance is economically sound and is necessary to maintain orderly milk marketing.

The same economic incentive does not exist, however, with respect to the use of nonfat dry milk or condensed skim milk to fortify a fluid milk product. The incentive for handlers to use solids to fortify fluid milk products is to meet consumer demand for fluid milk products with high solids content. Such fortified fluid milk products represent a small but growing part of the total Class I market. For example, during the first 9 months of 1961, the skim milk equivalent of solids used by Northeastern Wisconsin handlers to fortify fluid milk products averaged 381,000 pounds

monthly and during the like period of 1960 the skim milk equivalent of solids so used averaged 353,677 pounds monthly. The increased emphasis on low fat diets and the high nutritional value of nonfat solids in relation to their weight may be the reason for the increased demand for fluid milk products with high solids content.

When the skim milk equivalent of fortified products is classified as Class I it inflates significantly Class I disposition. Producer milk is then allocated to the inflated Class I utilization even though producer milk need not be used as a source for the solids. Further, it was not demonstrated that fortified fluid milk products displace rather than increase Class I use of producer milk.

4. *Inclusion of Carney, Michigan in Zone 1(a).* Carney, Michigan, should not be included in Zone 1(a). A handler operating an Upper Peninsula supply plant at Carney proposed that Carney be included in Zone 1(a) rather than Zone 1. The Class I differential applicable at plants located in Zone 1(a) is 10 cents lower than that applicable at plants in Zone 1.

The proponent handler's plant is primarily engaged in making Italian type cheese. Grade A milk is received at the plant from 41 dairy farmers, from Upper Peninsula bottling plants and from plants regulated by other Federal orders. Its receipts of ungraded milk are approximately 3½ times as much as its receipts of Grade A milk from producers.

When receipts from the 41 Grade A dairy farmers are not moved to Upper Peninsula bottling plants for fluid use, they are used in the manufacture of cheese. A relatively low percentage of total receipts from the 41 farmers is moved to bottling plants. Since the Upper Peninsula order provides for handler rather than marketwide pooling the uniform price payable at the Carney plant is lower than that paid at other pool plants. In order to maintain the supply of milk from the 41 Grade A farmers the handler must pay premiums above the required uniform price. He testified that if his Class I price were 10 cents lower, he would be in a position to market additional volumes of Grade A milk to Upper Peninsula bottling plants, thereby increasing his uniform price and decreasing the amount of premiums.

The Class I differentials applicable at plants located in the respective zones of the Upper Peninsula marketing area are provided as incentive for an adequate supply of milk to meet fluid demand in respective parts of the marketing area. This purpose is being accomplished. As concluded under issue No. 1 relating to the Class I price level, the zone pricing in the Upper Peninsula order should not be changed other than to reduce the Class I differentials by 20 cents in the month of July.

5. *Allocation of receipts of packaged fluid milk products.* No change should be made in the allocation procedure of the Northeastern Wisconsin order.

It was proposed that receipts of packaged fluid milk products from nonpool plants which are disposed of in the same package as received be allocated to Class I before receipts from producers. Packaged fluid milk products from nonpool plants are not received at proponent's pool plant nor did proponent know of any pool plant which was receiving packaged fluid products from nonpool sources.

Pursuant to the proposed amendment, fluid milk products not priced by any Federal order would be allocated to Class I utilization and would not be subject to compensatory payments. Under this circumstance, the intent of the order would be nullified in that the order would no longer assure that all handlers were paying at least the minimum Class I price for all disposition of fluid milk products. The proposed amendment is, therefore, denied.

6. *Deletion of the base-excess plan.* The order should continue to provide a base-excess plan.

The Northeastern Wisconsin order was amended effective July 1, 1961, to provide a base-excess plan. One bargaining cooperative association, Manitowoc Milk Producers, proposed that the base-excess plan be deleted. A second bargaining cooperative association, Pure Milk Products, which also submitted a proposal to delete the base-excess plan, testified that its members had not expressed dissatisfaction with the base-excess plan. Therefore, it did not support its proposal. Three operating cooperative associations supported the continuation of the base-excess plan.

The base-excess plan has not been effective for a full base-making and base-paying period. There is no basis in this record for reaching a different conclusion regarding its effectiveness as a stimulant to even seasonal production than was stated in the previous decision on this matter. In view of this, it should not be deleted at this time.

7. *Classification of cream transferred to a second nonpool plant.* The transfer provisions should be amended to permit the Class II classification, under certain conditions, of cream transferred from a pool plant to a nonpool plant and subsequently transferred to a second nonpool plant.

A handler who operates a pool plant and a nonpool plant moves surplus Grade A milk from his pool plant to his nonpool plant for manufacturing. The nonpool plant also receives ungraded milk which is commingled with the surplus Grade A milk. On occasion, cream is moved to a second nonpool plant where it is used for manufacturing purposes. According to the laws of the State of Wisconsin, cream so moved from a plant at which Grade A and ungraded milk are commingled cannot be used for fluid purposes. The handler proposed that the order be amended to permit the Class II classification of transfers of such cream to second nonpool plants even though the second nonpool plant has fluid operations and does not receive sufficient Grade A milk from dairy farmers to meet fluid needs. A cooperative association operating a pool plant supported the amendment and other cooperative associations had no objection to it.

The transfer provisions of the order are intended to classify as Class I that milk which is moved to nonpool plants and which is used for Class I purposes at the receiving nonpool plant. To this end, Class I utilization at the nonpool plant which exceeds receipts of Grade A milk from dairy farmers who constitute its regular source of Grade A milk is prorated to receipts of Grade A milk from plants regulated by this and other Federal orders. In view of the Wisconsin State laws, cream transferred from a nonpool plant to another nonpool plant should be assigned to any available Class II utilization at the second nonpool plant after assignment of cream from plants not regulated by any Federal order.

8. *Reclassification of inventory.* No change should be made in the method of reclassifying inventory.

The current order classifies ending inventory as Class II. In the following month butterfat and skim milk in such inventory is assigned to available Class II utilization of the handler prior to assignment of producer milk. Any butterfat and skim milk in inventory which is in excess of Class II milk available for assignment is classified as Class I.

It was proposed that the order provide an "inventory variation" method of classification. This would have the effect of allocating inventory to Class II utilization and allocating other source receipts during the month to Class I, thus giving Class I priority to other source receipts during the month over inventory of fluid milk products even though beginning inventory was composed entirely of producer milk. The present system of handling inventory gives priority to Class I of producer milk in inventory before receipts of other source milk. The current method is consistent with the intent to give producer milk prior allocation to Class I and should be retained.

9. *Definition of pool plant.* No change should be made in the definition of a pool plant.

It was proposed that a new paragraph be added to the pool plant definition which would credit plant operators with minimum pool plant qualification compliance should a labor dispute limit the movement of milk from the plant. Cooperative associations representing the majority of producers on the market opposed the proposed amendment.

The proposal raises questions the answers to which would be extremely difficult to incorporate in order provisions. For example, how should a labor dispute be defined, what constitutes a limitation of movement, and should a work stoppage be a consideration. If, after a review of the facts, the Secretary concluded that pool performance could not be met because of an unusual and unavoidable circumstance, he could suspend or terminate applicable provisions of the order to eliminate undue hardship to producers or handlers due to circumstances beyond their control.

10. *Weight factors for certain fluid milk product.* The order should not provide specific factors to be used in computing product pounds in specified fluid milk products. It was proposed that such a conversion factor for chocolate milk drinks be specified in the order.

The decision relative to the conversion factor used for respective dairy products should remain with the market administrator since he is in the best position to verify and determine skim milk and butterfat content of fluid milk products.

11. *Miscellaneous changes.* The Northeastern Wisconsin order provides for the filing of monthly reports by the 5th day of the month exclusive of Sundays and holidays. It was proposed that a definition of "holiday" be provided. Proponent testified, however, that he had had no difficulties because of the lack of such definition in the Northeastern Wisconsin order and that any anticipated problems could be handled administratively under the present provisions. Accordingly, the proposed amendment is denied.

Rulings on proposed findings and conclusions. Briefs and proposed findings and conclusions were filed on behalf of certain interested parties. These briefs, proposed findings and conclusions and the evidence in the record were considered in making the findings and conclusions set forth above. To the extent that the suggested findings and conclusions filed by interested parties are inconsistent with the findings and conclusions set forth herein, the requests to make such findings or reach such conclusions are denied for the reasons previously stated in this decision.

General findings. The findings and determinations hereinafter set forth are supplementary and in addition to the findings and determinations previously made in connection with the issuance of the aforesaid orders and of the previously issued amendments thereto; and all of said previous findings and determinations are hereby ratified and affirmed, except insofar as such findings and determinations may be in conflict with the findings and determinations set forth herein.

(a) The tentative marketing agreements and the orders, as hereby proposed to be amended, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the Act;

(b) The parity prices of milk as determined pursuant to section 2 of the Act are not reasonable in view of the price of feeds, available supplies of feeds, and other economic conditions which affect market supply and demand for milk in the marketing areas, and the minimum prices specified in the proposed marketing agreements and the orders, as hereby proposed to be amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest; and

(c) The tentative marketing agreements and the orders, as hereby proposed to be amended, will regulate the handling of milk in the same manner as, and will be applicable only to persons in the respective classes of industrial and commercial activity specified in, a marketing agreement upon which a hearing has been held.

Recommended marketing agreements and orders amending the orders. The following orders amending the orders regulating the handling of milk in the Michigan Upper Peninsula and Northeastern Wisconsin marketing areas are recommended as the detailed and appropriate means by which the foregoing conclusions may be carried out. The recommended marketing agreements are not included in this decision because the regulatory provisions thereof would be the same as those contained in the orders, as hereby proposed to be amended:

Michigan Upper Peninsula order, Part 1044:

§ 1044.22 [Amendment]

1. Delete § 1044.22(i)(1) and substitute the following:

(1) On or before the 5th day of each month the minimum price for Class I milk pursuant to § 1044.50 and Class I butterfat differential pursuant to § 1044.52(a), both for the current month; the minimum price for Class II milk pursuant to § 1044.51 and the Class II butterfat differential pursuant to § 1044.52(b), both for the preceding month; and

2. Delete § 1044.41 and substitute the following:

§ 1044.41 Classes of utilization.

Subject to the conditions set forth in §§ 1044.42 and 1044.43, the classes of utilization shall be:

(a) Class I utilization shall be all skim milk and butterfat:

(1) Disposed of in the form of fluid milk products, except:

(i) Fluid milk products classified as Class II pursuant to (b)(3) of this section; and

(ii) Fluid milk products which are fortified with nonfat milk solids shall be Class I in an amount equal only to the weight of an equal volume of a like unfortified product of the same butterfat content; and

(2) Not accounted for as Class II utilization.

(b) Class II utilization shall be all skim milk and butterfat:

(1) Used to produce any product other than a fluid milk product;

(2) In inventories of fluid milk products on hand at the end of the month;

(3) In skim milk disposed of for livestock feed or dumped subject to prior notification to and verification (at his discretion) by the market administrator;

(4) In skim milk equal to the weight of skim milk in fortified fluid milk products which is not classified as Class I pursuant to paragraph (a)(1)(ii) of this section;

(5) In shrinkage of skim milk and butterfat allocated to milk received from producers, but not to exceed 2 percent of such receipts; and

(6) In shrinkage of other source milk.

§ 1044.45 [Amendment]

3. In § 1044.45 delete "in Class I, Class II, and Class III" and substitute "in Class I and Class II."

4. Delete § 1044.46 and substitute the following:

§ 1044.46 Allocation of butterfat classified.

The pounds of butterfat remaining after making the following computations shall be the pounds in each class allocated to milk received from producers:

(a) Subtract from the total pounds of butterfat in Class II utilization, the pounds of butterfat shrinkage classified pursuant to § 1044.41(b)(5);

(b) Subtract from the pounds of butterfat remaining in each class, in series beginning with Class II utilization, the pounds of butterfat in other source milk received from a plant(s) other than those subject to another marketing agreement or order issued pursuant to the Act;

(c) Subtract from the pounds of butterfat remaining in each class the pounds of butterfat in other source milk received during the month in the form of fluid milk products from a plant subject to another marketing agreement or order issued pursuant to the Act as follows:

(1) From Class I, the pounds of such butterfat received in a consumer-packaged form not so packaged in the plant during the month, and disposed of without further processing or packaging; and

(2) In series beginning with Class II utilization, the remaining pounds of such butterfat;

(d) Subtract from the pounds of butterfat remaining in each class, in series beginning with Class II utilization, the pounds of butterfat contained in inventory of fluid milk products on hand at the beginning of the month;

(e) Subtract from the remaining pounds of butterfat in each class the pounds of butterfat received from fluid milk plants of other handlers according to the classification established pursuant to §§ 1044.41 and 1044.43(a);

(f) Add to the remaining pounds of butterfat in Class II utilization the pounds subtracted pursuant to paragraph (a) of this section; and

(g) If the remaining pounds of butterfat in Class I and Class II exceed the pounds of butterfat in milk received from producers, subtract such overage from the remaining pounds of butterfat in each class in series, beginning with Class II utilization.

5. Delete §§ 1044.50, 1044.51, 1044.52, and 1044.53 and insert §§ 1044.50, 1044.51, and 1044.52 to read as follows:

§ 1044.50 Class I milk price.

Subject to the provisions of § 1044.52, the price per hundredweight for Class I milk shall be the price pursuant to § 1045.51(a) of this chapter (Northeastern Wisconsin) plus 11 cents for plants located in Zone 1(a), 21 cents for plants located in Zone 1, and 41 cents for plants located in Zone 2. For plants located outside the marketing area and west of Lake Michigan the price (subject to § 1044.53) shall be that specified for Zone 1. For plants located outside the marketing area and east of Lake Michigan the price (subject to § 1044.53) shall be that specified for Zone 2.

§ 1044.51 Class II milk price.

The price per hundredweight for Class II milk shall be the average price per hundredweight for manufacturing grade milk, f.o.b. plants in Wisconsin and Minnesota, as reported by the USDA for the month, adjusted to a 3.5 percent butterfat basis by a butterfat differential, rounded to the nearest one-tenth cent, obtained by multiplying 0.12 by the simple average, as computed by the market administrator, of the daily wholesale selling prices (using the midpoint of any price range as one price) of Grade A (92-score) bulk creamery butter per pound at Chicago, as reported by the USDA for the month.

§ 1044.52 Handler butterfat differential.

If the average butterfat test of Class I milk or Class II milk as computed pursuant to § 1044.48 is more or less than 3.5 percent, there shall be added to, or subtracted from, as the case may be, the price for each class of utilization, for each one-tenth of one percent that such average butterfat test is above or below 3.5 percent, a butterfat differential computed by multiplying the butter price pursuant to the proviso of § 1044.51 for the month specified below by the applicable factor listed, and rounding to the nearest one-tenth cent:

(a) For Class I milk, multiply such price for the preceding month by 0.125;

(b) For Class II milk, multiply each price for the current month by 0.115.

6. Renumber §§ 1044.55 and 1044.56 as §§ 1044.53 and 1044.54.

§ 1044.60 [Amendment]

7. In § 1044.60(a) delete "§§ 1044.54 and 1044.55" and substitute therefor §§ 1044.52 and 1044.53".

§ 1044.61 [Amendment]

8. In § 1044.61 (c) and (d) delete "§§ 1044.51 and 1044.55" and substitute therefor "§§ 1044.50 and 1044.53".

§ 1044.62 [Amendment]

9. In § 1044.62 delete "§ 1044.54" and substitute therefor "§ 1044.52".

Northeastern Wisconsin order, Part 1045:

§ 1045.22 [Amendment]

1. Delete § 1045.22(i)(1) and substitute the following:

(1) On or before the 5th day of each month the minimum price for Class I milk pursuant to § 1045.51 and the Class I butterfat differential pursuant to § 1045.53(a), both for the current month; the minimum price for Class II milk pursuant to § 1045.52 and the Class II butterfat differential pursuant to § 1045.53(b), both for the preceding month;

2. Delete § 1045.41 and substitute the following:

§ 1045.41 Classes of utilization.

Subject to the conditions set forth in §§ 1045.42 and 1045.43, the classes of utilization shall be:

(a) Class I utilization shall be all skim milk and butterfat:

(1) Disposed of in the form of fluid milk products except:

(i) Fluid milk products classified as Class II pursuant to paragraph (b)(3) of this section; and

(ii) Fluid milk products which are fortified with nonfat milk solids shall be Class I in an amount equal only to the weight of an equal volume of a like unfortified product of the same nature and butterfat content; and

(2) Not accounted for as Class II utilization.

(b) Class II utilization shall be all skim milk and butterfat:

(1) Used to produce any product other than a fluid milk product;

(2) In inventories of fluid milk products on hand at the end of the month;

(3) In skim milk disposed of for livestock feed or dumped subject to prior notification to and verification (at his discretion) by the market administrator;

(4) Represented by the weight of skim milk in fortified fluid milk products which is not classified as Class I pursuant to paragraph (a)(1)(ii) of this section;

(5) In shrinkage of skim milk and butterfat allocated to milk received from producers, but not to exceed 2 percent of such receipts; and

(6) In shrinkage of other source milk.

3. Delete § 1045.43 and substitute the following:

§ 1045.43 Transfers.

Skim milk and butterfat transferred or diverted as milk, skim milk or cream in bulk form from a pool plant to:

(a) The pool plant of another handler shall be classified as Class I unless the operators of both plants in their reports submitted pursuant to § 1045.30 claim Class II utilization, subject in either event to the following conditions;

(1) The receiving plant has utilization in Class II of an equivalent amount of skim milk and butterfat, respectively; and

(2) The greatest possible total quantity of skim milk and butterfat in producer milk in the two plants is allocated to Class I;

(b) A plant operated by a producer-handler or a handler exempt pursuant to § 1045.81, shall be Class I utilization;

(c) A nonpool plant (except as specified in paragraph (b) of this section) shall be Class I utilization, unless the following conditions and the conditions of paragraph (d) of this section are met:

(1) Utilization in Class II is claimed by the transferor-handler in his report submitted pursuant to § 1045.30 for the month;

(2) The operator of the nonpool plant has utilization of an equivalent amount of skim milk and butterfat in Class II after the prior deduction from Class II utilization of receipts thereat during the month of skim milk or butterfat, respectively, from plants not regulated under the provisions of any Federal marketing agreement or order; and

(3) The operator of the nonpool plant maintains books and records which are adequate for the verification of such utilization and are made available if requested by the market administrator.

(d) The classification of any skim milk or butterfat for which a claim of Class II use is made under paragraph (c)(1) of this section shall be subject to the following further conditions:

(1) If any skim milk or butterfat was disposed of from the nonpool plant in the form of bulk milk, skim milk, or cream to other nonpool plants, the market administrator shall determine the classification of such skim milk or butterfat at the nonpool plant where actually used or processed;

(2) If class I utilization at any nonpool plant at which classification of the pooled milk is made exceeds the receipts during the month from dairy farmers who constitute its regular source of Grade A milk, the transferred quantity shall be Class I to the extent to such excess: *Provided*, That when, during the month, transfers to such nonpool plant have been made from regulated plants under more than one Federal marketing agreement or order, the amount of skim milk or butterfat so classified as Class I milk shall be a pro rata quantity based on the proportion of receipts at the nonpool plant from each of such regulated plants, *And provided further*, That if the transferor nonpool plant also has receipts of ungraded milk which are commingled with the receipts from the pool plant, transfers of cream from such nonpool plant to another nonpool plant which is located in Wisconsin shall be allocated first to Class II utilization available after making the deductions pursuant to paragraph (c)(2) of this section at the transferee nonpool plant.

§ 1045.45 [Amendment]

4. In § 1045.45 delete "Class I, Class II and Class III" and substitute "Class I and Class II".

5. Delete § 1045.46 and substitute the following:

§ 1045.46 Allocation of butterfat classified.

The pounds of butterfat remaining after making the following computations shall be the pounds in each class allocated to milk received from producers:

(a) Subtract from the total pounds of butterfat in Class II utilization the pounds of butterfat shrinkage classified pursuant to § 1045.41(b)(5);

(b) Subtract from the pounds of butterfat remaining in each class, in series beginning with Class II utilization, the pounds of butterfat in other source milk received from plants other than those subject to another marketing agreement or order issued pursuant to the Act;

(c) Subtract from the pounds of butterfat remaining in each class, in series beginning with Class II utilization, the pounds of butterfat in other source milk received from a plant subject to another marketing agreement or order issued pursuant to the Act;

(d) Subtract from the pounds of butterfat remaining in each class, in series beginning with Class II, the pounds of butterfat contained in inventory of fluid milk products on hand at the beginning of the month;

(e) Subtract from the remaining pounds of butterfat in each class the pounds of butterfat received as fluid milk products from pool plants of other handlers according to the classification established pursuant to §§ 1045.41 and 1045.43(a);

(f) Add to the remaining pounds of butterfat in Class II utilization the pounds subtracted pursuant to paragraph (a) of this section; and

(g) If the remaining pounds of butterfat in Class I and Class II exceed the pounds of butterfat in milk received from producers, subtract such overage from the remaining pounds of butterfat in each class in series, beginning with Class II.

6. Delete §§ 1045.51, 1045.52, 1045.53 and 1045.54 and substitute the following:

§ 1045.51 Class I milk price.

Subject to the provisions of § 1045.53, the price per hundredweight for Class I milk shall be as follows:

(a) The basic formula price for the preceding month plus $0.54 during the months of March, April, May, and June, $0.94 during January, February, July, and December, and $0.94 during all other months plus or minus a supply-demand adjustment of not more than 24 cents. The supply-demand adjustment shall be computed as follows:

(1) Calculate a "current utilization percentage" for each month by dividing the total pounds of Class I milk (excluding interhandler transfers) disposed of from pool plants under the terms of this order and the order regulating the handling of milk in the Michigan Upper Peninsula marketing area (Part 1044 of this chapter) for the second and third preceding months into the total hundredweight of producer milk received at such plants during the same months, multiply by 100 and round to the nearest whole number;

(2) Calculate a "net deviation percentage" as follows:

(i) If the current utilization percentage is neither less than the minimum standard utilization percentage specified below nor in excess of the maximum standard utilization percentage specified below, the net deviation percentage is zero;

(ii) Any amount by which the current utilization percentage is less than the minimum standard utilization percentage specified below is a "minus net deviation percentage"; and

(iii) Any amount by which the current utilization percentage exceeds the maximum standard utilization percentage specified below is a "plus net deviation percentage".

Month for which price applies	Month for which utilization is computed	Standard utilization range	
		Minimum	Maximum
January	October–November	123	128
February	November–December	128	133
March	December–January	130	135
April	January–February	133	138
May	February–March	135	140
June	March–April	140	145
July	April–May	145	150
August	May–June	150	155
September	June–July	145	150
October	July–August	130	135
November	August–September	123	128
December	September–October	123	128

(3) For a minus net deviation percentage the Class I price shall be increased and for a plus net deviation percentage the Class I price shall be decreased by two cents for each percentage point of net deviation: *Provided*, That for each of the first 12 months from the effective date hereof, the supply-demand adjustment shall differ by not more than 4 cents from that calculated for the second preceding month and thereafter by not more than 4 cents from that calculated for the first preceding month.

(b) For plants located in the Wisconsin counties of Florence, Forest, Marinette, Oneida and Vilas or in the State of Michigan, the price computed in paragraph (a) of this section shall be increased 10 cents.

§ 1045.52 Class II milk price.

The price per hundredweight for Class II milk shall be the average price per hundredweight for manufacturing grade milk f.o.b. plants in Wisconsin and Minnesota, as reported by the USDA for the month, adjusted to a 3.5 percent butterfat basis by a butterfat differential, rounded to the nearest one-tenth cent, obtained by multiplying 0.12 by the simple average, as computed by the market administrator, of the daily wholesale selling prices (using the midpoint of any price range as one price) of Grade A (92-score) bulk creamery at Chicago, as reported by the USDA for the month.

§ 1045.53 Handler butterfat differential.

If the average butterfat test of Class I milk or Class II milk as computed pursuant to § 1045.48 is more or less than 3.5 percent, there shall be added to or subtracted from, as the case may be, the price for such class of utilization, for each one-tenth of one percent that such average butterfat test is above or below 3.5 percent, a butterfat differential computed by multiplying the butter price specified in § 1045.52 by the applicable factor listed and rounded to the nearest one-tenth cent:

(a) For Class I milk multiply such price for the preceding month by 0.125;

(b) For Class II milk multiply such price for the current month by 0.115.

7. Renumber § 1045.55 as § 1045.54.

§ 1045.60 [Amendment]

8. In § 1045.60(d) delete "Class III" and substitute "Class II".

§ 1045.63 [Amendment]

9. In § 1045.63(b) delete "Class III" and substitute "Class II".

§ 1045.64 [Amendment]

10. In § 1045.64 delete "Class I, Class II and Class III" and substitute "Class I and Class II".

§ 1045.83 [Amendment]

11. In § 1045.83(a)(1), delete "Class III" and substitute "Class II".

Signed at Washington, D.C., on February 7, 1962.

JAMES T. RALPH,
Assistant Secretary.

[F.R. Doc. 62-1407; Filed, Feb. 9, 1962; 8:50 a.m.]

[7 CFR Part 1108]

[Docket No. AO-243-A6]

MILK IN CENTRAL ARKANSAS MARKETING AREA

Notice of Recommended Decision and Opportunity To File Written Exceptions on Proposed Amendments to Tentative Marketing Agreement and Order

Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 et seq.), and the applicable rules of practice and procedure governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), notice is hereby given of the filing with the Hearing Clerk of this recommended decision of the Assistant Secretary, United States Department of Agriculture, with respect to proposed amendments to the tentative marketing agreement, and order regulating the handling of milk in the Central Arkansas marketing area. Interested parties may file written exceptions to this decision with the Hearing Clerk, United States Department of Agriculture, Washington 25, D.C., not later than the close of business the 5th day after publication in the FEDERAL REGISTER. The exceptions should be filed in quadruplicate.

Preliminary statement. The hearing on the record of which the proposed amendments, as hereinafter set forth, to the tentative marketing agreement and to the order, were formulated, was conducted at Little Rock, Arkansas, on November 15, 1961, and December 5 and 6, 1961, pursuant to notice thereof which was issued October 25, 1961 (26 F.R. 10135), and a supplemental notice which was issued October 31, 1961 (26 F.R. 10485).

The material issues on the record of the hearing relate to:

1. Marketing area;
2. Class I price;
3. Location price differentials;
4. Class II price;
5. Equivalent price determination;
6. Pool plant definition;
7. Cooperative association as a handler;
8. Allowable shrinkage in Class II;
9. Reporting dates; and
10. Classification of fluid milk products fortified with nonfat milk solids.

Findings and conclusions. The following findings and conclusions on the material issues are based on evidence presented at the hearing and the record thereof:

1. *Marketing area.* The marketing area should be expanded to include Phillips, Lee, St. Francis, Cross, Woodruff, and Prairie Counties, Arkansas, and the city of Gurdon and the town of Okolona in Clark County, Arkansas. In each of these counties and in the two communities in Clark County, handlers presently regulated by the Central Arkansas milk order dispose of more than half the fluid milk products sold in the respective county or community.

The Central Arkansas Milk Producers Association proposed the extension of

the marketing area to add 13 counties east and northeast of the marketing area as presently defined. This additional area was requested to encompass a territory within which sales made from a plant located at Paragould, Arkansas are about half of that plant's total sales. No sales were made in the present marketing area from the Paragould plant at the time of the hearing. That plant was reported to be the successful bidder for a contract to supply a military installation in the area beginning January 1, 1962.

Fluid milk products from the Paragould plant are distributed in an area of northeast Arkansas and southern Missouri where handlers regulated under the St. Louis, Paducah, Memphis, and Central Arkansas markets sell milk. The plant is nearer to Memphis, Tennessee (about 90 miles), and to Little Rock, Arkansas (about 143 miles), than to the principal cities in the other areas. In the territory served by the Paragould plant that plant has about 40 percent of all sales; Paducah and Memphis handlers (other than the Paragould plant) each have about one-fourth of the sales and St. Louis and Central Arkansas handlers each have about 11–12 percent of all sales.

In the 13-county area proposed for inclusion in the Central Arkansas marketing area, the Paragould plant has 43 percent of all sales; Central Arkansas handlers, 11 percent; Memphis handlers, 21 percent; Paducah handlers, 9 percent; and St. Louis handlers, 3 percent.

The proposed 13-county area is composed of six southern counties in each of which handlers regulated under the Central Arkansas order make more than half the total fluid milk products sales and seven northern counties where Central Arkansas handlers do not have a majority of the sales. Therefore, only the six counties which are primarily served by Central Arkansas handlers should be included in the Central Arkansas marketing area.

Sales from the Paragould plant in the six-county area represented just under 5 percent of the total fluid sales made from the plant at the time of the hearing. The military contract sales reported to be awarded to this plant amount to about 500 gallons per day and approximately 5 percent of the total fluid sales from the plant. Thus, with any further increase in sales in the present Central Arkansas marketing area plus the six counties proposed herein to be included, the Paragould plant would be regulated under the Central Arkansas order. The sales in the Memphis area represent less than 3 percent of the disposition from the Paragould plant. However, regulation under the Central Arkansas order would occur in the month following that in which the sales in the Central Arkansas area exceeded those in the Memphis area for a six-month period.

Since the Paragould plant is regulated under the Memphis order at the present time the minimum class prices required to be paid producers are generally in line with those required under the Central Arkansas order. The Memphis order which operates on the basis of an individual handler pool requires that any plant from which 1,000 pounds of Class I milk per day, or 5 percent of the Class I milk at the plant during the month, is disposed of on routes in the marketing area shall be regulated as to minimum prices paid producers. The Central Arkansas order requires that 10 percent of a plant's receipts from producers and other pool plants be disposed of on routes in the marketing area as a basis for full regulation of minimum prices. There was no proposal to reduce this requirement in order to regulate a plant under the order where it made the greater sales. Therefore, when the sales by the Paragould plant in the counties primarily supplied by Central Arkansas handlers exceed 10 percent, the plant should be regulated under the Central Arkansas order.

There are three other plants which sell milk in the seven counties not recommended for inclusion in the Central Arkansas milk marketing area which would remain unregulated by reason of the failure to include said counties in the area. There was no showing of disorderly marketing conditions in the area which might be attributable to the practices of these handlers in buying milk from producers.

The proposed inclusion of Okolona and Gurdon in the marketing area was requested by two handlers now regulated under the Central Arkansas order who make 70 percent of the sales in the two communities. The marketing area now includes all of Clark County (total population, 20,950) except the city of Gurdon (2,166) and the town of Okolona (344). (Official notice has been taken of 1960 United States Census.) The proponents of the change pointed out that the impact of prices and sales practices actually extends beyond the corporate limits of the communities since they are entirely surrounded by area which is presently included in the regulated market.

One handler selling in these communities has recently offered customers a free quart carton of milk with each half-gallon purchase. The handlers proposing the regulation of these communities attribute this sales practice to the subject handler's being able to purchase milk without regard to minimum order prices. This handler purchases milk from the Central Arkansas milk producers on a classified price plan but since his books are not audited by the producers' association or an impartial agency there is no assurance that he pays the Class I price for all fluid products sold. Another handler who purchases milk on the same basis testified that he sold Class II milk for whatever price he could get. He cited prices of $2.95 to $3.50 per hundredweight. He then pays producers for Class II milk at such prices. Since Class II milk is available at these prices substantially below the Class I price and can be sold in an unregulated market at competitively destructive prices it promotes disorderly marketing. To prevent this disorder Gurdon and Okolona should be included in the marketing area.

Two handlers who have small [illegible] these communities objected to [illegible] clusion in the regulated marketing [illegible] Each of these handlers has a plant [illegible] lated under the Central Arkansas [illegible] as well as a plant which is not regulated and from which distribution is made in Gurdon and Okolona. Each of [illegible] handlers maintained that it was [illegible] economical because of route arrangements to serve the Okolona and Gurdon area from the unregulated plant rather than from the regulated plant. These handlers also alleged that they were paying Class I prices in excess of those charged regulated handlers. These prices are negotiated with the producer cooperative which supplies milk to these handlers. The negotiated price is a price paid for milk supposedly used in fluid sales. The quantity of milk used in fluid sales is reported by the handler but is not subject to verification. Some of the milk may actually move to other fluid milk plants or be disposed of on reserve. The lack of a system for verifying the use of milk according to established class prices has already brought about disorderly marketing in these communities. Since these handlers have the opportunity to adjust their business so that sales are made from a regulated plant in the regulated area no hardship should result from the inclusion of these towns in the marketing area. Furthermore, there is no indication that the negotiated prices which they pay are so inflexible that the charges they would be required to pay into the Central Arkansas producer settlement fund would not be recoverable in the prices they otherwise pay producers.

2. *Class I price.* The issue with respect to Class I price is composed of three segments: the basic formula price, the fluid differential added to the basic formula and the need for a compensatory payment on Class I milk priced under the Memphis order.

a. *Basic formula.* The type of basic formula appropriate for use in the Central Arkansas market was considered at a hearing held at Memphis, Tennessee and Little Rock, Arkansas on July 18-20, 1961. Official notice is hereby taken of the recommended decision (26 F.R. [illegible]) resulting from that hearing which recites the necessity for adopting a basic formula in the Central Arkansas order which will maintain general alignment with prices in the Memphis market. The decision also describes the necessity for alignment of Memphis Class I prices through the basic formula with Class I prices in the Paducah, Ozarks, St. Louis and Suburban St. Louis markets. No final decision in this matter has been made pending the reconsideration of the basic formula appropriate for use in several central United States markets including both Central Arkansas and Memphis. That hearing opened at Chicago, Illinois, January 17, 1962. Official notice is taken of this hearing notice issued January 11, 1962 (27 F.R. 314).

Since the issue with respect to basic formula is being considered on the basis of these other hearing records, the decision on this record will be confined to the relative level of the Class I price in the Central Arkansas market [illegible]

and the basic formula used in the various markets in the region is identical in all respects.

b. *Fluid differential.* A fluid differential of $1.74 should be established subject to a maximum price in relation to that established for the same month in the Ozarks area and a maximum and minimum price based on the Memphis Class I price, seasonally adjusted. A maximum price limit through December 1962 should be the Ozarks Class I price, seasonally adjusted, plus 75 cents. On and after January 1, 1963, this maximum price limit should be the Ozarks Class I price, seasonally adjusted, plus 60 cents. Maximum and minimum limits in the Class I price should be based on the Memphis Class I price, seasonally adjusted, plus or minus 25 cents, respectively.

About three-fourths of the milk supply for the Central Arkansas market is received from farms located within the boundaries of the marketing area. There is little competition for this milk supply from handlers in other markets. Therefore, the supply of milk available to the market from nearby farms is determined primarily by the decisions of these dairymen in expanding or reducing dairy operations. The average daily delivery of milk per producer rose gradually, about 50 pounds each year, from 1955 to 1960. In the first nine months of 1961 the daily delivery per producer rose 94 pounds above the average delivery in the same period of the previous year. Although there was some reduction in number of producers supplying the market the total supply of milk available to the market from producers who normally supply the area rose 7 million pounds from January–October 1960 to January–October 1961.

Class I sales declined in the same period by 4½ million pounds. As a consequence of these contra-changes in supply and sales the ratio of supply to sales rose from 119 in the 1960 period to 127 in 1961. These percentages are calculated on the basis of the total supply of milk maintained for the Central Arkansas area including the milk diverted to other areas which was included in the cooperative association pool but which was not reported as producer milk under the order. Class I sales include all sales from this cooperative pool supply.

The increase in milk supply relative to sales indicates that Class I prices may be attracting too much milk supply or they may be discouraging Class I sales. Transfers during the past year of Class I sales from the Central Arkansas market to handlers supplied by producers in the Memphis and Ozarks areas reduced Class I sales of Central Arkansas producers by 1,550,000 pounds monthly. This loss of Class I sales was offset largely by Class I sales to other markets. However, the substitution of other sources of supply for Class I sales which Central Arkansas producers had made can be attributed to some extent to the relative levels of Class I prices in these markets.

Although the major part of the milk supply for the Central Arkansas market is obtained from nearby counties, the northwestern Arkansas counties of Benton and Washington provide the reserve supply for the market. These counties are in the Ozarks marketing area and supplies available to the Central Arkansas market are affected by the relationship between the price in the Ozarks area versus that in the Central Arkansas market. There are also large supplies of milk in southern Missouri which are equally available to the St. Louis and Central Arkansas markets.

The trend toward an oversupply in the Central Arkansas area relative to Class I sales could be accentuated quickly by any further increase in the Central Arkansas Class I price in relation to surrounding markets which represent alternative supplies of milk. If the Class I price exceeds substantially for an extended period the price in these other markets by more than the cost of transporting milk from such markets we may expect milk from these other markets to supplant milk priced under the Central Arkansas order.

To prevent further loss of Class I sales the fluid differential established by the Central Arkansas order for the remainder of 1962 should not exceed the Ozarks differential by more than it does currently. The $1.74 differential in the Central Arkansas area exceeds the Ozarks differential (annual average) before supply-demand adjustment by 59 cents. Official notice has been taken of the provisions of the Chicago, St. Louis and Ozarks orders which establish Class I prices. The cost of moving milk from Springfield, Missouri to Little Rock is about 35 cents per hundredweight. From Washington and Benton counties Arkansas the milk freight cost to Little Rock is about 30 cents. The Class I price in Washington and Benton counties is established by the Ozarks order at 25 cents over the Springfield price.

The St. Louis differential (annual average before adjustment by supply-demand adjuster) is $1.40 and plus transportation from St. Louis (54 cents) is more than the Central Arkansas differential. However, milk priced under the St. Louis order is received at plants nearer to Little Rock than St. Louis and at such plants the freight cost to Little Rock would be lower.

If prices in the St. Louis and Ozarks markets were not depressed by the currently effective supply-demand adjustment the Central Arkansas differential of $1.74 would maintain reasonable alignment with Class I prices in these markets. Normally, a Class I price in the Central Arkansas market about 60 cents over the Ozarks price and 35 cents over the St. Louis price would be an appropriate ceiling. This difference should be established as a maximum limit on the Central Arkansas Class I price to become effective January 1, 1963.

In the 12 months ending with October 1961 the Central Arkansas Class I price exceeded the Ozarks Class I price (4 percent butterfat basis) by 96 cents. The relatively high price in Central Arkansas resulted from two factors. The Central Arkansas price rose relative to the Ozarks price because the basic formula used in computing the Central Arkansas price averaged 18 cents higher than the basic formula which determined the Ozarks price. The divergence in price due to the basic formula differences, as heretofore stated, is being dealt with in another decision.

Another factor which affected the relative levels of the Class I prices in these two markets was the supply-demand adjuster which reduced the St. Louis price and thereby reduced the Ozarks Class I price which is related directly to the St. Louis price. If the supply-demand adjuster which affects the Ozarks and St. Louis prices continues to reduce such prices by as much as it has been doing the Central Arkansas ceiling price should reflect such reductions on and after January 1, 1963. Meanwhile, the ceiling price should be established at a 15-cent higher level to allow a gradual price adjustment. This ceiling arrangement should prevent any further increase this year in the Central Arkansas Class I price relative to the Class I prices in the Ozarks and St. Louis markets.

The mechanics for aligning Central Arkansas Class I prices with the Ozarks and St. Louis markets should be through a ceiling based on the Ozarks price. This will accomplish alignment with St. Louis prices since the Ozarks and St. Louis prices are directly related with the Ozarks price somewhat less variable on a seasonal basis.

With separate Class I pricing formulas in the Memphis and Central Arkansas markets, it will be possible for prices to move in one market independently of the other. Because there is considerable overlapping of sales routes operated by Memphis handlers and by Central Arkansas handlers a sharp drop or increase in the Class I prices in Central Arkansas could disrupt normal delivery patterns and induce shifts in milk supplies between these adjacent markets. A provision which maintains the Central Arkansas Class I price within the range of the Memphis Class I price plus or minus 25 cents will prevent wide differences in prices in the two markets. The 25-cent difference should apply to the annual average fluid differential with seasonal adjustments, if necessary.

c. *Compensatory payment on Class I milk priced under the Memphis order.* The compensatory payment into the Central Arkansas producer settlement fund on Class I milk priced under the Memphis order, whenever the Central Arkansas Class I price at any location exceeds the Memphis Class I price, should be discontinued.

This provision was adopted to deal with an unusual situation in which a plant located in the Central Arkansas marketing area disposed of almost equal quantities of Class I milk in the Central Arkansas and the Memphis marketing areas. Whenever sales in Memphis exceeded those in Central Arkansas the plant became subject to the Memphis order and was eligible for a price deduction based on the location of the plant in relation to Memphis. When sales were greater in the Central Arkansas area the deduction did not apply. This handler is no longer operating in this manner. Memphis sales of the handler are procured at and distributed from a

Memphis plant. Sales in the Central Arkansas area are made from a plant located in the area.

Since Federal order Class I prices in neighboring markets are established to maintain general alignment subject to transportation cost differentials and relative levels of supply and demand in each market, compensatory payments are not needed in most cases to maintain appropriate market price relationships.

The deletion of this provision is necessary at this time to avoid the imposition of unwarranted charges which might result from differences in the Memphis and Central Arkansas Class I prices as the result of this decision and a pending decision relative to the Memphis Class I price. It has been proposed to change the seasonality of the Memphis Class I differential. Such a change would require substantial payments by a Memphis handler disposing of Class I products in the Central Arkansas area during months when the Memphis price was lower than the Central Arkansas price.

3. *Location price differentials.* No change should be made in the rate or application of location price differentials except that such differentials should be measured from Little Rock as well as Benton, Arkansas.

The cooperative association representing a majority of the producers supplying the market sponsored a proposal in the hearing notice to disallow location price differentials at plants located in the marketing area. At the hearing the proponents offered no testimony relative to their proposal.

Several handlers whose plants are located within 60 miles of Benton, Arkansas (the present basing point for location differentials) supported the cooperative association proposal. These plants are not allowed a location price differential under present terms of the order. Other handlers whose plants were located in the area proposed to be added to the marketing area opposed the proposal.

The evidence shows Little Rock is the population center of the marketing area and the primary sales point in the area. Therefore, the prices at other locations should be based on the distance from Little Rock or Benton, whichever is nearer.

It was suggested that several location points be established north and west of Little Rock. The effect of establishing such basing points would deny certain handlers located beyond those points the differentials based on transportation costs to Little Rock. Therefore, such basing points are not appropriate to a pattern of uniform prices for milk disposed of primarily in Little Rock.

There was no testimony on which to establish a rate other than that now provided by the order, 1.5 cents per 10 miles distance.

4. *Class II price.* The Class II price should be the price reported by the United States Department of Agriculture as paid, f.o.b. plant, for milk used in manufacturing dairy products in the United States. The price should be adjusted to 4 percent by using the Class II butterfat differential.

The producers' cooperative association which represents most of the producers in the market has assumed responsibility for marketing milk in excess of that required by handlers for fluid products and for the ice cream and cottage cheese which some handlers manufacture. For such milk moved to manufacturing plants this cooperative has been receiving prices in excess of the Class II prices established by the order. The prices received have usually been higher than the United States average manufacturing milk price and have been 45 cents higher than the order Class II price. Since this cooperative can market all the excess milk in the area at this price or higher prices, there is no need to establish prices at a level lower than that reflected by the United States average prices.

The United States average price is reported per hundredweight of milk at test received. In order to announce a price at the basic test of 4 percent butterfat the price should be adjusted to 4 percent by using the Class II butterfat differential.

5. *Equivalent price determination.* The order should specify that in the absence of a quoted price or index needed to determine a class price or other order provision, an equivalent price should be determined by the Secretary. This provision is necessary to assure continuity of order operation in the event a price series referred to in the order is discontinued or revised.

6. *Pool plant definition.* The pool plant definition should include a plant operated by a cooperative association which delivers half or more of its members' milk to other handler's plants and from which at least 25 percent of the plant's receipts of Grade A milk is shipped to regulated plants during the months October through January.

The Central Arkansas Milk Producers Association operates a reload station at Springdale, Arkansas where milk is transferred to large transport trucks from trucks which pick up milk at the farms. The cooperative has purchased stationary holding tanks to be installed during January 1962. With the installation of these tanks the station will operate as a milk plant—receiving, cooling, and holding milk for transfer to other plants as it is needed.

This supply plant is to be used to handle reserve milk for the Fort Smith and Southern Arkansas markets as well as the Central Arkansas market. Some milk from the plant also moves regularly to a handler regulated under the Ozarks order.

Although the Central Arkansas market has received more milk from this station than any other fluid milk market, the quantities of milk moved from the station to Little Rock have, at times, been very small. This is partly because trucks are rerouted from the farms in some instances to reduce hauling instead of sending such milk through the station.

Since the supply of milk is maintained primarily for the Central Arkansas market it should be possible for the plant to qualify for pooling in this market. To assure that the plant is maintained primarily to handle reserve milk for the Central Arkansas market, two conditions should be met. First, the cooperative association should deliver at least half its members milk to the plants of other handlers regulated under the Central Arkansas order. Second, the plant should demonstrate its connection with the market by shipping at least 25 percent of its milk receipts to regulated distributing plants during the months October through January. It is during these months that the largest quantities of the Springdale milk supply have been delivered to Little Rock handlers.

The provisions under which a supply plant not operated by such a cooperative may qualify should be revised to permit qualification on the basis of shipments during the October–January period. If such a plant were supplying the market its milk would be needed in the same months as the supply plant operated by the cooperative association.

7. *Cooperative association as a handler.* A cooperative association should be permitted to elect to be the handler with respect to the milk of its member producers delivered to the pool plant of another handler in a tank truck owned and operated by, or under contract to, such cooperative association.

Transportation of milk in insulated tank trucks from the farm to handlers as directed by cooperative associations creates a problem with respect to the determination of the responsibility to the individual producers in the market under certain circumstances. The handlers have only indirect knowledge of the identity of the individual producers from whom they receive milk and of the weights and tests of the milk of such individual shippers. The cooperative association maintains such information for its member producers, and the handlers accept the measurements as recorded by the agent of the cooperative association.

There are circumstances when it would be more appropriate to permit the cooperative association in control of the transportation to qualify as the handler under the order and report the milk as handled. This is particularly true when milk of several producers is commingled in the tank truck and delivered to two or more plants and in the case of producers whose milk is delivered on alternate days to different plants. The cooperative association should be provided the option of being the handler for all bulk tank milk to each pool plant for which it can qualify as the handler if a written request is provided the market administrator and the operator of the pool plant.

The functions of a cooperative association as a handler in this capacity differ from those of other handlers in that the cooperative does not use milk in a plant. Hence, the order should provide for these differences in the provisions relating to definitions, reporting, transfers, allocation of milk to be classified, payments and assessment charges. These conforming changes will maintain obligations as now established by the order except that the cooperative association will be required to report and account for the disposition of the individual deliveries of milk from producer members.

8. *Allowable shrinkage.* The maximum shrinkage of producer milk which is classified in Class II should be assigned to specific handling functions in the case of milk handled in more than one plant and in the case of milk received at the farm in a bulk tank truck.

The maximum shrinkage allowance in Class II at each pool plant should be 0.5 percent of the skim milk and butterfat in producer milk (excluding milk diverted to a nonpool plant) plus 1.5 percent of the skim milk and butterfat in all milk or milk products processed at such plant. Plants which are operated in a reasonably efficient manner and for which accurate records of receipts and utilization are maintained should not have plant losses in excess of the maximums provided. Any shrinkage in excess of the maximums should be classified as Class I milk.

To avoid duplicate shrinkage allowance on interplant movements of milk, shrinkage should be based on the amount that receipts from other pool plants are in excess of transfers to such plants. No shrinkage should be allowed on producer milk diverted to nonpool plants. On milk received at the pool plant and transferred in bulk to another plant, the transferor plant would be limited to the 0.5-percent maximum receiving shrinkage allowance on such milk.

In the assembly operation of bulk farm tank milk, there may be some physical loss of milk. Receipts at pool plants may not agree with the aggregate of the weights determined at the farm from the bulk tank "dip stick" reading. Provision should be made so that the cooperative association in its capacity as a handler on bulk tank milk will retain one-half of 1 percent of the 2-percent allowable shinkage with the remainder passed on to the operator of the pool plant. If, however, the handler files a notice with the market administrator that he is purchasing farm bulk tank milk from the cooperative association on the basis of the aggregate farm weights and tests, the entire shrinkage should be available to the pool plant to which the milk is delivered.

The changes in maximum shrinkage allowed in Class II requires changes in the method of prorating shrinkage to preserve the intended application of the proposed allowances.

9. *Reporting dates.* No change should be made in the date on which handlers' reports of receipts and utilization of milk must be mailed to the market administrator. Such reports must now be mailed on the 7th day of the month. The cooperative association proposed that reports be mailed on the 6th or delivered on the 7th day. The earlier reporting was requested to permit an earlier announcement of the uniform price.

The requirement that reports be filed on the 6th day after the end of each month could be burdensome in a month when a holiday and a weekend occurred in that period.

The class prices should be reported not later than the 6th day of the month. The prices are reported now on the 5th but since the Class I price would be based in part on Class I prices in other markets the later announcement date is necessary.

10. *Classification of fluid milk products fortified with nonfat milk solids.* "Dietary foods" and other fluid milk products fortified with nonfat milk solids should be classified as Class I up to the weight of an unmodified product of the same nature and butterfat content. The skim milk equivalent of the added solids in excess of such weight should be classified as Class II.

The Central Arkansas order provides that the skim milk equivalent of nonfat milk solids used in the fortification of fluid milk products be classified as Class I. Several handlers proposed that the skim milk equivalent of added solids be classified as Class II. The producer association opposed the proposed change in classification but offered no testimony on the issue.

Fortified fluid milk products customarily result from the addition of concentrated nonfat milk solids to milk or skim milk in fluid form to yield a finished product of a higher nonfat solids content than that of an equivalent amount of whole (producer) milk. Reconstituted products, on the other hand, involve the process of "floating" concentrated milk solids in water to yield a weight of product approximately equal to the weight of milk from which the concentrated milk product was first made by the removal of water.

Nonfat dry milk and condensed milk are ordinarily derived from unpriced milk or milk which has been priced as surplus under a Federal order. These products are not necessarily processed from producer milk and may be made from ungraded milk. An economic incentive exists for handlers to substitute, where possible, reconstituted fluid milk products for fluid milk products processed from current receipts of producer milk. Since such substitution would displace an equivalent amount of producer milk in Class I, the application of skim equivalent pricing in this circumstance is economically sound and is necessary to maintain orderly marketing.

The same economic incentive does not exist, however, with respect to the use of nonfat dry milk or condensed skim milk to fortify a fluid milk product. The incentive for handlers to use solids to fortify fluid milk products, primarily derived from producer milk, is in being able to readily meet the specific demands of consumers and thereby to maintain or even increase Class I sales. Until recently, fortified fluid milk products represented a very small proportion of total fluid milk sales.

It is practical and administratively necessary to maintain the skim milk equivalent method of accounting for total receipts and disposition. Therefore, the difference between the volume classified in Class I and the total skim milk equivalent of nonfat milk solids in the product should be assigned to Class II. Accordingly, the order should be amended to classify fortified products as Class I only to the extent of the weight of an unmodified fluid milk product of the same nature and butterfat content.

Rulings on proposed findings and conclusions. Briefs and proposed findings and conclusions were filed on behalf of certain interested parties. These briefs, proposed findings and conclusions and the evidence in the record were considered in making the findings and conclusions set forth above. To the extent that the suggested findings and conclusions filed by interested parties are inconsistent with the findings and conclusions set forth herein, the requests to make such findings or reach such conclusions are denied for the reasons previously stated in this decision.

General findings. The findings and determinations hereinafter set forth are supplementary and in addition to the findings and determinations previously made in connection with the issuance of the aforesaid order and of the previously issued amendments thereto; and all of said previous findings and determinations are hereby ratified and affirmed, except insofar as such findings and determinations may be in conflict with the findings and determinations set forth herein.

(a) The tentative marketing agreement and the order, as hereby proposed to be amended, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the Act;

(b) The parity prices of milk as determined pursuant to section 2 of the Act are not reasonable in view of the price of feeds, available supplies of feeds, and other economic conditions which affect market supply and demand for milk in the marketing area, and the minimum prices specified in the proposed marketing agreement and the order, as hereby proposed to be amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest; and

(c) The tentative marketing agreement and the order, as hereby proposed to be amended, will regulate the handling of milk in the same manner as, and will be applicable only to persons in the respective classes of industrial and commercial activity specified in, a marketing agreement upon which a hearing has been held.

Recommended marketing agreement and order amending the order. The following order amending the order regulating the handling of milk in the Central Arkansas marketing area is recommended as the detailed and appropriate means by which the foregoing conclusions may be carried out. The recommended marketing agreement is not included in this decision because the regulatory provisions thereof would be the same as those contained in the order, as hereby proposed to be amended:

1. Delete § 1108.4 and substitute the following:

§ 1108.4 Central Arkansas marketing area.

"Central Arkansas marketing area," hereinafter called the "marketing area" means all the territory included within the boundaries of the counties of Clark, Conway, Cross, Faulkner, Garland, Grant, Hot Spring, Jefferson, Lee, Lo-

noke, Monroe, Phillips, Pope, Prairie, Pulaski, Saline, St. Francis, White, and Woodruff, all in the State of Arkansas.

§ 1108.8 [Amendment]

2. In § 1108.8 after the words "producer milk" insert a comma and "milk from a cooperative association in its capacity as a handler pursuant to § 1108.12(c),".

3. Delete § 1108.9 and substitute the following:

§ 1108.9 Supply plant.

"Supply plant" means:

(a) An approved plant from which fluid milk products in an amount not less than 50 percent of its receipts of producer milk and milk received from a cooperative association in its capacity as a handler pursuant to § 1108.12(c) is moved during such month to distributing plants: *Provided*, That any such plant which qualifies as a supply plant for each of the months during the period October through January shall upon written application to the market administrator, on or before the end of such period, be designated as a supply plant for the following months of February through September; or

(b) An approved plant which is operated by a cooperative association having member producers which delivers 50 percent or more of its member milk to the pool plants of other handlers and from which fluid milk products in an amount not less than 25 percent of its receipts of producer milk during the month at such plant are shipped during such month to distributing plants: *Provided*, That any such plant which qualifies as a supply plant for each of the months October through January shall, upon written application to the market administrator, on or before the end of such period, be designated as a supply plant for the following months of February through September.

§ 1108.12 [Amendment]

4. In § 1108.12 add paragraph (c) as follows:

(c) Any cooperative association with respect to the milk of its producer members which is delivered to the pool plant of another handler in a tank truck owned or operated by or under contract to such cooperative association if the cooperative association notifies the market administrator and the handler to whom the milk is delivered, in writing, that it will be the handler for such milk for the month, such cooperative handler status to be effective the first day of the month following receipt by the market administrator of such notice and to continue until the first day of the month following receipt of a request to discontinue such cooperative handler status. Milk so delivered shall be considered to have been received by the cooperative association at the plant to which delivered and then transferred to the handler operating the plant.

5. Delete § 1108.14 and substitute the following:

§ 1108.14 Producer-handler.

"Producer-handler" means any person who operates a dairy farm and a distributing plant which during the month has no other source milk, producer milk or milk received from a cooperative association as a handler pursuant to § 1108.12(c).

6. Delete § 1108.15 and substitute the following:

§ 1108.15 Producer milk.

"Producer milk" shall be that skim milk or butterfat for each handler's account in milk (in an amount determined by weights and measurements for individual producer's deliveries, as taken at the farm in the case of milk moved from the farm in a bulk tank truck) which is received pursuant to paragraphs (a) and (b) of this section and diverted pursuant to § 1108.6 as follows:

(a) Received directly from producers' farms at a pool plant by the operator of the pool plant (except that for which a cooperative association is a handler pursuant to § 1108.12(c)) or diverted by the pool plant operator pursuant to § 1108.6.

(b) Received directly from producers' farms for its account by a cooperative association in its capacity as a handler pursuant to § 1108.12(c) or diverted for its account pursuant to § 1108.6.

§ 1108.17 [Amendment]

7. In § 1108.17 insert after the words "producer milk" the words "and milk from a cooperative association in its capacity as a handler pursuant to § 1108.12(c).

§ 1108.30 [Amendment]

8. In § 1108.30(a) delete subparagraph (2) and substitute the following:

(2) Fluid milk products received from other pool plants and milk received from a cooperative association in its capacity as a handler pursuant to § 1108.12(c).

§ 1108.31 [Amendment]

9. In § 1108.31(b)(2) delete "for each of his pool plants" and substitute "for each pool plant".

10. Delete § 1108.41 and substitute the following:

§ 1108.41 Classes of utilization.

Subject to the conditions set forth in §§ 1108.42 through 1108.46, the classes of utilization shall be as follows:

(a) *Class I milk.* Class I milk shall be all skim milk and butterfat:

(1) Disposed of from the plant in the form of fluid milk products; except

(i) Fluid milk products classified pursuant to subparagraph (b)(3) of this section, and

(ii) Fluid milk products which are fortified with additional milk solids shall be Class I in an amount equal only to the weight of an equal volume of an unfortified product of the same butterfat content, and

(2) Not specifically accounted for as Class II milk.

(b) *Class II milk.* Class II milk shall be all skim milk and butterfat:

(1) Used to produce any product other than a fluid milk product;

(2) Contained in inventories of fluid milk products on hand at the end of the month;

(3) Disposed of as skim milk and used for livestock feed;

(4) The weight of skim milk in fortified fluid milk products which is not classified as Class I pursuant to paragraph (a)(1)(ii) of this section; and

(5) In shrinkage of skim milk and butterfat, respectively, allocated pursuant to § 1108.42(b)(1) but not in excess of:

(i) Two percent of milk received at a pool plant directly from producers except milk diverted pursuant to § 1108.6; plus

(ii) Two percent of milk received from a cooperative association handler pursuant to § 1108.12(c), if the handler operating the pool plant files with the market administrator in writing, prior to the first day of the month, notice that he is purchasing such milk for the month on the basis of farm weights determined by farm bulk tank calibrations; plus

(iii) One and one-half percent of milk received in bulk from pool plants of other handlers or received from cooperative associations pursuant to § 1108.12(c) unless two percent shrinkage is assigned pursuant to subdivision (ii) of this subparagraph; less

(iv) One and one-half percent of milk disposed of in bulk to other plants; and less

(v) One and one-half percent of milk disposed of to plants by a cooperative association handler pursuant to § 1108.12(c) unless two percent shrinkage is assigned pursuant to subdivision (ii) of this subparagraph.

(6) In shrinkage allocated to other source milk pursuant to § 1108.42(b)(3).

§ 1108.42 Shrinkage.

The market administrator shall allocate shrinkage over a handler's receipts as follows:

(a) Compute the total shrinkage of skim milk and butterfat, respectively for each handler; and

(b) Prorate the resulting amounts between:

(1) The maximum pounds of skim milk and butterfat pursuant to § 1108.41(b)(5) divided by 0.02; and

(2) The pounds of skim milk and butterfat in other source milk received in the form of bulk fluid milk products.

11. Renumber § 1108.42 as § 1108.43.

12. Delete § 1108.43 which precedes § 1108.43(d) and substitute the following:

§ 1108.44 Transfers.

Skim milk or butterfat transferred (including milk diverted to nonpool plants) from a pool plant or by a cooperative association in its capacity as a handler pursuant to § 1108.12(c) shall be classified:

(a) As Class I milk if transferred to a pool plant unless:

(1) The transferee and transferor handlers claim Class II utilization in their reports submitted pursuant to § 1108.30;

(2) The transferee plant has utilization in Class II of an equivalent amount of skim milk and butterfat, respectively, after the computation pursuant to § 1108.46(a)(5) and the corresponding step of (b); *Provided*, That if either or both plants have received other source milk, the skim milk or butterfat so transferred shall be classified at both plants so as to allocate the greatest possible Class I utilization to producer milk; and

(3) If a specified utilization is not claimed by both handlers, subject to subparagraph (2) of this paragraph, skim milk and butterfat transferred to the pool plant of another handler by a cooperative association which is a handler pursuant to § 1108.12(c) shall be classified pro rata to the respective amounts remaining in each class for such month at the pool plant of the receiving handler after the computations pursuant to § 1108.46(a)(6) and the corresponding step of § 1108.46(b).

(b) As Class I milk if transferred to the plant of a producer-handler; and

(c) As Class I milk if transferred or diverted in bulk form as milk or skim milk to a nonpool plant unless:

(1) No fluid milk products are distributed on routes from the plant;

(2) It is located less than 250 miles by the shortest hard surfaced highway distance, as determined by the market administrator, from the plant from which transferred or diverted;

(3) The transferring or diverting handler claims classification in Class II milk in his report submitted to the market administrator pursuant to § 1108.30 for the month within which such transaction occurred;

(4) The operator of the nonpool plant maintains books and records showing the utilization of all skim milk and butterfat at such plant which are made available if requested by the market administrator for the purpose of verification; and

(5) Not less than an equivalent amount of skim milk and butterfat was actually utilized in the nonpool plant in the use indicated in such report: *Provided*, That if it is found that an equivalent amount of skim milk and butterfat was not actually used in such plant during the month in such indicated use, the pounds transferred in excess of such actual use shall be classified as Class I milk.

13. Redesignate § 1108.43(d) as § 1108.44(d).

14. Renumber § 1108.44 as § 1108.45 and § 1108.45 as § 1108.46.

§ 1108.46 [Amendment]

15. Delete subparagraphs (4), (5), (6), and (7) of renumbered § 1108.46 and substitute the following:

(4) Subtract from the pounds of skim milk remaining in each class, in series beginning with Class II, the pounds of skim milk contained in inventory of fluid milk products on hand at the beginning of the month;

(5) Add to the pounds of skim milk remaining in Class II the pounds of skim milk subtracted pursuant to subparagraph (1) of this paragraph;

(6) Subtract from the pounds of skim milk remaining in each class the skim milk received from other pool plants or from a cooperative association in its capacity as a handler pursuant to § 1108.12(c) according to its classification as determined pursuant to § 1108.44(a) (1) and (2);

(7) Subtract from the pounds of skim milk remaining in each class, the skim milk received from a cooperative association in its capacity as a handler pursuant to § 1108.12(c) according to its classification as determined pursuant to § 1108.44(a)(3); and

(8) Subtract from the pounds of skim milk remaining in each class any amount by which the pounds of skim milk remaining in both classes exceed the pounds of skim milk in milk received from producers in series beginning with Class II. Such excess shall be called "overage".

16. Delete § 1108.51 and substitute the following:

§ 1108.51 Class prices.

Subject to the provisions of §§ 1108.52 and 1108.53, the class prices per hundredweight of milk containing 4.0 percent butterfat shall be determined for each month as follows:

(a) *Class I milk price.* The Class I milk price shall be the basic formula price for the preceding month plus $1.74: *Provided*, That such Class I price shall not exceed: (1) The Class I price for the same month established under the Memphis Federal milk order plus 25 cents (plus or minus any seasonal adjustment in the Memphis price); or (2) the Class I price for milk of 4 percent butterfat content for the same month established under the Ozarks Federal milk order applicable at plants in the Ozarks marketing area other than those in Washington or Benton Counties, Arkansas, plus;

	From effective date through December 1962	Effective January 1963
	Cents.	*Cents*
January, February, July, and December	77	62
March	97	82
April, May, and June	90	75
August, September, October, and November	57	42

And provided further, That such Class I price shall not be less than the Class I price for the same months established under the Memphis Federal milk order minus 25 cents (plus or minus any seasonal adjustment in the Memphis price).

(b) *Class II milk price.* The Class II milk price shall be the average price reported by the Department of Agriculture for the current month for milk used in the manufacture of American cheese, evaporated milk, and butter and by-products, f.o.b. plant, United States, adjusted to 4.0 percent butterfat basis by using the differential established pursuant to § 1108.52(b).

§§ 1108.53, 1108.74 [Amendment]

17. In § 1108.53 and § 1108.74 delete the words "city limits of Benton, Arkansas" and substitute therefor "City Hall at Benton, Arkansas, or the State Capitol at Little Rock, Arkansas, whichever is nearer", and change "such city limits" to "the respective City Hall or State Capitol".

§ 1108.61 [Amendment]

18. Delete § 1108.61(c).

19. Add § 1108.55 as follows:

§ 1108.55 Use of equivalent prices.

If for any reason a price quotation required by this order for computing class prices or for other purposes is not available in the manner prescribed, the market administrator shall use a price determined by the Secretary to be equivalent to the price which is required.

§ 1108.27 [Amendment]

20. In § 1108.27(k)(1) change "5th" to "6th".

§ 1108.80 [Amendment]

21. In § 1108.80 add paragraph (d) as follows:

(d) On or before the 13th day after the end of each delivery period; to each cooperative association, with respect to receipts of milk for which such cooperative association is the handler pursuant to § 1108.12(c), not less than the value of such milk at applicable class prices.

22. Delete § 1108.86 and substitute the following:

§ 1108.86 Expense of administration.

As his pro rata share of the expense of the administration of this part, each handler shall pay to the market administrator on or before the 15th day after the end of each month, 4 cents per hundredweight, or such lesser amount as the Secretary may prescribe on the quantities designated as follows:

(a) A cooperative association as a handler pursuant to § 1108.12(c), on producer milk except that transferred to another handler operating a pool plant.

(b) A handler operating a pool plant, on producer milk plus milk recieved from a cooperative association as a handler pursuant to § 1108.12(c) and on other source milk allocated to Class I pursuant to § 1108.46 (a)(2) and (b).

(c) A handler operating a nonpool plant at which milk is not classified and priced under provisions of another Federal milk order, on Class I milk disposed of in the marketing area except milk disposed of to a pool plant.

23. Make the following conforming changes in order language:

§ 1108.40 [Amendment]

In § 1108.40 delete the words "§§ 1108.41 through 1108.45" and substitute therefor "§§ 1108.41 through 1108.46".

§ 1108.60 [Amendment]

In § 1108.60 delete the words "§§ 1108.40 through 1108.45" and substitute therefor "§§1108.40 through 1108.46",

§§ 1108.53, 1108.70 [Amendment]

In § 1108.53, § 1108.70(a) and § 1108.70 (b) delete the reference "§ 1108.45" and substitute therefor "§ 1108.46".

In § 1108.70(c) delete the reference "§ 1108.45(a)(7)" and substitute therefor "§ 1108.46(a)(8)".

In § 1108.70(d) delete the references "§ 1108.45(a)(5)" and "§ 1108.45(a)(4)"

and substitute therefor "§ 1108.46(a)(4)".

Signed at Washington, D.C., on February 7, 1962.

JAMES T. RALPH,
Assistant Secretary.

[F.R. Doc. 62-1408; Filed, Feb. 9, 1962; 8:50 a.m.]

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Food and Drug Administration

[21 CFR Part 20]

ICE CREAM, FRENCH ICE CREAM, ICE MILK, FRUIT SHERBETS, AND WATER ICES

Proposed Amendments of Standards

Notice is given that American Food Laboratories, 1000 Stanley Avenue, Brooklyn, N.Y., and National Pectin Products Co., 2656 West Cullerton Street, Chicago, Ill., have separately proposed amendments for the standards of identity for frozen desserts, as follows:

American Food Laboratories proposes that paragraph (f)(2) in the standard of identity for ice cream (§ 20.1), paragraph (e)(2) in the standard of identity for fruit sherbets (§ 20.4), and paragraph (d)(1) in the standard of identity for water ices (§ 20.5) in each case be amended by changing the period at the end of the first sentence to a comma and adding the words "propylene glycol, or glycerin". These changes would have the effect of providing that the specified stabilizing ingredients which the standards provide may be added in admixture with dextrin, may also be added in admixture with propylene glycol or glycerin.

National Pectin Products Co. proposes that the first sentence in paragraph (e)(2) of the standard of identity for fruit sherbets (§ 20.4) and the first sentence in paragraph (d)(1) of the standard of identity for water ices (§ 20.5) be amended by changing the period at the end thereof to a comma and adding the words, "propylene glycol ether of methylcellulose" to the stabilizing ingredients therein listed.

National Pectin Products Co. also proposes that the last part of the second sentence in paragraph (b)(4) of the standard of identity for ice cream (§ 20.1), which provides that fruit may be acidulated with citric or ascorbic acid, be amended by changing it to read "• • • may be acidulated with citric acid, ascorbic acid, or phosphoric acid." Cross-references in the standards for french ice cream (§ 20.2) and ice milk (§ 20.3) make the proposed amendment applicable to standards for these frozen desserts also.

Pursuant to the provisions of the Federal Food, Drug, and Cosmetic Act (secs. 401, 701, 52 Stat. 1046, 1055, as amended 70 Stat. 919, 72 Stat. 948; 21 U.S.C. 341, 371) and in accordance with the authority delegated to the Commissioner of Food and Drugs by the Secretary of Health, Education, and Welfare (25 F.R. 8625), all interested persons are invited to submit their views in writing regarding the proposals published herein. Such views and comments should be submitted in quintuplicate, addressed to the Hearing Clerk, Department of Health, Education, and Welfare, Room 5440, 330 Independence Avenue SW., Washington 25, D.C., prior to the thirtieth day following the date of publication of this notice in the FEDERAL REGISTER.

Dated: February 6, 1962.

J. K. KIRK,
Assistant Commissioner of Food and Drugs.

[F.R. Doc. 62-1387; Filed, Feb. 9, 1962; 8:47 a.m.]

FEDERAL COMMUNICATIONS COMMISSION

[47 CFR Part 3]

[Docket No. 14484; RM-289]

MODESTO AND SAN MATEO, CALIF.

Table of Assignments, Television Broadcast Stations; Order Extending Time for Filing Comments

1. The Commission has before it for consideration the requests of the Honorable Don D. Hammond, mayor of Modesto, Calif., and Chester Smith and Corbett Pierce of Modesto, filed February 5, 1962, to extend the time for filing comments in the above-entitled proceeding. Mayor Hammond does not indicate specifically the time extension he seeks; the latter petitioners seek to extend the filing date for comments from February 5, 1962 to February 19, 1962, and for reply comments, from February 19, 1962, to March 5, 1962.

2. The petitioners indicate that a number of persons in Modesto are interested in the proposal under consideration in this rule making proceeding, i.e., a proposal of the National Educational Television and Radio Center (NET) to shift television Channel 14 from Modesto to San Mateo, Calif., for noncommercial educational use, and need additional time to file their comments on it. Messrs. Smith and Pierce also state that counsel for NET has advised that it has no objection to the extension of time they request.

3. The Commission is of the view that the public interest will be served by extending the time for comments in this proceeding. The views of interested persons in the Modesto area on the proposal will be useful in its evaluation, and a short extension of time for comments may be granted without prejudice to any party or unduly delaying the orderly consideration of the proposal.

4. *Accordingly, it is ordered*, This 6th day of February 1962, that the aforesaid requests of Mayor Hammond and Messrs. Smith and Pierce are granted; and that the time for filing comments herein is extended from February 5, 1962, to February 19, 1962, and that the time for filing reply comments is extended from February 19, 1962, to March 5, 1962.

5. This action is taken pursuant to authority found in sections 4(i), 5(d)(1), and 303(r) of the Communications Act of 1934, as amended, and section 0.241(d)(8) of the Commission's rules.

Released: February 7, 1962.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] BEN F. WAPLE,
Acting Secretary.

[T.D. 55560]

FISH

Tariff-Rate Quota

FEBRUARY 7, 1962.

The tariff-rate quota for the calendar year 1962 on certain fish dutiable under paragraph 717(b), Tariff Act of 1930, as modified.

In accordance with the proviso to item 717(b) of Part I, Schedule XX, of the General Agreement on Tariffs and Trade (T.D. 51802), it has been ascertained that the average aggregate apparent annual consumption in the United States of fish, fresh or frozen (whether or not packed in ice), filleted, skinned, boned, sliced, or divided into portions, not specially provided for: cod, haddock, hake, pollock, cusk, and rosefish, in the three years preceding 1962, calculated in the manner provided for in the cited agreement, was 190,476,220 pounds. The quantity of such fish that may be imported for consumption during the calendar year 1962 at the reduced rate of duty established pursuant to that agreement is, therefore, 28,571,433 pounds.

[SEAL] PHILIP NICHOLS, Jr.,
Commissioner of Customs.

DEPARTMENT OF AGRICULTURE

Office of the Secretary

TEXAS

Designation of Areas for Emergency Loans

For the purpose of making emergency loans pursuant to section 321(a) of Public Law 87-128 (7 U.S.C. 1961) it has been determined that in the following counties in the State of Texas natural disasters have caused a need for agricultural credit not readily available from commercial banks, cooperative lending agencies, or other responsible sources.

TEXAS

DeWitt.	Live Oak.
Frio.	Maverick.
Jim Wells.	Wilson.
Karnes.	

Pursuant to the authority set forth above, emergency loans will not be made in the above-named counties after December 31, 1962, except to applicants who previously received emergency or special livestock loan assistance and who can qualify under established policies and procedures.

Done at Washington, D.C., this 7th day of February 1962.

ORVILLE L. FREEMAN,
Secretary.

[F.R. Doc. 62-1410; Filed, Feb. 9, 1962; 8:50 a.m.]

GEORGIA

Designation of Area for Emergency Loans

For the purpose of making emergency loans pursuant to section 321(a) of Public Law 87-128 (7 U.S.C. 1961) it has been determined that in Polk County, Ga., natural disasters have caused a need for agricultural credit not readily available from commercial banks, cooperative lending agencies, or other responsible sources.

Pursuant to the authority set forth above, emergency loans will not be made in the above-named county after June 30, 1962, except to applicants who previously received emergency or special livestock loan assistance and who can qualify under established policies and procedures.

Done at Washington, D.C., this 7th day of February 1962.

ORVILLE L. FREEMAN,
Secretary.

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

[Classification No. 74]

ARIZONA

Small Tract Opening

1. Pursuant to authority delegated to me by Bureau Order No. 684, dated August 28, 1961 (26 F.R. 8216), I hereby open for bid and sale at public auction, under the Small Tract Act of June 1, 1938 (52 Stat. 609, 43 U.S.C. 682a), as amended, 79 tracts listed in Part 3 of this Order. These parcels are located in the following described lands which were classified under the above Act by Classification Order No. 74 of February 3, 1961 (26 F.R. 1315):

GILA AND SALT RIVER MERIDIAN

T. 1 N., R. 8 E.,
Sec. 36, NW¼, NE¼SW¼, N½SE¼.

The tracts will be offered to the general public in the sequence shown in Part 3 of this Order, beginning at 10 a.m., on March 29, 1962. The sale will be held in the Agriculture Building, Arizona State Fairgrounds, 1826 West McDowell Road, Phoenix, Arizona.

2. The center of the Apache Junction Area is at the intersection of the Apache Trail and U.S. Highway 60-70-80-89, and is 32 miles east of Phoenix, Arizona, on the lower southwestern slopes of the Superstition Mountain Range. The population is approximately 8,500 permanent residents. Three water companies service the area, electricity is available in all but the remote portions, and natural gas is being extended into outlying areas.

The subject lands are situated on the eastern fringe of the Apache Junction Area and are north of the U.S. Highway 60-70-80-89, and east of the main access road running northerly through the NE¼, Sec. 35, and they are considered equally desirable and potentially suitable for desert homesite development. The tracts can be identified by finding the brass cap survey markers for the east quarter corner and the west quarter corner of Sec. 36, and by finding the reference corners for the northwest section corner and the north quarter corner of Sec. 36. Electricity is available to this neighborhood from a power line running along the western boundary of Sec. 25 and the NW¼ Sec. 36. Natural gas and water are available at the Palm Springs development 2½ miles to the west, and can be extended into these lands as soon as sufficient demand exists. There are no zoning restrictions. The lands are accessible from U.S. Highway 60-70-80-89 by a graded, gravel road leaving this highway 3.5 miles southeast of Apache Junction, thence northeastward to the point of intersection with the north section line of Sec. 35. A recently cleared and graded road runs eastward along the line for ¼ mile to the northwest corner of the land, and continues east along the north side of Sec. 36, giving access to the northern portion of the area. The southern portion is accessible from a point on the U.S. Highway 4.25 miles southeast of Apache Junction, then northerly over unimproved roads and trails into the subject land.

The topography of the NW¼, NE¼SW¼, and the N½N½SE¼, Sec. 36, is quite flat, with a very gentle slope. Two main and several very small shallow washes traverse the area. The soils consist of sandy to silty loams, with occasional small gravelly areas. The S½N½SE¼, Sec. 36, is situated on the gentle northern slope of a low, rough desert mountain which rises rather abruptly just south of this land. This portion is particularly desirable for homesites because of its higher elevation, which affords an excellent view of the Superstition Mountain Range. The soils are quite gravelly, with low, rocky ridges in the extreme southern portion of the land.

The highest and best use for these lands is for desert homesite development.

The tracts will be subject to existing rights-of-way and to rights-of-way 50

feet in width on each side of every section line 40 feet on each side of all center section lines, 30 feet on each side of all sixteenth subdivision lines, and 25 feet on each side of all East-West sixty-fourth subdivision lines, for roads and utilities.

The minerals will be reserved to the United States. Each tract will contain 2½ acres.

3. The tract numbers, legal description, sides with right-of-way reservations, and the appraised value or minimum bid are shown on the table below:

Tract No.	Legal description	Sides with right-of-way reservation	Appraised value, minimum bid
1	NW¼NE¼NE¼NW¼	50 ft. North	$2,000
2	SE¼NE¼NE¼NW¼	40 ft. East and 25 ft. South	2,000

4. Bids may be made personally by the applicant or his agent at the sale, or may be mailed. Bids sent by mail will be considered only if received at the Arizona Land Office, Bureau of Land Management, 3022 Federal Building, Phoenix 25, Arizona, prior to 3:00 p.m., March 23, 1962. If sealed bids are submitted for more than one tract, no tract preference can be allowed since the tracts will be offered in numerical sequence. No sealed bid will be accepted if it is less than the appraised value of the tract. No oral bid will be accepted if it is less than $10.00 higher than the highest mailed bid, or, if there be none, if it be less than the appraised value of the tract. All bids must be in units of $10.00.

5. Persons who have previously acquired a tract under the Small Tract Act are not qualified to purchase a tract at the sale.

6. Bids sent by mail must be made by submitting a properly completed Small Tract Auction Application to Purchase, copies of which may be obtained from the Manager, U.S. Land Office, 3022 Federal Building, Phoenix 25, Arizona. Each bid sent by mail must clearly show on the name and post office address of the bidder, (b) Classification No. 74, and (c) the Tract Number of the land for which the bid is made. Each bid must be accompanied by the full amount of the bid in the form of cash, certified or cashier's check, post office money order or bank draft made payable to Bureau of Land Management. Each bid must be enclosed in a separate envelope, but payment need only accompany the highest bid, provided all other bids designate the envelope containing the payment. Each envelope must carry on its reverse the following information and nothing else: (a) "Classification No. 74."

(b) The number of the Tract for which the bid is made. Bids which are not filed in accordance with the above instructions will be rejected.

7. Each tract will be awarded to the highest qualified bidder. If the highest bid is oral, the bidder will be required to make payment for the tract at the close of bidding, and a personal check will be acceptable for that purpose. Any person who is declared high bidder for any tract will be disqualified for consideration for other tracts at the sale. High mailed bids will become the opening bid at the auction. All unsuccessful bids will be returned promptly after the auction.

8. Any tracts not sold when offered in the course of bidding and on which no qualifying mailed bid has been received, will be offered at public auction upon the motion of any qualified bidder beginning at 10:30 a.m., on Thursday, April 5, 1962, in the United States Land Office, Room 3204 (third floor), Federal Building, 230 North First Avenue, Phoenix, Arizona. The remaining tracts will continue subject to nomination and auction at that place each succeeding Thursday at 10:30 a.m. (except holidays), until all tracts are sold or until the auction is declared closed by the Manager, United States Land Office. Mailed bids in the format described in Part 4 received after March 29, 1962, will be considered at the next scheduled offering.

FRED J. WELLER,
State Director,
Arizona Land Office.

FEBRUARY 1, 1962.

Office of Saline Water

[Administrative Management Regulation No. 1]

PROCESS RESIDENT ENGINEERS

Delegation of Authority

SECTION 1. *Authority.* Each Process Resident Engineer in charge of a field office of the Office of Saline Water at field locations of demonstration plants is authorized to purchase supplies and materials and make contracts for supplies and materials when the amount involved in any one case does not exceed $2,000. Each Engineer is authorized to make contracts for supplies and materials and services for amounts exceeding $2,000 whenever public exigencies require immediate delivery of the supplies or materials, or performance of the service, to protect life, limb or loss of Government property.

SEC. 2. *Limitations.* The authority delegated in section 1 shall be exercised in accordance with applicable limitations in the Federal Property and Administrative Services Act of 1949, as amended, and in accordance with applicable policies, procedures and controls prescribed by the General Services Administration, the Department of the Interior, and the Director, Office of Saline Water.

SEC. 3. *Effective date.* This regulation is effective January 25, 1962.

(Order, 205 DM 11.1 and 11.4, Delegations of Authority by the Secretary of the Interior)

CHARLES F. MACGOWAN,
Director.

[Docket Nos. 14455, 14456; FCC 62M-163]

JEFFERSON RADIO CO. (WIXI) AND VOICE OF THE MID SOUTH

Order Continuing Hearing

In re applications of W. D. Frink, tr/as Jefferson Radio Co. (WIXI), Docket No. 14455, File No. BL-8187, for license to cover construction permit BP-10672 authorizing a new standard broadcast station at Irondale, Ala.; Fred H. Davis and W. D. Frink, d/b as Voice of the Mid South, Docket No. 14456, File No. BP-14118, for construction permit to build a new standard broadcast station at Centreville, Ala.

The Hearing Examiner having under consideration a change of date for commencement of hearing;

It appearing that a prehearing conference was held on February 2, 1962, and owing to the fact that the applicants are not at present represented by counsel and will need to secure counsel it was agreed that a change of the hearing date was imperative; and

It further appearing that the date of February 28, 1962, was established as the date for commencement of hearing by the Acting Chief Hearing Examiner;

It is ordered, This 2d day of February 1962, that the date for commencement of hearing is changed from February 28 to April 10, 1962.

Released: February 5, 1962.

JAMES H. WITHROW

Order To Show Cause

In the matter of James H. Withrow, Post Office Box 828, Saint Mary's, Ga., Docket No. 14497; order to show cause why there should not be revoked the license for Radio Station 6W3437 in the Citizens Radio Service.

The Commission, by the Chief, Safety and Special Radio Services Bureau, under delegated authority, having under consideration the matter of certain alleged violations of the Commission's rules in connection with the operation of Citizens radio station 6W3437;

It appearing, that, pursuant to § 1.76 of the Commission's rules, written notice of violation of the Commission's rules was served upon the above-named licensee as follows: Official notice of violation mailed on June 20, 1961, alleging that on June 11, 1961, Citizens radio station 6W3437 was observed in violation of the Commission's rules, viz: § 19.61(a)—transmission of idle conversation not considered substantive or necessary.

It further appearing, that, the above-named licensee received the official notice of violation, but did not make satisfactory reply thereto, whereupon the Commission by letter dated August 10, 1961, and sent by certified mail—return receipt requested (Certified No. 69792) again brought this matter to the attention of the licensee and requested that such licensee respond to the Commission's letter within 15 days from the date of its receipt, stating the measures which had been taken or were being taken in order to bring the operation of the radio station into compliance with the Commission's rules, and warning the licensee that failure to respond to such letter might result in the institution of proceedings for the revocation of the station license; and

It further appearing, that, receipt of the Commission's letter was acknowledged by the signature of the licensee, on August 14, 1961, to a Post Office Department return receipt card; and

It further appearing, that, in view of the foregoing, the licensee has repeatedly violated § 1.76 of the Commission's rules;

It is ordered, This 26th day of January 1962, pursuant to section 312(a)(4) of the Communications Act of 1934, as amended, and section 0.291(b)(8) of the Commission's statement of delegations of authority, that the said licensee show cause why the license for the above-captioned radio station should not be revoked, and appear and give evidence in respect thereto at a hearing to be held at a time and place to be specified by subsequent order; and

It is further ordered, That the Acting Secretary send a copy of this order by certified mail—return receipt requested—to the said licensee.

Released: January 29, 1962.

FEDERAL COMMUNICATIONS COMMISSION,

[Docket No. 14498]

JACK C. MUNSON

Order To Show Cause

In the matter of Jack C. Munson, 314 Avalon Boulevard, Wilmington, Calif., Docket No. 14498; order to show cause why there should not be revoked the license for radio station WH-6555 aboard the vessel "Lark".

The Commission, by the Chief, Safety and Special Radio Services Bureau, under delegated authority, having under consideration the matter of certain alleged violations of the Commission's rules in connection with the operation of the above-captioned station;

It appearing, that, pursuant to § 1.76 of the Commission's rules, written notice of violation of the Commission's rules was served upon the above-named licensee as follows: Official notice of violation mailed on October 11, 1961, alleging that on October 9, 1961, a copy of Part 8 of the Commission's rules was not available during inspection of radio station WH-6555, in violation of § 8.367(a)(2) of the Commission's rules; and a failure to have recorded in the station log each time the safety watch on 2182 kc, required by § 8.202(d), was begun, suspended, or concluded, in violation of § 8.368(a)(5) of the Commission's rules.

It further appearing, that the above-named licensee, received said official notice but did not make satisfactory reply thereto, whereupon the Commission, by letter dated November 13, 1961, and sent by certified mail—return receipt requested (Cert. No. 345110), brought this matter to the attention of the licensee and requested that such licensee respond to the Commission's letter within 15 days from the date of its receipt stating the measures which had been taken, or were being taken, in order to bring the operation of the radio station into compliance with the Commission's rules, and warning the licensee that failure to respond to such letter might result in the institution of proceedings for the revocation of the radio station license; and

It further appearing, that receipt of the Commission's letter was acknowledged by the signature of the licensee's agent, Aubrey Phelpott, on November 14, 1961, to a Post Office Department return receipt; and

It further appearing, that, although more than 15 days have elapsed since the licensee's receipt of the Commission's letter, no response was made thereto; and

It further appearing, that, in view of the foregoing, the licensee has repeatedly violated § 1.76 of the Commission's rules;

It is ordered, This 5th day of February 1962, pursuant to section 312 (a)(4) and (c) of the Communications Act of 1934, as amended, and section 0.291(b)(8) of the Commission's statement of delegations of authority, that the said licensee show cause why the license for the above-captioned radio station should not be revoked, and appear and give evidence in respect thereto at a hearing to be held at a time and place to be specified by subsequent order; and

It is further ordered, That the Secretary send a copy of this order by certified mail—return receipt requested—to the said licensee.

Released: February 7, 1962.

Order Continuing Hearing

In re applications of Columbia Basin Microwave Co., Docket No. 14318, File No. 1464-C1-R-61, for renewal of the license for station KOY40, a facility in the Domestic Public Point-to-Point Microwave Radio Service at Ephrata, Wash.; Docket No. 14319, File No. 4082-C1-AL-61, for consent to assignment of the license for station KOY40, a facility in the Domestic Public Point-to-Point Microwave Radio Service at Ephrata, Wash., from Patricia Hughes, d/b as Columbia Basin Microwave Co. to Columbia Basin Microwave Co., Inc.

The Hearing Examiner having under consideration a motion for continuance filed by Columbia Basin Microwave Co. (Columbia), on January 30, 1962, and the proceedings at the further prehearing conference in the above-entitled matter held on January 29, 1962;

It appearing, that on January 12, 1962, Columbia filed an application for change in an existing station owned by it but not involved in the proceedings herein, to provide microwave transmission service to a customer allegedly not directly controlled by, or under direct or indirect common control with Columbia at a new point of communication;

It further appearing, that at the aforementioned conference Columbia agreed not to file its petition for reconsideration and grant without hearing until the 30-day public notice period for the new application of January 12 had expired, or until such further time as may be necessary to satisfy the Common Carrier Bureau and to result in compliance, if necessary, with the appropriate provisions of the Commission's rules relating to defective applications (47 CFR 21.20(c));

It further appearing, that, in light of the foregoing, counsel for the Common Carrier Bureau agreed to interpose no objection to a grant of an indefinite continuance of the hearing herein;

It further appearing, that good cause has been shown for reaffirming the action taken by the Examiner in his order of November 30, 1961, following preliminary conference, at least to the extent of postponing the hearing until such time as the Commission shall have had the opportunity to act upon a petition for reconsideration and grant without hearing that Columbia proposes to file as soon as it has satisfied the Common Carrier Bureau regarding the acceptability of its application and as soon as relevant public notice periods have expired;

It is ordered, This 5th day of February 1962, that the motion for continuance filed by Columbia Basin Microwave Co. is granted insofar as it requests that the hearing herein be postponed until such time as the Commission shall have had an opportunity to act upon a proposed petition for reconsideration and grant without hearing: *Provided, however*, such postponement is without prejudice to the right of any party to request the designation of a specific hearing date for a good cause shown; and that the hearing herein is postponed as hereinabove set forth.

Released: February 6, 1962.

FEDERAL MARITIME COMMISSION

[Docket No. 972]

A. H. BULL STEAMSHIP CO.

Order To Show Cause

It appearing that on or about February 1, 1962, the A. H. Bull Steamship Co., a common carrier by water engaged in the carriage of goods between ports in Puerto Rico and United States North Atlantic ports, issued a notice to all shippers, entitled "Embargo Notice" wherein said carrier advised shippers that effective March 3, 1962, it is necessary for said carrier to place an "embargo" on the carriage of sugar, refined and turbinated, in bags, from ports in Puerto Rico to United States North Atlantic ports of Baltimore, Philadelphia, and New York; and

It further appearing that on or about February 5, 1962, said A. H. Bull Steamship Co. also issued an "Embargo Notice" wherein said carrier stated that effective February 10, 1962, due to a realignment of schedules and a curtailment of service, freight for Ponce and Mayaguez, Puerto Rico, will no longer be accepted; this notice to apply to service from the United States North Atlantic ports of New York, Baltimore, and Philadelphia; and

It further appearing that there is no evidence of any emergency condition or physical limitations of said carrier necessitating the imposition of embargoes; and

It further appearing that said carrier has on file with this Commission a schedule of freight rates which includes a rate for the carriage of sugar, refined and turbinated, in bags, from Puerto Rican ports to the United States North Atlantic ports of Baltimore, Philadelphia, and New York; neither a supplemental schedule nor a new schedule has been filed with the Commission by said carrier cancelling the aforementioned schedule of rates; and

It further appearing that said carrier also has on file with this Commission a schedule of freight rates for the carriage of commodities from the United States North Atlantic ports of Baltimore, Philadelphia, and New York to Puerto Rican ports including Ponce and Mayaguez; said carrier has not filed a new or supplemental schedule with this Commission cancelling this aforementioned schedule; and

It further appearing that section 2 of the Intercoastal Shipping Act, 1933, and this Commission's Freight and Passenger Tariff Regulations require a carrier to file with this Commission a new schedule or schedules to become effective not earlier than thirty days after date of filing, before any change shall be made in the rates, fares, charges, classifications, rules or regulations that have previously been filed with the Commission; and

It further appearing that the imposition of said embargoes may constitute unjust and unreasonable practices in violation of section 18(a) of the Shipping Act, 1916:

Now, therefore, it is ordered, Pursuant to section 2 of the Intercoastal Shipping Act, 1933, and sections 18 and 22 of the Shipping Act, 1916, that the A. H. Bull Steamship Co. show cause on or before February 20, 1962, why it should not be ordered to withdraw the aforementioned embargoes and to file and post new schedules cancelling the schedules now in force for the commodity and service which it proposes to discontinue; and

It is further ordered, That this order be published in the FEDERAL REGISTER and served on the A. H. Bull Steamship Co. who is named as respondent in this proceeding. Oral argument in this proceeding will be heard by the Commission on February 20, 1962, in Room 4519, 441 G Street NW., Washington, D.C., at 9:30 a.m., e.s.t. Notwithstanding the rules as to time and service of documents of this Commission's rules of practice and procedure, the parties to this proceeding shall adhere to the following schedule: Affidavits of fact and memoranda of law may be submitted to the Commission on or before the close of business on February 16, 1962, and replies thereto on or before the close of business on February 19, 1962. All persons having an interest in this proceeding, desiring to intervene therein, should notify the Secretary of the Commission promptly and may file petitions for leave to intervene up to the time of oral argument before the Commission; replies to petitions for leave to intervene shall be filed on or before the close of business on February 23, 1962. Parties seeking leave to intervene may file affidavits of fact and memoranda of law and replies in accordance with the schedule previously set forth. All documents or pleadings filed in this proceeding including petitions to intervene and replies thereto must be served by the person filing same upon all parties of record. The parties to this proceeding are directed to file their requests for time allotment for oral argument with the Secretary of the Commission on or before February 19, 1962.

By the Commission.

THOMAS LISI,
Secretary.

FEDERAL POWER COMMISSION

[Docket No. CI62-627]

HUMBLE OIL & REFINING CO.

Order on Motion To Dismiss Order To Show Cause and Terminate Proceedings

FEBRUARY 5, 1962.

On January 16, 1962, Humble Oil & Refining Company (Humble), filed a response to the Commission's order issued December 13, 1961, which required Humble to show cause why it should not file an application pursuant to section 7(c) of the Natural Gas Act to acquire by stock ownership the facilities of Olin Gas Transmission Corporation.

Humble, by its response, asks in the alternative, that (1) the Commission terminate its show cause proceeding and issue an order declaring that section 7(c) does not require that Humble obtain a certificate of public convenience and necessity before it consummates the acquisition of the stock of Olin Gas Transmission; (2) the Commission issue forthwith[1] a certificate of public convenience and necessity authorizing it to acquire all the outstanding capital stock of Olin Gas Transmission, if such a certificate is deemed required by section 7(c); (3) that, if the relief requested under (1) and (2) is denied, the Commission advance the date of hearing to February 19, 1961.

Humble's motion to terminate the proceeding and dismiss the Commission's order to show cause is predicated on the assumption that the acquisition of all the outstanding stock of Olin Gas Transmission by Humble does not constitute an "acquisition of facilities" within the meaning of section 7(c) of the Natural Gas Act. However, the order to show cause does not preclude Humble from asserting this contention in course of the proceedings. Humble may renew its motion after presenting evidence in support of its application.

The instant order is not to be construed in any way as a determination by the Commission, at this time, of the legal question of jurisdiction raised by Humble to the Commission's order to show cause.

The Commission finds:

(1) There are sufficient grounds for going forward with the proceedings instituted by the order to show cause.

(2) The motion for termination of the proceedings should be denied, without prejudice to its renewal at a subsequent stage of the case.

(3) The motion for issuance of a certificate after an abridged hearing should be denied on the ground that the Commission would not be in a position to make a determination of the issues which would be involved in certification without a record.

(4) It is necessary and appropriate in the public interest that the date of hearing be advanced to a date earlier than set in the Commission's order of December 13, 1961.

The Commission orders:

(A) The motion of Humble Oil and Refining Company to dismiss the order to show cause contained in its response to the Commission's order of December 13, 1961, is hereby denied, without prejudice.

(B) For the reasons stated above, the motion requesting the issuance of a certificate of public convenience and necessity after an abridged hearing is hereby denied.

(C) The public hearing in this proceeding, heretofore set for March 27, 1962, is advanced to March 2, 1962, at the same hour and place provided in the Commission's order of December 13, 1961.

By the Commission.

JOSEPH H. GUTRIDE,
Secretary.

[1] I.e., after an abridged hearing.

[Docket No. RP62-6]

NORTHERN NATURAL GAS CO.

Order Providing for Hearing on and Suspension of Rate Schedule and Related Service Agreement, Allowing Rate Schedule to Take Effect and Consolidating Proceedings

FEBRUARY 2, 1962.

On January 4, 1962, Northern Natural Gas Company (Northern), tendered filings relating to sales of natural gas subject to the jurisdiction of the Commission. Tendered were pipeline service Rate Schedule PL-B, pipeline overrun service Rate Schedule PO-B,[1] together with a related 20-year service agreement with Michigan Wisconsin Pipe Line Company, to become effective February 27, 1962, and interim Rate Schedule LPS-B,[2] the latter to be effective for the period extending from January 8, 1962, through February 26, 1962. These filings were submitted to implement the sale of up to 75,000 Mcf per day to Michigan Wisconsin in Northern's Rate Zone B as authorized in Docket No. G-20571 by order and Opinion No. 345, issued June 28, 1961. An effective date of January 8, 1962, is requested for interim Rate Schedule LPS-B; all other filings referred to herein are proposed to become effective February 27, 1962.

Proposed Rate Schedule PL-B is available for contract demand service in Northern's Rate Zone B to pipeline companies. The rate provided is $4.259 per Mcf of contract demand and 23.4 cents per Mcf of gas delivered. The monthly minimum bill is the demand charge plus the charge for 75 percent load factor use of contract demand. A 14.2 cents per Mcf demand charge adjustment is provided for under-deliveries and penalties are provided for unauthorized excess takes at $2.00 per Mcf for the larger of 3 percent of contract demand or 50 Mcf plus $10.00 per Mcf for additional volumes.

Proposed Rate Schedule PO-B is available to PL-B customers for over-run deliveries specifically authorized by Northern pursuant to advance operating arrangements. The rate provided is 23.4 cents per Mcf, the commodity rate under the PL-B Schedule.

The interim Rate Schedule LPS-B provides a straight rate of 37.4 cents per Mcf. Such rate is the 100 percent load factor average charge under Rate Schedule PL-B.

The service agreement provides for deliveries up to the contract demand of 75,000 Mcf per day at an interconnection in Janesville, Wisconsin. Estimated sales for the first year of service are 23,495,007 Mcf (about 86 percent load factor) for $9,330,931, or 39.7 cents per Mcf.

The proposed rates described above are based upon the settlement cost of service accepted in Docket Nos. G-19040, et al. However, inasmuch as the rates and charges set forth in Northern's Rate Schedules PL-B, PO-B and related service agreement reflect certain issues presently subject to determination in Docket Nos. G-19040, et al., these issues should be determined in a proceeding consolidated for hearing with the matters to be heard in Docket Nos. G-19040, et al.

The Commission finds:

(1) It is necessary and proper in the public interest to aid in the enforcement of the provisions of the Natural Gas Act that the Commission enter upon a public hearing concerning the issues indicated above as presented in Original Sheet Nos. 18p, 18q, 18r, 33m, and 33n to Northern's FPC Gas Tariff, First Revised Volume No. 1, and that such tariff sheets be suspended and the use thereof deferred as hereinafter ordered; the proceeding instituted herein should be consolidated with the consolidated proceedings in Docket Nos. G-19040, et al., for purposes of hearing and decision.

(2) Northern's service agreement referred to above should become effective February 28, 1962.

[1] Original Sheet Nos. 18p, 18q, 18r, 33m, and 33n to FPC Gas Tariff, First Rev. Vol. No. 1.

[2] Original Sheet No. 18s to FPC Gas Tariff, First Rev. Vol. No. 1.

(3) Good cause has been shown that Original Sheet No. 18s to Northern's FPC Gas Tariff, First Revised Volume No. 1 be accepted for filing and that it be permitted to become effective January 8, 1962, through February 27, 1962.

The Commission orders:

(A) Pursuant to the authority of the Natural Gas Act, particularly sections 4 and 15 thereof, the Commission's rules of practice and procedure, and the regulations under the Natural Gas Act (18 CFR Ch. 1), the issues presented by Northern's proposed tariff sheets referred to in (1) above shall be set for hearing, the proceeding hereby instituted to be consolidated for purposes of hearing and decision with the proceedings in Docket Nos. G-19040, et al.

(B) Pending hearing and decision thereon, Original Sheet Nos. 18p, 18q, 18r, 33m, and 33n to Northern's FPC Gas Tariff, First Revised Volume No. 1, are hereby suspended and the use thereof deferred until February 28, 1962, and until such further time as they may be made effective in the manner hereinafter prescribed.

(C) The rates, charges, classifications, and services set forth in the above-designated filings shall be effective as of February 28, 1962: *Provided, however,* That, within 20 days from the date of this order, Northern shall file a motion as required by section 4(e) of the Natural Gas Act to place the filings in effect on such date.

(D) Northern's service agreement relating to the tariff sheets set forth in paragraph (B) above shall be effective February 28, 1962.

(E) Original Sheet No. 18s to Northern's FPC Gas Tariff, First Revised Volume No. 1, is hereby accepted for filing and is allowed to become effective January 8, 1962, through February 27, 1962.

By the Commission.

JOSEPH H. GUTRIDE,
Secretary.

[Docket No. G 19115 etc.]

HASSIE HUNT TRUST ET AL.

Notice of Applications, Consolidation of Proceedings and Setting Date for Hearing

FEBRUARY 7, 1962.

Hassie Hunt Trust, Operator, et al., Docket No. G-19115; H. L. Hunt, Operator, et al., Docket No. G-19116; Hunt Oil Co., Docket No. G-19117; William Herbert Hunt Trust Estate, Operator, Docket No. G-19118; Lamar Hunt Trust Estate, Docket Nos. G-19124 and G-19125; H. L. Inc., Operator, et al., Docket No. G-19123; Placid Oil Co., Operator, et al., Docket Nos. G-19124 and G-19125; H. L. Hunt, Operator, et al., Docket No. CI61-1221; H. L. Hunt, Docket No. CI61-1282; Hassie Hunt Trust, Operator, et al., Docket No. CI61-1283; Caroline Hunt Sands, Docket No. CI61-1343; Caroline Hunt Trust Estate, Docket No. CI61-1344; Lamar Hunt Trust Estate, Docket No. CI61-1345; Nelson Bunker Hunt, Docket No. CI61-1346; Lamar Hunt, et al., Docket No. CI61-1736.

By order issued December 28, 1961, the matters involved in Docket Nos. G-19115, G-19116, G-19117, G-19118, G-19119, G-19123, G-19124, and G-19125 were set for hearing commencing March 28, 1962, at 10:00 a.m. e.s.t., in a hearing room of the Federal Power Commission (27 F.R. 132).

Take notice that each of the following listed Applicants has filed an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the construction and operation of facilities and the sale of natural gas in interstate commerce, as hereinafter described, all as more fully set forth in the respective applications which are on file with the Commission and open to public inspection.

Each applicant herein proposes to sell natural gas to Natural Gas Pipeline Company of America for transportation in interstate commerce for resale as indicated below:

Docket No., Seller, Date Application Filed, and Field and Location
CI61-1221; H. L. Hunt, Operator, et al.; February 15, 1961; Alvin City Field, Brazoria County, Tex.
CI61-1282; H. L. Hunt; February 27, 1961; Alta Loma Area, Galveston County, Tex.
CI61-1283; Hassie Hunt Trust, Operator, et al.; February 27, 1961; Alta Loma Area, Galveston County, Tex.
CI61-1343; Caroline Hunt Sands; March 15, 1961; Chenango Field, Brazoria County, Tex.
CI61-1344; Caroline Hunt Trust Estate; March 15, 1961; Chenango Field, Brazoria County, Tex.
CI61-1345; Lamar Hunt Trust Estate; March 15, 1961; Chenango Field, Brazoria County, Tex.
CI61-1346; Nelson Bunker Hunt; March 15, 1961; Chenango Field, Brazoria County, Tex.
CI61-1736; Lamar Hunt, et al.; June 6 1961; Zoller Field, Aransas and Calhoun Counties, Tex.

Applicants propose to make each of the above sales at an initial price of 20.0 cents per Mcf (including tax reimbursement) at 14.65 psia.

The public convenience and necessity require that the matters listed in the caption above be heard on a consolidated record and disposed of as promptly as possible under the applicable rules and regulations and to that end:

Take notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing will be held commencing on March 28, 1962, at 10:00 a.m., e.s.t., in a hearing room of the Federal Power Commission, 441 G Street NW., Washington, D.C., concerning the matters involved in and the issues presented by the above-listed applications.

Those parties who have been permitted to intervene in Docket Nos. G-19115, G-19116, G-19117, G-19118, G-19119, G-19123, G-19124, and G-19125 are considered interveners in those matters only.

Further protests, petitions to intervene or notices of intervention may be filed with the Federal Power Commission, Washington 25, D.C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) in Docket Nos. CI61-1221, CI61-1282, CI61-1283, CI61-1343, CI61-1344, CI61-1345, CI61-1346, and CI61-1736 on or before February 28, 1962.

JOSEPH H. GUTRIDE,
Secretary.

FEDERAL RESERVE SYSTEM

FIRST VIRGINIA CORP.

Notice of Application for Approval of Acquisition of Shares of a Bank

Notice is hereby given that application has been made to the Board of Governors of the Federal Reserve System pursuant to section 3(a)(2) of the Bank Holding Company Act of 1956 (12 U.S.C. 1842), by The First Virginia Corporation, which is a bank holding company located in Arlington, Virginia, for the prior approval of the Board of the acquisition by applicant of 80 percent or more of the voting shares of Peoples' Bank, Mount Jackson, Virginia.

In determining whether to approve this application submitted pursuant to section 3(a)(2) of the Bank Holding Company Act, the Board is required by that Act to take into consideration the following factors: (1) The financial history and condition of the company and the bank concerned; (2) their prospects, (3) the character of their management; (4) the convenience, needs, and welfare of the communities and the area concerned; and (5) whether or not the effect of such acquisition would be to expand the size or extent of the bank holding company system involved beyond limits consistent with adequate and sound banking, the public interest, and the preservation of competition in the field of banking.

Not later than thirty (30) days after the publication of this notice in the FEDERAL REGISTER, comments and views regarding the proposed acquisition may be filed with the Board. Communications should be addressed to the Secretary, Board of Governors of the Federal Reserve System, Washington 25, D.C.

Dated at Washington, D.C., this 6th day of February 1962.

By order of the Board of Governors.

[SEAL] MERRITT SHERMAN,
Secretary.

SECURITIES AND EXCHANGE COMMISSION

[File No. 37-62]

CON-GAS SERVICE CORP. AND CONSOLIDATED NATURAL GAS CO.

Notice of Proposed Organization and Conduct of Business of Subsidiary Service Company and Acquisition of Securities Thereof

FEBRUARY 5, 1962.

Notice is hereby given that Consolidated Natural Gas Company ("Consolidated"), a registered holding company, and Con-Gas Service Corporation ("Con-Gas"), 30 Rockefeller Plaza, New York 20, N.Y., a corporation recently organized by Consolidated, have filed a joint application-declaration and amendments thereto pursuant to sections 9(a), 10, and 13 of the Public Utility Holding Company Act of 1935 ("Act") and Rule 88 promulgated thereunder with respect to the organization and conduct of business of Con-Gas as a subsidiary service company in the Consolidated holding-company system and the acquisition by Consolidated of all of the capital stock and long-term notes proposed to be issued by Con-Gas.

All interested persons are referred to said amended application-declaration, on file in the office of the Commission, for a statement of the transactions proposed therein which are summarized as follows:

Consolidated owns all of the outstanding capital stock of six subsidiary companies which are engaged in the purchase, production, storage, transmission, and distribution of natural gas in the States of Ohio, Pennsylvania, and West Virginia. As at December 30, 1960, total consolidated assets of the holding-company system amounted to $782,000,000, and consolidated gross operating revenues for the year ended that date amounted to $363,000,000. Con-Gas was incorporated by Consolidated on October 27, 1961, under the laws of the State of Delaware.

It is proposed that Con-Gas will perform services at cost solely for associate companies in the Consolidated holding-company system. Con-Gas has been organized in order: (1) To centralize in a single service company the services presently being performed for system companies by Consolidated and four of its subsidiary companies; (2) to facilitate expansion of servicing activities in the holding-company system; and (3) to provide the means whereby the costs of services now being rendered by Consolidated to associate companies without charge may be allocated among such companies on an equitable basis.

The operations of Con-Gas are proposed to commence effective as of January 1, 1962, and are to embrace the following services: Executive and administrative; planning and economics; accounting; internal auditing; automatic data processing; employee benefits administration; employee relations; medical; engineering and facility planning; gas supply; gas exploration; market development; purchasing; rates and certificates; research; insurance; and tax. Further increases in servicing activities, including meter repair and testing, are planned in 1963 and 1964.

Of the 10 officers and 31 employees who are now employed by Consolidated, all but one officer and one employee will be transferred to the payroll of Con-Gas, although amounts ranging from 10 to 25 percent of the salaries of five of the officers being transferred will continue to be paid by Consolidated. The salaries and related expenses, payment of which Con-Gas will take over from Consolidated as a result of the aforesaid transfers, are estimated at approximately $1,107,000 in 1962. Con-Gas states that approximately 77 percent, or $852,000, of such salaries and related expenses will be billed to operating subsidiary companies and that the balance of $255,000, or 23 percent, will be billed to Consolidated. The aforesaid service charges to operating subsidiary companies are equivalent to 0.234 percent of the consolidated gross operating revenues of the holding-company system for 1960. Consolidated's operating expenses, after giving effect to the proposed transfers of personnel, are estimated at approximately $844,000 in 1962, including salaries and employee welfare expenses of $116,000 and service charges by Con-Gas of $273,000.

In addition, the 13 System Service Departments maintained by four of Consolidated's subsidiary companies, which heretofore have performed services for associate companies at cost under the supervision and direction of officers of Consolidated, will transfer to Con-Gas all of their employees, totaling 87, with estimated salaries, wages, and related expenses of approximately $2,446,500. In order to expand existing services, 16 other employees of the subsidiary companies with salaries, wages, and related costs of $334,000 will be transferred to Con-Gas, and 24 new employees with salaries and related expenses of $383,000 will be hired. It is stated that the additional services would be required irrespective of the proposed organization of Con-Gas.

None of the aforesaid proposed transfers of present personnel from Consolidated and its operating subsidiary companies to the payroll of Con-Gas will result in an increase in the consolidated operating expenses of the holding-company system. The salaries and related expenses of the 24 new employees, and a contingency provision estimated at $17,000 to cover salary upgradings and unforeseen costs in 1962, will result in an increase of approximately $400,000 in the consolidated operating expenses of the holding-company system.

The costs of the services proposed to be performed by Con-Gas will comprise all expenses of doing business, including interest on long-term notes held by Consolidated, but excluding a return for the use of equity capital for which associate companies will not be charged. It is estimated that such costs will total $4,425,700 in 1962, and these costs will be recorded in three categories, as follows:

(1) Departmental expenses will include those expenses that are directly attributable to each department of Con-Gas and an appropriate portion of those office and housekeeping expenses that are not directly attributable to the department but which are necessary for its operation. Such departmental expenses will include salaries and wages of officers and employees, rent and utilities, materials and supplies, depreciation, and other expenses attributable to the department.

(2) Company overhead expenses will include all corporate expenses, franchise and other general taxes, employee welfare expenses (which include non-productive time of personnel, retirement and disability benefits, and other costs incurred for the welfare of officers and employees), the expenses of keeping and auditing the accounts of Con-Gas, and all other overhead expenses not directly related to the operations of the departments.

(3) Out-of-pocket expenses will be those costs which are incurred for the direct benefit and convenience of an individual associate company or group of associate companies.

Associate companies will be billed each month for budgeted costs of services rendered, and at the end of the year such billings will be adjusted to an actual expense basis. The officers and employees in each department will be divided for billing purposes into two classes. Class A employees will include all personnel actually engaged in performing services

for associate companies, and such employees will maintain time reports recording their time actually spent in performing services for individual associate companies and groups of associate companies. Class B employees will include all other personnel of the department such as stenographers, clerks and other routine personnel.

Hourly departmental expense rates will be established at the beginning of each year for the purpose of billing associate companies for their respective shares of the expenses of each department. Such hourly rates will be based on estimates of productive time of employees and other costs of the department. Individual associate companies and groups of such companies will be billed amounts of departmental expenses which will be computed by applying the aforesaid hourly rates to time reported by Class A employees. Company overhead expenses will be distributed among associate companies and groups of companies in proportion to departmental expense charges. Out-of-pocket expenses will be billed directly to companies and groups of companies concerned. Charges to groups of associate companies will be allocated among companies comprising the groups on various bases such as gross revenues and numbers of employees of such companies.

In order to provide Con-Gas with initial capital of $1,000,000, Consolidated proposes to acquire, for cash, 5,000 shares of common stock of Con-Gas at the par value thereof of $100 per share and $500,000 principal amount of 4⅝ percent long-term non-negotiable notes at the principal amount thereof. Con-Gas anticipates that additional capital, as needed, will be procured through the issuance and sale of additional long-term notes to Consolidated.

The application-declaration states that the establishment of a single servicing organization in the holding-company system is for the benefit of all associate companies, that costs of services will be more equitably allocated among the associate companies, and that substantial savings in future system costs will be realized. It is also represented that the proposed changes in the servicing arrangements will not of themselves be the basis for seeking an increase in the rates charged by any of the operating subsidiaries and will not affect any pending rate negotiations or proceedings. No material amount of the charges proposed to be made by Con-Gas to operating subsidiary companies for services will be charged to the plant accounts of such subsidiary companies.

Consolidated and Con-Gas request that the amended application-declaration be granted and be permitted to become effective as at January 1, 1962, so as to allow temporary authority for the organization and conduct of business of Con-Gas for a period of 18 months, or such longer period as the Commission may determine, subject to further order of the Commission at the end of such period. Con-Gas agrees that, if the requested authorizations are allowed, it will supply the Commission during the 18-month temporary period with such reports as the Commission may request with respect to the organization and conduct of business of Con-Gas.

Notice is further given that any interested person may, not later than February 28, 1962, request in writing that a hearing be held on such matters, stating the nature of his interest, the reasons for such request, and the issues of fact or law raised by the amended application-declaration which he desires to controvert; or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington 25, D.C. A copy of such request should be served personally or by mail (air mail if the person being served is located more than 500 miles from the point of mailing) upon the applicant-declarants, and proof of service (by affidavit or, in case of an attorney-at-law, by certificate) should be filed contemporaneously with the request. At any time after said date, the application declaration, as amended or as further amended, may be granted and permitted to become effective, or the Commission may take such other action as it may deem appropriate.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

[F.R. Doc. 62-1379; Filed, Feb. 9, 1962; 8:46 a.m.]

[File No. 70-4012]

CONSOLIDATED NATURAL GAS CO.

Notice of Proposed Issuance and Sale of $25,000,000 Principal Amount of Debentures Pursuant to the Competitive Bidding Requirements

FEBRUARY 2, 1962.

Notice is hereby given that Consolidated Natural Gas Company ("Consolidated"), 30 Rockfeller Plaza, New York 20, N.Y., a registered holding company, has filed a declaration with this Commission pursuant to the provisions of the Public Utility Holding Company Act of 1935 ("Act") and the rules and regulations promulgated thereunder. Consolidated has designated sections 6(a) and 7 of the Act and Rule 50 promulgated thereunder as applicable to the proposed transaction.

All interested persons are referred to the declaration on file at the office of the Commission for a statement of the transaction therein proposed, which is summarized as follows:

Consolidated proposes to issue and sell, pursuant to the competitive bidding requirements of Rule 50 promulgated under the Act, $25,000,000 principal amount of -- percent Debentures due March 1, 1987. The interest rate (to be a multiple of ⅛ of 1 percent) and the price to be paid to Consolidated (to be not less than 99 percent nor more than 102 percent of the principal amount thereof, exclusive of accrued interest) will be determined by the bidding. The Debentures will be issued as an initial series under an Indenture dated as of March 1, 1962, between Consolidated and Morgan Guaranty Trust Company of New York, as Trustee. It is proposed that a sinking fund of $1,000,000 will be deposited annually commencing March 1, 1967, thereby leaving a balance of $5,000,000 payable at the maturity of the issue.

The proceeds from the proposed sale of Debentures will provide the long-term financing required for the 1962 construction program of the subsidiaries of Consolidated, presently estimated at $60,600,000. It is expected that the balance of the required construction funds will be obtained by Consolidated through a short-term bank loan, presently estimated at $20,000,000, and from internal cash sources of the Consolidated system.

Until funds are required by the subsidiary companies for their construction programs, the proceeds from the proposed sale of Debentures will be used temporarily to reduce Consolidated's seasonal gas storage bank loans, and to make short-term investments in U.S. Treasury bills.

The declaration states that no State commission and no Federal commission, other than this Commission, has jurisdiction over the proposed transaction.

It is estimated that the fees and expenses of Consolidated will aggregate $96,000 including printing costs of $38,000; Trustee's fees and expenses of $11,000, including counsel fees of $1,500; accounting fees and expenses of Price Waterhouse & Co. of $5,000; consulting geologist's fees and expenses of $5,000; Federal original issue tax of $27,500; New York Stock Exchange listing fees of $3,000; Securities and Exchange Commission filing fee of $2,575; and miscellaneous fees and expenses of $3,925. Counsel fees of Cahill, Gordon, Reindel & Ohl, counsel for the underwriters, which are to be paid by the successful bidder, will be supplied by amendment.

Notice is further given that any interested person may, not later than February 19, 1962, request in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request, and the issues of fact or law raised by said declaration which he desires to controvert; or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington 25, D.C. A copy of such request should be served personally or by mail (air mail if the person being served is located more than 500 miles from the point of mailing) upon declarant, and proof of service (by affidavit or, in case of an attorney-at-law, by certificate) should be filed contemporaneously with the request. At any time after said date, the declaration, as amended, may be permitted to become effective as provided in Rule 23 of the general rules and regulations promulgated under the Act, or the Commission may grant exemption from such rules as provided in Rules 20(a) and 100 thereof or take such other action as it may deem appropriate.

By the Commission.

HEARING EXAMINERS

Delegation Relating to Hearings Under the Small Business Investment Act Amendments of 1961

I. Pursuant to the authority vested in the Administrator by the Small Business Act (1958) (72 Stat. 384), as amended, and the Small Business Investment Act of 1958 (72 Stat. 689), as amended (75 Stat. 752), there is hereby delegated to the Hearing Examiners, appointed or selected in accordance with section 11 of the Administrative Procedure Act (60 Stat. 244), the authority:

To issue subpoenas authorized by section 309 of the Small Business Investment Act Amendments of 1961 (75 Stat. 752), in connection with adjudicative proceedings under said section 309.

II. The authority delegated herein may not be redelegated.

Effective date: January 17, 1962.

JOHN E. HORNE, *Administrator.*

[F.R. Doc. 62-1385; Filed, Feb. 9, 1962; 8:47 a.m.]

DESCRIPTION OF ORGANIZATION AND FUNCTIONS

Authority. The Small Business Administration exercises its responsibilities under the Small Business Act (1958), 72 Stat. 384, as amended, and the Small Business Investment Act of 1958, 72 Stat. 689, as amended.

Purpose. To aid, counsel, assist, and protect, insofar as possible, the interest of small business concerns in order to preserve free competitive enterprise; to insure that a fair proportion of the total purchases in contracts for supplies and services for the Government be placed with small business enterprises; and to maintain and strengthen the overall economy of the Nation. To aid and assist victims of floods or other catastrophes. To stimulate and supplement the flow of private equity capital and long-term loans to small business by small business investment companies and state and local development companies.

Functions. To make a detailed definition of what constitutes a small business concern using, among other criteria, number of employees and dollar volume of business; make loans to small business concerns to finance plant construction, conversion, or expansion or to finance the acquisition of equipment, facilities, machinery, supplies, or materials, and to supply such concerns with working capital; make loans to aid victims of floods or other catastrophes and displaced business disaster loans; certify the competency of small business concerns or production pools to perform Government contracts; enter into joint determinations with Government procuring agencies with respect to procurements and sales that are suitable for award to small business concerns; consult with procurement officials in order to attain full use of productive capacity of small business concerns; recommend approval of small business defense production pools; take prime contracts and sublet their performance to small businesses; provide technical and managerial aids to small business; make an inventory of productive facilities of small concerns; to obtain information as to methods and practices which Government prime contractors utilize in letting subcontracts and cooperatively develop with the Department of Defense and the General Services Administration a small business subcontracting program to enable small business concerns to be considered fairly as subcontractors to Government prime contractors; consult with Government agencies to insure fair and reasonable treatment for small business concerns; counsel and advise small firms on foreign trade matters; assist small firms obtain Government contracts for research and development and obtain the benefits of research and development performed with Government funds; license and regulate small business investment companies; and make loans to small business investment companies and state and local development companies, and under authority delegated by the Secretary of Commerce, perform revelant functions provided for in the Area Redevelopment Act.

Organization. Management of the Small Business Administration is vested in an Administrator appointed by the President with the advice and consent of the Senate. The Administrator is authorized to appoint three Deputy Administrators under the Small Business Act and one Deputy Administrator under the Small Business Investment Act. The Administrator is authorized, subject to the Civil Service and Classification Laws, to select employees, appoint and fix the compensation of such officers, employees, attorneys, and agents as shall be necessary to carry out the provisions of the Small Business Act of 1958 and the Small Business Investment Act of 1958.

The Small Business Act of 1958 created the Loan Policy Board of the Small Business Administration which consists of the following members: The Administrator as chairman, the Secretary of the Treasury, and the Secretary of Commerce (or the presidentially appointed designee of each of said Secretaries). The Loan Policy Board is charged with the establishment of general policies (particularly with reference to the public interest) which govern the granting and denial of applications for financial assistance by the Administration.

A Hearing Examiner or Hearing Examiners appointed or selected in accordance with section 11 of the Administrative Procedure Act, shall conduct hearings pursuant to section 309 of the Small Business Investment Act of 1958,

as amended, and whose functions in such capacity shall be appropriately separated from investigative and prosecuting functions of the staff as required by law.

The Investment Division of the Agency, through its Compliance Branch, conducts prosecuting and investigative functions under sections 309 and 310 of the Small Business Investment Act.

The headquarters office of the Small Business Administration is located at 811 Vermont Avenue NW., Washington 25, D.C. Further information concerning the organization and functions of SBA can be obtained by calling the Agency Information and Reception Center, DUdley 2-3301. The organization of the Washington Office is as follows:

Administrator—
- Office of Hearing Examiners.
- Office of Economic Adviser.
- Office of the General Counsel:
  - Liquidation and Litigation Division.
  - Loan Division.
  - Legal Investment Division:
    - Licensing and Operations Branch.
    - Development Companies Branch.
    - Regulations Branch.
  - Legislative Division.
  - Procurement and Administrative Division.

Deputy Administrator for Financial Assistance—
- Office of Loan Processing:
  - Area Loan Groups (4).
- Office of Loan Administration:
  - Loan Servicing Division.
  - Liquidation Division.
- Office of Financial Services:
  - Reports and Special Studies Division.
  - Procedures and Program Division.

Deputy Administrator for Procurement and Technical Assistance—
- Office of Procurement and Technical Assistance:
  - Plans and Program Coordination Staff.
  - Technical Services Division:
    - Production Assistance Branch.
    - Industrial Services Branch.
    - Research and Development Branch.

FIELD ORGANIZATION

The programs of the Small Business Administration are administered by the following regional and subordinate field offices:

Region I. 470 Atlantic Avenue, Boston Mass. Serving Massachusetts, Maine, New Hampshire, Vermont, and Rhode Island.

Field offices—
1. 116 State Street, Augusta, Maine.
2. 72 North Main Street, Concord, N.H.
3. 79 Main Street, Montpelier, Vt.
4. 57 Eddy Street, Providence, R.I.

Region II. 42 Broadway, New York 4, N.Y. Serving New York, Connecticut, and New Jersey counties of Bergen, Essex, Hudson, Hunterdon, Middlesex, Monmouth, Morris, Passaic, Somerset, Sussex, Union, and Warren.

Field offices—
1. 44 Gillett Street, Hartford, Conn.
2. 500 South Salina Street, Syracuse, N.Y.

Region III. 1015 Chestnut Street, Philadelphia 7, Pa. Serving Pennsylvania, Delaware, New Jersey, counties of Atlantic, Burlington, Camden, Cape May, Cumberland, Gloucester, Mercer, Ocean, and Salem; and West Virginia counties of Brook, Hancock, Marshall, Monongalia, Ohio, Preston, and Wetzel.

Field office—
1. 107 Sixth Street, Pittsburgh 22, Pa.

Region IV. 900 North Lombardy Street, Richmond 20, Va. Serving Virginia, District of Columbia, Maryland, North Carolina, South Carolina, and West Virginia except the counties of Brooke, Hancock, Marshall, Monongalia, Ohio, Preston, and Wetzel.

Field offices—
1. Fayette and St. Paul Streets, Baltimore 2, Md.
2. 500 Quarrier Street, Charleston, W. Va.
3. 102 West Trade Street, Charlote, N.C.
4. 227 West Pike Street, Clarksburg, W. Va.
5. 1745 Sumter Street, Columbia, S.C.
6. 608 13th Street NW., Washington 25, D.C.

Region V. 90 Fairlie Street NW., Atlanta 3, Ga. Serving Georgia, Alabama, Florida, Mississippi, Tennessee, Commonwealth of Puerto Rico, and the Virgin Islands.

Field offices—
1. 2030 First Avenue North, Birmingham, Ala.
2. Capital and West Streets, Jackson 1, Miss.
3. 502 South Gay Street, Knoxville, Tenn.
4. 168 Southeast First Street, Miami 32, Fla.
5. Sixth Avenue and Church Street, Nashville 3, Tenn.
6. 1200 Ponce de Leon Avenue, Santurce, P.R.
7. 47 West Forsyth, Jacksonville 2, Fla.

Region VI. 1370 Ontario Street, Cleveland 13, Ohio. Serving Ohio and Kentucky.

Field office—
1. Fourth and Broadway, Louisville 2, Ky.

Region VII. 105 West Adams Street, Chicago 3, Ill. Serving Illinois counties of Bureau, Carroll, Cass, Champaign, Christian, Clark, Coles, Cook, Cumberland, De Kalb, De Witt, Douglas, Du Page, Edgar, Ford, Fulton, Grundy, Hancock, Henderson, Henry, Iroquois, Jo Daviess, Kane, Kankakee, Kendall, Knox, Lake, La Salle, Lee, Livingston, Logan, McDonough, McHenry, McLean, Macon, Marshall, Mason, Menard, Mercer, Morgan, Moultrie, Ogle, Peoria, Piatt, Putnam, Rock Island, Sangamon, Schuyler, Shelby, Stark, Stephenson, Tazewell, Vermilion, Warren, Whiteside, Will, Winnebago, and Woodford; Iowa; Indiana; and Southern Wisconsin counties of Adams, Brown, Calumet, Clark, Columbia, Crawford, Dane, Dodge, Door, Fond du Lac, Grant, Green, Green Lake, Iowa, Jackson, Jefferson, Juneau, Kenosha, Kewaunee, La Crosse, Lafayette, Langlade, Manitowoc, Marathon, Marinette, Marquette, Milwaukee, Monroe, Oconto, Outagamie, Ozaukee, Portage, Racine, Richland, Rock, Sauk, Shawano, Sheboygan, Vernon, Walworth, Washington, Waukesha, Waupaca, Waushara, Winnebago, and Wood.

Field offices—
1. Fifth and Grand Avenue, Des Moines, Iowa.
2. 130 East Washington Street, Indianapolis 4, Ind.
3. 114 North Carroll Street, Madison, Wis.

Region VIII. 603 Second Avenue, Minneapolis 2, Minn. Serving Minnesota, North Dakota, South Dakota, and Wisconsin counties of Ashland, Barron, Bayfield, Buffalo, Burnett, Chippewa, Douglas, Dunn, Eau Claire, Florence, Forest, Iron, Lincoln, Oneida, Pepin, Pierce, Polk, Price, Rusk, St. Croix, Sawyer, Taylor, Trempealeau, Vilas, and Washburn.

Field offices—
1. 207 North Fifth Street, Fargo, N. Dak.
2. 109½ North Main Avenue, Sioux Falls, S. Dak.

Region IX. 1006 Grand Avenue, Kansas City 6, Mo. Serving Missouri, Kansas, Nebraska, and Illinois counties of Adams, Alexander, Bond, Brown, Calhoun, Clay, Clinton, Crawford, Edwards, Effingham, Fayette, Franklin, Gallatin, Greene, Hamilton, Hardin, Jackson, Jasper, Jefferson, Jersey, Johnson, Lawrence, Macoupin, Madison, Marion, Massac, Monroe, Montgomery, Perry, Pike, Pope, Pulaski, Randolph, Richland, St. Clair, Saline, Scott, Union, Wabash, Washington, Wayne, White and Williamson.

Field offices—
1. 215 North 17th Street, Omaha 2, Nebr.
2. 1520 Market Street, St. Louis 3, Mo.
3. 120 South Market Street, Wichita, Kans.

Region X. 1000 Main Street, Dallas 2, Tex. Serving Texas, Arkansas, Oklahoma, and Louisiana.

Field offices—
1. 1624 Hadley Street, Houston 2, Tex.
2. 700 West Capitol Avenue, Little Rock, Ark.
3. 1616 19th Street, Lubbock, Tex.

MOTOR CARRIER TRANSFER PROCEEDINGS

FEBRUARY 7, 1962.

Synopses of orders entered pursuant to section 212(b) of the Interstate Commerce Act, and rules and regulations prescribed thereunder (49 CFR Part 179), appear below:

As provided in the Commission's special rules of practice any interested person may file a petition seeking reconsideration of the following numbered proceedings within 20 days from the date of publication of this notice. Pursuant to section 17(8) of the Interstate Commerce Act, the filing of such a petition will postpone the effective date of the order in that proceeding pending its disposition. The matters relied upon by petitioners must be specified in their petitions with particularity.

No. MC-FC 64399. By order of January 31, 1962, the Transfer Board approved the transfer to Dalen Rickard, Linden, Wisconsin, of Certificate in No. MC 100846, issued May 1, 1958, to Burton Nodorft, Platteville, Wis., authorizing the transportation of: livestock, agricultural commodities, dairy cattle, feed, fertilizer, tankage, building materials, agricultural machinery, and farm machinery, from, to, or between specified points in Illinois, Wisconsin, Minnesota, and Iowa. John L. Bruemmer, 121 West Doty Street, Madison 3, Wis., Attorney for applicants.

No. MC-FC 64409. By order of January 31, 1962, the Transfer Board approved the transfer to Penbrook Hauling Company, Inc., 701 Bosler Avenue, Lemoyne, Pa., of a portion of the operating rights in Certificate No. MC 117574, issued May 12, 1959, to Daily Express, Inc., P.O. Box 311, Carlisle, Pa., authorizing the transportation of: Truck bodies and trailers, in initial movements, in truckaway service, from Camp Hill, Pa., to points in the United States, and damaged or returned trailers from points in the United States to Camp Hill, Pa.

No. MC-FC 64456. By order of January 31, 1962, the Transfer Board approved the transfer to Connell Transport Co., Inc., Dover, Del., of Permits Nos. MC 111442 Sub 1, and MC 111442 Sub 5, issued February 12, 1957, and February 8, 1961, respectively, to Connell Transport Co., a corporation, Genesee Depot, Wis., authorizing the transportation of: raw and pasteurized milk and cream and condensed skim milk, in containers, empty containers, eggs, empty egg cases, meat, meat products, and byproducts, dairy products and articles distributed by meat packinghouses, bakery products, confectionery, prepared foods, and frozen foods, from, to, or between specified points in Wisconsin, Texas, New Mexico, New Jersey, and Illinois. William C. Dineen, 710 North Plankinton Avenue, Milwaukee, Wis., attorney for applicants.

No. MC-FC 64676. By order of January 31, 1962, the Transfer Board approved the transfer to Frick Transport Inc., Wawaka, Ind., of the operating rights in Certificate No. MC 90897, issued November 30, 1960, to O. W. Martin, doing business as Martin Trucking, Cromwell, Ind., authorizing the transportation, over irregular routes, of feed, fertilizer, and binder twine, from Chicago and Chicago Heights, Ill., to points in DeKalb, Steuben, Noble, and LaGrange Counties, Ind., and fertilizer, from Chicago, Ill., to points in Defiance and Williams Counties, Ohio. Donald W. Smith, 511 Fidelity Building, Indianapolis 4, Ind., applicant's attorney.

No. MC–FC 64688. By order of January 31, 1962, the Transfer Board approved the transfer to Leonard J. Krantz, Eau Claire, Wis., of the entire operating rights in Certificate No. MC 109680 and a portion of the operating rights in Certificate No. MC 109680 Sub 2, issued January 19, 1956, and August 7, 1958, respectively, to Leo Burns and Earl Burns, a partnership, doing business as Burns Trucking Company, Schofield, Wis., authorizing the transportation, over irregular routes, of livestock, from points in Marathon County, Wis., to South St. Paul and Newport, Minn., feed, fertilizer, tankage, and farm machinery, from South St. Paul, Newport, St. Paul, and Minneapolis, Minn., to points in Marathon County, Wis., and animal and poultry feed and animal and poultry feed concentrates, in bulk, from Minneapolis and St. Paul, Minn., to points in Wisconsin. Edward Solie, 1 South Pinckney Street, Madison 3, Wis., applicants' attorney.

No. MC–FC 64691. By order of January 31, 1962, the Transfer Board approved the transfer to The Gem Van and Storage Company, a corporation, Hartford, Conn., of the operating rights in Certificate No. MC 34376, issued January 21, 1941, to Charles Lewis, doing business as Roland Lewis & Son, New Haven, Conn., authorizing the transportation of household goods, over irregular routes, between points in Connecticut, on the one hand, and, on the other, points in Delaware, Maryland, Massachusetts, New Jersey, New York, Pennsylvania, Rhode Island, and the District of Columbia, and of new and used store fixtures, over irregular routes, between points in Connecticut, on the one hand, and, on the other, points in Massachusetts, New Jersey, and New York. Sidney L. Goldstein, 109 Church Street, New Haven, Conn., applicants' attorney.

No. MC–FC 64703. By order of January 31, 1962, the transfer Board approved the transfer to Sheehan Carriers, Inc., Suffern, N.Y., of the operating rights in Certificate No. MC 59655, issued March 18, 1954, to Sheehan Transport, Inc., Suffern, N.Y., authorizing the transportation, over regular routes, of general commodities, excluding household goods, commodities, in bulk, and other specified commodities, between Albany, N.Y., and Newark, N.J., between Lodi, N.Y., and Newburgh, N.Y., and piece goods, finished and unfinished, felt, hatters' fur, and paper bags, between Newark, N.J., and Philadelphia, Pa., and over irregular routes, of oil, alcohol, and chemicals, from Grasselli, N.J., and Gulfport, N.Y., to Monticello, Port Jervis, Liberty, and Livingston Manor, N.Y., and general commodities, excluding household goods, commodities, in bulk, and other specified commodities, between points in Passaic, Bergen, Hudson, Essex, and Union Counties, N.J., on the one hand, and, on the other, New York, N.Y., and points in Westchester, Rockland, and Orange Counties, N.Y. Martin Werner, 2 West 45th Street, New York 36, N.Y., applicants' attorney.

No. MC–FC 64735. By order of January 31, 1962, the Transfer Board approved the transfer to Jeff A. Robertson, doing business as Topeka Motor Freight, 705 East Highway 24, Topeka, Kans., of Certificates Nos. MC 106904 and MC 106904 Sub 3, issued May 15, 1956, and May 1, 1961, to Topeka Motor Freight, Inc., 705 East Highway 24, Topeka, Kans., authorizing the transportation of: General commodities excluding household goods, commodities in bulk, and other specified commodities, between Kansas City, Mo., and Topeka, Kans., serving all intermediate points on U.S. Highway 40, and the off-route points in the Kansas City, Mo.-Kansas City, Kans., Commercial Zone, and the site of the Goodyear plant northwest of the city limits of Topeka; and between Atchison, Kans., and Kansas City, Mo., over specified highways, serving the intermediate points of Victory Junction, Lansing, Richardson, Soldiers' Home, Leavenworth, Fort Leavenworth, and Lowemont, Kans., and the intermediate and off-route points in the Kansas City, Mo.-Kansas, Commercial Zone; malt beverages, pickles, spices, and mustard, from St. Louis, Mo., over U.S. Highway 40 to Topeka, Kans.; malt beverages, from St. Louis, Mo., over U.S. Highway 40 to St. Louis, Mo.; and empty malt beverage containers, from Topeka, Kans., over U.S. Highway 40 to St. Louis, Mo., and from Lawrence, Kans., over U.S. Highway 40 to St. Louis, Mo.

[SEAL] HAROLD D. McCOY, *Secretary*

[F.R. Doc. 62-1393; Filed, Feb. 9, 1962; 8:49 a.m.]

FEDERAL REGISTER

Telephone WOrth 3-3261

Published daily, except Sundays, Mondays, and days following official Federal holidays, by the Office of the Federal Register, National Archives and Records Service, General Services Administration, pursuant to the authority contained in the Federal Register Act, approved July 26, 1935 (49 Stat. 500, as amended; 44 U.S.C., ch. 8B), under regulations prescribed by the Administrative Committee of the Federal Register, approved by the President. Distribution is made only by the Superintendent of Documents, Government Printing Office, Washington 25, D.C.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for $1.50 per month or $15.00 per year, payable in advance. The charge for individual copies (minimum 15 cents) varies in proportion to the size of the issue. Remit check or money order, made payable to the Superintendent of Documents, directly to the Government Printing Office, Washington 25, D.C.

The regulatory material appearing herein is keyed to the CODE OF FEDERAL REGULATIONS, which is published, under 50 titles, pursuant to section 11 of the Federal Register Act, as amended August 5, 1953. The CODE OF FEDERAL REGULATIONS is sold by the Superintendent of Documents. Prices of books and pocket supplements vary.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER, or the CODE OF FEDERAL REGULATIONS.

Title 3—THE PRESIDENT

Proclamation 3449

NATIONAL POISON PREVENTION WEEK

By the President of the United States of America

A Proclamation

WHEREAS accidental poisoning consistently takes a substantial toll of lives each year, especially among very young children; and

WHEREAS virtually all deaths attributable to this cause could be prevented; and

WHEREAS prevention of accidental poisoning can best be promoted through a vigorous program designed to alert parents and others responsible for protection of children against this hazard; and

WHEREAS by a joint resolution approved September 26, 1961 (75 Stat. 681), the Congress has requested the President to issue annually a proclamation designating the third week in March as National Poison Prevention Week:

NOW, THEREFORE, I, JOHN F. KENNEDY, President of the United States of America, do hereby proclaim the week beginning March 18, 1962, as National Poison Prevention Week.

I direct the appropriate agencies of the Federal Government, and I invite State and local governments and organizations interested in child safety, to participate actively in programs intended to promote better protection against accidental poisonings.

IN WITNESS WHEREOF, I have hereunto set my hand and caused the Seal of the United States of America to be affixed.

DONE at the City of Washington this seventh day of February in the year of our Lord nineteen hundred and sixty-two, and of [SEAL] the Independence of the United States of America the one hundred and eighty-sixth.

JOHN F. KENNEDY

By the President:

DEAN RUSK,
Secretary of State.

[F.R. Doc. 62-1483; Filed, Feb. 9, 1962; 2:26 p.m.]

Executive Order 10992

REDEFINING THE BOUNDARIES OF THE CARIBBEAN NATIONAL FOREST—PUERTO RICO

By virtue of the authority vested in me by Section 24 of the Act of March 3, 1891 (26 Stat. 1103; 16 U.S.C. 471), the Act of June 4, 1897 (30 Stat. 34, 36; 16 U.S.C. 473), and Section 11 of the Act of March 1, 1911 (36 Stat. 963; 16 U.S.C. 521), and as President of the United States, and upon the recommendation of the Secretary of Agriculture, it is hereby ordered as follows:

The exterior boundaries of the Caribbean National Forest in Puerto Rico, established as the Luquillo Forest Reserve by Proclamation Number 41 of January 17, 1903 (32 Stat. 2029), and renamed the Caribbean National Forest by Executive Order Number 7059–A of June 4, 1935, are hereby relocated and redefined as follows:

Beginning at the point where the parallel of 18°21′ north latitude intersects the meridian of 65°45′ west longitude; thence east to latitude 18°21′, longitude 65°44′; thence south to latitude 18°20′, longitude 65°44′; thence east to latitude 18°20′, longitude 65°42′; thence south to latitude 18°17′, longitude 65°42′; thence west to latitude 18°17′, longitude 65°43′; thence south to latitude 18°15′, longitude 65°43′; thence west to latitude 18°15′, longitude 65°45′; thence south to

latitude 18°14', longitude 65°45'; thence west to latitude 18°14', longitude 65°50'; thence north to latitude 18°15', longitude 65°50'; thence west to latitude 18°15', longitude 65°55'; thence north to latitude 18°17', longitude 65°55'; thence east to latitude 18°17', longitude 65°53'; thence north to latitude 18°20', longitude 65°53'; thence east to latitude 18°20', longitude 65°51'; thence north to latitude 18°21', longitude 65°51'; thence east to latitude 18°21', longitude 65°45', the point of beginning.

All lands of the United States within those exterior boundaries are hereby reserved as parts of the Caribbean National Forest.

JOHN F. KENNEDY

THE WHITE HOUSE.
February 9, 1962.

[F.R. Doc. 62-1488; Filed, Feb. 9, 1962; 2:49 p.m.]

Executive Order 10993

CONSOLIDATING THE HIAWATHA AND MARQUETTE NATIONAL FORESTS (MICHIGAN) AND CORRECTING THE LAND DESCRIPTIONS OF NEBRASKA NATIONAL FOREST (NEBRASKA) AND WASATCH NATIONAL FOREST (UTAH)

By virtue of the authority vested in me by Section 24 of the Act of March 3, 1891 (26 Stat. 1103; 16 U.S.C. 471), the Act of June 4, 1897 (30 Stat. 34, 36; 16 U.S.C. 473), Section 11 of the Act of March 1, 1911 (36 Stat. 963; 16 U.S.C. 521), and Section 32(c), Title III, of the Bankhead-Jones Farm Tenant Act (50 Stat. 526; 7 U.S.C. 1011(c)), and as President of the United States, and upon the recommendation of the Secretary of Agriculture, it is ordered as follows:

1. All those lands within the State of Michigan that were proclaimed as the Marquette National Forest by Proclamation of February 12, 1931 (46 Stat. 3050), as amended, are hereby transferred to and made a part of the Hiawatha National Forest as proclaimed by Proclamation of January 16, 1931 (46 Stat. 3043), as amended, and the Marquette National Forest is hereby abolished.

2. That part of Proclamation Number 3379 of November 8, 1960 (25 F.R. 10863) which describes land in Sec. 25, T. 32 N., R. 49 W., Sixth Principal Meridian, included within the Nebraska Forest, is amended by substituting "E½SW¼" for "W½SW¼".

3. That part of Executive Order Number 10844 of October 9, 1959 (24 F.R. 8289) which describes lands in Sec. 7, T. 9 S., R. 4 W., Salt Lake Meridian, included in the Wasatch National Forest, Utah, is amended by inserting a comma in the description "E½SW¼SE¼" so as to make that part of that description read "E½SW¼, SE¼".

4. That part of Section 3 of Executive Order Number 10890 of October 27, 1960 (25 F.R. 10331) which describes lands in T. 34 S., R. 2 W., Salt Lake Meridian, is amended so as to correct the description with respect to Section 21 by substituting "W½SE¼" for "E½ SE¼", and is supplemented by including in the descriptions with respect to Section 15 "SW¼NE¼," and with respect to Section 22 the following:

Those parts of the lands shown on Plat B of the Winder Townsite, Garfield County, Utah, described as follows:

Lot:	*Block*	Lot:	*Block*
4	1	1	15
3	2	1	16
1, 3, 4	4	4	18
2, 3, 4	5	2, 4	19
1	7	4	20
1, 4	8	1, 3	21
2, 4	10	2, 3, 4	22
1, 2, 3, 4	12	1, 4	23
2, 4	13	3	24
1, 2	14	1, 3	25

Lot 3, Block 17—that part described as beginning at the northwest corner of Lot 3, Block 17, Plat B, Winder Townsite Survey and running thence south 10 rods, thence east 9 rods, thence north 10 rods, thence west 9 rods to place of beginning.

JOHN F. KENNEDY

THE WHITE HOUSE.
February 9, 1962.

Rules and Regulations

Title 14—AERONAUTICS AND SPACE

Chapter III—Federal Aviation Agency

SUBCHAPTER C—AIRCRAFT REGULATIONS

[Reg. Docket No. 1067; Amdt. 397]

PART 507—AIRWORTHINESS DIRECTIVES

Boeing 707/720 Series and Douglas DC-8 Series Aircraft

Amendment 369, 26 F.R. 10963, requires inspection of the main oil screen of all Pratt and Whitney Aircraft engines installed in Boeing 707/720 and Douglas DC-8 Series aircraft. The results of the inspections conducted indicate that only certain engines which are subjected to higher internal temperatures experience screen blockage. Therefore, Amendment 369 is being amended to apply only to the JT3C-12 and JT3D Series engines.

Since this amendment relaxes a requirement and imposes no additional burden on any person, notice and public procedure hereon are unnecessary and the amendment may be made effective upon publication in the FEDERAL REGISTER.

In consideration of the foregoing, and pursuant to the authority delegated to me by the Administrator (25 F.R. 6489), § 507.10(a) of Part 507 (14 CFR Part 507), is hereby amended as follows:

Amendment 369, 26 F.R. 10963, Boeing 707/720 Series and Douglas DC-8 Series aircraft, is amended by:

Changing the applicability statement to read:

Applies to all 707/720 Series and DC-8 Series aircraft equipped with Pratt & Whitney Aircraft JT3C-12, JT3D-1, JT3D-1-MC6, JT3D-1-MC7, and JT3D-3 engines.

This amendment shall become effective February 13, 1962.

(Sec. 313(a), 601, 603; 72 Stat. 752, 775, 776; 49 U.S.C. 1354(a), 1421, 1423)

Issued in Washington, D.C., on February 7, 1962.

G. S. MOORE,
Acting Director,
Flight Standards Service.

[Reg. Docket No. 1068; Amdt. 398]

PART 507—AIRWORTHINESS DIRECTIVES

Piper Aircraft

Amendment 266, 26 F.R. 2247, requires repetitive inspections of the fabric along the top edge of the windshield on several models of Piper aircraft. It has been substantiated that the incorporation of the modification covered in Piper Service Letter No. 362 eliminates the need for these inspections on Models PA-20 and PA-22 aircraft. Accordingly, a paragraph is being added to Amendment 266 to eliminate the inspections on these models after completion of the modification.

Since this amendment relaxes a requirement and imposes no additional burden on any person, notice and public procedure hereon are unnecessary and the amendment may be made effective upon publication in the FEDERAL REGISTER.

In consideration of the foregoing, and pursuant to the authority delegated to me by the Administrator (25 F.R. 6489), § 507.10(a) of Part 507 (14 CFR Part 507), is hereby amended as follows:

Amendment 266, 26 F.R. 2247, Piper aircraft, is amended by adding the following new paragraph (e) and the parenthetical reference statement at the end of the directive:

(e) When the modification outlined in Piper Service Letter No. 362, dated November 30, 1961, is incorporated in Piper Models PA-20 and PA-22 aircraft, the repetitive inspections required by paragraphs (a) and (b) may be discontinued on these aircraft.

(Piper Service Bulletin No. 174B, and Piper Service Letter No. 362, both dated November 30, 1961, cover this same subject.)

This amendment shall become effective Feburary 13, 1962.

(Sec. 313(a), 601, 603, 72 Stat. 752, 775, 776; 49 U.S.C. 1354(a), 1421, 1423)

Issued in Washington, D.C., on February 7, 1962.

G. S. MOORE,
Acting Director,
Flight Standards Service.

Title 19—CUSTOMS DUTIES

Chapter I—Bureau of Customs, Department of the Treasury

[T.D. 55561]

PART 6—AIR COMMERCE REGULATIONS

Alternate Procedures; Transportation in Bond of Air Cargo

The increase in the volume of air cargo to be transported by aircraft beyond ports of first arrival of aircraft or ports at which residue cargo procedures terminate, which cargo is not yet released by Customs into the domestic commerce, has caused burdens to both airlines and Customs by reason of presently required documentation of individual shipments.

On September 12, 1961, a notice of proposed rule making was published in the FEDERAL REGISTER (26 F.R. 8517) that alternate procedures for transportation of merchandise in bond were being considered for application to air cargo shipped subject to customs control to a port of destination in the United States, or shipped through the United States for exportation from another United States airport, or exported directly from the port of arrival. These procedures to simplify controls over such shipments in order to lessen delays and documentation would be available when air cargo arrives in the United States on an aircraft of one airline for further transportation on aircraft of different airlines. These procedures would also be available when air cargo is to be transported beyond the port of first arrival on the aircraft bringing the goods to this country in the event such aircraft does not proceed under the residue cargo procedure. They would also be available when air cargo is transferred between aircraft of the same airline and the receiving aircraft does not proceed under the residue cargo procedure. These procedures for certain types of transportation of merchandise in bond would be in addition to existing procedures and would be for use by interested parties who elect to comply with the requirements.

No comments or arguments have been received by the Customs Service in opposition to the proposed new sections of regulations. However, suggestions were received for clarification and modification of certain of the proposed provisions. In addition to incorporating such changes, certain editorial changes have also been made.

Accordingly, it has been decided to add to Part 6 of these regulations such new sections, and they are hereby adopted to read as follows:

§ 6.17 Alternate transportation procedures for air cargo subject to customs control.

Cargo (including manifested baggage) arriving by aircraft and to be transported subject to customs control in, through, or from the United States by aircraft must, if not transported in accordance with other provisions of the regulations of this part, be transported in bond in accordance with the applicable provisions of §§ 6.18 through 6.24. Such cargo so transported shall be referred to as "transit air cargo." For the purposes of these sections, the term "port of arrival" means the port in the United States at which the imported cargo must be documented for onward air transportation otherwise than as residue cargo, and the terms "transfer" or "transferred" mean the change to documentation of cargo as transit air cargo for transportation from the port of arrival; this may or may not involve a change of aircraft or airlines but when it does, such terms shall also include the physical movement of the cargo from one to another aircraft.

(Secs. 551, 552, 553, 46 Stat. 742, as amended; 19 U.S.C. 1551, 1552, 1553)

§ 6.18 Documentation for transit air cargo.

(a) Customs Form 7509, Air Cargo Manifest, printed, stamped, or labeled "Transit Air Cargo Manifest" must be used as the manifest for transit air cargo. The cargo manifest sheet in the inward cargo manifest of the importing aircraft and each copy thereof required for a transit air cargo movement must be so printed, stamped, or labeled. Each transit air cargo manifest sheet must be a duplicate, insofar as identification of the cargo and other data, of the corresponding manifest sheet in the inward cargo manifest presented for the aircraft on which the cargo arrives in the United States.

(b) Only air cargo shipments from one country of exportation, the name of which must be shown in the heading, may be listed on any one transit air cargo manifest sheet, or in lieu of such limitation the name of the country of exportation of each shipment must be shown in the "Nature of Goods" column. In addition thereto, only such shipments which are manifested by way of the port of arrival (1) to the same United States Customs port of destination, or (2) to the same United States Customs port for exportation therefrom, or (3) for direct exportation from the port of arrival may be listed on one transit air cargo manifest sheet.

(c) If manifest sheets are not prepared in accordance with paragraph (b) of this section, each cargo shipment manifested thereon, whn required to be transported subject to customs control, must be transported beyond the port of arrival in accordance with other provisions of these regulations requiring individual documentation for the inward transportation or exportation of each shipment (see § 6.15 and Parts 5 and 18 of this chapter).

(d) When presented, each transit air cargo manifest sheet must show also (1) the foreign port of lading, (2) the date of arrival of the aircraft at the port of arrival, (3) the final country of destination of each shipment, or final port of destination in the United States of each shipment so destined, and (4) each United States port at which a customs function will be necessary by reason of these transit air cargo procedures. The destination outside the United States must be shown as the actual, ultimate country of destination indicated by available airline shipping documents even though the air transportation may be scheduled to terminate in a country prior to such ultimate destination.

(e) All transit air cargo other than that exported directly from the port of arrival must have affixed thereto before departure from the port of arrival the red warning label prescribed by § 18.4(e) of this chapter.

(f) The transit air cargo manifest must be furnished in the number of copies indicated below for the respective transportation movement:

(1) Three copies are required for transit air cargo destined for export directly from the port of arrival;

(2) Four copies are required for transit air cargo moving to a port of destination in the United States from the port of arrival;

(3) Seven copies are required for transit air cargo moving from the port of arrival to another United States port for exportation therefrom.

§ 6.19 Identification of transit air cargo manifest sheets.

Upon presentation of the inward cargo manifest of the aircraft on which the cargo arrives at the port of arrival, a manifest number must be assigned by Customs to the aircraft entry documents presented by the aircraft commander or authorized agent. That number must be used by the importing airline to identify all copies of transit air cargo manifests. The number must be given as a prefix an identification of the airport of arrival with the use of the 3-letter city or airport designator (the Air Traffic Service Location Identifier, as referred to by the Federal Aviation Agency); for example, "Idl–3758," or "Bos–296" as the case may be.

§ 6.20 Conditions for transportation of transit air cargo.

(a) As a condition for customs release for transportation of air cargo beyond the port of arrival as transit air cargo, all required copies of a transit air cargo manifest sheet must be identified as prescribed in § 6.19 prior to presentation to Customs.

(b) To proceed from the port of arrival as transit air cargo, air cargo must be receipted for in the manner prescribed in paragraph (d) of this section, within the lay order period or any authorized extension (see § 4.37 of this chapter), by the airline which will be responsible for transporting or exporting such cargo.

(c) Transit air cargo may be transported to another port only when receipted for by an airline designated as a common carrier for the transportation of bonded merchandise having on file an appropriate customs bond for such transportation. Transit air cargo may be exported from the port of arrival only when covered by an exportation bond on customs Form 7557 or 7559 as specified in § 18.25 of this chapter, or other appropriate bond. The responsibility of the receiving airline for transit air cargo otherwise than for direct exportation from the port of arrival begins when a receipt executed as prescribed in paragraph (d) of this section is presented to customs. The responsibility of the exporter of transit air cargo for direct exportation begins when a receipt executed as prescribed in paragraph (d) of this section is presented to customs. If any carting for delivery to a receiving airline is necessary prior to such time, the importing airline remains solely responsible for such cargo under its bond unless such carting is performed under the provisions of Part 21 of this chapter and at the expense of the parties in interest.

(d) Each copy of the transit air cargo manifest must bear the following statement legibly signed and dated, if required, when presented to customs:

Received the cargo listed herein for delivery to Customs at the port of destination or exportation shown above, or for direct exportation.

Name of Carrier (or Exporter)

Attorney or Agent of Carrier (or Exporter)

Date

(e) All cargo shipments listed on a transit air cargo manifest sheet must be receipted for by one airline and must be transported from the port of arrival on one aircraft except where the use of more than one aircraft would be permitted by § 6.15(b)(4) in the case of a single combined entry and manifest on customs Form 7512, or where the use of more than one aircraft is permitted as specified in § 6.24(f). Otherwise, all shipments on the transit air cargo manifest must be individually documented and transported under the regular procedures for transportation of merchandise in bond.

§ 6.21 Timely delivery and exportation.

(a) Transit air cargo destined to a final port of destination in the United States must be delivered to Customs at destination within 15 days from the date of receipt by the forwarding airline at the port of arrival.

(b) Transit air cargo destined for exportation at a port other than the port of arrival must be delivered to Customs at the port of exportation within 15 days from the date of receipt by the forwarding airline at the port of arrival. If all of the cargo shipments are not exported within the succeeding 15-day period, the individual cargo shipments must be made the subject of individual entries, as appropriate, at the port of exportation.

(c) In the case of transit air cargo to be exported from the port of arrival, exportation as transit air cargo must be required within 10 days from the date of receipt of the cargo by the exporting airline. After such 10-day period, the individual cargo shipments must be made the subject of individual entries, as appropriate.

§ 6.22 Transportation of transit air cargo to an interior port of destination.

(a) Air cargo shipments may be transferred for transportation as transit air cargo from the port of arrival, under such customs supervision as the collector deems necessary, to another port in the United States with the use of the following number of copies of transit air cargo manifest sheets:

(1) A "carrier manifest" copy to accompany the cargo shipments listed thereon and be delivered to Customs at destination;

(2) Three copies for presentation to Customs at the port of arrival at the time of entry of the arriving aircraft or at a subsequent time before expiration of the lay order period. One copy will be used as a "permit" copy by Customs at the port of arrival, one "mail manifest" copy will be mailed by Customs to the port of destination, and one "control" copy will be mailed to the headquarters port for the port of destination. These copies must be presented by or on behalf of the carrier receipting for the transportation of the cargo shipments to destination.

(b) At the port of destination Customs must use the carrier manifest copy for control by noting thereon the disposition of each cargo shipment listed.

(c) Transit air cargo is to be delivered to Customs at destination within 15 days of the date of receipt for it by the forwarding carrier at the port of arrival. When all or part of the cargo covered by the mail manifest copy received at destination from Customs at the port of arrival is not closed out after 30 days from its receipt by a posted carrier manifest copy, the collector of customs must inquire of the receipting carrier as to the whereabouts of the shipment or shipments not accounted for. He must in each case of failure to deliver or irregular delivery of all or part of the transit air cargo make a report to the port of arrival. The report must be made no later than 40 days from the date of receipt of the mail manifest copy. The report must be made to, and action promptly taken thereon by, Customs at the port of arrival in the manner specified in §§ 18.6 and 18.8 of this chapter, except that the report on customs Form 3861 must not indicate the amount of duty or tax due when the amount is in doubt. In such case, Customs at the port of arrival must make the determination of tax and duty due on information in the report, in the permit copy retained there, and any necessary information obtained from the carriers.

(d) Upon receipt of a written notice of failure to deliver, the airline which receipted for the transit cargo must be responsible for furnishing within 90 days to the collector of customs any data or documents available to it or to the importing airline concerning the description and value of the cargo shipments in question.

(e) Penalties imposed as liquidated damages under the common carrier's bond for shortage, failure to deliver, etc., must be the same as prescribed in § 18.8 of this chapter. Under that section the basis for the assessment of liquidated damages is the value of the merchandise. The transit air cargo manifest does not reflect value. Therefore, when it is necessary to determine the values of merchandise shipped as transit air cargo, the value must be determined by the collector on the basis of the data or documents specified in paragraph (d) of this section and such other information available to him relating to merchandise of the same or similar description or origin. However, when the data or documents required to be furnished by paragraph (d) of this section are not received within the 90-day period prescribed, the collector will make his determination of value on the basis of such other information available to him.

§ 6.23 Transportation of transit air cargo to another port for exportation.

(a) Air cargo shipments may be transferred for transportation as transit air cargo from the port of arrival, under such customs supervision as the collector deems necessary, to another port for exportation therefrom with the use of the following number of copies of transit air cargo manifest sheets:

(1) A "carrier manifest" copy to accompany the cargo shipments listed thereon and be delivered to Customs upon arrival of the shipments at the port of exportation;

(2) A copy which is stamped, labeled, or printed "diversion copy" in outline letters at least 1 inch in height to be attached to and accompany the carrier manifest copy and be delivered to Customs at the port of exportation;

(3) Three copies, called "permit", "mail manifest", and "control" copy, for presentation to Customs at the port of arrival either at the time of entry of the arriving aircraft or at a subsequent time before expiration of the lay order period. These copies must be presented by or on behalf of the airline receipting for the transportation of the cargo shipments from the port of arrival to the port of exportation for lading for export at such place;

(4) Two copies, called "Exportation" and "Clearance" copies, to be presented by the exporting airline to Customs at the port of exportation in connection with the exportation.

(b) Upon arrival of the transit air cargo shipments at the port of exportation, the transit air cargo may be delivered direct to the exporting carrier with the exportation and clearance copies after the name of such carrier is legibly noted on the carrier manifest and diversion copies and such copies are delivered to Customs.

(c) The exporting carrier will retain all cargo listed on a transit air cargo manifest in one place which must be separate from the specially designated area for storage of shipments coming within the provisions of paragraph (e) of this section. When the goods are ready for lading on the exporting aircraft, Customs will be notified sufficiently in advance so as to be able to make any required supervision of the lading of the

cargo and any further checks for Federal Government purposes.

(d) When presented to Customs, the exportation and clearance copies must each show the exporting aircraft's number and flight number and date. The exporting airline must file these documents (including the clearance copies of transit air cargo manifests) for the departing aircraft. The clearance copies of air transit cargo manifests shall be grouped together in the outward manifest separately and not intermingled with other outward manifest pages. The exportation copies shall be grouped together separately from the outward clearance documents.

(e) The customs officer receiving the carrier manifest and diversion copies of the transit air cargo manifest must review them for export licensing requirements of the Secretary of State covering arms, ammunitions, and implements of war, and of the Bureau of International Programs, Department of Commerce. A shipment for which the manifest information is not adequate to enable the officer to determine that no licensing or other requirements are applicable to the particular transit air cargo must be checked either by examination or by inspecting the air waybill or accompanying invoice. In this case, in order not to delay the onward movement of other goods, this shipment may be struck from the transit air cargo manifest and the remaining shipments may proceed. If a licensing or other requirement is found applicable, the exporting airline must be immediately notified that the particular shipment cannot be exported until an appropriate license or approval is obtained. This shipment must be placed under constructive customs custody in a specially designated area of the exporting airline's cargo terminal for such shipments until the necessary customs or other approval for shipment is obtained.

(f) The diversion copy of each transit air cargo manifest sheet must be sent by the port of diversion, with an endorsement of exportation showing the port, date, and exporting carrier, to the port of indicated exportation when all cargo shipments listed thereon have been exported at the port of diversion. It shall normally be sent as soon as the exportation copy or copies are presented at the port of exportation and are attached to the carrier manifest, and it is verified that all shipments listed thereon are exported. If exceptions are found by Customs at the port of exportation, they must be noted on the diversion copy before it is sent. However, if the carrier's manifest copy is not fully closed out at the port of diversion within 30 days from the date of the carrier's receipt on the carrier manifest and diversion copies, the diversion copy must be immediately sent to the port of indicated exportation to forestall a report to the port of arrival (see paragraph (g) of this section). The diversion copy must be noted before sending, "Exportation copy not yet received—further report will follow if necessary."

(g) When the mail manifest copy is received, Customs will file it according to identification number (see § 6.19); that is, numerically by port of arrival. When all or part of the cargo covered by a mail manifest copy is not closed out by a carrier manifest copy, or a diversion copy endorsed by Customs at another port, within 40 days from the date of receipt of the mail manifest copy, the collector of customs must, without making inquiry of any carrier, make an appropriate report to the port of arrival and this report must be processed and action taken in accordance with § 6.22 (c), (d), and (e).

(h) If all of the cargo listed on one transit air cargo manifest sheet is not laden for exportation from the same port in the United States by the same airline, individual entries on customs Form 7512 for transportation and exportation in accordance with § 6.15 or for direct exportation in accordance with § 18.25 of this chapter must be required for each cargo shipment listed on such transit air cargo manifest sheet. Until all cargo shipments covered by one transit air cargo manifest are received at a port for exportation, none may be exported except under individual entries. If it is necessary to export on more than one aircraft of the same airline the cargo shipments listed on one transit air cargo manifest sheet, the procedure in § 6.24(f) shall be applicable. When individual entries are required or the cargo is exported at the same port on more than one aircraft, the carrier manifest copy will be posted and used by Customs as in the case of the carrier manifest for cargo destined to a port of destination in the United States (see § 6.22(b)).

§ 6.24 Exportation of transit air cargo at port of arrival.

(a) Transit air cargo may be transferred for exportation at the port of arrival in the United States with the use of three copies of the transit air cargo manifest; a "review" copy, an "exportation" copy, and a "clearance" copy.

(b) At the port of arrival, transit air cargo may be transferred for exportation immediately: *Provided*, (1) That, as soon as it is known to which airline cargo shipments will be transferred for exportation, the importing airline files with Customs a copy of each transit air cargo manifest sheet covering such cargo shipments, which copy need not be receipted by the airline to which the cargo will be transferred, but the name of the exporting airline must be inserted on such review copy by the importing airline; and (2) that the transfer is subject to supervision, examination of cargo, manifest review, etc., as may be required for compliance with regulations of other Federal agencies.

(c) The exportation copy and the clearance copy must be filed with Customs by or on behalf of the exporting airline which receipts for the shipments. The clearance copy must be presented with and retained in the departing aircraft's clearance documents. The exportation copy must be presented at the time the clearance documents are presented to Customs. Both copies must, in addition to bearing the receipt of the exporting airline, show the exporting aircraft's number, flight number, and date.

(d) Upon receipt of the review copy of the transit air cargo manifest sheets, Customs must make the review prescribed in the case of the carrier manifest copy in § 6.23(e). The reviewing officer must take appropriate action if a license is found to be applicable for any cargo. The exporting airline will be notified to place under constructive customs custody any transit air cargo shipment subject to special licenae. The exporting airline must then place any transit air cargo shipment subject to special license in a specially designated area of its cargo terminal until the necessary license is obtained.

(e) When exportation copies are filed, Customs must use them to close out the transit air cargo manifest sheets in the inward manifest of the aircraft on which the transit air cargo arrived at the port.

(f) If all transit air cargo shipments listed on any one transit air cargo manifest sheet are not exported directly on the same aircraft, an additional exportation and clearance copy must be required for each shipment or group of shipments listed thereon departing on any other aircraft of the exporting airline. In this event, each copy of the transit air cargo manifest sheet must be clearly marked to show which shipment or shipments listed thereon are covered thereby.

(g) Separate export entries on customs Form 7512 in accordance with § 18.25 of this chapter must be required for all shipments listed on any one transit air cargo manifest sheet if not all such shipments are exported from the same port by the same aircarrier. When separate export entries are required, the copy of the transit air cargo manifest sheet in the inward manifest of the importing aircarrier must be posted as in the case of the carrier manifest for cargo destined to a port of destination in the United States (see § 6.22(b)).

(R.S. 161, as amended, 251, secs. 551, 552, 553, 624, 46 Stat. 742, as amended, 759, sec. 1109, 72 Stat. 799; 5 U.S.C. 22, 19 U.S.C. 66, 1551, 1552, 1553, 1624, 49 U.S.C. 1509)

In order to enable interested carriers and collectors of customs to familiarize themselves fully with the requirements of these procedures before they take effect, this Treasury Decision shall be effective beginning the day following 30 days after its publication in the FEDERAL REGISTER.

[SEAL] PHILIP NICHOLS, JR.,
Commissioner of Customs.

Approved: February 6, 1962.

JAMES A. REED,
Assistant Secretary of the Treasury.

Title 21—FOOD AND DRUGS

Chapter I—Food and Drug Administration, Department of Health, Education, and Welfare

SUBCHAPTER A—GENERAL

PART 1—REGULATIONS FOR THE ENFORCEMENT OF THE FEDERAL FOOD, DRUG, AND COSMETIC ACT

Changes in Labeling Requirements for Drugs

Since promulgation of § 1.106 (b)(3) and (c)(3) (21 CFR 1.106; 26 F.R. 8389), the Commissioner of Food and Drugs has been informed that certain drugs subject to section 505, 506, or 507 of the Federal Food, Drug, and Cosmetic Act may be in the category of those drugs for which use information is commonly known to medical practitioners and that it is therefore not necessary for manufacturers of such preparations to provide such use information in labeling.

Therefore, pursuant to the provisions of the act (sec. 701(a), 52 Stat. 1055; 21 U.S.C. 371(a)), and under the authority delegated to the Commissioner by the Secretary of Health, Education, and Welfare (25 F.R. 8625), § 1.106 (b)(3) and (c)(3) are changed to read as set forth below:

§ 1.106 Drugs and devices; directions for use.

* * * * * * *

(b) *Exemption for prescription drugs.* * * *

(3)(i) Labeling on or within the package from which the drug is to be dispensed bears adequate information for its use, including indications, effects, dosages, routes, methods, and frequency and duration of administration, and any relevant hazards, contraindications, side effects, and precautions under which practitioners licensed by law to administer the drug can use the drug safely and for the purposes for which it is intended, including all purposes for which it is advertised or represented; and

(ii) If the article is subject to section 505, 506, or 507 of the act, the labeling bearing such information is the labeling authorized by the effective new-drug application or required as a condition for the certification or the exemption from certification requirements applicable to preparations of insulin or antibiotic drugs: *Provided, however,* That the information required by subdivision (i) of this subparagraph may be omitted from the dispensing package if, but only if, the article is a drug for which directions, hazards, warnings, and use information are commonly known to practitioners licensed by law to administer the drug. Upon written request, stating reasonable grounds therefor, the Commissioner will offer an opinion on a proposal to omit such information from the dispensing package under this proviso.

* * * * * * *

(c) *Exemption for veterinary drugs.* * * *

(3)(i) Labeling on or within the package from which the drug is to be dispensed bears adequate information for its use, including indications, effects, dosages, routes, methods, and frequency and duration of administration, and any relevant hazards, contraindications, side effects, and precautions under which veterinarians licensed by law to administer the drug can use the drug safely and for the purposes for which it is intended, including all purposes for which it is advertised or represented; and

(ii) If the article is subject to section 505 or 507 of the act, the labeling bearing such information is the labeling authorized by the effective new-drug application or required as a condition for the certification or the exemption from certification requirements applicable to preparations of antibiotic drugs: *Provided, however,* That the information required by subdivision (i) of this subparagraph may be omitted from the dispensing package if, but only if, the article is a drug for which directions, hazards, warnings, and use information are commonly known to veterinarians licensed by law to administer the drug. Upon written request, stating reasonable grounds therefor, the Commissioner will offer an opinion on a proposal to omit such information from the dispensing package under this proviso.

Notice and public procedure are not necessary prerequisites to the promulgation of this order, since it relaxes existing requirements.

Effective date. This order shall become effective March 5, 1962.

(Sec. 701(a), 52 Stat. 1055; 21 U.S.C. 371(a))

Dated: February 7, 1962.

GEO. P. LARRICK,
Commissioner of Food and Drugs.

[F.R. Doc. 62-1431; Filed, Feb. 12, 1962; 8:47 a.m.]

SUBCHAPTER B—FOOD AND FOOD PRODUCTS

PART 16—ALIMENTARY PASTES; DEFINITIONS AND STANDARDS OF IDENTITY

Enriched Vegetable Macaroni Products, Enriched Vegetable Noodle Products

In the matter of establishing definitions and standards of identity for enriched vegetable macaroni products and enriched vegetable noodle products:

A notice of proposed rule making was published in the FEDERAL REGISTER of December 22, 1961 (26 F.R. 12256), setting forth proposals filed by National Macaroni Manufacturers Association, 156 Chambers Street, New York 7, New York, for establishing standards of identity for enriched vegetable macaroni products and enriched vegetable noodle products. The notice invited all interested persons to submit comments on the proposals. The time for filing comments has ended and no comments were received.

Upon consideration of the information furnished by the petitioner and other relevant information, it is concluded that it will promote honesty and fair dealing in the interest of consumers to establish definitions and standards of identity for enriched vegetable macaroni products and for enriched vegetable noodle products, as hereinafter set forth. Therefore, pursuant to the provisions of the Federal Food, Drug, and Cosmetic Act (secs. 401, 701, 52 Stat. 1046, 1055, as amended 70 Stat. 919, 72 Stat. 948; 21 U.S.C. 341, 371) and under the authority delegated to the Commissioner of Food and Drugs by the Secretary of Health, Education, and Welfare (25 F.R. 8625): *It is ordered*, That definitions and standards of identity for enriched vegetable macaroni products and for enriched vegetable noodle products be established as follows:

§ 16.11 Enriched vegetable macaroni products; identity; label statement of optional ingredients.

(a) Each of the macaroni products for which a definition and standard of identity is prescribed by this section conforms to the definition and standard of identity and is subject to the requirements for label statement of optional ingredients prescribed for macaroni products by § 16.1 (a) and (f), and in addition is enriched to meet the requirements prescribed for enriched macaroni products by § 16.9 and contains a vegetable ingredient in compliance with the requirements prescribed for vegetable macaroni products by § 16.5.

(b) The name of each food for which a definition and standard of identity is prescribed by this section is "Enriched _____ macaroni product," or, alternatively, the name is "Enriched _____ macaroni," "Enriched _____ spaghetti," or "Enriched _____ vermicelli," when the units comply with the shape and size requirements prescribed for macaroni, spaghetti, or vermicelli in § 16.1 (b), (c), or (d). The blank in each instance is filled in with the name of the vegetable used, as specified in § 16.5(a). For example, the name of an enriched macaroni product containing the prescribed amount of spinach and made in units not conforming in shape and size to the requirements for macaroni, spaghetti, or vermicelli is "Enriched spinach macaroni product."

§ 16.12 Enriched vegetable noodle products; identity; label statement of optional ingredients.

(a) Each of the noodle products for which a definition and standard of identity is prescribed by this section conforms to the definition and standard of identity and is subject to the requirements for label declaration of optional ingredients prescribed for noodle products by § 16.6 (a), (g), and (h), and in addition is enriched to meet the requirements prescribed for enriched noodle products by § 16.10 and, except as hereinafter provided, contains a vegetable ingredient in compliance with the requirements prescribed for vegetable noodle products by § 16.8. Carrots, because they are apt to impart an egg-yolk color, are not used in enriched vegetable noodle products.

(b) The name of each food for which a definition and standard of identity is prescribed by this section is "Enriched ---------- noodle product," "Enriched ---------- egg noodle product," or, alternatively, the name is "Enriched ---------- noodles" or "Enriched ---------- egg noodles," "Enriched ---------- egg macaroni," "Enriched ---------- egg spaghetti," or "Enriched ---------- egg vermicelli," when the units comply with the size and shape requirements for noodles, macaroni, spaghetti, or vermicelli in § 16.6 (b), (c), (d), or (e). The blank in each instance is filled in with the name of the vegetable used, as specified in § 16.8(a).

Any person who will be adversely affected by the foregoing order may at any time prior to the thirtieth day from the date of its publication in the FEDERAL REGISTER file with the Hearing Clerk, Department of Health, Education, and Welfare, Room 5440, 330 Independence Avenue SW., Washington 25, D.C., written objections thereto. Objections shall show wherein the person filing will be adversely affected by the order and specify with particularity the provisions of the order deemed objectionable and the grounds for the objections. If a hearing is requested, the objections must state the issues for the hearing, and such objections must be supported by grounds legally sufficient to justify the relief sought. Objections may be accompanied by a memorandum or brief in support thereof. All documents shall be filed in quintuplicate.

Effective date. This order shall become effective 60 days from the date of its publication in the FEDERAL REGISTER, except as to any provisions that may be stayed by the filing of proper objections. Notice of the filing of objections or lack thereof will be announced by publication in the FEDERAL REGISTER.

(Secs. 401, 701, 52 Stat. 1046, 1055, as amended; 21 U.S.C. 341, 371)

Dated: February 7, 1962.

GEO. P. LARRICK,
Commissioner of Food and Drugs.

[F.R. Doc. 62-1428; Filed, Feb. 12, 1962; 8:46 a.m.]

PART 17—BAKERY PRODUCTS; DEFINITIONS AND STANDARDS OF IDENTITY

Use of *L*-Cysteine in Bread; Effective Date

An order adopting a proposal to amend the standard of identity for bread (21 CFR 17.1) by adding to paragraph (a) a new subparagraph reading: "(16) *L*-cysteine, in a quantity not to exceed 0.009 part for each 100 parts by weight of flour used", was published in the FEDERAL REGISTER of December 28, 1961 (26 F.R. 12563). The order gave notice of the 30-day period within which persons adversely affected could file objections and stated that the amendment would become effective after 60 days unless it was stayed by the filing of proper objections.

No objections were filed, but questions were raised showing the need for clarification of the designation of the new optional ingredient.

Pursuant to the provisions of the Federal Food, Drug, and Cosmetic Act (secs. 401, 701, 52 Stat. 1046, 1055, as amended 70 Stat. 919, 72 Stat. 948; 21 U.S.C. 341, 371) and in accordance with the authority delegated to the Commissioner of Food and Drugs by the Secretary of Health, Education, and Welfare (25 F.R. 8625), notice is given that no objections were filed to the order amending the standard for bread to permit the optional use of *L*-cysteine. To clarify the order, subparagraph (16) is revised to read as follows:

§ 17.1 Bread, white bread, and rolls, white rolls, or buns, white buns; identity; label statement of optional ingredients.

(a) • • •

(16) *L*-Cysteine (which may be added in the form of the hydrochloride salt, including hydrates thereof), in a quantity not to exceed 0.009 part for each 100 parts by weight of flour used.

The amendment as revised will become effective February 26, 1962.

(Secs. 401, 701, 52 Stat. 1046, 1055, as amended 70 Stat. 919, 72 Stat. 948; 21 U.S.C. 341, 371)

Dated: February 7, 1962.

GEO. P. LARRICK,
Commissioner of Food and Drugs.

[F.R. Doc. 62-1429; Filed, Feb. 12, 1962; 8:46 a.m.]

SUBCHAPTER C—DRUGS

PART 146c—CERTIFICATION OF CHLORTETRACYCLINE (OR TETRACYCLINE) AND CHLORTETRACYCLINE- (OR TETRACYCLINE-) CONTAINING DRUGS

Change in Expiration Date

Under the authority vested in the Secretary of Health, Education, and Welfare by the Federal Food, Drug, and Cosmetic Act (sec. 507, 59 Stat. 463, as amended; 21 U.S.C. 357) and delegated to the Commissioner of Food and Drugs by the Secretary (25 F.R. 8625), the regulations for certification of chlortetracycline and chlortetracycline-containing drugs (21 CFR 146c.257) are amended as follows:

In § 146c.257 *Tetracycline-amphotericin B for oral syrup;* • • •, the last sentence of paragraph (c) (1) is changed to read: "The expiration date of the drug shall be 18 months, except that it may be 24 months if the person who requests certification has submitted to the Commissioner results of tests and assays showing that after having been stored for such period of time such drug as prepared by him complies with the standards prescribed by paragraph (a) of this section."

Notice and public procedure are not necessary prerequisites to the promulgation of this order, and I so find, since the nature of the change is such that it cannot be applied to any specific product unless and until the manufacturer thereof has supplied adequate data regarding that article.

Effective date. This order shall become effective on the date of its publication in the FEDERAL REGISTER.

(Sec. 507, 59 Stat. 463, as amended; 21 U.S.C. 357)

Dated: February 7, 1962.

GEO. P. LARRICK,
Commissioner of Food and Drugs.

[F.R. Doc. 62-1430; Filed, Feb. 12, 1962; 8:47 a.m.]

SUBCHAPTER D—HAZARDOUS SUBSTANCES

PART 191—HAZARDOUS SUBSTANCES; DEFINITIONS AND PROCEDURAL AND INTERPRETATIVE REGULATIONS

Felt-Tip Ink-Marking Devices; Exemption From Labeling Requirements

There has been submitted to the Commissioner of Food and Drugs, pursuant to section 3(c) of the Federal Hazardous Substances Labeling Act and § 191.62 of the regulations thereunder, a request to exempt from the labeling requirements of the act felt-tip ink-marking devices which contain no free liquid ink but in which the ink is totally held by an absorbent material. The petition deals with inks that are toxic substances as defined in § 191.1(f)(1), having an LD 50 single, oral dose between 500 milligrams and 5 grams per kilogram of body weight of the test animals, and which require special labeling under § 191.7 because they contain 10 percent or more of petroleum distillates. The felt-tip ink-marking devices are constructed in such a manner that the ink flows by capillary action and only through the felt writing nib. With any reasonable foreseeable handling and use, including abuse by children, the contents do not present an ingestion hazard or an aspiration hazard from the petroleum distillate.

The Commissioner therefore concludes that only a minor hazard is presented and that full compliance with the labeling requirements of section 2(p)(1) of the act and § 191.7(b)(3) of the regulations is not necessary for the adequate protection of the public health and safety. Therefore, pursuant to the provisions of the Federal Hazardous Substances Labeling Act (sec. 3(c), 74 Stat. 374; 15 U.S.C. 1262) and under the authority vested in the Secretary of Health, Education, and Welfare, delegated to the Commissioner (25 F.R. 8625), § 191.63 is amended by adding thereto a new paragraph (i), reading as follows:

§ 191.63 Exemptions for small packages, minor hazards, and special circumstances.

• • • • •

(i) Felt-tip ink-marking devices are exempt from the labeling requirements of section 2(p)(1) of the act and § 191.7(b)(3) of these regulations insofar as such requirements would be necessary because the ink contained therein is a toxic substance as defined in § 191.1(f)(1); and/or because the ink contains 10 percent or more of petroleum distillates as defined in § 191.7(a)(4): *Provided,* That:

(1) The felt-tip ink-marking devices are of such construction that the ink is held within the device by an absorbent material so that there is no free liquid within the device, and under any reasonably foreseeable conditions of manipulation and use including reasonably foreseeable abuse by children, the ink will emerge only through the felt-tip writing nib of the device.

(2) When tested by methods described in § 191.1(f)(1) the ink does not have an LD single, oral dose of less than 2.5 grams per kilogram of body weight of the test animal.

(3) The device does not have a capacity of more than 10 grams of ink.

Notice and public procedure and delayed effective date are not necessary prerequisites to the promulgation of this order, and I so find, since the Federal Hazardous Substances Labeling Act contemplates such modification of labeling requirements under certain conditions.

Effective date. This order shall become effective on the date of its publication in the FEDERAL REGISTER.

(Sec. 3(c), 74 Stat. 374; 15 U.S.C. 1262)

Dated: February 7, 1962.

GEO. P. LARRICK,
Commissioner of Food and Drugs.

[F.R. Doc. 62-1432; Filed, Feb. 12, 1962; 8:47 a.m.]

Title 26—INTERNAL REVENUE

Chapter I—Internal Revenue Service, Department of the Treasury

SUBCHAPTER A—INCOME TAX

[T.D. 6590]

PART 1—INCOME TAX; TAXABLE YEARS BEGINNING AFTER DECEMBER 31, 1953

Miscellaneous Amendments

On November 4, 1961, notice of proposed rule making with respect to the amendments of the Income Tax Regulations (26 CFR Part 1) under section 453 of the Internal Revenue Code of 1954 to conform the regulations to the change made by section 27 of the Technical Amendments Act of 1958 (72 Stat. 1624) was published in the FEDERAL REGISTER (26 F.R. 10450). No comments on the rules proposed having been received during the thirty-day period prescribed by the notice, the amendments of the regulations as proposed are hereby adopted.

[SEAL] MORTIMER M. CAPLIN,
Commissioner of Internal Revenue.

Approved: February 7, 1962.

STANLEY S. SURREY,
Assistant Secretary of the Treasury.

In order to conform the Income Tax Regulations (26 CFR Part 1) relating to section 453(d) of the Internal Revenue Code of 1954 to section 27 of the Technical Amendments Act of 1958 (72 Stat. 1624), such regulations are amended as follows:

PARAGRAPH 1. Section 1.453 is amended by adding a new paragraph (5) to section 453(d), and by adding a historical note. These added provisions read as follows:

§ 1.453 Statutory provisions; installment method.

SEC. 453. *Installment method.* • • •

(d) *Gain or loss on disposition of installment obligations.* • • •

(5) *Life insurance companies.* In the case of a disposition of an installment obligation by any person other than a life insurance company (as defined in section 801(a)) to such an insurance company or to a partnership of which such an insurance company is a partner, no provision of this subtitle providing for the nonrecognition of gain shall apply with respect to any gain resulting under paragraph (1). If a corporation which is a life insurance company for the taxable year was (for the preceding taxable year) a corporation which was not a life insurance company, such corporation shall, for purposes of this paragraph and paragraph (1), be treated as having transferred to a life insurance company, on the last day of the preceding taxable year, all installment obligations which it held on such last day. A partnership of which a life insurance company becomes a partner shall, for purposes of this paragraph and paragraph (1), be treated as having transferred to a life insurance company, on the last day of the preceding taxable year of such partnership, all installment obligations which it holds at the time such insurance company becomes a partner.

[Sec. 453 as amended by sec. 27, Technical Amendments Act 1958 (72 Stat. 1624)]

PAR. 2. Section 1.453-9 is amended by adding at the end thereof the following new paragraph:

§ 1.453-9 Gain or loss on disposition of installment obligations.

• • • • • •

(g) *Disposition of installment obligations to life insurance companies.* (1) Notwithstanding the provisions of section 453(d)(4) and paragraph (c) of this section or any provision of subtitle A relating to the nonrecognition of gain, the entire amount of any gain realized on the disposition of an installment obligation by any person, other than a life insurance company (as defined in section 801(a) and paragraph (b) of § 1.801-3), to a life insurance company or to a partnership of which a life insurance company is a partner shall be recognized and treated in accordance with section 453(d)(1) and paragraphs (a) and (b) of this section. If a corporation which is a life insurance company for the taxable year was a corporation which was not a life insurance company for the preceding taxable year, such corporation shall be treated, for purposes of section 453(d)(1) and this paragraph, as having transferred to a life insurance company, on the last day of the preceding taxable year, all installment obligations which it held on such last day. The gain, if any, realized by reason of the installment obligations being so transferred shall be recognized and treated in accordance with section 453(d)(1) and paragraphs (a) and (b) of this section. Similarly, a partnership of which a life insurance company becomes a partner shall be treated, for purposes of section 453(d)(1) and this paragraph, as having transferred to a life insurance company, on the last day of the preceding taxable year of such partnership, all installment obligations which it holds at the time such life insurance company becomes a partner. The gain, if any, realized by reason of the installment obligations being so transferred shall be recognized and treated in accordance with section 453(d)(1) and paragraphs (a) and (b) of this section.

(2) The provisions of section 453(d)(5) and subparagraph (1) of this paragraph shall not apply to losses sustained in connection with the disposition of installment obligations to a life insurance company.

(3) For the effective date of the provisions of section 453(d)(5) and this paragraph, see paragraph (f) of § 1.453-10.

(4) Application of the provisions of this paragraph may be illustrated by the following examples:

Example (1). A, an individual, in a transaction to which section 351 applies, transfers in 1961 certain assets, including installment obligations, to a new corporation, X, which qualifies as a life insurance company (as defined in section 801(a)) for the year 1961. A makes his return on the calendar year basis. Section 453(d)(5) provides that the nonrecognition provisions of section 351 will not apply to the installment obligations transferred by A to X Corporation. Therefore, the entire amount of any gain realized by A on the transfer of the installment obligations shall be recognized in 1961, with the amount of any such gain computed in accordance with the provisions of section 453(d)(1) and paragraph (b) of this section.

Example (2). The M Corporation did not qualify as a life insurance company (as defined in section 801(a)) for the taxable year 1958. On December 31, 1958, it held $60,000 of installment obligations. The M Corporation qualified as a life insurance company for the taxable year 1959. Accordingly, the M Corporation is treated as having transferred to a life insurance company, on December 31, 1958, the $60,000 of installment obligations it held on such date. The gain, if any, realized by M by reason of such installment obligations being so transferred shall be recognized in the taxable year 1958, with the amount of any such gain computed in accordance with the provisions of section 453(d)(1) and paragraph (b) of this section.

Example (3). During its taxable year 1958, none of the partners of the N partnership qualified as a life insurance company (as defined in section 801(a)). The N partnership held $30,000 of installment obligations on December 31, 1958. On July 30, 1959, the O Corporation, a life insurance company (as defined in section 801(a)), became a partner in the partnership. The N partnership held $50,000 of installment obligations on July 30, 1959. Pursuant to section 453(d)(5), the N partnership is treated as having transferred to a life insurance company, on December 31, 1958, the $50,000 of installment obligations it held on July 30, 1959. The gain, if any, realized by the N partnership by reason of such installment obligations being so transferred shall be recognized in the taxable year 1958, with the amount of any such gain computed in accordance with the provisions of section 453(d)(1) and paragraph (b) of this section.

Example (4). In 1960, the P Corporation, in a reorganization qualifying under section 368 (a), transferred certain assets (including installment obligations) to the R Corporation, a life insurance company as defined

in section 801(a). P realized a loss upon the transfer of the installment obligations, which was not recognized under section 361. Pursuant to subparagraph (2) of paragraph (c) of this section, no loss with respect to the transfer of these obligations will be recognized to P under section 453(d)(1).

PAR. 3. Section 1.453–10 is amended by adding at the end thereof the following new paragraph:

§ 1.453–10 Effective date.

. . . . . .

(f) The provisions of section 453(d)(5) and paragraph (g) of § 1.453–9 shall apply to taxable years ending after December 31, 1957, but only as to transfers or other dispositions of installment obligations occurring after such date.

(Sec. 7805, Internal Revenue Code of 1954; 68A Stat. 917; 26 U.S.C. 7805)

[F.R. Doc. 62–1443; Filed, Feb. 12, 1962; 8:48 a.m.]

SUBCHAPTER B—REGULATIONS AFFECTING MARITIME CARRIERS AND RELATED ACTIVITIES

PART 510—LICENSING OF INDEPENDENT OCEAN FREIGHT FORWARDERS

Interpretation of Shipping Act, 1916

Pursuant to sections 43 and 44(c) of the Shipping Act, 1916 (46 U.S.C. 842, 843(c)) and section 3(a)(3) of the Administrative Procedure Act (5 U.S.C. 1002(a)(3)), the Commission hereby promulgates the following interpretive rule, effective on publication. This interpretation is intended to be ultimately incorporated in Subpart B of this part as a substantive regulation at the conclusion of the intended rule making proceeding.

The Shipping Act, 1916, as recently amended by Public Law 87–254, precludes any oceangoing common carrier from paying freight compensation on export cargo in foreign commerce to any person who is not licensed as an independent ocean freight forwarder under section 44(a) of the Act, or authorized so to operate under a license application number. The only exception is that a carrier may pay brokerage to an ocean freight broker when, and only when, such broker serves as an intermediary between a shipper and the oceangoing common carrier, and when, and only when, he performs the function of arranging rates, terms, and conditions of carriage with respect to liquid or dry bulk cargo loaded without mark or count.

By the Commission.

THOMAS LISI,
Secretary.

INCOME TAX; TAXABLE YEARS BEGINNING AFTER DECEMBER 31, 1953

Notice of Hearing on Proposed Regulations

The proposed amendment of regulations under section 404 of the Code, relating to mandatory use of Form 2950, was published in the FEDERAL REGISTER for January 5, 1962.

A public hearing on the provisions of this proposed amendment of the regulations will be held on Wednesday, February 28, 1962, at 10:00 a.m., e.s.t., in Room 3313, Internal Revenue Building, Twelfth and Constitution Avenue NW., Washington, D.C.

Persons who plan to attend the hearing are requested to notify the Commissioner of Internal Revenue, Attention: T:P, Washington 25, D.C., by February 26, 1962.

[SEAL] MAURICE LEWIS,
Director, Technical Planning Division, Internal Revenue Service.

[7 CFR Part 51]

UNITED STATES STANDARDS FOR GRADES OF CHRISTMAS TREES [1]

Notice of Proposed Rule Making

Notice is hereby given that the United States Department of Agriculture is considering the revision of United States Standards for Grades of Christmas Trees, pursuant to the authority contained in the Agricultural Marketing Act of 1946 (secs. 202–208, 60 Stat. 1087, as amended; 7 U.S.C. 1621–1627).

Statement of considerations leading to the proposed revision. Revision of these standards was undertaken at the request of the grades committee of the National Christmas Tree Growers Association, other growers and State growers organizations.

The proposed revision is designed to make the standards more applicable to current growing and marketing practices. This draft includes the changes proposed by the growers and a number of other changes which are proposed in the interest of simplification and clarity of the text and definitions.

Following are the major proposed changes:

1. Requests were received to change the numerical grade classifications, U.S. No. 1 and U.S. No. 2, to U.S. Choice and U.S. Standard. It was also requested that no change be made in grade names. It is proposed, therefore, to combine the present and suggested grade designations as follows; "U.S. No. 1 or U.S. Choice" and "U.S. No. 2 or U.S. Standard".

2. "Balance", § 51.3094 in the present standards refers to faces and segments. The proposal would delete reference to "Segments" and a definition for "Face", § 51.3100 would replace the present definition.

3. A definition for "well trimmed" would be added.

4. Handle length would be changed. At present, the handle shall approximate 1¼ inches for each foot of tree height, unless otherwise specified. This would be changed to one inch for each foot of tree height.

5. Height for all trees would be changed to include the handle in the overall tree height. This proposed change would be more equitable and easier to apply than present requirements.

6. "Damage" would be changed to include all defects. At present only those defects affecting the appearance of the foliage are covered under damage. Other defects are classified as either "minor" or "noticeable deformities".

All persons who desire to submit written data, views or arguments for consideration in connection with the proposed standards should file the same not later than March 31, 1962 with E. E. Conklin, Chief, Fresh Products Standardization and Inspection Branch, Fruit and Vegetable Division, Agricultural Marketing Service, United States Department of Agriculture, South Building, Washington 25, D.C.

The proposed standards, as revised, are as follows:

GENERAL

Sec.
51.3085 General.

GRADES

51.3086 U.S. Premium.
51.3087 U.S. No. 1 or U.S. Choice.
51.3088 U.S. No. 2 or U.S. Standard.

CULLS

51.3089 Culls.

TOLERANCES

51.3090 Tolerances.

HANDLE LENGTH

51.3091 Handle length.

SIZE

51.3092 Size.

BASIS FOR CALCULATING PERCENTAGES

51.3093 Basis for calculating percentages.

DEFINITIONS

Sec.
51.3094 Fresh.
51.3095 Clean.
51.3096 Healthy.
51.3097 Well trimmed.
51.3098 Density.
51.3099 Taper.
51.3100 Face.
51.3101 Fairly clean.
51.3102 Handle.
51.3103 Height.
51.3104 Damage.

AUTHORITY: §§ 51.3085 to 51.3104 issued under sec. 205, 60 Stat. 1090, as amended; 7 U.S.C. 1624.

GENERAL

§ 51.3085 General.

The standards contained in this subpart are applicable to sheared or unsheared trees of the coniferous species which are normally marketed as Christmas trees. The large majority of the Christmas trees marketed are one of the following species: Douglas fir (Pseudotsuga Menziesii); Balsam fir (Abies balsamea); Black spruce (Picea mariana); Eastern Red cedar (Juniperus virginiana); White spruce (Picea glauca); Scotch pine (Pinus sylvestris); Norway spruce (Picea excelsa); Red pine (Pinus resionsa); Eastern White pine (Pinus strobus); and Red spruce (Picea rubens).

GRADES

§ 51.3086 U.S. Premium.

"U.S. Premium" consists of trees possessing the characteristics typical of the species, which are fresh, clean, healthy, well trimmed, of not less than medium density, with normal taper, and each of the four faces are free from damage by any cause.

§ 51.3087 U.S. No. 1 or U.S. Choice.

"U.S. No. 1 or U.S. Choice" consists of trees possessing the characteristics typical of the species, which are fresh, clean, healthy, well trimmed, of not less than medium density, with normal taper, and with three faces which are free from damage by any cause.

§ 51.3088 U.S. No. 2 or U.S. Standard.

"U.S. No. 2 or U.S. Standard" consists of trees possessing the characteristics typical of the species, which are fresh, fairly clean, healthy, well trimmed, of light or better density, candlestick, normal or flaring taper, and with two adjacent faces which are free from damage by any cause.

§ 51.3089 Culls.

"Culls" consist of individual Christmas trees which fail to meet the requirements of the U.S. No. 2 or U.S. Standard Grade.

§ 51.3090 Tolerances.

In order to allow for variations incident to proper grading and handling in each of the foregoing grades the following tolerances, by count, shall apply

[1] Packing of the product in conformity with the requirements of these standards shall not excuse failure to comply with the provisions of the Federal Food, Drug, and Cosmetic Act or with applicable State laws and regulations.

when a lot of Christmas trees is required to meet a specific grade.

(a) *Defects.* 10 percent for trees which fail to meet the requirements of the grade, but not more than one-half of this amount, or 5 percent, shall be allowed for trees which fail to meet the requirements of the next grade lower than that specified.

§ 51.3091 Handle length.

Unless otherwise specified, the length of the handle shall approximate one inch for each foot of the tree height.

SIZE

§ 51.3092 Size.

(a) Size of trees shall be stated in terms of height in feet. The following are examples of size designations:

4 feet or less.
4–6 feet.
6–7 feet or 6–8 feet.
7–8 feet.
8–10 feet.
10 feet and up.

(b) In order to allow for variations incident to proper sizing, not more than 10 percent, by count, of the trees in any lot may fail to meet the height specified.

BASIS FOR CALCULATING PERCENTAGES

§ 51.3093 Basis for calculating percentages.

Percentages shall be calculated on the basis of count using the individual tree as the unit.

DEFINITIONS

§ 51.3094 Fresh.

"Fresh" means that the needles are pliable and generally firmly attached with not more than slight shattering.

§ 51.3095 Clean.

"Clean" means that the tree is practically free from moss, lichen growth, vines or other foreign material.

§ 51.3096 Healthy.

"Healthy" means that the foliage possesses a thrifty, fresh, natural appearance characteristic of the species.

§ 51.3097 Well trimmed.

"Well trimmed" means that all barren branches below the first whorl of branches shall have been removed, and that the butt of the trunk has been smoothly cut at approximately right angles to the trunk.

§ 51.3098 Density.

"Density" means the amount of foliage present. Factors contributing to the degree of density are: The number and size of branches within the whorl, distance between whorls, number and arrangement of branchlets on each branch, the extent of internodal branching, needle arrangement and needle length. Species differ in their habit of growth and some species do not have internodal branches. Density is judged on the basis of species characteristics.

§ 51.3099 Taper.

"Taper" means the relationship of the width of the tree to its height. "Flaring", "normal", and "candlestick" taper are the terms used to describe degrees of taper. Flaring taper means, for trees other than the genus Pinus, that the general shape of the tree judged from its best side, forms a cone the base of which is more than 70 percent of its height, and for the genus Pinus, the base of the cone is more than 90 percent of its height. If the base of the cone, of trees other than the genus Pinus, is from 40 to 70 percent, and for the genus Pinus, is from 40 to 90 percent, the tree has normal taper. If the base of the cone is less than 40 percent of its height, the tree has candlestick taper.

§ 51.3100 Face.

"Face" means the visible surface area of a tree as viewed from a distance of 8 to 10 feet from the tree. A tree shall be considered as having four faces, each consisting of one-quarter of the surface area of the tree.

§ 51.3101 Fairly clean.

"Fairly clean" means that the tree is moderately free from moss, lichen growth, vines or other foreign material.

§ 51.3102 Handle.

"Handle" means that portion of the trunk between the butt or base of a tree and the lowest complete whorl of foliated branches.

§ 51.3103 Height.

"Height" for all trees means the distance from the butt or base of the trunk to the top of the main leader or stem.

§ 51.3004 Damage.

"Damage" means any specific noticeable defect described, or listed in this section; or an equally objectionable variation of any one of these defects, any other defect, or any combination of defects, which materially detracts from the appearance or shipping quality of the Christmas trees.

The following are noticeable defects which generally affect one or more faces and are usually readily observed by casual observation of a tree:

(a) Decided gap (abnormal space between whorls of branches).
(b) Unduly long branches.
(c) Uneven density.
(d) Weak branches.
(e) Broken branches.
(f) Barren lower whorl (no needles on branches of bottom whorl).
(g) Curved stems.
(h) Hole in tree (lack of branches or foliage and appears as an opening of considerable size).
(i) Excessively long main leader (when the main leader or stem above the top whorl of branches is not proportionate to the over-all tree height).
(j) Incomplete whorl of branches.
(k) Handle not proportionate to height of tree.

The following are defects which individually or in combination with other defects may materially detract from the appearance or shipping quality of a tree to the same degree as the noticeable defects listed above.

(a) Multiple leaders.
(b) Crows nest (cluster of short branches which forms a compact nest type whorl arrangement).
(c) Multiple main stems.
(d) Goose neck. (Greater than usual distance between 2 whorls of branches).
(e) Noticeable presence of galls on the branches.
(f) Abnormal loss of needles.
(g) Abnormal curling of needles.
(h) Noticeable presence of dead twigs.
(i) Moss, lichen, and vines.
(j) Foreign material.

Dated: February 6, 1962.

G. R. GRANGE,
Deputy Administrator,
Marketing Services.

RE-INSPECTION AND PREPARATION OF PRODUCTS

Proposed Amendment Relating to the Nitrate Content of Cured Meat

Correction

In F.R. Doc. 62-1301 appearing at page 1174 of the issue for Thursday, February 8, 1962, paragraph (k) of § 18.7 is corrected by changing the first sentence to read as follows:

(k) The use of sodium nitrite, potassium nitrite, sodium nitrate or potassium nitrate, or combination of nitrite and nitrate, shall not result in the presence of more than 200 parts per million of nitrite and 500 parts per million of nitrate in the finished product. • • •

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Food and Drug Administration

[21 CFR Parts 141c, 146, 146c]

PYRROLIDINOMETHYL TETRACYCLINE

Notice of Proposal To Change Name to Rolitetracycline

The regulations for tetracycline and tetracycline-containing drugs use the name "pyrrolidinomethyl tetracycline" for *N*-(pyrrolidinomethyl) tetracycline. It has come to the attention of the Commissioner of Food and Drugs that the name "rolitetracycline" has been generally adopted for this antibiotic drug. The Commissioner has concluded that in order to prevent confusion in the medical literature and avoid having the same drug sold under different names, appropriate changes should be made under section 507 of the Federal Food, Drug, and Cosmetic Act to recognize "rolitetracycline" as the common or usual name for this drug.

Therefore, under the authority of the Federal Food, Drug, and Cosmetic Act (sec. 507(b), 59 Stat. 463; 21 U.S.C. 357 (b)), delegated to him by the Secretary of Health, Education, and Welfare (26 F.R. 8625), the Commissioner proposes to amend the applicable sections of Parts 141c, 146, and 146c to require that "rolitetracycline" be used as the name for this drug.

All interested persons are invited to present their views in writing regarding this proposal to the Hearing Clerk, Department of Health, Education, and Welfare, Washington 25, D.C., within 30 days from the date of publication of this notice in the FEDERAL REGISTER. Such views and comments should be filed in quintuplicate.

Dated: February 6, 1962.

GEO. P. LARRICK,
Commissioner of Food and Drugs.

FEDERAL AVIATION AGENCY

[14 CFR Parts 600, 601]

[Airspace Docket No. 61-LA-66]

FEDERAL AIRWAYS AND CONTROLLED AIRSPACE

Proposed Alteration

Pursuant to the authority delegated to me by the Administrator (14 CFR 409.13), notice is hereby given that the Federal Aviation Agency (FAA) is considering amendments to §§ 600.6210 and 601.6210 of the regulations of the Administrator, the substance of which is stated below.

Low altitude VOR Federal airway No. 210 extends from Los Angeles, Calif., to Pueblo, Colo., and from Kansas City, Mo., to Harrisburg, Pa. The FAA has under consideration the revocation of the south alternate and its associated control areas between Goffs, Calif., and Tuba City, Ariz. Two recent traffic surveys indicate no instrument flight rule traffic on this segment of the airway during the area's most active periods. In addition, the area between Goffs and Tuba City is apparently adequately served by Victor 210. It would appear, therefore, that retention of this segment of the airway is unjustified as an assignment of airspace.

Interested persons may submit such written data, views, or arguments as they may desire. Communications should be submitted in triplicate to the Assistant Administrator, Western Region, Attn: Chief, Air Traffic Division, Federal Aviation Agency, 5651 West Manchester Avenue, P.O. Box 90007, Airport Station, Los Angeles 45, Calif. All communications received within forty-five days after publication of this notice in the FEDERAL REGISTER will be considered before action is taken on the proposed amendment. No public hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Agency officials may be made by contacting the Regional Air Traffic Division Chief, or the Chief, Airspace Utilization Division, Federal Aviation Agency, Washington 25, D.C. Any data, views or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

The official Docket will be available for examination by interested persons at the Docket Section, Federal Aviation Agency, Room C-226, 1711 New York Avenue NW., Washington 25, D.C. An informal Docket will also be available for examination at the office of the Regional Air Traffic Division Chief.

This amendment is proposed under section 307(a) of the Federal Aviation Act of 1958 (72 Stat. 749; 49 U.S.C. 1348).

Issued in Washington, D.C., on February 6, 1962.

CLIFFORD P. BURTON,
Acting Chief,
Airspace Utilization Division.

[F.R. Doc. 62-1414; Filed, Feb. 12, 1962; 8:45 a.m.]

[14 CFR Parts 600, 601]

[Airspace Docket No. 61-HO-6]

FEDERAL AIRWAYS, CONTROLLED AIRSPACE AND REPORTING POINTS

Withdrawal of Proposal

In a notice of proposed rule making published in the FEDERAL REGISTER as Airspace Docket No. 61-HO-6 on May 19, 1961 (26 F.R. 4366), it was stated that the Federal Aviation Agency proposed to revoke Amber Federal airway No. 11 (Hawaiian Islands), its associated control areas and reporting points. Comments in response to the notice have indicated a continuing requirement for Amber 11, for an indefinite period of time.

In consideration of the foregoing and pursuant to the authority delegated to me by the Administrator (14 CFR 409.13), notice is hereby given that the proposal contained in Airspace Docket No. 61-HO-6 is withdrawn.

(Sec. 307(a) of the Federal Aviation Act of 1958 (72 Stat. 749; 49 U.S.C. 1348))

Issued in Washington, D.C., on February 6, 1962.

CLIFFORD P. BURTON,
Acting Chief,
Airspace Utilization Division.

[F.R. Doc. 62-1415; Filed, Feb. 12, 1962; 8:45 a.m.]

[14 CFR Part 601]

[Airspace Docket No. 61-WA-219]

POSITIVE CONTROL AREAS

Proposed Designation

Pursuant to the authority delegated to me by the Administrator (14 CFR 409.13), notice is hereby given that the Federal Aviation Agency (FAA) is considering an amendment to Part 601 of the Regulations of the Administrator, the substance of which is stated below.

Positive control areas are designated areas, within the continental control area, wherein positive separation to both en route and diversified local aircraft operations is provided in accordance with the provisions of Special Civil Air Regulation No. SR-424C.

The FAA has under consideration the designation of a positive control area, within the continental control area, encompassing the approximate area of radar coverage of the Sacramento, Oakland, and Paso Robles, Calif., long range radar facilities and extending from Flight Level 240 to Flight Level 600 inclusive. By definition, the ceiling of any positive control route segments which would underlie the proposed positive control area, would automatically be raised from 22,000 feet MSL to, but not including, flight level 240.

The military conducts a large number of tactical and training operations in this airspace. For the most part, these operations have been conducted in the past in accordance with Visual Flight Rules. It is anticipated that the implementation of positive control in the Oakland area will have a considerable operational impact on this hitherto uncontrolled activity. Air traffic control procedural arrangements are being developed to provide for the military and flight test activity. Prior to the implementation of area positive control in the Oakland airspace, a series of live tests will be run by the Oakland air route traffic control center in cooperation with the appropriate military units. It is expected that these tests will aid in the development of local procedural arrangements for the successful conduct of training, tactical and flight test activities.

If this action is taken, the Oakland positive control area would be designated starting at a point on the Continental Control Area Boundary, latitude 40°10'00" N., longitude 124°20'00" W.; thence to latitude 40°45'00" N., longitude 123°00'00" W.; thence to latitude 40°45'00" N., longitude 119°35'00" W.; thence to latitude 39°35'00" N., longitude 119°15'00" W.; thence to latitude 36°00'00" N., longitude 118°45'00" W.; thence to latitude 36°00'00" N., longitude 119°30'00" W.; thence to latitude 35°43'00" N., longitude 119°33'00" W.; thence to latitude 35°49'00" N., longitude 120°04'00" W.; thence to latitude 35°27'00" N., longitude 120°20'00" W.; thence to latitude 35°22'00" N., longitude 120°30'00" W.; thence to latitude 35°32'00" N., longitude 120°51'00" W.; thence to latitude 35°26'40" N., longitude 121°04'10" W.; thence via the boundary of the continental control area to the point of beginning.

Interested persons may submit such written data, views or arguments as they may desire. Communications should be submitted in triplicate to the Chief, Airspace Utilization Division, Federal Aviation Agency, Washington 25, D.C. All communications received within forty-five days after publication of this notice in the FEDERAL REGISTER will be considered before action is taken on the proposed amendment. No public hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Agency officials may be

made by contacting the Chief, Airspace Utilization Division. Any data, views or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

The official Docket will be available for examination by interested persons at the Docket Section, Federal Aviation Agency, Room C-226, 1711 New York Avenue NW., Washington 25, D.C.

This amendment is proposed under section 307(a) of the Federal Aviation Act of 1958 (72 Stat. 749; 49 U.S.C. 1348).

Issued in Washington, D.C., on February 8, 1962.

CLIFFORD P. BURTON,
Acting Chief,
Airspace Utilization Division.

[F.R. Doc. 62-1436; Filed, Feb. 12, 1962; 8:48 a.m.]

[14 CFR Part 601]

[Airspace Docket No. 61-FW-41]

CONTROLLED AIRSPACE

Proposed Designation of Control Zone and Transition Area; and Proposed Alteration of Control Area Extension

Pursuant to the authority delegated to me by the Administrator (14 CFR 409.13), notice is hereby given that the Federal Aviation Agency (FAA) is considering amendments to Part 601 of the regulations of the Administrator, the substance of which is stated below.

The Federal Aviation Agency has under consideration the designation of a control zone and transition area at Jackson, Tenn. The proposed control zone would be designated within a 5-mile radius of McKellar Field, Jackson, Tenn. (latitude 35°35'55" N., longitude 88°54'-55" W.), and within 2 miles either side of the 022° True bearing from the Martin, Tenn., radio beacon, extending from the 5-mile radius zone to the radio beacon. Communications and weather services would be furnished on a 24 hour basis daily by the FAA communications station at McKellar Field. This control zone would provide protection for aircraft executing prescribed instrument approach and departure procedures at McKellar Field.

The proposed Jackson transition area would be designated to extend upward from 1,200 feet above the surface within the area bounded on the south by VOR Federal airway No. 16, on the west by VOR Federal airway No. 11 east alternate, on the north by VOR Federal airway No. 140 south alternate and on the east by VOR Federal airway No. 16 north alternate. This would provide protection for arriving and departing aircraft in transition to and from McKellar Field and the Jacks Creek, Tenn., VOR. This transition area, as proposed, would encompass a portion of the Memphis, Tenn., control area extension (§ 601.1086) in the vicinity of McKellar Field. This portion of the Memphis control area extension would be revoked upon adoption of the transition area.

Interested persons may submit such written data, views, or arguments as they may desire. Communications should be submitted in triplicate to the Assistant Administrator, Southern Region, Attn: Chief, Air Traffic Division, Federal Aviation Agency, 52 Fairlie Street NW., Atlanta 3, Ga. All communications received within forty-five days after publication of this notice in the FEDERAL REGISTER will be considered before action is taken on the proposed amendment. No public hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Agency officials may be made by contacting the Regional Air Traffic Division Chief, or the Chief, Airspace Utilization Division, Federal Aviation Agency, Washington 25, D.C. Any data, views or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

The official Docket will be available for examination by interested persons at the Docket Section, Federal Aviation Agency, Room C-226, 1711 New York Avenue NW., Washington 25, D.C. An informal Docket will also be available for examination at the office of the Regional Air Traffic Division Chief.

This amendment is proposed under section 307(a) of the Federal Aviation Act of 1958 (72 Stat. 749; 49 U.S.C. 1348).

Issued in Washington, D.C., on February 7, 1962.

CLIFFORD P. BURTON,
Acting Chief,
Airspace Utilization Division.

[F.R. Doc. 62-1413; Filed, Feb. 12, 1962; 8:45 a.m.]

[14 CFR Part 602]

[Airspace Docket No. 61-WA-230]

JET ADVISORY AREAS

Proposed Designation

Pursuant to the authority delegated to me by the Administrator (14 CFR 409.13), notice is hereby given that the Federal Aviation Agency is considering an amendment to § 602.200 of the Regulations of the Administrator, the substance of which is stated below.

Jet Route No. 91 presently extends in part from the Knoxville, Tenn., VORTAC to the Charleston, W. Va., VORTAC. The Federal Aviation Agency has under consideration the designation of an en route radar advisory area within 16 statute miles either side of this segment of Jet Route No. 91 from flight level 310 to flight level 390 inclusive. The radar jet advisory area proposed herein would provide a defined area along this route wherein jet advisory service would be provided to civil turbojet aircraft.

Interested persons may submit such written data, views or arguments as they may desire. Communications should be submitted in triplicate to the Chief, Airspace Utilization Division, Federal Aviation Agency, Washington 25, D.C. All communications received within forty-five days after publication of this notice in the FEDERAL REGISTER will be considered before action is taken on the proposed amendment. No public hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Agency officials may be made by contacting the Chief, Airspace Utilization Division. Any data, views or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

The official Docket will be available for examination by interested persons at the Docket Section, Federal Aviation Agency, Room C-226, 1711 New York Avenue NW., Washington 25, D.C.

This amendment is proposed under section 307(a) of the Federal Aviation Act of 1958 (72 Stat. 749; 49 U.S.C. 1348).

Issued in Washington, D.C., on February 6, 1962.

CLIFFORD P. BURTON,
Acting Chief,
Airspace Utilization Division.

Notices

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

WASHINGTON

Notice of Proposed Withdrawal and Reservation of Lands

The Bureau of Reclamation has filed an application, Serial No. W-04258, for the withdrawal of the lands described below, from all forms of appropriation under the public land laws and general mining laws, but not the mineral leasing laws, subject to valid existing rights.

The applicant desires the land for right of way for the Columbia River Wasteway, to release water from the West Canal of the Columbia Basin Project to the Columbia River.

For a period of 30 days from the date of publication of this notice, persons having cause may present their objections in writing to the undersigned official of the Bureau of Land Management, Department of the Interior, Room 880 Bon Marche Building, Spokane 1, Washington.

If circumstances warrant it, a public hearing will be held at a convenient time and place, which will be announced.

The determination of the Secretary on the application will be published in the FEDERAL REGISTER. A separate notice will be sent to each interested party of record.

The lands involved in the application are:

WILLAMETTE MERIDIAN, WASHINGTON

T. 19 N., R. 23 E.,
Sec. 18, NE¼NW¼NE¼.

The area described contains 10 acres.

The Bureau of Land Management will continue to manage the mineral leasing, grazing and recreational resources of this land.

FREMONT W. MEREWETHER,
Acting Officer in Charge.

DEPARTMENT OF AGRICULTURE

Agricultural Research Service

IDENTIFICATION OF CARCASSES OF CERTAIN HUMANELY SLAUGHTERED LIVESTOCK

Supplemental List of Humane Slaughterers

Pursuant to section 4 of the Act of August 27, 1958 (7 U.S.C. 1904) and the statement of policy thereunder in 9 CFR Part 181.1 the following table lists additional establishments operated under Federal inspection under the Meat Inspection Act (21 U.S.C. 71 et seq.) which have been officially reported as humanely slaughtering and handling the species of livestock respectively designated for such establishments in the table. This list supplements the list previously published under the Act (27 F.R. 991) for January and represents those establishments and species which were reported too late to be included in the earlier list or which have come into compliance with respect to species indicated since the completion of the reports on which the earlier list was based. The establishment number given with the name of the establishment is branded on each carcass of livestock inspected at that establishment. The table should not be understood to indicate that all species of livestock slaughtered at a listed establishment are slaughtered and handled by humane methods unless all species are listed for that establishment in the table. Nor should the table be understood to indicate that the affiliates of any listed establishment use only humane methods:

Done at Washington, D.C., this 8th day of February 1962.

C. H. PALS,
Director, Meat Inspection Division, Agricultural Research Service.

[F.R. Doc. 62-1445; Filed, Feb. 12, 1962; 8:48 a.m.]

Commodity Credit Corporation

SALES OF CERTAIN COMMODITIES

February 1962 Monthly Sales List

Notice to buyers. Pursuant to the policy of Commodity Credit Corporation issued October 12, 1954 (19 F.R. 6989), and subject to the conditions stated therein as well as herein, the commodities listed below are available for sale and, where noted, for redemption of payment-in-kind certificates on the price basis set forth.

The prices at which Commodity Credit Corporation commodity holdings are available for sale during February 1962, were announced today by the U.S. Department of Agriculture. The following commodities are available: Butter, cheddar cheese, nonfat dry milk, cotton (upland and extra long staple), peanuts, wheat, rice (rough), corn, oats, barley, rye, grain sorghums, and gum turpentine.

Shelled peanuts have been withdrawn for unrestricted use sale.

The CCC Monthly Sales List, which varies from month to month as additional commodities become available or commodities formerly available are dropped, is designed to aid in moving CCC's inventories into domestic or export use through regular commercial channels.

If it becomes necessary during the month to amend this list in any material way—such as by the removal or addition of a commodity in which there is general interest or by a significant change in price or method of sale—an announcement of the change will be sent to all persons currently receiving the list by mail from Washington. To be put on this mailing list, address: Director, Price Division, Agricultural Stabilization and Conservation Service, U.S. Department of Agriculture, Washington 25, D.C.

All commodities except oats currently offered for sale by CCC, plus tobacco from CCC loan stocks, are eligible for special export sale under the CCC Export Credit Sales Program. The following commodities are currently eligible for barter: Nonfat dry milk, butter, cotton, tobacco, rice (Pearl rough), wheat, corn, rye, barley, and grain sorghums. This list is subject to change from time to time.

Interest rates per annum under the CCC Export Credit Sales Program for February 1962 are 3⅝ percent for periods up to 6 months, 4⅛ percent for periods from over 6 and up to 18 months, and 4⅝ percent for periods from over 18 months up to a maximum of 36 months.

The CCC will entertain offers from responsible buyers for the purchase of any commodity on the current list. Offers accepted by CCC will be subject to the terms and conditions prescribed by the Corporation. These terms include payment by cash or irrevocable letter of credit before delivery of the commodity, and the conditions require removal of the commodity from CCC storage within a reasonable period of time. Where conditions of sale for export differ from those for domestic sale, proof of exportation is also required, and the buyer is responsible for obtaining any required U.S. Government export permit or license. Purchases from CCC shall not constitute any assurance that any such permit or license will be granted by the issuing authority.

Applicable announcements containing all terms and conditions of sale will be furnished upon request. For easy reference a number of these announcements are identified by code number in the following list. Interested persons are invited to communicate with the Agricultural Stabilization and Conservation Service, USDA, Washington 25, D.C., with respect to all commodities or—for specified commodities—with the designated ASCS Commodity Office.

Notice to buyers. Commodity Credit Corporation reserves the right to amend, from time to time, any of its announcements. Such amendments shall be applicable to and be made a part of the sale contracts thereafter entered into.

CCC reserves the right to reject any or all offers placed with it for the purchase of commodities pursuant to such announcements.

If CCC does not have adequate information as to the financial responsibility of a prospective buyer to meet all contract obligations that might arise by acceptance of an offer or if CCC deems such buyer's financial responsibility to be inadequate CCC reserves the right (i) to refuse to consider the offer, (ii) to accept the offer only after submission by the buyer of a certified or cashier's check, bond, letter of credit or other security acceptable to CCC assuring that the buyer will discharge the responsibility under the contract, or (iii) to accept the offer upon condition that the buyer promptly submit to CCC such of the aforementioned security as CCC may direct. If a prospective buyer is in doubt as to whether CCC is acquainted with his financial responsibility he should communicate with the ASCS Office at which the offer is to be placed to determine whether a financial statement or advance financial arrangement will be necessary in his case.

Disposals and other handling of inventory items often result in small quantities at given locations or in qualities not up to specifications. These lots are offered by the appropriate ASCS Office promptly upon appearance and therefore generally they do not appear in the Monthly Sales List.

On sales for which the buyer is required to submit proof to CCC of exportation the buyer shall be regularly engaged in the business of buying or selling commodities and for this purpose shall maintain a bona fide business office in the United States, its territories or possessions, and have a person, principal, or resident agent upon whom service of judicial process may be had.

Prospective buyers for export should note that generally, sales to United States Government agencies, with only minor exceptions, will constitute a domestic unrestricted use of the commodity.

Commodity Credit Corporation reserves the right, before making any sales, to define or limit export areas.

Notice to exporters. The Department of Commerce, Bureau of International Programs (the Bureau of Foreign Commerce until Aug. 9, 1961), pursuant to regulations under the Export Control Act of 1949, prohibits the exportation or reexportation by anyone of any commodities (except absorbent cotton and sterilized gauze and bandages with respect to Cuba only) under this program to Cuba, the Soviet Bloc, or Communist-controlled areas of the Far East including Communist China, North Korea, and the Communist-controlled area of Vietnam, except under validated license issued by the U.S. Department of Commerce, Bureau of International Programs.

These regulations generally require that exporters, in or in connection with their contracts with foreign purchasers, where the contract involves $10,000 or more and exportation is to be made to a Group R country, obtain from the foreign purchaser a written acknowledgment of his understanding of, (1) U.S. Commerce Department prohibitions (Comprehensive Export Schedule, 15 CFR 371.4 and 371.8) against sales or resale for reexport of said commodities, or any part thereof, without express Commerce Department authorization, to the Soviet Bloc, Communist China, North Korea or the Communist-controlled area of Vietnam or to Cuba, and (2) the sanction of denial of future U.S. export privileges that may be imposed for violation of the Commerce Department regulations. Exporters who have a continuing and regular relationship with a foreign purchaser may obtain a blanket acknowledgment from such purchaser covering all transactions involving surplus agricultural commodities and manufactures thereof purchased from CCC or subsidized for export by the Secretary of Agriculture or CCC. Where commodities are to be exported by a party other than the original purchaser of the commodities from the CCC the original purchaser should inform the exporter in writing of the requirements for obtaining the signed acknowledgment from the foreign purchaser.

For all exportations, one of the destination control statements specified in Commerce Department Regulations (Comprehensive Export Schedule, 15 CFR 379.10(c)) is required to be placed on all copies of the shipper's export declaration, all copies of the bill of lading, and all copies of the commercial invoices. For additional information as to which destination control statement to use, the exporter should communicate with the Bureau of International Programs or one of the field offices of the Department of Commerce.

Exporters should consult the applicable Commerce Department regulations for more detailed information if desired and for any changes that may be made therein.

Commodity	Sales price or method of sale
Dairy products	Sales are in carlots only in store at storage location of products. Submission of offers: For products in Arizona, California, Idaho, Nevada, Oregon, Utah, and Washington, submit offers to the Portland ASCS Commodity Office. For products in other States and the District of Columbia, submit offers to the Cincinnati ASCS Commodity Office.
Butter	Domestic, unrestricted use: Announced prices, under LD-29 as amended: 65.75 cents per pound—New York, Pennsylvania, New Jersey, New England, and other States bordering the Atlantic Ocean and Gulf of Mexico. 65.0 cents per pound—Washington, Oregon, and California. All other States 64.75 cents per pound. Export, competitive bid under LD-33, as amended, pursuant to invitations to bid to be issued by Cincinnati ASCS Commodity Offices. Announced prices under LD-35: When sales are made under LD-33, as amended, above, any butter offered but not sold under the invitation to bid will be offered for sale through the following Wednesday at prices announced in Washington each Thursday.
Nonfat dry milk	Domestic, unrestricted use: Announced prices, under LD-29 as amended: Spray process, U.S. extra grade, 17.40 cents per pound. Roller process, U.S. extra grade, 15.40 cents per pound. Export, competitive bid under LD-33, as amended, pursuant to invitations to bid to be issued by Cincinnati and Portland ASCS Commodity Offices. Announced prices under LD-35: When sales are made under LD-33, as amended, above any nonfat dry milk offered but not sold under the invitation to bid will be offered for sale through the following Monday at prices announced in Washington each Tuesday.
Cheddar cheese (standard moisture basis).	Domestic, unrestricted use: Announced prices under LD-29 as amended: 39.75 cents per pound—New York, Pennsylvania, New England, New Jersey, and other States bordering the Atlantic Ocean and Pacific Ocean and the Gulf of Mexico. All other States 38.75 cents per pound. Export, competitive bid under LD-33, as amended, pursuant to invitations to bid to be issued by Cincinnati ASCS Commodity Office. Announced prices under LD-35: When sales are made under LD-33, as amended, above, any cheese offered but not sold under the invitation to bid will be offered for sale through the following Wednesday at prices announced in Washington each Thursday.
Cotton, upland	Domestic, unrestricted use: Competitive bid under the terms and conditions of Announcement NO-C-16 (sale of Upland cotton for unrestricted use). Under this Announcement, upland cotton acquired under price support programs will be sold at the highest price offered but in no event at less than the higher of (a) 115 percent of the current support price plus reasonable carrying or (b) the market price of such cotton, as determined by CCC. Export, CCC Credit Sales: Competitive bid under the terms and conditions of Announcements CN-EX-14 (acquisition of cotton for export under Credit Sales Program) and NO-C-17 (sale of Upland cotton (for credit sales)). Cotton to be sold at the highest price offered but in no event at less than the higher of (a) 105 percent of the current support price for such cotton plus reasonable carrying charges, or (b) the market price for such cotton, as determined by CCC, less in either case an amount equal to the payment-in-kind cotton export payment rate in effect on the date of the acceptance of an offer.

Commodity	Sales price or method of sale
Cotton, extra long staple	Domestic or export, unrestricted use: Competitive bid and under the terms and conditions of Announcement NO-C-6 (revised July 22, 1960), as amended, and NO-C-10, as amended. Under these announcements extra long staple cotton will be sold at the highest price offered but in no event at less than the higher of (a) 115 percent of the current support price plus reasonable carrying charges, or (b) the domestic market price as determined by CCC.
Catalogs	Catalogs for upland cotton and extra long staple cotton showing quantities, qualities, and locations may be obtained for a nominal fee from the New Orleans ASCS Commodity Office.
Wheat, bulk	Domestic, unrestricted use: Market price basis in store,[1] but not less than 1961 applicable support price for the class, grade, and quality of the wheat plus the amount shown below applicable to the type of carrier involved.

Unit	Received by—		Examples of minimum prices (exrail or barge)		
	Truck	Rail or barge	Terminal	Class and grade	Price
	Cents	*Cents*			
Wheat (commercial area)[2] Bushel	24	20	Chicago	No. 1 RW	$2.29
			Minneapolis	No. 1 DNS	2.36
			Kansas City	No. 1 HW	2.29
			Portland	No. 1 SW	2.19

Wheat	Export: (1) Under Announcement GR-345 (revised June 30, 1960), as amended for redemption of certificates under export payment-in-kind program, (2) under Announcement GR-212 (revision 2, Jan. 9, 1961), for specified offerings as announced and (3) as wheat under Announcement GR-261 (revision 2, Jan. 9, 1961), or as flour under Announcement GR-262 (revision 2, Jan. 9, 1961), for application under arrangements for barter which permits exportation of wheat as flour and approved credit sales only at prices determined daily. Available Evanston, Dallas, Kansas City, Minneapolis, and Portland ASCS Commodity Offices.
Corn, bulk	Domestic and export: Redemption of 1961 Feed Grain Program Certificates: Until further notice CCC dispositions of storable corn for domestic unrestricted use and for export, excluding sales under GR-368 and GR-212, will be in redemption of certificates or rights represented by pooled certificates under the 1961 Feed Grain Program. Such redemptions will be made at applicable market price at point of delivery, as determined by CCC. CCC reserves the right to determine the time of delivery, and the class, grade, quality, and quantity of corn that will be made available for redemption. CCC also reserves the right to restrict the availability of corn at any location whenever such action is deemed necessary. For information on the availability of such grain from bin sites, contact ASCS State or county offices. For information on the availability of such grain from other locations, contact the Evanston, Dallas, Kansas City, Minneapolis, or Portland ASCS Commodity Offices. Other export sales:[3] Under Announcement GR-368 (revised Aug. 31, 1959), as amended, for feed grain export payment-in-kind program, and under Announcement GR-212 (revision 2, Jan. 9, 1961), for application to arrangements for barter, approved credit and emergency sales. CCC reserves the right to determine the class, grade, quality and quantity to be made available for sale under these announcements. Available, Evanston, Dallas, Kansas City, Minneapolis and Portland ASCS Commodity Offices. Nonstorable (as available): At not less than market price as determined by CCC. At bin sites through ASCS county office. At other locations through the ASCS Commodity Offices indicated above.

See footnotes at end of table.

Commodity	Sales price or method of sale
Oats, bulk	Domestic—Storable: A. General sales: Market price basis in store,[1] but not less than 105 percent of the applicable 1961 support price,[4] for the class, grade, and quality of the amount shown below applicable to the storage point involved. For grain in store at other than the point of production the freight from point of production to the present point of storage will also be added.

Unit	In store at—		Examples of minimum prices (exrail or barge)		
	Point of production	Other point	Terminal	Class and grade	Price
	Cents	*Cents*			
Oats Bushel	10	12	Chicago	No. 3	[5] $0.87½

	Available: At other than bin site locations through the Evanston, Dallas, and Kansas City ASCS Commodity Offices. Storable oats will not be available for sale by the Minneapolis ASCS Commodity Office. From bin sites through ASCS county offices for unrestricted use, except that sales of storable oats at bin site locations shall be available only under the Livestock Feed Program and to stockmen and livestock, including poultry, owners who use this grain for feeding their livestock and poultry, if such oats are stored in Livestock Feed Program emergency counties, or in such other counties as may be designated by the ASCS State committee in States in which Livestock Feed Program emergency counties have been designated. B. Redemption of 1961 Feed Grain Program Certificates: Until further notice, CCC will redeem rights represented by pooled certificates under the 1961 Feed Grain Program at market prices and at restricted points of delivery, as determined by CCC. CCC reserves the right to determine the time of delivery, and the class, grade, quality, and quantity of oats that will be made available for redemption. CCC also reserves the right to restrict the availability of oats for such redemption, at any location whenever such action is deemed necessary. Available: Portland ASCS Commodity Office. Nonstorable (as available): At not less than market price as determined by CCC. At bin sites through ASCS County Offices. At other locations through the ASCS Commodity Offices indicated on the preceding page.
Barley, bulk	Domestic—Storable: A. General sales: Market price basis in store,[1] but not less than 105 percent of the applicable 1961 support price [4] for the class, grade, and quality of the grain plus the amount shown below applicable to the type of carrier involved. If delivery is outside the area of production, applicable freight will be added to the above.

Unit	Received by—		Examples of minimum prices (exrail or barge)		
	Truck	Rail or barge	Terminal	Class and grade	Price
	Cents	*Cents*			
Barley Bushel	11	9	Minneapolis	No. 2 or better	$1.30

	Available: At bin sites through ASCS county offices, except for county offices in the Minneapolis ASCS Commodity Office area. At other than bin site locations through the Evanston, Dallas, and Kansas City ASCS Commodity Offices.

Commodity	Sales price or method of sale
Barley, bulk (continued)	Domestic—Storable—Continued B. Redemption of 1961 Feed Grain Program Certificates: Until further notice, CCC will redeem rights represented by pooled certificates under the 1961 Feed Grain Program at market prices and at restricted points of delivery, as determined by CCC. CCC reserves the right to determine the time of delivery, and the class, grade, quality, and quantity of grain delivered in redemption of such rights. CCC also reserves the right to restrict the availability of barley for such redemption, at any locations whenever such action is deemed necessary. Available: At other than bin site locations through the Portland and Minneapolis ASCS Commodity Offices. From bin sites through ASCS county offices in the Minneapolis area for unrestricted use, except that sales of storable feed barley at bin site locations shall be available only under the Livestock Feed Program and to Stockmen and livestock, including poultry, owners who use this grain for feeding their livestock and poultry, if such barley is stored in Livestock Feed Program emergency counties, or in such other counties as may be designated by the ASCS State committee in States in which Livestock Feed Program emergency counties have been designated. Nonstorable (as available): At not less than market price as determined by CCC. At bin sites through ASCS County Offices. At other locations through the ASCS Commodity Offices indicated on preceding page. Export: Under Announcement GR-368 (revised Aug. 31, 1959), as amended, for feed grain export payment-in-kind program, and under Announcement GR-212 (revision 2, Jan. 9, 1961) for application to arrangement for barter, approved credit and emergency sales. Available: Evanston, Dallas, and Kansas City ASCS Commodity Offices. Also Minneapolis ASCS Commodity Office as available in terminal location in Minneapolis area.
Rye, bulk	Domestic, unrestricted use: Storable: Market price basis in store,[1] but not less than 105 percent of the applicable 1961 support price [4] for the class, grade, and quality of the grain plus the respective amount shown below applicable to the type of carrier involved. If delivery is outside the area of production, applicable freight will be added to the above.

Unit	Received by—		Examples of minimum prices (exrail or barge)[7]		
	Truck	Rail or barge	Terminal	Class and grade	Price
	Cents	*Cents*			
Rye Bushel	12	9	Minneapolis	No 2. or better (or No. 3 on TW only).	$1.40

	Available: At bin sites through ASCS County Offices. At other locations through the Evanston, Dallas, Kansas City, Minneapolis, and Portland ASCS Commodity Offices. Nonstoreable (as available): At not less than market price as determined by CCC, through the ASCS Commodity Offices indicated above. Export: Under Announcement GR-368 (revised Aug. 31, 1959), as amended, for feed grain export payment-in-kind program, and under Announcement GR-212 (revision 2, Jan. 9, 1961), for application to arrangement for barter, approved credit and emergency sales. Available: Evanston, Dallas, Kansas City, and Portland ASCS Commodity Offices, also Minneapolis ASCS Commodity Office as available in terminal location in Minneapolis area.

Commodity	Sales price or method of sale
Grain sorghums, bulk	Domestic and export: Redemption of 1961 Feed Grain Program Certificates: Until further notice CCC dispositions of storable grain sorghums for domestic unrestricted use and for export, excluding sales under GR-368 and GR-212, will be in redemption of certificates or rights represented by pooled certificates under the 1961 Feed Grain Program. Such redemptions will be made at the applicable market price at point of delivery, as determined by CCC. CCC reserves the right to determine the time of delivery, and the class, grade, quality, and quantity of grain sorghums that will be made available for redemption. CCC also reserves the right to restrict the availability of grain sorghums at any location whenever such action is deemed necessary. For information on the availability of such grain from bin sites, contact ASCS State or county offices. For information on the availability of such grain from other locations, contact the Evanston, Dallas, Kansas City, Minneapolis, or Portland ASCS Commodity Offices. Other export sales:[3] Under Announcement GR-368 (revised Aug. 31, 1959), as amended, for feed grain payment-in-kind program, and under Announcement GR-212 (revision 2, Jan. 9, 1961) for application to arrangements for barter and approved credit and emergency sales. CCC reserves the right to determine the class, grade, quality and quantity to be made available for sale under these announcements. Available: Evanston, Dallas, Kansas City, Minneapolis, and Portland ASCS Commodity Offices. Nonstorable (as available): At not less than market price as determined by CCC. At bin sites through ASCS County Offices. At other locations through the ASCS Commodity Offices indicated above.
Rice, rough	Domestic, unrestricted use: Market price but not less than 105 percent of the applicable 1961 support price plus 31 cents per hundredweight, basis in store.
Rice, rough (as available)	Export: As milled or brown under Announcement GR-369 (revision 1, Feb. 1, 1961), as amended, Rice Export Program Payment-in-Kind, and under GR-379 (revision 1, May 1, 1961), for approved credit sales. California Pearl rice only for application to approved barter contracts under GR-379. Price, quantities, and varieties of rough rice available from Dallas and Portland ASCS Commodity Offices.
Peanuts, shelled and unshelled, farmers' stock (as available).	Domestic for crushing or export: Competitive bid under CCC Peanut Announcement 1 (revised, Jan. 4, 1962), as amended.
Gum turpentine (bulk in tanks)	Domestic, unrestricted use: Competitive offers for unrestricted use, bulk in storage tanks, subject to Announcement TB-21-61 and supplements thereto. Available through Naval Stores Branch, Tobacco Division, ASCS, U.S. Department of Agriculture.

[1] On bin site sales such delivery basis shall be f.o.b. buyers conveyance at the bin site.

[2] Noncommercial producing area wheat shall be on the same basis as commercial producing area wheat except increase applicable support price by 33 percent.

[3] The statutory minimum price for corn referred to in the price adjustment provision of these export announcements is as follows for corn in store: (a) For corn delivered at point of production such price is 105 percent of the applicable 1961 support price plus 8 cents per bushel. (b) For corn delivered at other than the point of production such price is 105 percent of the applicable 1961 support price at point of production plus 11 cents per bushel and the rail freight from the point of production to the delivery point. Approximate origin loan rates and approximate freight rates will be used by CCC if determined necessary.

[4] To compute, multiply applicable support price by 1.05, round product up to nearest whole cent and add amount shown above and any applicable freight for grain stored at other than the point of production.

[5] Includes paid in freight from Woodford County, Ill.

[6] The statutory minimum price for grain sorghums referred to in the price adjustment provisions of these export announcements is as follows for grain sorghums in store: (a) For grain sorghums received by truck such price is 105 percent of the applicable 1961 support price plus 23 cents per hundredweight. (b) For grain sorghums received by rail or barge such price is 105 percent of the applicable 1961 support price plus 17 cents per hundredweight. If delivery is outside the area of production applicable freight will be added to the price for rail or barge received grain sorghums. Approximate freight rates will be used by CCC if determined necessary.

Office of the Secretary

TEXAS

Designation of Areas for Emergency Loans

For the purpose of making emergency loans pursuant to section 321(a) of Public Law 87-128 (7 U.S.C. 1961) it has been determined that in the following counties in the State of Texas natural disasters have caused a need for agricultural credit not readily available from commercial banks, cooperative lending agencies, or other responsible sources.

TEXAS

Falls.	Limestone.
Jones.	

Pursuant to the authority set forth above, emergency loans will not be made in the above-named counties after June 30, 1962, except to applicants who previously received emergency or special livestock loan assistance and who can qualify under established policies and procedures.

[1] Grain Offices.

Done at Washington, D.C., this 8th day of February 1962.

DEPARTMENT OF COMMERCE

Maritime Administration

AMERICAN EXPORT LINES, INC.

Notice of Application for Approval of Changes in Itineraries of Certain Cruises

Notice is hereby given that American Export Lines, Inc., has requested changes in the itineraries of certain cruises which were approved by the Maritime Subsidy Board on October 6 and October 17, 1961 for the passenger ship "SS Atlantic."

The proposed amended itineraries follow:

Sailing date	*Amended itinerary*
Feb. 16, 1962	New York, San Juan, St. Thomas, Curacao, Kingston, Port-au-Prince, New York.
Mar. 2, 1962	New York, Kingston, Cristobal, Cartagena, Curacao, San Juan, New York.
Mar. 16, 1962	New York, San Juan, St. Thomas, Fort-de-France, Trinidad, Curacao, Kingston, New York.

Any person, firm or corporation having any interest, within the meaning of Public Law 87-45, in the foregoing who desires to offer data, views or arguments should submit the same in writing, in triplicate, to the Secretary, Marine Subsidy Board, Washington 25, D.C., by close of business on February 15, 1962. In the event an opportunity to present oral argument is also desired, specific reason for such request should also be included. The Maritime Subsidy Board will consider these comments and views and take such action with respect thereto as in its discretion it deems warranted.

Dated: February 9, 1962.

By order of the Maritime Subsidy Board.

JAMES S. DAWSON, Jr.,
Secretary.

ATOMIC ENERGY COMMISSION

[Docket No. 50-195]

GENERAL ELECTRIC CO.

Notice of Filing of Application for Utilization Facility Export License

Please take notice that General Electric Company acting through its International General Electric Company Division, 159 Madison Avenue, New York 16, N.Y., has submitted an application dated January 16, 1962, for a license authorizing the export of a 12,500 kilowatt (electrical) boiling water-type demonstration power nuclear reactor and a 100 watt (thermal) light water nuclear critical assembly facility to the Japan Atomic Energy Research Institute, Tokyo, Japan.

Pursuant to section 104 of the Atomic Energy Act of 1954 and Title 10, CFR Chapter I, Part 50, "Licensing of Production and Utilization Facilities," and upon finding that (a) the reactor proposed to be exported is a utilization facility as defined in said Act and regulations, and (b) the issuance of a license for the export thereof is within the scope of and is consistent with the terms of an Agreement for Cooperation between the United States of America and the Government of Japan, the Commission may issue a facility export license authorizing the export of the reactor to Japan.

In its review of applications solely to authorize the export of production or utilization facilities, the Commission does not evaluate the health and safety characteristics of the subject reactor.

In accordance with the procedures set forth in the Commission's rules of practice (10 CFR Part 2) a petition for leave to intervene in these proceedings must be served upon the parties and filed with the Atomic Energy Commission by the applicant or an intervener within 30 days after the filing of this notice with the Office of the Federal Register. Petitions for leave to intervene shall be filed by mailing a copy to the Office of the Secretary, Atomic Energy Commission, Washington 25, D.C., or by delivery of a copy in person to the Office of the Secretary, Germantown, Md., or the AEC's Public Document Room, 1717 H Street NW., Washington, D.C.

A copy of the application is on file in the AEC Public Document Room located at 1717 H Street NW., Washington, D.C.

Dated at Germantown, Md., this 6th day of February 1962.

For the Atomic Energy Commission.

R. L. KIRK,
Deputy Director, Division of Licensing and Regulation.

[F.R. Doc. 62-1412; Filed, Feb. 12, 1962; 8:45 a.m.]

FEDERAL COMMUNICATIONS COMMISSION

[Docket Nos. 14413, 14414; FCC 62-142]

DON L. HUBER AND BARTELL BROADCASTERS, INC. (WOKY)

Memorandum Opinion and Order

In re applications of Don L. Huber, Madison, Wisconsin, Docket No. 14413, File No. BP-13625; Bartell Broadcasters, Inc. (WOKY), Milwaukee, Wisconsin, Docket No. 14414, File No. BP-13653; for construction permits.

1. The Commission has before it for consideration (1) a petition to enlarge issues, filed December 22, 1961, by Bartell Broadcasters, Inc. (WOKY), (2) an Opposition by Don L. Huber, filed January 12, 1962, after petition for extension of time granted, (3) the Broadcast Bureau's Comments on the "Petition to enlarge issues," filed January 15, 1962, after petition for extension of time granted, and (4) Bartell's Reply to the Huber Opposition, filed January 19, 1962.[1]

2. Petitioner requests that the issues of the designation Order in this comparative proceeding, released December 4, 1961 (FCC 61-1423, Mimeo No. 12740), be enlarged to determine what efforts have been made by Don L. Huber to ascertain the programing needs of Madison, Wisconsin, the community he proposes to serve, and whether the program proposals in Huber's above-captioned application are designed to serve the needs of that area.[2] In support of this request petitioner asserts that Huber's program proposals for Madison are substantially similar to those for Huber's Fort Atkinson, Wisconsin, application filed three days after that of Madison; that either program schedule is such as might be designed for any community in the United States; and that the Madison application reveals no showing by Huber that he has made any survey of the area he proposes to serve. Petitioner further contends that Huber, now 34 years old, has not lived in Wisconsin since 1952 and that his radio experience has all been outside that State.

3. Huber's Opposition to the instant petition, filed by his attorneys, alleges that Huber spent 19 days in 1958-9 monitoring local Madison, Wisconsin, broadcasting programs and that he discreetly discussed with a number of persons the radio needs of the Madison area; the pleading does not deny the assertions of petitioner concerning Huber's residence and radio experience.

4. In its Reply, petitioner points out that the allegations in the Huber Opposition are made by Huber's attorneys who do not profess to have personal knowledge of all the facts set forth; that no affidavit by Huber averring to such facts has been submitted; and that the explanation offered in the Opposition, such as it is, even leaves unclear with whom Huber held his discussions regarding the Madison area programming needs.

5. In view of the uncertainty in these pleadings as to all the facts concerning Huber's efforts to ascertain the programming needs of the community he proposes to serve, we feel that an opportunity should be provided Huber to relate under

[1] On January 22, 1962 Huber filed a pleading entitled, "Response by Huber to Bureau's Comments." 47 CFR 1.13 makes no provision for such a filing and since no request to permit such filing or for a waiver of the Commission's Rules has been addressed to the Commission in this connection, and since good cause has not been shown for such Commission action on its own motion, such pleading will be stricken.

[2] An additionally requested issue regarding an alleged violation of 47 CFR 3.35 involving an overlap of the Huber proposal in this proceeding with another proposal by Huber at Fort Atkinson, Wisconsin (File No. BP-13644), has been rendered moot by the voluntary dismissal of the Fort Atkinson application by letter to the Commission from Huber, dated January 11, 1962, and on that ground will be denied.

hearing conditions the specific details of his efforts in this regard.

Accordingly, it is ordered, This 6th day of February 1962, that the petition to enlarge issues, filed December 22, 1961, by Bartell Broadcasters, Inc. (WOKY) is granted to the extent indicated herein and in all other respects is denied and the Response by Huber to Bureau's Comments, filed January 22, 1962, is stricken; and

It is further ordered, That the issues in the designation Order, released December 4, 1961 (FCC 61-1423, Mimeo No. 12740) are amended by renumbering Issues 5 and 6 as Issues 6 and 7, and that the issues in this proceeding are enlarged by the addition of the following issue:

5. To determine what efforts have been made by Don L. Huber to determine the programming needs of the area he proposes to serve and the manner in which he proposes to meet such needs.

Released: February 8, 1962.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] BEN F. WAPLE,
Acting Secretary.

[F.R. Doc. 62-1447; Filed, Feb. 12, 1962; 8:49 a.m.]

[Docket No. 13649 etc.; FCC 62-103]

RADIO CARMICHAEL ET AL.

Memorandum Opinion and Order

In re applications of Radio Carmichael, Sacramento, California, Docket No. 13649, File No. BP-12031; Jack L. Powell and Alyce M. Powell, Joint Tenants (KVON), Napa, California, Docket No. 13651, File No. BP-12306; Golden Gate Broadcasting Corporation (KSAN), San Francisco, California, Docket No. 13652, File No. BP-12376; John Matranga d/b as Trans-Sierra Radio, Roseville, California, Docket No. 13653, File No. BP-12938; for construction permits.

1. The Commission has before it for consideration (1) the matters of record in the above-entitled proceeding; (2) a letter from Riley R. Gibson, president of Cal-Val Radio, Inc. (KXOA), to the Commission filed June 27, 1961, and pleadings filed in response thereto; (3) a joint petition to intervene, reopen record, remand and enlarge issues, filed by John T. Carey, Inc. (KROY) and Cal-Val Radio, Inc., on August 4, 1961, and all pleadings properly filed in response thereto; (4) a petition to sever filed by Jack L. Powell and Alyce M. Powell, Joint Tenants (KVON) and Golden Gate Broadcasting Corporation (KSAN) on September 8, 1961, and pleadings filed in response thereto.

2. A brief review of the background history will permit a better understanding of the instant proceeding, which originally involved the applications of (a) Radio Carmichael (Carmichael) for a new standard broadcast station to operate on 1430 kc, 500 w, DA at Sacramento, California; (b) John Matranga, d/b as Trans-Sierra Radio (Matranga) for a similar facility at Roseville, California; (c) Jack L. Powell and Alyce M. Powell, Joint Tenants (KVON) to increase the daytime power of Station KVON, Napa, California, from 500 watts to one kilowatt and change its directional antenna daytime; (d) Golden Gate Broadcasting Corporation (KSAN) to increase the daytime power of Station KSAN, San Francisco, California, from 250 watts to one kilowatt; and (e) Ashley Robison and Gordon A. Rogers, d/b as Redwood City Broadcasting Company (Redwood) for a new standard broadcast station to operate on 1430 kc, 1 kw, D, DA, at Palo Alto, California. Redwood's application was dismissed as a result of an agreement with KSAN, and Matranga entered into an agreement with Carmichael providing for the dismissal of Matranga's application, which agreement the Examiner approved subject to review by the Commission. The Matranga-Carmichael agreement provided for the reimbursement of Matranga's out-of-pocket expenses and gave him an option to purchase at book value 25 percent of Carmichael's stock, said option to extend to August 15, 1964.

3. Hearing Examiner Walther W. Guenther, proposed grant of the three remaining applications. Subsequent to the Initial Decision, a letter was received, on June 27, 1961, from Riley R. Gibson, president of Cal-Val Radio, Inc., licensee of Station KXOA, Sacramento, advising the Commission that Matranga was a creditor of Station KGMS, Sacramento, and asserting that it would be unfair to allow him to have a 25 percent interest in Carmichael at the same time.

4. In response, Carmichael took the position that Matranga does not now have an interest in Carmichael but only an option; that it would be premature to explore the duopoly question until such time as Matranga does exercise his option; and that Carmichael is willing, prior to the transfer of any stock to Matranga, to submit the entire transaction to the Commission for its approval.

5. The Bureau filed a pleading containing an exception recommending that the grant to Carmichael be made subject to the condition that Carmichael "shall not issue or transfer any of its stock to John Matranga, or otherwise accord to him any ownership interest or status, without prior approval of the Commission." The timely filing of this exception prevented the Initial Decision from becoming final pursuant to Rule 1.153. Carmichael indicated that it had no objection to the inclusion of the condition recommended by the Broadcast Bureau.

6. On August 4, 1961, John T. Carey, Inc. (KROY) and Cal-Val Radio, Inc. (KXOA) filed a joint petition requesting that the Commission grant them leave to intervene, reopen the record, remand the proceeding to the Examiner, and enlarge the issues to include a 3.35(a) overlap issue with respect to Carmichael's president, Joseph E. Gamble, who is the owner of Station KJOY, Stockton, California.

7. Thereafter, KVON and KSAN filed a joint petition to sever, requesting that in the event the Commission grants any part of the petition to intervene or decides to enlarge the issues on its own motion, their applications be immedi-

ately severed from the instant proceeding and granted.

Intervention. 8. The only explanation offered by Carey and Cal-Val for their failure to seek intervention within the time allowed therefor by the Communications Act and the Commission's Rules, was that they were of the view that all the facts they now wish to present would be adduced at the hearing. However, in that no issue in the proceeding was directed to the facts in question, this argument is not persuasive and does not establish good cause for the untimeliness of the petition to intervene, which will be denied.

9. Nevertheless, the pleadings before us raise certain questions which must be resolved before it can be determined whether a grant of the various applications would be in the public interest.

The Matranga duopoly issue. 10. The pleadings before us indicate that by the terms of the Matranga-Carmichael agreement, Matranga, in return for the dismissal of his application, would have an option to obtain a 25 percent interest in Carmichael, while at the same time retaining a substantial creditor relationship to competing Station KGMS in the same community. Section 311(c) of the Communications Act precludes the effectuation of an agreement between mutually-exclusive applicants for the withdrawal of one of them without Commission approval. However, since the facts concerning Matranga's relationship with KGMS are not a matter of record, the Commission is not now in a position to approve or disapprove the agreement, or to consider the propriety of the condition recommended by the Broadcast Bureau. Consequently, the record will be reopened in order that evidence going to these matters may be adduced. As a matter of administrative convenience, we deem it appropriate that the further proceedings herein be conducted in accordance with the procedural rules now prevailing rather than those which obtained at the time of the agreement. Accordingly, pursuant to § 1.316 and section 0.224(b) (10) this matter will be remanded to the Chief Hearing Examiner.

The gamble overlap issue. 11. Carey and Cal-Val, having been denied intervention, lack standing to seek enlargement of the issues and their request to add a § 3.35 issue will be denied. Nor will we add the issue on our own motion. Without reaching the policy question of whether we would have added the issue had the facts herein been alleged in a timely pleading, we note that the facts have been readily available and could have been timely directed to our attention in the exercise of due diligence.

Petition to sever. 12. The record shows that no new interference would be caused to the proposed Carmichael operation by the proposed KVON operation. As for the proposed KSAN operation, there was never any interference problem between it and the proposed Carmichael operation. No objections have been filed to the petition to sever, and since petitioners are qualified in all other respects, the severance and grant of petitioners' applications is in the public interest.

Accordingly, it is ordered, This 31st day of January 1962, That the petition to intervene, reopen record, remand and enlarge issues, filed by John T. Carey, Inc. (KROY) and Cal-Val Radio, Inc. (KXOA), on August 4, 1961, is denied; and

It is further ordered, That the record in this proceeding is reopened and the proceeding remanded to the Chief Hearing Examiner for further proceedings consistent with the foregoing; and

It is further ordered, That the petition of Jack L. Powell and Alyce M. Powell, Joint Tenants (KVON) and Golden Gate Broadcasting Corporation (KSAN) filed September 8, 1961, is granted; that the Commission's Order (FCC 60-808), released July 13, 1960, in the above-entitled proceeding is amended by removing from hearing the application (File No. BP-12306) of Jack L. Powell and Alyce M. Powell, Joint Tenants (KVON) and the application (File No. BP-12376) of Golden Gate Broadcasting Corporation (KSAN); and that said applications of Jack L. Powell and Alyce M. Powell, Joint Tenants (KVON) and Golden Gate Broadcasting Corporation (KSAN) are granted; and

It is further ordered, That Radio Carmichael's request for leave to file opposition, filed on September 11, 1961, is denied.

Released: February 1, 1962.

FEDERAL COMMUNICATIONS Commission,[1]

[SEAL] BEN F. WAPLE, *Acting Secretary.*

[F.R. Doc. 62-1448; Filed, Feb. 12, 1962; 8:49 a.m.]

FEDERAL POWER COMMISSION

[Docket No. RI62-7 etc.]

FRED BOWMAN ET AL.

Order Amending Order Accepting Filings, and Providing for Hearings on and Suspension of Proposed Changes in Rates and Making Rates Effective Upon Filing of Agreements and Undertakings

FEBRUARY 6, 1962.

Fred Bowman (Operator), et al., Docket No. RI62-7 etc.; Bachus Oil Company, Docket No. RI62-12.

On July 17, 1961, Bachus Oil Company (Bachus) tendered for filing a proposed increase in rate from 12 cents per Mcf to 13 cents per Mcf at 14.65 psia for jurisdictional sales of natural gas from the Hardtner Field, Barber County, Kansas, to the Cities Service Gas Company (Cities Service) which filing has been designated as Supplement No. 1 to Bachus' FPC Gas Rate Schedule No. 4. On August 9, 1961, the Commission suspended the effectiveness of Bachus' proposed rate increase until January 17, 1962, and until such further time as it is made effective in the manner prescribed by the Natural Gas Act.

On October 25, 1961, Bachus filed the required motion to place its suspended rate in effect subject to refund at the end of the suspension period. On December 5, 1961, the increased rate was permitted to be effective as of January 17, 1962, by appropriate notice which required the filing of an undertaking to assure refund of any excess charges. Satisfactory agreement and undertaking was filed by Bachus on December 8, 1961, pursuant to the Commission's aforementioned Notice issued December 5, 1961.

On November 6, 1961, Bachus submitted an amendatory agreement with Cities Service dated November 1, 1961, which has been designated as Supplement No. 2 to Bachus' FPC Gas Rate Schedule No. 4, and adds acreage under the same terms and provisions as the original contract between Bachus and Cities Service.

Bachus requests that the suspension proceeding in the above-captioned docket be considered to include production from certain acreage which was dedicated to the subject contract after the proposed increased rate was submitted and suspended.

The Commission finds: Good cause has been shown that the Commission's order issued herein on August 9, 1961, suspending Supplement No. 1 to Bachus' FPC Gas Rate Schedule No. 4, and the Commission's Notice issued herein on December 5, 1961, permitting such increased rate to become effective subject to refund, be amended to permit the gas attributable to the subject additional acreage dedicated by Supplement No. 2 to Bachus' FPC Gas Rate Schedule No. 4 to be sold at the 13¢ per Mcf increased rate subject to refund of amounts collected in excess of the proper rate determined in Docket No. RI62-12.

The Commission orders: The Commission's order issued herein on August 9, 1961, suspending Supplement No. 1 to Bachus' FPC Gas Rate Schedule No. 4, and the Commission's Notice issued on December 5, 1961, permitting said supplement to become effective subject to refund, are hereby amended to include the additional acreage contained in Supplement No. 2 to Bachus' FPC Gas Rate Schedule No. 4.

By the Commission.

JOSEPH H. GUTRIDE, *Secretary.*

[F.R. Doc. 62-1419; Filed, Feb. 12, 1962; 8:45 a.m.]

[Docket No. RI60-395]

F. A. CALLERY, INC., ET AL.

Order Amending Order Providing for Hearings on and Suspension of Proposed Changes in Rates; and Allowing Rate Changes To Become Effective

FEBRUARY 6, 1962.

On January 17, 1962, F. A. Callery, Inc., et al. (Callery) filed in the above-entitled proceeding a motion for leave to file a trust agreement in lieu of undertaking to assure refund of excess charges as prescribed by Paragraph (B) of the Commission's order issued in Docket No. RI60-395 on January 4, 1962. Concurrently with the filing of said motion, Callery filed an Amendment to a Trust Agreement previously filed in this proceeding on January 13, 1961, pursuant to the Commission's order issued on December 15, 1960, making effective Supplement No. 3 to Callery's FPC Gas Rate Schedule No. 8 upon the establishment of a trust fund to assure refund of excess charges. Said supplement having been suspended by the Commission's order issued herein on June 10, 1960, until November 16, 1960. The rate schedule involved herein pertains to Callery's jurisdictional sales of natural gas produced in Pecos Valley Field, Pecos County, Texas (Railroad District No. 8) and sold to El Paso Natural Gas Company.

On December 5, 1961, Callery tendered for filing a proposed notice of change in rate which provides for an increased rate and charge from 15.6488 cents per Mcf to 15.70925 cents per Mcf at 14.65 psia. Such proposed change in rate has been designated as Supplement No. 1 to Supplement No. 3 to Callery's FPC Gas Rate Schedule No. 8 and was suspended by the Commission's aforementioned order issued in Docket No. RI60-395 on January 4, 1962, for one day, and allowed by such order to become effective subject to refund as of January 6, 1962, upon the filing by Callery within 20 days from the date of the issuance of said suspension order, an agreement and undertaking to comply with the refunding and reporting procedure required by the Natural Gas Act and § 154.102 of the regulations thereunder.

Callery now desires to add to the funds held and administered by the Trustee, First City National Bank of Houston, Houston, Texas, those revenues attributable to the increase in price from 15.6488 cents to 15.70925 cents per Mcf permitted to become effective under Supplement No. 1 to Supplement No. 3 on January 6, 1962, by Paragraph (B) of the Commission's order issued January 4, 1962, in Docket No. RI60-395. To that end, Callery and the First City National Bank have entered into an Amendment to Trust Agreement dated January 16, 1962, and tendered it for filing with Callery's aforesaid motion dated January 17, 1962.

The Commission finds: Good cause has been shown that Paragraph (B) of the Commission's order issued January 4, 1962, in Docket No. RI60-395, wherein Supplement No. 1 to Supplement No. 3 to Callery's FPC Gas Rate Schedule No. 8 was permitted to become effective subject to refund upon the filing by Callery of its agreement and undertaking, should be amended to permit the filing by Callery of a trust agreement to assure refund of excess charges.

The Commission orders:

(A) Paragraph (B) of the Commission's order issued on January 4, 1962, in Docket No. RI60-395, is hereby amended to permit Callery to file a trust agreement in lieu of the agreement and undertaking prescribed by Paragraph (B) of the Commission's aforementioned order.

(B) The Amendment to Trust Agreement filed by Callery on January 17, 1962, appears to be satisfactory and is accepted for filing.

(C) Supplement No. 1 to Supplement No. 3 to Callery's FPC Gas Rate Schedule No. 8 is effective from January 6, 1962, subject to all the terms and provisions of Callery's Trust Agreement filed on January 11, 1961, in this proceeding, and the refunding and reporting procedure required by the Natural Gas Act and § 154.102 of the regulations thereunder. The Trust Agreement and Amendment thereto shall remain in full force and effect until discharged by the Commission.

By the Commission.

JOSEPH H. GUTRIDE, *Secretary.*

[Docket Nos. CP62-63, CP62-66]

EL PASO NATURAL GAS CO. AND NORTHERN NATURAL GAS CO.

Notice of Applications and Date of Hearing

FEBRUARY 6, 1962.

Take notice that on September 14, 1961, as supplemented on October 26, 1961, El Paso Natural Gas Company (El Paso), Post Office Box 1492, El Paso, Texas, filed in Docket No. CP62-63, and on September 14, 1961, as supplemented on October 30, 1961, Northern Natural Gas Company (Northern), 2223 Dodge Street, Omaha, Nebraska, filed in Docket No. CP62-66, applications pursuant to section 7(c) of the Natural Gas Act for certificates of public convenience and necessity authorizing the exchange, on a best efforts basis, of 30,000 Mcf of natural gas per day during the period from November 1, 1961, through December 31, 1962, all as more fully set forth in the applications, as supplemented, on file with the Commission and open to public inspection.

The applications show that the proposed exchange will be accomplished by use of existing facilities and without charge or payment by either applicant.

Northern and El Paso presently are authorized to exchange up to 475,000 Mcf of natural gas per day at certain interconnections in Oklahoma and Texas and at certain delivery points along El Paso's Plains-Dumas transmission pipeline whereby El Paso makes certain deliveries for the account of Northern. Under the subject proposed exchange, Northern will deliver additional exchange gas to El Paso at the latter's Plains Compressor Station, Yoakum County, Texas, and El Paso will deliver equivalent volumes of additional exchange gas to Northern at El Paso's Dumas Station, Moore County, Texas.

Northern states that in the past it has had approximately 15 billion cubic feet of allowables cancelled by the New Mexico Oil Conservation Commission in Lea County, New Mexico. Northern states further that it is currently in an underproduced position in Lea County and is faced with further cancellation, and that cancellation of allowables will be reduced to the extent that volumes of gas are delivered to El Paso under the subject proposed exchange arrangement.

The proposed exchange will be made pursuant to an agreement between the two Applicants, dated October 20, 1961.

These related matters should be heard on a consolidated record and disposed of as promptly as possible under the applicable rules and regulations and to that end:

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing will be held on March 12, 1962, at 9:30 a.m., e.s.t., in a Hearing Room of the Federal Power Commission, 441 G Street NW., Washington, D.C., concerning the matters involved in and the issues presented by such applications: *Provided, however,* That the Commission may, after a non-contested hearing, dispose of the proceedings pursuant to the provisions of § 1.30(c) (1) or (2) of the Commission's rules of practice and procedure. Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicants to appear or be represented at the hearing.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D.C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before February 28, 1962. Failure of any party to appear at and participate in the hearing shall be construed as waiver of and concurrence in omission herein of the intermediate decision procedure in cases where a request therefor is made.

JOSEPH H. GUTRIDE, *Secretary.*

[Docket No. RI61-112]

LONDON GAS COMPANY ET AL.

Order Substituting Successor in Interest as Respondent and Redesignating Proceeding

FEBRUARY 6, 1962.

On September 12, 1961, London Gas Company, et al. tendered for filing an application to be substituted for D. E. London, et al. as respondent in the rate suspension proceeding styled under the above docket number. The application states that D. E. London has assigned to London Gas Company, an Oklahoma Corporation, all interests in gas leases described in D. E. London's FPC Gas Rate Schedule Nos. 1, 3, and 6, relating to sales of natural gas to Lone Star Gas Company from the producing area of Asphaltum Field, Stephens and Jefferson Counties, Oklahoma. Supplement Nos. 2, 2 and 2 to D. E. London, et al.'s FPC Gas Rate Schedule Nos. 1, 3 and 6 were suspended by order of the Commission issued September 30, 1960, in Docket

[1] Dissenting opinions of Commissioners Lee, Bartley, and Ford filed as part of original document.

No. RI61–112, and London Gas Company seeks to be substituted in lieu of D. E. London as respondent in this proceeding.

On May 22, 1961, London Gas Company filed its bond pursuant to notice of the Commission issued April 28, 1961, assuring refunds for any amounts subsequently found not justified in this proceeding.

The Commission finds: It is necessary and proper in carrying out the provisions of the Natural Gas Act, that London Gas Company be substituted for D. E. London in the proceeding in Docket No. RI61–112, and that said proceeding be redesignated as hereinafter ordered.

The Commission orders:

(A) London Gas Company is hereby substituted for D. E. London in the proceeding in Docket No. RI61–112 and said proceeding is hereby redesignated London Gas Company, et al., Docket No. RI61–112.

(B) The surety bond filed by London Gas Company pursuant to notice of the Commission issued March 16, 1961, as amended by notice of the Commission issued April 28, 1961, shall remain in full force and effect in accordance with the provisions set forth in the said notices.

By the Commission.

JOSEPH H. GUTRIDE,
Secretary.

[Rev. S.O. 562, Taylor's I.C.C. Order 141]

ST. JOHNSBURY AND LAMOILLE COUNTY RAILROAD

Rerouting or Diversion of Traffic

In the opinion of Charles W. Taylor, agent, the St. Johnsbury & Lamoille County Railroad, account derailment between Sheldon Junction and St. Johnsbury, Vermont, is unable to transport traffic routed over its line.

It is ordered, That:

(a) Rerouting traffic: The St. Johnsbury & Lamoille County Railroad and its connections, account derailment between Sheldon Junction and St. Johnsbury, Vermont, are hereby authorized to divert or reroute such traffic over any available route to expedite the movement, regardless of routing shown on the waybill. The billing covering all such cars rerouted shall carry a reference to this order as authority for the rerouting.

(b) Concurrence of receiving roads to be obtained: The railroad desiring to divert or reroute traffic under this order shall confer with the proper transportation officer of the railroad or railroads to which such traffic is to be diverted or rerouted, and shall receive the concurrence of such other railroads before the rerouting or diversion is ordered.

(c) Notification to shippers: The carriers rerouting cars in accordance with this order shall notify each shipper at the time each car is rerouted or diverted and shall furnish to such shipper the new routing provided under this order.

(d) Inasmuch as the diversion or rerouting of traffic by said agent is deemed to be due to carrier's disability, the rates applicable to traffic diverted or rerouted by said agent shall be the rates which were applicable at the time of shipments on the shipments as originally routed.

(e) In executing the directions of the Commission and of such Agent provided for in this order, the common carriers involved shall proceed even though no contracts, agreements, or arrangements now exist between them with reference to the divisions of the rates of transportation applicable to said traffic; divisions shall be, during the time this order remains in force, those voluntarily agreed upon by and between said carriers; or upon failure of the carriers to so agree, said divisions shall be those hereafter fixed by the Commission in accordance with the pertinent authority conferred upon it by the Interstate Commerce Act.

(f) Effective date: This order shall become effective at 9:00 a.m., February 7, 1962.

(g) Expiration date: This order shall expire at 11:59 p.m., February 12, 1962, unless otherwise modified, changed, suspended or annulled.

It is further ordered, That this order shall be served upon the Association of American Railroads, Car Service Division, as agent of all railroads subscribing to the car service and per diem agreement under the terms of that agreement and by filing it with the Director, Office of the Federal Register.

Issued at Washington, D.C., February 7, 1962.

INTERSTATE COMMERCE COMMISSION,
CHARLES W. TAYLOR,
Agent.

Title 3—THE PRESIDENT

Memorandum of February 9, 1962

[PREVENTING CONFLICTS OF INTEREST ON THE PART OF ADVISERS AND CONSULTANTS TO THE GOVERNMENT]

Memorandum to the Heads of Executive Departments and Agencies

Over the past twenty or more years departments and agencies of the Government have made increasing use of part-time consultants and advisers and of advisory groups. The services of highly skilled persons on a part-time and intermittent basis is in the interest of the Government and provides the Government with an indispensable source of expert advice and knowledge. Since, however, such persons have their principal employment outside the Government, and frequently with business entities which are doing business with the Government or with universities which receive Government grants, a number of conflict of interest problems arise from time to time. It is important that departments and agencies of the Government oversee the activities of such consultants in order to insure that the public interest is protected from improper conduct and that consultants will not, through ignorance or inadvertence, embarrass the Government or themselves in their activities.

Many intermittent personnel serving the Government today are individuals with specialized scientific knowledge and skills who are regularly employed in industry, research institutes or education. Their employers in many cases have contracts with or research grants from the Government. The areas in which the skills and talents of these individuals are put to use by the Government on a part-time basis may be the same as the areas with which the contracts or grants received by their employers from the Government are concerned. An individual employed by a university may act as an intermittent consultant not only for the Government but for a private firm and either his university or the firm or both may be engaged in work for or supported by the Government. A consultant to the Government may have other financial connections with firms doing business with the Government in the general area of his expertise and, therefore, his consultancy. The many possible interrelationships between a consultant's service to the Government and his own and his employer's financial interests demonstrate that conflicts problems may frequently arise.

Both the part-time adviser and the department or agency which makes use of his services must be alert to the possibility of conflicts. It is, of course, incumbent upon the consultant to familiarize himself with laws and regulations applicable to him. The responsibility of the agency is equally great. It must assist the consultant to understand those laws and regulations. It must obtain from him such information concerning his financial interests as is necessary to disclose possible conflicts. It must take measures to avoid the use of his services in any situation in which a violation of law or regulation is likely to occur. And it must take prompt and proper disciplinary or remedial action when a violation, whether intentional or innocent, is detected.

Most of the departments and agencies of the Government currently have regulations applicable to intermittent consultants and advisers. There is, however, considerable diversity in their detail and, in some cases, their interpretation of applicable law. While the problems will undoubtedly vary from department to agency, and different rules and regulations may in some instances be appropriate, I believe it desirable to achieve the maximum uniformity possible in order to insure general standards of common application throughout the Government. This memorandum is designed to achieve that purpose.

CONFLICT-OF-INTEREST STATUTES

There are six basic conflict-of-interest laws which are pertinent to the subject matter of this memorandum. Four of the laws, sections 281, 283, 434 and 1914 of Title 18 of the United States Code, in general prohibit certain activities by a person who is in the employ of the Government. Two statutes, section 284 of Title 18 and section 99 of Title 5, prohibit a person who has left the employ of the Government from engaging in certain activities during a two-year period following the termination of his Government service. The six statutes are set forth in full in the appendix to this memorandum. They contain restrictions which, with an exception discussed hereafter, are fully applicable to an individual who serves or has served the Government as an adviser or consultant, whether with or without compensation. The six statutes are discussed separately below.

18 U.S.C. 281. This statute prohibits an "officer or employee of the United States or any department or agency thereof" from receiving or agreeing to receive compensation for any services rendered in relation to any "proceeding, contract, claim, controversy, charge, accusation, arrest, or other matter in which the United States is a party or directly or indirectly interested, before any department, agency, court martial, [or] officer. . . ." In general, the effect of this section is to preclude a Government employee from acting, in most of the important matters that come before the Government departments and agencies, on behalf of a non-Government employer or other person from whom he receives compensation.

I have received an opinion from the Attorney General concluding that 18 U.S.C. 281 applies to all intermittent consultants and advisers on those days on which they are actually employed by the Government but that it applies only to certain consultants and advisers on the days during the period of their availability for Government service when they are not so employed. Those to whom section 281 applies on their days away from the Government service are: intermittent consultants and advisers whose Government employment during the period of their availability occupies a substantial portion of that period, or affords their principal means of livelihood.

In order to clarify the application of section 281 and promote its policies, each department and agency should take steps to insure that at the time a consultant or adviser is appointed, an accurate estimate is made of the extent to which it will make use of his services. The following rules should be employed:

(a) No appointment should extend beyond the end of the current fiscal year.

(b) The period of appointment to be made for a part, or all, of the fiscal year, or of the remaining part of the fiscal year, should reflect the agency's best estimate of its employment of the individual.

(c) Whether the estimate is that the consultant or adviser will be employed intermittently throughout the entire fiscal year or that part of the year which remains at the time of appointment, or throughout a shorter interval, the appointment should be made as follows:

(1) If the agency estimates that the consultant or adviser will be employed 40% or more of the time within the period designated, the individual should be carried on the rolls as a Government employee for the entire period and should be informed that he is administratively regarded as subject to section 281 for the entire period.

(2) If the agency estimates the consultant or adviser will be employed less than 40% of the period designated, the individual may be carried on the rolls as an intermittent consultant or adviser pursuant to an arrangement by which he would receive implementing appointments from time to time within the period, rather than an appointment for the entire period, and the individual should be informed that he will be treated as a Government employee for purposes of section 281 only on the day or days within the pertinent period covered by implementing appointments.

(3) If the consultant or adviser is serving more than one department or agency, he shall inform each of his arrangements with the others so that appropriate administrative measures may be effected by the departments or agencies involved.

(4) For consultative or advisory boards, individual appointments should be made for the entire fiscal year, or such other period as may be prescribed by law, and the appointee informed that insofar as his board membership is concerned, he will be regarded as a Government officer or employee only on the days when the board meets.

To a considerable extent the prohibitions of section 281 are aimed at the sale of influence to gain special favors for private business and at the misuse of governmental position or information. In accordance with these aims, it is desirable that even a consultant or adviser who is subject to the section only on the days he serves the Government should make every effort to avoid any personal contact with respect to negotiations for contracts or grants with the department or agency which he is advising if the subject matter is related to the subject matter of his consultancy. I recognize that this will not always be possible to achieve since there are instances where the consultant or adviser may have an executive position and responsibility with his regular employer which will require him to participate personally in contract negotiations with the department or agency he is advising. Whenever this is the case the consultant or adviser should participate in the negotiations for his employer only with the knowledge and approval of a responsible government official, who should note his approval in appropriate form. In other instances an occasional consultant or adviser may have technical knowledge which is indispensable to his regular employer in his efforts to formulate a research and development contract or a research grant and, for the same reason, it is in the governmental interest that he should take part in negotiations for his private employer. Again he should participate only with the knowledge and approval of a responsible government official, who should note his approval in appropriate form.

The aim of preventing the sale of influence and the misuse of governmental position or information that is reflected by section 281 should be furthered in yet another way with respect to a consultant or adviser who under the foregoing rules is subject to section 281 only on the days he serves the Government. He should be barred, not only on those days but at all times during the designated period of his availability for service, from activities before a Government department or agency in relation to a matter in which the Government is interested if he is to receive compensation for such activities from a non-Governmental source in addition to or in lieu of a normal salary or fee arrangement.

It should be noted that the prohibition of section 281 against certain compensated activities "before" a department or agency may go beyond an individual's personal appearance at the department or agency. A consultant or adviser should not, at times when he is subject to the prohibition of the section, prepare or assist in preparing proposals for contracts or grants to be presented to a department or agency by or on behalf of a non-Governmental firm or organization from which he receives compensation.

18 U.S.C. 283, 18 U.S.C. 284 and 5 U.S.C. 99. Section 283 in general prohibits an officer or employee of the Government from acting as agent or attorney for prosecuting any other person's claim against the Government, or assisting in the prosecution of any such claim other than in the discharge of his official duties. This statute, which extends to both compensated and uncompensated activities, overlaps 18 U.S.C. 281 insofar as the latter section pertains to claims activities. Therefore a consultant or adviser who is not subject to section 281 at times when not actually employed by the Government may nevertheless be subject at those times to the interdiction of section 283. Even if not interdicted by that section, however, he would be subject to the two post-employment statutes, 18 U.S.C. 284 and 5 U.S.C. 99. The first of these prohibits a *former* Government employee, for a period of two years after his employment has closed, from prosecuting in a representative capacity any claim against the United States involving

any subject matter directly connected with which he was employed. 5 U.S.C. 99 prohibits a *former* officer or employee of an executive department, for a period of two years after his employment with the department has ceased, from prosecuting in a representative capacity, or aiding in the prosecution of, any claim pending in any department during his employment. It is apparent that a consultant or adviser would be subject to the prohibition of 18 U.S.C. 283 or one or both of 18 U.S.C. 284 and 5 U.S.C. 99 at all times until the termination of his last period of service to the Government. In addition he would be bound by the provisions of 18 U.S.C. 284 and 5 U.S.C. 99 for two years thereafter.

18 U.S.C. 434. This section sets forth a prohibition against certain actions on the part of a Government employee in his capacity as such. More particularly, the section, which applies to all consultants and advisers at all times during their span of service, prohibits a Government employee who is interested in the profits of any business entity from acting for the Government in the transaction of business with such entity.

It is in the best interests of the Government that the policy of this section be extended to consultants and advisers beyond its literal language. Accordingly, an adviser or consultant should be disqualified from the performance of duties involving the transaction of business with, *or the rendering of advice which will have a direct and predictable effect upon the interests of*, a business entity by which he is employed, or to which he renders consultant service, or in which he has a financial interest. In particular, he should be excluded from participation in the evaluation of contract or grant proposals which will directly affect the interests of such business entity. However, he need not be precluded from rendering general advice in situations where no preference or advantage might be gained therefrom by any particular business entity. A non-profit organization or educational institution shall be deemed a "business entity" for the purposes of this paragraph.

18 U.S.C. 1914. Section 1914 forbids a Government employee to receive compensation "in connection with" his Government service from a source other than the Government or a State, county or municipality. The statute applies to an uncompensated as well as a compensated consultant or adviser. In cases where a consultant or adviser serves occasionally and for short periods, he may continue to receive his usual compensation from an outside private employer. And the continuation of the consultant or adviser's outside private compensation during a period of as much as 30 days a year of Government service would ordinarly be permissible on the assumption that it is not paid "in connection with" his Government services but rather as part of his normal salary arrangements with his private employer. However, if the length of his service exceeds these limits, it will be necessary to determine specifically whether the continued outside compensation is related to the consultant or adviser's services to the Government, and thus improper, or whether it is permissible because made with respect to present, past, or future services for the outside employer. Cases of this nature should be referred to the chief legal officer of the department or agency for examination and recommendation as to the proper action to be taken.

Special Exemptions

Some consultants or advisers are appointed pursuant to a statute which exempts them from one or more of the conflict-of-interest laws. Nevertheless, a consultant or adviser so appointed should not participate in any matter where that participation, except for such exemption, would be within any of the statutes unless he receives permission to participate therein from the head of the department or agency he serves. The latter shall not consent to the participation of such consultant or adviser in the matter unless he finds that such participation is, on the particular facts, consistent with the interests of the Government. Nothing in this paragraph shall be deemed to relieve any department or agency head, or appointee of such department or agency head, of the obligation to file a statement for publication in the Federal Register pursuant to the requirements of section 710(b) of

the Defense Production Act of 1950 (50 U.S.C. App. 2160(b)) or of Executive Order No. 10647 of November 28, 1955 (20 F.R. 8769).

Ethical Standards of Conduct

Aside from the conflict-of-interest laws, there are elementary rules of ethics in the conduct of the public business by which all those who serve the Government are bound. That an individual may serve the Government only occasionally and for brief periods does not relieve him from the obligation to abide by those rules. That he may be needed to bring rare or specialized talents and skills to the Government does not mean that he should be considered for a waiver. The people of the nation are entitled to ethical behavior of the highest order in the conduct of their Government's affairs from the sometime worker to no lesser degree than from the career worker.

Inside Information. The first principle of ethical behavior for the intermittent consultant or adviser is that he must refrain from any use of his public office which is motivated by, or gives the appearance of being motivated by, the desire for private gain for himself or persons with whom he has family, business or financial ties. The fact that the desired gain, if it materializes, will not take place at the expense of the Government makes his action no less improper.

An adviser or consultant must conduct himself in a manner devoid of the slightest suggestion of the extraction of private advantage from his Government employment. Thus, a consultant or adviser must not, on the basis of any inside information, enter into speculation, or recommend speculation to members of his family or business associates, in the securities of any private company engaged in work for the Government in the field of his Government duties. He must obey this injunction even though those duties have no connection whatever with the financial and other arrangements between the Company and the Government. And he should be careful in his personal financial activities to avoid any appearance of acting on the basis of information obtained in the course of those duties.

It is important for consultants and advisers to have access to Government data pertinent to their duties and to maintain familiarity with the Government's plans and programs and the requirements thereof, within the area of their competence. Since it is frequently in the Government's interest that information of this nature be made generally available to an affected industry, there is generally no impropriety in a consultant or adviser's utilizing such information in the course of his non-Government employment. However, a consultant or adviser may, in addition, acquire information which is not generally available to those outside the Government. In that event, he may not use such information for the special benefit of a business or other entity by which he is employed or retained or in which he has a financial interest.

In order to avoid any actual or potential abuse of information by a consultant or adviser, departments and agencies should, through information programs, make every effort to insure to the maximum extent possible that all firms within an industry have access to the same information that is available to a consultant or adviser who is employed by any of them. In addition, regular Government employees should avoid divulging confidential information to him unnecessary to the performance of his governmental responsibility, or information which directly involves the financial interests of his employer. Consultants and advisers should be instructed that information not generally available to private industry must remain confidential in their hands, and must not be divulged to their private employers or clients. In cases of doubt they should be encouraged to confer with the chief legal officer or other designated agency official who can assist in the identification of information not generally available and in the resolution of any actual or potential conflict between duties to the Government and to private employers.

Occasionally an individual who becomes a Government consultant or adviser is, subsequent to his designation as such, requested by a private enterprise to act in a similar capacity. In some cases the request may give the appearance of being motivated by the desire of

the private employer to secure inside information. Where the consultant or adviser has reason to believe that the request for his services is so motivated, he should make a choice between acceptance of the tendered private employment and continuation of his Government consultancy. In such circumstances he may not engage in both. Furthermore, he should discuss any such offer of private employment with the chief legal officer of his Government agency whether or not he accepts it.

At times a private enterprise or other organization urges the appointment of one of its employees or members to a particular Government consultancy. The departments and agencies should discourage this practice. Any initiative in connection with the appointment of consultants, or in securing the names of qualified persons, should come from the Government.

Abuse of Office. An adviser or consultant shall not use his position in any way to coerce, or give the appearance of coercing, another person to provide any financial benefit to him or persons with whom he has family, business or financial ties.

Gifts. An adviser or consultant shall not receive or solicit anything of value as a gift, gratuity or favor for himself or persons with whom he has family, business or financial ties if he has reason to believe that it would not be made but for his position with the Government, or if the acceptance thereof would result in, or give the appearance of resulting in, his loss of complete independence or impartiality in serving the Government.

INDUSTRY, LABOR OR AGRICULTURAL REPRESENTATIVES

It is occasionally necessary to distinguish consultants and advisers from persons speaking for a firm or an industry, or for labor or agriculture, or in some other representative capacity. A consultant or adviser is a person whose advice is obtained by a department or agency because of his particular qualifications and who serves as an employee in an individual and independent capacity. A representative of a firm or industry or organization who is invited to appear before a Government department or agency presents his views in a representative capacity and is not an employee. The representative is not, therefore, within the scope of the conflict-of-interest laws. Departments and agencies should be careful to make and clarify the distinction noted here and should not compensate an industry or similar representative for his advice, though they may pay travel expenses and *per diem* allowances where appropriate.

ADMINISTRATIVE STEPS

All departments and agencies of the Government shall

(1) bring this memorandum to the attention of all consultants and advisers employed by them and of all regular employees dealing with such consultants and advisers;

(2) review their existing rules and regulations and where appropriate, revise them or issue new rules and regulations to promote the policies set forth in this memorandum; and

(3) take such other measures as may be appropriate to impress upon consultants and advisers and upon Government officials with whom they consult that they have a responsibility to avoid situations in which a potential conflict-of-interest may exist. These individuals should also be cautioned to avoid situations in which the consultant or adviser might be thought to be influencing Governmental action in matters with regard to which he has a financial or other personal interest, or to be using inside information for private gain.

While it would be most advisable for a department or agency of the Government, in order to minimize the occurrence of conflicts of interest, to avoid appointing individuals to advisory positions who are employed or consulted by contractors or others having a substantial amount of business with that department or agency, I recognize that the Government has, of necessity, become increasingly concerned with highly technical areas of specialization, and that the number of individuals expert in those areas is frequently very small. Therefore,

in many instances, it will not be possible for a department or agency to obtain the services of a competent adviser or consultant who is not in fact employed or consulted by such contractors. In addition, an advisory group may of necessity be composed largely or wholly of persons of a common class or group whose employers may benefit from the advice given. An example would be a group of university scientists advising on research grants to universities. Only in such a group can the necessary expertise be found. In all these circumstances, particular care should be exercised to exclude his employer's or clients' contracts or other transactions with the Government from the range of the consultant's or adviser's duties.

DISCLOSURE OF FINANCIAL INTERESTS

In order to carry out its responsibility to avoid the use of the services of consultants or advisers in situations in which violation of the conflict-of-interest laws or of these regulations may occur, each department or agency of the Government shall, at the time of employment of a consultant or adviser, require him to supply it with a statement of his private employment and financial interests. The statement should indicate the names of all the companies, firms, research organizations and educational institutions which he is serving as employee, officer, member, director, or consultant, and the companies in which he has any other financial interest, such as the ownership of securities or other interests which have a significant financial value. He need not reveal precise amounts of investments. Each statement of financial interests should be forwarded to the chief legal officer of the department or agency concerned, for information and for advice as to possible conflict of interest. In addition, each statement should be reviewed by those persons responsible for the employment of consultants and advisers to assist them in applying the criteria for disqualification discussed in this memorandum as set forth above. Such statements should be kept current during the period the consultant is on the Government rolls.

LEGAL INTERPRETATION

Whenever the chief legal officer of a department or agency believes that a substantial legal question is raised by the employment of a particular consultant or adviser he should advise the Department of Justice, through the Office of Legal Counsel, in order to insure a consistent and authoritative interpretation of the law.

This memorandum shall be published in the FEDERAL REGISTER.

JOHN F. KENNEDY

THE WHITE HOUSE,
February 9, 1962.

APPENDIX

18 U.S.C. 281

Whoever, being a Member of or Delegate to Congress, or a Resident Commissioner, either before or after he has qualified, or the head of a department, or other officer or employee of the United States or any department or agency thereof, directly or indirectly receives or agrees to receive, any compensation for any services rendered or to be rendered, either by himself or another, in relation to any proceeding, contract, claim, controversy, charge, accusation, arrest, or other matter in which the United States is a party or directly or indirectly interested, before any department, agency, court martial, officer, or any civil, military, or naval commission, shall be fined not more than $10,000 or imprisoned not more than two years, or both; and shall be incapable of holding any office of honor, trust, or profit under the United States.

Retired officers of the armed forces of the United States, while not on active duty, shall not by reason of their status as such be subject to the provisions of this section. Nothing herein shall be construed to allow any retired officer to represent any person in the sale of anything to the Government through the department in whose service he holds a retired status.

This section shall not apply to any person because of his membership in the National Guard of the District of Columbia nor to any person specially excepted by Act of Congress.

18 U.S.C. 283

Whoever, being an officer or employee of the United States or any department or agency thereof, or of the Senate or House of Representatives, acts as an agent or attorney for prosecuting any claim against the United States, or aids or assists in the prosecution or support of any such claim otherwise than in

the proper discharge of his official duties, or receives any gratuity, or any share of or interest in any such claim in consideration of assistance in the prosecution of such claim, shall be fined not more than $10,000 or imprisoned not more than one year, or both.

Retired officers of the armed forces of the United States, while not on active duty, shall not by reason of their status as such be subject to the provisions of this section. Nothing herein shall be construed to allow any such retired officer within two years next after his retirement to act as agent or attorney for prosecuting or assisting in the prosecution of any claim against the United States involving the department in whose service he holds a retired status, or to allow any such retired officer to act as agent or attorney for prosecuting or assisting in the prosecution of any claim against the United States involving any subject matter with which he was directly connected while he was in an active-duty status.

This section shall not apply to any person because of his membership in the National Guard of the District of Columbia nor to any person specially excepted by enactment of Congress.

18 U.S.C. 434

Whoever, being an officer, agent or member of, or directly or indirectly interested in the pecuniary profits or contracts of any corporation, joint-stock company, or association, or of any firm or partnership, or other business entity, is employed or acts as an officer or agent of the United States for the transaction of business with such business entity, shall be fined not more than $2,000 or imprisoned not more than two years, or both.

18 U.S.C. 1914

Whoever, being a Government official or employee, receives any salary in connection with his services as such an official or employee from any source other than the Government of the United States, except as may be contributed out of the treasury of any State, county, or municipality; or

Whoever, whether a person, association, or corporation, makes any contribution to, or in any way supplements the salary of, any Government official or employee for the services performed by him for the Government of the United States—

Shall be fined not more than $1,000 or imprisoned not more than six months, or both.

18 U.S.C. 284

Whoever, having been employed in any agency of the United States, including commissioned officers assigned to duty in such agency, within two years after the time when such employment or service has ceased, prosecutes or acts as counsel, attorney or agent for prosecuting, any claims against the United States involving any subject matter directly connected with which such person was so employed or performed duty, shall be fined not more than $10,000 or imprisoned not more than one year, or both.

5 U.S.C. 99

It shall not be lawful for any person appointed as an officer, clerk, or employee in any of the departments, to act as counsel, attorney, or agent for prosecuting any claim against the United States which was pending in either of said departments while he was such officer, clerk, or employee, nor in any manner, nor by any means, to aid in the prosecution of any such claim, within two years next after he shall have ceased to be such officer, clerk, or employee.

[F.R. Doc. 62-1603; Filed, Feb. 13, 1962; 12 m.]

Rules and Regulations

Title 5—ADMINISTRATIVE PERSONNEL

Chapter I—Civil Service Commission

PART 39—TRAINING REGULATIONS

Miscellanous Amendments

Effective upon publication in the FEDERAL REGISTER, §§ 39.207(b)(1)(iii), 39.305 and 39.306(c)(2) are amended as set out below.

§ 39.207 Reports.

* * * * * *

(b) * * *

(1) * * *

(iii) Summarizing the department's estimated expenditures for all training by, in, or through non-Government facilities (including training incident to initial procurement of equipment when information on the costs of such training is available), presenting separate totals for (*a*) tuition and related fees, (*b*) travel, and (*c*) per diem.

§ 39.305 Waiver of limitations on training of employees through non-Government facilities.

(a) Subject to other provisions of the Act and the regulations in this part, an employee having less than one year of current, continuous civilian service in the Government shall be eligible for training by, in, or through non-Government facilities upon a finding by the head of his department that postponement of the training until the employee has completed one year of current, continuous civilian service in the Government would be contrary to the public interest.

(b) To the extent considered justified by the head of the department concerned, the requirement for applying the limitations contained in section 12(a)(1) and (3) of the Act may be waived:

(1) For employees assigned to training by, in, or through non-Government facilities that does not exceed forty hours within a single program;

(2) For employees receiving training provided by manufacturers as a part of the normal service incident to initial purchase or lease of their products under procurement contracts;

(3) For employees receiving training through correspondence courses.

(c) To the extent he considers justified, the head of each department is further authorized to waive the limitation contained in section 12(a)(3) of the Act for employees serving in work-study programs when all of the following conditions are met:

(1) The employees are serving under career or career-conditional appointments;

(2) The employees are working in the fields of natural or mathematical sciences or engineering;

(3) Expenses of college training are being paid in the programs concerned only because the department has found that the programs cannot operate successfully without such payment;

(4) The employees' expenses of college training are being paid only to the extent the department deems necessary to attract and retain these employees; and

(5) Only those expenses of the employees' college training that are covered by section 10(2) of the Act are being paid.

§ 39.306 Agreements to continue in service.

* * * * * *

(c) * * *

(2) Employees selected for training by, in, or through non-Government facilities that does not exceed eighty hours within a single program;

(Sec. 6, 72 Stat. 329)

UNITED STATES CIVIL SERVICE COMMISSION,
[SEAL] MARY V. WENZEL,
Executive Assistant to the Commissioners.

[F.R. Doc. 62-1484; Filed, Feb. 13, 1962; 8:48 a.m.]

Title 7—AGRICULTURE

Chapter IX—Agricultural Marketing Service (Marketing Agreements and Orders), Department of Agriculture

PART 912—GRAPEFRUIT GROWN IN INDIAN RIVER DISTRICT IN FLORIDA

Determination Relative to Expenses and Fixing of Rate of Assessment for Initial (1961–62) Fiscal Period

Pursuant to the marketing agreement and Order No. 912 (7 CFR Part 912), regulating the handling of grapefruit grown in the Indian River District in Florida, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674), and upon the basis of the proposals submitted by the Indian River Grapefruit Committee (established pursuant to said marketing agreement and order), it is hereby found and determined that:

§ 912.201 Expenses and rate of assessment for the initial (1961–62) fiscal period.

(a) *Expenses.* The expenses that are reasonable and likely to be incurred by the Indian River Grapefruit Committee, established pursuant to the provisions of the aforesaid marketing agreement and order, to enable such committee to perform its functions, in accordance with the provisions thereof, during the initial fiscal period beginning January 8, 1962, and ending July 31, 1962, will amount to $16,000.

(b) *Rate of assessment.* The rate of assessment, which each handler who first handles fruit shall pay as his pro rata share of the aforesaid expenses in accordance with the applicable provisions of said marketing agreement and order is hereby fixed at one-half cent ($0.0050) per 1⅗ bushel box of fruit, or its equivalent when packed in other containers or in bulk, so handled by such handler during such fiscal period.

(c) It is hereby further found that it is impracticable, unnecessary, and contrary to the public interest to give preliminary notice, and engage in public rule-making procedure, and good cause exists for not postponing the effective date hereof until 30 days after publication in the FEDERAL REGISTER (5 U.S.C. 1001–1011) in that (1) shipments of fresh fruit are now being made; (2) the relevant provisions of said marketing agreement and this part require that the rate of assessment fixed for a particular fiscal period shall be applicable to all assessable fruit from the beginning of such period; and (3) the current fiscal period began on January 8, 1962, and the rate of assessment herein fixed will automatically apply to all assessable fruit beginning with such date.

Terms used in the marketing agreement and order shall, when used herein, have the same meaning as is given to the respective term in said marketing agreement and order.

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Dated: Feb. 8, 1962.

PAUL A. NICHOLSON,
Acting Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[F.R. Doc. 62-1474; Filed, Feb. 13, 1962; 8:47 a.m.]

Title 8—ALIENS AND NATIONALITY

Chapter I—Immigration and Naturalization Service, Department of Justice

PART 211—DOCUMENTARY REQUIREMENTS: IMMIGRANTS; WAIVERS

PART 214—NONIMMIGRANT CLASSES

Returning Residents and Direct Transits

The following amendments to Chapter I of Title 8 of the Code of Federal Regulations are hereby prescribed:

1. The first sentence of § 211.1 *Visas* is amended to read as follows: "A valid unexpired immigrant visa shall be presented by each arriving immigrant alien

except an immigrant who (a) was born subsequent to the issuance of an immigrant visa to his accompanying parent and applies for admission during the validity of such a visa, or (b) is returning to an unrelinquished lawful permanent residence after a temporary absence abroad in any places except Albania, Cuba, Communist portions of China, Korea, and Viet-Nam and Outer Mongolia (1) not exceeding one year and presents a Form I–151 alien registration receipt card duly issued to him, or (2) and presents a valid unexpired reentry permit duly issued to him, or (3) and is the spouse or child of, and has been residing abroad with, a member of the Armed Forces of the United States stationed abroad pursuant to official orders, or (4) and satisfies the district director in charge of the port of entry that there is good cause for the failure to present the required document, in which case an application for waiver shall be made on Form I–193."

2. The first sentence of subparagraph (1) *Without visas* of paragraph (c) *Transits* of § 214.2 *Special requirements for admission, extension, and maintenance of status* is amended to read as follows: "Any alien except a citizen and resident of the Union of Soviet Socialist Republics, Estonia, Latvia, Lithuania, Poland, Czechoslovakia, Hungary, Rumania, Bulgaria, Albania, Cuba, Communist-controlled China ("Chinese People's Republic"), North Korea ("Democratic People's Republic of Korea") the Soviet Zone of Germany ("German Democratic Republic"), North Viet-Nam ("Democratic Republic of Viet-Nam"), and Outer Mongolia ("Mongolian People's Republic"), applying for immediate and continuous transit through the United States, must establish that he is admissible; that he has confirmed and onward reservations to at least the next country beyond the United States (except that, if seeking to join a vessel or aircraft in the United States as a crewman, the vessel or aircraft will depart directly foreign, and his departure will be completed within a maximum of 5 calendar days after his arrival, and, if joining a vessel, the crewman is in possession of, or makes application upon arrival for, a Form I–184 permanent landing permit and identification card), and that he has a document establishing his ability to enter some country other than the United States."

(Sec. 103, 66 Stat. 173; 8 U.S.C. 1103)

This order shall become effective on the date of its publication in the FEDERAL REGISTER. Compliance with the provisions of section 4 of the Administrative Procedure Act (60 Stat. 238; 5 U.S.C. 1003) as to notice of proposed rule making and delayed effective date is contrary to the public interest in this instance because the amendments prescribed by the order affect the internal security of the United States.

Dated: February 12, 1962.

R. F. FARRELL,
Commissioner of Immigration and Naturalization.

[F.R. Doc. 62–1583; Filed, Feb. 13, 1962; 8:52 a.m.]

Title 10—ATOMIC ENERGY

Chapter I—Atomic Energy Commission

PART 30—LICENSING OF BYPRODUCT MATERIAL

Miscellaneous Amendments

The Commission is today publishing in the FEDERAL REGISTER a new regulation entitled, "Part 150—Exemptions and Continued Regulatory Authority in Agreement States under Section 274." That part contains provisions granting a general license to any person who holds a specific license from an agreement State to conduct the same activity in a nonagreement State, provided that specific license does not limit the activity authorized by the specific license to specified installations or locations. In adopting Part 150 the Commission concluded that it would also be desirable to extend the general licenses contained in § 30.21(c) of this part to devices manufactured under specific licenses issued by agreement States. The following amendments to Part 30 are designed to accomplish that purpose and reflect comments received by the Commission from interested persons and organizations in response to the notice of proposed adoption of Part 150 published by the Commission in the FEDERAL REGISTER on September 29, 1961.

The Commission will welcome suggestions and comments for further changes in these rules, which should be submitted to the Secretary, U.S. Atomic Energy Commission, Washington 25, D.C.

Pursuant to the Atomic Energy Act of 1954, as amended and the Administrative Procedure Act of 1946, the following amendments to 10 CFR Part 30 are published as a document subject to codification, to be effective on publication in the FEDERAL REGISTER.

1. The following paragraph is added to § 30.4:

(t) "Agreement State" as designated in Part 150 of this chapter means any State with which the Commission has entered into an effective agreement under subsection 274.(b) of the Atomic Energy Act of 1954, as amended. "Non-agreement State" means any other State.

2. Paragraph (c) of § 30.21 is amended to read as follows:

(c) (1) Subject to the provisions of subparagraphs (2) to (6) of this paragraph (c), a general license is hereby issued to own, receive, acquire, possess and use byproduct material when contained in devices designed and manufactured for the purpose of detecting, measuring, gauging or controlling thickness, density, level, interface location, radiation, leakage, or qualitative or quantitative chemical composition, or for producing light or an ionized atmosphere.

(2) The general license contained in subparagraph (1) of this paragraph (c) applies only to devices which have been:

(i) Manufactured in accordance with the specifications contained in a specific license issued by the Commission to the manufacturer of the device pursuant to § 30.24(f), or, in accordance with the specifications contained in a specific license issued to the manufacturer by an agreement State; and

(ii) Installed on the premises of the general licensee by a person authorized to install such devices under a specific license issued to the installer by the Commission pursuant to this part or by an agreement State, provided that the specific license referred to in subdivision (i) of this subparagraph (2) contains provisions authorizing the transfer of such devices to, and the installation of such devices in the premises of, general licensees.

(3) The general license contained in subparagraph (1) of this paragraph (c) applies only to devices which (i) are labeled in accordance with the provisions of the specific license which authorizes the distribution of the device to general licensees, and (ii) bear a label containing the following or a substantially similar statement which contains the information called for in the following statement:

This device, generally licensed pursuant to § 30.21(c) of 10 CFR, Part 30, has been manufactured and distributed pursuant to license No. ------ issued by ----------
(insert either "Atomic Energy Commission" or name of agreement State, whichever is applicable)

(Name of supplier)

(4) Persons who own, receive, acquire, possess or use a device pursuant to the general license contained in subparagraph (1) of this paragraph (c):

(i) Shall not transfer, abandon or dispose of the device, except by transfer to a person authorized by a specific license from the Commission or an agreement State to receive such device;

(ii) Shall assure that all labels affixed to the device at the time of receipt and bearing the statement, "Removal of this label is prohibited by regulations of the Atomic Energy Commission", are maintained thereon and shall comply with all instructions contained in such labels;

(iii) Shall have the device tested for leakage of radioactive material and proper operation of the on-off mechanism and indicator, if any, at no longer than six-month intervals; provided that devices containing only krypton need not be tested for leakage, and devices containing only tritium need not be tested for any purpose;

(iv) Shall have the tests required by subdivision (iii) of this subparagraph and all other services involving the radioactive material, its shielding and containment, performed by the supplier or other person holding a specific license from the Commission or an agreement State to manufacture, install or service such devices;

(v) Shall maintain records of all tests performed on the devices as required under this section, including the dates and results of the tests and the names of the persons conducting the tests;

(vi) Upon the occurrence of a failure of or damage to, or any indication of a possible failure of or damage to, the shielding or containment of the radioactive material or the on-off mechanism or indicator, shall immediately suspend operation of the device until it has been repaired by the supplier or other person holding a specific license from the Commission or an agreement State to manufacture, install or service such devices, or disposed of by transfer to a person authorized to receive the byproduct material contained in the device; and

(vii) Shall be exempt from the requirements of Part 20 of this chapter, except that such persons shall comply with the provisions of §§ 20.402 and 20.403 of this chapter.

(5) The general license provided in subparagraph (1) of this paragraph (c) is subject to the provisions of §§ 30.32 to 30.72, inclusive: *Provided*, That persons who possess byproduct material pursuant to this general license shall not export such byproduct material without a specific license from the Commission authorizing such export.

(6) Any person who holds a specific license issued by an agreement State authorizing the holder to manufacture, install or service a device described in subparagraph (1) of this paragraph (c) within such agreement State is hereby granted a general license to install and service such device in any nonagreement State; *Provided*, That:

(i) Such person shall file a report with the Director, Division of Licensing and Regulation, Atomic Energy Commission, Washington 25, D.C., within 30 days after the end of each calendar quarter in which any device is transferred or installed. Each such report shall identify each general licensee by name and address, the type of device transferred, and the quantity and type of byproduct material contained in the device.

(ii) The device has been manufactured, labelled, installed, and serviced in accordance with applicable provisions of the specific license issued to such person by the agreement State;

(iii) Such person assures that any labels required to be affixed to the device under regulations of the agreement State which licensed manufacture of the device bear a statement that "Removal of this label is prohibited by the regulations of the Atomic Energy Commission".

(iv) Shall furnish to each general licensee to whom he transfers such device or on whose premises he installs such device a copy of the general license contained in § 30.21(c).

(Secs. 81, 161, 274, 68 Stat. 935, 948, 73 Stat. 688; 42 U.S.C. 2111, 2201, 2021)

Dated at Germantown, Md., this 7th day of February 1962.

For the Atomic Energy Commission.

WOODFORD B. MCCOOL,
Secretary.

[F.R. Doc. 62–1498; Filed, Feb. 13, 1962; 8:50 a.m.]

PART 150—EXEMPTIONS AND CONTINUED REGULATORY AUTHORITY IN AGREEMENT STATES UNDER SECTION 274

Public Law 86–373, dated September 23, 1959, amended the Atomic Energy Act of 1954 by the addition of a new section 274, "Cooperation With States." One purpose of that legislation was to recognize the interests of the States in the peaceful uses of atomic energy and to clarify the respective responsibilities under the Atomic Energy Act of the Commission and the States with respect to the regulation of byproduct, source, and special nuclear materials.

Under section 274b. of the Atomic Energy Act, the Commission is authorized to enter into an agreement with the Governor of any State providing for discontinuance of the regulatory authority of the Commission under Chapters 6, 7, and 8, and section 161 of the Act with respect to the following materials within the State: Byproduct materials, source materials, and special nuclear materials in quantities not sufficient to form a critical mass.

Subsection (c) of section 274 of the Atomic Energy Act specifically excludes from such agreements the discontinuance of any Commission authority with respect to:

1. The construction and operation of any production or utilization facility;

2. The export from or import into the United States of any byproduct, source, or special nuclear material or of any production or utilization facility;

3. The disposal into the ocean or sea of byproduct, source, or special nuclear waste materials as defined in regulations or orders of the Commission;

4. The disposal of such other byproduct, source, or special nuclear material as the Commission determines by regulation or order should, because of the hazards or potential hazards thereof, not be so disposed of without a license from the Commission.

In addition to the foregoing the Commission, notwithstanding any agreement between the Commission and any State pursuant to subsection 274b. of the Act, is authorized by rule, regulation, or order to require that the manufacturer, processor or producer of any equipment, device, commodity or other product containing source, byproduct or special nuclear material shall not transfer possession or control of such product except pursuant to a license issued by the Commission.

On September 29, 1961, the Commission published for public comment a draft of a proposed 10 CFR Part 150, which would relinquish certain licensing authority to agreement States and exempt persons in those States from Commission licensing requirements. The Statement of Considerations published with the proposed Part 150 stated that the Commission had not taken a position as to whether it should retain or relinquish to the States its authority to regulate the commercial disposal by burial of atomic wastes, or its authority to license the distribution by producers of products containing atomic energy materials; and specifically invited public comment on those questions and on possible alternatives.

Following publication, comments were received from some fifty organizations and individuals. The proposed Part 150 was discussed with a number of committees representing national organizations, as well as with the Commission's Advisory Committee of State Officials. The majority of all comments received were concerned in the main with the question of whether the Commission should continue control in agreement States of the commercial land burial of byproduct, source, or special nuclear wastes and the question of whether the Commission should continue control of transfer by manufacturers, processors or producers of equipment, devices, commodities, or other products containing agreement materials.

The Commission has taken into consideration the comments and advice it has received in adopting the regulation set out herein. The Commission has decided against blanket reservations of control over land burial of waste and over the transfer of manufactured products.

However, as to land burial, the Commission finds, pursuant to section 274 c.(4), of the Act that because of the hazards or potential hazards thereof, high level atomic energy wastes from the chemical processing of irradiated fuel elements should not be disposed of without a license from the Commission This finding is reflected in § 150.15(a)(4). Control over the handling and storage of waste at the site of a reactor, including effluent discharge, will be retained by the Commission as a part of the control of reactor operation. The states will have control over land burial of low level wastes.

With respect to whether the Commission should retain or relinquish authority to license the transfer by manufacturers, processors or producers of equipment, devices, commodities or other products containing atomic energy materials, Part 150 provides for State regulatory control in this area except those items intended for use by the general public (§ 150.15(a)(6)). Thus, control over the manufacture and transfer of industrial type devices, such as thickness gauges, would be exercised by the agreement States.

Control over consumer type devices, such as luminous watches, would be retained by the Commission. The uncontrolled distribution of atomic materials in products designed for distribution to the general public, such as consumer type devices, and the ultimate uncontrolled release of these materials into the environment, involve questions of national policy which have not yet been resolved. It is for this reason that the Commission is retaining control over such products. The Commission recognizes that the phrase "products designed for distribution to the general public" is not precise. The purpose of the provision, however, will be discussed with each agreement State; serious difficulties in interpretation of the phrase are not anticipated.

In order to achieve the maximum degree of uniformity of design and labeling requirements for those products and devices which will be under State control, the agreement to be executed between the Commission and an agreement State will provide for cooperative arrangements under which the State will keep the Commission informed of

proposed requirements for the design and distribution of such products. In addition, the State will agree to use its best efforts to maintain its total control program compatible with the control program of the Commission on a continuing basis.

The agreement will also provide that the Commission and the agreement State will use their best efforts to develop rules, regulations and procedures by which reciprocal recognition of licenses covering agreement materials will be accorded.

In the implementation of the reciprocal recognition provision in the agreement, § 150.20 grants a general license to any person who holds a valid specific license from an agreement State to conduct the same activity in a non-agreement State, provided that the specific license does not limit the activity authorized by the license to specific installations or locations. The general license so provided in § 150.20 requires the licensee to comply with the appropriate provisions of Parts 20, 30, 31, 40, and 70 of Title 10. In addition, such licensee must register in advance with the Commission; must not in any non-agreement State, transfer or dispose of the radioactive material possessed or used under the general license except by transfer to a person specifically licensed by the Commission to receive such material; must not in any non-agreement State, possess or use radioactive material, or engage in the activity authorized in § 150.20 for more than 20 days in any period of 12 consecutive months, without obtaining a specific license from the Commission, and must comply with all terms and conditions of the specific State license except those terms and conditions as are contrary to the requirements of § 150.20.

There are certain classes of devices containing byproduct material which may be used under general licensing provisions contained in Part 30, § 30.21(c), if the device is manufactured in accordance with a specific license issued to the manufacturer by the Commission. Part 30 is being amended to provide that such products, if manufactured in an agreement State pursuant to a specific license from the agreement State, may be transferred to users in non-agreement States and used by the users under the general licensing provisions of Part 30.

The Commission's decision not to exercise its authority to license the transfer of products containing atomic energy materials (other than products designed for distribution to the general public) is based on the assumption that agreement States will maintain continuing compatibility between their programs and Commission programs; and that procedures will be devised assuring reasonable, reciprocal recognition of licenses and licensing requirements among such States and the Commission. If attainment of these objectives should prove to be unfeasible, the Commission will reconsider the need for the exercise of its authority to prescribe the specifications for products containing atomic energy materials.

It will be desirable for the Commission and agreement States to develop programs for the collection and exchange of data concerning the effectiveness of standards and procedures observed in their respective programs for licensing and regulating the possession and use of atomic energy materials. For this purpose, the Commission plans, in cooperation with the agreement States, to develop procedures under which the agreement States will furnish to the Commission such information as may be agreed upon from time to time; and the Commission will make available to each agreement State, summaries of the information received from other agreement States and from Commission licensees.

As has previously been announced, the Commission is conducting studies of activities involving the processing and use of very substantial quantities of byproduct material (in the order of hundreds of thousands of curies). These studies have been undertaken in part to provide information on which the Commission may make a determination as to whether provisions of the Price-Anderson Indemnity Act (section 170 of the Atomic Energy Act of 1954) should be extended to such activities. They have also been undertaken for the purpose of providing information as to whether the Commission should determine that facilities which process such quantities of byproduct material are production or utilization facilities within the meaning of Section 11 of the Act. If the Commission finds that such facilities should be classified as utilization facilities, the Commission's licensing and regulatory requirements would be applicable. The provisions of the Price-Anderson Indemnity Act cannot be made applicable except to activities licensed by the Commission.

The exemptions herein granted are issued in order to carry out agreements between the Commission and the Governor of any State under section 274b. of the Atomic Energy Act of 1954, as amended.

Pursuant to the Atomic Energy Act of 1954, as amended, and the Administrative Procedure Act of 1946, the following regulation is published as a document subject to codification, to be effective on publication in the FEDERAL REGISTER.

GENERAL PROVISIONS

Sec.
150.1 Purpose.
150.2 Scope.
150.3 Definitions.
150.4 Communications.
150.5 Interpretations.

EXEMPTIONS IN AGREEMENT STATES

150.10 Persons exempt.
150.11 Critical mass.

CONTINUED COMMISSION REGULATORY AUTHORITY IN AGREEMENT STATES

150.15 Persons not exempt.

RECIPROCITY

150.20 Recognition of State licenses.

ENFORCEMENT

150.30 Violations.

AUTHORITY: §§ 150.1 to 150.30 issued under secs. 161 and 274, 68 Stat. 948; and 73 Stat. 688, 42 U.S.C. 2201 and 42 U.S.C. 2021.

GENERAL PROVISIONS

§ 150.1 Purpose.

The regulations in this part provide certain exemptions to persons in agreement States from the licensing requirements contained in Chapters 6, 7, and 8 of the Act and from the regulations of the Commission imposing requirements upon persons who receive, possess, use or transfer byproduct material, source, or special nuclear material in quantities not sufficient to form a critical mass; and to define activities in agreement States over which the regulatory authority of the Commission continues. The provisions of the Act, and regulations of the Commission apply to all persons in agreement States engaging in activities over which the regulatory authority of the Commission continues.

§ 150.2 Scope.

The regulations in this part apply to all States that have entered into agreements with the Commission pursuant to subsection 274b of the Act.

§ 150.3 Definitions.

As used in this part:

(a) "Act" means the Atomic Energy Act of 1954 (68 Stat. 919) including any amendments thereto;

(b) "Agreement State" means any State with which the Commission has entered into an effective agreement under subsection 274b of the Act;

(c) "Byproduct material" means any radioactive material (except special nuclear material) yielded in or made radioactive by exposure to the radiation incident to the process of producing or utilizing special nuclear material;

(d) "Commission" means the Atomic Energy Commission or its duly authorized representatives;

(e) "Government agency" means any executive department, commission, independent establishment, corporation, wholly or partly owned by the United States of America which is an instrumentality of the United States, or any board, bureau, division, service, office, officer, authority, administration, or other establishment in the executive branch of the Government.

(f) "Person" means (1) any individual, corporation, partnership, firm, association, trust, estate, public or private institution, group, agency, any State or any political subdivision of any political entity within a State, and any legal successor, representative, agent, or agency of the foregoing other than Government agencies;

(g) "Production facility" means (1) any equipment or device determined by rule of the Commission to be capable of the production of special nuclear material in such quantity as to be of significance to the common defense and security, or in such manner as to affect the health and safety of the public; or (2) any important component part especially designed for such equipment or device as determined by the Commission;

(h) "Source material" means (1) uranium, thorium, or any other material which is determined by the Commission pursuant to the provisions of section 61 of the Act to be source material; or (2) ores containing one or more of the foregoing materials, in such concentration as the Commission may by regulation determine from time to time;

(i) "Special nuclear material" means (1) plutonium, uranium enriched in the isotope 233 or in the isotope 235, and any other material which the Commission, pursuant to the provisions of section 51 of the Act, determines to be special nuclear material, but does not include source material; or (2) any material artificially enriched by any of the foregoing, but does not include source material;

(j) "State" means any State, Territory, or possession of the United States, the Canal Zone, Puerto Rico, and the District of Columbia;

(k) "Utilization facility" means (1) any equipment or device, except an atomic weapon, determined by rule of the Commission to be capable of making use of special nuclear material in such quantity as to be of significance to the common defense and security, or in such manner as to affect the health and safety of the public, or peculiarly adapted for making use of atomic energy in such quantity as to be of significance to the common defense and security, or in such manner as to affect the health and safety of the public; or (2) any important component part especially designed for such equipment or device as determined by the Commission.

§ 150.4 Communications.

All communications concerning the regulations of this part should be addressed to the United States Atomic Energy Commission, Washington 25, D.C., Attention: Division of Licensing and Regulation. Communications and reports may be delivered in person at the Commission's office at 1717 H Street NW., Washington, D.C., or its offices at Germantown, Maryland.

§ 150.5 Interpretations.

Except as specifically authorized by the Commission in writing, no interpretation of the meaning of the regulations in this part by an officer or employee of the Commission other than a written interpretation by the General Counsel will be recognized to be binding upon the Commission.

EXEMPTIONS IN AGREEMENT STATES

§ 150.10 Persons exempt.

Except as provided in § 150.15, any person in an agreement State who manufactures, produces, receives, possesses, uses or transfers byproduct material, source material, or special nuclear material in quantities not sufficient to form a critical mass is exempt from the requirements for a license contained in Chapters 6, 7, and 8 of the Act, regulations of the Commission imposing licensing requirements upon persons who manufacture, produce, receive, possess, use or transfer such materials, and from regulations of the Commission applicable to licensees. The exemptions in this section do not apply to agencies of the Federal government as defined in § 150.3.

§ 150.11 Critical mass.

(a) For the purposes of this part, special nuclear material in quantities not sufficient to form a critical mass means uranium enriched in the isotope U-235 in quantities not exceeding 350 grams of contained U-235; uranium-233 in quantities not exceeding 200 grams; plutonium in quantities not exceeding 200 grams; or any combination of them in accordance with the following formula: For each kind of special nuclear material, determine the ratio between the quantity of that special nuclear material and the quantity specified above for the same kind of special nuclear material. The sum of such ratios for all kinds of special nuclear materials in combination shall not exceed unity. For example, the following quantities in combination would not exceed the limitation and are within the formula, as follows:

$$\frac{175 \text{ (grams contained U-235)}}{350} + \frac{50 \text{ (grams U-233)}}{200} + \frac{50 \text{ (grams Pu)}}{200} = 1$$

(b) To determine whether the exemption granted in § 150.10 of this part applies, a person shall include in the quantity computed according to paragraph (a) of this section the total quantity of special nuclear material which he is authorized to receive, possess or use in a particular agreement State at any one time.

CONTINUED COMMISSION REGULATORY AUTHORITY IN AGREEMENT STATES

§ 150.15 Persons not exempt.

(a) Persons in agreement States are not exempt from the Commission's licensing and regulatory requirements with respect to the following activities:

(1) The construction and operation of any production or utilization facility. As used in this subparagraph (1), "operation" of a facility includes, but is not limited to (i) the storage and handling of radioactive wastes at the facility site by the person licensed to operate the facility, and (ii) the discharge of radioactive effluents from the facility site.

(2) The export from or import into the United States of byproduct, source, or special nuclear material, or of any production or utilization facility.

(3) The disposal into the ocean or sea of byproduct, source, or special nuclear waste materials, as defined in regulations or orders of the Commission. For purposes of this part, ocean or sea means any part of the territorial waters of the United States and any part of the international waters.

(4) The transfer, storage or disposal of radioactive waste material resulting from the separation in a production facility of special nuclear material from irradiated nuclear reactor fuel. This subparagraph (4) does not apply to the transfer, storage or disposal of contaminated equipment.

(5) The disposal of such other byproduct, source, or special nuclear material as the Commission determines by regulation or order should, because of the hazards or potential hazards thereof, not be so disposed of without a license from the Commission.

(6) The transfer of possession or control by the manufacturer, processor, or producer of any equipment, device, commodity, or other product containing source, byproduct, or special nuclear material, intended for use by the general public.

(b) Notwithstanding any exemptions provided in this part, the Commission may from time to time by rule, regulation, or order, require that the manufacturer, processor, or producer of any equipment, device, commodity, or other product containing source, byproduct, or special nuclear material shall not transfer possession or control of such product except pursuant to a license or an exemption from licensing issued by the Commission.

RECIPROCITY

§ 150.20 Recognition of State licenses.[1]

(a) Subject to the provisions of paragraph (b) of this section, any person who possesses a specific license from an agreement State is hereby granted a general license to conduct the same activity in non-agreement States: *Provided*, That the specific license does not limit the activity authorized by the license to specified installations or locations.

(b) Notwithstanding any provision to the contrary in any specific license issued by an agreement State to a person who engages in activities in a non-agreement State under a general license provided in this section, the general license provided in this section is subject to the provisions of §§ 30.32, 30.41, 30.43, 30.44, 30.51, 30.52, and 30.61 of Part 30 of this chapter; §§ 40.41, 40.61 to 40.63, inclusive, 40.71 and 40.81 of Part 40 of this chapter; and §§ 70.32, 70.51 to 70.56 inclusive, 70.61, 70.62, and 70.71 of Part 70 of this chapter; and to the provisions of Part 20 and Part 31 of this chapter. In addition, any person who engages in activities in non-agreement States under a general license provided in this section:

(1) Shall file AEC Form No. 241 ("Report of Proposed Activities in Non-agreement States") in quadruplicate with the U.S. Atomic Energy Commission, Washington 25, D.C., Attention: Director, Division of Licensing and Regulation, prior to engaging in any such activity;

(2) Shall not in any non-agreement State transfer or dispose of radioactive material possessed or used under the

[1] Part 30 of this chapter is being amended to generally license the use and possession by persons in non-agreement States of certain devices containing byproduct material manufactured in an agreement State in accordance with the specifications in the specific license issued to the manufacturer by the agreement State.

general license provided in this section except by transfer to a person specifically licensed by the Commission to receive such material;

(3) Shall not possess or use radioactive material, or engage in the activities authorized in paragraph (a) of this section for more than 20 days in any period of 12 consecutive months;

(4) Shall comply with all terms and conditions of the specific license issued by an agreement State except such terms or conditions as are contrary to the requirements of this section.

ENFORCEMENT

§ 150.30 Violations.

An injunction or other court order may be obtained prohibiting any violation of any provision of the Act or any regulation or order issued thereunder. Any person who willfully violates any provisions of the Act or any regulation or order issued thereunder may be guilty of a crime and, upon conviction, may be punished by fine or imprisonment, or both, as provided by law.

Dated at Germantown, Md., this 7th day of February 1962.

For the Atomic Energy Commission.

WOODFORD B. MCCOOL,
Secretary.

[F.R. Doc. 62-1497; Filed, Feb. 13, 1962; 8:50 a.m.]

Title 14—AERONAUTICS AND SPACE

Chapter III—Federal Aviation Agency

SUBCHAPTER E—AIR NAVIGATION REGULATIONS

[Airspace Docket No. 61-LA-4]

PART 600—DESIGNATION OF FEDERAL AIRWAYS

PART 601—DESIGNATION OF CONTROLLED AIRSPACE, REPORTING POINTS, POSITIVE CONTROL ROUTE SEGMENTS, AND POSITIVE CONTROL AREAS

PART 608—SPECIAL USE AIRSPACE

Alteration of Federal Airways, Control Area Extension, Alteration and Designation of Restricted Areas and Designation of Transition Area

On December 5, 1961, a notice of proposed rule making was published in the FEDERAL REGISTER (26 F.R. 11494) stating the Federal Aviation Agency was considering amendments to Part 601 and §§ 600.6006, 600.6105, 600.6494, 600.1545, 601.1357 and 608.48 of the regulations of the Administrator, which would:

1. Revoke the Fallon, Nev., Restricted Area R-4803 and replace it with two restricted areas of lesser dimensions identified as R-4803 and R-4810.

2. Alter the Fallon, Nev., Restricted Area R-4804 by designating the area with a circular configuration and change its name to Twin Peaks, Nev.

3. Designate the Federal Aviation Agency, Oakland, Calif., ARTC Center as the controlling agency for R-4803, R-4804 and R-4810.

4. Alter the description of low altitude VOR Federal airways Nos. 494 and 6 south alternate to exclude the portions within R-4803.

5. Delete the reference to R-268 in the description of low altitude VOR Federal airway No. 105 and expand intermediate altitude VOR Federal airway No. 1545 to its normal width between the Coaldale, Nev., VOR and the Reno, Nev., VOR.

6. Expand the Fallon, Nev., control area extension by including additional airspace southeast and northwest of Fallon.

7. Designate a transition area near Yerington, Nev.

No adverse comments were received regarding the proposed amendments.

Subsequent to the publication of the notice, it has been determined that the centerline of the extension of R-4803, as proposed, should be 349.5° in lieu of 349° as stated in the notice. This change, being minor in nature, is reflected in the action taken herein.

Interested persons have been afforded an opportunity to participate in the making of the rules herein adopted and due consideration has been given to all relevent matter presented.

The substance of the proposed amendments having been published, therefore pursuant to the authority delegated to me by the Administrator (25 F.R. 12582) and for the reasons stated in the notice, the following actions are taken:

1. In § 608.48 Nevada (26 F.R. 7197) the following changes are made:

a. R-4803 Fallon, Nev., is amended to read:

R-4803 Fallon, Nev.

Boundaries. A 3-nautical mile radius circle centered at latitude 39°20'40" N., longitude 118°52'15" W.; and within 3 nautical miles W and 2 nautical miles E of a line extending 349.5° True from the center to 15 nautical miles NNW.

Designated altitudes. Surface to 8,000 feet MSL N, and surface to 18,000 feet MSL S of a line extending from latitude 39°27'40" N., longitude 118°57'55" W. to latitude 39°30'20" N., longitude 118°51'55" W.

Time of designation. Continuous, Monday through Saturday.

Controlling agency. Federal Aviation Agency, Oakland ARTC Center.

Using agency. Commander, Naval Air Bases, 12th Naval District, Alameda, Calif.

b. R-4804 Fallon, Nev., is amended to read:

R-4804 Twin Peaks, Nev.

Boundaries. A 5-nautical mile radius circle centered at latitude 39°13'00" N., longitude 118°12'42" W.; and a 3-nautical mile radius circle centered at latitude 39°-14'15" N., longitude 118°17'30" W.

Designated altitudes. Surface to 20,000 feet MSL.

Time of designation. Continuous, Monday through Saturday.

Controlling agency. Federal Aviation Agency, Oakland ARTC Center.

Using agency. Commander, Naval Air Bases, 12th Naval District, Alameda, Calif.

c. R-4810 Desert Mountains, Nev., is added to read:

R-4810 Desert Mountains, Nev.

Boundaries. A 5-nautical mile radius circle centered at latitude 39°10'60" N., longitude 118°37'30" W.; and a 2-nautical mile radius circle centered at latitude 39°-09'15" N., longitude 118°42'20" W.

Designated altitudes. Surface to flight level 300.

Time of designation. One hour prior to sunrise to one hour after sunset, Monday through Friday.

Controlling agency. Federal Aviation Agency, Oakland ARTC Center.

Using agency. Commander, Naval Air Bases, 12th Naval District, Alameda, Calif.

2. In the text of § 600.6006 (14 CFR 600.6006, 26 F.R. 11823) "to the Idlewild, N.Y., VORTAC." is deleted and "to the Idlewild, N.Y., VORTAC, excluding the airspace within R-4803." is substituted therefor.

3. In the text of § 600.6105 (14 CFR 600.6105) "The portion of this airway which lies within the geographic limits of, and between the designated altitudes of, the Fallon, Nev., Restricted Area (R-268) is excluded during this restricted area's time of designation." is deleted.

4. In the text of § 600.6494 (26 F.R. 11824) "excluding the airspace within R-4802." is deleted and "excluding the airspace within R-4802 and R-4803." is substituted therefor.

5. In the text of § 600.1545 (26 F.R. 1086) "INT of the Reno, Nev., VOR 135° and the Lovelock, Nev., VOR 195° radials; thence 8 mile wide airway to the INT of the Reno VOR 135° and the Lovelock VOR 210° radials; thence to the Reno VOR." is deleted and "to the Reno, Nev., VOR." is substituted therefor.

6. Section 601.1357 (14 CFR 601.1357) is amended to read:

§ 601.1357 Control area extension (Fallon, Nev.).

That airspace within 12 miles NE and 8 miles SW of the NAAS Fallon TACAN 146° radial, extending from the TACAN to 54 miles SE; within 5 miles either side of the NAAS Fallon TACAN 037° radial, extending from the TACAN to 29 miles NE; and within 16 miles N and 7 miles S of the NAAS Fallon TACAN 089° and 269° radials, extending from 8 miles E of the TACAN to a line extending from latitude 39°06'00" N, longitude 119°16'-00" W. to latitude 40°00'00" N., longitude 118°57'00" W. The portions of this control area extension within R-4803, R-4804 and R-4810 shall be used only after obtaining prior approval from appropriate authority.

7. In Part 601 (14 CFR Part 601), the following section is added:

§ 601.10953 Yerington, Nev., transition area.

That airspace extending upward from 1200 feet above the surface within 12 miles SW and 8 miles NE of the Reno, Nev., VOR 135° radial extending from 10 miles NW to 22 miles SE of the INT of the Reno VOR 135° and the Lovelock, Nev., VOR 197° radials.

These amendments shall become effective 0001 e.s.t. April 5, 1962.

(Sec. 307(a), 72 Stat. 749; 49 U.S.C. 1348)

Issued in Washington, D.C., on February 7, 1962.

D. D. THOMAS,
Director, Air Traffic Service.

[F.R. Doc. 62-1457; Filed, Feb. 13, 1962; 8:45 a.m.]

[Airspace Docket No. 60-LA-90]

PART 600—DESIGNATION OF FEDERAL AIRWAYS

PART 608—SPECIAL USE AIRSPACE

Designation of Restricted Area and Alteration of Federal Airway

On November 8, 1961, a notice of proposed rule making was published in the FEDERAL REGISTER (26 F.R. 10520), stating the Federal Aviation Agency was considering amendments to §§ 600.1668 and 608.70 which would designate a restricted area near Guernsey, Wyo., and alter intermediate altitude VOR Federal airway No. 1668 by reducing its width from 16 miles to 14 miles to provide required lateral separation with the proposed Guernsey, Wyo., Restricted Area.

No adverse comments were received regarding the proposed amendments.

Although the notice stated that, should this action be taken, the Denver ARTC Center would be designated as the controlling agency for the Guernsey Restricted Area, it has been determined that no requirement exists in this restricted area for the control of IFR traffic. Therefore, because better service can be provided to transiting VFR traffic through communications with the adjacent Flight Service Station, action is taken herein to designate the Casper, Wyo., Flight Service Station as the controlling agency.

Subsequent to publication of the notice, the description of VOR Federal airway No. 1668 was altered by changing the name of the Rock River, Wyo., VOR to the Medicine Bow, Wyo., VOR (26 F.R. 11823), effective February 8, 1962. Therefore, the action taken herein to alter the description of V-1668 by reducing its width will reflect this name change.

Interested persons have been afforded an opportunity to participate in the making of the rules herein adopted, and due consideration has been given to all relevant matter presented.

The substance of the proposed amendments having been published, therefore, pursuant to the authority delegated to me by the Administrator (25 F.R. 12582) and for the reasons stated herein and in the notice, the following actions are taken:

1. In § 608.70 *Wyoming* (26 F.R. 7204) the following is added:

R-7001 Guernsey, Wyo.

Boundaries. Beginning at latitude 42°-39'00" N., longitude 104°54'30" W.; to latitude 42°30'00" N., longitude 104°40'00" W.; to latitude 42°23'00" N., longitude 104°40'00" W.; to latitude 42°19'00" N., longitude 104°-45'00" W.; to latitude 42°18'00" N., longitude 104°45'00" W.; to latitude 42°19'30" N., longitude 104°51'00" W.; to latitude 42°24'-00" N., longitude 104°54'30" W.; to the point of beginning.

Designated altitudes. Surface to 23,500 feet MSL.

Time of designation. 0700 to 2200 m.s.t., May 15 through September 5.

Controlling agency. Federal Aviation Agency, Casper, Wyo., Flight Service Station.

Using agency. Adjutant General, State of Wyoming.

2. Section 600.1668 (26 F.R. 11823) is amended to read:

§ 600.1668 VOR Federal airway No. 1668 (Medicine Bow, Wyo., to Chadron, Nebr.).

From the Medicine Bow, Wyo., VOR; 14-mile wide airway to the Chadron, Nebr., VOR.

These amendments shall become effective 0001 e.s.t. April 5, 1962.

(Sec. 307(a), 72 Stat. 749; 49 U.S.C. 1348)

Issued in Washington, D.C., on February 7, 1962.

D. D. THOMAS,
Director, Air Traffic Service.

[F.R. Doc. 62-1458; Filed, Feb. 13, 1962; 8:45 a.m.]

Title 16—COMMERCIAL PRACTICES

Chapter I—Federal Trade Commission

[Docket C-5]

PART 13—PROHIBITED TRADE PRACTICES

Jerome Kramer and J. C. Kramer Furrier

Subpart—Invoicing products falsely: § 13.1108 *Invoicing products falsely:* § 13.1108-45 *Fur Products Labeling Act.* Subpart—Misbranding or mislabeling: § 13.1212 *Formal regulatory and statutory requirements:* § 13.1212-30 *Fur Products Labeling Act.* Subpart—Neglecting, unfairly or deceptively, to make material disclosure: § 13.1845 *Composition:* § 13.1845-30 *Fur Products Labeling Act;* § 13.1852 *Formal regulatory and statutory requirements:* § 13.1852-35 *Fur Products Labeling Act;* § 13.1865 *Manufacture or preparation:* § 13.1865-40 *Fur Products Labeling Act;* § 13.1886 *Quality, grade or type;* § 13.1900 *Source or origin:* § 13.1900-40 *Fur Products Labeling Act:* § 13.1900-40(b) *Place.*

(Sec. 6, 38 Stat. 721; 15 U.S.C. 46. Interpret or apply sec. 5, 38 Stat. 719, as amended; sec. 8, 65 Stat. 179; 15 U.S.C. 45, 69f) [Cease and desist order, J. C. Kramer Furrier, Erie, Pa., Docket C-5, Oct. 17, 1961]

Consent order requiring an Erie, Pa., furrier to cease violating the Fur Products Labeling Act by failing, in labeling, invoicing, and advertising fur products, to show the true name of the fur and the country of origin of imported furs; failing to show, in labeling and advertising, when a fur product was composed of cheap or waste fur, and to disclose in invoicing when fur was dyed; and failing in other respects to comply with requirements of the Act.

The order to cease and desist, together with further order requiring report of compliance therewith, is as follows:

It is ordered, That Jerome Kramer, an individual trading as J. C. Kramer Furrier, or under any other trade name and respondent's representatives, agents and employees, directly or through any corporate or other device, in connection with the introduction into commerce, or the sale, advertising, or offering for sale in commerce, or the transportation or distribution in commerce of fur products, or in connection with the sale, advertising, offering for sale, transportation, or distribution of fur products which are made in whole or in part of fur which has been shipped and received in commerce, as "commerce", "fur" and "fur product" are defined in the Fur Products Labeling Act, do forthwith cease and desist from:

1. Misbranding fur products by:

A. Failing to affix labels to fur products showing in words and figures plainly legible all the information required to be disclosed by each of the subsections of section 4(2) of the Fur Products Labeling Act.

B. Setting forth on labels affixed to fur products:

1. Information required under section 4(2) of the Fur Products Labeling Act and the rules and regulations promulgated thereunder in abbreviated form.

2. Information required under section 4(2) of the Fur Products Labeling Act and the rules and regulations promulgated thereunder mingled with nonrequired information.

3. Information required under section 4(2) of the Fur Products Labeling Act and the rules and regulations promulgated thereunder in handwriting.

C. Affixing to fur products labels that do not comply with the minimum size requirements of one and three-quarter inches by two and three-quarter inches.

D. Failing to set forth all the information required under section 4(2) of the Fur Products Labeling Act and the rules and regulations promulgated thereunder on one side of such labels.

E. Failing to set forth separately on labels affixed to fur products composed of two or more sections containing different animal furs the information required under section 4(2) of the Fur Products Labeling Act and the rules and regulations promulgated thereunder with respect to the fur comprising each section.

F. Failing to set forth on labels the item number or mark assigned to a fur product.

2. Falsely or deceptively invoicing fur products by:

A. Failing to furnish invoices to purchasers of fur products showing in words and figures plainly legible all the information required to be disclosed by each of the subsections of section 5(b)(1) of the Fur Products Labeling Act.

B. Setting forth information required under section 5(b)(1) of the Fur Products Labeling Act and the rules and

so provided in § 150.20 requires the licensee to comply with the appropriate provisions of Parts 20, 30, 31, 40, and 70 of Title 10. In addition, such licensee must register in advance with the Commission; must not in any non-agreement State, transfer or dispose of the radioactive material possessed or used under the general license except by transfer to a person specifically licensed by the Commission to receive such material; must not in any non-agreement State, possess or use radioactive material or engage in the activity authorized in § 150.20 for more than 20 days in any period of 12 consecutive months without obtaining a specific license from the Commission, and must comply with all terms and conditions of the specific State license except those terms and conditions as are contrary to this requirements of § 150.20.

There are certain classes of devices containing byproduct material which may be used under general licensing provisions contained in Part 30. § 30.21(c) if the device is manufactured in accordance with a specific license issued to the manufacturer by the Commission. Part 30 is being amended to provide that such products, if manufactured in an agreement State pursuant to a specific license from the agreement State, may be transferred to users in non-agreement States and used by the users under the general licensing provisions of Part 30.

The Commission's decision not to exercise its authority to license the transfer of products containing atomic energy materials (other than products designed for distribution to the general public) is based on the assumption that agreement States will maintain continuing compatibility between their programs and Commission programs; and that procedures will be devised assuring reasonable, reciprocal recognition of licenses and licensing requirements among such States and the Commission. If attainment of these objectives should prove to be unfeasible, the Commission will reconsider the need for the exercise of its authority to prescribe the specifications for products containing atomic energy materials.

of thousands of curies. These shipments have been undertaken in part to provide information on which the Commission may make a determination as to whether provisions of the Price-Anderson Indemnity Act (section 170 of the Atomic Energy Act of 1954) should be extended to such activities. They have also been undertaken for the purpose of providing information as to whether the Commission should determine that facilities which process such quantities of byproduct material are production or utilization facilities within the meaning of Section 11 of the Act. If the Commission finds that such facilities should be classified as utilization facilities the Commission's licensing and regulatory requirements would be applicable. The provisions of the Price-Anderson Indemnity Act cannot be made applicable except to activities licensed by the Commission.

The exemptions herein granted are issued in order to carry out agreements between the Commission and the Governor of any State under section 274b of the Atomic Energy Act of 1954 as amended.

Pursuant to the Atomic Energy Act of 1954, as amended, and the Administrative Procedure Act of 1946, the following regulation is published as a document subject to codification, to be effective on publication in the FEDERAL REGISTER.

ments with the Commission pursuant to subsection 274b of the Act.

§ 150.3 Definitions.

As used in this part:

(a) "Act" means the Atomic Energy Act of 1954 (68 Stat. 919) including any amendments thereto;

(b) "Agreement State" means any State with which the Commission has entered into an effective agreement under subsection 274b of the Act;

(c) "Byproduct material" means any radioactive material (except special nuclear material) yielded in or made radioactive by exposure to the radiation incident to the process of producing or utilizing special nuclear material;

(d) "Commission" means the Atomic Energy Commission or its duly authorized representatives.

(e) "Government agency" means any executive department, commission, independent establishment, corporation, wholly or partly owned by the United States of America which is an instrumentality of the United States, or any board, bureau, division, service, office, officer, authority, administration, or other establishment in the executive branch of the Government.

(f) "Person" means (1) any individual, corporation, partnership, firm, association, trust, estate, public or private institution, group, agency, any State or any political subdivision of any political entity within a State, and any legal successor, representative, agent, or agency of the foregoing other than Government agencies;

(g) "Production facility" means (1) any equipment or device determined by rule of the Commission to be capable of the production of special nuclear material in such quantity as to be of significance to the common defense and security, or in such manner as to affect the health and safety of the public; or (2) any important component part especially designed for such equipment or device as determined by the Commission;

(h) "Source material" means (1) uranium, thorium, or any other material which is determined by the Commission pursuant to the provisions of section 61 of the Act to be source material because of its quantity, its chemical concentration or its physical concentration in the ores where the material is normally found; and (2) ores containing one or more of the foregoing materials, in such concentration as the Commission may by regulation determine from time to time.

(i) "Special nuclear material" means (1) plutonium, uranium enriched in the isotope 233 or in the isotope 235, and any other material which the Commission, pursuant to the provisions of section 51 of the Act, determines to be special nuclear material, but does not include source material; or (2) any material artificially enriched by any of the foregoing but does not include source material.

(j) "Utilization facility" means (1) any equipment or device, except an atomic weapon, determined by rule of the Commission to be capable of making use of special nuclear material in such quantity as to be of significance to the common defense and security, or in such manner as to affect the health and safety of the public; or (2) any important component part especially designed for such equipment or device as determined by the Commission.

§ 150.4 Communications.

All communications concerning the regulations of this part should be addressed to the United States Atomic Energy Commission, Washington 25, D.C., Attention: Division of Licensing and Regulation. Communications and reports may be delivered in person at the Commission's office at 1717 H Street NW., Washington, D.C., or its offices at Germantown, Maryland.

§ 150.5 Interpretations.

Except as specifically authorized by the Commission in writing, no interpretation of the meaning of the regulations in this part by an officer or employee of the Commission other than a written interpretation by the General Counsel will be recognized to be binding upon the Commission.

EXEMPTIONS IN AGREEMENT STATES

§ 150.10 Persons exempt.

Except as provided in § 150.15, any person in an agreement State who manufactures, produces, receives, possesses, uses or transfers byproduct material, source material, or special nuclear material in quantities not sufficient to form a critical mass is exempt from the requirements for a license contained in Chapters 6, 7, and 8 of the Act, regulations of the Commission imposing licensing requirements upon persons who manufacture, produce, receive, possess, use or transfer such materials, and from regulations of the Commission applicable to licensees. The exemptions in this section do not apply to agencies of the Federal government as defined in § 150.3.

CONTINUED COMMISSION REGULATORY AUTHORITY IN AGREEMENT STATES

§ 150.15 Persons not exempt.

(a) Persons in agreement States are not exempt from the Commission's licensing and regulatory requirements with respect to the following activities:

(1) The construction and operation of any production or utilization facility. As used in this subparagraph (1), "operation" of a facility includes, but is not limited to (i) the storage and handling of radioactive wastes at the facility site by the person licensed to operate the facility, and (ii) the discharge of radioactive effluents from the facility site.

(2) The export from or import into the United States of byproduct, source, or special nuclear material, or of any production or utilization facility.

(3) The disposal into the ocean or sea of byproduct, source, or special nuclear waste materials, as defined in regulations or orders of the Commission. For purposes of this part, ocean or sea means any part of the territorial waters of the United States and any part of the international waters.

(4) The transfer, storage or disposal of radioactive waste material resulting from the separation in a production facility of special nuclear material from irradiated nuclear reactor fuel. This subparagraph (4) does not apply to the transfer, storage or disposal of contaminated equipment.

(5) The disposal of such other byproduct, source, or special nuclear material as the Commission determines by regulation or order should, because of the hazards or potential hazards thereof, not be so disposed of without a license from the Commission.

(6) The transfer of possession or control by the manufacturer, processor, or producer of any equipment, device, commodity, or other product containing source, byproduct, or special nuclear material, intended for use by the general public.

fer possession or control of such product except pursuant to a license or an exemption from licensing issued by the Commission.

RECIPROCITY

§ 150.20 Recognition of State licenses.[1]

(a) Subject to the provisions of paragraph (b) of this section, any person who possesses a specific license from an agreement State is hereby granted a general license to conduct the same activity in non-agreement States: *Provided*, That the specific license does not limit the activity authorized by the license to specified installations or locations.

(b) Notwithstanding any provision to the contrary in any specific license issued by an agreement State to a person who engages in activities in a non-agreement State under a general license provided in this section, the general license provided in this section is subject to the provisions of §§ 30.32, 30.41, 30.43, 30.44, 30.51, 30.52, and 30.61 of Part 30 of this chapter; §§ 40.41, 40.61 to 40.63, inclusive, 40.71 and 40.81 of Part 40 of this chapter; and §§ 70.32, 70.51 to 70.56 inclusive, 70.61, 70.62, and 70.71 of Part 70 of this chapter; and to the provisions of Part 20 and Part 31 of this chapter. In addition, any person who engages in activities in non-agreement States under a general license provided in this section:

(1) Shall file AEC Form No. 241 ("Report of Proposed Activities in Non-agreement States") in quadruplicate with the U.S. Atomic Energy Commission, Washington 25, D.C., Attention: Director, Division of Licensing and Regulation, prior to engaging in any such activity;

(2) Shall not in any non-agreement State transfer or dispose of radioactive material possessed or used under the

[1] Part 30 of this chapter is being amended to generally license the use and possession by persons in non-agreement States of certain devices containing byproduct material manufactured in an agreement State in accordance with the specifications in the specific license issued to the manufacturer by the agreement State.

general license provided in this section except by transfer to a person specifically licensed by the Commission to receive such material;

(3) Shall not possess or use radioactive material, or engage in the activities authorized in paragraph (a) of this section for more than 20 days in any period of 12 consecutive months;

(4) Shall comply with all terms and conditions of the specific license issued by an agreement State except such terms or conditions as are contrary to the requirements of this section.

ENFORCEMENT

§ 150.30 Violations.

An injunction or other court order may be obtained prohibiting any violation of any provision of the Act or any regulation or order issued thereunder. Any person who willfully violates any provisions of the Act or any regulation or order issued thereunder may be guilty of a crime and, upon conviction, may be punished by fine or imprisonment, or both, as provided by law.

Dated at Germantown, Md., this 7th day of February 1962.

For the Atomic Energy Commission.

WOODFORD B. MCCOOL,
Secretary.

[F.R. Doc. 62-1497; Filed, Feb. 13, 1962; 8:50 a.m.]

Title 14—AERONAUTICS AND SPACE

Chapter III—Federal Aviation Agency

SUBCHAPTER E—AIR NAVIGATION REGULATIONS

[Airspace Docket No. 61-LA-4]

PART 600—DESIGNATION OF FEDERAL AIRWAYS

PART 601—DESIGNATION OF CONTROLLED AIRSPACE, REPORTING POINTS, POSITIVE CONTROL ROUTE SEGMENTS, AND POSITIVE CONTROL AREAS

PART 608—SPECIAL USE AIRSPACE

Alteration of Federal Airways, Control Area Extension, Alteration and Designation of Restricted Areas and Designation of Transition Area

On December 5, 1961, a notice of proposed rule making was published in the FEDERAL REGISTER (26 F.R. 11494) stating the Federal Aviation Agency was considering amendments to Part 601 and §§ 600.6006, 600.6105, 600.6494, 600.1545, 601.1357 and 608.48 of the regulations of the Administrator, which would:

1. Revoke the Fallon, Nev., Restricted Area R-4803 and replace it with two restricted areas of lesser dimensions identified as R-4803 and R-4810.

2. Alter the Fallon, Nev., Restricted Area R-4804 by designating the area with a circular configuration and change its name to Twin Peaks, Nev.

3. Designate the Federal Aviation Agency, Oakland, Calif., ARTC Center as the controlling agency for R-4803, R-4804 and R-4810.

4. Alter the description of low altitude VOR Federal airways Nos. 494 and 6 south alternate to exclude the portions within R-4803.

5. Delete the reference to R-268 in the description of low altitude VOR Federal airway No. 105 and expand intermediate altitude VOR Federal airway No. 1545 to its normal width between the Coaldale, Nev., VOR and the Reno, Nev., VOR.

6. Expand the Fallon, Nev., control area extension by including additional airspace southeast and northwest of Fallon.

7. Designate a transition area near Yerington, Nev.

No adverse comments were received regarding the proposed amendments.

Subsequent to the publication of the notice, it has been determined that the centerline of the extension of R-4803, as proposed, should be 349.5° in lieu of 349° as stated in the notice. This change, being minor in nature, is reflected in the action taken herein.

Interested persons have been afforded an opportunity to participate in the making of the rules herein adopted and due consideration has been given to all relevent matter presented.

The substance of the proposed amendments having been published, therefore pursuant to the authority delegated to me by the Administrator (25 F.R. 12582) and for the reasons stated in the notice, the following actions are taken:

1. In § 608.48 Nevada (26 F.R. 7197) the following changes are made:

a. R-4803 Fallon, Nev., is amended to read:

R-4803 Fallon, Nev.

Boundaries. A 3-nautical mile radius circle centered at latitude 39°20'40" N., longitude 118°52'15" W.; and within 3 nautical miles W and 2 nautical miles E of a line extending 349.5° True from the center to 15 nautical miles NNW.

Designated altitudes. Surface to 8,000 feet MSL N, and surface to 18,000 feet MSL S of a line extending from latitude 39°27'40" N., longitude 118°57'55" W. to latitude 39°30'20" N., longitude 118°51'55" W.

Time of designation. Continuous, Monday through Saturday.

Controlling agency. Federal Aviation Agency, Oakland ARTC Center.

Using agency. Commander, Naval Air Bases, 12th Naval District, Alameda, Calif.

b. R-4804 Fallon, Nev., is amended to read:

R-4804 Twin Peaks, Nev.

Boundaries. A 5-nautical mile radius circle centered at latitude 39°13'00" N., longitude 118°12'42" W.; and a 3-nautical mile radius circle centered at latitude 39°-14'15" N., longitude 118°17'30" W.

Designated altitudes. Surface to 20,000 feet MSL.

Time of designation. Continuous, Monday through Saturday.

Controlling agency. Federal Aviation Agency, Oakland ARTC Center.

Using agency. Commander, Naval Air Bases, 12th Naval District, Alameda, Calif.

c. R-4810 Desert Mountains, Nev., is added to read:

R-4810 Desert Mountains, Nev.

Boundaries. A 5-nautical mile radius circle centered at latitude 39°10'00" N., longitude 118°37'30" W.; and a 3-nautical mile radius circle centered at latitude 39°-09'15" N., longitude 118°42'20" W.

Designated altitudes. Surface to flight level 300.

Time of designation. One hour prior to sunrise to one hour after sunset, Monday through Friday.

Controlling agency. Federal Aviation Agency, Oakland ARTC Center.

Using agency. Commander, Naval Air Bases, 12th Naval District, Alameda, Calif.

2. In the text of § 600.6006 (14 CFR 600.6006, 26 F.R. 11823) "to the Idlewild, N.Y., VORTAC." is deleted and "to the Idlewild, N.Y., VORTAC, excluding the airspace within R-4803." is substituted therefor.

3. In the text of § 600.6105 (14 CFR 600.6105) "The portion of this airway which lies within the geographic limits of, and between the designated altitudes of, the Fallon, Nev., Restricted Area (R-268) is excluded during this restricted area's time of designation." is deleted.

4. In the text of § 600.6494 (26 F.R. 11824) "excluding the airspace within R-4802." is deleted and "excluding the airspace within R-4802 and R-4803." is substituted therefor.

5. In the text of § 600.1545 (26 F.R. 1086) "INT of the Reno, Nev., VOR 135° and the Lovelock, Nev., VOR 195° radials; thence 8 mile wide airway to the INT of the Reno VOR 135° and the Lovelock VOR 210° radials; thence to the Reno VOR." is deleted and "to the Reno, Nev., VOR." is substituted therefor.

6. Section 601.1357 (14 CFR 601.1357) is amended to read:

§ 601.1357 Control area extension (Fallon, Nev.).

That airspace within 12 miles NE and 8 miles SW of the NAAS Fallon TACAN 146° radial, extending from the TACAN to 54 miles SE; within 5 miles either side of the NAAS Fallon TACAN 037° radial, extending from the TACAN to 29 miles NE; and within 16 miles N and 7 miles S of the NAAS Fallon TACAN 089° and 269° radials, extending from 8 miles E of the TACAN to a line extending from latitude 39°06'00" N, longitude 118°19'-00" W. to latitude 40°00'00" N., longitude 118°57'00" W. The portions of this control area extension within R-4803, R-4804 and R-4810 shall be used only after obtaining prior approval from appropriate authority.

7. In Part 601 (14 CFR Part 601), the following section is added:

§ 601.10953 Yerington, Nev., transition area.

That airspace extending upward from 1200 feet above the surface within 13 miles SW and 8 miles NE of the Reno, Nev., VOR 135° radial extending from 10 miles NW to 22 miles SE of the INT of the Reno VOR 135° and the Lovelock, Nev., VOR 197° radials.

These amendments shall become effective 0001 e.s.t. April 5, 1962.

(Sec. 307(a), 72 Stat. 749; 49 U.S.C. 1348)

Issued in Washington, D.C., on February 7, 1962.

D. D. THOMAS,
Director, Air Traffic Service.

[F.R. Doc. 62-1457; Filed, Feb. 13, 1962; 8:45 a.m.]

[Airspace Docket No. 60-LA-90]

PART 600—DESIGNATION OF FEDERAL AIRWAYS

PART 608—SPECIAL USE AIRSPACE

Designation of Restricted Area and Alteration of Federal Airway

On November 8, 1961, a notice of proposed rule making was published in the FEDERAL REGISTER (26 F.R. 10520), stating the Federal Aviation Agency was considering amendments to §§ 600.1668 and 608.70 which would designate a restricted area near Guernsey, Wyo., and alter intermediate altitude VOR Federal airway No. 1668 by reducing its width from 16 miles to 14 miles to provide required lateral separation with the proposed Guernsey, Wyo., Restricted Area.

No adverse comments were received regarding the proposed amendments.

Although the notice stated that, should this action be taken, the Denver ARTC Center would be designated as the controlling agency for the Guernsey Restricted Area, it has been determined that no requirement exists in this restricted area for the control of IFR traffic. Therefore, because better service can be provided to transiting VFR traffic through communications with the adjacent Flight Service Station, action is taken herein to designate the Casper, Wyo., Flight Service Station as the controlling agency.

Subsequent to publication of the notice, the description of VOR Federal airway No. 1668 was altered by changing the name of the Rock River, Wyo., VOR to the Medicine Bow, Wyo., VOR (26 F.R. 11823), effective February 8, 1962. Therefore, the action taken herein to alter the description of V-1668 by reducing its width will reflect this name change.

Interested persons have been afforded an opportunity to participate in the making of the rules herein adopted, and due consideration has been given to all relevant matter presented.

The substance of the proposed amendments having been published, therefore, pursuant to the authority delegated to me by the Administrator (25 F.R. 12582) and for the reasons stated herein and in the notice, the following actions are taken:

1. In § 608.70 *Wyoming* (26 F.R. 7204) the following is added:

R-7001 Guernsey, Wyo.

Boundaries. Beginning at latitude 42°-19'30" N., longitude 104°54'30" W.; to latitude 42°30'00" N., longitude 104°40'00" W.; to latitude 42°23'00" N., longitude 104°40'00" W.; to latitude 42°19'00" N., longitude 104°-45'00" W.; to latitude 42°19'30" N., longitude 104°51'00" W.; to latitude 42°24'-00" N., longitude 104°54'30" W.; to the point of beginning.

Designated altitudes. Surface to 23,500 feet MSL.

Time of designation. 0700 to 2200 m.s.t., May 15 through September 5.

Controlling agency. Federal Aviation Agency, Casper, Wyo., Flight Service Station.

Using agency. Adjutant General, State of Wyoming.

2. Section 600.1668 (26 F.R. 11823) is amended to read:

§ 600.1668 VOR Federal airway No. 1668 (Medicine Bow, Wyo., to Chadron, Nebr.).

From the Medicine Bow, Wyo., VOR; 14-mile wide airway to the Chadron, Nebr., VOR.

These amendments shall become effective 0001 e.s.t. April 5, 1962.

(Sec. 307(a), 72 Stat. 749; 49 U.S.C. 1348)

Issued in Washington, D.C., on February 7, 1962.

D. D. THOMAS,
Director, Air Traffic Service.

[F.R. Doc. 62-1458; Filed, Feb. 13, 1962; 8:45 a.m.]

Title 16—COMMERCIAL PRACTICES

Chapter I—Federal Trade Commission

[Docket C-5]

PART 13—PROHIBITED TRADE PRACTICES

Jerome Kramer and J. C. Kramer Furrier

Subpart—Invoicing products falsely: § 13.1108 *Invoicing products falsely:* § 13.1108-45 *Fur Products Labeling Act.* Subpart—Misbranding or mislabeling: § 13.1212 *Formal regulatory and statutory requirements:* § 13.1212-30 *Fur Products Labeling Act.* Subpart—Neglecting, unfairly or deceptively, to make material disclosure: § 13.1845 *Composition:* § 13.1845-30 *Fur Products Labeling Act;* § 13.1852 *Formal regulatory and statutory requirements:* § 13.1852-35 *Fur Products Labeling Act;* § 13.1865 *Manufacture or preparation:* § 13.1865-40 *Fur Products Labeling Act;* § 13.1886 *Quality, grade or type;* § 13.1900 *Source or origin:* § 13.1900-40 *Fur Products Labeling Act:* § 13.1900-40(b) *Place.*

(Sec. 6, 38 Stat. 721; 15 U.S.C. 46. Interpret or apply sec. 5, 38 Stat. 719, as amended; sec. 8, 65 Stat. 179; 15 U.S.C. 45, 69f) [Cease and desist order, J. C. Kramer Furrier, Erie, Pa., Docket C-5, Oct. 17, 1961]

Consent order requiring an Erie, Pa., furrier to cease violating the Fur Products Labeling Act by failing, in labeling, invoicing, and advertising fur products, to show the true name of the fur and the country of origin of imported furs; failing to show, in labeling and advertising, when a fur product was composed of cheap or waste fur, and to disclose in invoicing when fur was dyed; and failing in other respects to comply with requirements of the Act.

The order to cease and desist, together with further order requiring report of compliance therewith, is as follows:

It is ordered, That Jerome Kramer, an individual trading as J. C. Kramer Furrier, or under any other trade name and respondent's representatives, agents and employees, directly or through any corporate or other device, in connection with the introduction into commerce, or the sale, advertising, or offering for sale in commerce, or the transportation or distribution in commerce of fur products, or in connection with the sale, advertising, offering for sale, transportation, or distribution of fur products which are made in whole or in part of fur which has been shipped and received in commerce, as "commerce", "fur" and "fur product" are defined in the Fur Products Labeling Act, do forthwith cease and desist from:

1. Misbranding fur products by:

A. Failing to affix labels to fur products showing in words and figures plainly legible all the information required to be disclosed by each of the subsections of section 4(2) of the Fur Products Labeling Act.

B. Setting forth on labels affixed to fur products:

1. Information required under section 4(2) of the Fur Products Labeling Act and the rules and regulations promulgated thereunder in abbreviated form.

2. Information required under section 4(2) of the Fur Products Labeling Act and the rules and regulations promulgated thereunder mingled with nonrequired information.

3. Information required under section 4(2) of the Fur Products Labeling Act and the rules and regulations promulgated thereunder in handwriting.

C. Affixing to fur products labels that do not comply with the minimum size requirements of one and three-quarter inches by two and three-quarter inches.

D. Failing to set forth all the information required under section 4(2) of the Fur Products Labeling Act and the rules and regulations promulgated thereunder on one side of such labels.

E. Failing to set forth separately on labels affixed to fur products composed of two or more sections containing different animal furs the information required under section 4(2) of the Fur Products Labeling Act and the rules and regulations promulgated thereunder with respect to the fur comprising each section.

F. Failing to set forth on labels the item number or mark assigned to a fur product.

2. Falsely or deceptively invoicing fur products by:

A. Failing to furnish invoices to purchasers of fur products showing in words and figures plainly legible all the information required to be disclosed by each of the subsections of section 5(b)(1) of the Fur Products Labeling Act.

B. Setting forth information required under section 5(b)(1) of the Fur Products Labeling Act and the rules and

regulations promulgated thereunder in abbreviated form.

C. Failing to set forth on invoices the item number or mark assigned to a fur product.

3. Falsely or deceptively advertising fur products through the use of any advertisement, representation, public announcement or notice which is intended to aid, promote or assist, directly or indirectly, in the sale, or offering for sale of fur products, and which:

A. Fails to disclose:

1. The name or names of the animal or animals producing the fur or furs contained in the fur product as set forth in the Fur Products Name Guide and as prescribed by the Rules and Regulations.

2. That the fur product contains or is composed of bleached, dyed or otherwise artificially colored fur when such is the fact.

3. The name of the country of origin of any imported fur contained in a fur product.

It is further ordered, That the respondent herein shall, within sixty (60) days after service upon him of this order, file with the Commission a report in writing setting forth in detail the manner and form in which he has complied with this order.

Issued: October 17, 1961.

By the Commission.

[SEAL] JOSEPH W. SHEA, *Secretary.*

[F.R. Doc. 62-1466; Filed, Feb. 13, 1962; 8:46 a.m.]

Title 18—CONSERVATION OF POWER

Chapter I—Federal Power Commission

[Order 243; Docket No. R-206]

PART 154—RATE SCHEDULES AND TARIFFS

PART 157—APPLICATIONS FOR CERTIFICATES OF PUBLIC CONVENIENCE AND NECESSITY UNDER SECTION 7 OF THE NATURAL GAS ACT, AS AMENDED

Independent Producers of Natural Gas; Definition; Temporary Authorizations, Procedure

FEBRUARY 8, 1962.

In this proceeding the Commission has under consideration (1) a redefining of the term "independent producer" as the term is used in Parts 154 and 157 of its regulations, and (2) a revision of its procedures with respect to the issuance of temporary authorizations to independent producers pursuant to section 7(c) of the Natural Gas Act.

The definition of an "independent producer" set forth in the margin[1] is of particular significance because we have provided for simplified regulations for producers as distinguished from pipeline companies. Thus, producers are exempt from the comprehensive reporting and accounting obligations required of the pipeline companies.[2]

We have learned from experience however, that some companies operate lines for the interstate transportation of natural gas under circumstances which require that they be more strictly regulated. If a company is engaged in activities which go beyond production and gathering, the public interest requires that it be regulated as a pipeline company.

Before a producer may begin service under a temporary authorization issued pursuant to § 157.28 there must be on file an effective rate schedule covering the proposed service filed not less than 30 days prior to the date service is to begin. However, in order to speed the initiation of emergency operations, paragraph (d) of the rule provides an automatic waiver of the 30-day filing requirements of §§ 154.92(b) and 154.94(b). The Commission believes that in the present circumstances it should itself consider applications for waiver. Accordingly, we order herein the revocation of § 157.28(d) which reads as follows:

(d) Notice by the Secretary of the acceptance of the rate filing and the statements made under this section shall constitute a waiver by the Commission of the 30-day advance filing requirements of § 154.92(b) or 154.94(b), and the proposed temporary sales or transportation may proceed forthwith.

Since a currently effective delegation of authority to the Secretary[3] to issue the notice provided for in the revoked section is no longer necessary, it should be revoked as herein provided.

The Commission finds:

(1) Amendment of the regulations as herein ordered is appropriate and necessary for carrying out the provisions of the Natural Gas Act.

(2) The amendments herein ordered represent matters of practice and procedure which do not require notice or hearing under section 4(a) of the Administrative Procedure Act.

(3) The reasons for the amendments herein adopted, as expressed above, require that they be made effective as hereinafter ordered.

The Commission, acting pursuant to authority granted by sections 4, 7, and 16 of the Natural Gas Act (15 U.S.C. 717c, 717f, 717o), orders:

(A) Parts 154 and 157 of Subchapter E, Regulations Under the Natural Gas Act, Chapter I of Title 18 of the Code of Federal Regulations, are amended as follows:

1. Section 154.91, paragraph (a) is amended to read as follows:

(a) *Definition.* An "independent producer" as that term is used in this part means any person as defined in the Natural Gas Act who is engaged in the production or gathering of natural gas and who sells natural gas in interstate commerce for resale, but who is not engaged in the transportation of natural gas (other than gathering) by pipeline in interstate commerce.

2. In § 157.28, paragraph (d) is revoked.

(B) The above-described delegation of authority to the Secretary issued December 26, 1956, 22 F.R. 12, is revoked effective April 2, 1962.

(C) The amendments prescribed by paragraph (A) 1, above, shall become effective upon the issuance of this order.

(D) The Secretary shall cause prompt publication of this order to be made in the FEDERAL REGISTER.

By the Commission.

[SEAL] JOSEPH H. GUTRIDE, *Secretary.*

[F.R. Doc. 62-1465; Filed, Feb. 13, 1962; 8:46 a.m.]

[Order 242; Docket No. R-208]

PART 154—RATE SCHEDULES AND TARIFFS

PART 157—APPLICATIONS FOR CERTIFICATES OF PUBLIC CONVENIENCE AND NECESSITY UNDER SECTION 7 OF THE NATURAL GAS ACT, AS AMENDED

Rejection of Sales Contracts Containing Indefinite Escalation Clauses and of Applications Relying Upon Such Contracts for Gas Supply

FEBRUARY 8, 1962.

In this proceeding the Commission has under consideration the amendment of §§ 154.93, 157.14(a)(10) Exhibit H(v), and 157.25, Subchapter E, Regulations Under the Natural Gas Act, Chapter I of Title 18, Code of Federal Regulations.

By Order No. 232A, issued March 31, 1961 (26 F.R. 2850, 25 FPC 609), the Commission amended § 154.93 of its regulations so as to provide that indefinite price escalation clauses in sales contracts executed on or after April 2, 1961, for the sale or transportation of natural gas subject to the jurisdiction of the Commission, would be inoperative and of no effect at law. The amendments herein adopted provide for (1) the rejection of contracts containing such indefinite escalation clauses, (2) the rejection of applications by producers for certificates of public convenience and necessity relying for a gas supply upon contracts containing such indefinite escalation provisions, and (3) the Commission's refusal to consider such contracts submitted in support of certificate applications by pipeline companies.

Public notice of proposed rulemaking was given by publication in the FEDERAL REGISTER on October 10, 1961 (26 F.R. 9732), and by mailing copies thereof to interested persons, including natural gas companies, and to State and Federal agencies. In response to such notice, numerous comments were submitted. These comments have been carefully considered but, for the reasons set forth below, we adhere to the substance of the amendments as originally proposed.

A number of parties contend that the promulgation of these regulations would be unlawful and beyond the powers granted to the Commission by the Natural Gas Act. We conclude, however, that sections 4, 5, and 7 of the Natural Gas Act contemplate that the Commission will refuse to approve contractual provisions found adverse to the public interest. Section 16 of the Act, of course, authorizes the Commission to issue rules and regulations of general applicability found necessary or appropriate to carry out the provisions of the Act.

Protection of the public interest is the touchstone of our regulatory powers under the Natural Gas Act. The Commission's obligation under the Act to the natural gas companies, as one segment of the public whose interest is to be protected, does not compel it to acquiesce in the use of contracts which carry provisions incompatible with a scheme of effective rate regulation. To be sure, the proposed rule will have impact upon contractual practices which have been fairly widespread. But the real issue is not one of "freedom of contract"; the question is whether the rule is rationally related to a condition which requires correction if regulatory objectives embraced by the statute are to be achieved. See American Trucking Associations v. United States, 344 U.S. 298. In our view, the rule we adopt fully meets this test.

We held in the Pure Oil case[1] that indefinite escalation clauses are contrary to the public interest and restated this conclusion in Order No. 232A. Increases in producer prices triggered by indefinite escalation clauses, have resulted in a flood of almost simultaneous filings. These filings bear no apparent relationship to the economic requirements of the producers who file them. The Natural Gas Act contemplates that prices, to be just and reasonable, be related to economic needs. The elimination of indefinite escalation provisions does not, of course, cut off other avenues by which a producer may make provision for filing for increased rates.

Filings under indefinite escalation clauses have created a significant portion of the administrative burdens under which this Commission is laboring today. The Natural Gas Act contemplates that rate increases shall be sought when there is economic justification, but not that there shall be a chain reaction in a wide area whenever one producer in the area negotiates a contract at a new price level. The Act requires the Commission to give precedence to the hearing and decision of rate increases, but the complexity of indefinite price clauses requires it to spend an undue amount of time in their interpretation and application at the expense of making a prompt determination of the rate issues involved. Accordingly, in protecting the public against waves of increases which have no defensible basis, we also serve the need—which we believe we should take into account—of making the tasks of regulation more manageable.

It has been brought to our attention that § 154.93 of the regulations, as amended by Order No. 232A, refers to the date of execution of a contract, rather than the filing date (to which we referred in the notice of this proceeding). It is suggested that this point should be clarified. The Commission agrees and has made appropriate changes. In order to conform the language of the amendments to our existing regulations, we have also changed the phrase "price-escalation provisions" to "price-changing provisions".

The Commission, acting pursuant to authority granted by the Natural Gas Act, particularly sections 4, 5, 7, and 16 thereof (15 U.S.C. 717c, 717d, 717f, and 717o), orders that Parts 154 and 157, Subchapter E, Chapter I, of Title 18 of the Code of Federal Regulations be amended as follows:

(A) Section 154.93 *Rate schedule defined*, is amended by adding a provision at the end thereof. As amended § 154.93 reads as follows:

§ 154.93 Rate schedule defined.

For the purpose of §§ 154.92 through 154.101 "rate schedule" shall mean the basic contract and all supplements or agreements amendatory thereof, effective and applicable on and after June 7, 1954, showing the service to be provided and the rates and charges, terms, conditions, classifications, practices, rules and regulations affecting or relating to such rates or charges, applicable to the transportation of natural gas in interstate commerce or the sale of natural gas in interstate commerce for resale subject to the jurisdiction of the Commission: *Provided*, That in contracts executed on or after April 3, 1961, for the sale or transportation of natural gas subject to the jurisdiction of the Commission, any provision for a change of price other than the following provisions shall be inoperative and of no effect at law; the permissible provisions for a change in price are:

(a) Provisions that change a price in order to reimburse the seller for all or any part of the changes in production, severance, or gathering taxes levied upon the seller;

(b) Provisions that change a price to a specific amount at a definite date; and

(c) Provisions that, once in five-year contract periods during which there is no provision for a change in price to a specific amount (paragraph (b) of this section), change a price at a definite date by a price-redetermination based upon and not higher than a producer rate or producer rates which are subject to the jurisdiction of the Commission, are not in issue in suspension or certificate proceedings, and, are in the area of the price in question: *Provided further*, That any contract executed on or after April 2, 1962, containing price-changing provisions set forth in the proviso next above shall be rejected.

§ 157.14 [Amendment]

(B) Subdivision (v) of subparagraph (10) *Exhibit H—Total gas supply data* of § 157.14(a), is amended by adding an additional proviso at the end thereof. As amended subdivision (v) reads as follows:

(v) A conformed copy of each gas purchase contract upon which applicant proposes to rely: *Provided, however*, That only three of the total number of copies of Exhibit H filed need include a copy of such contract. Contracts already on file with the Commission may be incorporated by reference without supplying additional copies, provided such contracts are identified with particularity by stating the exact pages of the contracts to be incorporated by reference and the file or docket number designation to which reference is made; provided further, that the Commission of the presiding officer may direct that additional copies of such contracts be furnished to the Commission or to other parties to the proceeding: *Provided further, however*, That any contract executed on and after April 2, 1962, and filed in support of an applicant's gas supply showing will be given no consideration in determining adequacy of gas supply if it contains any price-changing provisions other than those defined as permissible in § 154.93 of this chapter.

§ 157.25 [Amendment]

(C) *Exhibit B, Contracts*, in § 157.25 *Necessary exhibits*, is amended by deleting all the language after the first sentence thereof, ending with the words "Natural Gas Act", and inserting in lieu thereof the following: "On or after April 2, 1962, the application shall be rejected if any contract submitted in support thereof contains any price-changing provisions other than those defined as permissible in § 154.93 of this chapter. As amended *Exhibit B, Contracts*, reads as follows:

Exhibit B. Contracts. Conformed copy of each contract for sale or transportation of gas for which a certificate is requested: *Provided, however*, That contracts on file with the Commission in other proceedings may be included by reference as heretofore provided in § 157.24(b); *And provided further*, That acceptance of contracts hereunder shall not be construed as approval of the rates therein contained under Part 154 hereof or under the Natural Gas Act. On or after April 2, 1962, the application shall be rejected if any contract submitted in support thereof contains any price-changing provisions other than those defined as permissible in § 154.93 of this chapter.

(D) These amendments shall become effective on April 2, 1962.

(E) The Secretary of the Commission shall cause prompt publication of this

[1] Section 154.91(a) provides that:

An "independent producer" as that term is used in this part means any person as defined in the Natural Gas Act who is engaged in the production or gathering of natural gas and who transports natural gas in interstate commerce or sells natural gas in interstate commerce for resale, but who is not primarily engaged in the operation of an interstate pipeline.

[2] See Order No. 174-B, 13 FPC 1576, ordering clause (D), at page 1585.

[3] Issued Dec. 26, 1956, 22 F.R. 12, and included in the Commission's Statement of Organization, paragraph 5 (a)(13), 21 FPC 601 at 604.

[1] The Pure Oil Company, 25 FPC 383.

order to be made in the FEDERAL REGISTER.

By the Commission.

[SEAL] JOSEPH H. GUTRIDE, *Secretary.*

Title 22—FOREIGN RELATIONS

Chapter I—Department of State

[Dept. Reg. 108.478]

PART 46—CONTROL OF ALIENS DEPARTING FROM THE UNITED STATES

Miscellaneous Amendments

Part 46, Chapter I, Title 22 of the Code of Federal Regulations is being amended to add Outer Mongolia ("Mongolian People's Republic") to the list of countries to which permanent resident aliens may not travel without the specific authorization of the Administrator of the Bureau of Security and Consular Affairs after consultation with the Commissioner of Immigration and Naturalization. Minor editorial amendments are also being made in two paragraphs to delete references to a form which is now obsolete.

1. Paragraph (k) of § 46.3 is hereby amended to read as follows:

§ 46.3 Aliens whose departure is deemed prejudicial to the interests of the United States.

* * * * *

(k) Any alien lawfully admitted for permanent residence who seeks to depart from the United States for travel to, in, or through Albania, Communist-controlled China ("Chinese People's Republic"), Cuba, North Korea ("Democratic People's Republic of Korea"), North Viet-Nam ("Democratic Republic of Viet-Nam"), or Outer Mongolia ("Mongolian People's Republic").

§ 46.4 [Amendment]

2. Paragraph (a) of § 46.4 is amended by deletion of the words "on Form I-227" appearing at the end of the third sentence.

§ 46.5 [Amendment]

3. Paragraph (a)(2) of § 46.5 is amended by deletion of the words "on Form I-227" appearing at the end thereof.

Effective date. The regulations contained in this order shall become effective upon publication in the FEDERAL REGISTER.

The provisions of section 4 of the Administrative Procedure Act (60 Stat. 238; 5 U.S.C. 1003) relative to notice of proposed rule making are inapplicable to this order because the regulations contained therein involve foreign affairs functions of the United States.

Dated: January 17, 1962.

DEAN RUSK, *Secretary of State.*

Concurred in:

BYRON R. WHITE, *Acting Attorney General.*

Dated: February 2, 1962.

Correction

In F.R. Doc. 62-1337 appearing at page 1214 of the issue for Friday, February 9, 1962, the table appearing in paragraph (d)(5) of § 121.2535 is corrected to read as set forth below:

List of substances	Limitation
(i) Fibers	
Cotton	
Rayon	
(ii) Adjuvant substances	
4,4'-bis (4-Anilino - 6-diethanolamine-s-triazin - 2- ylamino)-2,2'-stilbene-disulfonic acid, disodium salt.	For use as colorant only.
4,4'-bis(4-Anilino - 6 - methylethanolamine - s - triazin-2-ylamino)-2,2'-stilbene-disulfonic acid, disodium salt.	For use as colorant only.
Borax	For use as preservative only.
Formaldehyde	For use as preservative only.
Mineral oil	
Petrolatum	
Polyoxyethylene (20) sorbitan monolaurate.	
Polyoxyethylene (20) sorbitan monostearate.	
Polyvinyl acetate	
Polyvinyl acohol	
Sodium bis(2,6 - dimethylheptyl - 4) sulfosuccinate.	
Sodium dodecyl benzenesulfonate	
Sodium fluoride	For use as preservative only.
Sodium hypochlorite	
Sodium lauryl sulfate	
Sodium pentachlorophenate	For use as preservative only.
Styrene-butadiene copolymer	
Tallow	
Tallow, sulfonated	
Titanium dioxide	
Triethanolamine	
Ultramarine blue	
Waxes, petroleum	

Title 33—NAVIGATION AND NAVIGABLE WATERS

Chapter II—Corps of Engineers, Department of the Army

PART 203—BRIDGE REGULATIONS

Charles River, Mass.

Pursuant to the provisions of section 5 of the River and Harbor Act of August 18, 1894 (28 Stat. 362; 33 U.S.C. 499), § 203.75 is hereby amended prescribing subparagraph (h)(3) to govern the operation of the Metropolitan Transit Authority bridge across Charles River, Boston, Mass., effective 30 days after publication in the FEDERAL REGISTER, as follows:

§ 203.75 Boston Harbor, Mass., and adjacent waters; bridges.

* * * * *

(h) *Charles River.* * * *

(3) *Metropolitan Transit Authority Bridge.* The draw of the bridge will be opened only between 9:00 a.m. and 10:00 p.m. (local time) each day provided 4 hours' advance notice is given prior to the time an opening is required. Draw openings during this period shall also be governed by the regulations in subparagraph (1) of this paragraph.

[Regs., January 26, 1962, 285/112 (Charles River, Mass.)—ENGCW-ON] (Sec. 5, 26 Stat. 362; 33 U.S.C. 499)

J. C. LAMBERT, *Major General, U.S. Army, The Adjutant General.*

Title 25—INDIANS

Chapter I—Bureau of Indian Affairs, Department of the Interior

PART 221—OPERATION AND MAINTENANCE CHARGES

Blackfeet Indian Irrigation Project, Montana

On page 11296 of the FEDERAL REGISTER of November 30, 1961, Vol. 26, No. 230, there was published a notice of intention to amend §§ 221.130 and 221.131 of Title 25, Code of Federal Regulations, as set forth below. The purpose of the amendment is to increase the annual operation and maintenance rate from $1.80 to $2.25 per acre and the assessment rate for excess water from $1.00 to $1.25 per acre-foot. These rate increases are necessary in order that the assessments meet the operation and maintenance costs, which have risen due to increases in labor and material costs.

Interested persons were given 30 days within which to submit written comments, suggestions or objections with respect to the proposed amendments. Three objections having been received and after full consideration on the merits having been overruled, the amended regulations are adopted as set forth below.

1. Section 221.130 is amended to read as follows:

§ 221.130 Basic assessment.

Pursuant to the acts of Congress approved August 1, 1914; May 18, 1916; and March 7, 1928; 38 Stat. 583; 39 Stat. 142; 45 Stat. 210; 25 U.S.C. 385, 387, the basic rate of assessment of operation and maintenance charges against the irrigable lands to which water can be delivered under the Blackfeet Indian Irrigation Project, Montana, for the season of 1962 and subsequent years until further notice is hereby fixed at $2.25 per acre per annum for the delivery of not to exceed one and one-half acre feet of water per acre for the assessable area under constructed works, water to be delivered on demand based upon an estimated quota of the available supply.

2. Section 221.131 is amended to read as follows:

§ 221.131 Excess water assessment.

Additional water, when available, may be delivered upon request at the rate of $1.25 per acre foot, or fraction thereof.

PERCY E. MELIS, *Area Director.*

[F.R. Doc. 62-1467; Filed, Feb. 13, 1962; 8:46 a.m.]

Title 41—PUBLIC CONTRACTS

Chapter 50—Division of Public Contracts, Department of Labor

PART 50-202—MINIMUM WAGE DETERMINATIONS

Drugs and Medicine Industry

No exceptions have been filed to the tentative decision determining the prevailing minimum wage for the drugs and medicine industry (27 F.R. 315).

Accordingly, pursuant to section 4 of the Walsh-Healey Public Contracts Act (41 U.S.C. 38), the proposed findings and conclusions contained in the tentative decision are hereby made final, and 41 CFR 50-202.22 is hereby amended in the manner indicated below.

Good cause is hereby found to shorten the delay in effective date of this amendment to seven days following its publication in the FEDERAL REGISTER for the reasons indicated in final decisions determining prevailing minimum wages under the Walsh-Healey Public Contracts Act in the paper and pulp and manifold business forms industries (26 F.R. 7698, 7699). Therefore, the amendment shall become effective Febrary 21, 1962.

As amended, 41 CFR 50-202.22 reads as follows:

§ 50-202.22 Drugs and medicine industry.

(a) *Definition.* The drugs and medicine industry is defined as that industry which manufactures (or packages) drugs and medicinal preparations (other than food) intended for internal or external use in the diagnosis, treatment, or prevention of diseases in, or to affect the structure or any functions of, the body of men or other animals, including without limitation the following products: Bulk organic and inorganic medicinal chemicals and their derivatives; processed botanical drugs and herbs; endocrine products; basic vitamins; active medicinal principles, such as alkaloids from botanical drugs and herbs; drugs and medicine in pharmaceutical preparations, such as ampules, tablets, capsules, ointments, solutions, and suspensions for human and veterinary use, including vitamin preparations and galenicals, such as fluid extracts and tinctures; viruses, serums, toxins, and analogous products, such as allergenic extracts, and normal serums and plasmas for human or veterinary use; and bacteriological media.

(b) *Minimum wage.* The minimum wage for persons employed in the manufacture or furnishing of products of the drugs and medicine industry shall be not less than $1.45 per hour.

Signed at Washington, D.C., this 8th day of February 1962.

ARTHUR J. GOLDBERG, *Secretary of Labor.*

[F.R. Doc. 62-1524; Filed, Feb. 13, 1962; 8:52 a.m.]

Title 47—TELECOMMUNICATION

Chapter I—Federal Communications Commission

[FCC 62-122]

PART 1—PRACTICE AND PROCEDURE

Computation of Time

At a session of the Federal Communications Commission held at its offices in Washington, D.C., on the 6th day of February 1962;

The Commission having under consideration § 1.18 of its rules of practice and procedure pertaining to the computation of time; and

It appearing, that § 1.18 should be rephrased so as to simplify and clarify the method for computing the filing date in Commission proceedings; and

It further appearing, that the amendment adopted herein is issued pursuant to authority contained in sections 4(i) and 303(r) of the Communications Act of 1934, as amended; and

It further appearing, that the amendment adopted herein pertains to matters of procedure and hence that section 4 of the Administrative Procedure Act is inapplicable;

It is ordered, effective February 14, 1962, that § 1.18 of the rules of practice and procedure is amended as set forth below.

(Sec. 4, 48 Stat. 1066, as amended; 47 U.S.C. 154. Interprets or applies sec. 303, 48 Stat. 1082, as amended; 47 U.S.C. 303)

Released: February 9, 1962.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] BEN F. WAPLE, *Acting Secretary.*

§ 1.18 Computation of time.

(a) It is frequently necessary under Commission procedures to compute the terminal date of a period of time where the period begins with the occurrence of and act, event, or default and terminates a specified number of days thereafter. Unless otherwise provided by statute, the first day to be counted in computing the terminal date is the day after the day on which the act, event, or default occurs. The last day of such period of time is included in the computation and any action required must be taken on or before that day.

(b) When a Commission Decision, Order, or Memorandum is involved, the first day to be counted is the day after the day on which the complete text of the document is released by the Commission. When any other Commission action is involved, the first day to be counted is the day after the day on which the "Public Notice" of the action is released by the Commission.

(c) All petitions, pleadings, tariffs, or other documents filed with the Commission must be tendered for filing in complete form before 5:00 p.m. Any such document lodged with the Commission in complete form after 5:00 p.m. shall be deemed to be tendered for filing as of the next succeeding business day.

(d) For purposes of this section, the term "holiday" shall include Saturdays, Sundays, legal holidays or half holidays in the District of Columbia, and any other day on which the Commission's offices are closed prior to 5:00 p.m. The term "business day" shall include all other days.

(e) For purposes of this section, the term "filing period" means the number of days allowed or prescribed by statute, rule, order, notice, or other Commission action for filing any document with the Commission. That term does not include any additional days allowed for filing any document under paragraph (f), (g), or (i) of this section.

(f) If the filing period is less than seven days, intermediate holidays shall be excluded in determining the filing date.

(g) Where a document is served by mail, and the filing period for a response thereto is 10 days or less, an additional three days, excluding holidays, will be allowed for filing the response. This paragraph shall not apply to § 1.193(c).

(h) If both paragraphs (f) and (g) of this section are applicable, make the computations called for by paragraph (f) before making those called for by paragraph (g).

(i) If the filing date falls on a holiday, the document shall be filed on the next business day.

[F.R. Doc. 62-1520; Filed, Feb. 13, 1962; 8:52 a.m.]

[Docket No. 14120; FCC 62-161]

PART 3—RADIO BROADCAST SERVICES

Certain Television Broadcast Stations; Table of Assignments

1. The Commission has before it for consideration its Notice of Proposed Rule Making, adopted May 11, 1961 (FCC 61-649) and its Notice of Further Proposed Rule Making, adopted September 27, 1961 (FCC 61-1156), looking toward amendment of the Table of Assignments, Television Broadcast Stations (Section 3.606 of the Commission's Rules). These concern various proposals to add channels to Huntsville and Hamilton, Alabama, and correlative changes and deletions of channels in other communities in Alabama, Georgia, Kentucky, Mississippi, and Tennessee:

2. *RM-241.* North Alabama Broadcasters, Inc., filed a petition on March 7, 1961, proposing the assignment of Channel 19 to Huntsville, Alabama, to be accomplished by substitution at Fort Payne, Alabama, of Channel 65 for unoccupied Channel 19.

3. *RM-253.* Huntsville Broadcasting Co., Inc., by petition filed April 14, 1961, proposed the additional assignment to Huntsville of Channel 25+. This would have been accomplished as follows:

City	Channel	
	Present	Proposed
Huntsville, Ala	31+	25+, 31+
Guntersville, Ala	40-	62-
Humboldt, Tenn	25	68
Dalton, Ga	25+	71

4. Both of the above proposals were encompassed by the May 11 Notice, which inter alia pointed out that the RM-253 proposal was defective as to certain co-channel spacings. In its comments, Huntsville Broadcasting Co., Inc. then suggested substitute plans mainly to afford a satisfactory alternative for reassignment at Dalton, Georgia, which the Georgia State Department of Education indicated was an essential link in a plan for state-wide educational television coverage.

5. *RM-280.* Rankin Fite and Robert H. Thomas filed a petition on August 22, 1961, seeking assignment to Hamilton, Alabama, of Channel 25, which it proposed to accomplish by substituting Channel 49 for Channel 25 at Humboldt, Tennessee. To avoid a co-channel spacing conflict with its Channel 25 proposal, Huntsville Broadcasting Co., Inc. suggested an alternative channel assignment for Hamilton of either Channel 17 or Channel 34, which, as the case may be, would require substitutions for Channel 17 at Jasper, Alabama, or Channel 34— at Starkville, Mississippi.

6. The additional proposals were announced in a Notice of Further Proposed Rule Making (26 F.R. 9348) on September 27, 1961. A tabulation of these proposals is shown below:

HUNTSVILLE BROADCASTING CO. ALTERNATIVE PLANS FOR HUNTSVILLE[1]

City	Present	Proposed		
		Plan I	Plan II	Plan III
Huntsville, Ala	31+	25+, (31+)	25+, (31+)	(31+), 49-
Dalton, Ga	25+	16	18-	(25+)
Guntersville, Ala	40-			
Humboldt, Tenn	25			
Tuskegee, Ala	16-		(16-)	(16-)
Corbin, Ky	16		(16)	(16)
Fort Valley, Ga	18+	(18+)		(18+)
Murfreesboro, Tenn	18-	(18-)		(18-)
Sheffield, Ala	47-	(47-)	(47-)	

[1] The parentheses denote that the channel assignments are not affected by the particular plan. The Sept. 27 notice, because of the stated Commission policy to withhold further assignments when there is no apparent demand for an assignment, did not propose substitute channels for assignments deleted.

HUNTSVILLE BROADCASTING CO. ALTERNATIVE PLANS FOR HAMILTON[1]

City	Present	Plan A	Plan B
Hamilton, Ala		17	34-
Jasper, Ala	17	71	(17)
Starkville, Miss	34	(34)	40-

[1] The parentheses denote that the channel assignments are not affected by the particular plan. The Sept. 27 notice, because of the stated Commission policy to withhold further assignments when there is no apparent demand for an assignment, did not propose substitute channels for assignments deleted.

7. The Commission has before it the views of various interested persons: North Alabama Broadcasters, Inc.; Huntsville Broadcasting Co., Inc.; Rocket City Television, Inc., licensee of WAFG-TV, Channel 31, Huntsville, Alabama; the Georgia State Department of Education; Rankin Fite and Robert H. Thomas; The Association of Maximum Service Telecasters, Inc.; Elton H. Darby, licensee of WVNA, Tuscumbia, Alabama; Clayton Carter, President, Chamber of Commerce, Guntersville, Alabama; and Herman W. Maddox, Mayor, City of Jasper, Alabama. We do not here detail these comments, since many of the objections to various aspects of the alternatives are rendered moot by the disposition we make.

8. We recognize that in the present state of the art UHF channels in the lower range afford some technical advantages. Also pending decisions in Docket 14229, we have not been providing substitute channels for assignments deleted from one area to provide lower channels in another area unless an active interest is manifested. These considerations dispose of the objections of Guntersville,[1] Jasper,[2] and Sheffield,[3] since the comments on their behalf do not convincingly demonstrate the probability of use in the near future. Should Guntersville or Jasper—or for that matter the communities referred by Rocket City as having no local television channels—in the future demonstrate an actual demand for a television broadcasting facility, the Commission would make available the best channel under existing conditions, circumstances and prevailing policy.

9. In opposing both rule making proceedings as to Huntsville, Rocket City Television, Inc., relied on the adequacy of service provided by, in addition to its own operation, services from WSML-TV, Decatur, Alabama (about 25 miles away), three VHF stations at Birmingham, Alabama (about 85 miles away), three VHF stations at Chattanooga, Tennessee (75 miles away), and three VHF stations at Nashville (100 miles away). It contends that it's own programming meets local needs. Additionally, Rocket City adverts to its economic position, namely, continually operating at a loss—which currently is estimated as averaging $1,000 per month (an accumulated loss of about $45,000 as of December 31, 1960)—as boding ill for the assignment of additional UHF channels to Huntsville.

10. Quite clearly Huntsville's service from Birmingham (85 miles), Chattanooga (75 miles), and Nashville (100 miles) is fringe. While Huntsville proper receives satisfactory service from WSML-TV, Channel 23 at Decatur, more than one-half of surrounding Madison County is beyond the Grade B contour, as are other substantially populated areas which would be served by additional UHF channels in Huntsville.[4] On the basis of this and other facts, it is our view that two channels should be added at Huntsville. For example, there has been a population growth between 1950 and 1960 of approximately 56,000 persons in Huntsville (16,437 to 72,365). Correspondingly, the population of Madison County has increased about 45,000 persons (present population 117,348) as contrasted to the overall population decrease in Alabama of 1 percent. These increases are due to the Government's activities at nearby Redstone Arsenal. Huntsville is a center of education and transportation, yet there is only one television broadcasting station to provide community needs. Indeed, the enhancement of UHF service in the area would permit UHF to become competitive and serve to improve UHF programming with probable increased demand for such service in the area. In sum, by providing additional television channels to Huntsville, substantially better and multiple service would become available to the populace of the area to be served. This clearly is in the public interest.

11. Assertions by Rocket City and Clayton Carter that there was no notice of the proposed deletion of Channel 19 from Fort Payne are unfounded. The May 11 Notice clearly so stated, and the September 27 Further Notice was only in the nature of additional alternative proposals.

12. We conclude, therefore, that it is in the public interest to assign two additional channels to Huntsville. Also in view of the indicated demand for a channel in Hamilton, we believe that an assignment should be added to this city. There remains the matter of selecting suitable assignments for the cities having the least adverse affect on neighboring communities. For the reasons set forth below we propose to add channels 19 and 25+ to Huntsville and 17 to Hamilton.

13. As discussed above, Channel 19 may be advantageously assigned to Huntsville. With regard to the addition of the second channel to Huntsville, Channel 25+ results in the deletion of only one channel from a neighboring community expressing an objection, dovetails with the Georgia State Department of Education plans,[5] and permits the assignment of an acceptable low UHF assignment to Hamilton.

14. With regard to the choice of adding either Channel 17 or 34— to Hamilton we conclude that Channel 17 is the more desirable because it requires only the deletion of the Jasper assignment which community receives three Grade A services from Birmingham. Therefore, it appears unlikely that it will be economically feasible to construct a station there in the near future. We also note that the present Jasper assignment would be deleted under a rule making proposal initiated recently to reserve additional channels for education in the State of Georgia (Docket No. 14409).

15. Authority for the amendments adopted herein is contained in sections 4 (i) and (j), 303 and 307(b) of the Communications Act of 1934, as amended.

16. In view of the foregoing: *It is ordered*, That effective March 15, 1962, the Table of Assignments contained in § 3.606 of the Commission's rules and regulations is amended, (1) by adding Hamilton and changing the assignments for Huntsville to read as follows:

City:	Channel
Hamilton, Ala	17
Huntsville, Ala	19, 25+, 31+

and (2) by deleting the entries for Fort Payne, Alabama, Guntersville, Alabama, Jasper, Alabama, Dalton, Georgia, and Humboldt, Tennessee.

(Sec. 4, 48 Stat. 1066, as amended; 47 U.S.C. 154. Interpret or apply secs. 303, 307, 48 Stat. 1082, 1083, 47 U.S.C. 303, 307)

Adopted: February 6, 1962.

Released: February 9, 1962.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] BEN F. WAPLE,
Acting Secretary.

[F.R. Doc. 62-1519; Filed, Feb. 13, 1962; 8:52 a.m.]

[1] Clayton Carter, President, Guntersville Chamber of Commerce, made these points to support the argument that Channel 40 should not be deleted from Guntersville: Local television service would be delayed for many years in a significant region (a county seat, the center of a heavily populated rural area, and a population overflow from Redstone Arsenal) where reception is poor because of the terrain.

[2] Herman W. Maddox, Mayor, The City of Jasper, on behalf of the City Commission protested the replacement of Channel 17 with Channel 71 as not in the public interest because the latter of inferior quality would not adequately serve Walker County (population 54,000).

[3] Elton H. Darby opposed Plan III insofar as requiring the deletion of Channel 47 from Sheffield, Alabama, because the market area—substantial in population and economic growth—would be deprived of one (albeit unused) of its commercial television channel assignments.

[4] Within a 50-mile radius of Huntsville are the Alabama counties of Jackson (total population 38,681), De Kalb (41,417), Marshall (48,018), Morgan (60,454), and Limestone (36,513) as well as several counties in Tennessee, of which only Morgan County receives any modicum of satisfactory service from more than one of the four transmitting cities referred to above.

[5] Inasmuch as the State of Georgia has come forth with a detailed plan calling for assignment of Channel 18— to Dalton, Georgia which we are giving consideration to in Docket No. 14409, its objection to reassignment of the Dalton Channel 25+ in effect appears to have been withdrawn.

Proposed Rule Making

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Food and Drug Administration

[21 CFR Part 121]

FOOD ADDITIVES

Notice of Filing of Petition

Pursuant to the provisions of the Federal Food, Drug, and Cosmetic Act (sec. 409(b)(5), 72 Stat. 1786; 21 U.S.C. 348(b)(5)), notice is given that a petition (FAP 546) has been filed by The Dow Chemical Company, Midland, Michigan, proposing the issuance of a regulation to provide for the safe use of 800 parts per million of calcium disodium EDTA in processed beans to promote color retention.

Dated: February 7, 1962.

J. K. KIRK,
Assistant Commissioner of Food and Drugs.

[F.R. Doc. 62-1475; Filed, Feb. 13, 1962; 8:47 a.m.]

[21 CFR Part 121]

FOOD ADDITIVES

Chewing Gum Base; Notice of Proposal to Amend Regulation

Pursuant to petitions received from the National Association of Chewing Gum Manufacturers, 100 East 42d Street, New York 17, New York, and Goodrich Gulf Chemicals, Incorporated, 1717 East Ninth Street, Cleveland 14, Ohio, a notice of filing was published in the FEDERAL REGISTER of February 24, 1961 (26 F.R. 1640). Based upon data supplied in these petitions, an order was published in the FEDERAL REGISTER of September 23, 1961 (26 F.R. 8972), establishing a regulation providing for the safe use of chewing gum base in the manufacture of chewing gum. Following publication of the order the petitioners submitted certain objections to the published regulation and proposed changes therein.

The Commissioner of Food and Drugs has evaluated these objections and other relevant material and has concluded that the regulation should be amended to make certain editorial changes; to add butylated hydroxyanisole, butylated hydroxytoluene, propyl gallate, sodium sulfate, sodium sulfide, and sodium and potassium stearate to the list of acceptable ingredients; and to rearrange the permitted ingredients, in part, according to their functional use.

Therefore, pursuant to the provisions of the Federal Food, Drug, and Cosmetic Act (sec. 409(d), 72 Stat. 1787; 21 U.S.C. 348(d)), and under the authority delegated to the Commissioner by the Secretary of Health, Education, and Welfare (25 F.R. 8625), it is proposed to amend § 121.1059 to read as follows:

§ 121.1059 **Chewing gum base.**

The food additive chewing gum base may be safely used in the manufacture of chewing gum in accordance with the following prescribed conditions:

(a) The food additive consists of one or more of the following substances that meet the specifications and limitations prescribed in this paragraph, used in amounts not to exceed those required to produce the intended physical or other technical effect.

MASTICATORY SUBSTANCES

NATURAL (COAGULATED OR CONCENTRATED LATICES) OF VEGETABLE ORIGIN

Family	*Genus and species*
Sapotaceae:	
Chicle	Manilkara zapotilla Gilly and Manilkara chicle Gilly.
Chiquibul	Manilkara zapotilla Gilly.
Crown gum	Manilkara zapotilla Gilly and Manilkara chicle Gilly.
Gutta hang kang	Palaquium lelocarpum Boerl. and Palaquium oblongifolium Burck.
Massaranduba balata (and the solvent-free resin extract of Massaranduba balata).	Manilkara huberi (Ducke) Chevalier.
Massaranduba chocolate	Manilkara solimoesensis Gilly.
Nispero	Manilkara zapotilla Gilly and Manilkara chicle Gilly.
Rosidinha (rosadinha)	Micropholis (also known as Sideroxylon) spp.
Venezuelan chicle	Manilkara williamsii Standley and related spp.
Apocynaceae:	
Jelutong	Dyera costulata Hook. F. and Dyera lowii Hook. F.
Leche caspi (sorva)	Couma macrocarpa Barb. Rodr.
Pendare	Couma macrocarpa Barb. Rodr. and Couma utilis (Mart.) Muell. Arg.
Perillo	Couma macrocarpa Barb. Rodr. and Couma utilis (Mart.) Muell. Arg.
Moraceae:	
Leche de vaca	Brosimum utile (H.B.K.) Pittier and Poulsenia spp.; also Lacmellae standleyi (Woodson), Monachino (Apocynaceae).
Niger gutta	Ficus platyphylla Del.
Tunu (tuno)	Castilla fallax Cook.
Euphorbiaceae:	
Chilte	Cnidoscolus (also known as Jatropha) elasticus Lundell and Cnidoscolus tepiquensis (Cost. and Gall.) McVaugh.
Natural rubber (smoked sheet and latex solids).	Hevea brasiliensis.

Synthetic	*Specifications*
Butadiene-styrene rubber	Basic polymer.
Isobutylene-isoprene copolymer (butyl rubber).	Do.
Polyethylene	Molecular weight 2,000–21,000.
Polyisobutylene (isobutylene resin).	Molecular weight 8,700–81,000.
Polyvinyl acetate	Molecular weight 2,000–5,000.

PLASTICIZING MATERIALS (SOFTENERS)

Glycerin ester of partially hydrogenated wood rosin.	Esterified with glycerin to an acid number of 3–6.
Glycerin ester of polymerized rosin.	----------
Lanolin	----------
Stearic acid	Complying with § 121.1070.
Sodium and potassium stearates	Complying with § 121.1071.

TERPENE RESINS

Synthetic resin	Consisting of polymers of β-pinena.
Natural resin	Consisting of polymers of α-pinene; softening point minimum 155° C., determined by U.S.P. closed-capillary method.

ANTIOXIDANTS

Butylated hydroxyanisole Butylated hydroxytoluene Propyl gallate	Not to exceed antioxidant content of 0.1% when used alone or in any combination.

MISCELLANEOUS

Sodium sulfate	----------
Sodium sulfide	Reaction-control agent in synthetic polymer production.

(b) In addition to the substances listed in paragraph (a) of this section, chewing gum base may also include substances generally recognized as safe in food.

(c) To assure safe use of the additive, in addition to the other information required by the act, the label and labeling of the food additive shall bear the name of the additive, "chewing gum base." As used in this paragraph, the term "chewing gum base" means the manufactured or partially manufactured nonnutritive masticatory substance comprised of one or more of the ingredients named and so defined in paragraph (a) of this section.

The Commissioner of Food and Drugs hereby offers an opportunity to any interested person to submit views and comments on this proposal within 30 days from the date of publication of this notice in the FEDERAL REGISTER. Such views and comments should be submitted in triplicate and addressed to the Hearing Clerk, Department of Health, Education, and Welfare, Room 5440, 330 Independence Avenue SW., Washington 25, D.C.

Dated: February 7, 1962.

GEO. P. LARRICK,
Commissioner of Food and Drugs.

[F.R. Doc. 62-1476; Filed, Feb. 13, 1962; 8:47 a.m.]

FEDERAL AVIATION AGENCY

[14 CFR Part 22]

[Reg. Docket No. 1069; Draft Release No. 62-6]

ISSUANCE OF FREE BALLOON PILOT CERTIFICATES LIMITED TO HOT-AIR BALLOONS

Notice of Proposed Rule Making

Pursuant to the authority delegated to me by the Administrator (14 CFR 405.27), notice is hereby given that there is under consideration a proposal to amend Part 22 of the Civil Air Regulations as hereinafter set forth.

Interested persons may participate in the making of the proposed rule by submitting such written data, views, or arguments as they may desire. Communications should be submitted, preferably in duplicate, to the Docket Section of the Federal Aviation Agency, Room C-226, 1711 New York Avenue, NW., Washington 25, D.C. All communications received on or before April 16, 1962, will be considered by the Administrator before taking action on the proposed rule. The proposal contained in this notice may be changed in the light of comments received. All comments submitted will be available in the Docket Section for examination by interested persons when the prescribed date for return of comments has expired.

Section 22.13 of the Civil Air Regulations currently provides for the issuance of free balloon pilot certificates. This section also provides for the issuance of free balloon pilot certificates which are limited to hot-air balloons. An applicant for such a certificate must comply with certain requirements of age, character, citizenship, education, and physical condition. He does not have to comply with any requirement of aeronautical knowledge, experience, or skill. As a result, anyone who holds an airman medical certificate of the third class or higher, and who is at least 17 years of age, can secure a free balloon pilot certificate limited to hot-air balloons. These requirements are easily met by many certificated airmen, and hundreds of them have acquired a hot-air balloon certificate merely as a novelty and with no serious intention of operating any kind of free balloon.

Issuance of a free balloon pilot certificate limited to hot-air balloons, without any showing of aeronautical knowledge, experience, or skill, dates back to March of 1951. At that time the Civil Aeronautics Board amended Part 22 of the Civil Air Regulations to exempt applicants from the aeronautical knowledge requirement on the grounds that it is not a prerequisite to the operation of a hot-air balloon. The Board also exempted such applicants from any experience or skill requirements on the grounds that such requirements are inconsistent with the operating limitations of hot-air balloons.

Section 602(b) of the Federal Aviation Act of 1958 provides for the issuance of an airman certificate to any person who applies for it, if the Administrator of the Federal Aviation Agency finds, upon investigation, that such person is properly qualified for the certificate sought. Until recently each ascent of a hot-air balloon was necessarily of short duration; when the heated air cooled, the balloon descended. A new development for hot-air balloons provides a gas-fired heater to generate hot air as needed and hot-air balloons using this device can now ascend and descend at the operator's will, and can remain aloft as long as there is fuel for the heater. A substantial change is thus brought about in the operation of such balloons. Consequently, it is the opinion of the Agency that the operation of a hot-air balloon now requires a demonstration of skill by the applicant to assure his use of safe and proper piloting technique. It is, therefore, proposed herein to require an applicant for a free balloon pilot certificate, limited to hot-air balloons, to possess a reasonable degree of skill in their operation.

This would be accomplished by amending the introductory paragraph of section 22.13 to include a reference to paragraph (h) among the requirements for a free balloon pilot certificate limited to the operation of hot-air balloons. In addition, in order to avoid placing a hardship on the holder of a lighter-than-air student pilot certificate who seeks a hot-air balloon certificate, it would be necessary to also amend § 22.31 (a)(1)(ii) to omit the six instruction flights now required for endorsement of his certificate for solo in free balloons.

In consideration of the foregoing, it is proposed to amend Part 22 of the Civil Air Regulations as follows:

1. By amending the introductory paragraph of § 22.13 to read as follows:

§ 22.13 **Free balloon pilot certificate.**

An applicant for a free balloon pilot certificate shall comply with the requirements of paragraphs (a) through (h) of this section. An applicant for a free balloon pilot certificate which is limited to the operation of hot-air balloons shall comply only with the requirements of paragraphs (a) through (e), and paragraph (h) of this section.

2. By amending § 22.31(a)(1)(ii) to read as follows:

§ 22.31 **Flight limitations and privileges.**

(a) * * *
(1) * * *
(ii) He shall have had a minimum of six instruction flights of not less than one hour duration each in free balloons and such fact has been certified to by his instructor on his student pilot certificate: *Provided*, That such instruction flights are not required in order to solo a hot-air balloon.

These amendments are proposed under the authority of sections 313(a), 601, 602 of the Federal Aviation Act of 1958 (72 Stat. 752, 775, 776; 49 U.S.C. 1354(a), 1421, 1422).

Issued in Washington, D.C., on February 7, 1962.

GEORGE C. PRILL,
Director, Flight Standards Service.

[F.R. Doc. 62-1455; Filed, Feb. 13, 1962; 8:45 a.m.]

[14 CFR Part 514]

[Reg. Docket No. 1071]

TECHNICAL STANDARD ORDERS FOR AIRCRAFT MATERIALS PARTS, PROCESSES, AND APPLIANCES

Notice of Proposed Rule Making

Pursuant to the authority delegated to me by the Administrator (14 CFR Part 405) notice is hereby given that the Federal Aviation Agency has under consideration a proposal to amend Part 514 of the regulations of the Administrator by adopting a new Technical Standard Order. This Technical Standard Order would establish minimum performance standards for approved airborne ATC transponder equipment which is to be used on civil air carrier aircraft of the United States.

Interested persons may participate in the making of the proposed rule by submitting such written data, views or arguments as they may desire. Communications should be submitted in duplicate to the Docket Section of the Federal Aviation Agency, Room B-316, 1711 New York Avenue NW., Washington 25, D.C. All communications received on or before April 2, 1962, will be considered by the Administrator before taking action on the proposed rule. The proposals contained in this notice may be changed in light of the comments received. All comments submitted will be available, in the Docket Section, for examination by interested persons when the prescribed date for return of comments has

expired. This proposal will not be given further publication as a draft release.

This amendment is proposed under the authority of sections 313(a) and 601 of the Federal Aviation Act of 1958 (72 Stat. 752, 775; 49 U.S.C. 1354(a), 1421).

In consideration of the foregoing it is proposed to amend Part 514 as follows:

By adding the following § 514.80:

§ 514.80 Airborne ATC transponder equipment (for air carrier aircraft)—TSO–C74.

(a) *Applicability*—(1) *Minimum performance standards.* Minimum performance standards are hereby established for airborne ATC transponder equipment which is to be used on civil aircraft of the United States engaged in air carrier operations. New models of airborne ATC transponder equipment manufactured for use on civil air carrier aircraft on or after the effective date of this section shall meet the standards as set forth in Radio Technical Commission for Aeronautics Papers 181–61/DO–112[1] dated December 14, 1961, and 120–61/DO–108[1] dated July 13, 1961, with the exceptions to these standards listed in subparagraph (2) of this paragraph.

(2) *Exceptions.* Radio Technical Commission for Aeronautics Paper 120–61/DO–108 outlines various test procedures with categories which define the environmental extremes over which the equipment is designed to operate. Only equipment which meets the operating requirements of the following categories as specified in RTCA Paper 120–61/DO–108 is eligible under this order:

(i) Temperature-Altitude Test—Categories A, B, C, or D.

(ii) Humidity Test—Categories A or B.

(iii) Vibration Test—Categories A, B, C, D, E, or F.

(iv) Conducted Audio-Frequency Susceptibility Test—Categories A or B.

(v) Radio-Frequency Susceptibility Test—Category A.

(vi) Emission of Spurious Radio-Frequency Energy Test—Category A.

(b) *Marking.* (1) In addition to the markings specified in § 514.3, the equipment shall be marked to indicate the environmental extremes over which it has been designed to operate. There are seven environmental test procedures outlined in RTCA Paper 120–61/DO–108 which have categories established. These shall be identified on the nameplate by the words "environmental categories" or, as abbreviated, "Env. Cat." followed by seven letters which identify the categories designated in RTCA Paper 120–61/DO–108. Reading from left to right, the category designations shall appear on the nameplate in the following order, so that they may be readily identified:

(i) Temperature-Altitude Test Category.

(ii) Humidity Test Category.

(iii) Vibration Test Category.

(iv) Conducted Audio-Frequency Susceptibility Test Category.

(v) Radio-Frequency Susceptibility Test Category.

(vi) Emission of Spurious Radio-Frequency Energy Test Category.

(vii) Explosion Test.

Equipment which meets the explosion test requirement shall be identified by the letter "E". Equipment which does not meet the explosion test requirement shall be identified by the letter "X".

(2) Equipment which is intended for installation in aircraft which operate at altitudes above 15,000 feet shall be identified on the nameplate as Class 1 equipment.

(3) Equipment which is intended for installation in aircraft which operate at altitudes not exceeding 15,000 feet shall be identified on the nameplate as Class II equipment.

(4) Each major component of equipment (antenna, power supply, etc.) shall be identified with at least the manufacturer's name, TSO number, and the environmental categories over which the equipment is designed to operate.

NOTE: A typical nameplate identification would be as follows:

Env. Cat. DABAAAX
Class I

(c) *Data requirements.* (1) The manufacturer shall maintain a current file of complete design data.

(2) The manufacturer shall maintain a current file of complete data describing the inspection and test procedures applicable to his product. (See paragraph (d) of this section.)

(3) Six copies each, except where noted, of the following shall be furnished to the Chief, Engineering and Manufacturing Division, Flight Standards Service, Federal Aviation Agency, Washington 25, D.C.

(i) Manufacturer's operating instructions and equipment limitations.

(ii) Installation procedures with applicable schematic drawings, wiring diagrams, and specifications. Indicate any limitations, restrictions, or other conditions pertinent to installation.

(iii) One copy of the manufacturer's test report.

(d) *Quality control.* Airborne ATC transponder equipment shall be produced under a quality control system, established by the manufacturer, which will assure that each equipment is in conformity with the requirements of this section and is in a condition for safe operation. This system shall be described in the data required under paragraph (c) (2) of this section. A representative of the Administrator shall be permitted to make such inspections and tests at the manufacturer's facility as may be necessary to determine compliance with the requirements of this section.

(e) *Previously approved equipment.* Airborne ATC transponder equipment approved prior to the effective date of this section may continue to be manufactured under the provisions of its original approval.

Issued in Washington, D.C., on February 6, 1962.

GEORGE C. PRILL,
Director,
Flight Standards Service.

[F.R. Doc. 62–1456; Filed, Feb. 13, 1962; 8:45 a.m.]

[1] Copies of these papers may be obtained from the RTCA Secretariat, Room 1072, T–5 Building, 16th and Constitution Avenue NW., Washington 25, D.C., Paper 181–61/DO–112, 55 cents per copy; Paper 120–61/DO–108, 75 cents per copy.

[14 CFR Part 601]

[Airspace Docket No. 61–SW–111]

CONTROLLED AIRSPACE

Proposed Alteration of Control Zone

Pursuant to the authority delegated to me by the Administrator (14 CFR 600.13), notice is hereby given that the Federal Aviation Agency (FAA) is considering an amendment to § 601.2026 of the regulations of the Administrator, the substance of which is stated below.

The Brownsville, Tex., control zone is presently designated as that airspace over United States territory, within a 5-mile radius of Rio Grande Valley International Airport, Brownsville, Tex., within 2 miles either side of the northwest course of the Brownsville radio range extending from the range station to the Los Fresnos fan marker and within 2 miles either side of the 072° True radial of the Brownsville VOR extending from the VOR to 10 miles northeast.

The Federal Aviation Agency has under consideration the alteration of the Brownsville control zone as follows:

1. Redescribe the extension based on the northwest course of the Brownsville radio range to base it on the 343° True bearing from the Brownsville radio beacon and revoke that portion beyond 8 miles northwest of the radio beacon. This action is necessitated by the impending conversion of the radio range to a radio beacon and the discontinuance of the Los Fresnos fan marker. This would provide protection for aircraft executing the proposed ADF instrument approach procedure based on the Brownsville radio beacon. The portion of the present control zone extension proposed for revocation would no longer be required with the revision of instrument approach procedures proposed.

2. Designate a control zone extension 2 miles either side of the ILS localizer north course extending from the 5-mile radius zone to 8 miles north of the ILS outer marker. This would provide protection for aircraft executing the prescribed ILS instrument approach procedure.

3. Alter the control zone extension based on the Brownsville VOR 072° True radial by basing it on the Brownsville VOR 071° True radial and revoke that portion beyond 8 miles east of the VOR. This alteration would align the control zone extension with the VOR instrument approach procedure final approach course and would provide protection for aircraft executing the prescribed VOR instrument approach procedure proposed for revision concurrently with this action.

If these actions are taken, the Brownsville, Tex., control zone would be designated within a 5-mile radius of the Rio Grande Valley International Airport, Brownsville, Tex., (latitude 25°54'31" N., longitude 97°25'28" W.); within 2 miles either side of the Brownsville radio beacon 343° True bearing extending from the 5-mile radius zone to 8 miles northwest of the Brownsville radio beacon; within 2 miles either side of the ILS localizer north course extending from the 5-mile radius zone to 8 miles north of the ILS outer marker; and within 2 miles either side of the Brownsville VOR 071° True radial extending from the 5-mile radius zone to 8 miles east of the Brownsville VOR, excluding the portion outside the United States.

Interested persons may submit such written data, views, or arguments as they may desire. Communications should be submitted in triplicate to the Assistant Administrator, Southwest Region, Attn: Chief, Air Traffic Division, Federal Aviation Agency, P.O. Box 1689, Fort Worth 1, Tex. All communications received within forty-five days after publication of this notice in the FEDERAL REGISTER will be considered before action is taken on the proposed amendment. No public hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Agency officials may be made by contacting the Regional Air Traffic Division Chief, or the Chief, Airspace Utilization Division, Federal Aviation Agency, Washington 25, D.C. Any data, views or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

The official Docket will be available for examination by interested persons at the Docket Section, Federal Aviation Agency, Room C–226, 1711 New York Avenue NW., Washington 25, D.C. An informal Docket will also be available for examination at the office of the Regional Air Traffic Division Chief.

This amendment is proposed under section 307(a) of the Federal Aviation Act of 1958 (72 Stat. 749; 49 U.S.C. 1348).

Issued in Washington, D.C., on February 7, 1962.

CLIFFORD P. BURTON,
Acting Chief,
Airspace Utilization Division.

[F.R. Doc. 62–1454; Filed, Feb. 13, 1962; 8:45 a.m.]

FEDERAL COMMUNICATIONS COMMISSION

[47 CFR Part 11]

[Docket No. 14500; FCC 62–125]

INDUSTRIAL RADIO SERVICES

Frequency Stability; Notice of Proposed Rule Making

In the matter of amendment of § 11.102 (a) of the Commission's rules governing the Industrial Radio Services to align that Section with the Geneva (1959) Radio Regulations, and to effect certain editorial changes therein.

1. Notice is hereby given of proposed rule-making in the above-entitled matter.

2. This proceeding is being instituted by the Commission in order to obtain the views and comments of interested persons with regard to the following proposal:

A reduction in the frequency tolerance of Base and Fixed station transmitters operating in the Industrial Radio Services on frequencies below 25 Mc/s, with a transmitter input power in excess of 300 watts from 0.01 percent to 0.005 percent of the station's assigned frequency. (§ 11.102(a)).

This proposal has been occasioned by the recent ratification, by the President of the United States on October 4th, 1961, of the new International Radio Regulations (hereinafter referred to as the Geneva (1959) Radio Regulations).

3. Our proposal in this proceeding relates to a change in the allowable percentage of frequency tolerance insofar as all Base and Fixed Station transmitters operating on frequencies below 25 Mc/s, at more than 300 watts transmitter input power, in the industrial Radio Services are concerned. Presently, pursuant to § 11.102(a) of our Industrial Radio Services rules, a licensee, operating as noted above, must maintain the carrier frequency of his transmitter within 0.01 per cent of his assigned frequency. The Geneva (1959) Radio Regulations however, provide that the allowable tolerance shall be within 0.005 per cent of the assigned frequency. In this proceeding we are proposing that § 11.102 (a) be amended to reflect the 0.005 per cent tolerance agreed upon and adopted at Geneva. In the Commission's view the present state of the radio art fully justifies the tightening, so to speak, of this frequency tolerance.

4. There remains for consideration the question of the time to be allowed licensees to comply with the new tolerence in the event the Commission's proposal is eventually adopted and the rule amendment ordered. A survey of our license records indicates that very few existing licensees will be affected. In view of this fact, we are proposing that these licensees be given ninety (90) days within which to comply. In short, 90 days subsequent to the effective date of the rule amendment (which is ordinarily calculated at 30 days subsequent to publication of the rule amendment in the FEDERAL REGISTER) all existing licensees would have to be in compliance with the new tolerance. New systems would be required to comply upon the effective date of the amendment.

5. In addition to the above-noted substantive change in § 11.102(a) certain minor editorial changes are proposed. As amended, the table in § 11.102(a) would appear as noted below.

6. Authority for the proposed amendments is contained in sections 303 and 4 (i) of the Communications Act of 1934, as amended.

7. Pursuant to applicable procedures set forth in § 1.213 of the Commission's rules, interested persons may file comments on or before March 16, 1962, and reply comments on or before March 26, 1962. All relevant and timely comments and reply comments will be considered by the Commission before final action is taken in this proceeding. In reaching its decision in this proceeding, the Commission may also take into account other relevant information before it, in addition to the specific comments invited by this notice.

8. In accordance with the provisions of § 1.54 of the Commission's rules an original and 14 copies of all statements, briefs, or comments shall be furnished the Commission.

Adopted: February 6, 1962.

Released: February 9, 1962.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] BEN F. WAPLE,
Acting Secretary.

Part 11, Industrial Radio Services, is amended as follows: The table in § 11.102(a) is amended to read as follows:

§ 11.102 Frequency stability.

(a) • • •

Frequency range	Fixed and base stations		Mobile stations	
	Transmitter (Input) Power			
	Over 300 watts	300 watts or less	Over 3 watts	3 watts or less
	Percent	*Percent*	*Percent*	*Percent*
Below 25 Mc/s	0.005	0.01	0.01	0.02
25 to 50 Mc/s	.002	.002	.002	.005
50 to 1000 Mc/s	.0005	.0005	.0005	.005
Above 1000 Mc/s	(1)	(1)	(1)	(1)

[1] For microwave fixed equipment, see § 11.111. For other equipment, tolerances will be specified in the station authorization.

[F.R. Doc. 62–1516; Filed, Feb. 13, 1962; 8:52 a.m.]

[47 CFR Part 11]

POWER, PETROLEUM, AND FOREST PRODUCTS RADIO SERVICES

Certain Frequencies; Notice of Proposed Rule Making

In the matter of amendment of Part 11, Subparts F, G, and H, of the Commission's rules, to effect certain changes in the availability of certain frequencies in the Power, Petroleum, and Forest Products, Radio Services; Docket No. 14502, RM–166; amendment of Parts 2 and 11 of the Commission's rules so as to allocate additional 152–162 Mc/s and 450–470 Mc/s band frequencies to the Power Radio Service, RM–184.

1. Notice is hereby given of proposed rule making in the above-entitled matter.

2. The inception of this proceeding may be traced to two petitions for rules amendments filed by the National Committee for Utilities Radio (hereinafter NCUR) on February 19, 1960 (and Ad-

denum, July 29, 1960) (RM–166) and on June 7, 1960 (and Addenum, November 21, 1960) (RM–184). The first of the two petitions requests the allocation of additional mobile service frequencies from within the 152–162 Mc/s band to the Power Radio Service for use in the States of Arkansas, Louisiana, Oklahoma, Oregon, Texas and Washington. The second petition requests allocation to the Power Radio Service of additional mobile service frequencies from within the 152–162 Mc/s and 450–470 Mc/s bands on a nationwide or unlimited geographic basis.

3. In support of its petitions the NCUR has cited frequency congestion, as evidenced by channel loading; and projected heavy use of high band frequencies in the not too distant future.

4. Specific designation of particular and assignable frequencies within the 152–162 and 450–470 Mc/s bands was avoided by the NCUR "* * * Because NCUR does not have available to it the vast amount of information on frequency requirements of other users which is available to the Commission, (and therefore) NCUR does not suggest where the requested frequencies will be secured; but rather, leaves this matter for the Commission's discretion."

5. We consider first the NCUR's petition for more frequencies in the states of Arkansas, Louisiana, Oklahoma, Oregon, Texas, and Washington, or to be more specific, we confine our consideration to the States of Oregon and Washington where the frequency scarcity problem has been characterized as particularly acute. Assuming that this characterization is generally valid, the Commission is disposed to propose as follows: That 7 certain frequencies from within the 153, and 158 Mc/s bands, specifically the frequencies 153.44, 153.50, 153.56, 153.62, 153.68, 158.16, and 158.22 all Mc/s, be assigned for the use of the Power Radio Service in the states of Oregon and Washington; and concurrently that these 7 frequencies be withdrawn from the Forest Products and Petroleum Radio Services use in the two states noted.

6. The frequencies which constitute the subject matter of our proposal are "secondary" or "split" channels which became available, and were in fact assigned to Radio Services; as an outcome of our rule making proceeding in 1957–58 in Docket No. 11991. In 1958 the Commission was sufficiently impressed with the then alleged and presumed need of the Forest Products, Petroleum, and Power Radio Services to allocate the subject secondary frequencies to all three services on a geographical shared basis. Thus, the Forest Products and Petroleum Services were granted the privilege of using these frequencies in the six states of heaviest forestry and petroleum activities while the Power Radio Service was given access to the channels in the other 42 of the then 48 states.

7. A recent study of frequency assignments in the States of Oregon and Washington reveals that the Forest Products and Petroleum Radio Services have made scant use of the subject frequencies. In contrast, many new authorizations have been issued, particularly in the Forest Products Radio Service, on the "old" or primary 153 Mc/s frequencies which were assigned to this Service prior to 1958 and of course, since 1958. It appears therefore that a definite preference for the "old" primary frequencies has been demonstrated. We attribute the reluctance of the Forest Products and Petroleum Radio Services to use these frequencies to the fact that the frequencies involved are secondary ones, falling between primary frequencies which have, for many years, been very heavily used by Power Radio Service licensees. Further, the nature of Forest Products operations in the two states under consideration frequently dictates a need for "low band" assignments. The Commission is aware of this requirement and is not unmindful of the need.

8. Because of the scant utilization, by Petroleum and Forest Products Radio Service licensees, of the subject frequencies in the two states involved, and the fact that Power Radio Service licensees are presently operating on these frequencies elsewhere, we propose to re-assign these, rather than other frequencies, to the Power Radio Service. Moreover, by specifying the seven frequencies noted above, it appears that no unreasonable disruption of communications or adverse impact will be realized or sustained by presently operating Petroleum and Forest Products licensees. These licensees may re-locate, by mid 1967, in band, at at a relatively low cost. In the Commission's judgment, retention of these 7 frequencies by the Petroleum and Forest Products Radio Services in the two states concerned would maintain an inefficient and wasteful use of desirable spectrum space. Under the terms of the rule amendment we propose, at the effective date of the amendment, no new assignments on the subject frequencies would be made to Forest Products or Petroleum Radio Service licensees in the States of Oregon or Washington. Moreover, licensees in these 2 services presently operating on any of the subject frequencies would be required to vacate their assignments by June 30, 1967. This provides a most liberal 5 year equipment amortization or in-band changeover period for affected licensees, assuming favorable final Commission action on this proposal early in 1962. Upon the effective date of the amendment, the 7 frequencies involved would become immediately available for assignment to Power Service eligibles in Oregon and Washington.

9. Insofar as Power Service needs in the other 4 states enumerated by the NCUR are concerned, we defer consideration. At a later date, upon completion of our study and analysis of the frequency situation in Arkansas, Louisiana, Oklahoma and Texas, our views will be made known.

10. There remains for disposition the second of the NCUR's petitions which pertains to the request for assignment of additional frequencies from the 152–162 and 450–470 Mc/s bands on a nationwide basis. The Commission is not persuaded that the frequency needs of the Power Radio Service across the nation are so critical as to warrant the institution of proceedings at this time which look toward the allocation of more frequencies from the 152–162 Mc/s band. In this connection we point out that the NCUR petition is somewhat repetitious of the requests made by the NCUR in our proceeding in Docket 11997 (22 F.R. 2684 April 17, 1957). That proceeding is still in progress. At such time as we are disposed to conclude Docket 11997, the Power Radio Service's needs in the 152–162 Mc/s band will be considered.

11. In the 450–470 Mc/s band, a recent survey of Power Radio Service assignments indicates reasonably good utilization when compared to some other radio services, but very light loading when compared to that which obtains in the 150 Mc/s region. If congestion does pervade Power Radio Service usage of frequencies from within this band, it is ostensibly the result of occupancy of mobile frequencies by fixed stations. Long established Commission policy permits fixed station operation in these bands only so long as that operation does not inhibit normal growth of the land mobile service. The occupancy or use revealed by our survey does not justify a further allocation to the Power Radio Service for mobile operation beyond that which may result from considerations in our proceeding in Docket Number 13847 (25 F.R. 11010, November 18, 1960).

12. In view of the foregoing, the NCUR petition dated February 19, 1960 (RM–166) and its Addendum, is granted to the extent indicated in our proposal herein and denied in all other respects; and the NCUR petition dated June 7, 1960 (RM–184) and its Addendum is denied.

13. The amendments below are issued under the authority contained in section 303 (c), (f), and (r) of the Communications Act of 1934, as amended.

14. Pursuant to applicable procedures set forth in § 1.213 of the Commission's rules, interested persons may file comments on or before April 2, 1962, and reply comments on or before April 16, 1962. All relevant and timely comments and reply comments will be considered by the Commission before final action is taken in this proceeding. In reaching its decision in this proceeding, the Commission may also take into account other relevant information before it, in addition to the specific comments invited by this notice.

15. In accordance with the provisions of § 1.54 of the Commission's rules, an original and 14 copies of all statements, briefs, or comments filed shall be furnished the Commission.

Adopted: February 6, 1962.

Released: February 9, 1962.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] BEN F. WAPLE,
Acting Secretary.

Part 11, Industrial Radio Services, is amended as follows:

1. In § 11.254, the table in paragraph (a) is amended by changing limitation designator 11 to 12, in column 3 for the frequencies 173.25, 173.30, and 173.35; paragraph (b)(11) is amended; and a new paragraph (b)(12) is added as follows:

§ 11.254 Frequencies available.

* * * * *

(b) * * *

(11) This frequency is not available for assignment in the States of Arkansas, Louisiana, Oklahoma, and Texas.

(12) This frequency is not available for assignment in the States of Arkansas, Louisiana, Oklahoma, Oregon Texas, and Washington.

2. In § 11.304, the table in paragraph (a) is amended by changing limitation designator "9, 10" to "10, 15" in column 3 for the frequencies 173.25, 173.30, and 173.35; paragraph (b)(9) is amended; and a new paragraph (b)(15) is added, as follows:

§ 11.304 Frequencies available.

* * * * *

(b) * * *

(9) This frequency is available for assignment only in the States of Arkansas, Louisiana, Oklahoma, and Texas. All licensees in this service who operate on this frequency in the States of Oregon and Washington will be required to vacate this frequency assignment by June 30, 1967.

* * * * *

(15) This frequency is available for assignment only in the States of Arkansas, Louisiana, Oklahoma, Oregon, Texas, and Washington.

3. In § 11.354, the table in paragraph (a) is amended by changing limitation designator "9, 11" to "11, 16" in column 3 for the frequencies 173.25, 173.30, and 173.35; paragraph (b)(9) is amended; and a new paragraph (b)(16) is added, as follows:

§ 11.354 Frequencies available.

* * * * *

(b) * * *

(9) This frequency is available for assignment only in the States of Arkansas, Louisiana, Oklahoma, and Texas. All licensees in this Service who operate on this frequency in the States of Oregon and Washington will be required to vacate this frequency assignment by June 30, 1967.

* * * * *

(16) This frequency is available for assignment only in the States of Arkansas, Louisiana, Oklahoma, Oregon, Texas, and Washington.

[47 CFR Part 16]

[Docket No. 14501; FCC 62-126]

LAND TRANSPORTATION RADIO SERVICES

Eligibility in the Automobile Emergency Radio Service; Notice of Proposed Rule Making

1. Notice is hereby given of proposed rule-making in the above-entitled matter.

2. The present rules governing the Automobile Emergency Radio Service provide that, in addition to automobile clubs (associations of owners of private automobiles) which provide private emergency road service to their members, public garages which operate emergency road service vehicles may be licensed in that service. It appears that a need has developed to provide communications for towing trucks, not necessarily operated by public garages, which render emergency road service to vehicles of the general public. It also appears that radio-communication will substantially improve emergency road service which is provided regularly to vehicles of the general public by other persons, such as gasoline service stations which do not engage in major repair work but which operate emergency road service vehicles to provide battery, gasoline or tire service to disabled vehicles needing such service. Since the Commission in establishing the Automobile Emergency Radio Service in May 1949 as part of the proceedings in Docket No. 9047, stated that "the service is designed to expedite the rapid dispatch of emergency road service vehicles in order to improve the efficiency of private vehicular transportation", it appears that the broadening of the eligibility in that service to include such operations would be consistent with the intended purpose of the service.

3. On the basis of the foregoing, the Commission proposes to amend its rules governing the Automobile Emergency Radio Service to provide that any person who is engaged in providing to the general public any form of emergency road service to disabled vehicles will be eligible in that service without regard to whether or not that person operates a public garage. To accomplish this, amendments are proposed hereby to §§ 16.6(a), 16.501(a), 16.502(b), 16.503 (a) and 16.503(d) of Part 16 of the Commission's rules, Land Transportation Radio Services.

4. The proposed amendments, which are set forth in full below, are issued under the authority contained in sections 4(i) and 303 of the Communications Act of 1934, as amended.

5. Pursuant to applicable procedures set forth in § 1.213 of the Commission's rules, interested persons may file comments on or before March 30, 1962, and reply comments on or before April 16, 1962. All relevant and timely comments and reply comments will be considered by the Commission before final action is taken in this proceeding. In reaching its decision in this proceeding, the Commission may also take into account other relevant information before it, in addition to the specific comments invited by this notice.

6. In accordance with the provisions of § 1.54 of the Commission's rules, an original and 14 copies of all statements, briefs, or comments filed shall be furnished the Commission.

Adopted: February 6, 1962.

Released: February 9, 1962.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] BEN F. WAPLE,
Acting Secretary.

Proposed Amendments to Part 16, Land Transportation Radio Service:

1. The definition "Automobile Emergency Radio Service" in § 16.6(a) is proposed to be amended to read as follows:

§ 16.6 Definition of terms.

* * * * *

(a) Definition of services:

Automobile Emergency Radio Service. The term "Automobile Emergency Radio Service" as used in this part means a radiocommunication service for use in connection with the dispatching of emergency road service vehicles for the purpose of being of assistance to disabled automotive vehicles used on streets or highways.

2. Section 16.501(a) is proposed to be amended to read as follows:

§ 16.501 Eligibility.

(a) The following persons are eligible to hold authorizations to operate radio stations in the Automobile Emergency Radio Service:

(1) Associations of owners of private automobiles which provide a private emergency road service for disabled vehicles.

(2) Persons providing to the general public an emergency road service for disabled vehicles.

(3) A non-profit corporation or association organized for the purpose of furnishing a radiocommunication service solely to persons who are actually engaged in the activities set forth in either subparagraph (1) or subparagraph (2) of this paragraph.

3. Section 16.502(b) is proposed to be amended to read as follows:

§ 16.502 Permissible communications.

* * * * *

(b) Communications required for dispatching repair trucks, towing trucks, or other road service vehicles to disabled vehicles.

4. In § 16.503, the texts of paragraphs (a) and (d) preceding the tables, are proposed to be amended to read as follows:

§ 16.503 Frequencies available for base and mobile stations.

(a) The following frequencies are available for assignment to base stations and mobile stations, other than those aboard aircraft, which are operated by or on behalf of persons who provide to the general public an emergency radio service for disabled vehicles: *Provided,* That only one of these frequencies shall be assigned to the stations of any licensee operating in a given area:

* * * * *

(d) The following frequencies are available for assignment to base stations and mobile stations, other than those aboard aircraft, which are operated by or on behalf of persons who provide to the general public an emergency road service for disabled vehicles: *Provided,* That only one of these frequencies shall be assigned to the stations of any licensee operating in a given area: *And provided further,* That the equipment to be used shall immediately meet the technical

standard which become generally effective November 1, 1963:

FEDERAL POWER COMMISSION

[18 CFR Part 2]

[Docket No. R-168]

NONACCEPTABILITY OF RATE FILINGS BASED ON STATE-PRESCRIBED MINIMUM PRICES

Order Terminating Proceeding

FEBRUARY 7, 1962.

In Cities Services Gas Company v. State Corporation Commission of Kansas, 355 U.S. 391, a 1958 per curiam opinion vacating a judgment of the Supreme Court of Kansas, the United States Supreme Court held, in effect, that the State of Kansas could not lawfully fix a minimum price at the wellhead for natural gas sold in interstate commerce for resale. The decision was based on the authority of Phillips Petroleum Company v. Wisconsin, 347 U.S. 672, and Natural Gas Pipeline Company v. Panoma, 349 U.S. 44. A week later the Court, citing Cities Service, reversed a decision of the Supreme Court of Oklahoma, which had applied the holding in the Panoma case, supra, to sales of residue gas but not to sales at or near the wellhead. Michigan Wisconsin Pipe Line Company v. Corporation Commission of Oklahoma, 355 U.S. 425 (1958).

In the above-entitled proceeding the Commission has under consideration proposed rulemaking that would amend its general rules to provide for rejection of any tender for filing pursuant to section 4 of the Natural Gas Act to the extent that such filing is based upon a state-prescribed or attributed minimum price. The Commission also has under consideration herein certain questions which the above decisions of the Supreme Court appear to raise with respect to rate filings previously made under section 4 of the Natural Gas Act.

Notice of the proposed rulemaking involved herein was issued on April 28, 1958, and published in the FEDERAL REGISTER on May 2, 1958 (23 F.R. 2973). In giving notice of the proposed rulemaking, the Commission invited all interested parties to submit data, views, and comments in writing concerning such rulemaking. In addition, interested persons were afforded an opportunity to present their views in oral argument before the Commission on July 29, 1958.

We believe that at this late date a rulemaking proceeding would be a cumbersome and inappropriate means by which to exercise our jurisdiction over the matters involved herein. Such matters can more conveniently be decided when properly raised in individual proceedings before us. We recognize, moreover, that a buyer of natural gas who has paid seller on the basis of a state minimum price law has an adequate remedy in an appropriate court in the event that his contract entitles him to a refund as a result of the invalidity of the state minimum price laws.[1] Furthermore, with respect to future rate filings the question appears to be moot, for to the best of our knowledge there are no longer any state minimum price laws in effect. We conclude therefore, that the above-entitled proceeding should be terminated.

The Commission finds: The proceeding in Docket No. R-168 should be terminated.

The Commission orders: The proceeding in Docket No. R-168 is hereby terminated.

By the Commission.

[SEAL] JOSEPH H. GUTRIDE, *Secretary.*

[F.R. Doc. 62-1463; Filed, Feb. 13, 1962; 8:46 a.m.]

SECURITIES AND EXCHANGE COMMISSION

[17 CFR Part 239]

REGISTRATION STATEMENTS

Proposed Forms

Notice is hereby given that the Securities and Exchange Commission has under consideration certain proposed amendments to Form S-8 which is the form authorized for use in registering securities to be offered pursuant to certain stock purchases, savings or similar plans under the Securities Act of 1933, and for registering the interests in such plans where such registration is required, and to 17 CFR 239.16b which lists and described Form S-8.

It is proposed to amend Form S-8 in the following respects:

The language of the rule as to the use of the form would be simplified and clarified. The transmittal of annual reports and other material to employees would be required by undertakings set forth at the end of the form and the provisions making such transmittal conditions to the use of the form would be deleted.

General Instruction E which defines the term "transactions within one year" as previously used in the third clause of section 4(1) of the Securities Act would be amended to define the term "transactions prior to the expiration of 40 days", which is the present language of the statute.

Item 3 of the form would be amended to eliminate from that item certain data which would be called for as a part of the financial statements of the plan.

The Commission has under consideration a proposed amendment to Regulation S-X which would prescribe the form and content of financial statements filed for employee stock purchase, savings and similar plans. It is proposed to add a new Item 18 to Form S-8 to specify the financial statements to be filed for such plans as a part of registration statements on that form and to provide that such statements shall comply with the proposed new provisions of Regulation S-X (17 CFR Part 210).

It is proposed to change the reference to "equity securities" in various places in the form to "securities". The effect of this change would be to make the form available for use in certain cases where securities other than equity securities are to be offered to employees pursuant to the plan.

The last paragraph of the form relates to identifying statements required by Rule 414. It is proposed to delete this paragraph since Rule 414 is no longer in effect.

The text of the proposed amendments to the form is set forth below:

I. The rule as to the use of the form would be amended to read as follows:

A. *Rule as to use of Form S-8.* (a) Any issuer which files reports pursuant to section 13 or 15(d) of the Securities Exchange Act of 1934 may use this form for registration under the Securities Act of 1933 of securities to be offered to employees of such issuer of its subsidiaries pursuant to a stock purchase, savings or similar plan, provided the plan meets the following conditions:

(1) Periodic cash payments are made, or periodic payroll deductions are authorized, by participating employees in an amount not to exceed a specified percentage of the employee's compensations or a specified maximum annual amount;

(2) Contributions are made by the employer at least annually in cash, securities of the issuer or other substantial benefits, in accordance with a specified formula or arrangement;

(3) Securities purchased with funds of the plan are acquired in amounts which, at the time of the payment of the purchase price, do not exceed the funds deposited or otherwise available for such payment: *Provided*, That such purchases are made periodically, or from time to time upon a reasonably current basis, and at prices not in excess of the current market price at the time of purchase;

(4) Prior to the time the employee becomes entitled to withdraw all funds or securities allocable to his account, he may withdraw at least that portion of the cash and securities in his account representing his contributions.

(b) If interests in the plan constitute securities and are required to be registered under the Act, this form may also be used for registration of such interests.

II. Instruction E of the General Instructions to the form would be amended to read as follows:

E. *Definition of transaction prior to the expiration of forty days.* The term "transactions prior to the expiration of forty days" wherever used in the third clause of section 4(1) of the Securities Act of 1933 is hereby defined not to include transactions by a dealer in securities of the issuer registered on this form.

III. Item 3 would be amended to read as follows:

[1] Pan American Petroleum Corp. v. Superior Court of Delaware For New Castle County et al., 366 U.S. 656 (1961).

Item 3. Contributions under the plan. (a) State the amount each employee is required or permitted to contribute or, if not a fixed amount, the percentage of wages or salaries or other basis of computing contributions. State when and the manner in which contributions are made.

(b) State when contributions are made by the employers and the amount and nature of each contribution or, if not a fixed amount, the basis of computing contributions.

(c) State as of the latest practicable date the approximate number or participating employees of each employer who participates in the plan.

(d) State the nature and frequency of any reports to participating employees as to the amount and status of their accounts.

IV. A new Item 18 would be added reading as follows:

Item 18. Financial statements of the plan. (a) The following financial statements shall be furnished for any plan the interests in which are being registered hereunder.

(1) A certified statement of financial condition as of the end of the latest fiscal year of the plan.

(2) A certified statement of income and changes in plan equity for the latest fiscal year of the plan.

(b) If certified financial statements substantially meeting the above requirements have been furnished to all employees who receive a copy of the prospectus, such statements may be incorporated by reference in the prospectus.

Instructions. The statements required by this item shall be prepared and certified in accordance with the applicable provisions of Regulation S-X (17 CFR Part 210) and shall be accompanied by the schedules specified in that regulation.

V. Under the heading "Undertakings" a new form of undertaking would be inserted, following paragraph B, reading as follows:

C. *To transmit annual report with prospectus.* The undersigned issuer of the securities to be registered hereunder hereby undertakes to deliver or cause to be delivered with the prospectus to each eligible employee a copy of the issuer's annual report to stockholders for its last fiscal year, unless such employee otherwise receives a copy of such report. If the last fiscal year of the issuer has ended within 90 days prior to the use of the prospectus, the annual report for the preceding fiscal year may be so delivered, but in such case the annual report for the last fiscal year will be furnished promptly to each such employee when available.

VI. The word "equity" would be deleted from the form in the following places: the facing page (paragraph B and C and the first note to the fee table); the last sentence of General Instruction B; and Item 18 (caption and text).

VII. The following paragraph set forth at the end of the form would be deleted: "Notwithstanding Rule 414, no form of identifying statement need be filed with the registration statement."

It is further proposed to amend § 239.16b of Title 17 of the Code of Federal Regulations to include the complete amended text of Form S-8, so as to read:

§ 239.16b Form S-8, registration statement under the Securities Act of 1933.

(a) *Identification.* (1) Full title of the plan and the address of the employer sponsoring the plan; (2) Name of issuer of the securities being offered pursuant to the plan and the address of its principal executive office; (3) Name and address of agent for service for the employer and for the issuer of the securities; (4) Approximate date of proposed public offerings.

(b) *Calculation of registration fee.*

Column 1. Title of securities[1] being registered.	
Column 2. Amount[1] being registered.	
Column 3. Proposed maximum aggregate offering price.[2]	
Column 4. Amount of registration fee.[2]	

(c) *General instructions*—(1) *Rule as to use of Form S-8.* (i) Any issuer which files reports pursuant to Section 13 or 15(d) of the Securities Exchange Act of 1934 may use this form for registration under the Securities Act of 1933 of securities to be offered to employees of such issuer of its subsidiaries pursuant to a stock purchase, savings or similar plan, provided the plan meets the following conditions:

(a) Periodic cash payments are made, or periodic payroll deductions are authorized, by participating employees in an amount not to exceed a specified percentage of the employee's compensations or a specified maximum annual amount;

(b) Contributions are made by the employer at least annually in cash, securities of the issuer or other substantial benefits, in accordance with a specified formula or arrangement;

(c) Securities purchased with funds of the plan are acquired in amounts which, at the time of the payment of the purchase price, do not exceed the funds deposited or otherwise available for such payment; provided, that such purchases are made periodically, or from time to time upon a reasonably current basis, and at prices not in excess of the current market price at the time of purchase;

(d) Prior to the time the employee becomes entitled to withdraw all funds or securities allocable to his account, he may withdraw at least that portion of the cash and securities in his account representing his contributions.

(ii) If interests in the plan constitute securities and are required to be registered under the Act, this form may also be used for registration of such interests.

(2) *Application of general rules and regulations.* Before undertaking the preparation of the registration statement, reference should be made to the General Rules and Regulations under the Act, particularly those comprising Regulation C (§§ 230.400 to 230.494 of this chapter). That regulation contains general requirements regarding the preparation and filing of the registration statement. The definitions contained in § 230.405 should be especially noted. For purposes of this form, however, the term "employee" includes any director, trustee, officer or other employee. The term "issuer" as used in this form means the company whose securities are to be offered pursuant to the plan.

(3) *Documents comprising registration statement.* The registration statement shall consist of the facing sheet of the form, the prospectus, the required undertakings, signatures, consents of experts and exhibits and any other information or documents filed as a part of the registration statement.

(4) *Form and content of prospectus.* The prospectus shall contain the information called for by all of the items of the form, except that no reference need be made to inapplicable items, and negative answers to any items may be omitted. The information required should be presented in clear, concise, understandable fashion. Avoid unnecessary and irrelevant details, repetition or the use of unnecessary technical language. None of the other information or documents filed as a part of the registration statement need be included in the prospectus.

(5) *Definition of transaction prior to the expiration of forty days.* The term "transactions prior to the expiration of forty days" wherever used in the third clause of section 4(1) of the Securities Act of 1933 is hereby defined not to include transactions by a dealer in securities of the issuer registered on this form.

(d) *Information required in the prospectus.*

Item (1): General information regarding the plan. (i) Give the title of the plan and the name and address of the issuer and each participating employer. State when the plan was created, the parties thereto and the manner in which it was created. (ii) Describe generally the purposes of the plan.

Item (2): Who may participate in the plan. Indicate each class or group of employees entitled to participate in the plan. State the terms and conditions upon which initial participation by each such class or group is permitted.

Item (3): Contributions under the plan. (i) State the amount each employee is required or permitted to contribute or, if not a fixed amount, the percentage of wages or salaries or other basis of computing contributions. State when and the manner in which contributions are made.

(ii) State when contributions are made by the employers and the amount and nature of each contribution or, if not a fixed amount, the basis of computing contributions.

(iii) State as of the latest practicable date the approximate number or participating employees of each employer who participates in the plan.

(iv) State the nature and frequency of any reports to participating employees as to the amount and status of their accounts.

Item (4): Withdrawal from the plan—assignment of interest. (i) Describe the terms and conditions under which a participating

[1] State separately the interests or participations in the plan and the securities offered pursuant to the plan.

[2] The aggregate offering price and the amount of the fee shall be computed only with respect to the aggregate employee contributions.

employee may (a) withdraw from the plan and terminate his interest therein, or (b) withdraw funds or investments held for his account without terminating his interest in the plan.

(ii) State the nature and amount of all charges or deductions, other than for taxes, which may be made upon the termination of an employee's interest in the plan or upon the partial withdrawal of his account thereunder. Indicate clearly who will receive the amounts so charged or deducted.

(iii) State whether, and the terms and conditions upon which, the plan permits an employee to assign or hypothecate his interest in the plan.

Item (5): Defaults under the plan. State separately every event of default with which a participating employee or employer may be charged and describe fully the consequences thereof, including any forfeiture or penalty which may be thereby incurred.

Item (6): Administration of the plan. (i) Give the name and complete address of the persons who administer the plan and state the capacity in which they act (such as trustees or managers) and the functions which they perform. State the nature of any material relationship between the administrators and the employee, the issuer of its affiliates.

(ii) Describe the manner in which the administrators of the plan are selected, their term of office and the manner in which they may be removed from office.

(iii) State the annual amount of compensation, if any, received by the administrators of the plan from assets of the plan.

Item (7): Investment of funds. (i) If a custodian, administrator or the employer or any of its affiliates has discretion with respect to the investment or disposition of all or any part of the assets of the plan, describe the policies followed and to be followed in respect of the type and proportion of securities or other property in which the assets may be invested.

(ii) If the participating employee may direct or elect a procedure to be followed with respect to the investment or disposition of all or part of the assets of the plan, describe the provisions of the plan with respect thereto.

(iii) If any investments are purchased otherwise than in the open market, state from whom such investments are purchased and describe the charges paid directly or indirectly from funds held under the plan. If the employer or any of its affiliates, or any person having a material relationship with the employer or any of its affiliates, directly or indirectly receives any part of the aggregate purchase price (including fees, commissions or other charges), explain fully.

Item (8): Liens on funds or property. State whether or not under the plan or any contract in connection therewith any person has or may create a lien on any funds, securities or other property held under the plan. If so, describe fully the circumstances under which the lien was or may be created.

Item (9): Termination and extension of the plan. State the circumstances under which the plan will terminate and the conditions under which it may be extended.

Item (10): Other charges and deductions. Describe all charges and deductions, other than taxes, not called for above which may be made against employees participating in the plan or against funds, securities, or other property held under the plan and indicate who will receive, directly or indirectly, any part thereof.

Item (11): Summary of earnings. Furnish in comparative columnar form a summary of earnings of the issuer for each of at least the last five fiscal years of the issuer (or for the life of the issuer and its immediate predecessor, if less). If the issuer includes in its annual report filed pursuant to section 13 or 15(d) of the Securities Exchange Act of 1934 a profit and loss statement of the issuer and its subsidiaries consolidated, the summary of earnings shall be prepared on a consolidated basis. The summary shall be certified for at least the last three fiscal years included therein.

Instructions. 1. The summary shall cover a representative period and, subject to appropriate deviation to correspond to significant characteristics of the issuer, the following items shall be included: net sales or operating revenues; cost of goods sold or operating expenses (or gross profit); interest charges; income taxes; net income; special items; net income and special items. The summary shall reflect the retroactive adjustment of any material items affecting the comparability of the results.

2. Appropriate footnotes to the summary shall be furnished whenever necessary to reflect information or explanations of material significance to investors in appraising the results shown.

3. If common stock or securities convertible into common stock are being registered, the summary shall be prepared to present earnings applicable to common stock. Earnings and dividends declared per share for each year of the summary shall also be included when appropriate.

4. If the annual report of the issuer which accompanies the prospectus includes a summary of earnings substantially meeting the above requirements, such summary may be incorporated by reference in the prospectus.

Item (12): Market prices of the issuer's securities. State the range of market prices of the securities of the issuer being registered for each year for which earnings data are supplied in response to Item 11. Indicate whether such prices represent prices on a securities exchange, naming such exchange. If the range is otherwise obtained, state the nature of the market and the source of the prices.

Item (13): Description of certain significant developments in the last five years. If within the past five years there has been any bankruptcy, receivership or similar proceeding or any material reorganization, capital readjustment or succession or the acquisition or disposition of any material amount of assets, otherwise than in the ordinary course of business, involving the issuer or any of its significant subsidiaries, describe briefly the nature and results of such events upon the business of the issuer.

Item (14): Capital stock being registered. If capital stock is being registered, state the title of the class and furnish the following information: (i) Outline briefly (a) dividend rights; (b) voting right; (c) liquidation rights; (d) pre-emptive rights; (e) conversion rights; (f) redemption provisions; (g) sinking fund provisions; and (h) liability to further calls or to assessment by the issuer.

(ii) If the rights of holders of such stock may be modified otherwise than by a vote of a majority or more of the shares outstanding, voting as a class, so state and explain briefly.

(iii) Outline briefly any restriction on the repurchase or redemption of shares by the issuer while there is any arrearage in the payment of dividends or sinking fund installments. If there is no such restriction, so state.

Instructions. 1. Only a brief summary of the pertinent provisions from an investment standpoint is required. A complete legal description of the provisions referred to is not required and should not be given. Do not set forth the provisions of the governing instruments verbatim; only a succinct resume is required.

2. If the rights evidenced by the securities being registered are materially limited or qualified by the rights of any other class of securities, include such information regarding such other securities as will enable investors to understand the rights evidenced by securities being registered.

Item (15): Other securities being registered. If securities other than capital shares are being registered, outline briefly the rights evidenced thereby.

Instruction. Information comparable to that called for by Item 14 and the instructions thereto shall be furnished.

Item (16): Principal holders of equity securities. Furnish the following information, in substantially the tabular form indicated, as to all equity securities of the issuer and all options to purchase such securities owned by each person who owns of record, or is known by the issuer to own beneficially, more than 10 percent of any class of securities or options. The information shall be furnished as of a specified date within 90 days prior to the date of filing.

(1) Name and address	(2) Title of class	(3) Type of ownership	(4) Amount owned	(5) Percent of class

Instruction. Indicate in column (3) whether the securities are owned both of record and beneficially, or record only, or beneficially only, and show separately in columns (4) and (5) the respective amounts and percentages owned in each such manner. The percentages are to be calculated on the basis of the amount of outstanding securities or options of the class.

Item (17): Financial statements. (i) Include the certified financial statements of the issuer required to be included in the annual report which the issuer has filed or is required to file for its last fiscal year pursuant to Section 13 or 15(d) of the Securities Exchange Act of 1934. If the issuer includes in its annual report certified financial statements of the issuer and its subsidiaries consolidated, the latter shall be furnished in lieu of the financial statements of the issuer. No schedules need be included.

(ii) If the annual report of the issuer to its security holders for its last fiscal year includes certified financial statements substantially meeting the (i) of this subparagraph, such statements may be incorporated by reference in the prospectus.

Item (18): Financial statements of the plan. (i) The following financial statements shall be furnished for any plan the interests in which are being registered hereunder.

(a) A certified statement of financial condition as of the end of the latest fiscal year of the plan.

(b) A certified statement of income and changes in plan equity for the latest fiscal year of the plan.

(ii) If certified financial statements substantially meeting the above requirements have been furnished to all employees who receive a copy of the prospectus, such statements may be incorporated by reference in the prospectus.

Instructions. The statements required by this item shall be prepared and certified in accordance with the applicable provisions of Regulation S-X (17 CFR Part 210) and shall be accompanied by the schedules specified in that regulation.

(e) *Undertakings*—(1) *To file reports.* Subject to the terms and conditions of section 15(d) of the Securities Exchange Act of 1934, the undersigned registrants hereby undertake to file with the Securities and Exchange Commission such supplementary and periodic information, documents and reports as may be prescribed by any rule or regulation of the Commission heretofore or hereafter duly adopted pursuant to authority conferred in that section.

(2) *To transmit certain material.* The undersigned employer hereby undertakes to transmit to all employees participating in the plan at the time and in the manner as such material is sent to stockholders of the issuer, copies of all reports, proxy statements and other communications distributed to its stockholders generally. The employer also undertakes to transmit copies of such material to the Commission for its information but such material shall not be deemed to be "filed" as part of the registration statement.

(3) *To transmit annual report with prospectus.* The undersigned issuer of the securities to be registered hereunder hereby undertakes to deliver or cause to be delivered with the prospectus to each eligible employee a copy of the issuer's annual report to stockholders for its last fiscal year, unless such employee otherwise receives a copy of such report. If the last fiscal year of the issuer has ended within 90 days prior to the use of the prospectus, the annual report for the preceding fiscal year may be so delivered, but in such case the annual report for the last fiscal year will be furnished promptly to each such employee when available.

(f) *Signatures.*

The employer. Pursuant to the requirements of the Securities Act of 1933, the employer has duly caused this registration statement to be signed on its behalf by the undersigned, thereunto duly authorized, in the City of ----------, and State of ----------, on the ------ day of ----------, 19--.

(Issuer)

By ----------
(Signature and title)

Pursuant to the requirements of the Securities Act of 1933, this registration statement has been signed below by the following persons in the capacities and on the dates indicated.

(Signature)	(Title)	(Date)

The issuer. Pursuant to the requirements of the Securities Act of 1933, the issuer has duly caused this registration statement to be signed on its behalf by the undersigned, thereunto duly authorized, in the City of ----------, and State of ----------, on the ------ day of ----------, 19--.

(Issuer)

The plan. Pursuant to the requirements of the Securities Act of 1933, the plan has duly caused this registration statement to be signed on its behalf by the undersigned, thereunto duly authorized, in the City of ----------, and State of ----------, on the ------ day of ----------, 19--.

(The plan)

By----------
(Signature and title)

Pursuant to the requirements of the Securities Act of 1933, this registration statement has been signed below by the following persons in the capacities and on the dates indicated.

(Signature)	(Title)	(Date)

Instructions. 1. The registration statement shall be signed by the issuer, the employer(s) (and where there is created under the plan an unincorporated association, a trust, committee or other legal entity, by such association, trust, committee or other legal entity), their respective principal executive officers, principal financial officers, controllers or principal accounting officers and by at least the majority of the respective board of directors or persons performing similar functions.

2. The name of each person who signs the registration statement shall be typed or printed beneath his signature. Any person who occupies more than one of the specified positions shall indicate each capacity in which he signs the registration statement.

(g) *Instructions as to exhibits.* Subject to the rules as to incorporation by reference, the exhibits specified below shall be filed as a part of the registration statement. Exhibits shall be appropriately lettered or numbered for convenient reference. Exhibits incorporated by reference may bear the designation given in the previous filing.

(1) Copies of the plan as presently in effect.

(2) Copies of all constituent instruments (other than the plan itself) defining the rights of employees who participate in the plan.

(3) Copies of all material contracts not made in the ordinary course of business, which are now in effect or were made within two years prior to the date of filing, relating to the plan.

(4) An opinion of counsel as to the legality of the interests and the equity securities being registered, indicating whether they will when sold be legally issued, fully paid and non-assessable.

(5) Copies of the issuer's annual report to stockholders for its last fiscal year. Such report, except for those portions thereof which are incorporated by reference in the registration statement, it is to be furnished for the information of the Commission and is not to be deemed "filed" as part of the registration statement. If the financial statements in the report have been incorporated by reference in the registration statement, the accountants' certificate shall be manually signed in one copy.

(6) Copies of all summaries of the plan or other written communications, intended to be used in connection with the offering or sale of the securities being registered.

(Sections 6 and 7, 48 Stat. 78, 15 U.S.C. 77f, 77g; sec. 10, 48 Stat. 81, as amended, 15 U.S.C. 77j; and sec. 19(a), 48 Stat. 85, as amended, 15 U.S.C. 77s)

All interested persons are invited to submit their views and comments on the above proposals, in writing, to the Securities and Exchange Commission, Washington 25, D.C., on or before March 5, 1962. Except where nondisclosure is requested, all such communications will be considered available for public inspection.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

DEPARTMENT OF THE TREASURY

Office of the Secretary

[Dept. Circ. 570, 1961 Rev. Supp. No. 22]

ANCHOR CASUALTY COMPANY, ST. PAUL, MINN.

Termination of Authority To Qualify as Surety on Federal Bonds

FEBRUARY 8, 1962.

Notice is hereby given that the Certificate of Authority issued by the Secretary of the Treasury to Anchor Casualty Company, St. Paul, Minnesota, under the provisions of the Act of Congress approved July 30, 1947 (6 U.S.C. 6–13), to qualify as sole surety on recognizances, stipulations, bonds and undertakings permitted or required by the laws of the United States has been terminated effective as of midnight December 31, 1961.

The Agricultural Insurance Company, a New York corporation, holds a certificate of authority from the Secretary of the Treasury as an acceptable surety on bonds in favor of the United States.

Pursuant to Agreement of Merger, effective midnight December 31, 1961, approved by the Superintendent of Insurance of the State of New York, September 27, 1961, and the Commissioner of Insurance of the State of Minnesota, October 26, 1961, the Anchor Casualty Company, St. Paul, Minnesota, was merged into Agricultural Insurance Company, Watertown, New York, the surviving company. Agricultural Insurance Company acquired all of the assets and assumed all of the liabilities of Anchor Casualty Company. A copy of the Agreement of Merger is on file in the Treasury Department, Bureau of Accounts, Surety Bonds Branch, Washington 25, D.C.

No action need be taken by bond approving officers, by reason of the merger, with respect to any bond or other obligations in favor of the United States, or in which the United States has an interest, direct or indirect, issued on or before December 31, 1961, by Anchor Casualty Company pursuant to the certificate of authority issued to the company by the Secretary of the Treasury.

The merger of the companies will not affect the underwriting limitation of the surviving corporation, Agricultural Insurance Company, which will remain at $1,924,000.00.

[SEAL] W. T. HEFFELFINGER,
Fiscal Assistant Secretary.

AGREEMENT BETWEEN THE UNITED STATES ATOMIC ENERGY COMMISSION AND THE COMMONWEALTH OF KENTUCKY FOR DISCONTINUANCE OF CERTAIN COMMISSION REGULATORY AUTHORITY AND RESPONSIBILITY WITHIN THE COMMONWEALTH

Whereas, The United States Atomic Energy Commission (hereinafter referred to as the Commission) is authorized under section 274 of the Atomic Energy Act of 1954, as amended (hereinafter referred to as the Act), to enter into agreements with the Governor of any State providing for discontinuance of the regulatory authority of the Commission within the State under Chapters 6, 7, and 8, and section 161 of the Act with respect to byproduct materials, source materials, and special nuclear materials in quantities not sufficient to form a critical mass, and;

Whereas, The Governor of the Commonwealth of Kentucky is authorized under section 152.115 of the Kentucky Revised Statutes to enter into this Agreement with the Commission; and

Whereas, The Governor of the Commonwealth of Kentucky certified on January 31, 1962, that the Commonwealth of Kentucky (hereinafter referred to as the Commonwealth) has a program for the control of radiation hazards adequate to protect the public health and safety with respect to the materials within the Commonwealth covered by this Agreement, and that the Commonwealth desires to assume regulatory responsibility for such materials, and;

Whereas, The Commission found on February 1, 1962, that the program of the Commonwealth for the regulation of the materials covered by this Agreement is compatible with the Commission's program for the regulation of such materials and is adequate to protect the public health and safety; and

Whereas, The Commonwealth recognizes the desirability and importance of maintaining continuing compatibility between its program and the program of the Commission for the control of radiation hazards in the interest of public health and safety; and

Whereas, The Commission and the Commonwealth recognize the desirability of reciprocal recognition of licenses and exemption from licensing of those materials subject to this Agreement; and

Whereas, This Agreement is entered into and is subject to the provisions of the Atomic Energy Act of 1954, as amended, and the applicable regulations of the Atomic Energy Commission which may be issued from time to time pursuant thereto;

Now, therefore, it is hereby agreed between the Commission and the Governor of the Commonwealth, acting in behalf of the Commonwealth, as follows:

ARTICLE I

Subject to the exceptions provided in Articles II, III, and IV, the Commission shall discontinue, as of the effective date of this Agreement, the regulatory authority of the Commission in the Commonwealth under Chapters 6, 7, and 8, and section 161 of the Act with respect to the following materials:

A. Byproduct materials;

B. Source materials; and

C. Special nuclear materials in quantities not sufficient to form a critical mass.

ARTICLE II

This Agreement does not provide for discontinuance of any authority and the Commission shall retain authority and responsibility with respect to regulation of:

A. The construction and operation of any production or utilization facility;

B. The export from or import into the United States of byproduct, source, or special nuclear material, or of any production or utilization facility;

C. The disposal into the ocean or sea of byproduct, source, or special nuclear waste materials as defined in regulations or orders of the Commission;

D. The disposal of such other byproduct, source, or special nuclear material as the Commission from time to time determines by regulation or order should, because of the hazards or potential hazards thereof, not be so disposed of without a license from the Commission.

ARTICLE III

Notwithstanding this Agreement, the Commission may from time to time by rule, regulation, or order, require that the manufacturer, processor, or producer of any equipment, device, commodity, or other product containing source, byproduct, or special nuclear material shall not transfer possession or control of such product except pursuant to a license or an exemption from licensing issued by the Commission.

ARTICLE IV

This Agreement shall not affect the authority of the Commission under subsection 161 b or i of the Act to issue rules, regulations, or orders to protect the common defense and security, to protect restricted data or to guard against the loss or diversion of special nuclear material.

ARTICLE V

The Commonwealth will use its best efforts to maintain continuing compatibility between its program and the program of the Commission for the regulation of like materials. To this end the Commonwealth will use its best efforts to keep the Commission informed of proposed changes in its rules and regulations, and licensing, inspection, and enforcement policies and criteria, and of proposed requirements for the design and distribution of products containing source, byproduct, or special nuclear material, and to obtain the comments and assistance of the Commission thereon.

ARTICLE VI

The Commission will use its best efforts to keep the Commonwealth informed of proposed changes in its rules and regulations, and licensing, inspection, and enforcement policies and criteria and to obtain the comments and assistance of the Commonwealth thereon.

ARTICLE VII

The Commission and the Commonwealth agree that it is desirable to provide for reciprocal recognition of licenses for the materials listed in Article I licensed by the other party or by any agreement State. Accordingly, the Commission and the Commonwealth agree to use their best efforts to develop appropriate rules, regulations, and procedures by which such reciprocity will be accorded.

ARTICLE VIII

The Commission, upon its own initiative after reasonable notice and opportunity for hearing to the Commonwealth, or upon request of the Governor of the Commonwealth, may terminate or suspend this Agreement and reassert the licensing and regulatory authority vested in it under the Act if the Commission finds that such termination of suspension is required to protect the public health and safety.

ARTICLE IX

This Agreement shall become effective on March 26, 1962, and shall remain in effect unless, and until such time as it is terminated pursuant to Article VIII.

Done at Washington, District of Columbia, in duplicate, this eighth day of February, 1962.

For the United States Atomic Energy Commission.

GLENN T. SEABORG,
Chairman.

For the Commonwealth of Kentucky.

BERT COMBS,
Governor.

[Docket 13337]

NEVADA AIRMOTIVE CORP. AND TRANS WORLD AIRLINES, INC.

Order Denying Motion and Granting Tentative Approval

Adopted by the Civil Aeronautics Board at its office in Washington, D.C. on the 8th day of February 1962.

In the matter of the purchase by Nevada Airmotive Corp. from Trans World Airlines, Inc. of certain aircraft, and motion to withhold certain information from public disclosure.

By application filed January 17, 1962, Nevada Airmotive Corporation (Nevada) and Trans World Airlines, Inc. (TWA) jointly requested the Board to rule that section 408 of the Federal Aviation Act of 1958 (the Act) is not applicable to the purchase of 25 Lockheed L-049 aircraft and related engines, parts, tools and fixtures by Nevada from TWA at a cost of $700,000, or to exempt the parties from the provisions of the Act to the extent necessary to permit consummation of the transaction, or to approve the transaction pursuant to the provisions of section 408 of the Act. The parties field concurrently a motion to withhold from public disclosure the information contained in the purchase contract.

In support of the merits of the application, the parties state that Nevada is engaged in the purchase, sale and leasing of surplus aircraft, that the aircraft have been retired by TWA in connection with its jet re-equipment program, and that the importance to TWA of disposing of the aircraft and the public interest to be served thereby are self evident.

The Board, upon consideration of the application, finds that the 25 Lockheed L-049 aircraft to be purchased by Nevada constitute a substantial portion of the properties of TWA within the meaning of section 408 of the Act. Accordingly, the Board will not grant the requested disclaimer of jurisdiction, nor is an exemption appropriate since Nevada, against whom the prohibition in section 408 runs in this transaction, is not an air carrier and hence may not be exempted pursuant to section 416 of the Act. However, the Board has concluded tentatively that the purchase of the aircraft by Nevada from TWA does not affect the control of an air carrier directly engaged in the operation of aircraft in air transportation, does not result in creating a monopoly and does not tend to restrain competition. Furthermore, the Board notes that no person disclosing a substantial interest is currently requesting a hearing. Although the 25 aircraft presently constitute a substantial portion of TWA's aircraft fleet, they are being replaced by modern jet aircraft with increased capacity and speed. It would therefore appear that approval of the transaction would not be inconsistent with the public interest.

In view of the foregoing, the Board tentatively finds that the transaction should be approved and intends to approve it without hearing under the provisions of section 408(b) of the Act. In accordance therewith, this order constituting notice of such intention will be published in the FEDERAL REGISTER and interested persons will be afforded an opportunity to comment on the Board's tentative decision.

In support of the motion, the parties state that (1) their interests would be adversely affected by advance public disclosure of the agreement, (2) until such time as the Board acts the parties will remain uncertain as to the status of their contractual relationship, (3) in the interim competitors of TWA and Nevada may be advantaged by disclosure, (4) the contract is of sole concern to them, and (5) advance disclosure is not required in the interest of the public.

Upon careful consideration of this matter, the Board has decided to deny the motion.[1] It seems clear that the position of the parties essentially concerns disclosure of the information during the period between the filing of the application and the time of action by the Board, and not after the issuance of a decision. Even if this were not the case, it appears that disclosure may well be in the public interest, and certainly the parties have not made a contrary showing.

Therefore, it is ordered:

1. That the motion to withhold the contract between Nevada and TWA from public disclosure be and it hereby is denied;

2. That the order be published in the FEDERAL REGISTER.

3. That the Attorney General of the United States be furnished a copy of this order within one day of its publication; and

4. That interested persons are afforded a period of 15 days within which to file comments or request a hearing with respect to the Board's proposed action on the application in Docket 13337.[2]

By the Civil Aeronautics Board:

[SEAL] HAROLD R. SANDERSON,
Secretary.

BRANIFF AIRWAYS, INCORPORATED AND PAN AMERICAN WORLD AIRWAYS, INC.

Interchange; Notice of Prehearing Conference

In the matter of the application of Braniff Airways, Incorporated and Pan American World Airways, Inc., for approval of an equipment interchange lease agreement.

Notice is hereby given that a prehearing conference in the above-entitled matter is assigned to be held on February 20, 1962, at 10 a.m. (eastern standard time) in Room 911, Universal Building, Connecticut and Florida Avenues NW., Washington, D.C., before Examiner William J. Madden.

Dated at Washington, D.C., February 9, 1962.

[SEAL] FRANCIS W. BROWN,
Chief Examiner.

[F.R. Doc. 62-1502; Filed, Feb. 13, 1962; 8:51 a.m.]

CIVIL SERVICE COMMISSION

POSITIONS FOR WHICH THERE IS DETERMINED TO BE A MANPOWER SHORTAGE

Notice of Listing

Under the provisions of Public Law 86-587, the Civil Service Commission has determined that there is a manpower shortage for the following:

1. Positions in the following Series under the Classification Act of 1949, as amended, or comparable positions not subject to the Classification Act:

GS-1220-0	Patent Administration
GS-1222-0	Patent Attorney
GS-1223-0	Patent Classifying
GS-1225-0	Patent Interference Examining

Geographic coverage. Nationwide.
Effective date. January 4, 1962.

2. The position of Program Coordinator (Aircraft Depot Maintenance), GS-1101-15, Headquarters U.S. Army Transportation Aeronautical Depot Maintenance Center, Corpus Christi, Texas.

Effective date. October 26, 1961.

Travel and transportation expenses may be paid for appointees to their first duty station for the positions as listed above. Any such payments as a result of these determinations must be made in accordance with travel regulations issued by the Bureau of the Budget.

UNITED STATES CIVIL SERVICE COMMISSION,
[SEAL] MARY V. WENZEL,
Executive Assistant to the Commissioners.

FEDERAL COMMUNICATIONS COMMISSION

[Docket No. 14482; FCC 62M-182]

ASHEBORO BROADCASTING CO. (WGWR)

Order Following Prehearing Conference

In re application of Asheboro Broadcasting Company (WGWR), Asheboro, North Carolina, Docket No. 14482, File No. BP-14051; for construction permit.

A prehearing conference in the above-entitled matter having been held on February 6, 1962, and it appearing that certain agreements were reached therein which properly should be formalized in an order;

Accordingly, it is ordered, This 6th day of February 1962, as follows:

(1) Copies of all proposed exhibits of the applicant shall be supplied to counsel for the Broadcast Bureau and the Hearing Examiner by February 26, 1962;

(2) Notification as to those witnesses required to be present at the hearing on March 14, 1962 for cross-examination by Bureau Counsel shall be given by March 9, 1962; and

(3) The hearing heretofore scheduled to commence March 6, 1962, is continued to March 14, 1962, at 10:00 a.m., at the offices of the Commission in Washington, D.C.

Released: February 8, 1962.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] BEN F. WAPLE,
Acting Secretary.

[Docket No. 14393; FCC 62M-186]

W. E. BAYSDEN

Order Continuing Hearing

In re application of W. E. Baysden, Jacksonville, North Carolina, Docket No. 14393, File No. BP-12300; for construction permit.

Pursuant to agreement reached by counsel for all the parties at the further prehearing conference held on January 26, 1962,

It is ordered, This 7th day of February 1962, that the hearing in this proceeding, which was scheduled for commencement on February 5, 1962, is continued to 10:00 a.m., February 26, 1962.

Released: February 8, 1962.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] BEN F. WAPLE,
Acting Secretary.

[F.R. Doc. 62-1506; Filed, Feb. 13, 1962; 8:51 a.m.]

[Docket No. 14506]

BRANDON TIRE & BATTERY CO.

Order To Show Cause

In the matter of T. E. Brandon, d/b as Brandon Tire & Battery Co., Chickasaw, Alabama, Docket No. 14506, order to show cause why there should not be revoked the license for Business Radio Station KIR-938.

The Commission, by the Chief, Safety and Special Radio Services Bureau, under delegated authority, having under consideration the matter of certain alleged violations of the Commission's rules in connection with the operation of Business radio station KIR-938;

It appearing, that, pursuant to § 1.76 of the Commission's rules, written notice of violation of the Commission's rules was served upon the above-named licensee as follows:

Official Notice of Violation mailed on June 19, 1961, alleging that on May 24, 1961, Business Radio Station KIR-938 was observed in violation of the Commission's rules, viz:

Section 11.160(a)—No record of transmitter measurements made within the last year;
Section 11.52(a)—Station was not being identified after each transmission or once each 15 minutes;
Section 11.702—No provision made for receipt of CONELRAD alerts;
Section 11.156(b)—The current station license not posted at the principal control point of the station;
Section 11.156(a)—Executed transmitter identification card (FCC Form 452-C) was not affixed to each mobile transmitter;
Section 11.160(c)—Names of radio operators with the period of their duty each day was not included in station records;
Non-compliance with the terms of the station license—Base transmitter was authorized at 11 North Broad Street, Mobile, Alabama; it had ben installed at 307 North Craft Highway, Chickasaw, Alabama.

It further appearing, that, the above-named licensee received the Official Notice of Violation, but did not make satisfactory reply thereto; whereupon the Commission by letter of October 19, 1961, and sent by Certified Mail—return receipt requested (Certified No. 814847) again brought this matter to the attention of the licensee and requested that such licensee respond to the Commission's letter within fifteen days from the date of its receipt, stating the measures which had been taken or were being taken in order to bring the operation of the radio station into compliance with the Commission's rules, and warning the licensee that failure to respond to such letter might result in the institution of proceedings for the revocation of the station license; and

It further appearing, that, receipt of the Commission's letter was acknowledged by the signature of the licensee on October 20, 1961, to a Post Office Department return receipt card; and

It further appearing, that, in view of the foregoing, the licensee has repeatedly violated § 1.76 of the Commission's rules;

It is ordered, This 8th day of February 1962, pursuant to section 312(a)(4) of the Communications Act of 1934, as amended, and section 0.291(b)(8) of the Commission's Statement of Delegations of Authority, that the said licensee show cause why the license for the above-captioned radio station should not be revoked, and appear and give evidence in respect thereto at a hearing to be held at a time and place to be specified by subsequent order; and

It is further ordered, That the Acting Secretary send a copy of this Order by Certified Mail, return receipt requested, to the said licensee at 306 North Craft Highway, Chickasaw, Alabama.

Released: February 9, 1962.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] BEN F. WAPLE,
Acting Secretary.

[F.R. Doc. 62-1507; Filed, Feb. 13, 1962; 8:51 a.m.]

[Docket Nos. 14085, 14290; FCC 62-143]

COMMUNITY SERVICE BROADCASTERS, INC., ET AL.

Memorandum Opinion and Order Amending Issues

In re applications of Community Service Broadcasters, Incorporated, Ypsilanti, Michigan, Docket No. 14085, File No. BP-13846; Geneco Broadcasting, Inc., Marion-Jonesboro, Indiana, et al., Docket No. 14290, File No. BP-13975; for construction permits.

1. The Commission has before it for consideration (1) a petition to enlarge issues filed November 8, 1961, by Radio One Five Hundred, Inc., Indianapolis, Indiana (Docket No. 14288); (2) an opposition filed November 22, 1961, by Geneco Broadcasting, Inc., Marion-Jonesboro, Indiana (Docket No. 14290); and (3) a reply to Opposition filed December 4, 1961, by Radio One Five Hundred, Inc. The Broadcast Bureau filed no pleading.

2. Radio One Five Hundred, Inc., seeks enlargement of issues to inquire into whether Geneco is financially qualified to construct and operate the proposed station, and whether the Geneco directional antenna would be sufficiently stable to operate within the proposed maximum expected operating values (MEOV) or achieve the minimum radiation levels required by § 3.189 of the rules. Petitioner contends that Geneco's finances are inadequate by a minimum of $34,425 of which $30,000 is allegedly needed for legal and engineering expenses to be incurred in completing and licensing the directional array. Comparing Geneco's proposal with the present eight element directional array of Station WJBK, Detroit, Michigan, which encountered adjustment problems, petitioner argues that Geneco's nine element array would also involve adjustment problems; that it is more critical; and that Geneco has not proposed special equipment and techniques to be used for the adjustment of the array or submitted data on the suitability of the proposed site.

3. It is found that the petitioner's allegation of unstable operation of Geneco's proposed nine element directional antenna is based on the opinion of its consulting engineer that a large number of towers used in the array would result in unstable operation. The petitioner's affidavits are couched in phrases which are conjectural and do not factually show the basis for its many allegations of possible instability in the operation of the proposed directional array. Donald W. Huff, 18 RR 355, 362 (1959); Hirsch Broadcasting Co., 19 RR 544, 545 (1959). For instance, it alleges that if certain variations should occur in the operating parameters, the radiation in certain directions would exceed the maximum expected operating values, but it does not indicate the direction or the combination of the variations of parameters nor submit any computations supporting such allegations. § 1.141(c) of the rules states that motions to enlarge the issues, oppositions thereto, and replies to oppositions shall contain specific allegations of fact sufficient to support the action requested, and that such allegations of fact, except for those of which official notice may be taken, shall be supported by affidavits of a person, or persons, having personal knowledge thereof. The affidavits should contain factual engineering showings rather than bare opinions as to the "unreasonableness" of the proposal. (Alkima Broadcasting Company, Docket No. 12414, FCC 61-1462). In any event, the applicant, if granted a construction permit, must construct its station in accordance with the terms of the construction permit, and any deviation therefrom would be considered with the application for license to cover construction permit. Kansas Broadcasters, Inc., 18 RR 607 (1959). Thus, we will deny the request for enlargement of issues to inquire into the Geneco directional antenna proposal.

4. The Commission has considered petitioner's request that a financial issue be added relative to Geneco and also the arguments for and against this request advanced by the parties. We are convinced that the financial issue relative to Geneco should be added. It is noted that Geneco estimates its cost of construction at $56,700 and its cost of operation for the first three months at $13,500. After consideration is given to the deferred payment agreement in the amount of $34,275, we find that Geneco will require cash in the amount of $35,925 to construct its station and operate it for at least three months without the benefit of revenue. Geneco has shown that it has only $31,500 in available funds. This does not meet the requirements of our established policy and thus the issue will be added.

Accordingly, it is ordered, This 6th day of February, 1962, that the petition to enlarge the issues, filed November 8, 1961, by Radio One Five Hundred, Inc., is granted to the extent indicated herein and in all other respects, is denied;

It is further ordered, That existing Issue 9 is amended by adding "Geneco Broadcasting, Inc. (BP-13975)."

Released: February 9, 1962.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] BEN F. WAPLE,
Acting Secretary.

[F.R. Doc. 62-1508; Filed, Feb. 13, 1962; 8:51 a.m.]

[Docket No. 14168 etc.; FCC 62-139]

EASTERN BROADCASTING SYSTEM, INC., ET AL.

Memorandum Opinion and Order Amending Issues

In re applications of Eastern Broadcasting System, Inc., Brookfield, Connecticut, et al., Docket No. 14166, File No. BP-13017, etc.; for construction permits.

1. The Commission has before it for consideration a petition by Eastern Broadcasting System, Inc., to enlarge issues, filed November 7, 1961, together with pleadings properly filed in response thereto.

2. Petitioner, the Eastern Broadcasting System, Inc., one of several applicants in the above-caption proceeding, requests enlargement of the issues as to the mutually-exclusive application of Fairfield Broadcasting Company, which proposes a new Class II station at Easton, Connecticut, 940 kc, 5 kw, DA, D. (Docket No. 14171). The Commission has previously refused to enlarge the issues as to Fairfield,[1] but petitioner alleging newly discovered evidence, requests enlargement of the issues.

3. Petitioner has submitted the transcript of a hearing before a local Zoning Board in which Fairfield sought a special exception to authorize the construction and maintenance of radio broadcasting towers and transmission equipment. Emphasis is placed by petitioner on certain representations counsel for Fairfield made before the Zoning Board which are in conflict with Fairfield's application pending before the Commission. The representations fall into two classes: First, that Fairfield Broadcasting's proposal was primarily intended to serve the town of Fairfield, Connecticut; and second, that the main studio would not be located at the transmitter site. Fairfield responds that its local counsel before the Zoning Board was a last-minute substitute who, because of the shortness of time for preparation, was not able to familiarize himself with the application pending before the Commission; and that his representations were based on misconceptions regarding Fairfield's proposal. However, petitioner replies that the representations went to the substance of the questions before the Zoning Board, and that Fairfield's principals were present at the Zoning Board and did not correct the attorney's misstatements. The Broadcast Bureau supports petitioner's request, but proposes different phrasing of the issues.

4. Petitioner's request for enlargement of the issues is filed subsequent to the period specified in 47 CFR 1.141. However, good cause has been shown for the late filing in that the transcript of the hearing before the Zoning authorities did not become available until seventeen days before the petition was filed.

5. Fairfield does not challenge the allegation that a substantial variance exists between the representations made to the Commission, and those made to the Zoning Board. Unsupported by affidavits, it declares that its attorney was not completely familiar with the application pending before the Commission. Even if this pleading complied with the requirements of 47 CFR 1.141(c) which states that allegations of facts "shall be supported by affidavits of a person or persons having personal knowledge thereof", it would not completely explain the variance. The transcript of the hearings reveals that the attorney made the representation in his opening statement, and that Fairfield's principals were present when the representations were made. The transcript also reveals that Fairfield's attorney later in the hearing made a closing statement but that he did not, then, correct the erroneous representations. These conflicts can best be resolved following an evidentiary hearing.

Accordingly, it is ordered, That a petition by Eastern Broadcasting, Inc., to enlarge issues, filed November 7, 1961, is granted to the extent indicated herein; and

It is further ordered, That on the Commission's own motion, the designation Order corrected on June 28, 1961 (FCC 61-791) is hereby amended by renumbering Issue 11 as Issue 15, and by the addition of the following issues:

11. To determine whether the proposal made by Fairfield Broadcasting Company to establish a station in Easton was made to the Commission in good faith.

12. To determine whether Fairfield Broadcasting Company has misrepresented its proposal for the location of its main studio to the Commission or to any other official governmental agency, body or representative.

13. To determine whether the Fairfield Broadcasting Company has misrepresented to the Commission or to any other governmental agency, body or representative the town which the station it proposes is primarily designed to serve.

14. To determine, in the light of the foregoing, whether Fairfield Broadcasting Company has the character qualifications to be entrusted with an authorization for a broadcast facility.

Adopted: February 6, 1962.

Released: February 9, 1962.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] BEN F. WAPLE,
Acting Secretary.

[F.R. Doc. 62-1509; Filed, Feb. 13, 1962; 8:51 a.m.]

[Docket Nos. 14519-14521; FCC 62-160]

K & H TELEVISION STATION (KFUR-TV) ET AL.

Order Designating Applications for Consolidated Hearing on Stated Issues

In re applications of Raymond F. Hayes and Milford Kay, d/b as K & H Television Station (KFUR-TV), Santa Fe, New Mexico, Docket No. 14519, File No. BMPCT-5601, for modification of construction permit; Thunderbird Entertainment Enterprises, Incorporated, Santa Fe, New Mexico, Docket No. 14520, File No. BPCT-2898, and New Mexico Broadcasting Company, Inc., Santa Fe, New Mexico, Docket No. 14521, File No. BPCT-2927; for construction permits for new television broadcast stations.

At a session of the Federal Communications Commission held at its offices in Washington, D.C., on the 6th day of February 1962;

The Commission having under consideration the above-captioned applications: that of K & H Television Station requesting a modification of construction permit for Station KFUR-TV to specify Channel 2 in lieu of Channel 11, and those of Thunderbird Entertainment Enterprises, Incorporated and New Mexico Broadcasting Co., Inc., each requesting a construction permit for a new television broadcast station to operate on Channel 2, Santa Fe, New Mexico; and

It appearing that the applications of Raymond F. Hayes and Milford Kay, d/b as K & H Television Station, Thunderbird Entertainment Enterprises, Incorporated, and New Mexico Broadcasting Co., Inc., are mutually exclusive in that operation by the applicants as proposed would result in mutually destructive interference; and

It further appearing that the following matters are to be considered in connection with the issues specified below:

(a) The proposal of Thunderbird Entertainment Enterprises, Incorporated (BPCT-2898).

Based on information contained in the application, it appears that cash in the approximate amount of $306,872 will be required for the construction and initial operation of the proposed station. The applicant has failed to make the financial showing required since the stock subscriptions in Exhibit 4 of the application have not been supported by balance sheets of the subscribers as required by paragraph 4, section III of the application form and the information submitted is insufficient. Accordingly, it cannot be determined that Thunderbird Entertainment Enterprises, Incorporated, is financially qualified.

(b) The proposal of New Mexico Broadcasting Co., Inc. (BPCT-2927).

1. The applicant is licensee of Television Broadcast Station KGGM-TV, Channel 13, Albuquerque, New Mexico. In the event the present application were to be granted, it appears that substantial overlap would result. Under such circumstances, it appears appropriate to consider the size, extent and location of the areas served and to be served; the extent of the overlap involved; the number of persons served; the number of persons residing within the overlap area; the extent of other competitive service to the areas in question; the extent to which the stations will rely on the same revenue and program sources; the nature of the programming that the stations will present, with particular reference to the particular need of the communities they are designed to serve; the advertising practices of the stations; the source of program material and talent for each station; and such other factors as will tend to demonstrate that the overlap involved will not be in contravention of § 3.636(a)(1) of the Commission's rules.

2. The applicant proposes to operate the proposed station as a satellite of Station KGGM-TV, with the exception of one daily 15 minute news program directed to Santa Fe. In these circumstances, it appears appropriate to consider whether the type and character of the program service proposed will meet the needs of Santa Fe.

It further appearing that the Commission is of the view that the above question raised with respect to the proposed programming of New Mexico Broadcasting Co., Inc., should be explored within the framework of comparative issue "3(c)" as specified herein, rather than as a separate issue; and

It further appearing that on August 7, 1961, New Mexico Broadcasting Co., Inc., filed a "Statement of Interest" regarding the Thunderbird Entertainment Enterprises, Incorporated application; that such allegations of fact as are made are not supported by affidavit of a person or persons with personal knowledge thereof as required by section 309(d)(1) of the Communications Act of 1934, as amended, and that such allegations as have been made have been considered by the Commission but do not provide sufficient facts to raise issues; and

It further appearing, that each of the applicants herein proposes operation from substantially different sites and with different power so that there will be appreciable differences in the areas and populations to which they propose service; and

It further appearing, that, upon due consideration of the above-captioned applications and the amendments thereto, the Commission finds that pursuant to section 309(e) of the Communications Act of 1934, as amended, a hearing is necessary; that Raymond F. Hayes and Milford Kay, d/b as K & H Television Station and New Mexico Broadcasting Co., Inc., are legally, financially, technically and otherwise qualified to construct, own and operate the proposed television broadcast station and that Thunderbird Entertainment Enterprises, Incorporated, is legally, technically and otherwise qualified to construct, own and operate the proposed television broadcast station;

It is ordered, That, pursuant to section 309(e) of the Communications Act of 1934, as amended, the above-captioned applications of Raymond F. Hayes and Milford Kay, d/b, as K & H Television Station, New Mexico Broadcasting Co., Inc., and Thunderbird Entertainment

Enterprises, Incorporated, are designated for hearing in a consolidated proceeding at a time and place to be specified in a subsequent order, on the following issues:

1. To determine whether Thunderbird Entertainment Enterprises, Incorporated, is financially qualified to construct, own and operate the proposed television broadcast station.

2. To determine whether a grant of New Mexico Broadcasting Co., Inc's application would contravene the provisions of § 3.636(a)(1) of the Commission's rules and, if so, whether a waiver of these provisions would be warranted.

3. To determine on a comparative basis which of the operations proposed in the above-captioned applications would better serve the public interest, convenience and necessity in the light of the significant differences between the applicants as to:

(a) The background and experience of each bearing on its ability to own and operate the proposed television broadcast station.

(b) The proposals of each with respect to the management and operation of the proposed television broadcast stations.

(c) The programming services proposed in each of the above-captioned applications.

(d) The engineering proposals of the applicants including the areas and populations which may be expected to receive service within the Grade A, and Grade B contours of the operations proposed.

4. To determine, in the light of the evidence adduced pursuant to the foregoing issues, which of the applications should be granted.

It is further ordered, That the issues in the above-entitled proceeding may be enlarged by the Examiner on his own motion or on petition properly filed by a party to the proceeding and upon a sufficient allegation of the facts in support thereof, by the addition of the following issue:

To determine whether the funds available to the applicants will give reasonable assurance that the proposals set forth in the applications will be effectuated.

It is further ordered, That to avail themselves of the opportunity to be heard Raymond F. Hayes and Milford Kay, d/b as K & H Television Station, Thunderbird Entertainment Enterprises, Incorporated, and New Mexico Broadcasting Co., Inc., pursuant to § 1.140(c) of the rules, in person or by attorney, shall within twenty (20) days of the mailing of this Order file with the Commission, in triplicate, a written appearance stating an intention to appear on the date set for the hearing and present evidence on the issues specified in this Order.

It is further ordered, That the applicants herein shall, pursuant to section 311(a)(2) of the Communications Act of 1934, as amended, and § 1.362(b) of the rules, give notice of the hearing, either individually, or, if feasible, jointly, within the time and in the manner prescribed in such rule, and shall advise the Commission of the publication of such notice as required by § 1.362(g) of the rules.

Released: February 9, 1962.

PIONEER STATES BROADCASTERS, INC.

Order Designating Application for Hearing on Stated Issues

In re application of Pioneer States Broadcasters, Inc., West Hartford, Connecticut, has 990 kc, 1 kw, Day (WBZY) Torrington, Connecticut, req 990 kc, 500 w, DA-D, West Hartford, Connecticut, Docket No. 14504, File No. BP-14366; for construction permit.

At a session of the Federal Communications Commission held at its offices in Washington, D.C., on the 6th day of February 1962;

The Commission having under consideration the above-captioned and described application;

It appearing, that, except as indicated by the issues specified below, the instant applicant is legally, technically, financially, and otherwise qualified to construct and operate the instant proposal; and

It further appearing, that, although in form an application for a new station at West Hartford, Connecticut, the application is, in fact, a proposal to modify and move the applicant's existing facility at Torrington, Connecticut (WBZY), to West Hartford; and[1]

It further appearing, that in support of its request to move the WBZY facilities to West Hartford, the applicant states that WBZY has been operating for over ten years at Torrington without being able to show a profit; that this situation has continued to exist despite the efforts of four different owners and numerous station managers; that Torrington has one other existing station in addition to service from other stations in nearby cities; that the proposed move appears to be the only way in which the station can continue to survive; and that West Hartford was chosen as a proposed site because of its greater population and present lack of local service; and

It further appearing that Torrington, Connecticut, has a population (1960 census) of 30,045 and, in addition to WBZY, one existing facility (WTOR) with an authorized power of 250 watts, unlimited time; that the station WTOR has filed to change its facilities to 610 kc, 500 w, 1 kw-LS, DA-2; that West Hartford, population 62,382 is contiguous to Hartford, population 162,178, and is part of the greater Hartford urbanized area; that Hartford has four existing local standard broadcast stations; and that West Hartford has no existing stations and one other application for a new station (on a different frequency and not involved in this proceeding); and

It further appearing, that it cannot be concluded, on the basis of the limited facts set forth above, that a grant of the subject application would be in the public interest; that on the basis of such additional facts as may be developed in hearing, it will be necessary to determine whether the "fair, efficient, and equitable distribution" standard set forth by section 307(b) of the Act would best be met by the addition of a new service to the Hartford area and a new local service to West Hartford, or by the retention of the existing WBZY facility at Torrington; and that in essence, the determination to be made is equivalent to that which would be involved between two competing applications for new stations, one proposing operation at Torrington and the other at West Hartford. See Ark-Valley Broadcasting Co., Inc. 7 R.R. 77 (1951); and

It further appearing, that, an additional question raised by the proposed change in location involves the ownership interest in the applicant of Aldo DeDominicis; that Mr. DeDominicis, owner of a 7.9 percent interest in WBZY owns controlling interest in Station WHAY, New Britain, Connecticut; that New Britain is approximately five miles from West Hartford and each station would provide primary service to the other city; that accordingly, it will be necessary to determine whether a grant of the subject application would be in contravention of § 3.35(a) of the Commission's rules; and that in reaching this determination, it appears appropriate to consider the size, extent and location of the areas served; the extent of the overlap involved; the number of persons residing within the overlap area; the classes of stations involved; the extent of other competitive service to the areas in question; the extent to which the stations will rely on the same revenue and program sources; the nature of the programming that the stations will present with particular reference to the needs of the communities they are designated to serve; the advertising practices of the stations; the source of program material and talent for each station; and such other factors as will tend to demonstrate that the overlap involved will or will not be in contravention of § 3.35(a) of the Commission's rules; and

It further appearing, that, although the subject application proposes values of radiation less than that notified for Station WBZY (previously WLCR) in accordance with the North American Regional Broadcasting Agreement (NARBA), such proposed radiation values are in excess of the maximum radiation permitted toward the Canadian border pursuant to the provisions of the proposed United States-Canadian bilateral agreement concerning the assignment of Class II stations on Class I-A channels, Docket No. 10453; and that since the subject application proposes a change in antenna site, the proposed directional radiation pattern was referred to the Canadian authorities by letter dated December 29, 1961, for consideration pursuant to the aforementioned agreement; and

It further appearing, that, in view of the foregoing, the Commission is unable to make the statutory finding that a grant of the subject application would serve the public interest, convenience, and necessity, and is of the opinion that the application must be designated for hearing on the issues set forth below:

It is ordered, That, pursuant to section 309(e) of the Communications Act of 1934, as amended, the instant application is designated for hearing, at a time and place to be specified in a subsequent Order, upon the following issues:

1. To determine the areas and populations which would gain or lose primary service from the instant applicant and the availability of other primary service to such areas and populations.

2. To determine whether a grant of the instant application would be in contravention of § 3.35(a) of the Commission's rules.

3. To determine the comparative needs of the areas now served by Station WBZY, including the city of Torrington, Connecticut, and the areas to be served by Station WBZY operating as proposed, including West Hartford, Connecticut, for broadcast service and, in view thereof, whether a grant of the subject application would be in accordance with section 307(b) of the Communications Act of 1934, as amended.

4. To determine, in the light of the evidence adduced pursuant to the foregoing issues, whether a grant of the instant application would serve the public interest, convenience, and necessity.

It is further ordered, That if, pursuant to the foregoing issues, a grant of the subject application is recommended, final action will be withheld pending receipt of a reply from Canadian authorities to the Commission's letter of December 29, 1961, and that, in the event Canadian approval is not obtained the subject application will be placed in the Commission's pending file.

It is further ordered, That to avail itself of the opportunity to be heard, the applicant, pursuant to section 1.140 of the Commission rules, in person or by attorney, shall, within 20 days of the mailing of this Order, file with the Commission in triplicate, a written appearance stating an intention to appear on the date fixed for the hearing and present evidence on the issues specified in this Order.

It is further ordered, That the applicant herein shall, pursuant to section 311(a)(2) of the Communications Act of 1934, as amended, and § 1.362(b) of the Commission's rules, give notice of the hearing, within the time and in the manner prescribed in such rule, and shall advise the Commission of the publication of such notice as required by § 1.362(g) of the rules.

Released: February 9, 1962.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] BEN F. WAPLE,
Acting Secretary.

[F.R. Doc. 62-1513; Filed, Feb. 13, 1962; 8:52 a.m.]

[Docket No. 14505; FCC 62-148]

VICTORIA BROADCASTING SYSTEM

Order Designating Application for Hearing on Stated Issues

In re application of George H. Puder tr/as Victoria Broadcasting System, Redfield, South Dakota, requests 1380kc, 500w, Day, Docket No. 14505, File kc, 500w, Day, Docket No. 14505, File No. BP-14366; for construction permit.

At a session of the Federal Communications Commission held at its offices in Washington, D.C., on the 6th day of February 1962;

The Commission having under consideration the above-captioned and described application,

It appearing, that, except as indicated by the issues set forth below the applicant appears to possess the requisite qualifications to construct and operate the subject proposal;

It further appearing, that, according to data submitted with the subject application, the proposed operation would cause adjacent channel interference to the existing operation of Station KJAM, Madison, South Dakota, involving a population loss of 2.02 percent; and

It further appearing, that, by letter dated December 9, 1960, the licensee of Station KJAM objected to a grant of the application and requested that the application be designated for hearing; and

It further appearing, that, in view of the foregoing, the Commission is unable to make the statutory finding that a grant of the subject application would serve the public interest, convenience and necessity, and is of the opinion that the application must be designated for hearing on the issues set forth below:

It is ordered, That, pursuant to section 309(e) of the Communications Act of 1934, as amended, the instant application is designated for hearing, at a time and place to be specified in a subsequent Order, upon the following issues:

1. To determine the areas and populations which would receive primary service from the proposed operation and the availability of other primary service to such areas and populations.

2. To determine whether the instant proposal would cause objectionable interference to Station KJAM, Madison, South Dakota, or any other existing standard broadcast stations, and, if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other primary service to such areas and populations.

3. To determine if the geographical coordinates specified accurately describe the location of the proposed antenna site.

[1] The applicant has not proposed to relinquish its facilities in Torrington on 990 kc, until such time as its 990 kc application for West Hartford is granted and program tests are authorized. Under these circumstances, the Commission must treat the subject application as a proposal to modify the WBZY facilities rather than a proposal for a new station.

4. To determine, in the light of the evidence adduced pursuant to the foregoing issues, whether a grant of the instant application would serve the public interest, convenience and necessity.

It is further ordered, That, in the event of a grant of the instant application permittee shall complete Federal Aviation Agency (FAA) Form 117 and submit same to the FAA, and the construction permit issued shall contain the following condition:

The finding made by the Commission that the proposed antenna structure is acceptable under Federal Aviation Agency criteria (§ 626.12, FAA Regulations) is subject to compliance by permittee with any applicable procedures of the FAA.

It is further ordered, That, Madison Broadcasting Company, Inc., licensee of Station KJAM, Madison, South Dakota, is made a party to the proceeding.

It is further ordered, That, to avail themselves of the opportunity to be heard, the applicant and party respondent herein, pursuant to § 1.140 of the Commission rules, in person or by attorney, shall, within 20 days of the mailing of this Order, file with the Commission in triplicate, a written appearance stating an intention to appear on the date fixed for the hearing and present evidence on the issues specified in this Order.

It is further ordered, That the applicant herein shall, pursuant to section 311(a)(2) of the Communications Act of 1934, as amended, and § 1.362(b) of the Commission rules, give notice of the hearing, within the time and in the manner prescribed in such rule, and shall advise the Commission of the publication of such notice as required by § 1.362 (g) of the rules.

Released: February 8, 1962.

FEDERAL MARITIME COMMISSION

CONTRACTS, AGREEMENTS, AND UNDERSTANDINGS OF COMMON CARRIERS BY WATERS

Notice of Reversal of Order as to Certain Carriers

On April 11, 1960, the Federal Maritime Board issued an order entitled "Section 21 Order, Contracts, Agreements and Understandings of Common Carriers By Water." The order was directed to every common carrier by water subject to the provisions of the Shipping Act, 1916, and required them to file with the Board certain information.

Many of the carriers to whom the order of April 11, 1960 was directed filed petitions for judicial review in the United States Court of Appeals for the District of Columbia Circuit, and also obtained a stay of the order pending the Court's decision. On June 30, 1961, in Montship Lines, Ltd. et al. v. United States, 295 F. 2d 147, the Court vacated the order and remanded it to the Board for further proceedings, because it failed to state the purpose for which issued.

Other carriers to whom the Board's order of April 11, 1960 was directed petitioned for judicial review in the Court of Appeals for the Second Circuit. On October 31, 1960, in Kerr Steamship Company, Inc., et al. v. United States, 284 F. 2d 61, the Second Circuit affirmed the Board's order and dismissed that case. Thereafter, Kerr et al. petitioned the Supreme Court of the United States for a writ of certiorari, and this petition is currently pending. A similar suit, States Marine Lines, et al. v. United States, No. 26,328 is pending and unacted upon in the Second Circuit.

The District of Columbia Circuit's decision vacating the order as to the great majority of the carriers who sought judicial review, makes it necessary for the Federal Maritime Commission, as successor to the Board, to consider what further action should be taken. The Commission's consideration and treatment of the matter should, of course, be uniform, since all of the carriers involved, those who sued in the Second Circuit as well as those who sued in the District of Columbia Circuit, are affected by the same order. In furtherance of this purpose, the Commission deems it advisable to reverse and thus vacate the order as to the carriers who brought suit in the Second Circuit.

Therefore, it is ordered, Pursuant to section 25 of the Shipping Act, 1916 (46 U.S.C. 824), That the Federal Maritime Board's order dated April 11, 1960 and entitled "Section 21 Order, Contracts, Agreements and Understandings of Common Carriers by Water", is hereby reversed and vacated as to the following named common carriers by water:

States Marine Lines, Inc.;
Global Bulk Transport Corporation;
Global Transport, Ltd.;
Isthmian Lines, Inc.;
Kerr Steamship Company, Inc.;
Compania Maritima del Nervion;
Naviera Aznar S.A.;
Rex Line Rederiaktiebolaget; and
Skibsaktieselskapet Arizona[1]
Skibsaktieselskapet Astrea[1]
Skibsaktieselskapet Aruba[1]
Skibsaktieselskapet Noruega[1]
Skibsaktieselskapet Abaco,[1] and
A/S Atlantica.[1]

By the Commission.

THOMAS LEE,
Secretary.

FEDERAL POWER COMMISSION

[Docket No. G-19115 etc.]

HASSIE HUNT TRUST ET AL.

Notice of Applications, Consolidation of Proceedings and Setting Date for Hearing

FEBRUARY 7, 1962.

Hassie Hunt Trust, Operator, et al., Docket No. G-19115; H. L. Hunt, Operator, et al., Docket No. G-19116; Hunt Oil Company, Docket No. G-19117; William Herbert Hunt Trust Estate, Operator, Docket No. G-19118; Lamar Hunt Trust Estate, Docket No. G-19119; George W. Graham, Inc., Operator, et al., Docket No. G-19123; Placid Oil Company, Operator, et al., Docket No. G-19124 and G-19125; H. L. Hunt, Operator, et al., Docket No. CI61-1221; H. L. Hunt, Docket No. CI61-1282; Hassie Hunt Trust, Operator, et al., Docket No. CI61-1283; Caroline Hunt Sands, Docket No. CI61-1343; Caroline Hunt Trust Estate, Docket No. CI61-1344; Lamar Hunt Trust Estate, Docket No. CI61-1345; Nelson Bunker Hunt, Docket No. CI61-1346; Lamar Hunt, et al., Docket No. CI61-1736.

By order issued December 28, 1961, the matters involved in Docket Nos. G-19115, G-19116, G-19117, G-19118, G-19119, G-19123, G-19124, and G-19125 were set for hearing commencing March 28, 1962, at 10:00 a.m., e.s.t., in a hearing room of the Federal Power Commission. (27 F.R. 132.)

[1] Conducting a joint common carrier service pursuant to FMC Agreement No. 7000, under the name Hoegh Lines.

Take notice that each of the following listed Applicants has filed an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the construction and operation of facilities and the sale of natural gas in interstate commerce, as hereinafter described, all as more fully set forth in the respective applications which are on file with the Commission and open to public inspection.

Each applicant herein proposes to sell natural gas to Natural Gas Pipeline Company of America for transportation in interstate commerce for resale as indicated below:

Docket No.; Seller; Date Application Filed; Field and Location
CI61-1221; H. L. Hunt, Operator, et al.; February 15, 1961; Alvin City Field, Brazoria County, Tex.
CI61-1282; H. L. Hunt; February 27, 1961; Alta Loma Area, Galveston County, Tex.
CI61-1283; Hassie Hunt Trust, Operator, et al.; February 27, 1961; Alta Loma Area, Galveston County, Tex.
CI61-1343; Caroline Hunt Sands; March 15, 1961; Chenango Field, Brazoria County, Tex.
CI61-1344; Caroline Hunt Trust Estate; March 15, 1961; Chenango Field, Brazoria County, Tex.
CI61-1345; Lamar Hunt Trust Estate; March 15, 1961; Chenango Field, Brazoria County, Tex.
CI61-1346; Nelson Bunker Hunt; March 15, 1961; Chenango Field, Brazoria County, Tex.
CI61-1736; Lamar Hunt, et al.; June 6, 1961; Zoller Field, Arkansas and Calhoun Counties, Tex.

Applicants propose to make each of the above sales at an initial price of 20 cents per Mcf (including tax reimbursement) at 14.65 psia.

The public convenience and necessity require that the matters listed in the caption above be heard on a consolidated record and disposed of as promptly as possible under the applicable rules and regulations and to that end:

Take notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing will be held commencing on March 28, 1962, at 10:00 a.m., e.s.t., in a hearing room of the Federal Power Commission, 441 G Street NW., Washington, D.C., concerning the matters involved in and the issues presented by the above-listed applications.

Those parties who have been permitted to intervene in Docket Nos. G-19115, G-19116, G-19117, G-19118, G-19119, G-19123, G-19124, and G-19125 are considered interveners in those matters only.

Further, protests, petitions to intervene or notices of intervention may be filed with the Federal Power Commission, Washington 25, D.C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) in Docket Nos. CI61-1221, CI61-1282, CI61-1283, CI61-1343, CI61-1344, CI61-1345, CI61-1346 and CI61-1736 on or before February 28, 1962.

JOSEPH H. GUTRIDE,
Secretary.

[F.R. Doc. 62-1459; Filed, Feb. 13, 1962; 8:45 a.m.]

[Docket No. RI61-220]

OWEN PRODUCTION CO.[1]

Order Substituting Respondent, Accepting Successor's Corporate Surety Bond and Redesignating Proceeding

FEBRUARY 7, 1962.

Owen Production Company by assignment of oil and gas leases dated May 22, 1961, acquired all of the undivided interests owned by J. P. Owen in leases covered by gas sales contract between J. P. Owen and The Preston Oil Company, Sellers, and United Fuel Gas Company, Buyer, dated August 5, 1959, for the sale of gas from the Duson Field, Lafayette Parish, Louisiana. J. P. Owen on October 3, 1960, filed Supplement No. 1 to J. P. Owen's FPC Gas Rate Schedule No. 3, proposing to increase the rate and charge for natural gas subject to the Commission's jurisdiction covered by the subject contract. Subsequent to suspension by the Commission on November 2, 1960, the proposed new rate became effective as of April 3, 1961, subject to refund and the filing of a bond by J. P. Owen. The Commission by letter dated June 2, 1961, extended the time for filing of a bond to thirty days to June 30, 1961 as requested by J. P. Owen.

On June 26, 1961, Owen Production Company filed a motion requesting substitution of Owen Production Company in the place of J. P. Owen as Respondent in the proceeding under Docket No. RI61-220, the posting of a bond by the successor, the adopting of J. P. Owen's letter request for extension of time for the filing of a bond, and the approval of a corporate surety bond in the amount of $5,100 conditioned on the payment of refunds and compliance with the Commission's notice issued May 1, 1961 in Docket No. RI61-220, and the provisions of the Natural Gas Act relating thereto.

Owen Production Company filed a corporate surety bond in the amount of $5,100 on June 26, 1961 to secure the payment of refunds as provided in the notice referred to above.

The Commission finds: It is necessary and proper in carrying out the provisions of the Natural Gas Act that Owen Production Company be substituted for J. P. Owen in the above-designated proceeding, that said proceeding be redesignated accordingly, and that the successor's bond be accepted for filing.

The Commission orders:

(A) Owen Production Company is hereby substituted for J. P. Owen as Respondent in the proceeding in Docket No. RI61-220 and the proceeding is accordingly redesignated.

[1] Successor to J. P. Owen.

(B) The corporate surety bond filed in this proceeding on June 26, 1961, by Owen Production Company, as successor to J. P. Owen, is hereby accepted for filing.

By the Commission.

JOSEPH H. GUTRIDE,
Secretary.

[F.R. Doc. 62-1460; Filed, Feb. 13, 1962; 8:45 a.m.]

NATURAL GAS ADVISORY COUNCIL

Establishment

FEBRUARY 8, 1962.

It is hereby determined, in connection with the performance of duties imposed on the Federal Power Commission, that it is in the public interest that a Natural Gas Advisory Council be, and it hereby is established.

1. *Purpose.* The Natural Gas Advisory Council (Council) shall advise and make recommendations to the Commission on matters concerning the regulation of the natural gas industry. The Council shall not advise or make recommendations with respect to any case or controversy pending before the Commission.

2. *Membership of the Council.* The Council shall consist of members from the following organizations, as indicated below:

American Gas Association, two members.
American Municipal Association, one member.
American Petroleum Institute and Mid-Continent Oil & Gas Association, one member jointly.
Independent Natural Gas Association of America, two members.
Independent Petroleum Association of America, one member.
National Association of Railroad and Utilities Commissioners, two members.
United States Conference of Mayors, one member.

The Chairman of the Commission may also appoint one or two members-at-large. In addition, there shall be an alternate appointed for each Council member. Council members will be permitted to bring technical advisors to the meeting with the advance permission of the Chairman of the Commission. The members of the Commission and such staff members as the Chairman of the Commission shall designate will also attend Council meetings.

3. *Selection of Council members.* All Council members and alternates shall be selected by the Chairman of the Commission. The Council members and alternates from each of the organizations listed in Paragraph 2, *Membership of the Council*, shall be selected from lists (containing at least the number of names requested by the Chairman of the Commission) submitted by the president or other authorized officer of each organization.

4. *Chairman and Secretary for Council meetings.* The Chairman of the Commission, or in his absence, the Vice Chairman of the Commission, shall act as Chairman of the Council meetings and

shall be responsible for opening and conducting the meeting and for adjourning the meeting when, in his judgment, adjournment is in the public interest.

The Chairman of the Commission shall appoint a Secretary from among the members of the Commission staff who shall be responsible for preparing summary minutes of the Council meetings, preparing agenda, notifying members of the meetings, and maintaining all records related to organization, membership and operations of the Council.

5. *Preparation of the agenda.* Suggestions for agenda items by Council members shall be submitted to the Secretary of the Council and transmitted to the Commission for its consideration. Suggestions received by the Commission from persons other than Council members may, at the option of the Commission, be placed on the agenda. The final selection of items for Council consideration shall be made solely by the Commission.

6. *Notification of meetings.* The Secretary shall notify each Council member and alternate at least 15 days in advance of scheduled meetings and simultaneously request notification if the member or his alternate does not plan to attend. A copy of the agenda shall be forwarded to each Council member and alternate as far in advance of the meeting as possible, but in any event no later than the date of the notification letter.

7. *Location and timing of meetings.* All meetings will convene at the office of the Federal Power Commission, located at 441 G Street NW., Washington 25, D.C., unless otherwise directed by the Chairman of the Commission. Ordinarily, these meetings will be held during the regular working hours of the Federal Power Commission. The Council shall meet in October of each year and at other times upon the call of the Chairman of the Commission.

8. *Advice and recommendations offered by the Council.* The advice and recommendations of the members of the Council may be presented to the Commission at Council meetings either orally or in written form. Ultimate decisions based on the Council's advice or recommendations are reserved to the Federal Power Commission.

9. *Duration of the Council.* The Natural Gas Advisory Council shall terminate not later than two years subsequent to its date of establishment, unless the Commission determines in writing, not more than 60 days prior to the expiration of such two-year period, that its continued existence is in the public interest. A like determination by the Commission shall be required not more than 60 days prior to the end of each subsequent two-year period to continue the existence of such Council thereafter.

By the Commission.

[SEAL] JOSEPH H. GUTRIDE, *Secretary.*

MOTOR CARRIER ALTERNATE ROUTE DEVIATION NOTICES

FEBRUARY 9, 1962.

The following letter-notices of proposals to operate over deviation routes for operating convenience only with service at no intermediate points have been filed with the Interstate Commerce Commission, under the Commission's deviation rules revised, 1957 (49 CFR 211.1(c)(8)) and notice thereof to all interested persons is hereby given as provided in such rules (49 CFR 211.1(d)(4)).

Protests against the use of any proposed deviation route herein described may be filed with the Interstate Commerce Commission in the manner and form provided in such rules (49 CFR 211.1(e)) at any time but will not operate to stay commencement of the proposed operations unless filed within 30 days from the date of publication.

Successively filed letter-notices of the same carrier under the Commission's deviation rules revised, 1957, will be numbered consecutively for convenience in identification and protests if any should refer to such letter-notices by number.

MOTOR CARRIERS OF PROPERTY

No. MC 222 (Deviation No. 4), NEW YORK CONSOLIDATED FREIGHTWAYS CORPORATION, 715 South 29th Avenue, Bellwood, Ill., filed January 29, 1962. Carrier proposes to operate as a *common carrier*, by motor vehicle, of *general commodities*, with certain exceptions, over a deviation route as follows: From Toledo, Ohio, and Detroit, Mich., over Interstate Highway 75, for operating convenience only, serving no intermediate points. The notice indicates that the carrier is presently authorized to transport the same commodities over a pertinent service route as follows: From Toledo over U.S. Highway 25 to Detroit, and return over the same route.

No. MC 6894 (Deviation No. 2), MILVIN TRUCKING COMPANY, 1818 South Washington Street, Peoria 2, Ill., filed January 31, 1962. Carrier proposes to operate as a *common carrier*, by motor vehicle, of *general commodities*, with certain exceptions, over a deviation route between East Peoria and Morton, Ill., over Interstate Highway 74, for operating convenience only, serving no intermediate points. The notice indicates that the carrier is presently authorized to transport the same commodities over a pertinent service route as follows: From East Peoria over U.S. Highway 150 to Morton, and return over the same route.

No. MC 28675 (Sub-No. 2) (Deviation No. 1), W. FORD JOHNSON CARTAGE, INC., 117½ West Grand River, Howell, Mich., filed January 4, 1962. Attorney Eugene C. Ewald, Guardian Building, Detroit 26, Mich. Carrier proposes to operate as a *common carrier*, by motor vehicle, of *general commodities*, with certain exceptions over a deviation route as follows: From Detroit, Mich., over Interstate Highway 96 to junction U.S. Highway 127, thence over U.S. Highway 127 to Lansing, Mich., and return over the same route, for operating convenience only, serving no intermediate points. The notice indicates that the carrier is presently authorized to transport the same commodities over a pertinent service route as follows: From Detroit over U.S. Highway 16 to Lansing, and return over the same route.

No. MC 39763 (Deviation No. 2), G. E. GROGER TRUCK LINE, INC., Walton, Ky., filed January 31, 1962. Attorney Paul F. Bradley, P.O. Box 127, Frankfort, Ky. Carrier proposes to operate as a *common carrier*, by motor vehicle, of *general commodities*, with certain exceptions, over a deviation route as follows: From the junction of U.S. Highway 25 and Kentucky Highway 17, at Covington, Ky., over U.S. Highway 25 to junction Kentucky Highway 16, at Walton, Ky., and return over the same route, for operating convenience only, serving no intermediate points. The notice indicates that the carrier is presently authorized to transport the same commodities over a pertinent service route as follows: From Walton over Kentucky Highway 16 to junction Kentucky Highway 17, thence over Kentucky Highway 17 to junction U.S. Highway 25, thence over U.S. Highway 25 to Cincinnati, Ohio, and return over the same route.

No. MC 40858 (Deviation No. 6), THE SILVER FLEET MOTOR EXPRESS, INC., Eastman Road, Kingsport, Tenn., filed February 1, 1962. Carrier proposes to operate as a *common carrier*, by motor vehicle, of *general commodities*, with certain exceptions, over a deviation route as follows: From Louisville, Ky., over Interstate Highway 64 to junction Kentucky Highway 251, approximately 2 miles south of Graefenburg, Ky., and return over the same route, for operating convenience only, serving no intermediate points. The notice indicates that the carrier is presently authorized to transport the same commodities over a pertinent service route as follows: From Louisville over U.S. Highway 60 to Owensburg, thence over Kentucky Highway 151 to a point approximately 2 miles south of Graefenburg, and return over the same route.

No. MC 40858 (Deviation No. 7), THE SILVER FLEET MOTOR EXPRESS, INC., Eastman Road, Kingsport, Tenn., filed February 1, 1962. Carrier proposes to operate as a *common carrier*, by motor vehicle, of *general commodities*, with certain exceptions, over a deviation route as follows: From Knoxville, Tenn., over Interstate Highway 40 to junction U.S. Highway 70, approximately 2 miles west of Kingston, Tenn., and return over the same route, for operating convenience only, serving no intermediate points. The notice indicates that the carrier is presently authorized to transport the same commodities over a pertinent service route as follows: From Knoxville over U.S. Highway 70 to Crossville, Tenn., thence over U.S. Highway 70N to Nashville, Tenn., and return over the same route.

No. MC 60393 (Deviation No. 1), CENTRAL TRANSFER COMPANY, 2118 South Griswold Street, Peoria, Ill., filed January 30, 1962. Attorney Edward G. Bazelon, 39 South LaSalle Street, Chicago 3, Ill. Carrier proposes to operate as a *common carrier*, by motor vehicle, of *general commodities*, with certain exceptions, over a deviation route between Peoria and Morton, Ill., over Interstate Highway 74, for operating convenience only, serving no intermediate points. The notice indicates that the carrier is presently authorized to transport the same commodities over a pertinent service route as follows: From Peoria over U.S. Highway 150 to Bloomington, Ill., and return over the same route.

No. MC 66562 (Deviation No. 8), RAILWAY EXPRESS AGENCY, INCORPORATED, 219 East 42d Street, New York 17, N.Y., filed September 25, 1961. Attorney William H. Marx, same address. Carrier proposes to operate as a *common carrier*, by motor vehicle, of *general commodities*, moving in express service, over a deviation route between Cincinnati and Findlay, Ohio, over Interstate Highway 75, for operating convenience only, serving no intermediate points. The notice indicates that the carrier is presently authorized to transport the same commodities over pertinent service routes as follows: From Detroit, Mich., over U.S. Highway 25 to junction Michigan Highway 85, thence over Michigan Highway 85 to junction Alternate U.S. Highway 24, thence over Alternate U.S. Highway 24 to Maumee, Ohio, thence over U.S. Highway 25 to junction U.S. Highway 68, thence over U.S. Highway 68 to Springfield, Ohio, thence over Ohio Highway 4 to Cincinnati; and from Springfield, Ohio, over U.S. Highway 68 to Xenia, Ohio, thence over U.S. Highway 42 to Cincinnati, and return over the same routes.

No. MC 69116 (Deviation No. 11), SPECTOR FREIGHT SYSTEM, INC., 3100 South Wolcott Avenue, Chicago 8, Ill., filed February 1, 1962. Carrier proposes to operate as a *common carrier*, by motor vehicle, of *general commodities*, with certain exceptions, over a deviation route between Chicago, Ill., and Detroit, Mich., over Interstate Highway 94, for operating convenience only, serving no intermdiate points. The notice indicates that the carrier is presently authorized to transport the same commodities over a pertinent service route as follows: From Chicago over U.S. Highway 12 to Detroit, and return over the same route.

No. MC 106456 (Deviation No. 6), SUPER SERVICE MOTOR FREIGHT COMPANY, INC., Fessler Lane, Nashville, Tenn., filed January 31, 1962. Attorney J. R. Browder, same address. Carrier proposes to operate as a *common carrier*, by motor vehicle, of *general commodities*, with certain exceptions, over a deviation route as follows: From Hillsboro, Tenn., over U.S. Highway 41 to junction Interstate Highway 24, northwest of Pelham, Tenn., thence over Interstate Highway 24 to junction U.S. Highway 64, thence over U.S. Highway 64 to Monteagle, Tenn., and return over the same route, for operating convenience only, serving no intermediate points. The notice indicates that the carrier is presently authorized to transport the same commodities over a pertinent service route as follows: From Nashville, Tenn., over U.S. Highway 41 to Chattanooga, Tenn., and return over the same route.

No. MC 109780 (Deviation No. 8), TRANSCONTINENTAL BUS SYSTEM, INC., 315 Continental Avenue, Dallas, Tex., filed January 31, 1962. Attorney C. Zimmerman, P.O. Box 730, Wichita, Kans. Carrier proposes to operate as a *common carrier*, by motor vehicle, of *passengers and their baggage*, over a deviation route as follows: From Abilene, Kans., over Interstate Highway 70 to junction U.S. Highway 81, approximately 1½ miles north of Salina, Kans., thence over U.S. Highway 81 to Salina, Kans., and return over the same route, for operating convenience only, serving no intermediate points. The notice indicates that the carrier is presently authorized to transport passengers over pertinent service routes as follows: From McPherson, Kans., over U.S. Highway 81, via Salina to Concordia, Kans.; and from Salina over U.S. Highway 40 to Abilene, and return over the same routes.

By the Commission.

[SEAL] HAROLD D. MCCOY, *Secretary.*

[Notice 421]

MOTOR CARRIER APPLICATIONS AND CERTAIN OTHER PROCEEDINGS

FEBRUARY 9, 1962.

The following publications are governed by the Interstate Commerce Commission's general rules of practice including special rules (49 CFR 1.241) governing notice of filing of applications by motor carriers of property or passengers or brokers under sections 206, 209, and 211 of the Interstate Commerce Act and certain other proceedings with respect thereto.

All hearings and pre-hearing conferences will be called at 9:30 a.m., local daylight saving time (if that time is observed), unless otherwise specified.

APPLICATIONS ASSIGNED FOR ORAL HEARING OR PRE-HEARING CONFERENCE

MOTOR CARRIERS OF PROPERTY

No. MC 263 (Sub-No. 135), filed November 20, 1961. Applicant: GARRETT FREIGHTLINES, INC., 2055 Pole Line Road, Pocatello, Idaho. Applicant's attorney: Maurice H. Greene, Boise, Idaho. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities, including Classes A and B explosives* (but excluding those of unusual value, household goods as defined by the Commission, commodities in bulk, commodities requiring special equipment, and those injurious or contaminating to other lading), between Lewiston, Idaho, and Missoula, Mont.; from Lewiston over Idaho Highway 9 to the Idaho-Montana State line, thence over unnumbered highway to the junction of unnumbered highway with U.S. Highway 93 at or near Lolo, Mont., thence over U.S. Highway 93 to Missoula, and return over the same route, serving all intermediate points.

HEARING: March 19, 1962, at the Davenport Hotel, Spokane, Wash., before Joint Board No. 79, or, if the Joint Board waives its right to participate before Examiner Richard White.

No. MC 3094 (Sub-No. 13), filed January 26, 1962. Applicant: SERVICE MOTOR FREIGHT, INC., Atlantic Avenue, Lawnside, N.J. Applicant's attorney: Clarence D. Todd, 1825 Jefferson Place NW., Washington 6, D.C. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Equipment, materials and supplies used in the installation and erection of fiberglas materials and products, fibrous glass mineral wool products, fibrous glass textile materials and products, plastic materials and products*, in mixed shipments with such materials and products, between Barrington, N.J., on the one hand, and, on the other, points in Connecticut, Delaware, the District of Columbia, Georgia, Illinois, Indiana, Kentucky, Maine, Maryland, Massachusetts, New Hampshire, New Jersey, New York, North Carolina, Ohio, Pennsylvania, Rhode Island, South Carolina, Tennessee, Virginia, Vermont, West Virginia, and the lower peninsula of Michigan.

NOTE: Applicant states the above requested authority to be limited to a transportation service to be performed under a continuing contract, or contracts, with Owens-Corning Fiberglas Corp., of Toledo, Ohio. Applicant also states that it is under common control with Atlas Freight Lines, Inc., and B & L Motor Freight, Inc.

HEARING: March 26, 1962, at the Offices of the Interstate Commerce Commission, Washington, D.C., before Examiner Henry C. Darmstadter.

No. MC 10183 (Sub-No. 4), filed January 29, 1962. Applicant: SALLY BRAZDON, Rosenhayn (Cumberland County), N.J. Applicant's attorney: V. Baker Smith, 2107 Fidelity-Philadelphia Trust Building, Philadelphia, Pa. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Glassware* (other than cut), *Bottles* (not ampoules), *Carboys, Demijohns, Jars*, and *Packing Glasses, with or without their equipment of caps, covers, stoppers or tops*, from Salem, N.J., to Hurlock, Md.

NOTE: Applicant advises that the transportation in the proposed service, will be limited to that performed under a continuing contract or contracts with the American Stores Company.

HEARING: March 29, 1962, at the Offices of the Interstate Commerce Commission, Washington, D.C., before Joint Board No. 283.

No. MC 10183 (Sub-No. 5), filed January 29, 1962. Applicant: SALLY BRAZDON, Rosenhayn (Cumberland County), N.J. Applicant's attorney: V. Baker Smith, 2107 Fidelity-Philadelphia Trust Building, Philadelphia, Pa. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Foodstuffs, canned, preserved and prepared*, from Aberdeen, Hampstead, Greenmount, Frederick, Gaithersburg, Bel Air, Darlington, Havre de Grace, Westminster, and Perryman, Md., and St. Georges, Del., to Forty Fort, Pa., Kearny, N.J., and Philadelphia, Pa.

NOTE: Applicant advises that the transportation in the proposed service, will be limited to that performed under a continuing contract or contracts with the American Stores Company.

HEARING: March 28, 1962, at the Offices of the Interstate Commerce Commission, Washington, D.C., before Examiner Raymond V. Sar.

No. MC 22254 (Sub-No. 33), filed December 8, 1961. Applicant: TRANS-AMERICAN VAN SERVICE, INC., 7540 South Western Avenue, Chicago 20, Ill. Applicant's attorney: Eugene L. Cohn, 1 North LaSalle Street, Chicago 2, Ill. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Self-propelled passenger or property carrying golf buggies*, or *commercial adaptations thereof*, uncrated, weighing not more than 1,500 pounds, and *parts and accessories therefor* when accompanying said vehicles, between points in the United States, including the District of Columbia, but excluding Alaska and Hawaii.

NOTE: Applicant refers to application for joint control, with others, of T. E. K. Van Lines, Inc. (MC-F-7252).

HEARING: March 21, 1962, at the Midland Hotel, Chicago, Ill., before Examiner Charles J. Murphy.

No. MC 26377 (Sub-No. 12), filed December 4, 1961. Applicant: LEONARDO TRUCK LINES, INC., Granger, Wash. Applicant's attorney: Earle V. White, Fifth Avenue Building, 2130 Southwest Fifth Avenue, Portland 1, Oreg. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Lumber, plywood, pressed board, fibreboard*, and *wallboards*, from points in Benton, Linn, Marion, and Polk Counties, Oreg., to points in Yakima and Benton Counties, Wash.

HEARING: March 26, 1962, at the Interstate Commerce Commission Hearing Room, 410 Southwest 10th Avenue, Portland, Oreg., before Examiner Richard White.

No. MC 28956 (Sub-No. 8), filed December 14, 1961. Applicant: [illegible] RYALS, doing business as [illegible] TRUCK SERVICE, P.O. Box 294, [illegible] Oreg. Applicant's attorney: [illegible] White, Fifth Avenue Building, [illegible] Southwest Fifth Avenue, Portland 1, Oreg. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Fertilizers*, dry, in bags and in bulk, from Tacoma, Wash., to points in Oregon.

HEARING: March 27, 1962, at the Interstate Commerce Commission Hearing Room, 410 Southwest 10th Avenue, Portland, Oreg., before Examiner Richard White.

No. MC 29116 (Sub-No. 9), filed February 2, 1962. Applicant: [illegible] TRANSPORTS, INCORPORATED, [illegible] East 17 Street, Kansas City, Mo. Applicant's attorney: Donald L. Stern, [illegible] City National Bank Building, Omaha 2, Nebr. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Processed foods*, from Milan, Marshall, Carrollton, Moberly, and Macon, Mo., to points in Iowa, Nebraska, Minnesota, North Dakota, and South Dakota.

HEARING: March 21, 1962, at the U.S. Court House and Custom House, 1114 Market Street, St. Louis, Mo., before Examiner Garland E. Taylor.

No. MC-42261 (Sub-No. 62), filed February 6, 1962. Applicant: [illegible] TRANSPORT CORP., Route 1, Ford [illegible] Danforth Avenue, Jersey City, N.J. Applicant's attorney: Charles J. [illegible] 1060 Broad Street, Newark 2, N.J. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Chemicals*, in bulk, from Cleveland, Ohio, to points in Illinois, Minnesota, Wisconsin, and St. Louis, Mo., and *rejected shipments*, on return.

HEARING: February 20, 1962, at the Offices of the Interstate Commerce Commission, Washington, D.C., before Examiner Reece Harrison.

No. MC 42487 (Sub-No. 534), filed January 9, 1962. Applicant: CONSOLIDATED FREIGHTWAYS CORPORATION OF DELAWARE, 175 [illegible] Drive, Menlo Park, Calif. Applicant's attorney: Donald A. Schafer, [illegible] Southeast Evergreen Highway, Vancouver, Wash. Authority sought to operate as a common carrier, by motor vehicle, over regular routes, transporting: *General commodities* (except petroleum products in bulk in trucks), (1) between Lewiston, Idaho, and Missoula, Mont.; from Lewiston over Idaho Highway 9 to the Idaho-Montana State line, thence over unnumbered highway to the junction of the unnumbered highway with U.S. Highway 93 at or near Lolo, thence over U.S. Highway 93 to Missoula, and return over the same route, serving no intermediate points; and (2) between Grangeville, Idaho, and Kooskia, Idaho, from Grangeville over Idaho Highway 13 to Kooskia (the junction of Idaho Highways 13 and 9), and return over the same route, serving no intermediate points, and with service at Grangeville, Idaho, and Kooskia for the purpose of joinder only.

HEARING: March 19, 1962, at the Davenport Hotel, Spokane, Wash., before Joint Board No. 79, or, if the Joint Board waives its right to participate, before Examiner Richard White.

No. MC 47323 (Sub-No. 11), (AMENDED AND CLARIFIED), filed September 6, 1961, published FEDERAL REGISTER issue December 20, 1961, republished as amended and clarified this issue. Applicant: TAJON TRUCKING CO., a Corporation, Route 5, Mercer, Pa. Applicant's attorney: Donald E. Cross, Investment Building, Washington 4, D.C. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Commodities*, in bulk, in dump vehicles, between points in Illinois, Indiana, Kentucky, Maryland, Michigan, New York, Ohio, Pennsylvania, Virginia, and West Virginia.

Cowan, 425 Burlington Avenue, Billings, Mont. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities* (except Classes A and B explosives and household goods as defined by the Commission). This application is for appropriate authority to amend or modify the second restriction appearing on Sheet 6 of the "Corrected Certificate of Public Convenience and Necessity," No. MC 63562 (Sub-No. 32), dated December 3, 1959, insofar as said restriction applies on shipments transported by carrier to or from Portland, Oreg. No change in routes, commodities, key points or other named restrictions or conditions is proposed. The application proposes the modification of the second restriction, appearing on Sheet 6 of Corrected Certificate MC 63562 (Sub-No. 32), by eliminating therefrom Portland, Oreg., thereby permitting the use of this authority to transport shipments, in substituted truck-for-rail service, which originate at Portland, Oreg., or have a final destination at Portland, Oreg. The service to be performed by the applicant to or from Portland, Oreg., shall be limited to that which is auxiliary to, or supplemental of, rail service of the Railways, and no service shall be rendered by the applicant from or to, or interchange traffic at any point not a station on the lines of the railways and moving on rail bill of lading or express receipt, *but not requiring an immediately prior or immediately subsequent movement by railroad.*

NOTE: Applicant states it is controlled by Northern Pacific Railway Company through stock ownership to wit, 5,000 shares of stock issued and held by said Railway Company. Northern Pacific Railway Company joins in this application.

HEARING: March 29, 1962, at the Interstate Commerce Commission Hearing Room, 410 Southwest 10th Avenue, Portland, Oreg., before Examiner Richard White.

No. MC 79695 (Sub-No. 22), filed December 13, 1961. Applicant: STEEL TRANSPORTATION CO., INC., 4000 Cline Avenue, East Chicago, Ind. Applicant's attorney: Robert W. Loser, 409 Chamber of Commerce Building, Indianapolis, Ind. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Iron and steel articles*, as described in Appendix V, Descriptions in Motor Carrier Certificates, Ex Parte MC-45, from points in Kankakee County, Ill., to points in North Dakota, South Dakota, Minnestota, Nebraska, Iowa, Kentucky, Indiana, Wisconsin, Michigan, Ohio, Pennsylvania, and West Virginia, and *empty containers or other such incidental facilities* (not specified), used in transporting the above-specified commodities, on return.

HEARING: March 23, 1962, at the Midland Hotel, Chicago, Ill., before Examiner Charles J. Murphy.

No. MC 83617 (Sub-No. 2), filed January 5, 1962. Applicant: MARSHALLTOWN FREIGHTERS, INC., Laurel, Iowa. Applicant's representative: George S. Mullins, 4704 West Irving Park Road, Chicago 41, Ill. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Household laundry appliances*, namely *dryers, washers and dryers combined*, gas and electric, from Newton, Iowa, to Chicago, Ill.

NOTE: Applicant states the proposed operation is for Maytag Chicago Company, 1230 South Western Avenue, Chicago, Ill.

HEARING: April 20, 1962, at the Midland Hotel, Chicago, Ill., before Joint Board No. 53.

HEARING: March 27, 1962, at 346 Broadway, New York, N.Y., before Examiner Parks M. Low.

No. MC 117119 (Sub-No. 42), filed December 6, 1961. Applicant: WILLIS SHAW FROZEN EXPRESS, INC., Elm Springs, Ark. Applicant's attorneys: John H. Joyce, 26 North College, Fayetteville, Ark., and A. Alvis Layne, Pennsylvania Building, Washington 4, D.C. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Frozen foods*, from Chicago and Deerfield, Ill., to points in Arkansas, Tennessee, Kentucky, Alabama, Georgia, Mississippi, Louisiana and Indiana, and *empty containers or other such incidental facilities* (not specified), used in transporting the above-specified commodity, on return.

HEARING: March 19, 1962, at the Midland Hotel, Chicago, Ill., before Examiner Charles J. Murphy.

No. MC 117574 (Sub-No. 63), filed January 31, 1962. Applicant: DAILY EXPRESS, INC., Box 311, R.D. No. 1, Carlisle, Pa. Applicant's attorney: James E. Wilson, Perpetual Building, 1111 E Street NW., Washington 4, D.C. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Cooling and freezing machinery and equipment, materials, equipment and supplies used in and incidental to the installation of such cooling and freezing machinery and equipment*, from La Crosse, Wis., to points in Ohio, Pennsylvania, New York, New Jersey, West Virginia, Maryland, Delaware, Rhode Island, Connecticut, Massachusetts, Virginia, Kentucky, and New Hampshire.

HEARING: March 13, 1962, at the Offices of the Interstate Commerce Commission, Washington, D.C., before Examiner Donald R. Sutherland.

No. MC 117774 (Sub-No. 1), filed December 18, 1961. Applicant: GEORGE A. TAYLOR, INC., 244 Spring Street, Avon, N.Y. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Mineral wool, in mixed shipments only with gypsum products, plaster retarder, plaster accelerator, plasterboard joint system, tape* and *wallboard*, from Wheatland, N.Y., to points in Ohio, points in Pennsylvania on the west of U.S. Highway 15, and points in Macomb, Monroe, Wayne, and Oakland Counties, Mich., and *empty containers or other such incidental facilities* (not specified) used in transporting the above-specified commodity and *rejected shipments*, on return.

NOTE: Applicant states the proposed operation is restricted to movements under continuous contract with the Ruberiod Co., shipper. Carrier holds authority in Permit MC 117774 to transport the commodities named above from Wheatland, N.Y., to the above-described destination territory. This application seeks authority to transport mineral wool in mixed shipments only with those commodities.

HEARING: March 26, 1962, at 346 Broadway, New York, N.Y., before Examiner Parks M. Low.

No. MC 117823 (Sub-No. 5) (AMENDMENT), filed January 4, 1962, published FEDERAL REGISTER issue February 7, 1962, amended February 6, 1962, and republished this issue. Applicant: RALPH F. DUNKLEY, doing business as DUNKLEY DISTRIBUTING COMPANY, 240 California Avenue, Salt Lake City, Utah. Applicant's attorney: Lon Rodney Kump, 716 Newhouse Building, Salt Lake City 11, Utah. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Frozen foods*, in less-than truckload shipments not to exceed 10,000 pounds when shipped in connection with frozen fruits, frozen vegetables and frozen berries, (1) from points in Los Angeles, Orange, Ventura, San Bernardino, and Riverside Counties, Calif., to points in

Utah, Wyoming, Montana, and points in Idaho south of the southern boundary of Idaho County, and (2) from Ogden, Salt Lake City, and Provo, Utah, to points in Idaho south of the southern boundary of Idaho County.

NOTE: The purpose of this republication is to add route (2) to the authority previously sought.

HEARING: Remains as assigned, March 28, 1962, at the Federal Building, Los Angeles, Calif., before Examiner Charles B. Heinemann.

No. MC 118039 (Sub-No. 1), filed January 19, 1962. Applicant: A. V. EDMONDSON, Box 195, Forrest Park, Ga. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Meat products* (fresh and cured), in mechanically equipped refrigerated vehicles, from Lovejoy, Ga., and points in Henry and Clayton Counties, Ga., to points in South Carolina, Florida, Alabama, Mississippi, and Louisiana, and *bananas and exempt commodities*, on return.

HEARING: March 21, 1962, at 680 West Peachtree Street NW., Atlanta, Ga., before Examiner Lacy W. Hinely.

No. MC 118567 (Sub-No. 1), filed January 12, 1962. Applicant: NYAD MOTOR FREIGHT, INC., Pier 22, East River, New York, N.Y. Applicant's attorney: Harris J. Klein, 280 Broadway, New York 7, N.Y. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Such commodities as are handled, used, sold or dealt in by chain or department stores*, between New York, N.Y., and Metuchen, N.J., on the one hand, and, on the other, Washington, D.C., and points in Delaware, Virginia, and Maryland.

NOTE: Applicant states the proposed operation is restricted solely to the service of W. T. Grant Co.

HEARING: March 27, 1962, at the U.S. Army Reserve Building, 30 West 44th Street, New York, N.Y., before Examiner William A. Royall.

No. MC 118898 (Sub-No. 4) (AMENDMENT), filed October 4, 1962, published in FEDERAL REGISTER, issue of October 25, 1961, republished this issue as amended February 7, 1962. Applicant: T. P. TRUCKING COMPANY, INC., 1489 Grady Avenue, Yazoo City, Miss. Applicant's attorney: Rubel L. Phillips, P.O. Box 961, 829 Deposit Guaranty Bank Building, Jackson, Miss. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Manufactured fertilizer, dry, in packages*, and *urea, dry, in packages*, from Canton, Greenville, Hattiesburg, Magee, Meridian, Pascagoula, and Yazoo City, Miss., to points in Alabama, Arkansas, Florida, Louisiana, Tennessee, and Texas.

NOTE: Applicant states that the transportation is to be limited to service performed under a continuing contract with Coastal Chemical Corporation, Yazoo City, Miss. The purpose of this republication is to remove "in bulk" from the descriptions of the commodities proposed to be transported, thereby limiting the movements to manufactured fertilizer and urea, "dry, in packages", and to add five origin points, Canton, Greenville, Hattiesburg, Magee and Meridian, Miss.

HEARING: Remains as assigned March 8, 1962, at the Robert E. Lee Hotel, Jackson, Miss., before Examiner Francis A. Welch.

No. MC 119164 (Sub-No. 12), filed January 15, 1962. Applicant: J-E-M TRANSPORTATION CO., INC., P.O. Box 444, Middletown, N.Y. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Soda ash*, and *potassium carbonate*, in bulk, in tank vehicles, in hopper and pneumatic type equipment, from Niagara Falls, and Solvay, N.Y., to Wellsboro, Pa., and *returned and rejected shipments*, on return.

HEARING: March 26, 1962, at the U.S. Army Reserve Building, 30 West 44th Street, New York, N.Y., before Examiner William A. Royall.

No. MC 119531 (Sub-No. 12), filed December 7, 1961. Applicant: DIECKBRADER EXPRESS, INC., 5391 Eastern Avenue, Cincinnati 26, Ohio. Applicant's attorney: Charles W. Singer, 33 North La Salle Street, Suite 3600, Chicago 2, Ill. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Tin cans* and *tin can ends* from Chicago, Ill., to Caro, Mich., and points in that portion of Ohio on, north and west of a line beginning at the Indiana-Ohio state line along U.S. Highway 36 to its junction with Ohio Highway 4, and thence along Ohio Highway 4 to Sandusky, Ohio.

HEARING: March 20, 1962, at the Midland Hotel, Chicago, Ill., before Examiner Charles J. Murphy.

No. MC 119777 (Sub-No. 5) (CORRECTION), filed December 20, 1961, published in FEDERAL REGISTER issue of January 24, 1962, republished as corrected this issue. Applicant: LIGON SPECIALIZED HAULER, INC., P.O. Drawer 31, Madisonville, Ky. Applicant's attorney: Robert M. Pearce, 221½ St. Clair Street, Frankfort, Ky. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Tractors*, regardless of how equipped (except tractors used for pulling highway trailers); *scrapers; motor graders*, regardless of how equipped; *wagons; engines; generators; engines and generators combined; welders; road rollers and compactors; cranes*, regardless of how equipped; *power sweepers; ditchers; pavers; asphalt plants; conveyors;* and *parts, attachments and accessories for the above commodities*, from Peoria, Joliet, Decatur, Aurora, Morton, and Mossville, Ill., and points within ten (10) miles of each, to points in Kentucky, Tennessee, Indiana, Ohio (except Columbus), Pennsylvania, West Virginia, and in the New York, N.Y., Commercial Zone.

NOTE: The purpose of this republication is to indicate that the operation will be conducted over "irregular routes" rather than "regular routes" as erroneously shown in the original publication.

HEARING: Remains as assigned February 27, 1962, at the Offices of the Interstate Commerce Commission, Washington, D.C., before Examiner Samuel C. Shoup.

No. MC 119917 (Sub-No. 8), filed January 22, 1962. Applicant: DUDLEY TRUCKING COMPANY, INC., 1201 Memorial Drive SE., Atlanta 16, Ga. Applicant's attorney: R. J. Reynolds, Jr., Suite 1424–35 C & S National Bank Building, Atlanta 3, Ga. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Bakery products*, from Chattanooga, Tenn., to Atlanta, Ga.

NOTE: Applicant already holds permanent authority to transport bakery products from Atlanta, Ga., to Chattanooga, Tenn.

HEARING: March 19, 1962, at the Georgia Public Service Commission, 244 Washington Street SW., Atlanta, Ga., before Joint Board No. 238, or, if the Joint Board waives its right to participate before Examiner Lacy W. Hinely.

No. MC 123081 (Sub-No. 3), filed December 21, 1961. Applicant: MAGRAY MOVERS, INC., 21–12 Newton Avenue, Long Island City, New York, N.Y. Applicant's attorney: Morris Honig, 150 Broadway, New York 38, N.Y. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *New furniture, used, repaired, refinished and reupholstered furniture*, all uncrated, between New York, N.Y., on the one hand, and, on the other, points in New Jersey, those in Connecticut on and South of U.S. Highway 6 from the New York-Connecticut State line running east to Middletown, Conn., and on and west of Connecticut Highways 17 and 77, running from Middletown, Conn., south to Long Island Sound, and those in Nassau, Suffolk, Westchester, and Rockland Counties, N.Y., and Bucks, Montgomery, Delaware, and Chester Counties, Pa.

NOTE: Applicant states, the proposed service will all be in a retail consumer delivery only.

HEARING: March 22, 1962, at 346 Broadway, New York, N.Y., before Examiner Parks M. Low.

No. MC 123304 (Sub-No. 3) (CORRECTION), filed October 31, 1961, published FEDERAL REGISTER, issue of January 24, 1962, corrected January 30, 1962, and republished, as corrected, this issue. Applicant: SOUTHERN COURIERS, INC., 1316 North Carroll Street, Dallas, Tex. Applicant's attorney: Val Sanford, 811 Third National Bank Building, Nashville 3, Tenn. Notice of the filing of the application was published in the FEDERAL REGISTER, issue of January 24, 1962. That portion of the commodity description reading: "Documentary replacement film" should read "complimentary replacement film". The county described as "Eutaw" in Part B is correctly spelled "Etowah". That portion of the territorial description reading: "Lying on the north should read "lying on *and* north.

HEARING: Remains as assigned March 15, 1962, at the Dinkler-Andrew Jackson Hotel, Nashville, Tenn., before Examiner Francis A. Welch.

No. MC 123909 (Sub-No. 1) (AMENDMENT), filed December 21, 1961, published in FEDERAL REGISTER, issue of January 17, 1962, republished as amended February 8, 1962, this issue. Applicant: LE MAR CORPORATION, P.O. Box 168, Winchester, Va. Applicant's attorney: Francis W. McInerny, Commonwealth Building, 1625 K Street NW., Washington 6, D.C. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Finished and unfinished rocket and missile inert components* and *raw materials used in the assembly thereof*, for the account of Hercules Powder Company, Inc., between the Allegeny Ballistics Laboratory at Pinto, W. Va., near Cumberland, Md., on the one hand, and on the other, points in Connecticut, Delaware, Florida, Indiana, Maine, Maryland, Michigan, New Jersey, New York, Ohio, Pennsylvania, Tennessee, Utah, Virginia, West Virginia, and the District of Columbia.

NOTE: The purpose of this republication is to add the destination states of Maine and Indiana.

HEARING: Remains as assigned February 26, 1962, at the Offices of the Interstate Commerce Commission, Washington, D.C., before Examineer Dallas Russell.

No. MC 124059 (Sub-No. 1), filed January 29, 1962. Applicant: REJER TRANSPORT, INC., 212 Pike Street, Marietta, Ohio. Applicant's attorney: James M. Burtch, 44 East Broad Street, Columbus 15, Ohio. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Pig iron*, in dump vehicles, from points in Waterford Township, Washington County, Ohio, to points in Illinois, Indiana, Kentucky, Maryland, Michigan, New Jersey, New York, Delaware, Pennsylvania, Wisconsin, and West Virginia, and *scrap metals, wood chips, coke* and *lime*, on return trips.

NOTE: Applicant states that R. O. Wetz, its president and a shareholder, holds common carrier authority (as R. O. Wetz Transportation) under MC–31438.

HEARING: March 29, 1962, at the Offices of the Interstate Commerce Commission, Washington, D.C., before Examiner James O'D Moran.

No. MC 124073, filed November 28, 1961. Applicant: ROY S. SARGEANT, INC., Barkers Mill Road, Vienna, N.J. Applicant's attorney: Edward F. Bowes, 1060 Broad Street, Newark 2, N.J. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: (1) (a) *Frozen meat* from Moosic, Pa., to Erie, Pa., Buffalo, Jamestown, Rochester, Olean, Norwich, Syracuse, Schenectady, Albany, Troy, Kingston, and Monticello, N.Y., Newark and Paterson, N.J., Stamford and Bridgeport, Conn., Woonsocket, R.I., and Pittsfield, Springfield, Boston, and Watertown, Mass.; (b) *pizza pies*, from Scranton, Pa., to New York, N.Y., and Springfield, Denville, and Westwood, N.J.; (c) *fish, breaded or unbreaded, cooked or uncooked* (when transported in the same vehicle with one or more of the following commodities: frozen meat or pizza pies, for which authority is sought in (1) (a) and (b) herein); from Exeter, Pa., to Buffalo, Fulton, Syracuse, Troy, and New York, N.Y., New Brunswick, Newark, Jersey City, and Paterson, N.J., Bridgeport and Hamden, Conn., Woonsocket and Pawtucket, R.I., and Pittsfield, Springfield and Boston, Mass.; (2) (a) *pizza pie shells*, from New York, N.Y., to Scranton, Pa.; (b) *canned tomatoes* from Glassboro and Swedesboro, N.J., to Scranton, Pa.: (c) *frozen meat* from New York, N.Y., and Newark, Jersey City, and Secaucus, N.J., to Moosic, Pa.; (d) *breading* from Union, N.J., to Moosic and Exeter, Pa., and from Jersey City, N.J., to Exeter, Pa.; (e) *pickled fish*, and *French fried potatoes* from New York, N.Y., to Exeter, Pa.; (f) *frozen fish* (when transported in the same vehicle with one or more of the following commodities: pizza pie shells, frozen meat, breading, pickled fish, French fried potatoes, or poultry, for which authority is sought in (2) (a), (c), (d), (e), and (g) herein) from Gloucester and Boston, Mass., Jersey City, N.J., and New York, N.Y., to Exeter, Pa.; and (g) *poultry* (when transported in the same vehicle with one or more of the following commodities: pizza pie shells, frozen meat, breading, pickled fish, French fried potatoes, or frozen fish, for which authority is sought in (2) (a), (c), (d), (e), and (f), herein), from New York, N.Y., to Exeter, Pa.

HEARING: March 29, 1962, at the Federal Building, Scranton, Pa., before Examiner William A. Royall.

No. MC 124088 (Sub-No. 1), filed December 29, 1961. Applicant: OHIO COURIERS, INC., 601 Broadway, Cincinnati, Ohio. Applicant's attorney: James K. Knudson, 1821 Jefferson Place NW., Washington 6, D.C. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Exposed and processed film and prints, complimentary replacement film, incidental dealer handling supplies and advertising literature moving therewith* (excluding motion picture film used primarily for commercial theatre and television exhibition), between Cleveland, Ohio, on the one hand, and, on the other, points in Ohio.

NOTE: Common control may be involved.

HEARING: April 10, 1962, at the New Post Office Building, Columbus, Ohio, before Joint Board No. 117.

No. MC 124113, filed December 18, 1961. Applicant: McGAHREN HAULAGE CORP., 704 East 11th Street, New York City, N.Y. Applicant's attorney: Arthur J. Piken, 160–16 Jamaica Avenue, Jamaica 32, N.Y. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *General department store merchandise*, from points in the New York, N.Y., Commercial Zone to Carlstadt, N.J., and *empty containers or other such incidental facilities* (not specified) used in transporting the above-specified commodity, on return.

NOTE: Applicant states the proposed operation is restricted to traffic having a prior movement via water and/or air.

HEARING: March 26, 1962, at the U.S. Army Reserve Building, 30 West 44th Street, New York, N.Y., before Examiner William A. Royall.

No. MC 124118, filed December 22, 1961. Applicant: GEORGE BLUNK, doing business as BLUNK'S TOWING SERVICE, 5901 West 87th Street, Oak Lawn, Ill. Applicant's attorney: Joseph M. Scanlan, 111 West Washington Street, Chicago 2, Ill. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Wrecked, disabled, repossessed and stolen motor vehicles* and *buses, tractors, trailers* and *trucks for replacement of wrecked, disabled, repossessed and stolen motor vehicles*, between Chicago, Ill., on the one hand, and, on the other, points in Indiana, Ohio, Michigan, Wisconsin, and Iowa.

HEARING: March 22, 1962, at the Midland Hotel, Chicago, Ill., before Examiner Charles J. Murphy.

No. MC 124125, filed December 27, 1961. Applicant: A&P EQUIPMENT & SUPPLY CORP., Morton Boulevard, Kingston, N.Y. Applicant's representative: Charles H. Trayford, 220 East 42d Street, New York 17, N.Y. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Stone and aggregate*, from points in Ulster County, N.Y., to points in Connecticut, Massachusetts, New Hampshire, New Jersey, Pennsylvania, on and east of the Susquehanna River, Rhode Island, and Vermont.

HEARING: March 26, 1962, at 346 Broadway, New York, N.Y., before Examiner Parks M. Low.

No. MC 124136, filed January 4, 1962. Applicant: TROPICAL TRANSPORT, INC., 11700 Shaker Boulevard, Cleveland 20, Ohio. Applicant's attorney: John Andrew Kundtz, 1050 Union Commerce Building, Cleveland 14, Ohio. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Cement*, in bulk, and in bags, from the plant site of the Lehigh Portland Cement Company at Bunnell, Fla., to points in Lowndes County, Ga., and *rejected and returned shipments* of the commodity specified above, on return.

NOTE: Common control may be involved. Applicant has contract authority under MC 118952 and Sub 1 thereunder, therefore, dual operations may be involved.

HEARING: March 19, 1962, at the Georgia Public Service Commission, 244 Washington Street SW., Atlanta, Ga., before Joint Board No. 64, or, if the Joint Board waives its right to participate, before Examiner Lacy W. Hinely.

No. MC–124142, filed January 10, 1962. Applicant: BULK TRANSPORT COMPANY, a corporation, Calumet Street, Burlington, Wis. Applicant's attorney: Paul F. Sullivan, 1821 Jefferson Place NW., Washington 6, D.C. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Petroleum products*, in bulk, in tank vehicles, from Dubuque, Iowa, to points in Wisconsin.

NOTE: Applicant advises the applicant corporation and Quality Carriers, Inc., are commonly controlled. Also, dual operations may be involved, since carrier holds common carrier authority in MC–112893 and subs thereunder.

HEARING: April 26, 1962, at the Wisconsin Public Service Commission, Madison, Wis., before Joint Board No. 111.

No. MC 124146, filed January 15, 1962. Applicant: L. G. INC., doing business as L. G. TRUCKING, Route 2, Box 1003, San Jose, Calif. Applicant's representative: Pete H. Dawson, 1261 Drake Avenue, P.O. Box 1007, Burlingame, Calif. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Beer*, in cans, bottles, kegs, and barrels, between San Jose, Calif., on the one hand, and on the other, San Francisco, Oakland, Alameda, Richmond, and the Port of Redwood City (near Redwood City), Calif.

HEARING: April 9, 1962, at the Mint Building, 133 Hermann Street, San Francisco, Calif., before Joint Board No. 75, or, if the Joint Board waives its right to participate, before Examiner F. Roy Linn.

No. MC 124154, filed January 16, 1962. Applicant: W. D. WINGATE, doing business as WINGATE TRUCKING COMPANY, 417 Lipsey Drive, Albany, Ga. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Lumber* and *wooden pallets*, from points in Georgia to points in Florida, Alabama, South Carolina, North Carolina, Tennessee, Virginia, West Virginia, Maryland, Delaware, New York, Kentucky, Ohio, Michigan, Illinois, Indiana, Wisconsin, and New Jersey, (2) *Fertilizer* and *fertilizer materials*, between points in Georgia, Florida, Alabama, South Carolina, and North Carolina, (3) *Insecticides* and *insecticide material*, between points in Georgia, Florida, Alabama, South Carolina, and North Carolina, (4) *Clay products*, from points in Georgia to points in Alabama, Mississippi, Louisiana, Arkansas, Texas, Oklahoma, Florida, South Carolina, North Carolina, West Virginia, Virginia, Maryland, Delaware, Pennsylvania, New Jersey, Tennessee, and Kentucky, (5) *steel fabricated buildings*, from Milwaukee, Wis., Cincinnati, Ohio, Galesburg, Ill., and Birmingham, Ala., to points in Kentucky, Tennessee, Mississippi, Arkansas, Louisiana, Texas, Alabama, Georgia, North Carolina, South Carolina, West Virginia, Florida, and Georgia, (6) *road building machinery and equipment requiring special equipment*, between Albany, Ga., on the one hand, and, on the other, points in Florida, Alabama, Mississippi, Louisiana, Arkansas, Tennessee, Kentucky, South Carolina, North Carolina, Virginia, and West Virginia, (7) *steel*, from Birmingham, Ala., to Albany, Ga., (8) *concrete ready mix plant*, knocked down and assembled, between Albany, Ga., on the one hand, and, on the other, points in South Carolina, North Carolina, Alabama, Mississippi, Florida, Louisiana, and Arkansas and (9) *fabricated concrete* and *concrete material*, from Albany, Ga., to points in Florida, South Carolina, North Carolina, Virginia, Alabama, Mississippi, Louisiana, Arkansas, Tennessee, and Kentucky, and *empty containers or other such incidental facilities* (not specified) used in transporting the above-specified commodities, on return.

HEARING: March 20, 1962, at 680 West Peachtree Street NW., Atlanta, Ga., before Examiner Lacy W. Hinely.

MOTOR CARRIERS OF PASSENGERS

No. MC 58915 (Sub-No. 44), filed February 1, 1962. Applicant: LINCOLN TRANSIT CO., INC., U.S. HIGHWAY 46, East Paterson, N.J. Applicant's attorney: Robert E. Goldstein, 24 West 40th Street, New York 18, N.Y. In Woodbridge, N.J., from the junction of U.S. Highway 1 and U.S. Highway 9 along U.S. Highway 9 to the junction of New Jersey Highway 34 in Madison Township, thence along New Jersey Highway 34 to the junction of Garden State Parkway Interchange Road 96, thence along Garden State Parkway Interchange Road 96 to the junction of Garden State Parkway, Wall Township, N.J., thence return from the junction of Garden State Parkway and Garden State Parkway Interchange Road 97 along Garden State Parkway Interchange Road 97 to the junction New Jersey Highway 38, thence along New Jersey Highway 38 to the junction of New Jersey Highway 34 in Wall Township, N.J., thence along New Jersey Highway 34 to the junction of U.S. Highway 9 in Madison Township, N.J., thence along U.S. Highway 9 to the junction of U.S. Highway 1 in Woodbridge, N.J., serving all intermediate points on the above described routes; (2) Between Holmdel Township and Middletown Township, N.J. In Holmdel Township, N.J., from the junction of New Jersey Highway 34 and Monmouth County Road 520 along Monmouth County Road 520 to the junction of Garden State Parkway Interchange Road 109, thence along Garden State Parkway Interchange Road 109 to the junction of Garden State Parkway in Middletown Township, N.J., and return over the same route serving all intermediate points; (3) Between Matawan Township and Wall Township, N.J. Along Garden State Parkway from the Middlesex County-Monmouth County boundary line in Matawan Township to the Monmouth County-Ocean County boundary line in Wall Township, N.J., and return over the same route serving all intermediate points.

NOTE: Applicant presently is authorized to operate on the Garden State Parkway but is restricted from picking up and discharging passengers in Monmouth County. Applicant proposes to remove said restriction.

HEARING: February 19, 1962, at Room 212, State Office Building, 1100 Raymond Boulevard, Newark, N.J., before Joint Board No. 119.

No. MC 58915 (Sub-No. 45), filed February 2, 1962. Applicant: LINCOLN TRANSIT CO., INC., U.S. Highway 46, East Paterson, N.J. Applicant's attorney: Robert E. Goldstein, 24 West 40th Street, New York, N.Y. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *Passengers and their baggage, express* and *newspapers*, in the same vehicle with passengers, (1) between points in Howell Township and Lakewood Township, N.J.; from junction U.S. Highway 9 and Aldrich Road, Howell Township, N.J., over Aldrich Road to junction of New Prospect Road, Jackson Township, thence over New Prospect Road to junction County Line Road, Lakewood thence over County Line Road to junction of U.S. Highway 9 (Madison Avenue), Lakewood, N.J., and return over the same route, serving all intermediate points and (2) within Jackson Township, N.J.; from junction Aldrich Road and New Prospect Road, Jackson Township, N.J., over Bennetts Mills-Hyson Road and Bennetts Mills-Vanhiseville Road to junction Cooks Bridge Road, thence over Cooks Bridge Road to junction Hope Chapel Road, thence over Hope Chapel Road to junction Lakewood-New Egypt Road (County Road 528), Jackson Township, N.J., and return over the same route, serving all intermediate points.

HEARING: February 16, 1962, at the State Office Building, Room 212, 1100 Raymond Boulevard, Newark, N.J., before Joint Board No. 119.

No. MC 84112 (Sub-No. 2), filed January 2, 1962. Applicant: S & S BUS SERVICE, INC., Box 6, R.D. 1, Rensselaer, N.Y. Applicant's attorney: Edward L. Merrigan, 425 13th Street NW., Washington, D.C. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Passengers and their baggage*, in charter and special service operations, from Rensselaer, N.Y., and points within thirty (30) miles of Rensselaer (excluding the City and County of Schenectady, N.Y.), to points in California, Connecticut, Delaware, Florida, Louisiana, Maine, Maryland, Massachusetts, Michigan, New Hampshire, New Jersey, New York, Ohio, Pennsylvania, Rhode Island, Vermont, Virginia, Wyoming, and the District of Columbia.

HEARING: March 15, 1962, at the Federal Building, Albany, N.Y., before Examiner William E. Messer.

No. MC 111778 (Sub-No. 3), filed December 29, 1961. Applicant: COCHRANS' BUS COMPANY, INC., Warwick Road, Middletown, Del. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Migrant agricultural workers and their baggage*, in the same vehicle with passengers, (1) between points in New Castle and Kent Counties, Del., on the one hand, and, on the other, points in Cecil, Kent, and Queen Anne Counties, Md., and (2) between points in New Castle and Kent Counties, Del., and points in Cecil, Kent, and Queen Anne Counties, Md., on the one hand, and, on the other, Glassboro, N.J., and points within ten (10) miles thereof.

HEARING: March 28, 1962, at the Offices of the Interstate Commerce Commission, Washington, D.C., before Joint Board No. 283.

No. MC 124023, filed November 2, 1961. Applicant: MIDWEST TRANSPORTATION, INC., 1003 West Second Street, Ames, Iowa. Applicant's attorney: Stephen Robinson, 412 Equitable Building, Des Moines 9, Iowa. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Passengers and their baggage*, in the same vehicle with passengers, in round-trip charter operations, between points in Story County, Iowa, on the one hand, and, on the other, points in Illinois, Missouri, Minnesota, Wisconsin, Kansas, Nebraska, Colorado, New York, Pennsylvania, Arkansas, Alabama, Arizona, California, Connecticut, Delaware, Florida, Georgia, Indiana, Kentucky, Louisiana, Maryland, Massachusetts, Michigan, Mississippi, Montana, Nevada, New Jersey, New Mexico, North Carolina, North Dakota, Ohio, Oklahoma, South Carolina, South Dakota, Tennessee, Texas, Vermont, Virginia, West Virginia, Wyoming, and the District of Columbia.

HEARING: March 29, 1962, in Room 691, Old Federal Office Building, Fifth and Court Avenues, Des Moines, Iowa, before Examiner Charles J. Murphy.

APPLICATIONS FOR BROKERAGE LICENSES

MOTOR CARRIERS OF PASSENGERS

No. MC 12782, filed November 24, 1961. Applicant: AAA WORLD WIDE TRAVEL DEPT. OF CEDAR RAPIDS AUTO CLUB, 517 Fourth Avenue SE., Cedar Rapids, Iowa. For a license (BMC 5) to engage in operations as a *broker* at Cedar Rapids, Iowa, in arranging for transportation in interstate or foreign commerce, by motor vehicle, of *passengers and their baggage*, both as individuals and groups, in sightseeing tours, between points in the United States, including Ports of Entry on the International Boundary Lines between the United States and Canada and the United States and Mexico.

HEARING: March 28, 1962, in Room 691, Old Federal Office Building, Fifth and Court Avenues, Des Moines, Iowa, before Joint Board No. 92, or, if the Joint Board waives its right to participate, before Examiner Charles J. Murphy.

No. MC 12783, filed November 22, 1961. Applicant: JACK W. FRY AND NORMAN A. ROUGH, a partnership, doing business as SIERRA TRAVEL SERVICE, 233 West Lancaster Boulevard, Lancaster, Calif. For a license (BMC 5) to engage in operations as a broker at Lancaster, Calif., in arranging for transportation in interstate or foreign commerce of *passengers and their baggage*, both as individuals and groups, in all-expense tours, beginning and ending at Los Angeles, Calif., and extending to points in Nevada and California.

HEARING: March 19, 1962, at the New Mint Building, 133 Hermann Street, San Francisco, Calif., before Joint Board No. 75, or, if the Joint Board waives its right to participate, before Examiner F. Roy Linn.

No. MC 12785, filed December 5, 1961. Applicant: KING & RICHARDS ENTERPRISES, doing business as K & R TOURS, 414 13th Street, Oakland 12, Calif. Applicant's attorney: George King (same address as applicant). For a license (BMC 5) to engage in operations as a *broker* at Oakland, Calif., in arranging for transportation in interstate or foreign commerce, by motor vehicle, of *passengers and their baggage*, both as individuals and in groups, between points in the United States, including Ports of Entry on the International Boundaries between the United States and Canada and the United States and Mexico.

HEARING: March 20, 1962, at the New Mint Building, 133 Hermann Street, San Francisco, Calif., before Joint Board No. 75, or if the Joint Board waives its right to participate, before Examiner F. Roy Linn.

No. MC 12788, filed January 4, 1962. Applicant: HAROLD SAGER, doing business as BEST VALU TRAVEL AND TOURS, 435 South Chicago Avenue, Freeport, Ill. Applicant's attorney: John T. Porter, 708 First National Bank Building, Madison 3, Wis. For a license (BMC 5) to engage in operations as a *broker* at Freeport, Ill., in arranging for transportation by motor vehicle, in interstate or foreign commerce, of *passengers and their baggage* in the same vehicle with passengers, both as individuals and in groups, beginning and ending at points in Carroll, DeKalb, Jo Daviess, Ogle, Stephenson, Whiteside, Winnebago, and Boone Counties, Ill., and Green, Rock, and Walworth Counties, Wis., and extending to points in the United States, including Ports of Entry on the International Boundaries between the United States and Canada and the United States and Mexico.

HEARING: April 16, 1962, at the Midland Hotel, Chicago, Ill., before Joint Board No. 149.

No. MC 12789, filed January 4, 1962. Applicant: HOWARD D. DUNN, doing business as DUNRITE TRAVEL & TOUR SERVICE, 2219 Ohio Parkway, Rockford, Ill. Applicant's attorney: John T. Porter, 708 First National Bank Building, Madison 3, Wis. HEARING: April 16, 1962, at the Midland Hotel, Chicago, Ill., before Joint Board No. 149.

No. MC 12791, filed January 10, 1962. Applicant: MEYER AND DIETEL TOURS, INC., 231 West Wisconsin Avenue, Milwaukee 3, Wis. Applicant's attorney: John T. Porter, 708 First National Bank Building, Madison 3, Wis. For a license (BMC 5) to engage in operations as a *broker* at Milwaukee, Wis., in arranging for transportation by motor vehicle, in interstate or foreign commerce of *Passengers and their baggage*, in the same vehicle with passengers, both as individuals and in groups, in charter operations, (1) beginning and ending at points in Wisconsin, and extending to Chicago, Ill., and (2) beginning and ending at Washington, D.C., and Baltimore and Silver Spring, Md., and extending to points in Connecticut, Delaware, Maryland, Massachusetts, New Jersey, New York, Pennsylvania, Rhode Island, Virginia, and West Virginia.

HEARING: April 23, 1962, at the Wisconsin Public Service Commission, Madison, Wis., before Joint Board No. 96.

APPLICATIONS IN WHICH HANDLING WITHOUT ORAL HEARING IS REQUESTED

MOTOR CARRIERS OF PROPERTY

No. MC 3009 (Sub-No. 44), filed February 5, 1962. Applicant: WEST BROTHERS, INC., 706 East Pine Street, Hattiesburg, Miss. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities* (except those of unusual value, Classes A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment); (1) Between New Orleans, La., and Jackson, Miss., as follows: From New Orleans over U.S. Highway 61 to junction U.S. Highway 51, thence over U.S. Highway 51 to Jackson, and return over the same route, serving no intermediate points, as an alternate route for operating convenience only and subject to the condition that shipments transported over such route shall be limited to those which are moving over carrier's line between New Orleans or points beyond on the one hand and Jackson or points beyond on the other, in either single or joint line service; (2) Between New Orleans, La., and Mendenhall, Miss., as follows: From New Orleans over U.S. Highway 61 to junction of Causeway Boulevard, thence over Causeway Boulevard to Lake Pontchartrain Causeway Bridge to junction of northern approaches to Causeway Bridge and U.S. Highway 190, thence over U.S. Highway 190 to Covington, La., thence over Louisiana Highway 21 to Mississippi-Louisiana line, thence over Mississippi Highway 35 to Columbia, Miss., thence over Mississippi Highway 13 to junction U.S. Highway 49 at Mendenhall, Miss., and return over the same route, serving no intermediate points as an alternate route for operating convenience only and subject to the condition that shipments transported over such route shall be limited to those which are moving over carrier's line between New Orleans, or points beyond on the one hand and Mendenhall or points beyond on the other, in either single or joint line service; (3) Between Pearl River, La., and Mendenhall, Miss., as follows: From Pearl River over Louisiana Highway 41 to junction Louisiana Highway 21, one mile west of Bush, La., thence over Louisiana Highway 21 to Louisiana-Mississippi State Line, thence over Mississippi Highway 35 to Columbia, Miss., thence over Mississippi Highway 13 to junction Mississippi Highway 13 and U.S. Highway 49 at Mendenhall, Miss., and return over the same route serving no intermediate points as an alternate route for operating convenience only and subject to the condition that shipments transported over such route shall be limited to those which are moving over carrier's line between Pearl River, La., or points beyond on the one hand and Mendenhall, Miss., or

points beyond on the other, in either single or joint line service.

No. MC 72770 (Sub-No. 3), filed January 16, 1962. Applicant: OLEAN HAULING CORP., 99 North Main Street, Franklinville, N.Y. Applicant's attorney: Albert J. Tener, Bank of Jamestown Building, Jamestown, N.Y. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Boats;* and, when shipped in a mixed shipment with boats, *the accessories of such boats and the literature relating thereto*, (1) Between points in Yates County, N.Y., on the one hand, and, on the other, points in New York; (2) Between the City of Peekskill (Westchester County), N.Y., on the one hand, and, on the other, points in New York; and (3) From the Village of Freeport (Nassau County), N.Y., to points in Nassau, Suffolk, Westchester, Putnam, Dutchess, Orange, and Sullivan Counties, N.Y., and *returned, refused and rejected shipments of the above-described commodities*, on return.

NOTE: Applicant states it seeks to acquire by transfer a Second Proviso operation of Marine Distributors, Inc., in Docket MC 120658, and to convert said authority to a full Certificate of Public Convenience and Necessity, contingent upon the approval of the transfer application of the New York intrastate rights by the New York Public Service Commission and the approval of the Interstate Commerce Commission for operating authority similar to that described in the Second Proviso operation of Marine Distributors, Inc.

No. MC 107276 (Sub-No. 3), filed January 30, 1962. Applicant: VERA E. BENNETT, JAMES K. GLENN, J. K. GLENN, INC., CORINNA J. BENNETT, LOUISE G. GLENN, JOE H. GLENN (WACHOVIA BANK AND TRUST COMPANY, TRUSTEE), AND JAMES K. GLENN (WACHOVIA BANK AND TRUST COMPANY, TRUSTEE), a partnership, doing business as QUALITY OIL TRANSPORT, 1540 Lockland Avenue, Winston-Salem, N.C. Applicant's attorney: Harry C. Ames, Jr., Transportation Building, Washington 6, D.C. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Aviation fuels*, in bulk, in tank vehicles, from Wilmington, N.C., to Roanoke, Va.

No. MC 107403 (Sub-No. 378), filed February 1, 1962. Applicant: E. BROOKE MATLACK, INC., 33d and Arch Streets, Philadelphia 4, Pa. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Liquid chemicals*, in bulk, in tank vehicles, from Coshocton, Ohio, to Granite City, Ill.

NOTE: Applicant is authorized to control Reader Brothers, Inc., and Edwin E. Clarke, doing business as, Clarke Bulk Transfer. It is further noted that applicant has contract carrier authority under MC 117637 Subs 2 through 9 thereunder, therefore, dual operations may be involved.

No. MC 119422 (Sub-No. 9) (CORRECTION), filed January 18, 1962, published issue of January 31, 1962, corrected February 6, 1962, and republished as corrected this issue. Applicant: EE-JAY MOTOR TRANSPORTS, INC., 15th and Lincoln, East St. Louis, Ill. Applicant's attorney: Joseph H. Goldenhersh, 406 Missouri Avenue, East St. Louis, Ill. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Liquid petroleum wax*, in temperature controlled tank vehicles, from East St. Louis, Ill., to points in Minnesota and Wisconsin, and *damaged and defective shipments*, on return.

NOTE: The purpose of this republication is to reflect a from and to movement in lieu of a between movement.

No. MC 123322 (Sub-No. 9), filed February 6, 1962. Applicant: BEATTY MOTOR EXPRESS, INC., Jefferson Avenue Extension, Washington, Pa. Applicant's attorney: V. Baker Smith, 2107 Fidelity-Philadelphia Trust Building, Philadelphia 9, Pa. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *Baby supplies*, Between the plant site of Gerber Products Company, at Rochester, N.Y., and Pittsburgh, Pa.; from Rochester over New York Highway 33 to junction New York Highway 78, thence over New York Highway 78 to Depew, N.Y., thence over U.S. Highway 20 to Silver Creek, N.Y., thence over U.S. Highway 20 via Erie, Pa., to Fairview, Pa. (also from Silver Creek, N.Y., over New York Highway 5 to the Pennsylvania-New York State line, over Pennsylvania Highway 5 to Erie, Pa.), thence over Pennsylvania Highway 98 to Kerrtown, Pa., thence over U.S. Highway 19 to Pittsburgh, Pa., and return over the same route, serving no intermediate points.

No. MC 124078 (Sub-No. 2), filed February 5, 1962. Applicant: SCHWERMAN TRUCKING CO., a corporation, 620 South 29th Street, Milwaukee 46, Wis. Applicant's attorney: James R. Ziperski (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Cement;* from the plant site of the Penn-Dixie Cement Corporation in or near Kingsport, Tenn., to points in Casey, Russell, Cumberland, and Clinton Counties, Ky.

NOTE: Applicant presently holds contract carrier authority in MC 113832 and subs thereto, therefore, dual operations may be involved.

No. MC 124147 (Sub-No. 1), filed January 30, 1962. Applicant: ALAN P. GEREG, 32 Holley Street, Danbury, Conn. Applicant's attorney: Sidney L. Goldstein, 109 Church Street, New Haven, Conn. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Asphalt bituminous products, sand, stone, gravel and brick*, in bulk, in dump vehicles, from Danbury, Brookfield, New Milford, and Woodbury, Conn., to points in New York as follows: New York City and that part of New York bounded on and East of U.S. Highway 9 from New York to Mt. Vernon; thence on and East of U.S. Highway 9W to Albany, N.Y.; thence on and South of U.S. Highway 20, to the New York-Massachusetts State line, thence along the New York-Massachusetts State line, to the New York-Connecticut State line, thence along the New York-Connecticut State line, to the Long Island Sound, and *rejected shipments*, of the commodities specified above, on return.

No. MC 124177, filed January 31, 1962. Applicant: MATTHEW C. & RICHARD A. ZIMA, doing business as R. & R. TRUCKING COMPANY, 1408 North 8th Street, Manitowoc, Wis. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Commodities for Racing Pigeon Clubs*, such as *homing pigeons, crates, cages, pens, feeds, banding and shipping machines* and *club house facilities*, such as *tables, chairs and benches*, between Sheboygan, Manitowoc, Two Rivers, Green Bay, Kaukauna, Appleton, Menasha, Neosho, Oshkosh, and Fond du Lac., Wis., and "release stations" in Chilton, Omro, New Lisbon, Sparta, and Wisconsin Rapids, Wis., Winona, Red Wing, Rochester, Mankato, and New Ulm, Minn., Britt, Iowa, Norfolk, Neb., and, Mitchell, Webster, Huron, and Pierre, S. Dak.

NOTE: Applicant states the proposed operation will be seasonal, between April 15 and October 15.

MOTOR CARRIERS OF PASSENGERS

No. MC 59238 (Sub-No. 48), filed February 6, 1962. Applicant: VIRGINIA STAGE LINES, INCORPORATED, 114 Fourth Street SE., Charlottesville, Va. Applicant's attorney: Raymond H. Warns, Court Square Building, Charlottesville, Va. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *Passengers and their baggage*, and *express, mail* and *newspapers* in the same vehicle with passengers, between junction U.S. Highway 60 and Interstate Highway 495 and junction Interstate Highway 495 and Virginia Highway 350; from junction U.S. Highway 50 and Interstate Highway 66 (Washington Circumferential Highway) over Interstate Highway 495 to junction Virginia Highway 350 with service at all termini for purpose of joinder only, and return over the same route, serving no intermediate points, as an alternate route for operating convenience only, in connection with applicant's authorized regular-route operations.

NOTE: Common control may be involved.

NOTICE OF FILING OF PETITIONS

No. MC 15473 (Sub-No. 7) (CORRECTION FOR MODIFICATION OF CERTIFICATES OF PUBLIC CONVENIENCE AND NECESSITY), filed January 19, 1962. Petitioner: MID-KANSAS TRUCK LINES, INC., Ottawa, Kans. Petitioner's attorney: Wentworth E. Griffin, 1012 Baltimore Building, Kansas City 5, Mo. By petition filed January 19, 1962, petitioner states that its Certificate No. MC 15473 (Sub-No. 7), covers authority, pursuant to certain transfer proceedings, covering a transportation service between Kansas City, Mo., and points in the State of Kansas. Petitioner avers that certain of the authority it purchased, specifically Certificate No. MC 62852, authorized operations between Kansas City, Mo., and Olathe, Kans., between Kansas City, Mo., and Olathe Naval Air Station, and between Kansas City, Mo., and the other points authorized to those predecessors in title. Petitioner states that it appears that the Commission deprived the owner of Certificate No. MC 62852 of authority improperly and without action taken provided by law in that the Certificate issued to Mid-Kansas Truck Lines pursuant to a transfer proceeding in MC-FC-67634 changed the language of the previous certificates so as to authorize operations from Kansas City interchange at a between movement. Proceeding MC-FC 63958 transferred the Certificates in question to petitioner, and docket No. MC 15473 (Sub-No. 7) was assigned to cover the transfer proceedings. Petitioner requests the Commission enter an order stating that petitioner has authority to operate between the various points set forth in Certificate No. MC 15473 (Sub-No. 7), and requests modification of said Certificate to reflect authority to operate between Kansas City, Mo., and the Kansas points shown in that Certificate. Any person or persons desiring to oppose the relief sought, may, within 30 days from the date of this publication in the FEDERAL REGISTER, file an appropriate pleading.

No. MC 85130 PETITION UNDER RULE 102 FOR REOPENING, HEARING, RECONSIDERATION, AND FOR WAIVER OF RULE 101(e), filed July 24, 1961. Petitioner: ANNA BRADLEY, doing business as BRADLEY'S EXPRESS, Middletown, Conn. Petitioner's attorney: Milton E. Diehl, 1383 National Press Building, Washington, D.C. By petition dated July 24, 1961, petitioner states that in accordance with the Commission's regulations, Robert Bradley filed a "grandfather" application under section 206, dated February 6, 1936, known as Form BMC–A, describing his operations as including points in Massachusetts, Rhode Island, Connecticut, New York, New Jersey, and Pennsylvania. The original applicant, Robert Bradley, died and his Widow, Anna Bradley, petitioner, inherited the business. Petitioner contends that the Certificate issued in No. MC 85130 does not cover the operations conducted by petitioner on, prior, and continuously, before and after the enactment of the Motor Carrier Act of 1935. Petitioner has attached to the petition of July 24, 1961, an abstract of the evidence now available, to-wit, documentary proof (shipping documents) from 1927 to date, and states that the abstract does not contain all, but only a sample of the documentary proof now available which will be submitted at a hearing. Petitioner requests that the proceeding in No. MC 85130 be reopened for hearing. An order issued pursuant to a General Division of the Commission, held January 16, 1962, in the subject proceeding finds that since some doubt has arisen as to the meaning of the Order of November 28, 1961, previously issued in this proceeding, it is ordered that the said order of November 28, 1961, to the extent it reopens the proceeding for oral hearing, be, and it is hereby vacated and set aside. The Order of January 16, 1962, further orders that the subject petition of July 24, 1961, be, and it is hereby assigned for oral hearing, and notice of the time and place of such hearing, together with a summary of the issues raised by the petition be given by publication in the FEDERAL REGISTER.

HEARING: March 20, 1962, at the Bond Hotel, Hartford, Conn., before Examiner William A. Royall.

No. MC 109095 (PETITION TO WAIVE RULE 101(e) AND FOR REOPENING AND RECONSIDERATION), and (PETITION FOR MODIFICATION OR CLARIFICATION OF CERTIFICATE), filed January 17, 1962. Petitioner: ANDERSON MOTOR SERVICE, INC., St. Louis, Mo. Petitioner's attorney: G. M. Rebman, 1230 Boatmen's Bank Building, St. Louis 2, Mo. The subject petitions were filed January 17, 1962, and petitioner states it is a holder of a Certificate of Public Convenience and Necessity in No. MC 109095 which authorizes the transportation of general commodities, with the usual exceptions, over regular routes, between St. Louis, Mo., Indianapolis and Fort Wayne, Ind., Toledo, Cleveland, and Akron, Ohio, among other operations. The routes here pertinent as authorized in the said Certificate are as follows: "(4) (a) From St. Louis over U.S. Highway 40 to Indianapolis, Ind., thence over U.S. Highway 36 to Piqua, Ohio, thence over U.S. Highway 25 to Beaverdam, Ohio, thence over U.S. Highway 30N to Mansfield, Ohio, thence over U.S. Highway 42 to junction U.S. Highway 224, thence over U.S. Highway 224 to junction Ohio Highway 5, and thence over Ohio Highway 5 to Akron;", and "(4) (b) From Pendleton over Indiana Highway 9 to Huntington, Ind., thence over U.S. Highway 24 via Maumee, Ohio, to Toledo, Ohio, thence over Ohio Highway 2 to Cleveland, Ohio, and thence over Ohio Highway 8 to Akron; From Pendleton to Maumee, Ohio, as specified above, thence over U.S. Highway 20 to Cleveland, Ohio, and thence to Akron as specified above; and return over these routes to Pendleton. Service is authorized to and from the intermediate points of Fort Wayne, Ind., Toledo and Cleveland, Ohio, and points and places in Ohio within ten miles of Cleveland." Petitioner requests the Commission issue an order construing Certificate No. MC 109095 as authorizing joinder of routes described in (4) (a) and (4) (b) above so as to remove any and all doubt concerning petitioner's authority. Any person or persons desiring to oppose the relief sought, may, within 30 days from the date of this publication in the FEDERAL REGISTER, file an appropriate pleading.

APPLICATIONS FOR CERTIFICATES OR PERMITS WHICH ARE TO BE PROCESSED CONCURRENTLY WITH APPLICATIONS UNDER SECTION 5 GOVERNED BY SPECIAL RULE 1.240 TO THE EXTENT APPLICABLE

MOTOR CARRIERS OF PROPERTY

No. MC 99798 (Sub-No. 1), filed February 1, 1962. Applicant: DODDS TRUCK LINE, INC., 623 Lincoln Street, West Plains, Mo. Applicant's attorney: Wentworth E. Griffin, 1012 Baltimore Building, Kansas City 5, Mo. Authority sought to operate as a *common carrier*, by motor vehicle, over regular and irregular routes, transporting: *General commodities* (except those of unusual value, Classes A and B explosives, household goods as defined by the Commission, commodities in bulk, commodities requiring special equipment, and those injurious or contaminating to other lading); (1) Between St. Louis, Mo., and Thayer, Mo., from St. Louis over U.S. Highway 66 and Interstate Highway 44 to Rolla, Mo., thence over U.S. Highway 63 to Thayer, and return over the same route, serving the intermediate and off-route points of Cuba, Licking, Houston, Cabool, Willow Springs, West Plains, and Koshkonong, Mo.; (2) Between the intersection of U.S. Highway 66 and Missouri Highway 19, and Thayer, Mo., from the intersection of U.S. Highway 66 and Missouri Highway 19, over Missouri Highway 19 to Thayer, and return over the same route, serving the intermediate points of Cuba, Steelville, Salem, Eminence, Winona, and Alton, Mo., and serving the intersection of Missouri Highway 19 and U.S. Highway 60 for purposes of joinder; (3) Between Houston, Mo., and Mountain View, Mo., from Houston over U.S. Highway 63 to junction Missouri Highway 137, thence over Missouri Highway 137 to its intersection with Missouri Highway 17, thence over Missouri Highway 17 to its intersection with U.S. Highway 60, thence over U.S. Highway 60 to Mountain View, and return over the same route, serving the intermediate point of Summersville, Mo., and serving the intersection of Missouri Highway 17 and U.S. Highway 60 for purposes of joinder; (4) Between Willow Springs, Mo., and St. Louis, Mo., from Willow Springs over U.S. Highway 60 to its intersection with Missouri Highway 21, thence over Missouri Highway 21 to its intersection with Missouri Highway 34, thence over Missouri Highway 34 to intersection with U.S. Highway 67, thence over U.S. Highway 67 to St. Louis, and return over the same route, serving the intermediate and off-route points of Mountain View, Birch Tree, Fremont, Van Buren, South Van Buren, Garwood, Leeper, and Mill Spring, Mo., and serving the intersection of U.S. Highway 60 and Missouri Highway 19 for purposes of joinder; (5) Between Springfield, Mo., and Cabool, Mo., from Springfield over U.S. Highway 60 to Cabool, and return over the same route, serving the intermediate and off-route points of Rogersville, Fordland, Diggins, Seymour, Mansfield, Norwood, and Mountain Grove, Mo., and serving the intersection of Missouri Highway 5 and U.S. Highway 60 for purposes of joinder; (6) Between Gainesville, Mo., and Doniphan, Mo., from Gainesville over U.S. Highway 160 to Doniphan, and return over the same route, serving the intermediate points of West Plains, Alton, Riverton, and Briar, Mo., and serving the intersection of Missouri Highway 101 and U.S. Highway 160 for purposes of joinder; (7) Between Ava, Mo. and Hartville, Mo., from Ava over Missouri Highway 5 to Hartville, and return over the same route, serving no intermediate points, and serving the intersection of Missouri Highway 5 and U.S. Highway 60 for purposes of joinder; (8) Between Bakersfield, Mo., and the intersection of Missouri Highway 101 and U.S. Highway 160, from Bakersfield over Missouri Highway 101 to its intersection with U.S. Highway 160, and return over the same route, serving no intermediate

points; (9) Between Birch Tree, Mo., and Thomasville, Mo., from Birch Tree over Missouri Highway 99 to Thomasville, and return over the same route, serving no intermediate points; (10) Between Salem, Mo., and the intersection of Missouri Highway 32 and U.S. Highway 63, from Salem over Missouri Highway 32 to its intersection with U.S. Highway 63, and return over the same route, serving no intermediate points, as an alternate route for operating convenience only; (11) Between Salem, Mo., and Rolla, Mo., from Salem over Missouri Highway 72 to Rolla, and return over the same route, serving no intermediate points, as an alternate route for operating convenience only; (12) *Irregular route:* Between points in Phelps, Dent, Crawford, Shannon, Texas, and Reynolds Counties, Mo.

NOTE: The application is directly related to an application filed under section 5 of the Act, No. MC–F–8069, published in the FEDERAL REGISTER, this issue.

APPLICATIONS UNDER SECTIONS 5 AND 210a(b)

The following applications are governed by the Interstate Commerce Commission's special rules governing notice of filing of applications by motor carriers of property or passengers under section 5(a) and 210a(b) of the Interstate Commerce Act and certain other proceedings with respect thereto (49 CFR 1.240).

MOTOR CARRIERS OF PROPERTY

No. MC–F–8066. Authority sought for purchase by TREDWAY'S EXPRESS, INC., 512 Myrtle Avenue, Boonton, N.J., of a portion of the operating rights of DUSOR MOTOR LINE, INC., Tor Avenue, Haverstraw, N.Y., through James A. O'Hara, Director of Internal Revenue, Albany, N.Y., and for acquisition by TRUCKING ENTERPRISES, INC., 744 Broad Street, Newark, N.J., and in turn by RALPH SALDUTTI, JOSEPH E. SALDUTTI, and ALBERT SALDUTTI, all of 744 Broad Street, Newark, N.J., of control of such rights through the purchase. Applicants' attorney: Bernard F. Flynn, Jr., York-Flynn Building, East Blackwell Street, Dover, N.J. Operating rights described in Certificate Nos. MC–78430 and MC–78430 Sub 1, by order of the Temporary Authorities Board, dated January 23, 1962, to be revoked effective 45 days from the date of said order. Operating rights sought to be transferred in Certificate No. MC–78430: *General commodities*, excepting, among others, household goods and commodities in bulk, as a *common carrier* over irregular routes between points in Dutchess, Orange, Putnam, Rockland, Sullivan, and Ulster Counties, N.Y., on the one hand, and, on the other, New York, N.Y., and points in Bergen, Essex, Hudson, Passaic, and Union Counties, N.J. Vendee is authorized to operate as a *common carrier* in New Jersey, New York, and Pennsylvania. Application has not been filed for temporary authority under section 210a(b).

No. MC–F–8068. Authority sought for control and merger by GLOBAL VAN LINES, INC., P.O. Box 3313, Terminal Annex, Los Angeles 54, Calif., of the operating rights and property of MIDWEST MOVING SERVICE, 3412 Fairlane Drive, Des Moines, Iowa, and for acquisition by E. W. SCHUMACHER, D. D. HEYDLAUFF, MAX OLSAN, and WILLIAM C. MOEN, all of 9100 East Garvey Boulevard, South San Gabriel, Calif., of control of such rights and property through the transaction. Applicants' attorney and representative respectively: Max G. Morgan, 443 American National Building, Oklahoma City 2, Okla., and William A. Landau, 1307 East Walnut, Des Moines, Iowa. Operating rights sought to be controlled and merged: *Household goods*, as defined by the Commission, as a *common carrier* over irregular routes between points in Iowa, on the one hand, and, on the other, points in Illinois, Missouri, Nebraska, and Minnesota, between Des Moines, Iowa, on the one hand, and, on the other, points in Illinois, Indiana, Kansas, Colorado, Missouri, Minnesota, Nebraska, and Wisconsin, and between points in Hardin County, Iowa, on the one hand, and, on the other, points in Illinois, Iowa, Kansas, Minnesota, Nebraska, North Dakota, and South Dakota, and, *livestock, agricultural commodities, poultry, coal, lumber, posts, household goods* as defined by the Commission, and *emigrant movables*, between Alliance, Nebr., and points within 30 miles thereof, on the one hand, and, on the other, points in Colorado, Wyoming, and South Dakota. GLOBAL VAN LINES, INC., is authorized to operate as a *common carrier* in Alabama, Arkansas, California, Colorado, Florida, Georgia, Illinois, Indiana, Kansas, Kentucky, Louisiana, Maryland, Michigan, Mississippi, Missouri, Nebraska, New Jersey, New York, New Mexico, North Carolina, Ohio, Oklahoma, Pennsylvania, South Carolina, Tennessee, Texas, Virginia, West Virginia, Wisconsin, Connecticut, Massachusetts, Rhode Island, Vermont, New Hampshire, Delaware, Utah, Oregon, Idaho, Montana, Washington, Nevada, and the District of Columbia. Application has been filed for temporary authority under section 210a(b).

No. MC–F–8069. Authority sought for purchase by DODDS TRUCK LINE, INC., 623 Lincoln, West Plains, Mo., of the operating rights of WALLACH STRAIN and VIOLA STRAIN, a partnership, doing business as STRAIN TRUCK LINE, Alton, Mo., and for acquisition by PAUL D. DODDS, 623 Lincoln, West Plains, Mo., of control of such rights through the purchase. Applicants' attorney: Wentworth E. Griffin, 1012 Baltimore Building, Kansas City 5, Mo. Operating rights sought to be transferred: *General commodities*, excepting, among others, household goods and commodities in bulk, as a *common carrier* over regular routes from St. Louis, Mo., to Mammoth Spring, Ark., serving the intermediate points of Briar, Alton, and Thayer, Mo., and the off-route points of Bradley, Greer, Thomasville, Koshkonong, Couch, and Myrtle, Mo., without restriction, and East St. Louis, Ill., restricted to the pickup of stoves, feed, tankage, fertilizer, and meat scraps, and *fertilizer*, from East St. Louis, Ill., to Myrtle, Mo., serving the intermediate point of Couch, Mo., *livestock*, over irregular routes, from Alton, Mo., and points within 15 miles of Alton, to East St. Louis, Ill. Vendee is authorized to operate under the Second Proviso of section 206(a)(1) of the Interstate Commerce Act in the State of Missouri. Application has not been filed for temporary authority under section 210a(b).

NOTE: No. MC–99798 Sub 1 is a matter directly related.

No. MC–F–8070. Authority sought for control by EDWARD J. HAND, 590 Elk Street, Buffalo 10, N.Y., of M. & G. CONVOY, INC., and HULBERT FORWARDING COMPANY, INC., also of Buffalo, N.Y. SECURITIES AND EXCHANGE COMMISSION

[File No. 1-3842]

BLACK BEAR INDUSTRIES, INC.

Order Summarily Suspending Trading

FEBRUARY 7, 1962.

In the matter of trading on the San Francisco Mining Exchange in the common stock, par value 15 cents a share of Black Bear Industries, Inc. (formerly Black Bear Consolidated Mining Co.); File No. 1-3842.

The common stock, par value 15 cents a share, of Black Bear Industries, Inc. (formerly Black Bear Consolidated Mining Co.) being listed and registered on the San Francisco Mining Exchange, a national securities exchange; and

The Commission being of the opinion that the public interest requires the summary suspension of trading in such security on such Exchange and that such action is necessary and appropriate for the protection of investors; and

The Commission being of the opinion further that such suspension is necessary in order to prevent fraudulent, deceptive or manipulative acts or practices, with the result that it will be unlawful under section 15(c)(2) of the Securities Exchange Act of 1934 and the Commission's Rule 15c2-2 thereunder for any broker or dealer to make use of the mails or of any means or instrumentality of interstate commerce to effect any transaction in, or to induce or attempt to induce the purchase or sale of such security, otherwise than on a national securities exchange;

It is ordered, Pursuant to section 19(a)(4) of the Securities Exchange Act of 1934 that trading in said security on the San Francisco Mining Exchange be summarily suspended in order to prevent fraudulent, deceptive or manipulative acts or practices, this order to be effective for a period of ten (10) days, February 8, 1962, to February 17, 1962, both dates inclusive.

By the Commission.

[SEAL] ORVAL L. DuBOIS, *Secretary.*

[F.R. Doc. 62-1468; Filed, Feb. 13, 1962; 8:46 a.m.]

[File No. 24B-1169]

CARINTHIA SKI AREA, INC.

Order Temporarily Suspending Exemption, Statement of Reasons Therefore, and Notice of Opportunity for Hearing

FEBRUARY 6, 1962.

I. Carinthia Ski Area, Inc. (issuer), a Vermont corporation, West Dover, Vermont, filed with the Commission on July 25, 1960, a notification on Form 1-A and an offering circular relating to a proposed public offering of 113 shares of no par common stock at $1,000 per share for an aggregate amount of $113,000, for the purpose of obtaining an exemption from the registration requirements of the Securities Act of 1933, as amended, pursuant to the provisions of section 3(b) and Regulation A promulgated thereunder.

II. The Commission has reasonable cause to believe that:

A. The terms and conditions of Regulation A have not been complied with in that the issuer failed to furnish the offering circular required by Rule 256 to certain purchasers of the issuer's common stock.

B. The offering was made in violation of section 17(a) of the Securities Act of 1933, as amended, in that:

1. Investors were "guaranteed" a 6 percent return on their investments.

2. The capitalization of the corporation and number of shares outstanding were misrepresented to investors.

III. *It is ordered*, Pursuant to Rule 261(a) of the general rules and regulations under the Securities Act of 1933, as amended, that the exemption under Regulation A be, and it hereby is, temporarily suspended.

Notice is hereby given that any person having any interest in the matter may file with the Secretary of the Commission a written request for a hearing within thirty days after the entry of this order; that within twenty days after receipt of such request the Commission will, or at any time upon its own motion may, set the matter down for hearing at a place to be designated by the Commission for the purpose of determining whether this order of suspension should be vacated or made permanent, without prejudice, however, to the consideration and presentation of additional matters at the hearing; that if no hearing is requested and none is ordered by the Commission, this order shall become permanent on the thirtieth day after its entry and shall remain in effect unless or until it is modified or vacated by the Commission; and that notice of the time and place for any hearing will be promptly given by the Commission.

By the Commission.

[SEAL] ORVAL L. DuBOIS, *Secretary.*

[F.R. Doc. 62-1469; Filed, Feb. 13, 1962; 8:46 a.m.]

[File No. 24D-2527]

COLORADO-CHEROKEE, INC.

Order Temporarily Suspending Exemption, Statement of Reasons Therefor, and Notice of Opportunity for Hearing

FEBRUARY 7, 1962.

I. Colorado-Cherokee, Inc. (issuer), a Colorado corporation, filed with the Commission on August 14, 1961, a notification on Form 1-A, and offering circular relating to a proposed offering of 2,799,850 shares of its $0.10 par common stock, of which 400,000 shares are proposed to be exchanged for 4,000,000 shares of $0.01 par stock of Cherokee Uranium Mining Corporation and

2,399,850 shares are to be offered to the shareholders of Cherokee Uranium Mining Corporation at 10¢ per share, for an aggregate cash offering of $239,985, for the purpose of obtaining an exemption from the registration requirements of the Securities Act of 1933, as amended, pursuant to the provisions of section 3(b) thereof and Regulation A promulgated thereunder. The so-called public shareholders of Cherokee Uranium Mining Corporation who accept the exchange offer will be required to purchase nine shares of Colorado-Cherokee, Inc., for each share they receive in exchange.

II. The Commission has reasonable cause to believe that:

A. The offering circular contains untrue statements of material facts and omits to state material facts necessary in order to make the statements made, in the light of the circumstances under which they were made, not misleading, particularly with respect to:

1. The inclusion of estimations of recoverable crude oil reserves from properties under option, which, based upon developments to date and the production data available, do not appear to be reasonable.

2. The omission of a reasonable estimate as to the total amount of money necessary to develop and operate by secondary recovery methods the oil properties involved.

3. The failure to include an adequate map of the oil leases under option, showing the location, depth and present status of wells drilled thereon for oil and gas.

4. The failure to disclose adequately and accurately the cost incurred by the issuer's president in acquiring the Cherokee Uranium Mining Corporation shares he now proposes to exchange for securities of the issuer.

5. The representation that persons who had previously invested in the securities of the Cherokee Uranium Mining Corporation can elect to salvage their investment by investing in securities of the issuer.

6. The representation that the proposed offering of securities to shareholders of the Cherokee Uranium Mining Corporation is in effect an attempted reorganization of that corporation.

7. The failure to disclose accurately and adequately the basis for, and the effect of, the temporary suspension order issued by the Commission on May 28, 1956, in the matter of Cherokee Uranium Mining Corporation.

8. The failure to disclose accurately and adequately the circumstances surrounding the $120,000 loan to the Cherokee Uranium Mining Corporation by Walter F. Tellier.

B. The offering would be made in violation of section 17 of the Securities Act of 1933, as amended.

III. *It is ordered*, Pursuant to Rule 261(a) of the general rules and regulations under the Securities Act of 1933, as amended, that the exemption under Regulation A be, and it hereby is, temporarily suspended.

Notice is hereby given that any person having any interest in the matter may file with the Secretary of the Commission a written request for a hearing within thirty days after the entry of this order; that within twenty days after receipt of such request the Commission will, or at any time upon its own motion may, set the matter down for hearing at a place to be designated by the Commission for the purpose of determining whether this order of suspension should be vacated or made permanent, without prejudice, however, to the consideration and presentation of additional matters at the hearing; that if no hearing is requested and none is ordered by the Commission, this order shall become permanent on the thirtieth day after its entry and shall remain in effect unless or until it is modified or vacated by the Commission; and that notice of the time and place for any hearing will be promptly given by the Commission.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

GEORGE HARMON CO., INC.

Notice and Order for Hearing

FEBRUARY 8, 1962.

I. George Harmon Company, Inc. (issuer), a Nevada corporation, filed with the Commission on July 21, 1961, a notification on Form 1-A and offering circular relating to a proposed public offering of 62,500 shares of common stock, 10 cents par value, at $4 per share, on behalf of issuer, and 10,000 warrants for common stock at 10 cents per share, and the 10,000 shares of common stock underlying such warrants, for the benefit of Hamilton Waters & Co., Inc., 250 Fulton Avenue, Hempstead, New York, the underwriter, and certain finders, J. Homer Overholser, 9171 Wilshire Boulevard, Beverly Hills, California, and Milton Weinberg, address not known, all for an aggregate offering price of not to exceed $300,000, for the purpose of obtaining an exemption from the registration requirements of the Securities Act of 1933, as amended, pursuant to the provisions of section 3(b) thereof and Regulation A promulgated thereunder.

II. The Commission on January 16, 1962, issued an order pursuant to Rule 261 of the General Rules and Regulations under the Securities Act of 1933, as amended, temporarily suspending the issuer's exemption under Regulation A and affording any person having any interest in the matter an opportunity to request a hearing. A written request for a hearing has been received by the Commission.

The Commission deems it necessary and appropriate that a hearing be held for the purpose of determining whether it should vacate the temporary suspension order or enter an order of permanent suspension in this matter.

It is hereby ordered, Pursuant to Rule 261 of the general rules and regulations under the Securities Act of 1933, as amended, that a hearing be held at 10:00 a.m., P.s.t., on March 5, 1962, at the Los Angeles Branch Office of the Commission, Room 309 Guaranty Building, 6331 Hollywood Boulevard, Los Angeles 28, California, with respect to the matters specified in section II of the Commission's order of temporary suspension entered on January 16, 1962, as amended by order entered on February 8, 1962, without prejudice, however, to the specification of additional issues which may be presented in these proceedings.

III. *It is further ordered*, That Sidney Feiler, or any officer or officers of the Commission designated by it for that purpose, shall preside at the hearing and any officer or officers so designated to preside at any such hearing are hereby authorized to exercise all of the powers granted to the Commission under sections 19(b), 21 and 22(c) of the Securities Act of 1933, as amended, and to hearing officers under the Commission's rules of practice.

It is further ordered, That the Secretary of the Commission shall serve a copy of this order by registered mail on George Harmon Company, Inc., that notice of the entering of this order shall be given to all other persons by a general release of the Commission and by publication in the FEDERAL REGISTER. Any person who desires to be heard, or otherwise wishes to participate in the hearing, shall file with the Secretary of the Commission on or before March 2, 1962, a request relative thereto as provided in Rule 9(c) of the Commission's rules of practice.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

[File No. 24SF-2922]

GEORGE HARMON CO., INC.

Order Amending Order Temporarily Suspending Exemption

FEBRUARY 8, 1962.

I. George Harmon Company, Inc. (issuer), a Nevada corporation, filed with the Commission on July 21, 1961, a notification on Form 1-A and offering circular relating to a proposed public offering of 62,500 shares of common stock, 10 cents par value, at $4 per share, on behalf of issuer, and 10,000 warrants for common stock at 10 cents per share, and the 10,000 shares of common stock underlying such warrants, for the benefit of Hamilton Waters & Co., Inc., 250 Fulton Avenue, Hempstead, New York, the underwriter, and certain finders, J. Homer Overholser, 9171 Wilshire Boulevard, Beverly Hills, California, and Milton Weinberg, address not known, all for an aggregate offering price of not to exceed $300,000, for the purpose of obtaining an exemption from the registration requirements of the Securities Act of 1933, as amended, pursuant to the provisions of section 3(b) thereof and Regulation A promulgated thereunder.

II. The Commission by order dated January 16, 1962, having temporarily suspended the Regulation A exemption of George Harmon Company, Inc., pursuant to Rule 261 of the general rules and regulations under the Securities Act of 1933, as amended, with respect to an offer of securities by George Harmon Company, Inc., and

The Commission having been advised that the San Francisco Regional Office has received additional information and that office deems it necessary to amend the temporary suspension order dated January 16, 1962,

It is ordered, That the text under section II of the order dated January 16, 1962, temporarily suspending the exemption, be deleted and the following text be substituted therefor:

The Commission has reasonable cause to believe that:

A. The offering circular contains untrue statements of material facts and omits to state material facts necessary in order to make the statements made, in the light of the circumstances under which they were made, not misleading, particularly with respect to:

1. The representation in the offering circular that the issuer has a backlog of orders totalling $4,314,349;

2. The representation in the offering circular that the issuer has an order totalling $4,130,000 for telephone answering devices.

3. The representation in the offering circular that the issuer has an order totalling $59,415 for Talk-A-Way Transceivers.

4. The representation in the offering circular that there is a further order aggregating approximately $1,540,000 for inertia switches which the company has been assured will be placed with it by a prime West Coast missile contractor upon a showing of adequate working capital, which in the opinion of management will be available upon completion of this offering.

B. The terms and conditions of the Regulation have not been complied with in that the offering circular as actually used and distributed did not conform to the offering circular filed in the Regional Office. A rider amendment to be affixed to page 7, dated December 20, 1961, as filed, was in fact affixed to the facing page.

C. The offering would be made in violation of Section 17 of the Securities Act, as amended.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

MARTIN-MARIETTA CORP.

Notice of Application for Unlisted Trading Privileges and of Opportunity for Hearing

FEBRUARY 8, 1962.

In the matter of application of the Boston Stock Exchange for unlisted trading privileges in a certain security.

The above named national securities exchange has filed an application with the Securities and Exchange Commission pursuant to section 12(f)(2) of the Securities Exchange Act of 1934 and Rule 12f-1 thereunder, for unlisted trading privileges in the common stock of the following company, which security is listed and registered on one or more other national securities exchanges: Martin-Marietta Corporation, File 7-2223.

Upon receipt of a request, on or before February 23, 1962, from any interested person, the Commission will determine whether the application shall be set down for hearing. Any such request should state briefly the nature of the interest of the person making the request and the position he proposes to take at the hearing, if ordered. In addition, any interested person may submit his views or any additional facts bearing on the said application by means of a letter addressed to the secretary, Securities and Exchange Commission, Washington 25, D.C., not later than the date specified. If no one requests a hearing, this application will be determined by order of the Commission on the basis of the facts stated therein and other information contained in the official files of the Commission pertaining thereto.

By the Commission.

[File No. 24A-1568]

PHYSICIANS AND DENTISTS DEVELOPMENT CORP.

Order Temporarily Suspending Exemption, Statement of Reasons Therefor, and Notice of Opportunity for Hearing

FEBRUARY 8, 1962.

I. Physicians and Dentists Development Corporation (issuer), a construction and leasing company, filed with the Commission on November 30, 1961, a notification on Form 1-A and an offering circular relating to a proposed public offering of 75,000 shares of its $1 par value common stock at $4 per share for an aggregate amount of $300,000, for the purpose of obtaining an exemption from the registration requirements of the Securities Act of 1933, as amended, pursuant to the provisions of section 3(b) thereof and Regulation A promulgated thereunder.

II. The Commission has reasonable cause to believe that:

A. The terms and conditions of Regulation A have not been complied with in that a statement of cash receipts and disbursements was not set forth in the offering circular, as required by Item 11 of Schedule I.

B. The offering circular contains untrue statements of material facts and omits to state material facts necessary in order to make the statements made, in the light of the circumstances under which they were made, not misleading, particularly in that:

1. The offering circular contains financial statements as of November 13, 1961, which are false and misleading in the following respects:

(a) Cash in bank of $11,500 shown as a current asset, is overstated in that as of the date of the balance sheet the issuer's only cash on hand was $6,500 represented by either uncashed checks of its directors for its stock or a trustee account in which some of such checks had been deposited.

(b) Fixed assets, consisting of plans, equipment, surveys and prepaid organization expenses, are capitalized in the balance sheets at a value of $21,500 which substantially exceeds the cash cost thereof.

(c) A liability of $5,000 to the issuer's attorney as of the date of the balance sheet is not disclosed.

2. The statements in the offering circular concerning preliminary sketches for buildings which the issuer intends to construct and lease omit disclosure in connection therewith that the issuer has received no commitments, contracts or agreements for the construction or lease of any buildings.

3. The statements in the offering circular concerning payments of 1 percent of its gross leases to each of the issuer's three officers omit disclosure that such payments are to be made to them upon closing of the proposed leases and prior to collection of gross rentals, the benefits from which will accrue to it only when, and if, payments on such leases, which are to extend over many years, are received.

4. The statements in the offering circular concerning the experience of the issuer's president and secretary-treasurer over the past several years in a similar business of building and leasing offices fail to disclose that such persons had operated the corporation engaged in the comparable business unprofitably and had engaged in transactions with such corporation which were not negotiated in arms-length bargaining.

C. The offering would be made in violation of section 17 of the Securities Act of 1933, as amended.

III. *It is ordered*, Pursuant to Rule 261(a) of the general rules and regulations under the Securities Act of 1933, as amended, that the exemption under Regulation A be, and it hereby is, temporarily suspended.

Notice is hereby given that any person having any interest in the matter may file with the Secretary of the Commission a written request for a hearing within thirty days after the entry of this order; that within twenty days after receipt of such request the Commission will, or at any time upon its own motion may, set the matter down for hearing at a place to be designated by the Commission for the purpose of determining whether this order of suspension should be vacated or made permanent, without prejudice, however, to the consideration and presentation of additional matters at the hearing; that if no hearing is requested

and none is ordered by the Commission, this order shall become permanent on the thirtieth day after its entry and shall remain in effect unless or until it is modified or vacated by the Commission; and that notice of the time and place for any hearing will be promptly given by the Commission.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

[File 7-2222]

UNILEVER LIMITED

Notice of Application for Unlisted Trading Privileges and of Opportunity for Hearing

FEBRUARY 8, 1962.

In the matter of application of the Philadelphia-Baltimore Stock Exchange for unlisted trading privileges in a certain security.

The above named national securities exchange has filed an application with the Securities and Exchange Commission pursuant to Section 12(f)(2) of the Securities Exchange Act of 1934 and Rule 12f-1 thereunder, for unlisted trading privileges in the common stock of the following company, which security is listed and registered on one or more other national securities exchanges: Unilever Limited (ADR's for ordinary shares), File 7-2222.

Upon receipt of a request, on or before February 23, 1962 from any interested person, the Commission will determine whether the application shall be set down for hearing. Any such request should state briefly the nature of the interest of the person making the request and the position he proposes to take at the hearing, if ordered. In addition, any interested person may submit his views or any additional facts bearing on the said application by means of a letter addressed to the Secretary, Securities and Exchange Commission, Washington 25, D.C., not later than the date specified. If no one requests a hearing, this application will be determined by order of the Commission on the basis of the facts stated therein and other information contained in the official files of the Commission pertaining thereto.

By the Commission.

FEDERAL REGISTER

Telephone WOrth 3–3261

Published daily, except Sundays, Mondays, and days following official Federal holidays, by the Office of the Federal Register, National Archives and Records Service, General Services Administration, pursuant to the authority contained in the Federal Register Act, approved July 26, 1935 (49 Stat. 500, as amended; 44 U.S.C., ch. 8B), under regulations prescribed by the Administrative Committee of the Federal Register, approved by the President. Distribution is made only by the Superintendent of Documents, Government Printing Office, Washington 25, D.C.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for $1.50 per month or $15.00 per year, payable in advance. The charge for individual copies (minimum 15 cents) varies in proportion to the size of the issue. Remit check or money order, made payable to the Superintendent of Documents, directly to the Government Printing Office, Washington 25, D.C.

The regulatory material appearing herein is keyed to the CODE OF FEDERAL REGULATIONS, which is published, under 50 titles, pursuant to section 11 of the Federal Register Act, as amended August 5, 1953. The CODE OF FEDERAL REGULATIONS is sold by the Superintendent of Documents. Prices of books and pocket supplements vary.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER, or the CODE OF FEDERAL REGULATIONS.

[Livestock Feed Bulletin 1, Rev. 1, Amdt. 2]

PART 475—EMERGENCY FEED PROGRAM

Subpart—Livestock Feed Program

PRICE SUPPORT RATE

Section 475.208(c) of the regulations issued by the Commodity Credit Corporation published in 26 F.R. 8271 which contain specific requirements for the continuing Livestock Feed Program is amended to read as follows:

(c) *Price support rate.* As used in paragraphs (a) and (b) of this section "price support rate" shall mean the price support rate, including premiums and discounts established for class, grade and quality, for the county in which the grain is delivered as set forth in the applicable CCC Price Support Bulletin. Notwithstanding the foregoing, in cases where it results in savings of delivery costs to CCC and where it is determined to effectuate the purposes of the program, the Deputy Administrator for State and County Operations may authorize delivery of grain in a county other than the county in which the application is filed at the price support rate (including appropriate premiums and discounts) for the county in which the application is filed.

Signed at Washington, D.C., on February 8, 1962.

ROBERT G. LEWIS,
Acting Executive Vice President,
Commodity Credit Corporation.

[Sugar Determination 877.14]

PART 877—SUGARCANE; PUERTO RICO

Fair and Reasonable Prices; 1961–62 Crop

Pursuant to the provisions of section 301(c)(2) of the Sugar Act of 1948, as amended (herein referred to as "act"), after investigation, and due consideration of evidence presented at the public hearing held in Santurce, Puerto Rico, on November 15, 1961, the following determination is hereby issued:

§ 877.14 Fair and reasonable prices for the 1961–62 crop of Puerto Rican sugarcane.

A producer of sugarcane in Puerto Rico who is also a processor of sugarcane (herein referred to as "processor"), shall have paid, or contracted to pay, for sugarcane of the 1961–62 crop grown by other producers and processed by him, in accordance with the following requirements:

(a) *Definitions.* For the purpose of this section, the term:

(1) "Raw sugar" means raw sugar as made converted to 96° basis.

(2) "Sugar yield period" means any period not exceeding one calendar month as may be elected by the processor to determine the yield of raw sugar. The period adopted by the processor shall be used uniformly throughout the grinding season. In instances where odd days occur because a processor begins or ends grinding on a day which does not correspond with the beginning or ending of the sugar yield period, or grinding is interrupted because of holidays or for other reasons, such odd days shall be included either in the prior or subsequent sugar yield period, or treated as a separate sugar yield period.

(3) "Price of raw sugar" means the simple average of the daily spot price quotations for sugar deliverable under the New York Coffee and Sugar Exchange No. 7 domestic contract (bulk sugar) for the period January 1, 1962, through December 31, 1962, except that if the Director of the Sugar Division determines that any such price quotation does not reflect the true market value of raw sugar because of inadequate volume or other factors, he may designate the price to be effective under this determination which he determines will reflect the true market value of raw sugar.

(4) "Inferior varieties of sugarcane" means sugarcane of the Saccharum Spontaneum or Saccharum Sinense variety (including sugarcane of the Japanese, Uba, Kavangerie, Zuings, Caledonia, Coimbatore 213 and Coimbatore 281 varieties).

(5) "Yield of raw sugar" means the yield of raw sugar per 100 pounds of net sugarcane determined for the sugar yield period in accordance with the formula set forth in Schedule A attached hereto and made a part hereof.

(6) "Net sugarcane" means (i) the gross weight of the sugarcane delivered to the mill determined to contain a quantity of trash not in excess of 5 percent of the gross weight, or (ii) the gross weight of the sugarcane delivered to the mill less the quantity of trash determined to be in excess of 5 percent of such gross weight.

(7) "Trash" means green or dried leaves, sugarcane tops, soil, stones, and all other extraneous material.

(8) "Area Office" means Caribbean Area Agricultural Stabilization and Conservation Service Office, Santurce, Puerto Rico.

(b) *Payment for sugarcane.* (1) The payment for net sugarcane delivered by the producer to the processor shall be made either by the delivery to the producer of his share of raw sugar or by the payment to the producer of the money value of his share of raw sugar, as may be agreed upon by the producer and the processor.

(2) For each 100 pounds of net sugarcane (including inferior varieties of sugarcane) having a yield of raw sugar of 9 pounds or more, the payment shall be not less than the quantity of raw sugar determined by applying the following applicable percentage to the yield of raw sugar of the producer's net sugarcane:

Pounds of raw sugar per 100 pounds of net sugarcane:	Percentage
9.0	63.0
9.5	63.5
10.0	64.0
10.5	64.5
11.0	65.0
11.5	65.5
12.0	66.0
12.5	66.5
13.0	67.0
13.5 and over	67.5

Intermediate points within the above scale are to be interpolated to the nearest one-tenth point.

(3) For each 100 pounds of net sugarcane (including inferior varieties of sugarcane) having a yield of raw sugar of less than 9 pounds, the payment shall be not less than the quantity determined by subtracting 3⅓ pounds of raw sugar from the yield of raw sugar of the producers net sugarcane.

(4) If settlement with the producer is made in cash, the processor shall pay to the producer the money value of his share of raw sugar determined on the basis of the price of raw sugar converted to an f.o.b. mill price by subtracting therefrom the admissible deductions for selling and delivery expenses on raw sugar in accordance with Schedule B attached hereto and made a part hereof.

(c) *Molasses payment.* For each ton of net sugarcane delivered, the processor shall pay to the producer an amount equal to the product of (1) 66 percent of the net proceeds per gallon of blackstrap molasses sold of the 1961–62 crop, and (2) the average production of blackstrap molasses per ton of net sugarcane of the 1961–62 crop processed at each mill. A processor operating more than one mill shall compute the average gross proceeds per gallon from the sales of molasses produced at all mills operated by such processor and shall compute the net proceeds per gallon separately for each mill operated by such processor. The net proceeds shall be determined by subtracting from the average gross sales price the admissible deductions for selling and delivery expenses on molasses in accordance with Schedule C attached hereto and made a part hereof. If a processor has not sold 1961–62 crop molasses by the time he is required to submit to the Area office a statement of the net proceeds from molasses as required by paragraph (g)(2) of this section, he shall make a provisional molasses payment to producers of not less than 75 percent of the net proceeds per gallon realized by other processors in Puerto Rico for 1961–62 crop molasses, as determined by the Director of the Area office. Final settlement with producers shall be made promptly after the 1961–62 crop molasses has been sold, based on the actual price received per gallon and the processor shall promptly submit to the Area office a statement of the net proceeds determined pursuant to paragraph (g)(2) of this section.

(d) *Determination of net sugarcane.* (1) The net sugarcane of each producer (including the processor) which is delivered to the mill each day shall be determined as follows: The processor jointly with a representative designated by the producers or the producer organization in any mill area, shall examine the sugarcane deliveries and estimate whether the deliveries contain a quantity of trash (i) not in excess of 5 percent of the gross weight, or (ii) in excess of 5 percent of the gross weight. In the absence of a producer representative the processor shall have full responsibility for examining such sugarcane deliveries and for making such estimates. As to the deliveries of sugarcane of any producer which are estimated to contain trash not in excess of 5 percent, the gross weight of the sugarcane delivered shall also be the net weight. As to the deliveries of sugarcane of any producer estimated by both the processor and the representative of producers or by either of such parties to contain trash in excess of 5 percent, the net weight shall be determined by taking a representative sample of not less than 100 pounds of sugarcane from one or more of the deliveries deemed to be representative and separate therefrom all trash. The weight of the trash which is removed from the sample of sugarcane shall be expressed as a percentage of the gross weight of the sample. If such percentage exceeds 5 percent, the difference between 100 percent and such excess percentage shall be applied to the gross weight of the sugarcane delivery from which the sample was taken to determine the net weight of such sugarcane, and the same percentage as determined above shall be applied to the gross weight of all other deliveries of sugarcane delivered by that producer during the same day which are estimated to contain trash content reasonably similar to the delivery from which the sample was taken.

(2) With respect to the sample taken as provided in subparagraph (1) of this paragraph, the processor may make a separate determination of the weight of soil and stones contained in such sample and may charge the producer 5 cents per ton of net sugarcane delivered during the day which is represented by the sample for each one percent, fractions in proportion, by which the weight of soil and stones is in excess of one percent of the gross weight of the sample.

(e) *Sampling charges.* The processor may charge the producer 66 percent of the actual cost, but not to exceed $2.64, for each sample taken to cover the cost of sampling and measuring the actual quantity of trash. If a separate determination is made of the weight of soil and stones, the cost thereof shall be borne by the processor.

(f) *Services and allowances to producers.* (1) When payment is made to the producer by the delivery of raw sugar, the processor shall store and insure all such sugar through December 31, 1962, and shall bear the costs thereof.

(2) When payment is made to the producer by the delivery of raw sugar, the processor shall share with the producer on a pro rata basis all ocean shipping facilities available to the processor.

(3) Allowances made to producers by the processor for the 1960–61 crop shall be made for the 1961–62 crop at the rates which were effective under comparable conditions in 1960–61; the costs of services which were borne by the processor for the 1960–61 crop shall be borne for the 1961–62 crop: *Provided*, That nothing in this subparagraph shall be construed as prohibiting negotiations between the processor and producer with respect to the amount of allowances to be made to the producer, any change to be approved in writing by the Area office upon a determination by the Director of the Area office that the change results in allowances which are fair and reasonable.

(g) *Reporting requirements.* (1) The processor shall submit to the Area office a list of those producers with whom settlement will be made in cash and those with whom settlement will be made in sugar, together with a statement as to the sugar yield period which will be used during the grinding season. Such information shall be submitted not later than 7 days after grinding commences, except that in extenuating circumstances an extension may be granted by the Director of the Area office.

(2) The processor shall submit in duplicate to the Area office statements verified by a Certified Public Accountant of the deductions made in determining the f.o.b. mill price of sugar and the net proceeds from molasses. Such statements shall be submitted not later than August 1, 1963, except that in extenuating circumstances an extension may be granted by the Director of the Area office.

(h) *Subterfuge.* The processor shall not reduce the returns to the producer below those determined in accordance with the requirements of this section through any subterfuge or device whatsoever.

STATEMENT OF BASES AND CONSIDERATIONS

(a) *General.* The foregoing determination establishes the fair and reasonable price requirements which must be met, as one of the conditions for payment under the act, by a producer who processes sugarcane of the 1961–62 crop grown by other producers.

(b) *Requirements of the act.* Section 301(c)(2) of the act provides as a condition for payment, that the producer on the farm who is also directly or indirectly a processor of sugarcane, as may be determined by the Secretary, shall have paid, or contracted to pay under either purchase or toll agreements, for sugarcane grown by other producers and processed by him at rates not less than those that may be determined by the Secretary to be fair and reasonable after investigation and due notice and opportunity for public hearing.

(c) *1961–62 price determination.* This determination continues the provisions of the 1960–61 crop determination.

A public hearing was held in Santurce, Puerto Rico, on November 15, 1961, at which interested persons were afforded the opportunity to testify with respect to fair and reasonable prices for the 1961–62 crop of sugarcane. The notice of hearing requested witnesses to present their views and recommendations on the following proposal designed to provide a more equitable basis of determining selling and delivery expenses under special enumerated circumstances:

The f.o.b. mill price of raw sugar produced by any processor who markets any of such sugar locally or who refines or processes any of such sugar shall be determined by deducting selling and delivery expenses computed as follows: (1) If the processor sells locally or refines or further processes more than 50 percent of the total quantity of raw sugar produced by the mill the selling and delivery expenses to be applied to all raw sugar produced by such mill shall be the average of the admissible selling and delivery expenses approved by the Area office for all raw sugar produced in Puerto Rico which was delivered to mainland refiners; or, (2) if the processor sells locally or refines or further processes 50 percent or less of the total quantity of raw sugar produced by the mill, the selling and delivery expenses to be applied to all raw sugar produced by such mill shall be the average of the admissible selling and delivery expenses approved by the Area office for that quantity of raw sugar produced by the mill which was delivered to mainland refiners.

The representative of the Grower-Processor Committee stated that the Committee examined the proposal contained in the hearing notice but had not had enough time to consider its effect on settlements for sugarcane when sugar is sold locally or refined in Puerto Rico, and recommended that the provisions of the 1961–62 crop determination be the same as those for the 1960–61 crop determination. He stated that the Committee did not know of any problems in connection with the method presently used to determine selling and delivery expenses for mills which refine or market sugar locally; that to use the average selling and delivery expenses of all sugar produced in Puerto Rico which was delivered to mainland refiners, might in some cases be detrimental to the processor or to the growers delivering sugarcane to the processor's mill; and that it would not be equitable to apply average marketing expenses to a section of the Island where the actual expenses may be substantially different. A representative of three processors who refine locally most of their raw sugar production, recommended that the proposal regarding selling and delivery expenses not be adopted. This witness stated that there had not been sufficient time to examine the figures relating to the proposal, but notwithstanding what the figures might show it was felt, on principle, that the proposal would involve a dangerous policy because of differences in cost elements in the different areas; and that to base selling and delivery expenses on an Island-wide average would likely create inequities to the processors and growers affected.

Consideration has been given to the recommendations presented at the public hearing and to other pertinent information. The comparative returns, costs, and profits of producing and processing sugarcane in Puerto Rico, obtained through field survey for a recent year, have been recast in terms of prospective price and production conditions for the 1961–62 crop. Analysis of these data indicates that the provisions of this determination will provide an equitable sharing of total returns from sugar and molasses between producers and processors.

Heretofore, price determinations have provided that in determining the f.o.b. mill price of raw sugar sold or processed in Puerto Rico, equivalent selling and delivery expenses, as approved by the Director of the Area office, may be allowed in lieu of expenses actually incurred. This provision has required considerable administrative discretion by the Area office since it had to make a finding of equivalent selling and delivery expenses in instances where processors were affiliates of a local refinery and had shipped only a portion of their production to the mainland or had not shipped any of their production to the mainland; and such selling and delivery expenses also had to be determined for processors not affiliated with a local refinery who may have transferred all or only a part of their production to such a refinery.

In view of the fact that because of unusual circumstances, the hearing notice was issued just prior to the hearing and the parties did not have sufficient time to adequately study and appraise the impact of the proposal on selling and delivery expenses which would be equitable under current conditions, and in light of the recommendations made at the hearing, the method suggested in the proposal has not been adopted at this time. However, further study of the effects of the proposal should be made by the parties affected during the current year with a view to further consideration of the matter at the next fair price hearing.

On the basis of the examination of all the pertinent factors, the provisions of this determination are deemed to be fair and reasonable.

Accordingly, I hereby find and conclude that the foregoing price determination will effectuate the price provisions of the Sugar Act of 1948, as amended.

(Sec. 403, 61 Stat. 932; 7 U.S.C. 1153. Interprets or applies sec. 301, 61 Stat. 929, as amended; 7 U.S.C. Sup. 1131)

Signed at Washington, D.C., on February 9, 1962.

ORVILLE L. FREEMAN,
Secretary.

SCHEDULE A

FORMULA FOR DETERMINING THE "YIELD OF RAW SUGAR" FOR EACH PRODUCER

$$R = TI\ (S - 0.3B)F$$

where:

R = Yield of raw sugar, 96° basis;

S = Polarization of the crusher juice obtained from the sugarcane of each producer;

B = Brix of the crusher juice obtained from the sugarcane of each producer;

T = Trash correction factor which varies inversely with the amount of trash contained in the sugarcane of each producer from 1.0 for sugarcane which contains an amount of trash not in excess of 5 percent of the gross weight of sugarcane to 0.90075 for sugarcane which contains an amount of trash in excess of 16 percent of the gross weight of sugarcane.

I = Inferior sugarcane correction factor which is applied only to inferior varieties of sugarcane of each producer and is determined as follows:

(a) When the purity, P (where P = 100S ÷ B), of the crusher juice of sugarcane is equal to 75 or more, the factor, I = 0.9; or

(b) When the purity, P (where P = 100S ÷ B), of the crusher juice of such sugarcane is less than 75, the factor, I = 0.9 − 0.01 (75 − P);

F = Yield factor which is determined as follows:

(a) Determine the "tentative recovery of raw sugar", 96° basis, for each producer delivering sugarcane during the settlement period from the product of the formula (S − 0.3B), the number of hundredweights of net sugarcane, the applicable trash correction factor, T; and where applicable the inferior sugarcane correction factor, I; and

(b) Divide the pounds of raw sugar, 96° basis, produced at the mill during the applicable settlement period by the sum of the "tentative recoveries of raw sugar" for all producers to obtain the yield factor, F.

SCHEDULE B

ADMISSIBLE DEDUCTIONS FOR SELLING AND DELIVERY EXPENSES ON RAW SUGAR

Admissible deductions for selling and delivery expenses on 1961–62 crop raw sugar are limited to the sum of the following expenses for each mill operated by a processor, net of any receipts which reduce such expenses;

(1) Freight from the mill directly to the bulk raw sugar loading terminal, including the cost of covering cars or trucks where necessary;

(2) The cost of receiving, handling, and loading aboard ship at the bulk terminal at the rates established by the Puerto Rico Public Service Commission and in effect at the time the sugar is delivered to the bulk sugar terminal facility;

(3) Ocean freight;

(4) Unloading at destination;

(5) Freight demurrage resulting from causes beyond the control of the shipper, and

(6) An allowance of 7.0 cents per hundredweight of 96° raw sugar, in lieu of the following expenses;

(i) Reclaiming, weighing, and loading at mill or where stored;

(ii) Shore risk, marine and war risk insurance;

(iii) Brokerage or commission and exchange;

(iv) Weighing, testing, and sampling at destination;

(v) All other expenses not itemized herein.

When any of the necessary services included in item (1), (3), (4), or (5) above are furnished by the processor, costs incurred may include for each of the services rendered:

(1) Direct and immediate supervisory labor;

(2) Maintenance labor and supplies required for the facilities used;

(3) Taxes and insurance assessed or charged to the processor on such labor and a proportionate share of retirement and pension, bonuses, and vacation expenses properly allocable to such labor;

(4) Direct supplies; and

(5) Depreciation (at rates allowed by the taxing authority), property taxes, and property insurance on the facilities used.

Administrative expenses and interest shall be excluded from the computation of costs. In the event that facilities used in providing the necessary services are also used for other purposes by the processor, only that portion of the maintenance, depreciation, property taxes, and property insurance of such facilities properly apportionable to the necessary service shall be allowed.

The Director of the Area Office may permit the use of the lowest rate charged by a public utility or carrier for comparable service in lieu of the costs incurred by the processor in furnishing the necessary service in the event that the costs incurred therefor cannot be accurately determined.

In determining the f.o.b. mill price of raw sugar sold or processed in Puerto Rico, equivalent selling and delivery expenses as approved by the Director of the Area Office, may be allowed in lieu of expenses actually incurred.

The statement as required by paragraph (g)(2) of the determination shall include the following certification:

CERTIFICATION

I hereby certify that the deductions set forth herein are properly chargeable as selling and delivery expenses for sugar in accordance with the determination of fair and reasonable prices for the 1961–62 crop of Puerto Rican sugarcane.

SCHEDULE C

ADMISSIBLE DEDUCTIONS FOR SELLING AND DELIVERY EXPENSES FOR MOLASSES

Admissible deductions for selling and delivery expenses in connection with the molasses payment provided in paragraph (c) of the 1961–62 price determination are limited to the sum of the following expenses actually incurred at each mill operated by a processor, net of any receipts which reduce such expenses;

(1) Operation of pumps to deliver molasses from mill tank to shipside or other delivery point;

(2) Freight from mill tank to shipside (or to local buyers when such molasses is sold on a delivered price basis);

(3) Operation of tank barges, tugs, or other marine equipment used in delivering molasses to shipside;

(4) Weighing and testing;

(5) Wharfage;

(6) Shore risk insurance (limited in coverage from mill to shipside);

(7) Freight demurrage resulting from causes beyond the control of the shipper;

(8) Brokerage paid to a bona fide broker.

When any of the necessary services included in items (1) through (8) above are furnished by the processor, costs incurred may include for each of the services rendered:

(1) Direct and immediate supervisory labor;

(2) Maintenance labor and supplies required for the facilities used;

(3) Taxes and insurance assessed or charged to the processor on such labor and a proportionate share of retirement and pensions, bonuses and vacation expenses properly allocable to such labor;

(4) Fuel, energy or direct supplies; and

(5) Depreciation (at rates allowed by the taxing authorities), property taxes and property insurance on the facilities used.

Administrative expenses and interest shall be excluded from the computation of costs. In the event that facilities used in providing the necessary services are also used for other purposes by the processor, only that portion of the maintenance, depreciation, property taxes, and property insurance of such facilities, properly apportionable to the necessary service, shall be allowed.

The Director of the Area office, may permit the use of the lowest rate charged by a public utility or carrier for comparable service in lieu of the cost incurred by the processor in furnishing the necessary service in the event that the costs incurred therefor cannot be accurately determined.

The statement as required by paragraph (g)(2) of the determination shall include the following certification:

CERTIFICATION

I hereby certify that the deductions set forth herein are properly chargeable as selling and delivery expenses for molasses in accordance with the determination of fair and reasonable prices for the 1961–62 crop of Puerto Rican sugarcane.

Title 10—ATOMIC ENERGY

Chapter I—Atomic Energy Commission

PART 1—STATEMENT OF ORGANIZATION, DELEGATIONS, AND GENERAL INFORMATION

EDITORIAL NOTE: In Part 1 of Title 10, Chapter I, of the Code of Federal Regulations (F.R. Doc. 61–12326; 26 F.R. 12730), §§ 1.140 through 1.160 are redesignated §§ 1.240 through 1.260, respectively.

Title 14—AERONAUTICS AND SPACE

Chapter III—Federal Aviation Agency

SUBCHAPTER E—AIR NAVIGATION REGULATIONS

[Airspace Docket No. 61–LA–13]

PART 600—DESIGNATION OF FEDERAL AIRWAYS

Alteration

On August 1, 1961, a notice of proposed rule making was published in the FEDERAL REGISTER (26 F.R. 6860) stating that the Federal Aviation Agency proposed to designate low altitude VOR Federal airway No. 538 from Twentynine Palms, Calif., to Los Vegas, Nev., to redesignate intermediate altitude VOR Federal airway No. 1613 from Mission Bay, Calif., to Las Vegas, and to realign low altitude VOR Federal airway No. 442 from Hector, Calif., to Rice, Calif. It was also stated that the control areas associated with this segment of Victor 538 would extend upward from 700 feet above the surface to the base of the continental control area.

The Department of the Navy objected to the proposed alignment of Victor 538 between Twentynine Palms and Goffs and its reduced width to avoid conflict with R–2501 because of the possibility of en route aircraft inadvertently wandering off course and into the hazardous activities conducted in the extreme southeast corner of R–2501. They requested that this segment of Victor 538 be aligned via the Twentynine Palms VORTAC 038° and the Goffs VOR 200° True radials. This would align the airway further to the east of R–2501 and minimize the chance of en route aircraft penetrating the restricted area and would simplify charting by utilizing the present Victor 208 en route radial from Twentynine Palms.

The Federal Aviation Agency agrees that the airway alignment proposed by the Navy would simplify charting and that penetration of the restricted area could place on aircraft in danger. However, airways are designated for public use over the shortest possible route consistent with special use airspace designations and air traffic control procedures. Route width reductions consistent with safety are applied where necessary. In this instance, it was determined that Victor 538 should be aligned over the shortest route possible to circumvent the restricted area and a reduction in airway width applied only to the extent consistent with safety and to the degree necessary to avoid encroachment on R–2501. In addition, it is the responsibility of the pilot to remain clear of published restricted areas, and when operating on an IFR flight plan, to confine his flight path within the confines of authorized airways.

With regard to Victor 1613, the Navy questioned the requirement for this airway south of Thermal and pointed out that the proposed alignment would conflict with holding airspace requirements at NAS Miramar and that aircraft operating to or from San Diego via this routing would normally be in the low altitude route structure south of Thermal. However, they agreed that if the airway were necessary, the proposed alignment would impose the least penalty on the over-all Navy operations in the San Diego area. In answer to the requirement for Victor 1613 between San Diego and Thermal, Western Airlines operates between San Diego and Las Vegas and American Airlines operates between San Diego and Phoenix. Both operations are conducted via Thermal and will utilize Victor 1613 when designated. In addition, because of traffic density in the San Diego area, provisions must be made for times when en route aircraft would be held at the higher altitudes at or near San Diego. Designation of Victor 1613 to the Mission Bay VORTAC would also improve air traffic service by permitting the use of a minimum of airway numbers in flight planning and traffic control clear-

ances. The Navy offered no objection to the proposed alteration of Victor 442.

The Air Transport Association of America stated that a direct routing of Victor 1613 between San Diego and Thermal would be preferred. However, because of the heavy concentration of jet traffic in the San Diego area and the established traffic patterns, the proposed routing would be in the best interest of maximum safety. They requested that both the Thermal and Twentynine Palms VOR's be eliminated from the airway description as compulsory reporting points, and that if there was a traffic control requirement for one or the other VOR's, then the Goffs VOR should be eliminated. A flight check of Victor 1613 has determined that the 034° and 214° True radials of the Thermal VOR are unstable. However, signal coverage from both the Julian and the Twentynine Palms VOR's are adequate over Thermal. Accordingly, the Thermal VOR will be deleted from the description of Victor 1613 and radials from Julian and Twentynine Palms will be used to align the airway over Thermal. The airway will be reduced, as originally proposed, to a 10 mile width in this segment to minimize conflict with holding procedures at Thermal and Julian for jet aircraft destined for March AFB and Norton AFB. The deletion of either the Twentynine Palms or Goffs VOR's as compulsory reporting points is not feasible at this time. The problem created by the many compulsory reporting points in the intermediate altitude route structure is under consideration by the Federal Aviation Agency and will be the subject of separate action.

The Department of the Air Force offered no objection to the proposed amendments. No other comments were received.

A flight check of the proposed alignment of Victor 442 indicates that this airway would be unsuitable for en route navigation due to unsatisfactory signal reception from the Parker VORTAC, below 14,000 feet MSL, at the site of the relocated Clipper intersection. Accordingly, the proposal to redesignate Victor 442 is withdrawn and a new alignment for this airway will be considered at a later date.

Interested persons have been afforded an opportunity to participate in the making of the rules herein adopted, and due consideration has been given to all relevant matter presented.

The substance of the proposed amendments having been published, therefore, pursuant to the authority delegated to me by the Administrator (25 F.R. 12582) and for the reasons stated in the notice, the following actions are taken:

1. In Part 600 (14 CFR Part 600) the following is added:

§ 600.6538 VOR Federal airway No. 538 (Twentynine Palms, Calif., to Las Vegas, Nev.).

From the Twentynine Palms, Calif., VORTAC via the INT of the Twentynine Palms VORTAC 043° and the Goffs, Calif., VOR 200° radials; Goffs VOR; to the Las Vegas, Nev., VORTAC, excluding the airspace within R-2501.

§ 600.1613 [Amendment]

2. In § 600.1613 (26 F.R. 1079) the text is amended to read: "From the Mission Bay, Calif., VOR 10 mile wide airway via the INT of the Mission Bay VOR 001° and the Julian, Calif., VOR 257° radials; Julian VOR; INT of the Julian VOR 036° and the Twentynine Palms, Calif., VOR 214° radials; Twentynine Palms VOR; 8 mile wide airway to the INT of the Twentynine Palms VOR 043° and the Goffs, Calif., VOR 200° radials; thence via the Goffs VOR; to the Las Vegas, Nev., VOR."

These amendments shall become effective 0001 e.s.t. April 5, 1962.

(Sec. 307(a), 72 Stat. 749; 49 U.S.C. 1348)

Issued in Washington, D.C., on February 8, 1962.

D. D. THOMAS,
Director, Air Traffic Service.

[F.R. Doc. 62-1538; Filed, Feb. 14, 1962; 8:46 a.m.]

[Airspace Docket No. 61-WA-42]

PART 600—DESIGNATION OF FEDERAL AIRWAYS

PART 601—DESIGNATION OF CONTROLLED AIRSPACE, REPORTING POINTS, POSITIVE CONTROL ROUTE SEGMENTS, AND POSITIVE CONTROL AREAS

Designation of Federal Airway and Associated Control Areas

On April 25, 1961, a notice of proposed rule making was published in the FEDERAL REGISTER (26 F.R. 3539) stating that the Federal Aviation Agency proposed to designate low altitude VOR Federal airway No. 503 from Goffs, Calif., to Beatty, Nev. In addition, it was stated that the control areas associated with the proposed segment of Victor 503 would extend upward from 1,200 feet above the surface.

On July 29, 1961, a supplemental notice of proposed rule making was published in the FEDERAL REGISTER (26 F.R. 6818) which altered the original proposal. The supplemental notice proposed that the control areas associated with the proposed Victor 503 extend upward from 700 feet above the surface to the base of the continental control area until such time as Amendment 60-21 to Part 60 of the Civil Air Regulations could be applied to the control areas associated with the other airways in the Goffs and Beatty areas.

No adverse comments were received regarding the proposed amendments.

Interested persons have been afforded an opportunity to participate in the making of the rules herein adopted, and due consideration has been given to all relevant matter presented.

The substance of the proposed amendments having been published, therefore, pursuant to the authority delegated to me by the Administrator (25 F.R. 12582) and for the reasons stated in the notice and the supplemental notice, Part 600 (14 CFR Part 600) and Part 601 (14 CFR Part 601) are amended by adding the following sections:

§ 600.6503 VOR Federal airway No. 503 (Goffs, Calif., to Beatty, Nev.).

From the Goffs, Calif., VOR to the Beatty, Nev., VOR.

§ 601.6503 VOR Federal airway No. 503 control areas (Goffs, Calif., to Beatty, Nev.).

All of VOR Federal airway No. 503.

These amendments shall become effective 0001 e.s.t. April 5, 1962.

(Sec. 307(a), 72 Stat. 749; 49 U.S.C. 1348)

Issued in Washington, D.C., on February 8, 1962.

D. D. THOMAS,
Director, Air Traffic Service.

[F.R. Doc. 62-1539; Filed, Feb. 14, 1962; 8:46 a.m.]

[Airspace Docket No. 61-WA-6]

PART 602—DESIGNATION OF JET ROUTES, JET ADVISORY AREAS, AND HIGH ALTITUDE NAVIGATIONAL AIDS

Alteration of Jet Routes

The purpose of these amendments to § 602.100 of the regulations of the Administrator is to alter the segments of Jet Routes Nos. 2 and 20 from Crestview, Fla., to Tallahassee, Fla., and the segment of Jet Route No. 41 from Tallahassee, Fla., to Montgomery, Ala.

J-2 and J-20 are presently designated in part from the Crestview VOR via the Marianna, Fla., VOR to the Tallahassee VORTAC. Adequate navigational guidance is provided for J-2 and J-20 between Crestview and Tallahassee via the Crestview VOR 091° and the Tallahassee VORTAC 288° True radials, without the use of the Marianna VOR.

J-41 is presently designated in part from the Tallahassee VORTAC via the Marianna VOR to the Montgomery VORTAC. Adequate navigational guidance is provided for J-41 between Tallahassee and Montgomery via the Tallahassee 288° and the Montgomery VORTAC 144° True radials, without the use of the Marianna VOR.

Accordingly, action is taken herein to delete reference to the Marianna VOR in the descriptions of Jet Routes Nos. 2, 20 and 41 and to substitute therefor the above-mentioned VOR/VORTAC radials. These alterations will eliminate the Marianna VOR from the high altitude route structure, thereby reducing the number of reporting points on these routes and permitting better frequency assignment to other VOR facilities.

Since these amendments are minor in nature and impose no additional burden on any person, notice and public procedure hereon are unnecessary. However, since it is necessary that sufficient time be allowed to permit appropriate changes to be made on aeronautical charts, these amendments will become effective more than 30 days after publication.

In consideration of the foregoing and pursuant to the authority delegated to me by the Administrator (25 F.R. 12582) the following actions are taken:

In § 602.100 *Jet routes* (26 F.R. 7080, 7081, 8487, 12561) the following changes are made:

1. In Jet Route No. 2 "Marianna, Fla.; Tallahassee, Fla.," is deleted and "INT of the Crestview 091° and the Tallahassee, Fla., 288° radials; Tallahassee;" is substituted therefor.

2. In Jet Route No. 20 "Marianna, Fla.; Tallahassee, Fla.;" is deleted and "INT of the Crestview 091° and the Tallahassee, Fla., 288° radials; Tallahassee;" is substituted therefor.

3. In Jet Route No. 41 "Marianna, Fla., Montgomery, Ala.;" is deleted and "INT of the Tallahassee 288° and the Montgomery, Ala., 144° radials; Montgomery;" is substituted therefor.

These amendments shall become effective 0001 e.s.t., April 5, 1962.

(Sec. 307(a), 72 Stat. 749; 49 U.S.C. 1348)

Issued in Washington, D.C., on February 9, 1962.

D. D. THOMAS,
Director, Air Traffic Service.

[F.R. Doc. 62-1540; Filed, Feb. 14, 1962; 8:46 a.m.]

[Airspace Docket No. 61-WA-235]

PART 602—DESIGNATION OF JET ROUTES, JET ADVISORY AREAS, AND HIGH ALTITUDE NAVIGATIONAL AIDS

Alteration of Jet Route

The purpose of this amendment to § 602.100 of the regulations of the Administrator is to alter the description of the eastern terminus of Jet Route No. 81.

On December 7, 1961, Airspace Docket No. 60-WA-203 was published in the FEDERAL REGISTER (26 F.R. 11728) with an effective date of January 11, 1962. In part, action taken therein amended § 601.1150 by moving the Wilmington, N.C., control area extension eastward and by changing its description. Action was also taken to designate and redescribe the Barracuda intersection. Jet Route No. 81 has the Barracuda intersection as its eastern limit. However, in the present description of J-81, the Barracuda intersection is located specifically as the intersection of the Orlando, Fla., VOR 071° and the West Palm Beach, Fla., VORTAC 014° radials. This location was changed to the intersection of the Melbourne, Fla., radio range 055° and the Bimini, Bahamas, radio beacon 008° True bearings. Accordingly, action is taken herein to alter the description of J-81 so that this route will terminate at this new location of the Barracuda intersection.

Since this action is minor in nature, notice and public procedure hereon are unnecessary. However, since it is necessary that sufficient time be allowed to permit appropriate changes to be made on aeronautical charts, this amendment will become effective more than 30 days after publication.

In consideration of the foregoing, and pursuant to the authority delegated to me by the Administrator (25 F.R. 12582), § 602.100 (26 F.R. 7079) is amended as follows: In the description of Jet Route No. 81, "to the point of INT of the Orlando 071° and the West Palm Beach, Fla., 014° radials." is deleted and "to the INT of the Melbourne, Fla., RR 055° and the Bimini, Bahamas, RBN 008° bearings." is substituted therefor.

This amendment shall become effective 0001 e.s.t. April 5, 1962.

(Sec. 307(a), 1110, 72 Stat. 749, 800; 49 U.S.C. 1348, 1510, E.O. 10854, 24 F.R. 9565)

Issued in Washington, D.C., on February 8, 1962.

D. D. THOMAS,
Director, Air Traffic Service.

(Sec. 6, 38 Stat. 721; 15 U.S.C. 46. Interpret or apply sec. 5, 38 Stat. 719, as amended; sec. 8, 65 Stat. 179; 15 U.S.C. 45, 69f) [Cease and desist order, Ralph Rupley et al., Houston, Tex., Docket 8424, Sept. 19, 1961]

In the Matter of Ralph Rupley, an Individual Trading as Ralph Rupley, and Carl Stephanow, Individually and as Manager of the Ralph Rupley Concern, and Ralph Rupley, Jr., Individually and as Assistant to the Manager of the Ralph Rupley Concern

Consent order requiring Houston, Tex., furriers to cease violating the Fur Products Labeling Act by failing to label and invoice fur products with the true animal name of the fur used therein, failing to show on invoices the country of origin of imported furs, and failing in other respects to comply with labeling and invoicing requirements; by advertising in newspapers which represented prices of fur products as reduced from usual prices which were in fact fictitious, and contained earlier compared prices without giving the time of the latter; and by failing to maintain adequate records as a basis for price and value claims.

The order to cease and desist is as follows:

It is ordered, That Ralph Rupley, an individual trading as Ralph Rupley or under any other trade name, and Carl Stephanow, individually and as manager of the Ralph Rupley concern, and Ralph Rupley, Jr., individually and as assistant to the manager of the Ralph Rupley concern, and respondents' representatives, agents and employees, directly or through any corporate or other device, in connection with the introduction into commerce, or the sale, advertising, or offering for sale in commerce, or the transportation or distribution in commerce of fur products, or in connection with the sale, advertising, offering for sale, transportation, or distribution of fur products which are made in whole or in part of fur which has been shipped and received in commerce, as "commerce", "fur" and "fur product" are defined in the Fur Products Labeling Act, do forthwith cease and desist from:

1. Misbranding fur products by:

A. Failing to affix labels to fur products showing in words and figures plainly legible all the information required to be disclosed by each of the subsections of section 4(2) of the Fur Products Labeling Act;

B. Setting forth on labels affixed to fur products:

1. Information required under section 4(2) of the Fur Products Labeling Act and the rules and regulations promulgated thereunder in abbreviated form;

2. Information required under section 4(2) of the Fur Products Labeling Act and the rules and regulations promulgated thereunder mingled with non-required information;

C. Failing to set forth separately on labels affixed to fur products composed of two or more sections containing different animal furs the information required under section 4(2) of the Fur Products Labeling Act and the rules and regulations promulgated thereunder with respect to the fur comprising each section;

2. Falsely or deceptively invoicing fur products by:

A. Failing to furnish invoices to purchasers of fur products showing in words and figures plainly legible all the information required to be disclosed by each of the subsections of section 5(b)(1) of the Fur Products Labeling Act;

B. Setting forth information required under section 5(b)(1) of the Fur Products Labeling Act and the rules and regulations promulgated thereunder in abbreviated form;

3. Falsely or deceptively advertising fur products through the use of any advertisement, representation, public announcement or notice which is intended to aid, promote or assist, directly or indirectly, in the sale or offering for sale of fur products, and which:

A. Represents directly or by implication that the regular or usual price of any fur product is any amount which is in excess of the price at which respondents have usually and customarily sold such products in the recent regular course of business;

B. Contains earlier compared prices without giving the time of such earlier compared prices;

C. Misrepresents in any manner the savings available to purchasers of respondents' fur products;

4. Making claims and representations of the types covered by subsections (a), (b), (c), and (d) of Rule 44 of the rules and regulations promulgated under the Fur Products Labeling Act unless there are maintained by respondents full and adequate records disclosing the facts upon which such claims and representations are based.

By "Decision of the Commission", etc., report of compliance was required as follows:

It is ordered, That the above-named respondents shall, within sixty (60) days after service upon them of this order, file with the Commission a report in writing, setting forth in detail the manner and form in which they have complied with the order to cease and desist.

Issued: September 19, 1961.

By the Commission.

[Docket C-6]

PART 13—PROHIBITED TRADE PRACTICES

Meyer Siegel and Max Siegel & Son

Subpart—Invoicing products falsely: § 13.1108 *Invoicing products falsely:* § 13.1108-45 *Fur Products Labeling Act.* Subpart—Neglecting, unfairly or deceptively, to make material disclosure: § 13.1845 *Composition:* § 13.1845-30 *Fur Products Labeling Act;* § 13.1852 *Formal regulatory and statutory requirements:* § 13.1852-35 *Fur Products Labeling Act;* § 13.1900 *Source or origin:* § 13.1900-40 *Fur Products Labeling Act:* § 13.1900-40 (a) *Maker or seller;* § 13.1900-40(b) *Place.*

(Sec. 6, 38 Stat. 721; 15 U.S.C. 46. Interpret or apply sec. 5, 38 Stat. 719, as amended; sec. 8, 65 Stat. 179; 15 U.S.C. 45, 69f) [Cease and desist order, Meyer Siegel trading as Max Siegel & Son, Chicago, Ill., Docket C-6, Oct. 17, 1961]

In the Matter of Meyer Siegel, an Individual Trading as Max Siegel & Son

Consent order requiring a Chicago furrier to cease violating the Fur Products Labeling Act by failing, in labeling and invoicing fur products, to show the true animal name of the fur, the country of origin of imported furs, and when fur was dyed; and to disclose, in labeling, the name of the manufacturer or seller of fur products; and by failing in other respects to comply with labeling and invoicing requirements.

The order to cease and desist, together with further order requiring report of compliance therewith, is as follows:

It is ordered, That Meyer Siegel, an individual trading as Max Siegel & Son or under any other trade name, and respondent's representatives, agents and employees, directly or through any corporate or other device, in connection with the introduction, manufacture for introduction, or the sale, advertising or offering for sale in commerce, or the transportation or distribution in commerce of fur products or in connection with the sale, manufacture for sale, advertising, offering for sale, transportation or distribution of fur products which have been made in whole or in part of fur which has been shipped and received in commerce as "commerce", "fur" and "fur product" are defined in the Fur Products Labeling Act do forthwith cease and desist from:

1. Misbranding fur products by:

A. Falsely or deceptively labeling or otherwise identifying any such product as to the name or names of the animal or animals that produced the fur from which such product was manufactured.

B. Failing to affix labels to fur products showing in words and figures plainly legible all the information required to be disclosed by each of the subsections of section 4(2) of the Fur Products Labeling Act.

C. Setting forth on labels affixed to fur products:

1. Information required under section 4(2) of the Fur Products Labeling Act and the rules and regulations promulgated thereunder in abbreviated form.

2. Information required under section 4(2) of the Fur Products Labeling Act and the rules and regulations promulgated thereunder mingled with non-required information.

3. Information required under section 4(2) of the Fur Products Labeling Act and the rules and regulations promulgated thereunder in handwriting.

2. Falsely or deceptively invoicing fur products by:

A. Failing to furnish invoices to purchasers of fur products showing in words and figures plainly legible all the information required to be disclosed by each of the subsections of section 5(b)(1) of the Fur Products Labeling Act.

B. Failing to set forth on invoices the item number or mark assigned to a fur product.

It is further ordered, That the respondent herein shall, within sixty (60) days after service upon him of this order, file with the Commission a report in writing setting forth in detail the manner and form in which he has complied with this order.

Issued: October 17, 1961.

By the Commission.

[SEAL] JOSEPH W. SHEA, *Secretary.*

[F.R. Doc. 62-1526; Filed, Feb. 14, 1962; 8:45 a.m.]

Title 17—COMMODITY AND SECURITIES EXCHANGES

Chapter II—Securities and Exchange Commission

[Release 33-4450]

PART 230—GENERAL RULES AND REGULATIONS, SECURITIES ACT OF 1933

Transactions by an Issuer Not Involving Any Public Offering; Definition

The Securities and Exchange Commission today announced that it has adopted Rule 155 (§ 230.155) under the Securities Act of 1933. The new rule relates to the application of the exemption afforded by section 4(1) with respect to public offerings of convertible securities by or on behalf of any person who purchased such securities directly or indirectly from the issuer in a non-public transaction, or to a public offering of the securities received upon conversion of the securities so placed. Of course, where there is an initial public offering of convertible securities immediate registration is required, in the absence of some exemption, and the rule has no application to such a situation.

A preliminary draft of the rule was published for comment December 2, 1959 in Securities Act Release No. 4162 and in the FEDERAL REGISTER of December 9, 1959 (24 F.R. 9945). A number of comments were received in regard to this draft and were carefully reviewed. A revised draft of the rule was published for comment on July 14, 1960 in Securities Act Release No. 4248 and in the FEDERAL REGISTER of July 21, 1960 (25 F.R. 6927). The comments received in regard to this draft were also considered and the proposed rule was adopted with certain minor clarifying amendments. Reference is made to those releases for a statement of reasons for the rule and its application to various situations.

The new rule defines the phrase "transactions by an issuer not involving any public offering," in Section 4(1) of the Act as not including within the provisions of that exemption certain public offerings of convertible securities or of securities received upon such a conversion. The rule excludes from the quoted exemption two types of public offerings. The first is a public offering of a security, which is immediately convertible into another security of the same issuer, by or on behalf of any person or persons who purchased the convertible security directly or indirectly from the issuer in a non-public transaction. The other type of offering excluded from the quoted exemption is one by or on behalf of any such person or persons of the security acquired upon conversion, unless the person or persons making the public offering are not underwriters within the meaning of that term as defined in section 2(11) of the Act. In determining whether any such person is an underwriter, the usual statutory tests are to be applied, as in other situations.

In order that intermediate persons who are not connected with any public offering of such securities may not be treated as underwriters, the rule provides that any such intermediate holder of the convertible security or of the underlying security who has not acquired it with a view to its distribution and is not instrumental in making or arranging a public offering is not to be deemed an underwriter for the purpose of the rule. Of course, even though a person is instrumental in making or arranging a public offering of the underlying security, the rule does not apply if the acquisition, retention and disposition of such security are such that the person is not an underwriter within the meaning of the term as defined in section 2(11) of the Act.

Inasmuch as the rule is intended to have only prospective application, provision is made that it shall apply only with respect to convertible securities issued after the effective date of the rule.

The text of the rule, which was adopted pursuant to the Securities Act of 1933, particularly section 19(a) thereof, reads as follows:

§ 230.155 Definition of "Transactions by an Issuer Not Involving Any Public Offering" in section 4(1) of the Act for certain transactions with respect to convertible securities.

(a) The phrase "transactions by an issuer not involving any public offering" in section 4(1) of the Act shall not include (1) any public offering of a convertible security (which at the time of such offering is immediately convertible into another security of the same issuer) by or on behalf of any person or persons who purchased the convertible security directly or indirectly from an issuer as part of a non-public offering of such security, or (2) any public offering by or on behalf of any such person or persons of the security acquired on conversion of a convertible security, unless the security so acquired was acquired under such circumstances that such person or persons are not underwriters within the meaning of section 2(11) of the Act.

(b) The phrase "transactions by any person other than an * * * underwriter" in section 4(1) of the Act shall, in the situations covered in paragraph (a) of this section, be deemed to include transactions by the initial, and any intermediate, holder of the convertible security or of the underlying security who (1) has not acquired the convertible or underlying security with a view to the distribution of either of them, and (2) is not effecting, is not causing to be effected, and has not arranged for, a public offering of either security within the meaning of and subject to paragraph (a) of this section.

(c) This section shall apply to transactions of the character described in paragraph (a) of this section only with respect to convertible securities issued after February 7, 1962.

(Sec. 19(a), 48 Stat. 85, as amended, 15 U.S.C. 77s)

The above rule shall become effective February 7, 1962.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

FEBRUARY 7, 1962.

[F.R. Doc. 62-1555; Filed, Feb. 14, 1962; 8:48 a.m.]

[Release 34-6726]

PART 241—INTERPRETATIVE RELEASES RELATING TO THE SECURITIES EXCHANGE ACT OF 1934 AND GENERAL RULES AND REGULATIONS THEREUNDER

Application of the Act to Broker-Dealers Engaged in Certain Activities

The Securities and Exchange Commission today made public an opinion of Philip A. Loomis, Jr., Director of its Division of Trading and Exchanges, discussing the application of section 11(d)(1) of the Securities Exchange Act of 1934 to broker-dealers engaged in what has come to be known as "equity funding", "secured funding", or "life funding". In these situations the broker-dealer generally sells redeemable investment company shares (mutual funds) to a customer and then arranges a loan on such shares, the proceeds of the loan to be used to pay the premium on a life insurance policy which is usually sold to the customer at or about the same time. The opinion points out that this activity generally involves a violation of section 11(d)(1) of the Act.

The substance of the opinion follows:

This will refer to your inquiry concerning the application of section 11(d)(1) of the Securities Exchange Act of 1934 to the activities of your broker-dealer client in selling redeemable investment company shares (mutual funds) to customers and then arranging loans on such securities to pay the premium on life insurance which is generally sold to the customer at or about the same time.

You state that the activity (sometimes referred to as "equity funding", "secured funding", or "life funding") ordinarily involves the sale of an insurance policy, which requires an annual or more frequent premium payment, a voluntary program for the purchase of mutual funds at stated intervals during each year, and a loan (collateralized by the securities) used to pay the life insurance premium. The customer is usually required to pledge mutual funds having a collateral value of about 200% of the proposed loan. Thus, if the customer purchases annually $2,000 of mutual funds under the plan, life insurance premiums of $1,000 per year will be financed for him. Frequently, the salesman acting for the broker-dealer in the sale of the mutual funds also acts as an agent for the insurance company in the sale of the insurance and arranges the loan for the customer.

Assuming the presence of the necessary jurisdictional elements, section 11(d)(1) of the Securities Exchange Act makes it unlawful for any person who transacts business both as a broker and as a dealer to effect any transaction in connection with which, directly or indirectly, he extends, maintains or arranges for the extension or maintenance of credit to or for a customer on any non-exempt security which was part of a new issue in the distribution of which he participated within 30 days prior to such transaction. Since, because of the manner in which mutual funds are sold, both the underwriter and the retailing broker-dealer are generally participating in the distribution of a "new issue" within the meaning of section 11(d)(1), any such broker-dealer may not extend credit or arrange for the extension of credit on these securities, even though the proceeds of the loan are to be used to pay the insurance premium.

You have indicated that your client has now organized a wholly-owned subsidiary which would limit its activities to acting solely as a dealer in the sale of mutual funds, and you inquire whether this would eliminate the problem under section 11(d)(1). I doubt that it would; it is difficult for me to see how we could fail to look through the form to the substance of this arrangement.

The credit arrangement referred to above may also pose problems under the provisions of section 7(c)(2) of the Act and Regulation T promulgated by the Board of Governors of the Federal Reserve System. These provisions are applicable to a member of a national securities exchange and any broker or dealer who transacts a business in securities through the medium of any such member. You are aware, however, that any interpretative problems under these provisions would have to be presented directly to the Board of Governors of the Federal Reserve System since they interpret their own regulations.

Since, as you indicated, there may be broker-dealers who may not be aware of the prohibitions applicable to this type of activity, we have recommended to the Commission that it make the substance of this communication the subject of a public release.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

Title 20—EMPLOYEES' BENEFITS

Chapter II—Railroad Retirement Board

PART 345—EMPLOYERS' CONTRIBUTIONS AND CONTRIBUTION REPORTS

Miscellaneous Amendments

Pursuant to the general authority contained in section 12 of the act of June 25, 1938 (52 Stat. 1094, 1107; 45 U.S.C. 362), §§ 345.1, 345.2, 345.4, 345.14, 345.15, and 345.19 of Part 345 (20 CFR 345.1, 345.2, 345.4, 345.14, 345.15, and 345.19) of the regulations under such act are amended by Board Order 62-17, dated February 1, 1962, to read as follows:

§ 345.1 Statutory provisions.

* * * * *

2. With respect to compensation paid after the month in which this Act was amended in 1959, the rate shall be as follows:

If the balance to the credit of the railroad unemployment insurance account as of the close of business on September 30, of any year, as determined by the Board, is—	The rate with respect to compensation paid during the next succeeding calendar year shall be (percent)—
$450,000,000 or more	1½
$400,000,000 or more but less than $450,000,000	2
$350,000,000 or more but less than $400,000,000	2½
$300,000,000 or more but less than $350,000,000	3
Less than $300,000,000	3¾

As soon as practicable following the enactment of this Act, the Board shall determine and proclaim the balance to the credit of the account as of the close of business on September 30, 1947, and on or before December 31 of 1948 and of each succeeding year, the Board shall determine and proclaim the balance to the credit of the account as of the close of business on September 30 of such year; and in determining such balance as of September 30 of any year, the balance to the credit of the railroad unemployment insurance administration fund as of the close of business on such date shall be deemed to be a part of the balance to the credit of such account. (Section 8(a) of the Railroad Unemployment Insurance Act.)

Notwithstanding the provisions of section 8(a)2 of the Railroad Unemployment Insurance Act, the rate of contribution required to be paid under the Railroad Unemployment Insurance Act by every employer as defined in such Act shall be 4 per centum with respect to compensation as defined in such Act, paid after December 31, 1961, and before January 1, 1964. (Section 5 of the Temporary Extended Railroad Unemployment Benefits Act of 1961.)

The contributions required by this Act shall be collected and paid quarterly or at such other times and in such manner and under such conditions not inconsistent with this Act as may be prescribed by Regulations of the Board, and shall not be deducted, in whole or in part, from the compensation of employees in the employer's employ. If a contribution required by this Act is not paid when due, there shall be added to the amount payable (except in the case of adjustments made in accordance with the provisions of this Act) interest at the rate of 1 per centum per month or fraction of a month from the date the contribution became due until paid. Any interest collected pursuant to this subsection shall be credited to the account. (Section 8(g) of the Railroad Unemployment Insurance Act.)

All provisions of law, including penalties, applicable with respect to any tax imposed by section 1800 or 2700 of the Internal Revenue Code, and the provisions of section 3661 of such code, insofar as applicable and not inconsistent with the provisions of this Act, shall be applicable with respect to the contributions required by this Act: *Provided*, That all authority and functions conferred by or pursuant to such provisions upon any officer or employee of the United States, except the authority to institute and prosecute, and the function of instituting and prosecuting, criminal proceedings, shall, with respect to such contributions, be vested in and exercised by the Board or such officers and employees of the Board as it may designate therefor. (Section 8(h) of the Railroad Unemployment Insurance Act.)

• • • For the purposes of determining • • • the amount of contributions due pursuant to this Act, employment after June 30, 1940, in the service of a local lodge or division of a railway-labor-organization employer or as an employee representative shall be disregarded. For purposes of determining • • • the amount of contributions due pursuant to this Act, employment as a delegate to a national or international convention of a railway labor organization defined as an "employer" • • • shall be disregarded if the individual having such employment has not previously rendered service, other than as such a delegate, which may be included in his "years of service" for the purposes of the Railroad Retirement Act. (Section 1(g) of the Railroad Unemployment Insurance Act.)

§ 345.2 Employers' contributions.

The $400 specified in this section is the maximum compensation per employee per month subject to contributions after May 31, 1959, with respect to services rendered after that date. Maximum compensation amounts subject to contributions, and allocations, for prior periods are shown in § 345.1.

(a) Except as provided in paragraph (b) of this section, every employer shall pay a contribution equal to the following percentages of the amount of compensation paid to any employee for employment on and after July 1, 1939:

	Percent
(1) July 1, 1939 through Dec. 31, 1947	3
(2) Jan. 1, 1948 through Dec. 31, 1955	½
(3) Jan. 1, 1956 through Dec. 31, 1956	1½
(4) Jan. 1, 1957 through Dec. 31, 1957	2
(5) Jan. 1, 1958 through Dec. 31, 1958	2½
(6) Jan. 1, 1959 through May 31, 1959	3
(7) June 1, 1959 through Dec. 31, 1961	3¾
(8) Jan. 1, 1962 through Dec. 31, 1963	4
(9) Each succeeding calendar year, the applicable percentage specified in § 345.1 of these regulations.	

§ 345.4 Employers' reports of compensation of employees.

Each employer shall continue to file with the Board, in accordance with the requirements of § 250.3 of this chapter, as amended, reports of the compensation of each employee, consisting of:

(a) A report of compensation for the calendar quarter on Form BA–3 (or punched tabulating cards in lieu thereof), or a report of compensation for the calendar year on Form BA–3a (or punched tabulating cards or magnetic tape in lieu thereof),

(b) A monthly report of compensation adjustments, on Form BA–4,

(c) A summary of compensation adjustments reported for the quarter, and

(d) Summary reports of compensation for the calendar quarter or calendar year, on Form BA–5.

§ 345.14 Assessment and collection of contributions or underpayments of contributions.

(a) If any employer's contribution is not paid to the Board when due or is not paid in full when due, the Board may, as the circumstances warrant, assess the contribution or the deficiency and interest and penalty, if any (whether or not the deficiency is adjustable as an underpayment).

(b) The amount of any such assessment will be collected, in accordance with the applicable provisions of law. If any employer liable to pay any contribution neglects or refuses to pay the same within ten days after notice and demand, the Board may collect such contribution with such interest and other additional amounts as are required by law, by distraint and sale in the manner provided by law.

§ 345.15 Jeopardy assessment.

(a) Whenever in the opinion of the Board it becomes necessary to protect the interests of the Government by effecting an immediate reporting and collection of an employer's contribution, the Board will assess the contribution whether or not the time otherwise prescribed by law for filing the contribution report and paying such contribution has expired, together with all penalties and interest thereon. Upon assessment, such contribution, penalty, and interest shall become immediately due and payable, and the Board shall thereupon issue immediately a notice and demand for payment of the contribution, penalty, and interest.

(b) The collection of the whole or any part of the amount of the jeopardy assessment may be stayed by filing with the Board a bond in an amount equal to the amount with respect to which the stay is desired, and with such sureties as the Board may deem necessary. Such bond shall be conditioned upon the payment of the amount (together with interest thereon) the collection of which is stayed, at the time at which, but for the jeopardy assessment, such amount would be due. In lieu of surety or sureties the employer may deposit with the Board bonds or notes of the United States, or bonds or notes fully guaranteed by the United States as to principal and interest, having a par value not less than the amount of the bond required to be furnished, together with an agreement authorizing the Board in case of default to collect or sell such bonds or notes so deposited. Upon refusal to pay, or failure to pay or give bond, the Board will immediately upon issuance of notice and demand for payment proceed to collect the contribution, penalty, and interest. If any employer liable to pay any contribution neglects or refuses to pay the same within ten days after notice and demand, the Board may collect such contribution with such interest and other additional amounts as are authorized by law, by distraint and sale in the manner provided by law.

§ 345.19 Penalty for delinquent or false employers' contribution reports.

(a) *Delinquent reports.* (1) Unless the employer required to file a contribution report establishes to the satisfaction of the Board that a reasonable cause exists for the delinquency, the failure to file such contribution report on or before the due date shall cause a penalty, to accrue of 5 percent of the amount of such contribution if the failure is for not more than one (1) month, with an additional 5 percent for each additional month or fraction thereof during which such failure continues, not exceeding 25 percent in the aggregate.

(2) Every employer filing a contribution report after the due date shall securely attach to the report a signed statement explaining the reason for the delinquency. This declaration shall become a part of the contribution report and shall be subject to the same penalties for false or fraudulent statements as are described on the face of Form DC–1. Upon receipt of this declaration the Board shall determine whether a penalty for late filing shall be assessed against the employer.

(b) *False reports.* If a fraudulent employer's contribution report is made, the penalty is 50 percent of the underpayment.

(c) *Penalty on net amount.* For the purpose of paragraph (a) of this section the amount of contribution required to be shown on Form DC–1 shall be reduced by the amount of any part of the contribution which is paid on or before the date prescribed for the payment of the contribution and by the amount of any credit against the contribution which may be claimed upon the DC–1.

(Sec. 12, 52 Stat. 1107, as amended; 45 U.S.C. 362)

Dated: February 9, 1962.

By authority of the Board.

MARY B. LINKINS,
Secretary of the Board.

Chapter III—Bureau of Old-Age and Survivors Insurance, Social Security Administration, Department of Health, Education, and Welfare

[Reg. No. 4, Further Amended]

PART 404—FEDERAL OLD-AGE, SURVIVORS, AND DISABILITY INSURANCE (1950———)

Miscellaneous Amendments

Correction

In F.R. Doc. 62–1283, appearing at page 1163 of the issue for Thursday, February 8, 1962, the following correction is made in the undesignated paragraph immediately following § 404.607 (a)(2): The closing clause should read "as though it had been filed in such months," instead of "as through it had been filed in such months.".

Title 39—POSTAL SERVICE

Chapter I—Post Office Department

PART 17—CONDITIONS APPLICABLE TO PARCELS ADDRESSED TO CERTAIN MILITARY POST OFFICES OVERSEAS

PART 24—THIRD CLASS

PART 96—AIR TRANSPORTATION

Miscellaneous Amendments

The regulations of the Post Office Department are amended as follows:

§ 17.1 [Amendment]

I. In § 17.1 *Conditions applicable to parcels addressed to certain military post offices overseas*, as published in 26 F.R. 11535–11536 and as amended by 26 F.R. 11903, make the following changes:

A. Delete Military APO numbers 203, 204, and 255 and their accompanying data.

B. Insert in proper numerical order, the following Military APO numbers with their accompanying data:

136				[1] X		[1] X
408		X	X	[1] X		
409		X	X	[1] X		
411		X	X	[1] X		
670		X	X	[1] X		
671				[1] X		
679		X		[1] X		[1] X
680		X	X	[1] X		
681		X		[1] X		[1] X
682		X		[1] X		[1] X

C. Amend footnote 14 to read as follows:

[14] Parcels containing merchandise addressed to Dependent Mail Section will not be accepted.

NOTE: The corresponding Postal Manual Part is 127.

(R.S. 161, as amended; 5 U.S.C. 22, 39 U.S.C. 501, 505)

II. In Part 24—Third Class, as published in 26 F.R. 11546–11548, make the following changes:

A. In § 24.2, subdivision (i) of paragraph (b)(3) is amended to show that a manufacturing tolerance of not more than three-sixteenths of an inch is permitted on the address side of articles, so that they may exceed nine inches in length and 12 inches in width, in either dimension, without being subject to the minimum charge for pieces of odd size or form. As so amended, subdivision (i) reads as follows:

§ 24.2 Classification.

(b) *Application of rates.* • • •

(3) • • •

(i) The address side exceeds 9 inches in width or 12 inches in length. A manufacturing tolerance of not more than three-sixteenths of an inch in either dimension is allowed.

NOTE: The corresponding Postal Manual section is 134.22c(1).

§ 24.5 [Amendment]

B. In § 24.5 *Nonprofit organizations* make the following changes to show that the approval or denial actions on applications to mail pieces subject to the minimum bulk third-class per piece charge at a reduction of 50 percent has been transferred from local post offices to postal services centers. The procedure in handling appeals to denial actions has not been changed.

1. Amend paragraph (b) to read as follows:

(b) *Applications.* (1) Application on Form 3624, "Application for 50% Postage Discount on Bulk Third-Class Minimum Charge Per Piece Mailings" must be filed by the organization or association at the post office where mailings will be deposited.

(2) *Approval or denial.* The application Form 3624 together with any supporting papers will be sent to the postal services center. Pending a decision, bulk mailings subject to the minimum per piece charge may be handled in accordance with paragraph (c) of this section. The postmaster at the postal services center will approve or deny the application. The application Form 3624 and any supporting papers will be returned with the decision to the postmaster where the application was filed for notification of the applicant.

(3) *Appeal.* The decision of the postmaster at the postal services center may be appealed by the applicant, in writing, through the local postmaster, to the Bureau of Operations, Classification and Special Services Division. The appeal must be accompanied by the original application and all supporting papers.

2. Delete paragraph (c) and redesignate paragraphs (d) and (e) as paragraphs (c) and (d) respectively.

NOTE: The corresponding Postal Manual sections are 134.52 through 134.54.

(R.S. 161, as amended; 5 U.S.C. 22, 39 U.S.C. 501, 4551, 4452, as amended by 73 Stat. 89 (Public Law 86–56))

III. In Part 96—Air Transportation—as published in 26 F.R. 11638–11653, and as amended by 26 F.R. 12218–12220, make the following changes to show that postal personnel at air stop units are required to promptly distribute copies of Forms 2759 to local representatives of air carriers involved in mishandling airmail:

A. Subpart A—Domestic Air Transportation: In § 96.6, amend that part of paragraph (a) which precedes subparagraph (1) to read as follows:

§ 96.6 Irregularities, deductions, fines, and accidents.

(a) *Irregularities.* Irregular handling of mail by airline carrier personnel shall be promptly reported on Form 2759, "Report of Irregular Handling of Airmail," by the postal employee who observes the irregularity or who is informed of irregular performance through receipt at a postal unit of the post office accounting copies of Form 2734, "Airmail Exception Record," prepared by the air carrier. See § 96.25. Listed below are the types of irregularities that will be reported.

NOTE: The corresponding Postal Manual section is 531.81.

B. Subpart C—Forms and Procedures for Dispatching Airmail: In § 96.25 amend paragraph (d) to read as follows:

§ 96.25 Form 2759, Report of Irregular Handling of Airmail.

• • • • •

(d) *Distribution*—(1) *Reports covering incidents chargeable to carrier.* Distribute copies of Form 2759, where possible, at the close of each tour and in no cases less frequently than once each 24 hours. Send original and first copy to the regional transportation division having jurisdiction over the reporting unit, send the second copy to the local station manager of the carrier concerned, and retain the third copy in files.

(2) *Reports covering incidents not chargeable to carrier.* Staple the first and second copies together and forward them to the regional transportation

division and retain the third copy in files.

NOTE: The corresponding Postal Manual section is 533.741.

(R.S. 161, as amended, sec. 405, 72 Stat. 760; 5 U.S.C. 22, 39 U.S.C. 501, 6301, 6304, 49 U.S.C. 1375)

LOUIS J. DOYLE,
General Counsel.

Title 45—PUBLIC WELFARE

Chapter VII—Commission on Civil Rights

PART 701—RULES OF PROCEDURE FOR HEARINGS

A new Chapter VII is added to Title 45 of the Code of Federal Regulations. Part 701 thereof reads as follows:

GENERAL

Sec.
701.1 Hearings; issuance of subpenas.
701.2 Aid of courts in enforcing subpenas.
701.3 Oaths and affirmations.

STATUTORY RULES OF PROCEDURE

Sec.
701.11 Opening statement.
701.12 Copy of rules.
701.13 Attendance of counsel.
701.14 Censure and exclusion of counsel.
701.15 Defamatory, degrading, or incriminating evidence.
701.16 Requests for additional witnesses.
701.17 Release of evidence taken in executive session.
701.18 Submission of written statements.
701.19 Transcripts.
701.20 Witness fees.
701.21 Restriction on issuance of subpena.

SUPPLEMENTARY RULES OF PROCEDURE

701.25 Incorporation of statutory rules.
701.26 Number of Commissioners.
701.27 Approval of hearings.
701.28 Form of subpenas.
701.29 Issuance of subpenas.
701.30 Transcripts.
701.31 Time for filing prepared statements.
701.32 Contents of record.
701.33 Interrogation of witnesses.
701.34 Defamatory, degrading, or incriminating evidence.
701.35 Attendance of news media.

AUTHORITY: §§ 701.1 to 701.35 issued under secs. 101-106, 71 Stat. 634-636, as amended; 42 U.S.C. 1975-1975e.

GENERAL

§ 701.1 Hearings; issuance of subpenas.

Under section 105(f) of Public Law 85-315 (71 Stat. 636; 45 U.S.C. 1975d(f)), the Commission on Civil Rights may hold hearings and issue subpenas or authorize a subcommittee to hold hearings and issue subpenas under the following conditions: The Commission, or on the authorization of the Commission any subcommittee of two or more members, at least one of whom shall be of each major political party, may, for the purpose of carrying out the provisions of this Act, hold such hearings and act at such times and places as the Commission or such authorized subcommittee may deem advisable. Subpenas for the attendance and testimony of witnesses or the production of written or other matter may be issued in accordance with the rules of the Commission as contained in §§ 701.20 and 701.21, over the signature of the Chairman of the Commission or of such subcommittee, and may be served by any person designated by such Chairman.

§ 701.2 Aid of courts in enforcing subpenas.

Section 105(g) of Public Law 85-315 (71 Stat. 636; 42 U.S.C. 1975(g)), provides that in case of contumacy or refusal to obey a subpena, any district court of the United States or the United States court of any Territory or possession, or the District Court of the United States for the District of Columbia, within the jurisdiction of which the inquiry is carried on or within the jurisdiction of which said person guilty of contumacy or refusal to obey is found or resides or transacts business, upon application by the Attorney General of the United States shall have jurisdiction to issue to such person an order requiring such person to appear before the Commission or a subcommittee thereof, there to produce evidence if so ordered, or there to give testimony touching the matter under investigation; and any failure to obey such order of the court may be punished by said court as a contempt thereof.

§ 701.3 Oaths and affirmations.

Section 401 of Public Law 86-318 (74 Stat. 89; 42 U.S.C. 1975d(h)) provides that each member of the Commission shall have the power and authority to administer oaths or take statements of witnesses under affirmation.

STATUTORY RULES OF PROCEDURE

§ 701.11 Opening statement.

The Chairman or one designated by him to act as Chairman at a hearing of the Commission shall announce in an opening statement the subject of the hearing.

§ 701.12 Copy of rules.

A copy of the Commission's rules shall be made available to the witness before the Commission.

§ 701.13 Attendance of counsel.

Witnesses at the hearings may be accompanied by their own counsel for the purpose of advising them concerning their constitutional rights.

§ 701.14 Censure and exclusion of counsel.

The Chairman or Acting Chairman may punish breaches of order and decorum and unprofessional ethics on the part of counsel, by censure and exclusion from the hearings.

§ 701.15 Defamatory, degrading, or incriminating evidence.

If the Commission determines that evidence or testimony at any hearing may tend to defame, degrade, or incriminate any person, it shall (a) receive such evidence or testimony in executive session; (b) afford such person an opportunity voluntarily to appear as a witness; and (c) receive and dispose of requests from such person to subpena additional witnesses.

§ 701.16 Requests for additional witnesses.

Except as provided in §§ 701.1 and 701.15, the Chairman shall receive and the Commission shall dispose of requests to subpena additional witnesses.

§ 701.17 Release of evidence taken in executive session.

No evidence or testimony taken in executive session may be released or used in public sessions without the consent of the Commission. Whoever releases or uses in public without the consent of the Commission evidence or testimony taken in executive session shall be fined not more than $1,000, or imprisoned for not more than one year.

§ 701.18 Submission of written statements.

In the discretion of the Commission, witnesses may submit brief and pertinent sworn statements in writing for inclusion in the record. The Commission is the sole judge of the pertinency of testimony and evidence adduced at its hearings.

§ 701.19 Transcripts.

Upon payment of the cost thereof, a witness may obtain a transcript copy of his testimony given at a public session or, if given at an executive session, when authorized by the Commission.

§ 701.20 Witness fees.

A witness attending any session of the Commission shall receive $4 for each day's attendance and for the time necessarily occupied in going to and returning from the same, and 8 cents per mile for going from and returning to his place of residence. Witnesses who attend at points so far removed from their respective residences as to prohibit return thereto from day to day shall be entitled to an additional allowance of $12 per day for expenses of subsistence, including the time necessarily occupied in going to and returning from the place of attendance. Mileage payments shall be tendered to the witness upon service of subpena issued on behalf of the Commission or any subcommittee thereof.

§ 701.21 Restriction on issuance of subpena.

The Commission shall not issue any subpena for the attendance and testimony of witnesses or for the production of written or other matter which would require the presence of the party subpenaed at a hearing to be held outside of the State, wherein the witness is found or resides or transacts business.

SUPPLEMENTARY RULES OF PROCEDURE

§ 701.25 Incorporation of statutory rules.

All the provisions of section 102 of Public Law 85-315, incorporated in §§ 701.11 to 701.21, shall be applicable to and govern the proceedings of all subcommittees appointed by the Commission pursuant to section 105(f) of Public Law 85-315, incorporated in § 701.1.

§ 701.26 Number of Commissioners.

At least two members of the Commission must be present at any hearing of the Commission or of any subcommittee thereof.

§ 701.27 Approval of hearings.

The holding of hearings by the Commission, or the appointment of a subcommittee to hold hearings pursuant to the provisions of § 701.1, must be approved by a majority of the members of the Commission, or by a majority of the members present at a meeting at which at least a quorum of four members is present.

§ 701.28 Form of subpenas.

Subpenas for the attendance and testimony of witnesses or the production of written or other matter shall be issued over the signature of the Chairman of the Commission or the Chairman of a subcommittee.

§ 701.29 Issuance of subpenas.

Subpenas may be issued by the Chairman of the Commission or subcommittee, or by the Chairman upon the request of a member of the Commission or subcommittee.

§ 701.30 Transcripts.

An accurate transcript shall be made of the testimony of all witnesses at all hearings, either public or executive sessions, of the Commission or of any subcommittee thereof. Each witness shall have the right to inspect the record of his own testimony. A transcript copy of his testimony may be purchased by a witness pursuant to § 701.19. Transcript copies of public sessions may be obtained by the public upon payment of the cost thereof.

§ 701.31 Time for filing prepared statements.

Any witness desiring to read a prepared statement at a hearing shall file a copy with the Commission or subcommittee 24 hours in advance. The Commission or subcommittee shall decide whether to permit the reading of such statement.

§ 701.32 Contents of record.

The Commission or subcommittee shall decide whether written statements or documents submitted to it shall be placed in the record of the hearing.

§ 701.33 Interrogation of witnesses.

Interrogation of witnesses at hearings shall be conducted only by members of the Commission or by authorized staff personnel.

§ 701.34 Defamatory, degrading, or incriminating evidence.

If the Commission, or any subcommittee thereof, pursuant to § 701.15, determines that evidence or testimony at any hearing may tend to defame, degrade, or incriminate any person, it shall advise such person that such evidence has been given, and it shall afford such person an opportunity to read the pertinent testimony and to appear as a voluntary witness or to file a sworn statement in his behalf.

§ 701.35 Attendance of news media.

Subject to the physical limitations of the hearing room and consideration of the physical comfort of Commission members, staff, and witnesses, equal and reasonable access for coverage of the hearings shall be provided to the various means of communications, including newspapers, magazines, radio, news reels, and television. However, no witness shall be televised, filmed or photographed during the hearing if he objects on the ground of distraction, harassment, or physical handicap.

JOHN A. HANNAH,
Chairman,
Commission on Civil Rights.

[F.R. Doc. 62-1559; Filed, Feb. 14, 1962; 8:48 a.m.]

Title 50—WILDLIFE AND FISHERIES

Chapter I—Bureau of Sport Fisheries and Wildlife, Fish and Wildlife Service, Department of the Interior

PART 33—SPORT FISHING

White River National Wildlife Refuge, Arkansas

The following special regulation is issued and is effective on date of publication in the FEDERAL REGISTER.

§ 33.5 Special regulations; sport fishing; for individual wildlife refuge areas.

ARKANSAS

WHITE RIVER NATIONAL WILDLIFE REFUGE

Sport fishing on the White River National Wildlife Refuge, Arkansas, is permitted only on the areas designated by signs as open to fishing. This open area, comprising 2,592 acres or 2 percent of the total area of the refuge, is delineated on a map available at the refuge headquarters and from the office of the Regional Director, Bureau of Sport Fisheries and Wildlife, Peachtree-Seventh Building, Atlanta 23, Georgia. Sport fishing is subject to the following conditions:

(a) Species permitted to be taken: Black bass, bream, crappie, perch and pike; and other minor species permitted by State regulations.

(b) Open season: March 16, 1962, through October 31, 1962.

(c) Daily creel limits: Black bass—10, crappie—20, bream, perch and sunfish—50 each or in aggregate. Other minor species as prescribed by State regulations.

(d) Methods of fishing:

(1) Pole and line, rod and reel, artificial and live bait permitted.

(2) Rowboats, canoes, other type boats and motors are permitted to use refuge waters provided owner identification tags are securely affixed. Boats without tags prohibited.

(e) Other provisions:

(1) The provisions of this special regulation supplement the regulations which govern fishing on wildlife refuge areas generally which are set forth in Title 50, Code of Federal Regulations, Part 33.

(2) A Federal permit is not required to enter the public fishing area.

(3) The provisions of this special regulation are effective to November 1, 1962.

JAMES R. FIELDING,
Acting Regional Director, Bureau of Sport Fisheries and Wildlife.

[F.R. Doc. 62-1552; Filed, Feb. 14, 1962; 8:48 a.m.]

PART 33—SPORT FISHING

Pathfinder National Wildlife Refuge, Wyoming; Correction

In F.R. Doc. 62-329, appearing at page 313 of the issue for Thursday, January

11, 1962 (27 F.R. 313), paragraph (c) should be changed to read as follows:

(c) Daily creel limits: Trout 6, or 10 pounds and 1 fish, plus other creel limits for minor species as are prescribed for State regulations.

Dated: February 9, 1962.

JOHN C. GATLIN,
Regional Director, Bureau of Sport Fisheries and Wildlife.

[F.R. Doc. 62-1527; Filed, Feb. 14, 1962; 8:45 a.m.]

Chapter II—Bureau of Commercial Fisheries, Department of the Interior

SUBCHAPTER C—AQUATIC MAMMALS OTHER THAN WHALES

PART 215—ADMINISTRATION OF THE PRIBILOF ISLANDS

Landing and Use of Liquor

On page 10640 of the FEDERAL REGISTER of November 14, 1961, there was published a notice of a proposal to amend 50 CFR Part 215 by deleting all of Subpart B thereof which prohibits the landing and use of liquor on the Pribilof Islands. The authority to issue such regulations is vested in the Secretary of the Interior by section 8 of the act of February 26, 1944 (58 Stat. 102; 16 U.S.C. 631h). The purpose of the revision is to respond to a request of the residents of the Pribilof Islands made through their duly elected representatives that control of alcoholic beverages be accomplished by State law and local ordinances rather than by Federal fiat.

Interested persons were given 30 days within which to submit written comments, suggestions or objections with respect to the proposed revision. Eight objections from within the State of Alaska and two objections from outside the State were received and carefully considered.

The Department is aware of the fact that indiscriminate use of alcoholic beverages can raise problems in areas such as the islands involved in this determination. It is recognized that the people of the Pribilof Islands are full-fledged citizens of the State of Alaska, and as such have the right of self-determination. Further, in the exercise of such right they have adopted, and are prepared to enforce, ordinances to regulate the possession and use of such beverages. Accordingly, effective on May 15, 1962, Subpart B, Part 215, Title 50, Code of Federal Regulations, is deleted in its entirety.

(58 Stat. 102; 16 U.S.C. 631h)

STEWART L. UDALL,
Secretary of the Interior.

FEBRUARY 9, 1962.

Proposed Rule Making

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Food and Drug Administration

[21 CFR Part 120]

TOLERANCES AND EXEMPTIONS FROM TOLERANCES FOR PESTICIDE CHEMICALS IN OR ON RAW AGRICULTURAL COMMODITIES

Notice of Filing of Petition

Pursuant to the provisions of the Federal Food, Drug, and Cosmetic Act (sec. 408(d)(1), 68 Stat. 512; 21 U.S.C. 346a(d)(1)), notice is given that a petition has been filed by Union Carbide Corporation, 270 Park Avenue, New York 17, New York, proposing the establishment of a tolerance of 10 parts per million for residues of 1-naphthyl *N*-methylcarbamate in or on olives.

The analytical method proposed in the petition for determining residues of 1-naphthyl *N*-methylcarbamate is that described in the FEDERAL REGISTER of January 9, 1959 (24 F.R. 238), with minor modifications.

Dated: February 9, 1962.

PESTICIDE RESIDUES; FOOD ADDITIVES

Ethion; Notice of Filing of Petition

Pursuant to the provisions of the Federal Food, Drug, and Cosmetic Act (secs. 408(d)(1), 409(b)(5), 68 Stat. 512; 72 Stat. 1786; 21 U.S.C. 346a(d)(1), 348(b)(5)), the following notice is issued:

A petition has been filed by Niagara Chemical Division, FMC Corporation, Middleport, New York, proposing the establishment of a tolerance of 2 parts per million for residues of ethion (*O,O,O',O'*-tetraethyl *S,S'*-methylene bisphosphorodithioate) in or on lemons, tangelos, and tangerines, and an increase from 1 part per million to 2 parts per million in tolerances for residues of ethion in or on beans, grapefruit, oranges, strawberries, and tomatoes.

The petition also proposes an increase from 5 parts per million to 10 parts per million in the food additive tolerance prescribed in § 121.211 for residues of this pesticide chemical in dehydrated citrus pulp resulting from carryover and concentration of residues in this feed item processed from such citrus fruits.

The analytical methods proposed in the petition for determining residues of ethion are the colorimetric method and enzymatic method published in the FEDERAL REGISTER of August 18, 1959 (25 F.R. 6696). The colorimetric method has been modified by mercuric chloride and sodium hydroxide treatments to eliminate interferences from other phosphorodithioate pesticides. In addition, an infrared method is given.

Dated: Feburary 9, 1962.

J. K. KIRK,
Assistant Commissioner of Food and Drugs.

FOOD ADDITIVES

Notice of Filing of Petition

Pursuant to the provisions of the Federal Food, Drug, and Cosmetic Act (sec. 409(b)(5), 72 Stat. 1786; 21 U.S.C. 348(b)(5)), notice is given that a petition (FAP 689) has been filed by The Dow Chemical Company, Midland, Michigan, proposing the issuance of a regulation to provide for the safe use of zoalene in turkey feed at levels of 0.0125 percent to 0.01875 percent for the prevention and control of coccidiosis.

Dated: February 9, 1962.

J. K. KIRK,
Assistant Commissioner of Food and Drugs.

TABLETS OF ANTIBIOTIC AND ANTIBIOTIC-CONTAINING DRUGS

Proposed Procedure for Testing Disintegration Time

The Commissioner of Food and Drugs, pursuant to the provisions of the Federal Food, Drug, and Cosmetic Act (sec. 507, 59 Stat. 463 as amended; 21 U.S.C. 357), and under the authority delegated to him by the Secretary of Health, Education, and Welfare (25 F.R. 8625), proposes to amend the regulation for tests and methods of assay for antibiotic and antibiotic-containing drugs to provide tests for disintegration time for these drugs manufactured in tablet form. It is proposed to effect these amendments as follows:

1. By adding to § 141a.9 *Penicillin tablets* the following new paragraph (c):

(c) *Disintegration time*—(1) *Uncoated tablets.* Proceed as directed in the U.S.P., using simulated gastric fluid test solution. The tablets are satisfactory if they disintegrate within 1 hour.

(2) *Plain coated tablets.* Proceed as directed in the U.S.P. If the tablets have not disintegrated after 30 minutes in the gastric fluid, use simulated intestinal fluid for an additional 30 minutes. The tablets are satisfactory if they disintegrate within 1 hour.

2. By adding to § 141a.16 *Tablets aluminum penicillin* the following new paragraph (c):

(c) *Disintegration time.* Proceed as directed in § 141a.9(c).

3. By adding to § 141a.64 *Penicillin-streptomycin tablets* * * * the following new paragraph (c):

(c) *Disintegration time.* Proceed as directed in § 141a.9(c).

4. By adding to § 141a.70 *Tablets benzathine penicillin G and crystalline penicillin* the following new paragraph (c):

(c) *Disintegration time.* Proceed as directed in § 141a.9(c).

5. By adding to § 141a.84 *Tablets benzathine penicillin G and penicillin V* the following new paragraph (c):

(c) *Disintegration time.* Proceed as directed in § 141a.9(c).

6. By adding to § 141a.101 *Phenethicillin potassium (potassium α-phenoxyethyl penicillin) tablets* the following new paragraph (c):

(c) *Disintegration time.* Proceed as directed in § 141a.9(c).

7. By adding to § 141b.109 *Streptomycin tablets* the following new paragraph (c):

(c) *Disintegration time.* Proceed as directed in § 141a.9(c).

8. By adding to paragraph (a) of § 141b.112 *Streptomycin-polymyxin-bacitracin tablets* the following new subparagraph (3):

(3) *Disintegration time.* Proceed as directed in § 141a.9(c).

9. By adding to § 141b.136 *Streptomycin-polymyxin tablets* • • • the following new paragraph (c):

(c) *Disintegration time.* Proceed as directed in § 141a.9(c).

10. By adding to § 141c.207 *Chlortetracycline tablets* • • • the following new paragraph (c):

(c) *Disintegration time.* Proceed as directed in § 141a.9(c).

11. By redesignating paragraph (a)(1) of § 141c.225 *Tetracycline hydrochloride-nystatin tablets* as subparagraph (2) and by adding to paragraph (a) a new subparagraph (3):

(3) *Disintegration time.* Proceed as directed in § 141a.9(c).

12. By adding to § 141c.228 *Tetracycline hydrochloride-neomycin tablets* the following new paragraph (c):

(c) *Disintegration time.* Proceed as directed in § 141a.9(c).

13. By adding to § 141c.238 *Tablets tetracycline hydrochloride and novobiocin* the following new paragraph (d):

(d) *Disintegration time.* Proceed as directed in § 141a.9(c).

14. By adding to § 141d.310 *Chloramphenicol tablets* the following new paragraph (d):

(d) *Disintegration time.* Proceed as directed in § 141a.9(c).

15. By adding to § 141e.403 *Bacitracin tablets* • • • the following new paragraph (c):

(c) *Disintegration time.* Proceed as directed in § 141a.9(c).

16. By adding to paragraph (a) of § 141e.410 *Bacitracin-neomycin tablets* • • • the following new subparagraph (3):

(3) *Disintegration time.* Proceed as directed in § 141a.9(c).

17. By adding to § 141e.412 *Bacitracin-polymyxin tablets* the following new paragraph (c):

(c) *Disintegration time.* Proceed as directed in § 141a.9(c).

18. By adding to § 141e.426 *Tablets bacitracin methylene disalicylate and streptomycin sulfate oral veterinary* the following new paragraph (c):

(c) *Disintegration time.* Proceed as directed in § 141a.9(c).

Any interested person may, within 30 days from the publication of this notice in the FEDERAL REGISTER, submit written views and comments on these proposed amendments. Such comments should be submitted in triplicate and addressed to the Hearing Clerk, Department of Health, Education, and Welfare, Room 5440, 330 Independence Avenue SW., Washington 25, D.C.

Dated: February 8, 1962.

JOHN L. HARVEY,
Deputy Commissioner of Food and Drugs.

[F.R. Doc. 62-1548; Filed, Feb. 14, 1962; 8:47 a.m.]

TABLETS OF ANTIBIOTIC AND ANTIBIOTIC-CONTAINING DRUGS

Proposed Requirements for Disintegration of Tablets

The Commissioner of Food and Drugs, pursuant to the provisions of the Federal Food, Drug, and Cosmetic Act (sec. 507, 59 Stat. 463 as amended; 21 U.S.C. 357), and under the authority delegated to him by the Secretary of Health, Education, and Welfare (25 F.R. 8625), proposes to amend the regulation for certification of antibiotic and antibiotic-containing drugs to require specified disintegration time for these drugs manufactured in tablet form. It is proposed to effect these amendments as follows:

1. It is proposed that § 146a.17 be amended as follows:

a. By changing paragraph (a) to read:

§ 146a.17 Phenethicillin potassium (potassium α-Phenoxyethyl penicillin) tablets.

(a) *Standards of identity, strength, quality, and purity.* Phenethicillin potassium tablets are tablets composed of phenethicillin potassium, with or without one or more suitable and harmless buffer substances, diluents, binders, lubricants, colorings, and flavorings, with or without one or more suitable analgesic substances, antihistaminics, and vasoconstrictors. The potency of each tablet is not less than 50,000 units, and if it is less than 100,000 units it is unscored. Its moisture content is not more than 1.5 percent. Tablets not exceeding 15 millimeters in diameter or not intended only for preparing solutions shall disintegrate within 1 hour. The phenethicillin potassium conforms to the requirements of § 146a.16(a). Each other substance used, if its name is recognized in the U.S.P. or N.F., conforms to the standards prescribed by such official compendium.

b. By changing paragraph (d)(2)(i) to read:

(i) The batch: Average potency per tablet, average moisture, and if required by paragraph (a) of this section, disintegration time.

c. By changing paragraph (d)(3)(i) to read:

(i) The batch:

(*a*) For potency and moisture: One tablet for each 5,000 tablets in the batch, but in no case less than 30 tablets, collected by taking single tablets throughout the entire time of tableting so that the quantities tableted during the intervals are approximately equal.

(*b*) For disintegration time: 6 tablets.

d. By changing paragraph (e)(1) to read:

(1) $0.75 for each tablet in the sample submitted in accordance with paragraph (d)(3)(i)(*a*) of this section; $3.00 for all tablets submitted in accordance with paragraph (d)(3)(i)(*b*) of this section; $5.00 for each package in the sample submitted in accordance with paragraph (d)(3)(ii) of this section; $4.00 for each package in the sample submitted in accordance with paragraph (d)(3)(iii) of this section.

§ 146a.27 [Amendment]

2. It is proposed to amend § 146a.27 *Penicillin tablets* as follows:

a. By inserting in paragraph (a) the following new sentence between the fifth and sixth sentences: "Tablets not exceeding 15 millimeters in diameter, or not intended only for preparing solutions, shall disintegrate within 1 hour."

b. By changing paragraph (d)(2)(i) to read:

(i) The batch: Average potency per tablet, average moisture, and if required by paragraph (a) of this section, disintegration time.

c. By changing paragraph (d)(3)(i) to read:

(i) The batch:

(*a*) For potency and moisture: One tablet for each 5,000 tablets in the batch, but in no case less than 30 tablets, collected by taking single tablets throughout the entire time of tableting so that the quantities tableted during the intervals are approximately equal.

(*b*) For disintegration time: 6 tablets.

d. By changing paragraph (e)(1) to read:

(1) $0.75 for each tablet in the sample submitted in accordance with paragraph (d)(3)(i)(*a*) of this section; $3.00 for all tablets submitted in accordance with paragraph (d)(3)(i)(*b*) of this section; $4.00 for each package in the samples submitted in accordance with paragraph (d)(3)(iii) of this section.

§ 146a.34 [Amendment]

3. It is proposed to amend § 146a.34 *Tablets aluminum penicillin* as follows:

a. By inserting in paragraph (a) the following new sentence between the fourth and fifth sentences: "Tablets not exceeding 15 millimeters in diameter, or not intended only for preparing solutions, shall disintegrate within 1 hour."

b. By changing paragraph (d)(2)(i) to read:

(i) The batch: Average potency per tablet, average moisture, and if required by paragraph (a) of this section, disintegration time.

c. By changing paragraph (d)(3)(i) to read:

(i) The batch:

(*a*) For potency and moisture: One tablet for each 5,000 tablets in the batch, but in no case less than 30 tablets, collected by taking single tablets throughout the entire time of tableting so that the quantities tableted during the intervals are approximately equal.

(*b*) For disintegration time: 6 tablets.

d. By amending paragraph (e)(1) to read:

(1) $0.75 for each tablet in the sample submitted in accordance with paragraph (d)(3)(i)(*a*) of this section; $3.00 for all tablets submitted in accordance with paragraph (d)(3)(i)(*b*) of this section; $4.00 for each package in the samples submitted in accordance with paragraph (d)(3)(ii) and (iii) of this section.

§ 146a.88 [Amendment]

4. It is proposed to amend § 146a.88 *Penicillin-streptomycin tablets* • • • by changing paragraph (b)(1) to read as follows:

(1) $1.00 for each tablet submitted in accordance with the requirements of § 146a.27(d)(3)(i)(*a*).

§ 146b.104 [Amendment]

5. It is proposed to amend § 146b.104 *Streptomycin tablets; dihydrostreptomycin tablets* as follows:

a. By inserting in paragraph (a) the following new sentence between the fourth and fifth sentences: "Tablets not exceeding 15 millimeters in diameter, or not intended only for preparing solutions, shall disintegrate within 1 hour."

b. By changing paragraph (d)(2)(i) to read:

(i) The batch: Average potency per tablet, average moisture, and if required by paragraph (a) of this section, disintegration time.

c. By changing paragraph (d)(3)(i) to read:

(i) The batch:

(*a*) For potency and moisture: One tablet for each 5,000 tablets in the batch, but in no case less than 30 tablets, collected by taking single tablets throughout the entire time of tableting so that the quantities tableted during the intervals are approximately equal.

(*b*) For disintegration time: 6 tablets.

d. By amending paragraph (e)(1) to read:

(1) $0.75 for each tablet in the sample submitted in accordance with paragraph (d)(3)(i)(*a*) of this section; $3.00 for all tablets submitted in accordance with paragraph (d)(3)(i)(*b*) of this section; $4.00 for each package in the samples submitted in accordance with paragraph (d)(3)(ii) and (iii) of this section.

§ 146a.88 [Amendment]

4. It is proposed to amend § 146a.88 *Penicillin-streptomycin tablets* • • • by changing paragraph (b)(1) to read as follows:

(1) $1.00 for each tablet submitted in accordance with the requirements of § 146a.27(d)(3)(i)(*a*).

§ 146b.104 [Amendment]

5. It is proposed to amend § 146b.104 *Streptomycin tablets; dihydrostreptomycin tablets* as follows:

a. By inserting in paragraph (a) the following new sentence between the fourth and fifth sentences: "Tablets not exceeding 15 millimeters in diameter, or not intended only for preparing solutions, shall disintegrate within 1 hour."

b. By changing paragraph (d)(2)(i) to read:

(i) The batch: Average potency per tablet, average moisture, and if required by paragraph (a) of this section, disintegration time.

c. By changing paragraph (d)(3)(i) to read:

(i) The batch:

(*a*) For potency and moisture: One tablet for each 5,000 tablets in the batch, but in no case less than 30 tablets, collected by taking single tablets throughout the entire time of tableting so that the quantities tableted during the intervals are approximately equal.

(*b*) For disintegration time: 6 tablets.

d. By amending paragraph (e)(1) to read:

(1) $0.75 for each tablet in the sample submitted in accordance with paragraph (d)(3)(i)(*a*) of this section; $3.00 for all tablets submitted in accordance with paragraph (d)(3)(i)(*b*) of this section; $4.00 for each package in the samples submitted in accordance with paragraph (d)(3)(ii) and (iii) of this section.

§ 146a.88 [Amendment]

4. It is proposed to amend § 146a.88 *Penicillin-streptomycin tablets* • • • by changing paragraph (b)(1) to read as follows:

(1) $1.00 for each tablet submitted in accordance with the requirements of § 146a.27(d)(3)(i)(*a*).

§ 146b.104 [Amendment]

5. It is proposed to amend § 146b.104 *Streptomycin tablets; dihydrostreptomycin tablets* as follows:

a. By inserting in paragraph (a) the following new sentence between the fourth and fifth sentences: "Tablets not exceeding 15 millimeters in diameter, or not intended only for preparing solutions, shall disintegrate within 1 hour."

b. By changing paragraph (d)(2)(i) to read:

(i) The batch: Average potency per tablet, average moisture, and if required by paragraph (a) of this section, disintegration time.

c. By changing paragraph (d)(3)(i) to read:

(i) The batch:

(*a*) For potency and moisture: One tablet for each 5,000 tablets in the batch, but in no case less than 30 tablets, collected by taking single tablets throughout the entire time of tableting so that the quantities tableted during the intervals are approximately equal.

(*b*) For disintegration time: 6 tablets.

d. By amending paragraph (e)(1) to read:

(1) $1.00 for each tablet in the sample submitted in accordance with paragraph (d)(3)(i)(*a*) of this section; $3.00 for all tablets submitted in accordance with paragraph (d)(3)(i)(*b*) of this section; $4.00 for each package in the samples submitted in accordance with paragraph (d)(3)(ii), (iii), (iv), and (v) of this section.

§ 146c.207 [Amendment]

7. It is proposed to amend § 146c.207 *Chlortetracycline hydrochloride tablets* • • • by adding to paragraph (a) the following new sentences: "In addition to the requirements prescribed by § 146c.204, tablets not exceeding 15 millimeters in diameter, or not intended only for preparing solutions, shall disintegrate within 1 hour. A person who requests certification shall therefore also submit for disintegration-time studies, results of this test made by him and a sample of 6 tablets. The fee for the tablets submitted for disintegration-time studies shall be $3.00."

§ 146c.225 [Amendment]

8. It is proposed to amend § 146c.225 *Tetracycline hydrochloride-nystatin tablets* by adding thereto the following sentences: "In addition to the requirements prescribed by § 146c.224, tablets not exceeding 15 millimeters in diameter, or not intended only for preparing solutions, shall disintegrate within 1 hour. A person who requests certification shall therefore also submit for disintegration-time studies, results of this test made by him and a sample of 6 tablets. The fee for the tablets submitted for disintegration-time studies shall be $3.00."

§ 146c.228 [Amendment]

9. It is proposed to amend § 146c.228 *Tetracycline hydrochloride - neomycin tablets* as follows:

a. By adding to paragraph (a) the following new sentence: "Tablets not exceeding 15 millimeters in diameter, or not intended only for preparing solutions, shall disintegrate within 1 hour."

b. By changing paragraph (c) to read:

(c) In addition to complying with the requirements of § 146c.204(d), a person who requests certification of a batch shall submit with his request a statement showing the number of milligrams of tetracycline hydrochloride and neomycin in each tablet of the batch, the batch mark, and, if required by paragraph (a) of this section, disintegration time, and (unless it was previously submitted) the results and the date of the latest tests and assays of the neomycin used in making the batch for potency, toxicity, moisture, and pH. He shall also submit in connection with his request (unless it was previously submitted) a sample consisting of 5 packages containing approximately equal portions of not less than 0.5 gram each of the neomycin used in making such batch, and a sample of 6 tablets for disintegration-time studies.

c. By amending paragraph (d) to read as follows:

(d) The fees for the services rendered with respect to the samples submitted in accordance with the requirements of this section shall be:

(1) $1.00 for each tablet submitted in accordance with the requirements of § 146c.204(d)(3)(i).

(2) $3.00 for all tablets submitted for disintegration-time studies in accordance with paragraph (c) of this section.

§ 146c.238 [Amendment]

10. It is proposed to amend § 146c.238 *Tablets tetracycline hydrochloride and novobiocin* as follows:

a. By changing paragraph (b) to read:

(b) The moisture content of the tablets is not more than 6 percent. Tablets not exceeding 15 millimeters in diameter, or not intended only for preparing solutions, shall disintegrate within 1 hour.

b. By changing paragraph (d) to read:

(d) In addition to complying with the requirements of § 146c.204, a person who requests certification of a batch shall submit with his request a statement showing the batch mark, and if required by paragraph (b) of this section, disintegration time, and (unless previously submitted) the results and the date of the latest tests and assays of the novobiocin used in making the batch for potency, toxicity, pH, crystallinity, and moisture. He shall submit a sample of 6 tablets for disintegration-time studies. He shall also submit in connection with his request (unless previously submitted) a sample consisting of 10 packages, each containing approximately equal portions of not less than 300 milligrams of the novobiocin used in making the batch.

c. By changing paragraph (e) to read:

(e) The fees for the services rendered with respect to the samples submitted in accordance with the requirements of this section shall be:

(1) $1.00 for each tablet submitted in accordance with the requirements of § 146c.204(d)(3)(i).

(2) $3.00 for all tablets submitted for disintegration-time studies in accordance with paragraph (d) of this section.

§ 146d.310 [Amendment]

11. It is proposed to amend § 146d.310 *Chloramphenicol tablets* by adding thereto the following sentences: "In addition to the requirements prescribed by § 146d.302, tablets not exceeding 15 millimeters in diameter, or not intended only for preparing solutions, shall disintegrate within 1 hour. A person who

requests certification shall submit for disintegration-time studies results of this test made by him and a sample of 6 tablets. The fee for the tablets submitted for the disintegration-time studies shall be $3.00."

§ 146e.403 [Amendment]

12. It is proposed to amend § 146e.403 *Bacitracin tablets* • • • as follows:

a. By changing paragraph (a) to read:

(a) *Standards of identity, strength, quality, and purity.* Bacitracin tablets, zinc bacitracin tablets, and bacitracin methylene disalicylate tablets are tablets composed of bacitracin, zinc bacitracin, or bacitracin methylene disalicylate, with or without kaolin and pectin and with or without one or more suitable and harmless buffer substances, diluents, binders, lubricants, colorings, and flavorings, and with or without a suitable amebicidal agent. The potency of each tablet is not less than 1,000 units nor more than 10,000 units. Its moisture content is not more than 5 percent. Tablets not exceeding 15 millimeters in diameter, or not intended only for preparing solutions, shall disintegrate within 1 hour. The bacitracin used conforms to the standards prescribed therefor by § 146e.401(a), except § 146e.401(a) (2), (4), and (8). The zinc bacitracin used conforms to the requirements of § 146e.418(a). The bacitracin methylene disalicylate used conforms to the requirements of § 146e.416(a). Each other substance used, if its name is recognized in the U.S.P. or N.F., conforms to the standards prescribed therefor by such official compendium.

b. By changing paragraph (d) (2) (i) to read:

(i) The batch: Average potency per tablet, average moisture, and if required by paragraph (a) of this section, disintegration time.

c. By changing paragraph (d) (3) (i) to read:

(i) The batch:

(*a*) For potency and moisture: One tablet for each 5,000 tablets in the batch, but in no case less than 30 tablets, collected by taking single tablets throughout the entire time of tableting so that the quantities tableted during the intervals are approximately equal.

(*b*) For disintegration time: 6 tablets.

d. By amending paragraph (e) (1) to read:

(1) $0.75 for each tablet in the sample submitted in accordance with paragraph (d) (3) (i) (*a*) of this section; $3.00 for all tablets submitted in accordance with paragraph (d) (3) (i) (*b*) of this section; $4.00 for each package in the samples submitted in accordance with paragraph (d) (3) (ii), (iii), (iv), and (v) of this section.

§ 146e.426 [Amendment]

13. It is proposed to amend § 146e.426 *Tablets bacitracin methylene disalicylate and streptomycin sulfate oral veterinary* as follows:

a. By changing paragraph (a) to read as follows:

(a) Each tablet shall contain not less than 150 units of bacitracin activity and not less than 15 milligrams of streptomycin activity. Tablets not exceeding 15 millimeters in diameter, or not intended only for preparing solutions, shall disintegrate within 1 hour.

b. By changing paragraph (c) to read as follows:

(c) In lieu of the directions for sampling the batch as prescribed in § 146e.417(d) (3) (i), the batch shall be sampled as follows:

(1) For potency and moisture: One tablet for each 5,000 tablets in the batch, but in no case less than 30 tablets, collected by taking single tablets throughout the entire time of tableting so that the quantities tableted during the intervals are approximately equal.

(2) For disintegration-time studies: 6 tablets.

c. By amending paragraph (d) to read:

(d) The fees for the services rendered with respect to the tablets submitted in accordance with the requirements prescribed therefor by paragraph (c) of this section shall be:

(1) $1.00 for each tablet submitted in accordance with paragraph (c) (1) of this section.

(2) $3.00 for all tablets submitted in accordance with paragraph (c) (2) of this section.

Any interested person may, within 30 days from the publication of this notice in the FEDERAL REGISTER, submit written views and comments on these proposed amendments. Such comments should be submitted in triplicate and addressed to the Hearing Clerk, Department of Health, Education, and Welfare, Room 5440, 330 Independence Avenue SW., Washington, D.C.

Dated: February 8, 1962.

JOHN L. HARVEY,
Deputy Commissioner of Food and Drugs.

FEDERAL AVIATION AGENCY

[14 CFR Parts 600, 601]

[Airspace Docket No. 60-LA-100]

FEDERAL AIRWAYS AND CONTROLLED AIRSPACE

Proposed Revocation

Pursuant to the authority delegated to me by the Administrator (14 CFR 409.13), notice is hereby given that the Federal Aviation Agency (FAA) is considering amendments to Part 600 and Part 601 of the regulations of the Administrator, the substance of which is stated below.

Low altitude VOR Federal airway No. 291 extends from Drake, Ariz., to Tuba City, Ariz. The FAA has under consideration the revocation of this airway and its associated control areas. A recent traffic survey indicated no Instrument Flight Rules traffic on this airway during the most active day in the Phoenix, Ariz. center area for the period between July 1, 1960–June 30, 1961. It would appear, therefore, that retention of this airway is unjustified as an assignment of airspace. Further, it appears that the area between Drake and Tuba City is adequately served by VOR Federal airways Nos. 257 and 210 on which the minimum en route altitude is lower.

Interested persons may submit such written data, views, or arguments as they may desire. Communications should be submitted in triplicate to the Assistant Administrator, Western Region, Attn: Chief, Air Traffic Division, Federal Aviation Agency, 5651 West Manchester Avenue, P.O. Box 90007, Airport Station, Los Angeles 45, Calif. All communications received within forty-five days after publication of this notice in the FEDERAL REGISTER will be considered before action is taken on the proposed amendment. No public hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Agency officials may be made by contacting the Regional Air Traffic Division Chief, or the Chief, Airspace Utilization Division, Federal Aviation Agency, Washington 25, D.C. Any data, views or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

The official Docket will be available for examination by interested persons at the Docket Section, Federal Aviation Agency, Room C-226, 1711 New York Avenue NW., Washington 25, D.C. An informal Docket will also be available for examination at the office of the Regional Air Traffic Division Chief.

This amendment is proposed under section 307(a) of the Federal Aviation Act of 1958 (72 Stat. 749; 49 U.S.C. 1348).

Issued in Washington, D.C., on February 8, 1962.

CLIFFORD P. BURTON,
Acting Chief, Airspace Utilization Division.

Notices

DEPARTMENT OF THE INTERIOR

Bureau of Indian Affairs

SPOKANE INDIAN RESERVATION

Transfer of Land Records to Portland Area Office

FEBRUARY 9, 1962.

In accordance with 25 CFR Part 120, notice is hereby given that all title source documents and land records pertaining to trust or restricted Indian-owned lands on the Spokane Indian Reservation in the State of Washington have been transferred from the City of Washington to the Portland Area Office, Bureau of Indian Affairs, 1002 NE. Holliday Street, Portland 8, Oregon.

Effective February 15, 1962, the Portland Area Office will be the office for the maintenance of records for all trust and restricted lands so designated.

JOHN O. CROW,
Acting Commissioner.

[F.R. Doc. 62-1553; Filed, Feb. 14, 1962; 8:48 a.m.]

Bureau of Land Management

[Colorado 027174]

COLORADO

Order Providing for Opening of Public Lands

Pursuant to authority delegated to me by the Colorado State Director, Bureau of Land Management, effective February 19, 1958 (23 F.R. 1098), the following described lands reconveyed to the United States in exchange of land made under the provision of section 8 of the Act of June 28, 1934 (48 Stat. 1269), as amended are hereby restored to disposition under the applicable public land laws as hereinafter indicated:

NEW MEXICO PRINCIPAL MERIDIAN, COLORADO

T. 47 N., R. 10 W.,
Sec. 5, N½SW¼, NW¼SE¼;
Sec. 6, SE¼;
Sec. 7, NE¼.
T. 47 N., R. 11 W.,
Sec. 1, Lots 2 and 3.

The area described totals 519.32 acres of public lands.

The lands are about twelve miles southwest of Montrose, Colorado. They are moderately rolling bench lands, cut by a series of northeast trending shallow canyons. The soils are heavy silt loam with numerous rock outcrops, and support oakbrush and sagebrush.

The public land affected by this order is hereby restored as of 10:00 a.m., on March 15, 1962, to the operation of the public land laws subject to any valid existing rights, the provisions of existing withdrawals, and the requirements of applicable law, rules and regulations.

The mineral resources affected by this order are hereby restored to the operation of the mining and mineral leasing laws of the United States beginning at 10:00 a.m., on March 15, 1962.

Inquiries concerning the lands should be addressed to the Manager, Land Office, Bureau of Land Management, 722 Gas & Electric Building; 910 15th Street, Denver 2, Colorado.

HAROLD T. TYSK,
Chief, Lands and Minerals.

FEBRUARY 7, 1962.

[Classification No. 36]

COLORADO

Small Tract Classification

1. Pursuant to authority delegated to me by the Colorado State Director, Bureau of Land Management, effective February 19, 1958 (23 F.R. 1098), I hereby classify the following described public lands, totalling 366.05 acres in Mesa County, Colorado, as suitable for disposition under the provisions of the Small Tract Act of June 1, 1938 (52 Stat. 609, 43 U.S.C. 682a), as amended:

UTE MERIDIAN, COLORADO

T. 1 S., R. 1 W.,
Sec. 27, NE¼SW¼, S½SW¼, SW¼SE¼;
Sec. 28, Lots 1, 2, 5, 6, 7, 8, 9, 10, 12, 13, 14, 17, 18, 20, SW¼NE¼, E½SE¼SE¼NW¼.
Containing 366.05 acres which have not been subdivided into small tract.

2. Classification of the above-described lands by this order segregates them from all appropriations, including locations under the mining laws, except as to applications under the mineral leasing laws.

3. The lands classified by this order shall not become subject to disposition under the Small Tract Act of June 1, 1938 (52 Stat. 609; 43 U.S.C. 682a), as amended, until it is so provided by an order to be issued by an authorized officer, opening the lands to application or bid.

4. There are no preference right applications as provided for by 43 CFR 257.5.

HAROLD T. TYSK,
Chief, Lands and Minerals.

[Classification No. 205]

NEVADA

Small Tract Classification; Amendment

Effective February 7, 1962, paragraph 1 is hereby amended to read as follows:

1. Pursuant to authority delegated by Bureau Order No. 684, dated August 28, 1961 (26 F.R. 8216), and the State Director August 30, 1961 (26 F.R. 8468), I hereby classify the following described public lands, totaling 300 acres in Ormsby County, Nevada as suitable for sale for residence purposes under the Small Tract Act of June 1, 1938 (52 Stat. 609; 43 USC 682a) as amended:

MOUNT DIABLO MERIDIAN

T. 15 N., R. 20 E.,
Sec. 14, NE¼, E½W½W½SE¼, E½W½SE¼, E½SE¼.

Containing 300 acres of which 5 acres are covered by one application from a person entitled to preference under 43 CFR 257.5(a).

2. Classification of the above described lands by this order segregates them from all appropriations, including locations under the mining laws, except as to applications under the mineral leasing laws.

3. The lands classified by this order shall not become subject to application under the Small Tract Act of June 1, 1938 (52 Stat. 609; 43 USC 682a) as amended, until it is so provided by an order to be issued by an authorized officer, opening the lands to application or bid.

4. The one valid application, filed prior to February 7, 1962, will be granted, as soon as possible, the preference right provided for by 43 CFR 257.5.

DANIEL P. BAKER,
Chief, Division of Lands and Minerals Management.

FEBRUARY 7, 1962.

DEPARTMENT OF AGRICULTURE

Commodity Credit Corporation

CERTAIN COMMODITY CREDIT CORPORATION ACTIVITIES

Delegation of Authority

General. In order to provide for the execution of certain documents in connection with Commodity Credit Corporation transactions, a delegation of authority is provided below, pursuant to authority vested in me by the bylaws of Commodity Credit Corporation.

The authority herein delegated shall be exercised in conformity with the bylaws, regulations, and programs of Commodity Credit Corporation, and the policies adopted by the Board of Directors of the Corporation.

Delegation. Any member of an Agricultural Stabilization and Conservation State committee, and any member of an Agricultural Stabilization and Conservation county committee within the State to whom the authority is redelegated in writing by the chairman or acting chairman of the State committee, may sign or countersign Commodity Credit Corporation sight drafts or Commodity Credit Corporation certificates properly issued pursuant to any program administered by the Agricultural Stabilization and Conservation State committees and Agricultural Stabilization and Conservation county committees in which the use of such drafts or certificates is prescribed.

The State Executive Director or acting Executive Director of any Agricultural Stabilization and Conservation Service State office, and any employee of the State office to whom the authority is redelegated in writing by the Executive Director or acting Executive Director, may sign or countersign Commodity Credit Corporation sight drafts or Commodity Credit Corporation certificates properly issued pursuant to any program administered by the Agricultural Stabilization and Conservation State committees and Agricultural Stabilization and Conservation county committees in which the use of such drafts or certificates is prescribed.

Redelegations. Redelegations issued by the chairman or acting chairman of the State committee to members of county committees shall remain in effect until revoked in writing by the chairman or acting chairman or until the term of the county committee member expires. Redelegations issued by the State Executive Director or acting Executive Director to employees of the State office shall remain in effect until revoked by the State Executive Director or acting Executive Director or until the employee is separated from his position in the office.

Revocation of delegation of authority. Delegation of authority, issued March 27, 1958 (23 F.R. 2130), with respect to signing or countersigning of Commodity Credit Corporation sight drafts and Commodity Credit Corporation certificates is hereby revoked. All redelegations of authority issued to county committee members pursuant thereto shall remain in effect until revoked in writing by the chairman or acting chairman of the State committee or until the term of the county committee member expires. All redelegations of authority issued to employees of State offices pursuant thereto shall remain in effect until revoked in writing by the Executive Director or acting Executive Director of the State office or until the employee is separated from his position in the office.

(Sec. 4, 62 Stat. 1070, as amended; 15 U.S.C. 714b)

Date of signature: February 8, 1962.

Effective date of authority: Date of publication.

ROBERT G. LEWIS,
Acting Executive Vice President, Commodity Credit Corporation.

Office of the Secretary

WYOMING

Designation of Area for Emergency Loans

For the purpose of making emergency loans pursuant to section 321(a) of Public Law 87-128 (7 U.S.C. 1961) it has been determined that in Washakie County, Wyoming, natural disasters have caused a need for agricultural credit not readily available from commercial banks, cooperative lending agencies, or other responsible sources.

Pursuant to the authority set forth above, emergency loans will not be made in the above-named county after June 30, 1962, except to applicants who previously received emergency or special livestock loan assistance and who can qualify under established policies and procedures.

Done at Washington, D.C., this 12th day of February 1962.

ORVILLE L. FREEMAN,
Secretary.

Office of the Secretary

PUBLIC HEALTH SERVICE

Statement of Organization and Delegations of Authority

Part 4 of the Statement of Organization and Delegations of Authority of the Department (22 F.R. 1049; 26 F.R. 6660), as amended, is hereby further amended:

1. By deleting subparagraph (2) of section 4.20(a) and renumbering subparagraphs (3) through (10) inclusive as subparagraphs (2) through (9) respectively.

2. By revising section 4.20(b) to read as follows:

B. The Surgeon General shall also exercise:

1. The functions relating to vital statistics which were transferred to the Federal Security Administrator by section 2 of Reorganization Plan No. 2 of 1946 and thereafter transferred to the Secretary by section 5 of Reorganization Plan No. 1 of 1953.

2. The functions relating to Freedmen's Hospital which were transferred to the Federal Security Administrator by section 11(b) of Reorganization Plan No. IV (1940) and thereafter transferred to the Secretary by section 5 of Reorganization Plan No. 1 of 1953.

3. The functions vested in him by law not expressly referred to by this chapter.

4. Subject to general policy guidance from the Office of the Secretary (See Chapter 1-925), all program operating functions vested in the Secretary by the Federal Water Pollution Control Act (33 U.S.C. 466 et seq.) as amended by the Federal Water Pollution Control Act Amendments of 1961 except:

(a) The making of regulations authorized by section 10(a),

(b) The making of annual reports on the establishment and maintenance of research fellowships required by section 4(a)(4),

(c) All functions set out in section 8 (c), (d), (e), and (f), and

(d) The designation of the Chairman of the Water Pollution Control Advisory Board under section 7.

5. Such authority under the Public Health Service Act and other legislation as may be delegated by the Secretary.

Dated: February 7, 1962.

[SEAL] ABRAHAM RIBICOFF,
Secretary.

[Docket No. S-134]

AMERICAN EXPORT LINES, INC., AND ISBRANDTSEN STEAMSHIP CO., INC.

Notice of Application and of Hearing

Notice is hereby given of the application of American Export Lines, Inc., and Isbrandtsen Steamship Company, Inc., for written permission (to be made applicable to the latter in the event of award to said Company of an operating-differential subsidy contract), of the Maritime Subsidy Board, under section 805(a) of the Merchant Marine Act, 1936, as amended, 46 U.S.C. 1223, to permit American Export Lines' associate, Isbrandtsen Company, Inc., to expand

its Eastbound Intercoastal Service (operated in conjunction with its Eastbound Round-the-World Service), to permit its vessels operating in said service to carry refined sugar in bulk in containers from Puerto Rico to the ports of Baltimore, Philadelphia, and New York. This application may be inspected by interested parties in Room 3063, General Accounting Office Building, 441 G Street NW., Washington 25, D.C.

A hearing on the application has been set for February 26, 1962, at 10:30 a.m., in Room 3059, of the General Accounting Office Building. Any person, firm, or corporation having any interest (within the meaning of section 805(a)) in such application and desiring to be heard on issues pertinent to section 805(a) must, before the close of business on February 23, 1962, notify the Secretary, Maritime Administration, in writing, in triplicate, and file petition for leave to intervene which petition shall state clearly and concisely the grounds of interest, and the alleged facts relied on for relief. Notwithstanding anything in Rule 5(n) of the rules of practice and procedure, petitions for leave to intervene received after the close of business on February 23, 1962, will not be granted in this proceeding.

Dated: February 13, 1962.

JAMES S. DAWSON, Jr.,
Secretary.

FEDERAL COMMUNICATIONS COMMISSION

[Docket No. 14251; FCC 62-144]

AMERICAN TELEPHONE AND TELEGRAPH CO.

Memorandum Opinion and Order

In the matter of American Telephone and Telegraph Company, Docket No. 14251; regulations and charges for TELPAK services and channels.

1. The Commission has before it Tariff F.C.C. No. 250 of the American Telephone and Telegraph Company (AT & T), as amended and successive issues thereof, applicable to TELPAK services and channels, as well as the record to date in the above-captioned proceeding, including (a) Order of the Commission, released September 8, 1961, instituting an investigation and designating a hearing regarding such tariff and suspending the effectiveness of the August 3, 1961 revisions for a three month period commencing September 8, 1961, (FCC 61-1039, Mimeo No. 9429, 26 F.R. 8607), (b) Petition for Modification of ["(a)"] Order, filed September 19, 1961, by AT & T, (c) Petition for Reconsideration, filed September 21, 1961, by Aeronautical Radio, Inc. (ARinc), (d) Suggested Clarification and Resettlement of Hearing Order, filed September 29, 1961, by the NAM Committee of Manufacturers Radio Use and the American Trucking Associations, Inc. (NAM-ATA), (e) Oppositions thereto by Western Union Telegraph Company, Motorola, Inc. and the Common Carrier Bureau, and (f) Replies by AT & T and ARinc.. The instant petitions seek modification of the designation Order ((a) ante) and the procedures contemplated thereunder.

2. Petitioners' prime objection relates to the statement in the designation Order that, "* * * the examiner * * * shall certify the record to the Commission for decision without * * * an Initial or Recommended Decision;", requesting its deletion so that the Hearing Examiner be required to prepare a decision, contending that according to past Commission practice—apparently contemplated here—the Initial Decision, to be issued by the Commission instead of the Hearing Examiner, will be prepared for the Commission by the Common Carrier Bureau, which will also appear and participate in the hearing. This, it is asserted, is prejudicial since the Bureau has previously taken a position in this case opposing the TELPAK tariff and its revisions. It is further alleged that the procedure contemplated is contrary to section 8(a) of the Administrative Procedure Act and 47 CFR 1.151(d) in that the designation Order lacks a finding that due and timely execution of the Commission's functions imperatively and unavoidably requires this procedure. Petitioners also urge that as a matter of policy the Commission should have the Hearing Examiner issue an Initial Decision.

3. That the Commission has the right in accordance with its rules consistent with the Administrative Procedure Act to direct that a record be certified to it for Initial Decision in a rule-making proceeding such as the instant one would appear to be beyond dispute if such direction be coupled with the record finding that expedition so requires. The essentiality of expedition to this proceeding is implicit in petitioners' arguments in their pleadings. That the Examiner's decision may be omitted under similar conditions likewise is clear. Accordingly, we find here upon the record that due and timely execution of our functions unavoidably and imperatively requires the certification of the record by the Hearing Examiner in this proceeding to us for Initial Decision without Initial or Recommended Decision by such Examiner.

4. With regard to the participation of the Common Carrier Bureau in the drafting of the Commission decision, the short answer is that the APA does not preclude this. Section 5(c) of the APA requires separation of functions in adjudication, but by explicit provision excepts "proceedings involving the validity or application of rates, facilities, or practices of public utilities or carriers; * * *". Therefore, rather than being contrary to the policy of the APA, the procedure contemplated is perfectly consistent with the provisions of that Act. Certainly petitioners' views will not be ignored. They have the opportunity to file proposed findings as well as exceptions to the Initial Decision and to request oral argument before the Commission. In view of all the foregoing, petitioners' request for deletion of that portion of the designation Order directing the certification of the record to the Commission without an Examiner's decision will be denied. Likewise, the request that copies of any draft decision prepared by the staff in this proceeding be served on the parties at the same time as the decision is presented to the Commission for its consideration will be denied as contrary to normal Commission procedure since good cause for any divergence from such practice has not been shown.

5. Petitioners request modification of four of the nine it appearing clauses in the designation Order to remove any conclusionary wording which might prejudice an impartial determination of the issues in this proceeding. The prefaces "It appearing," in our opinion, precludes their construction as conclusions. That they are not conclusions is emphasized by the en banc hearing held subsequent to the release of this designation Order in which the issues were drawn from the very clauses here under attack, and the Memorandum Opinion and Order issuing after such hearing and released December 7, 1961 (FCC 61-1431, Mimeo No. 12881) which stated that the Commission could arrive at no conclusion regarding these issues without further evidentiary hearing. Accordingly, this request will be denied.

6. ARinc's request that the designation Order allocate the burden of proof will be denied because such initial determination is for the Hearing Examiner's construction of the statute. ARinc's request for addition of three new issues to the designation Order involve matters concerning which evidence may be introduced under the existing issues except inquiry as to any plans of Western Union Telegraph Company to provide a TELPAK-like service, which issue would become pertinent only upon the filing of a similar tariff by Western Union. Consequently, the request will be denied.

7. NAM-ATA has suggested that we require the Common Carrier Bureau to

place any rates it may propose with the reasons therefor in the record in order to give the parties the opportunity to explore or rebut them. Section 205 of the Communications Act authorizes the Commission to prescribe just and reasonable charges after full opportunity for hearing. Any rates proposed by the Common Carrier Bureau in the course of a hearing will, of course, be a matter of public record. Rates prescribed by the Commission in instructions for preparation of an Initial Decision will be Commission rates in law and in fact and not those of a bureau of the Commission. Also, we cannot agree to NAM-ATA's suggestion that the words "detrimental" and "existing" in Issue 3 of the designation Order[1] be modified or deleted in view of the fact that the issue as presently worded does not, in our opinion, contravene section 201(b), from which it was derived, or any other section of the Communications Act of 1934, as amended.

8. Several requests of the parties have become moot through changed circumstances since their proposal. ARinc's request to be made a "party-patron" will be dismissed in view of the granting of its petition for intervention by the Chief Hearing Examiner by Order released October 24, 1961 (FCC 61M-1685, Mimeo No. 11611). ARinc's request that the suspension of the TELPAK tariff revisions of August 3, 1961 be revoked and Motorola's request that such suspension be extended have been rendered moot by the termination of such suspension on December 8, 1961; therefore such requests will be dismissed.

Accordingly, it is ordered, This 6th day of February 1962, that the requests and suggestions contained in all of the above-described pleadings (par. 1, supra) are denied; and

It is further ordered, That the antepenultimate ordering clause in the Commission's Order, released September 8, 1961 (FCC 61-1039, Mimeo No. 9425, 26 F.R. 8607) be supplemented by the addition at the end thereof of the following words: "since the Commission finds that due and timely execution of its functions imperatively and unavoidably so requires."

Released: February 12, 1962.

[Docket No. 14518; FCC 62-158]

DOLPH-PETTEY BROADCASTING CO. (KUDE)

Order Designating Application for Hearing on Stated Issues

In re application of Dolph-Pettey Broadcasting Company (KUDE), Oceanside, California, Docket No. 14518, File No. BP-14324; Has: 1320 kc, 500 w, DA-1, U, Requests: 1320 kc, 5 kw, 500 w-LS, DA-2, U; for construction permit.

At a session of the Federal Communications Commission held at its offices in Washington, D.C., on the 6th day of February 1962;

The Commission having under consideration the above-captioned and described application;

It appearing that except as indicated by the issues set forth below, the applicant is legally, financially and otherwise qualified to construct and operate Station KUDE as proposed; and

It further appearing that, the following matters are to be considered in connection with the aforementioned issues specified below:

1. The proposed operation of KUDE would cause adjacent channel nighttime interference to the existing operation of Station KFAC, Los Angeles, California.

2. The applicant's proposed operation would be limited, nighttime, to its 10.3 mv/m contour. Area and population losses within the normally protected contour would, according to the applicant's data, be 78.5 percent and 81.3 percent respectively. Although KUDE provides the only nighttime service to the city of Oceanside and therefore falls within an express exception to § 3.28(d) of the rules—it cannot be determined, on the basis of data submitted, that the KUDE nighttime proposal would represent an efficient utilization of the requested channel, in accordance with § 3.24(b) of the rules.

3. According to data submitted by the applicant, 608 persons reside within the 1000 mv/m contour of the proposed daytime operation. Since this total (approximately 3 percent of population within the 25 mv/m contour) exceeds that permitted by § 3.24(g) of the Commission's rules, it will be necessary to determine whether circumstances warrant a waiver of the rules.

4. By petition filed March 3, 1961, E. L. Cord tr/as Los Angeles Broadcasting Company requested that the instant application be designated for hearing because of expected interference from the proposed KUDE operation and because the predicted 2 mv/m contour of KUDE will overlap the existing 25 mv/m contour of KFAC. Accordingly, the licensee of KFAC must be made a party respondent to the hearing ordered below.

It further appearing that in view of the outstanding proposed rule making proceeding in Docket No. 14419 with respect to pre-sunrise operation with daytime facilities, any grant of the instant proposal prior to a final decision in Docket No. 14419 should be appropriately conditioned.

It further appearing that, in view of the foregoing, the Commission is unable to make the statutory finding that a grant of the subject application would serve the public interest, convenience and necessity, and is of the opinion that the application must be designated for hearing on the issues set forth below:

It is ordered, That, pursuant to section 309(e) of the Communications Act of 1934, as amended, the instant application is designated for hearing at a time and place to be specified in a subsequent Order, upon the following issues:

1. To determine the areas and populations which may be expected to gain or lose primary service from the proposed operation of Station KUDE and the availability of other primary service to such areas and populations.

2. To determine whether the instant proposal of KUDE would cause objectionable interference to Station KFAC, Los Angeles, California or any other existing standard broadcast stations, and, if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other primary service to such areas and populations.

3. To determine whether, because of interference received, the proposed nighttime operation of Station KUDE would be consistent with § 3.24(b) of the Commission rules.

4. To determine whether the instant proposal of KUDE is in compliance with § 3.24(g) of the Commission rules concerning population within the 1000 mv/m contour, and, if not, whether circumstances exist which would warrant a waiver of said section.

5. To determine whether overlap of the 2 and 25 mv/m contour would occur between the instant proposal of KUDE and KFAC in contravention of § 3.37 of the Commission rules, and if so, whether circumstances exist which would warrant a waiver of said section.

6. To determine, in the light of the evidence adduced pursuant to the foregoing issues, whether a grant of the instant application would serve the public interest, convenience and necessity.

It is further ordered, That, E. L. Cord tr/as Los Angeles Broadcasting Company, licensee of Station KFAC, Los Angeles, California is made a party to the proceeding.

It is further ordered, That any grant of the instant proposal, prior to a final decision in Docket No. 14419 will be conditioned as follows: "Pending a final decision in Docket No. 14419 with respect to pre-sunrise operation with daytime facilities, the present provisions of § 3.87 of the Commission rules, are not extended to this authorization, and such operation is precluded."

It is further ordered, That to avail itself of the opportunity to be heard, the applicant and party respondent herein, pursuant to § 1.140 of the Commission rules, in person or by attorney, shall, within 20 days of the mailing of this order, file with the Commission in triplicate, a written appearance stating an intention to appear on the date fixed

for the hearing and present evidence on the issues specified in this order.

It is further ordered, That the applicant herein shall, pursuant to section 311(a)(2) of the Communications Act of 1934, as amended, and § 1.362(b) of the Commission's rules, give notice of the hearing, within the time and in the manner prescribed in such rule, and shall advise the Commission of the publication of such notice as required by § 1.362(g) of the rules.

Released: February 12, 1962.

[Docket Nos. 14516, 14517; FCC 62-155]

JOHN E. GRANT AND ALLEN C. BIGHAM, JR.

Order Designating Applications for Consolidated Hearing on Stated Issues

In re applications of John E. Grant, Salinas, California, Docket No. 14516, File No. BP-13911, Requests: 980 kc, 1 kw, DA, Day; Allen C. Bigham, Jr., Salinas, California, Docket No. 14517, File No. BP-14891, Requests: 980 kc, 1 kw, DA, Day; for construction permits.

At a session of the Federal Communications Commission held at its offices in Washington, D.C., on the 6th day of February 1962;

The Commission having under consideration the above-captioned and described applications;

It appearing that, except as indicated by the issues specified below, each of the instant applicants is legally, technically, financially, and otherwise qualified to construct and operate the instant proposals; and

It further appearing that the following matters are to be considered in connection with the aforementioned issues specified below:

1. Each of the subject applicants requests operation on 980 kc, with a power of 1 kilowatt, daytime only, at Salinas, California, and the applications are therefore mutually exclusive.

2. By notarized letter and accompanying engineering affidavit submitted November 22, 1961, KEAP Broadcasting Company, Inc., licensee of Station KEAP, Fresno, California, has requested that the subject application of John E. Grant be designated for hearing and KEAP be made a party thereto. KEAP alleges that measurement data taken on three radials from KEAP indicates that the John E. Grant proposal would cause interference to the KEAP existing operation resulting in an area loss of 3,082 square miles within the KEAP normally protected service contour. No figures regarding population loss have been submitted. KEAP does not indicate that interference would be received from the Allen C. Bigham, Jr. proposal. However, on the basis of the measurement data submitted, it appears that KEAP would also receive interference from the proposal of Allen C. Bingham, Jr. An appropriate issue regarding interference to KEAP is included below and KEAP Broadcasting Company, Inc. is made a party respondent herein.

It further appearing that in view of the outstanding proposed rule making proceeding in Docket No. 14419 with respect to pre-sunrise operation with daytime facilities, any grant of the proposals in this proceeding, prior to a final decision in Docket 14419, should be appropriately conditioned.

It further appearing that, in view of the foregoing, the Commission is unable to make the statutory finding that a grant of the subject applications would serve the public interest, convenience and necessity, and is of the opinion that the applications must be designated for hearing in a consolidated proceeding upon the issues set forth below:

It is ordered, That pursuant to section 309(e) of the Communications Act of 1934, as amended, the instant applications are designated for hearing in a consolidated proceeding, at a time and place to be specified in a subsequent Order, upon the following issues:

1. To determine the areas and populations which would receive primary service from each of the subject proposals and the availability of other primary service to such areas and populations.

2. To determine whether the instant proposals would cause objectionable interference to Station KEAP, Fresno, California, or any other existing standard broadcast stations, and, if so, the nature and extent thereof, and the availability of other primary service to such areas and populations.

3. To determine, on a comparative basis, which of the instant proposals would better serve the public interest, convenience and necessity in light of the evidence adduced pursuant to the foregoing issues and the record made with respect to the significant differences between the applicants as to:

(a) The background and experience of each having a bearing on the applicant's ability to own and operate its proposed station.

(b) The proposals of each of the applicants with respect to the management and operation of the proposed station.

(c) The programming service proposed in each of the said applications.

4. To determine, in the light of the evidence adduced pursuant to the foregoing issues, which, if either, of the instant applications should be granted.

It is further ordered, That KEAP Broadcasting Company, Inc., licensee of Station KEAP, Fresno, California, is made a party to the proceeding.

It is further ordered, That in the event of a grant of the application of Alfred C. Bigham, Jr., the construction permit shall contain a condition requiring Bigham to sever connections with Station KDON, Salinas, California.

It is further ordered, That any grant of the proposals in this proceeding, prior to a final decision in Docket No. 14419, will be conditioned as follows: "Pending a final decision in Docket No. 14419 with respect to pre-sunrise operation with daytime facilities, the present provisions of § 3.87 of the Commission rules are not extended to this authorization, and such operation is precluded."

It is further ordered, That to avail themselves of the opportunity to be heard, the applicants and party respondent herein, pursuant to § 1.140 of the Commission rules, in person or by attorney, shall within 20 days of the mailing of this Order, file with the Commission in triplicate, a written appearance stating an intention to appear on the date fixed for the hearing and present evidence on the issues specified in this Order.

It is further ordered, That the applicants herein shall, pursuant to section 311(a)(2) of the Communications Act of 1934, as amended, and § 1.362(b) of the Commission rules, give notice of the hearing, either individually, or if feasible, jointly, within the time and in the manner prescribed in such rule, and shall advise the Commission of the publication of such notice as required by § 1.362(g) of the rules.

It is further ordered, That the issues in the above-captioned proceeding may be enlarged by the examiner, on his own motion or on petition properly filed by a party to the proceeding, and upon sufficient allegations of fact in support thereof, by the addition of the following issue: To determine whether the funds available to the applicant will give reasonable assurance that the proposals set forth in the application will be effectuated.

Released: February 12, 1962.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] BEN F. WAPLE,
Acting Secretary.

[Docket No. 13313 etc.; FCC 62-150]

IOWA CITY BROADCASTERS, INC., ET AL.

Order Designating Applications for Consolidated Hearing on Stated Issues

In re applications of Iowa City Broadcasters, Inc., Iowa City, Iowa, Docket No. 13313, File No. BP-13877, Requests: 1510 kc, 250 w, Day, Class II; WKAI Broadcasting Company (WKAI), Macomb, Illinois, Docket No. 14508, File No. BP-13902, Has: 1510 kc, 250 w, Day, Class II, Requests: 1510 kc, 1 kw, 250 w (CH), Day, Class II; Iowa Falls Broadcasting Corporation, Iowa Falls, Iowa, Docket No. 14509, File No. BP-14618, Requests: 1510 kc, 500 w, Day, Class II; for construction permits.

At a session of the Federal Communications Commission held at its offices in Washington, D.C., on the 6th day of February 1962;

The Commission having under consideration the above-captioned and described applications;

It appearing that, except as indicated by the issues specified below, each of the instant applicants is legally, technically, financially, and otherwise qualified to construct and operate the instant proposals; and

It further appearing that the following matters are to be considered in connection with the aforementioned issues specified below:

(A) The proposal of Iowa City Broadcasters:

1. Causes interference to and receives interference from the following existing standard broadcast stations and proposals:

To WKAI, Macomb, Ill., from WKAI.
To BP-13902 (WKAI), from BP-13902 (WKAI).
To BP-14618, Iowa Falls, Iowa, from BP-14618.

2. Johnson County Broadcasting Corporation, licensee of Station KXIC, Iowa City, Iowa, by letter of February 6, 1961, suggested to the Commission that the application of Iowa City Broadcasters, Inc. be rejected on several grounds. The letter does not meet the requirements of section 309(d) of the Communications Act of 1934, as amended or of § 1.359(1) of the Commission rules for a petition to deny, nor does it contain any allegations of fact, showing that a grant of this application would be prima facie inconsistent with the public interest. However, since KXIC is the only commercial standard broadcast station in Iowa City, we believe that KXIC should be made a party to the proceeding.

(B) The proposal of WKAI Broadcasting Company (WKAI):

1. Causes interference to and receives interference from the following standard broadcast proposal:

To BP-13877, Iowa City, Iowa, from BP-13877.

2. On February 2, 1961, WLAC, Inc., licensee of Station WLAC, Nashville, Tennessee, filed a Petition to Deny the instant application of WKAI on the grounds that excessive radiation would result to its operation during critical hours. By amendment of May 19, 1961, the subject proposal was amended reducing power from 500 w to 250 w during critical hours, eliminating daytime skywaves interference to WLAC. Therefore the petition must be denied.

(C) The proposal of Iowa Falls Broadcasting Corporation causes interference to and receives interference from the following standard broadcast proposal:

To BP-13877, Iowa City, Iowa, from BP-13877.

It further appearing that in view of the outstanding proposed rule making proceeding in Docket No. 14419 with respect to pre-sunrise operation with daytime facilities, any grant of the proposals in this proceeding prior to a final decision in Docket 14419 should be appropriately conditioned.

It further appearing that, in view of the foregoing, the Commission is unable to make the statutory finding that a grant of the subject applications would serve the public interest, convenience and necessity and is of the opinion that the applications must be designated for hearing in a consolidated proceeding upon the issues set forth below:

It is ordered, That, pursuant to section 309(e) of the Communications Act of 1934, as amended, the instant applications are designated for hearing in a consolidated proceeding, at a time and place to be specified in a subsequent Order, upon the following issues:

1. To determine the areas and populations which would receive primary service from the proposals of Iowa City Broadcasters, Inc. and Iowa Falls Broadcasting Corporation and the availability of other primary service to such areas and populations.

2. To determine the areas and populations which may be expected to gain or lose primary service from the proposed operations of Station WKAI and the availability of other primary service to such areas and populations.

3. To determine the nature and extent of the interference, if any, that each of the instant proposals would cause to and receive from each other and the interference that each of the instant proposals would receive from all other existing standard broadcast stations, the areas and populations affected thereby, and the availability of other primary service to the areas and populations affected by interference from any of the instant proposals.

4. To determine whether the instant proposal of Iowa City Broadcasters, Inc., would cause objectionable interference to Station WKAI, or any other existing standard broadcast stations, and, if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other primary service to such areas and populations.

5. To determine whether the interference received by the proposal of Iowa City Broadcasters, Inc., and the proposal of WKAI, Inc., from any other proposals herein and any existing stations would affect more than ten percent of the population within its normally protected primary service area in contravention of § 3.28(d)(3) of the Commission rules and, if so, whether circumstances exist which would warrant a waiver of said section.

6. To determine, in the light of section 307(b) of the Communications Act of 1934, as amended, which of the instant proposals would best provide a fair, efficient and equitable distribution of radio service.

7. To determine, in the light of the evidence adduced pursuant to the foregoing issues, whether a grant of the instant applications would serve the public interest, convenience and necessity.

It is further ordered, That the petition of WLAC, Inc., is hereby dismissed.

It is further ordered, That Johnson County Broadcasting Corporation, licensee of Station KXIC, Iowa City, Iowa is made a party to the proceeding.

It is further ordered, That, in the event of a grant of the proposal of WKAI Broadcasting Company, File No. BP-13902, permittee shall accept such interference as may result in the event of a grant of an application by Progressive Broadcasting Corporation, File No. BP-14329, requesting the facilities 1510 kc, 250 w, DA, Day at Highland, Illinois.

It is further ordered, That any grant of the proposals in this proceeding, prior to a final decision in Docket No. 14419, will be conditioned as follows: "Pending a final decision in Docket No. 14419 with respect to pre-sunrise operation with daytime facilities, the present provisions of § 3.87 of the Commission rules are not extended to this authorization, and such operation is precluded."

It is further ordered, That to avail themselves of the opportunity to be heard, the applicants and the party respondent herein, pursuant to § 1.140 of the Commission rules, in person or by attorney, shall within 20 days of the mailing of this order, file with the Commission in triplicate, a written appearance stating an intention to appear on the date fixed for the hearing and present evidence on the issues specified in this order.

It is further ordered, That the applicants herein shall, pursuant to section 311(a)(2) of the Communications Act of 1934, as amended, and § 1.362(b) of the Commission rules, give notice of the hearing either individually, or, if feasible, jointly, within the time and in the manner prescribed in such rule, and shall advise the Commission of the publication of such notice as required by § 1.362(g) of the rules.

It is further ordered, That, the issues in the above-captioned proceeding may be enlarged by the Examiner, on his own motion or on petition properly filed by a party to the proceeding, and upon sufficient allegations of fact in support thereof, by the addition of the following issue: To determine whether the funds available to Iowa City Broadcasters, Inc., and Iowa Falls Broadcasting Corporation will give reasonable assurance that the proposals set forth in the application will be effectuated.

Released: February 12, 1962.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] BEN F. WAPLE,
Acting Secretary.

[Docket No. 14522; FCC 62-164]

MERCHANTS BROADCASTING SYSTEM OF DALLAS, INC.

Order To Show Cause

In the matter of revocation of license and subsidiary communciations authorization of Merchants Broadcasting System of Dallas, Inc., for FM Broadcast Station KCPA, Dallas, Texas, Docket No. 14522.

The Commission having under consideration (1) the outstanding license issued to Merchants Broadcasting System of Dallas, Inc., to operate FM Broadcast Station KCPA on a frequency of 94.1 Megacycles (Channel 231) at Dallas, Texas; (2) the Subsidiary Communications Authorization issued to the licensee to conduct a background music service; (3) the Commission's letter to Merchants Broadcasting System of Dallas, Inc. of November 15, 1961; (4) the letter of Robb Stewart, Esquire, attorney for

Charles E. Ames of November 17, 1961; and (5) the Commission's letter to Robb Stewart, Esquire, of November 22, 1961; and

It appearing that Merchants Broadcasting System of Dallas, Inc., is in financial difficulty; that the studio which was also the remote control point, and the transmitter site for Station KCPA are no longer available to the licensee; that the carrier-final amplifier for Station KCPA was turned off on or about August 12, 1961; and that Station KCPA has not operated, as licensed, since that time; and

It further appearing, that (1) since August 5, 1961, the licensee has not maintained either program logs or operating logs for Station KCPA, all in violation of §§ 3.281 (a) and (b), and 3.295 (g) and (h) of the Commission's rules and regulations; (2) that during the period from at least August 9, 1961, to August 12, 1961, the transmitter for Station KCPA was operated without an operator in attendance at either the remote control point or transmitter, all in violation of § 3.265 of the Commission's rules and regulations; (3) that during the same period the station was in operation without a frequency or modulation monitor, all in violation of §§ 3.252(a) and 3.253 (a) of the Commission's rules and regulations; (4) during the same period the station was operated without CONELRAD protection in violation of § 3.931 of the Commission's rules and regulations; (5) beginning on August 8, 1961, and continuing to at least August 12, 1961, the main carrier of Station KCPA (FM) was modulated with the same programming as presented on the station's subcarrier, all without any station identification and therefore in violation of §§ 3.287 and 3.295(e) of the Commission's rules and regulations; (6) on August 12, 1961, the final amplifier of the transmitter was turned off without any written notice to the Engineer-in-Charge at Dallas, Texas, or to the Washington offices of the Commission, as required by § 3.261(b) of the Commission's rules and regulations; (7) since August 12, 1961, Station KCPA either has been operating with reduced power or has been silent for a period of more than ten days without having requested or having obtained permission to do so, all in violation of § 3.261(b) of the Commission's rules and regulations; and (8) the station continues to remain silent in violation of § 3.261(a) of the Commission's rules and regulations; and

It further appearing that the aforesaid violations of the Commission's rules and regulations were willful and repeated; and

It further appearing that on November 15, 1961, the licensee was sent a letter by the Commission informing it of the afore-mentioned violations, calling the licensee's attention to the provisions of § 3.271 of the Commission's rules and regulations, and directing the licensee to forward its license and other instruments of authorization to the Commission's offices at Washington, D.C., in no event later than ten days from the date of the letter; and

It further appearing that the licensee has willfully failed to comply with the directions contained in the Commission's letter of November 15, 1961 in that it has failed to transmit its license and other instruments of authorization to the Commission's offices at Washington, D.C. as directed; and neither the licensee nor anyone on its behalf has submitted any material contradicting the conclusions that Station KCPA was permanently off the air insofar as the licensee was concerned, that the licensee of Station KCPA was not financially qualified to continue the operation of Station KCPA, and that during the licensee's operation of Station KCPA there were numerous violations of the Commission's rules as stated above;

It is ordered, This 6th day of February 1962, that pursuant to sections 312(a)(2), 312(a)(3), 312(a)(4), and 312(c) of the Communications Act of 1934, as amended, Merchants Broadcasting System of Dallas, Inc., is directed to show cause why an order revoking its license and subsidiary communications authorization for FM Broadcast Station KCPA, Dallas, Texas, should not be issued, and to appear and give evidence with respect thereto at a hearing [1] to be held in the Commission's offices at Washington, D.C., at a time and place to be specified by subsequent order, said time in no event to be less than 30 days after receipt of this order; and

It is further ordered, That the Acting Secretary of the Commission send a copy of this Order by Certified Mail—Return Receipt Requested to Merchants Broadcasting System of Dallas, Inc.

Released: February 12, 1962.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] BEN F. WAPLE,
Acting Secretary.

[F.R. Doc. 62-1578; Filed, Feb. 14, 1962; 8:51 a.m.]

[1] Section 1.77(c) of the Commission's rules provides that a licensee in order to avail itself of the opportunity to be heard shall, in person or by its attorney file with the Commission, within thirty days of the receipt of the Order to Show Cause, a written statement stating that it will appear at the hearing and present evidence on the matter specified in the Order. In the event it would not be possible for respondent to appear for hearing in the proceeding scheduled to be held in Washington, D.C., he should advise the Commission of the reasons for such inability within five days of the receipt of this Order. If the licensee fails to file an appearance within the time specified, the right to a hearing shall be deemed to have been waived. See § 1.78(a) of the Commission's rules as amended December 12, 1960. Where a hearing is waived, a written statement in mitigation or justification may be submitted within thirty days of the receipt of the Order to Show Cause. See § 1.78(b) of the Commission's rules as amended December 12, 1960. In the event the right to a hearing is waived, the Chief Hearing Examiner will terminate the hearing proceeding and certify the case to the Commission. Thereupon the matter will be determined by the Commission in the regular course of business and an appropriate order will be entered. See § 1.78 (c), (d), and (e) of the Commission's rules as amended December 12, 1960.

[Docket No. 13649 etc.; FCC 62-139]

RADIO CARMICHAEL ET AL.

Memorandum Opinion and Order

In re applications of Radio Carmichael, Sacramento, California, Docket No. 13649, File No. BP-12031; Jack L. Powell and Alyce M. Powell, Joint Tenants (KVON), Napa, California, Docket No. 13651, File No. BP-12306; Golden Gate Broadcasting Corporation (KSAN), San Francisco, California, Docket No. 13652, File No. BP-12376; John Matranga, d/b as Trans-Sierra Radio, Roseville, California, Docket No. 13653, File No. BP-12938; for construction permits.

1. The Commission has before it for consideration (1) the matters of record in the above-entitled proceeding; (2) a letter from Riley R. Gibson, president of Cal-Val Radio, Inc. (KXOA), to the Commission filed June 27, 1961, and pleadings filed in response thereto; (3) a joint petition to intervene, reopen record, remand and enlarge issues, filed by John T. Carey, Inc. (KROY) and Cal-Val Radio, Inc., on August 4, 1961, and all pleadings properly filed in response thereto; (4) a petition to sever filed by Jack L. Powell and Alyce M. Powell, Joint Tenants (KVON) and Golden Gate Broadcasting Corporation (KSAN) on September 8, 1961, and pleadings filed in response thereto.

2. A brief review of the background history will permit a better understanding of the instant proceeding, which originally involved the applications of (a) Radio Carmichael (Carmichael) for a new standard broadcast station to operate on 1430 kc, 500 w, DA at Sacramento, California; (b) John Matranga, d/b as Trans-Sierra Radio (Matranga) for a similar facility at Roseville, California; (c) Jack L. Powell and Alyce M. Powell, Joint Tenants (KVON) to increase the daytime power of Station KVON, Napa, California, from 500 watts to one kilowatt and change its directional antenna daytime; (d) Golden Gate Broadcasting Corporation (KSAN) to increase the daytime power of Station KSAN, San Francisco, California, from 250 watts to one kilowatt; and (e) Ashley Robison and Gordon A. Rogers, d/b as Redwood City Broadcasting Company (Redwood) for a new standard broadcast station to operate on 1430 kc, 1 kw, D, DA, at Palo Alto, California. Redwood's application was dismissed as a result of an agreement with KSAN, and Matranga entered into an agreement with Carmichael providing for the dismissal of Matranga's application, which agreement the Examiner approved subject to review by the Commission. The Matranga-Carmichael agreement provided for the reimbursment of Matranga's out-of-pocket expenses and gave him an option to purchase at book value 25 percent of Carmichael's stock, said option to extend to August 15, 1964.

3. Hearing Examiner Walther W. Guenther, proposed grant of the three remaining applications. Subsequent to the Initial Decision, a letter was received on June 27, 1961, from Riley R. Gibson, president of Cal-Val Radio, Inc., licensee of Station KXOA, Sacramento, advising the Commission that Matranga was a creditor of Station KGMS, Sacramento, and asserting that it would be unfair to allow him to have a 25 percent interest in Carmichael at the same time.

4. In response, Carmichael took the position that Matranga does not now have an interest in Carmichael but only an option; that it would be premature to explore the duopoly question until such time as Matranga does exercise his option; and that Carmichael is willing, prior to the transfer of any stock to Matranga, to submit the entire transaction to the Commission for its approval.

5. The Bureau filed a pleading containing an exception recommending that the grant to Carmichael be made subject to the condition that Carmichael "shall not issue or transfer any of its stock to John Matranga, or otherwise accord to him any ownership interest or status, without prior approval of the Commission." The timely filing of this exception prevented the Initial Decision from becoming final pursuant to § 1.153. Carmichael indicated that it had no objection to the inclusion of the condition recommended by the Broadcast Bureau.

6. On August 4, 1961, John T. Carey, Inc. (KROY) and Cal-Val Radio, Inc. (KXOA), filed a joint petition requesting that the Commission grant them leave to intervene, reopen the record, remand the proceeding to the Examiner, and enlarge the issues to include a § 3.35(a) overlap issue with respect to Carmichael's president, Joseph E. Gamble, who is the owner of Station KJOY, Stockton, California.

7. Thereafter, KVON and KSAN filed a joint petition to sever, requesting that in the event the Commission grants any part of the petition to intervene or decides to enlarge the issues on its own motion, their applications be immediately severed from the instant proceeding and granted.

INTERVENTION

8. The only explantion offered by Carey and Cal-Val for their failure to seek intervention within the time allowed therefor by the Communications Act and the Commission's rules, was that they were of the view that all the facts they now wish to present would be adduced at the hearing. However, in that no issue in the proceeding was directed to the facts in question, this argument is not persuasive and does not establish good cause for the untimeliness of the petition to intervene, which will be denied.

9. Nevertheless, the pleadings before us raise certain questions which must be resolved before it can be determined whether a grant of the various applications would be in the public interest.

THE MATRANGA DUOPOLY ISSUE

10. The pleadings before us indicate that by the terms of the Matranga-Carmichael agreement, Matranga, in return for the dismissal of his application, would have an option to obtain a 25 percent interest in Carmichael, while at the same time retaining a substantial creditor relationship to competing Station KGMS in the same community. Section 311(c) of the Communications Act precludes the effectuation of an agreement between mutually-exclusive applicants for the withdrawal of one of them without Commission approval. However, since the facts concerning Matranga's relationship with KGMS are not a matter of record, the Commission is not now in a position to approve or disapprove the agreement, or to consider the propriety of the condition recommended by the Broadcast Bureau. Consequently, the record will be reopened in order that evidence going to these matters may be adduced. As a matter of administrative convenience, we deem it appropriate that the further proceedings herein be conducted in accordance with the procedural rules now prevailing rather than those which obtained at the time of the agreement. Accordingly, pursuant to § 1.316 and section 0.224(b)(10) this matter will be remanded to the Chief Hearing Examiner.

THE GAMBLE OVERLAP ISSUE

11. Carey and Cal-Val, having been denied intervention, lack standing to seek enlargement of the issues and their request to add a § 3.35 issue will be denied. Nor will we add the issue on our own motion. Without reaching the policy question of whether we would have added the issue had the facts herein been alleged in a timely pleading, we note that the facts have been readily available and could have been timely directed to our attention in the exercise of due diligence.

PETITION TO SEVER

12. The record shows that no new interference would be caused to the proposed Carmichael operation by the proposed KVON operation. As for the proposed KSAN operation, there was never any interference problem between it and the proposed Carmichael operation. No objections have been filed to the petition to sever, and since petitioners are qualified in all other respects, the severance and grant of petitioners' applications is in the public interest.

Accordingly, it is ordered, This 31st day of January 1962, that the petition to intervene, reopen record, remand and enlarge issues, filed by John T. Carey, Inc. (KROY) and Cal-Val Radio, Inc. (KXOA), on August 4, 1961, is denied; and

It is further ordered, That the record in this proceeding is reopened and the proceeding remanded to the Chief Hearing Examiner for further proceedings consistent with the foregoing; and

It is further ordered, That the petition of Jack L. Powell and Alyce M. Powell, Joint Tenants (KVON) and Golden Gate Broadcasting Corporation (KSAN) filed September 8, 1961, is granted; that the Commission's Order (FCC 60-808), released July 13, 1960, in the above-entitled proceeding is amended by removing from hearing the application (File No. BP-12306) of Jack L. Powell and Alyce M. Powell, Joint Tenants (KVON) and the application (File No. BP-12376) of Golden Gate Broadcasting Corporation (KSAN); and that said applications of Jack L. Powell and Alyce M. Powell, Joint Tenants (KVON) and Golden Gate Broadcasting Corporation (KSAN) are granted; and

It is further ordered, That Radio Carmichael's request for leave to file opposition, filed on September 11, 1961, is denied.

Released: February 1, 1962.

FEDERAL COMMUNICATIONS COMMISSION,[1]
[SEAL] BEN F. WAPLE,
Acting Secretary.

[F.R. Doc. 62-1579; Filed, Feb. 14, 1962; 8:51 a.m.]

[Docket Nos. 13227, 13251; FCC 62-140]

SEVEN LOCKS BROADCASTING CO. AND TENTH DISTRICT BROADCASTING CO.

Memorandum Opinion and Order Amending Issues

In re applications of Seven Locks Broadcasting Company, Potomac-Cabin John, Maryland, Docket No. 13227, File No. BP-11877; Mary Cobb and Richard S. Cobb, d/b as Tenth District Broadcasting Company, McLean, Virginia, Docket No. 13251, File No. BP-13153; for construction permits.

1. The Commission has under consideration (a) the Initial Decision herein;[2] (b) the exceptions and associated briefs of the parties; and (c) all other matters of record herein. Each applicant seeks a construction permit for Class III AM facilities on the frequency 950 kc; each specifies a power of 1 kw, a directional antenna, and daytime only operation. The applications are mutually exclusive and only one may be granted. The Examiner bases her ultimate preference for the McLean applicant on considerations arising under section 307(b) of the Communications Act. For reasons hereinafter stated, the Commission is remanding the proceeding to the Examiner for further hearing.

2. In its original application, Tenth District Broadcasting Company specified as its station location McLean, Virginia. It represented that its studio would be located in McLean, and that its transmitter would be located "near McLean" at Georgetown Pike and Balls Hill Road. It stated that the area in the vicinity of the proposed transmitter site "is rural in nature", and it made reference to an aerial photograph contained in the application to support that fact. The "unincorporated place" McLean (pop. 1,094) is listed in the 1950 Census, and no prehearing letter to Tenth District questioned that McLean is a "community" within the meaning of section 307(b) of the Act, or a "particular city, town, political subdivision, or community" within the meaning of § 3.30(a) of the Commission's rules.

3. At the hearing, Tenth District described the McLean community as "that part of Fairfax County which is bounded by the Potomac River on the north, by

[1] Dissenting statements of Commissioners Lee, Ford, and Bartley filed as parts of the original document.

[2] Initial Decision of Hearing Examiner Elizabeth C. Smith, released July 17, 1961 (FCC 61D-108, Mimeo No. 7912).

the Arlington County Line and Falls Church on the east, by Route 7 on the south and by Difficult Run on the west." Tenth District's consulting engineer, wife of one of the partners, testified that she had in mind "the little hamlet known as McLean" when she described (in the application) the transmitter site as "near McLean." The transmitter site, rural though it was said to be, is within the boundaries of the McLean community contended for at the hearing. As described by Tenth District, the McLean community had a 1960 population of 28,952 persons in an area of 29.9 square miles.

4. Seven Locks Broadcasting Company first specified a station location of Potomac, Maryland. Following a prehearing letter requesting information which would show that Potomac "is an integrated community", Seven Locks amended its application to specify Potomac-Cabin John, Maryland, as its station location. It represented that its transmitter location would be at the corner of River Road and Seven Locks Road, "squarely between the two communities of Potomac and Cabin John." It explained that their "present small size" and "their dissimilarity" justify the dual city designation as provided for in § 3.30(b) of the rules. Additionally, it stated that programs would originate from both Potomac and Cabin John, and that their potential justifies a special service for "each community." Neither Potomac nor Cabin John is listed in the 1950 Census, and a second prehearing letter to Seven Locks stated that information theretofore submitted by the applicant was insufficient to establish that they were communities within the meaning of section 307(b). The problem remained unresolved, and the Commission's Order designating the Seven Locks and Tenth District applications for hearing specified an issue as to whether the Seven Locks proposal "would serve what is a community within the meaning of section 307(b)."

5. At the hearing, Seven Locks described its community or communities as including the 10th Election District of Montgomery County;[2] that part of the Maryland National Capital Parks and Planning Commission's Planning Area No. IV which extends north of the boundary of the 10th Election District;[3] and Planning Area VI–C–4.[4] The area contended for by Seven Locks is bounded on the south by the Potomac River; on the southeast by Cabin John Creek; on the east by the eastern boundary of Election District 10, the eastern boundary of Planning Area IV, and the proposed route of Highway 240, "all of which run close to each other and parallel;" on the north by the northern boundaries of Election District 10 and Planning Area IV (the proposed outer circumferential highway); and on the west by the boundary between the 10th and 6th Election Districts. The communities were said to encompass 34 square miles and a 1960 population of 5,869, 4,360 residing in Potomac and 1,509 residing in Cabin John.

6. Based on the foregoing, it would appear that at the hearing each applicant materially departed from the statements and representations contained in its application, thereby raising a serious question under § 3.30(a) of the Commission's rules. Section 3.30(a) provides that standard broadcast stations will be licensed to serve primarily "a particular city, town, political subdivision, or community."[5] In neither case here has the applicant established that the area (or areas) claimed is a particular city, town or political subdivision, and there is considerable doubt that it has established that such area (or areas) is a particular community within the purview of the above rule or existing Commission cases. On the basis of the record thus far compiled, there is little to dispel the suspicion that the "communities" contended for by the respective applicants exist primarily in the minds of such applicants: in neither case has the applicant been able to muster anything but unofficial and sporadic concurrence or recognition by miscellaneous groups using the same or similar boundaries for their own specialized purposes and convenience.[6]

7. Because exact boundaries for the named locations have never been officially prescribed, the applicants apparently felt free at the hearing, to push to the farthest points for which any kind of logical support could be summoned.[7] Thus, neither crossed the Potomac River and neither crossed a county line; but Seven Locks did not hesitate to bite into the Bethesda (7th) and Rockville (4th) Election Districts, and Tenth District advanced to the city limits of incorporated Falls Church. In the Commission's view, neither applicant has allayed the distinct suspicion that other locations could make equal or more convincing claims to the territories and peoples contended for by such applicant.[8]

8. Were the Commission to permit either or both of the applicants here to arbitrarily establish the boundary lines of the "communities" respectively claimed, in every future case involving an unincorporated location the opportunity would be open for the applicant to claim every other unincorporated concentration of population in the county. To thus introduce gerrymandering or metes-and-bounds descriptions to our section 307(b) determinations would be to seriously hamper the effective administration of that provision of the Communications Act. Accordingly, the parties are advised that each place of station location applied for must be established as a particular city, town, political subdivision or community, i.e., an identifiable population grouping separate and distinct from all others; and that the geographic boundaries of the location or locations contended for must not enclose or contain areas or populations more logically identified as, or associated with, some other location. Any applicant failing in the foregoing burdens or requirements will be disqualified from receiving a grant under § 3.30(a) of the Commission's rules.

9. The Commission has noted that the two transmitter sites proposed herein are only 3.5 miles apart; and that the two antenna patterns are similar and have in common substantial areas and populations, all of which are in the 1960 Washington Standard Metropolitan Statistical Area, and a good many of which are in the city of Washington itself. Additionally, where Tenth District claims that it would furnish a first outlet for local self-expression to 23,000 more persons than Seven Locks,[9] the latter would bring new service to 90,000 more persons than the former. On the basis of the foregoing and other similarities obtaining with respect to the two proposals, the possibility exists that neither applicant will be able to establish a determinative preference under section 307(b). Accordingly, the Commission is also adding to the proceeding a contingent comparative issue to insure that a determinative basis for a choice will exist between the two applicants.[10]

10. To accommodate the foregoing, the Commission is revising the 307(b) issue presently existing in this proceeding. With the revised 307(b) issue, and with the addition of the § 3.30(a) issue mentioned above, there is no longer required the present issue inquiring into the community status of Potomac-Cabin John. Accordingly, that issue is being deleted from the proceeding.[11]

---

[2] The 10th Election District is also known as the Potomac Election District.

[3] A corner of Planning Area No. IV lies in the 4th (Rockville) Election District.

[4] Planning Area VI–C–4 is said to be the Cabin John community, and it lies partially within the 10th Election District and partially within the 7th (Bethesda) Election District.

[5] Paragraph (b) of § 3.30 permits the licensing of a station to serve two or more such entities.

[6] See paragraph 7 of the Examiner's Conclusions, set forth at page 14 of her Initial Decision.

[7] It is true that in Mercer Broadcasting Company, 22 FCC 1009, 13 RR 891 (1957) (cited in the Initial Decision), no finding could be made as to the exact boundaries of Levittown and Fairless Hills. However, it was stipulated that there were 8,750 homes in Levittown and 2,000 homes in Fairless Hills. At 3.2 persons per dwelling, it was computed that the two contiguous areas had a combined population of 33,440 (see footnote 8, infra).

[8] Musical Heights, Inc. 29 FCC 1, 19 RR 49 (1960) affirmed sub nom. Richard F. Lewis, Jr., Inc. v. F.C.C., 292 F. 2d 762, is mentioned in the Initial Decision. There, the Commission held Braddock Heights, Maryland, to be a community, inasmuch as it represented an identifiable population grouping separate and distinct from the larger community of Frederick. In the foregoing respect it is distinguishable from the instant case. Similarly, in the Mercer case (see footnote 7) it is clear that a person claimed for Levittown (or Fairless Hills) knew he lived there. This is not necessarily so for a person claimed in this proceeding for McLean, Potomac, or Cabin John.

[9] Following the further hearing, the difference may be sharply reduced.

[10] In its exceptions, Seven Locks has alternatively requested the addition of a standard comparative issue. For a discussion of the Commission's general policy in cases such as this see Kent-Ravenna Broadcasting Co., FCC 61–1350 (Mimeo No. 12888).

[11] Because the two applicants were originally in a proceeding involving more than 30 applicants, and because of a number of severances involving the two applicants, the exhibits for this proceeding are scattered over a number of volumes, including some bearing docket numbers different from those involved here. The Commission has experienced considerable difficulty in tracking down the various exhibits, and the Examiner at the further hearing ordered herein may wish either to direct the parties to submit all of their exhibits anew, or to append an index of exhibits to the Supplemental Initial Decision.

Accordingly, it is ordered, This 6th day of February 1962, That this proceeding is remanded to the Hearing Examiner for further hearing consistent herewith; and

It is further ordered, That the two issues of this proceeding specifically inquiring into matters involving section 307(b) of the Communications Act are deleted, and that the issues set forth below are substituted or added therefor:

(a) To determine the station locations applied for by the respective applicants, and to determine whether such locations are particular cities, towns, political subdivisions or communities within the meaning of § 3.30(a) of the Commission's rules.

(b) To determine whether considerations with respect to section 307(b) of the Communications Act of 1934, as amended, are applicable to the instant proceeding, and, if so, whether a choice between the applicants can be reasonably based thereon, and, if so, whether a grant to one or the other of the applicants would provide the more fair, efficient and equitable distribution of radio service.

(c) To determine, in the event it is concluded that a choice between the instant applications cannot be made on considerations relating to section 307(b), which of the operations proposed in the above-captioned applications would better serve the public interest in the light of the evidence adduced pursuant to the foregoing issues and the record made with respect to the significant differences between the applicants as to:

(i) The background and experience of each having a bearing on the applicant's ability to own and operate the proposed station;

(ii) The proposals of each of the instant applicants with respect to the management and operation of the proposed station;

(iii) The programming service proposed in each of the instant applications.

Released: February 12, 1962.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] BEN F. WAPLE,
Acting Secretary.

[Docket No. 14313; FCC 62M-198]

WFYC, INC. (WFYC)

Order Continuing Hearing

In re application of WFYC, Incorporated (WFYC), Alma, Michigan, Docket No. 14313, File No. BP-13807; for construction permit.

The Hearing Examiner having under consideration the joint request of all parties to the above-entitled proceeding filed February 7, 1962, for continuance of hearing;

It appearing that by order of the Acting Chief Hearing Examiner the date for exchange of hearing exhibits herein was continued to February 7, 1962, and that said exhibits were exchanged on that date with hearing being scheduled to commence on February 12, 1962, which affords inadequate time for completion of the remaining prehearing procedural course established by order released November 24, 1961;

It is ordered, This 8th day of February 1962, that the said request is granted and that the date for exchange of rebuttal exhibits, if any, is continued from January 30, 1962, to February 16, 1962; and that the date for giving notification of witnesses to be called for cross-examination is continued from February 6, 1962, to February 23, 1962;

It is further ordered, That the hearing in this matter heretofore scheduled to commence on February 12, 1962, is continued to March 14, 1962, commencing at 10:00 a.m. in the offices of the Commission at Washington, D.C.

Released: February 9, 1962.

FEDERAL POWER COMMISSION

[Docket No. CP62-123]

CITIES SERVICE GAS CO.

Notice of Application and Date of Hearing

FEBRUARY 9, 1962.

Take notice that on November 16, 1961, Cities Service Gas Company (Applicant), P.O. Box 1995, Oklahoma City, Oklahoma, filed in Docket No. CP62-123 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the construction and operation of certain minor "budget-type" facilities during the calendar year 1962, including branch lines and meter and regulator equipment, to make miscellaneous temporary and permanent direct sales of natural gas from Applicant's existing pipeline system, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

The total cost of the facilities for which authorization is sought is estimated to be $97,500, with no individual project to exceed a cost of $15,000. Applicant states that the cost of said facilities will be paid out of treasury cash.

Applicant estimated that it will have approximately 15 requests for temporary sales in 1962 by road construction contractors and other operators of temporary plant locations, with each request involving an estimated average of 35,000 Mcf annually and averaging a cost of approximately $2,500 per installation.

Also, Applicant anticipates approximately 30 requests for direct sales to consumers on a permanent basis, each request involving an average of approximately 81,000 Mcf of gas annually and averaging a cost of approximately $2,000 per installation.

This matter is one that should be disposed of as promptly as possible under the applicable rules and regulations and to that end:

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing will be held on March 20, 1962, at 9:30 a.m., e.s.t., in a Hearing Room of the Federal Power Commission, 441 G Street NW., Washington, D.C., concerning the matters involved in and the issues presented by such application: *Provided, however,* That the Commission may, after a non-contested hearing, dispose of the proceedings pursuant to the provisions of § 1.30(c) (1) or (2) of the Commission's rules of practice and procedure. Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washingotn 25, D.C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before March 7, 1962. Failure of any party to appear at and participate in the hearing shall be construed as waiver of and concurrence in omission herein of the intermediate decision procedure in cases where a request therefor is made.

JOSEPH H. GUTRIDE,
Secretary.

[F.R. Doc. 62-1542; Filed, Feb. 14, 1962; 8:46 a.m.]

[Docket No. G-15170, etc.]

CONTINENTAL OIL CO. ET AL.

Order Accepting Offer of Settlement, Severing and Terminating Proceedings and Providing for Refunds

FEBRUARY 9, 1962.

On December 12, 1961, Continental Oil Company, for itself and for other parties of interest (hereinafter referred to collectively as Continental), tendered for filing an Offer of Settlement, pursuant to § 1.18(e) of the Commission's rules of practice and procedure, of the rate suspension proceedings involved in the above-entitled matters. Included in its Offer of Settlement are three proposed increased rates which Continental requests be permitted to become effective without suspension. The sales involved in the Offer of Settlement all concern Continental's jurisdictional sales of natural gas to Texas Eastern Transmission Corporation (Texas Eastern) from Texas Railroad Commission District Nos. Two and Six.

The suspended and proposed rate changes which are the subject of this Offer of Settlement are as follows:

Rate schedule-supplement No.	Docket No.	Increased Rate—Cents/Mcf at 14.65 psia	Date effective subject to refund	Settlement rates
84–9	G–15170	13.8733	Oct. 29, 1958	13.8733
114–12*	G–15171	13.8733	Oct. 29, 1958	13.8733
125–10*	G–15171	[1] 14.3733	Oct. 29, 1958	14.3733
11	G–18750	[1] 16.0432	Nov. 18, 1959	14.3733
12	RI60–194	[1] 15.2765	Aug. 21, 1960	14.3733
13	RI61–458	[1] 15.7099	Sept. 27, 1961	14.3733
137–10		13.8733	(2)	13.8733
139–6*		13.8733	(2)	13.8733
141–8*		13.8733	(2)	13.8733
169–3 and 4	G–19027	14.6	Jan. 6, 1960	14.6
5	RI60–160	14.8	July 29, 1960	14.6
6	RI61–285	15.0	May 22, 1961	14.6

*(Operator), et al.
[1] Includes 0.5 cents per Mcf allowance to Continental for dehydration and central point delivery.
[2] Proposed in the offer.

Under the terms of the offer, Continental agrees to eliminate the favored-nation and price redetermination provisions from the subject contracts. Under Rate Schedule Nos. 84, 114, 137, 139, and 141 Continental proposes to insert schedules of three 0.5 cent per Mcf escalations above the 13.8733 cents per Mcf settlement rates at five-year intervals beginning February 5, 1963. Under Rate Schedules Nos. 125 and 169 Continental proposes to insert schedules of three 0.5 cent and 1.0 cent per Mcf escalations above the respective 14.3733 cents, and 14.6 cents per Mcf settlement rates occurring at five-year intervals beginning February 5, 1963 and November 1, 1963. All of the aforementioned rates are total rates including any tax reimbursement.

As justification for the offer, Continental contends that the favored-nation and price redetermination provisions of the contracts are valuable to Continental as a means of protection against inflation. In addition, Continental states that the settlement rates are below the level of initial prices for gas sold in the same areas. The offer is consistent with the Commission's announced policy in the Second Amendment to Statement of General Policy No. 61–1.

Docket Nos. G–15170 and G–15171 were consolidated for hearing purposes with Docket Nos. G–16966, a section 5(a) general investigation.

Texas Eastern concurs in and approves the Offer of Settlement and adverts to the similarity of previous offers of settlement pertaining to jurisdictional sales of gas to Texas Eastern which have been accepted by the Commission. No opposition to the Offer of Settlement has been expressed.

In our judgment, settlement of these proceedings in accordance with the Offer of Settlement is desirable in the public interest and appropriate in carrying out the provisions of the Natural Gas Act. Continental is proposing to eliminate all favored-nation and price-redetermination clauses in its contracts herein involved with Texas Eastern, to waive all its future rights and benefits thereunder and to convert the annual escalations now provided in the contracts to fixed escalations, and provided in its offer.

However, we desire to make it clear that acceptance of this Offer of Settlement shall not be construed as approval of any future increased rates proposed by Continental under the fixed escalation provision or otherwise.

The Commission finds:

(1) Good cause has been shown for severing Docket Nos. G–15170 and G–15171 from the consolidated proceedings in Docket Nos. G–16966, et al., and for terminating the proceedings in Docket Nos. G–15170, G–15171, G–18750, RI60–458, G–19027, RI60–160, RI61–285, and RI60–194.

(2) The proposed settlement of these rate proceedings on the basis described herein, as more fully set forth in the Offer of Settlement filed with the Commission by Continental on December 12, 1961, is in the public interest and appropriate to carry out the provisions of the Natural Gas Act and should be approved by the Commission and made effective as hereinafter ordered.

The Commission orders:

(A) Docket Nos. G–15170 and G–15171 are hereby severed from the consolidated proceedings Docket Nos. G–16966, et al.

(B) The Offer of Settlement filed by Continental on December 12, 1961, is hereby approved in accordance with the provisions of this order.

(C) Continental shall execute with Texas Eastern amendments to the gas purchase contracts to implement the provisions of the Offer of Settlement and file with the Commission within 30 days from the issuance of this order such amendments as supplements to the contracts involved.

(D) Within 45 days from the date of issuance of this order, Continental shall refund to Texas Eastern the difference between the amounts collected from Texas Eastern and the rates agreed upon in the Offer of Settlement, together with simple interest at the rate specified in the respective agreement and undertaking from the respective dates of receipt of said excess amounts by Continental to the date of refund. Continental shall bear all costs incidental to the making of such refunds.

(E) Within 60 days from the date of issuance of this order, Continental shall report to the Commission in writing and under oath the details of its calculations resulting in refunds ordered pursuant to paragraph (D) above, together with copies of releases from Texas Eastern with respect to such refunds.

(F) The proceedings in Docket Nos. G–15170, G–15171, G–18750, RI60–194, RI61–458, G–19027, RI60–160, and RI61–285 upon compliance with paragraphs C, D and E, above, are hereby terminated.

(G) The acceptance of this Offer of Settlement is without prejudice to any findings or determinations that may be made in any proceedings, which are presently being heard, or in any proceedings now pending or which may be hereafter instituted.

By the Commission.

JOSEPH H. GUTRIDE,
Secretary.

[F.R. Doc. 62–1543; Filed, Feb. 14, 1962; 8:47 a.m.]

[Docket No. E–6446]

GLACIER ELECTRIC COOPERATIVE, INC.

Notice of Application

FEBRUARY 9, 1962.

Take notice that on January 2, 1962, Glacier Electric Cooperative, Inc. (Applicant), incorporated under the laws of the State of Montana and doing business in that State, with its principal place of business at Cut Bank, Montana, filed an application for a supplemental order, pursuant to section 202(e) of the Federal Power Act, authorizing an increase in the amounts of electric energy which Applicant is presently authorized to transmit from the United States to Canada.

By Commission order issued January 29, 1953, in the above docket, as amended December 2, 1959, Applicant was authorized to transmit electric energy from the United States to Canada in amounts not to exceed 84,000 kwh per annum at a maximum transmission rate of 25 kw at Carway, Alberta, Canada, and 36,000 kwh per annum at a maximum transmission rate of 15 kw at Del Bonita, Alberta, Canada. Applicant now seeks authorization to transmit up to 500,000 kwh at a maximum rate of 150 kw at Carway and up to 150,000 kwh at a maximum rate of 75 kw at Del Bonita.

The amounts of electric energy which Applicant proposes to export, like those amounts presently exported pursuant to the afore-mentioned authorization, are to be transmitted to Canada from the State of Montana over certain facilities specified in a Presidential Permit signed by the President of the United States on December 12, 1952 and released to Applicant concurrently with the issuance of Commission order issued January 27, 1953, in the above docket.

Any person desiring to be heard or to make any protest with reference to the application should on or before February 28, 1962 file with the Federal Power Commission, Washington 25, D.C., a petition or protest in accordance with the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). The application is on file with the Commission and available for public inspection.

JOSEPH H. GUTRIDE,
Secretary.

[F.R. Doc. 62–1544; Filed, Feb. 14, 1962; 8:47 a.m.]

[Docket No. CP62–150]

UNITED GAS PIPE LINE CO.

Notice of Application and Date of Hearing

FEBRUARY 9, 1962.

Take notice that on December 26, 1961, United Gas Pipe Line Company (Applicant), 1525 Fairfield Avenue, Shreveport, Louisiana, filed in Docket No. CP62–150 an application pursuant to section 7(b) of the Natural Gas Act for permission and approval to abandon natural gas facilities as hereinafter described and as more fully described in the application which is on file with the Commission and open to public inspection.

Applicant seeks authorization to abandon and remove 0.004 mile of 8⅝" O.D. pipeline and a dual 6" orifice meter station and appurtenant facilities in Jefferson County, Texas. The facilities proposed for abandonment were installed in 1952 for the purpose of delivering gas to the Socony Mobile Oil Company (Socony) (successor to Magnolia Petroleum Company) for use in its operation of an oil refinery located at Beaumont, Texas. Socony has advised Applicant that it sees no immediate use for the facilities and has requested cancellation of the gas sales contract to which Applicant has agreed.

Applicant states that the subject facilities have been utilized directly in connection with service to Socony and are not required following the termination of the gas sales contract with Socony. The original cost of the subject facilities was $3,826.43.

This matter is one that should be disposed of as promptly as possible under the applicable rules and regulations and to that end:

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing will be held on March 13, 1962, at 9:30 a.m., e.s.t., in a Hearing Room of the Federal Power Commission, 441 G Street NW., Washington, D.C., concerning the matters involved in and the issues presented by such application: *Provided, however,* That the Commission may, after a non-contested hearing, dispose of the proceedings pursuant to the provisions of § 1.30(c) (1) or (2) of the Commission's rules of practice and procedure. Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D.C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before March 1, 1962. Failure of any party to appear at and participate in the hearing shall be construed as wavier of and concurrence in omission herein of the intermediate decision procedure in cases where a request therefore is made.

JOSEPH H. GUTRIDE,
Secretary.

[F.R. Doc. 62–1546; Filed, Feb. 14, 1962; 8:47 a.m.]

[Docket No. CI60–542]

VALLEY GAS TRANSMISSION, INC.

Notice of Hearing

FEBRUARY 9, 1962.

Valley Gas Transmission, Inc. (Applicant), a Texas corporation with principal place of business at 572 M & M Building, Houston, Texas, filed an application for a certificate of public convenience and necessity of limited duration in the above-captioned proceeding, pursuant to section 7(c) of the Natural Gas Act, on May 2, 1960, as amended June 27, 1960, March 1, 1961, and May 26, 1961.

Applicant proposes to sell natural gas in interstate commerce to United Gas Pipe Line Company (United) for resale and to transport natural gas in interstate commerce by means of certain natural gas facilities proposed to be constructed and operated by Applicant. Temporary authorizations were issued to Applicant on July 15, 1960, March 31, 1961, and June 28, 1961. The gas involved will be purchased by Applicant from various producers at a base initial price of 14.0 cents per Mcf at 14.65 psia and will be produced from various fields in Live Oak County, Texas (Texas Railroad District No. 2). Permanent certificates were issued to 14 of the producer-sellers in Docket Nos. CI60–543 through CI60–556 by order issued in Paul F. Barnhart, et al., Docket No. G–13831, et al., on October 31, 1960, and temporary authorizations were issued to 4 others in Docket Nos. CI61–203, CI61–455, CI61–884, and CI61–905 on April 19, 1961, and July 10, 1961. United has constructed and is operating the facilities necessary to take the instant gas from Applicant under a budget-type certificate issued in United Gas Pipe Line Company, Docket No. G–18983, on November 9, 1959. Applicant proposes to sell the instant gas to United at 18.0 cents per Mcf at 14.6 psia. The facilities, estimated to cost $750,000.00 will be financed by Applicant through the sale of securities to its parent corporation, Valley Gas Production, Inc.

Notice of the filing of Applicant's application together with its consolidation for hearing along with certain other applications not here relevant was issued on September 14, 1960, and published in the FEDERAL REGISTER on September 22, 1960 (25 F.R. 9125). This notice fixed October 4, 1960, as the last day for filing protests or petitions to intervene. The Public Service Commission of the State of New York filed a notice of intervention in the instant docket on September 29, 1960. By notice issued on October 12, 1960, and published in the FEDERAL REGISTER on October 19, 1960 (25 F.R. 9982), the application in the instant proceeding was severed for separate disposition from those with which it had theretofore been consolidated.

Take notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing will be held on March 6, 1962, at 10:00 a.m., e.s.t., in a hearing room of the Federal Power Commission, 441 G Street NW., Washington, D.C., concerning the matters involved in and the issues presented by the application.

JOSEPH H. GUTRIDE,
Secretary.

DEPARTMENT OF LABOR

Wage and Hour Division

CERTIFICATES AUTHORIZING EMPLOYMENT OF LEARNERS AT SPECIAL MINIMUM RATES

Notice is hereby given that pursuant to section 14 of the Fair Labor Standards Act of 1938 (52 Stat. 1060, as amended, 29 U.S.C. 201 et seq.), the regulations on employment of learners (29 CFR Part 522), and Administrative Order No. 524 (24 F.R. 9274), the firms listed in this notice have been issued special certificates authorizing the employment of learners at hourly wage rates lower than the minimum wage rates otherwise applicable under section 6 of the Act. The effective and expiration dates, occupations, wage rates, number or proportion of learners, learning periods, and the principal product manufactured by the employer for certificates issued under general learner regulations (§§ 522.1 to 522.11) are as indicated below. Conditions provided in certificates issued under special industry regulations are as established in these regulations.

Apparel Industry Learner Regulations (29 CFR 522.1 to 522.11, as amended, and 29 CFR 522.20 to 522.25, as amended).

The following learner certificates were issued authorizing the employment of 10 percent of the total number of factory production workers for normal labor turnover purposes. The effective and expiration dates are indicated.

Aynor Manufacturing Co., Inc., Aynor, S.C.; effective 1–15–62 to 1–14–63 (ladies' blouses, capri pants, shorts, and pedal pushers).

Biltmore Manufacturing Co., Asheville, N.C.; effective 1–11–62 to 1–10–63. Learners may not be employed at special minimum wage rates in the production of separate skirts (women's and children's sportswear, dungarees, slacks, pedal pushers, etc.).

Cherryvale Manufacturing Co., Cherryvale, Kans.; effective 1–10–62 to 1–9–63 (men's work clothing).

Colshire Manufacturing Co., Inc., Morgantown, W. Va.; effective 2–1–62 to 1–31–63 (men's pajamas).

Devil Dog Manufacturing Co., Inc., Middlesex, N.C.; effective 1–12–62 to 1–11–63 (ladies' and children's playwear).

Dunhill Shirt Co., Lexington, Mo.; effective 1–12–62 to 1–11–63 (men's shirts).

Ely & Walker, Division of Burlington Ind., Inc., Yazoo City, Miss.; effective 1-8-62 to 1-7-63 (men's and boys' woven pajamas).

Each learner certificate has been issued upon the representations of the employer which, among other things, were that employment of learners at special minimum rates is necessary in order to prevent curtailment of opportunities for employment, and that experienced workers for the learner occupations are not available. The certificates may be annulled or withdrawn, as indicated therein, in the manner provided in Part 528 of Title 29 of the Code of Federal Regulations. Any person aggrieved by the issuance of any of these certificates may seek a review or reconsideration thereof within fifteen days after publication of this notice in the FEDERAL REGISTER pursuant to the provisions of 29 CFR 522.9.

Signed at Washington, D.C., this 8th day of February 1962.

ROBERT G. GRONEWALD,
Authorized Representative of the Administrator.

INTERSTATE COMMERCE COMMISSION

[Notice 595]

MOTOR CARRIER TRANSFER PROCEEDINGS

FEBRUARY 12, 1962.

Synopses of orders entered pursuant to section 212(b) of the Interstate Commerce Act, and rules and regulations prescribed thereunder (49 CFR Part 179), appear below:

As provided in the Commission's special rules of practice any interested person may file a petition seeking reconsideration of the following numbered proceedings within 20 days from the date of publication of this notice. Pursuant to section 17(8) of the Interstate Commerce Act, the filing of such a petition will postpone the effective date of the order in that proceeding pending its disposition. The matters relied upon by petitioners must be specified in their petitions with particularity.

No. MC-FC 64498. By order of February 7, 1962, the Transfer Board approved the transfer to Edward P. Hayes, Sr., Thomas F. Hayes, John D. Hayes, and Edward P. Hayes, Jr., a partnership, doing business as Edward P. Hayes & Sons, West Hartford, Conn., of Certificate No. MC 113863 issued June 16, 1953, to Leslie W. Stevenson, doing business as Tobacco Valley Stages, North Granby, Conn., authorizing the transportation of passengers and their baggage, and express, mail, and newspapers in the same vehicle with passengers, and baggage of passengers in a separate vehicle, over a regular route, between Hartford, Conn., and Granby, Conn., with service to and from all intermediate points. Thomas W. Murrett, 410 Asylum Street, Hartford 3, Conn., attorney for applicants.

No. MC-FC 64675. By order of February 2, 1962, the Transfer Board approved the transfer to Noble Graham, Brimley, Mich., of Certificate in No. MC 107162 Sub 1, issued July 24, 1961, to Noble Graham, Charles Graham, Kenneth Graham, Donald Graham, and Peter Graham, a partnership, doing business as Noble Graham & Sons, Brimley, Mich., authorizing the transportation of: Lumber, logs, evergreens, pulpwood and wooden posts, piling and spars, from points in the upper peninsula of Michigan, to points in Wisconsin; dry asphalt and black topping material, in bulk, from points in Marathon County, Wis., to points in the upper peninsula of Michigan; lumber, from Eagle River, Wis., and points in Wisconsin within 50 miles of Eagle River to points in the upper peninsula of Michigan; cinder blocks, concrete blocks, and brick, from site of U. Hurlbut Company Plant at Green Bay, Wis., to points in the upper peninsula of Michigan; agricultural lime and lime products, in bags, from Mayville and Rockwood, Wis., to points in the upper peninsula of Michigan; fertilizer and fertilizer ingredients, from Antigo, Cameron, Green Bay, Prairie du Chien, Whitewater, Madison, Hillsboro and Stevens Point, Wis., to points in the upper peninsula of Michigan; treated wood products, consisting of railroad ties, posts, poles, piling, timbers and rough lumber, from Superior and Plain, Wis., to points in the upper peninsula of Michigan. Michael D. O'Hara, Spies Building, Menominee, Mich., attorney for applicants.

No. MC-FC 64682. By order of February 2, 1962, the Transfer Board approved the transfer to Bolger Trucking Company, Inc., South Bend, Ind., of Permit No. MC 60153, issued April 15, 1943, to Hazel H. Bolger, doing business as Bolger Trucking Company, Michigan City, Ind., authorizing the transportation of: Prepared foods, soft drinks, powdered and concentrate, and advertising matter for the above commodities over regular routes, between Chicago, Ill., and South Bend, Ind., and Prospect, Ill. Dale C. Dillon, Todd & Dillon, 1000 Jefferson Place NW., Washington 6, D.C., attorney for applicants.

No. MC-FC 64702. By order of February 7, 1962, the Transfer Board approved the transfer to J. T. McCamy Tar

and Tar Products Co., a corporation, Lincoln Park, Mich., of Permits Nos. MC 47053 and MC 47053 Sub 6, issued June 28, 1949 and April 29, 1953, respectively, to Scovera Cartage Company, a corporation, Detroit, Mich., authorizing the transportation of: Tar and tar products, in tank trucks, over irregular routes, between Detroit and Wyandotte, Mich., on the one hand, and, on the other, points in Ohio; between Toledo, Ohio, on the one hand, and, on the other, points in Michigan, except those west of U.S. Highway 131; and between Cleveland, Youngstown, Columbus and Cincinnati, Ohio, on the one hand, and, on the other, points in Michigan; and liquid refractory foundry coatings having a mica base, in bulk, in tank vehicles, over irregular routes, from Detroit, Mich., to points in Illinois, Indiana, Ohio, Pennsylvania, and West Virginia. William B. Elmer, 1000 Buhl Building, Detroit 26, Mich., attorney for applicants.

No. MC-FC 64727. By order of February 6, 1962, the Transfer Board approved the transfer to Hazel Mildred Smith, Hamilton, Ohio; of Permits Nos. MC 80265 and MC 80265 Sub 1, issued July 2, 1941 and January 7, 1939, respectively, to Albert L. Smith, Hamilton, Ohio; authorizing the transportation of: Finished paper and paper products, scrap paper, steel strapping, and materials and supplies, used in the manufacture and shipping of paper and paper products, from, to, or between specified points in Ohio, Illinois, Indiana, Michigan, Wisconsin, Missouri, Pennsylvania, and New York. E. F. Streib, Fourth at Race, Cincinnati 2, Ohio, representative for applicants.

No. MC-FC 64773. By order of February 7, 1962, the Transfer Board approved the transfer to Paul J. Miller of Orefield, Pa., of a portion of Certificates Nos. MC 18869, MC 18869 Sub 2, MC 18869 Sub 6, and MC 18869 Sub 7, issued May 29, 1941, November 10, 1941, August 12, 1948, and July 18, 1950, respectively, to Charles Krinvic and George Krinvic, a partnership, doing business as Krinvic Brothers, Willow Grove, Pa., authorizing the transportation of poultry and animal feeding materials, over irregular routes, from Philadelphia, Pa., to Utica, Oneonta, Waverly, and Big Flats, N.Y.; crab meal, from Honga, Md., to Spencer and Candor, N.Y.; and from Marion, Md., to Philadelphia and Temple, Pa., Jewett City, Conn., and Spencer, N.Y.; and animal and poultry feed and fish meal, from Philadelphia, Pa., to Waverly, N.Y. Albert E. Enoch, 556 Main Street, Bethlehem, Pa., representative for applicants.

[SEAL] HAROLD D. MCCOY,
Secretary.

FEDERAL REGISTER

Telephone WOrth 3-3261

Published daily, except Sundays, Mondays, and days following official Federal holidays by the Office of the Federal Register, National Archives and Records Service, General Services Administration, pursuant to the authority contained in the Federal Register Act, approved July 26, 1935 (49 Stat. 500, as amended; 44 U.S.C., ch. 8B), under regulations prescribed by the Administrative Committee of the Federal Register, approved by the President. Distribution is made only by the Superintendent of Documents, Government Printing Office, Washington 25, D.C.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for $1.50 per month or $15.00 per year, payable in advance. The charge for individual copies (minimum 15 cents) varies in proportion to the size of the issue. Remit check or money order, made payable to the Superintendent of Documents, directly to the Government Printing Office, Washington 25, D.C.

The regulatory material appearing herein is keyed to the CODE OF FEDERAL REGULATIONS, which is published, under 50 titles, pursuant to section 11 of the Federal Register Act, as amended August 5, 1953. The CODE OF FEDERAL REGULATIONS is sold by the Superintendent of Documents. Prices of books and pocket supplements vary.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER, or the CODE OF FEDERAL REGULATIONS.

Presidential Documents

Title 3—THE PRESIDENT

Executive Order 10994

THE PRESIDENT'S COMMITTEE ON EMPLOYMENT OF THE HANDICAPPED

By virtue of the authority vested in me as President of the United States, and in order to provide for the carrying out of the provisions of the Joint Resolution approved July 11, 1949, ch. 302, 63 Stat. 409, as amended, and the provisions of section 8 of the Vocational Rehabilitation Act, as amended (29 U.S.C. 38), it is ordered as follows:

SECTION 1. *Establishment and composition of the President's Committee.* (a) There is hereby established the President's Committee on Employment of the Handicapped (hereinafter referred to as the Committee or as the President's Committee).

(b) The Committee shall be composed of a Chairman and not more than three Vice Chairmen, who shall be appointed by and serve at the pleasure of the President, and of so many other members as may be appointed thereto from time to time by the Chairman of the President's Committee upon the advice of the Executive Committee (hereinafter provided for) from among persons (including representatives of organizations) who can contribute to the achievement of the objectives of the Committee. Members appointed by the Chairman shall be appointed for a term of three years and may be reappointed. The Chairman of the President's Committee, with the approval of the Executive Committee, may at any time terminate the service of any member of the President's Committee, except any member appointed by the President.

(c) The Chairman of the President's Committee, upon the advice of the Executive Committee, may designate as, or invite to be, associate members of the President's Committee (1) any heads of Federal departments and agencies which have responsibility for rehabilitation services or promotional activities touching the field of interest of the Committee or which are leading utilizers of handicapped personnel, (2) Governors of States and possessions, and (3) representatives of such heads or Governors.

(d) Representatives of industry, labor, and public and private agencies may be invited to attend meetings of the Committee.

SEC. 2. *Functions of the Committee.* The President's Committee shall facilitate the development of maximum employment opportunities for the physically and mentally handicapped. To this end the Committee shall supply information to employers, conduct a program of public education, and enlist the aid and cooperation of Federal officials, State officials, Governors' Committees, local committees, professional trade groups, and organized labor. In carrying out the functions vested in it by section 8 of the Vocational Rehabilitation Act, as amended, the Committee shall work closely with the Department of Labor, Department of Health, Education, and Welfare, the Veterans' Administration, State employment-security agencies, and State vocational-rehabilitation agencies.

SEC. 3. *Executive Committee.* (a) There is hereby established the Executive Committee of the President's Committee on Employment of the Handicapped. The Executive Committee shall be composed of the Chairman of the President's Committee, who shall also be the Chairman of the Executive Committee, the Vice Chairmen of the President's Committee, and so many additional members as will provide an Executive Committee of not less than fifteen and not more than fifty members. The said additional members shall be appointed annually by the Chairman of the President's Committee, from among the members of the President's Committee or otherwise. The Chair-

man of the President's Committee may at any time terminate the service of any member of the Executive Committee.

(b) The Executive Committee shall advise and assist the Chairman of the President's Committee in the conduct of the business of the President's Committee and, as authorized by the President's Committee or the Chairman thereof (with due regard for the responsibilities of other Federal agencies), shall study the problems of the handicapped in obtaining and retaining suitable employment, invite authorities in the various professional, technical, and other pertinent fields to assist in the exploration of those problems, and review and develop plans and projects for promoting the employment of the handicapped.

SEC. 4. *Advisory Council.* There is hereby established the Advisory Council on Employment of the Handicapped, which shall advise the President's Committee with respect to the responsibilities of the Committee. The Council shall be composed of the Chairman of the President's Committee, who shall also be the Chairman of the Council, and of the following-named officers, or their respective alternates: the Secretary of Agriculture, the Secretary of Commerce, the Secretary of Labor, the Secretary of Health, Education, and Welfare, the Administrator of Veterans' Affairs, and the Chairman of the United States Civil Service Commission.

SEC. 5. *Administrative and incidental matters.* (a) The President's Committee, the Executive Committee, and the Advisory Council shall each meet on the call of the Chairman of the President's Committee at a time and place designated by him. In the case of the President's Committee and the Executive Committee, the Chairman shall call at least one meeting and two meetings, respectively, to be held during each calendar year.

(b) In the absence of designation by the President, the Chairman of the President's Committee may from time to time designate a Vice Chairman of the President's Committee to be one or more of the following-named in the absence of the Chairman: Acting Chairman of the President's Committee, Acting Chairman of the Executive Committee, and Acting Chairman of the Advisory Council. The Chairman of the President's Committee shall from time to time assign other duties to the Vice Chairman thereof.

(c) The Chairman of the President's Committee shall on behalf of the President direct the Committee and its functions.

(d) The Chairman may from time to time prescribe such necessary rules, procedures, and policies relating to the President's Committee, the Executive Committee, and the Advisory Council, and their affairs, as are not inconsistent with law or with the provisions of this order.

(e) All members (including the Chairman and Vice Chairmen) of the President's Committee, the Executive Committee, and the Advisory Council shall serve without compensation. The Chairman and the Vice Chairmen of the President's Committee may receive transportation and per diem allowances as authorized by law for persons serving without compensation.

(f) Employees of the Committee shall be appointed, subject to law, and shall be directed, by the Chairman of the Committee. To such extent as may be mutually arranged by the Chairman of the Committee and the Secretary of Labor, employees of the Committee shall be subject to the administrative rules, regulations, and procedures of the Department of Labor.

(g) The Department of Labor is requested to make available to the President's Committee necessary office space and to furnish the Committee, under such arrangements respecting financing as may be appropriate, necessary equipment, supplies, and services. The estimates of appropriations for the operations of the Committee shall be included within the framework of the appropriation structure of the Department of Labor, in such manner as the Director of the Bureau of the Budget may prescribe. The Chairman of the Committee, in cooperation with the Budget Office of the Department of Labor, shall be responsible for the preparation and justification of the estimates of appropriations for the Committee.

SEC. 6. *Prior orders; transition.* (a) To the extent that this order is inconsistent with any provision of any prior order, or with any provision of any regulation or other measure or disposition, heretofore issued, made, or taken by the President or by any other officer of the executive branch of the Government, this order shall control. Executive Order No. 10640 of October 10, 1955, is hereby superseded.

(b) Without further action by the President or the Chairman of the Committee, all members, employees, records, property, funds, and pending business of the President's Committee on Employment of the Physically Handicapped provided for in Executive Order No. 10640 of October 10, 1955, shall on the date of this order become members, employees, records, property, funds, and pending business of the Committee established by this order.

(c) The tenure of persons as members of the Committee in pursuance of the provisions of section 6(b) of this order (i), in the case of persons appointed to the predecessor Committee by the President, shall be at the pleasure of the President, and (ii), in the case of other members, shall be for periods equal to their respective unexpired terms under Executive Order No. 10640 but shall also be subject to the provisions of the last sentence of section 1(b) of this order.

JOHN F. KENNEDY

THE WHITE HOUSE,
February 14, 1962.

[F.R. Doc. 62-1659; Filed, Feb. 14, 1962; 3:12 p.m.]

Rules and Regulations

Title 7—AGRICULTURE

Chapter III—Agricultural Research Service, Department of Agriculture

[P.P.C. 621, 6th Revision]

PART 301—DOMESTIC QUARANTINE NOTICES

Subpart—Pink Bollworm

REVISED ADMINISTRATIVE INSTRUCTIONS DESIGNATING REGULATED AREA

Pursuant to § 301.52–2 of the regulations supplemental to the pink bollworm quarantine (7 CFR 301.52–2), under sections 8 and 9 of the Plant Quarantine Act of 1912, as amended (7 U.S.C. 161, 162), administrative instructions appearing as 7 CFR 301.52–2a are hereby revised to read as follows:

§ 301.52–2a Administrative instructions designating regulated area, eradication area, and generally infested area under the pink bollworm quarantine.

(a) Infestations of the pink bollworm have been determined to exist, in the quarantined States, in the civil divisions and premises or parts thereof, listed below, or it has been determined that such infestation is likely to exist therein, or it is deemed necessary to regulate such localities because of their proximity to infestation or their inseparability for quarantine enforcement purposes from infested localities. Accordingly, the localities listed are hereby designated as the pink bollworm regulated area within the meaning of the provisions in this subpart:

Arizona. Counties of Cochise, Gila, Graham, Greenlee, Maricopa, Pima, Pinal, Santa Cruz, and Yavapai.

Arkansas. All counties or parts of counties lying west of a line beginning at the point on the Arkansas-Louisiana line where the eastern boundary of Columbia County intersects the Arkansas-Louisiana line and extending north along the eastern boundary of Columbia County to the southern boundary line of Ouachita County and a northern prolongation of this line into Ouachita County to a point where it intersects U.S. Highway 79, thence northeast on U.S. Highway 79 to the Ouachita River, thence southeast along the Ouachita River to the eastern boundary line of Ouachita County, thence northeast along the eastern boundary line of Ouachita County to the southern boundary line of Dallas County, thence east along the southern boundary line of Dallas County to the eastern boundary line of Dallas County, thence northwest along the eastern boundary line of Dallas County to the northern boundary line of Cleveland County, thence east along the northern boundary line of Cleveland County to the eastern boundary line of Grant County, thence north along the eastern boundary line of Grant County to the southern boundary line of Pulaski County, thence east along the southern boundary line of Pulaski County to the Arkansas River, thence northwest along the Arkansas River to the city limits of North Little Rock, thence along the eastern city limit of North Little Rock to its intersection with the Missouri Pacific Railway, thence northeast along said railway to the Little Red River, thence northwestward along the Little Red River to its intersection with the Cleburne-Van Buren County line, thence north along the Cleburne-Van Buren County line to the intersection of the Cleburne, Van Buren and Stone County lines, thence westward along the northern county boundary lines of Van Buren, Pope, Johnson, Franklin, and Crawford Counties to the intersection of the eastern county line of Washington County, thence northward along the eastern boundary line of Washington County to the northern boundary line of Washington County, thence westward along the northern boundary line of Washington County to the Arkansas-Oklahoma State line.

That part of St. Francis County bounded by a line beginning at the point where the L'Anguille River intersects the northern boundary line of St. Francis County and extending eastward to the St. Francis River, thence southward along the St. Francis River to the Round Pond Internal Control Channel, thence south along the Round Pond Internal Control Channel to its southern intersection with the St. Francis River, thence continuing south along the St. Francis River to the southern boundary line of St. Francis County, thence west along the southern boundary line of St. Francis County to its intersection with the L'Anguille River, thence northward along the L'Anguille River to the point of beginning.

Louisiana. Parishes of Bienville, Bossier, Caddo, Claiborne, De Soto, Grant, Lincoln, Natchitoches, Rapides, Red River, Sabine, Union, and Webster.

New Mexico. All counties in the State.

Oklahoma. All counties in the State.

Texas. All counties in the State.

(b) *Eradication area.* All regulated area within the States of Arizona, Arkansas, and Louisiana is hereby designated as eradication area.

(c) *Generally infested area.* All regulated area within the States of New Mexico, Oklahoma, and Texas is hereby designated as generally infested area.

(Secs. 8, 9, 37 Stat. 318, as amended; 7 U.S.C. 161, 162; 19 F.R. 74, as amended; 7 CFR 301.52–2)

These administrative instructions shall become effective February 16, 1962, when they shall supersede P.P.C. 621, 5th Revision, 7 CFR 301.52–2a, effective July 13, 1961.

This revision removes from the regulated area all localities, heretofore included, in the Arkansas Counties of Ashley, Bradley, Calhoun, Cleveland, Drew, Jefferson, and Union; as well as a portion of the Arkansas County of Ouachita; and the Louisiana Parishes of Allen, Beauregard, Calcasieu, Cameron, Jackson, Jefferson Davis, Ouachita, Vermilion, Vernon, and Winn; and thereby relieves restrictions on the interstate movement of regulated articles therefrom. It must be made effective promptly in order to be of maximum benefit to affected shippers. Accordingly, under section 4 of the Administrative Procedure Act (5 U.S.C. 1003), it is found upon good cause that notice and other public procedure with respect to the foregoing revision are impracticable and it may be made effective less than 30 days after publication in the FEDERAL REGISTER.

Done at Washington, D.C., this 8th day of February 1962.

[SEAL] E. D. BURGESS,
Director,
Plant Pest Control Division.

[F.R. Doc. 62–1597; Filed, Feb. 15, 1962; 8:46 a.m.]

Chapter VIII—Agricultural Stabilization and Conservation Service (Sugar), Department of Agriculture

SUBCHAPTER B—SUGAR REQUIREMENTS AND QUOTAS

[Sugar Reg. 816, Amdt.]

PART 816—REQUIREMENTS RELATING TO MARKETING OF SUGAR AND LIQUID SUGAR PRODUCED FROM SUGAR BEETS AND SUGARCANE GROWN IN CONTINENTAL UNITED STATES AND MARKETING OF SUGAR FOR CONSUMPTION IN HAWAII AND PUERTO RICO

Bond Requirements

Basis and purpose. The purpose of this amendment is to change the basis price quotation provided for in § 816.7 (c)(2) of Part 816 (23 F.R. 1949), for determining the monetary amount of an obligation applicable to a bond accepted pursuant to § 816.7. This amendment is necessary because the price quotation previously in effect was discontinued on February 1, 1961.

It has been determined that the "Spot Quotation" (duty paid or duty free) per pound of sugar deliverable on the New York Coffee and Sugar Exchange under Contract No. 7, as established by that Exchange, will be published regularly and that such quotation will reflect the current value of sugar for consumption in the continental United States and accordingly is appropriate for determining the monetary amount of an obligation applicable to a bond accepted pursuant to § 816.7.

Proper and effective administration of the provision of this regulation, relating to establishing bond obligations, requires that the new basic price quotation for determining the monetary amounts of such obligations be made effective at the earliest possible time. It is, therefore, found and determined that compliance with the notice, procedure and effective date requirements of the Administrative Procedure Act is unnecessary, impractical and contrary to the public interest and this amendment shall become effective when filed for public inspection in the Office of the Federal Register.

Pursuant to the provisions of section 403 of the Sugar Act of 1948, as amended (61 Stat. 922, as amended), subparagraph (1) of paragraph (c) of § 816.7 is amended to read as follows:

§ 816.7 Bond requirements.

* * * * *

(c) * * *

(1) *Monetary amount.* The monetary amount of the obligation under the bond shall not be less than the sum of the amounts applicable to all quantities of sugar or liquid sugar covered at any one time thereunder by approved Applications to Market and made subject to the bond by virtue of such approval, and such amount of obligation shall be effective whether or not the surety receives notice from the Secretary of the approval of any such application. The monetary amount applicable to each quantity of sugar covered by each approved Application to Market and made subject to a bond accepted under this part shall be the weight in pounds of sugar determined pursuant to paragraph (d) of this section multiplied by the "spot" quotation per pound of raw sugar deliverable on the New York Coffee and Sugar Exchange under Contract No. 7 as established by that Exchange for the last business day before the date of application by the bond principal. The amount applicable to each quantity of liquid sugar covered by each approved Application to Market and made subject to a bond accepted under this part shall be computed upon the basis of the same price per pound, ascertained as heretofore stated in this paragraph, multiplied by the pounds of the "total sugar content," as defined in section 101(i) of the act, contained in the quantity of liquid sugar determined as provided in paragraph (d) of this section.

(Sec. 403, 61 Stat. 932; 7 U.S.C. 1153. Interpret or apply sec. 209, 212; 61 Stat. 928; 7 U.S.C. 1119, 1122)

Issued this 12th day of February 1962.

ORVILLE L. FREEMAN,
Secretary.

[F.R. Doc. 62–1598; Filed, Feb. 15, 1962; 8:46 a.m.]

[Sugar Reg. 820, Amdt. 2]

PART 820—REQUIREMENTS RELATING TO NON-QUOTA PURCHASE SUGAR FOR THE SIX-MONTH PERIOD ENDING JUNE 30, 1962

Non-Quota Purchase of Sugar Authorized

For the purpose of increasing the quantity of non-quota sugar authorized for purchase from 1,185,000 tons to 1,400,517 tons, paragraphs (b) and (c) of § 820.22 of Part 820 are hereby amended to read as follows:

§ 820.22 Non-quota purchase of sugar authorized.

* * * * *

(b) Pursuant to section 408(b) of the Act, the President by Proclamation No. 3440 (26 F.R. 11714) established the amount of the quotas for sugar and for liquid sugar for Cuba for the six-month period ending June 30, 1962, at zero. At a level of consumption requirements for consumers in the United States of 9,500,000 short tons, raw value of sugar for 1962, the amount of the quotas that otherwise would have been provided for Cuba under the terms of Title II of the Act for the six-month period ending June 30, 1962, are 1,574,622 short tons, raw value of sugar and 3,985,279 wine gallons of liquid sugar, 72 per centum total sugar content, which represent the quantities that may be caused or permitted to be brought or imported into or marketed in the United States during the six-month period ending June 30, 1962, pursuant to section 408(b) of the Act. In paragraph (c) of this section a total of 1,400,517 short tons, raw value of non-quota purchase sugar is authorized for purchase from foreign countries with which the United States is in diplomatic relations. This authorized quantity is based upon a proration in accordance with section 408(b)(2) of the Act of the full 1,574,622 short tons, raw value, to foreign countries for which quotas have been established pursuant to section 202 of the Act. Three countries will be unable to supply the following portions of their prorations: Nicaragua 28,455 tons; Peru 206,592 tons and the Republic of the Philippines 58,443 tons. The prorations for Canada of 3,080 tons, for the United Kingdom of 2,515 tons and for Hong Kong of 20 tons may not be authorized for the reasons set forth in § 820.20(c). These quantities plus the shortfalls for Nicaragua, Peru and the Republic of the Philippines total 299,105. Of this total 125,000 short tons, raw value, is authorized for purchase from Brazil, Colombia, India and the Republic of China in accordance with the proviso in section 408(b)(2)(iii). In authorizing the purchase of non-quota sugar from these latter four countries, special consideration was given to countries of the Western Hemisphere and to those countries purchasing United States agricultural commodities. The remaining 174,105 short tons, raw value, is held in reserve for subsequent purchase authorization, including authorization for importation of sugar under barterlike arrangements. The 3,985,279 wine gallons of liquid sugar are not allocated or authorized for purchase at this time.

(c) The amounts of non-quota purchase sugar permitted to be imported into the continental United States for consumption therein from individual foreign countries during the period January 1, 1962 through June 30, 1962, are as follows:

Country:	*Short tons, raw value*
Haiti	1,388
Netherlands	3,100
Republic of China	23,158
Panama	3,158
Costa Rica	3,163
Republic of the Philippines	175,655
Dominican Republic	421,122
Peru	280,070
Mexico	340,706
Nicaragua	42,700
Belgium	888
British Guiana	409
Brazil	30,000
Colombia	25,000
India	50,000
Total	1,400,517

The regulation can be amended from time to time to increase or decrease the quantities of sugar authorized for purchase from any of the countries named herein as is necessary to meet United States consumption and market requirements, or to reflect each such country's ability to supply sugar consistent with United States market requirements. Also, quantities may be established for countries or groups of countries which are not named herein if it later appears that supplies from any country or countries named herein will not be forthcoming at any time in a manner that meets market requirements or if additional supplies are needed to meet consumption and market requirements.

Statement of bases and considerations. Of the total 1,574,622 tons of non-quota sugar that may be authorized for purchase during the first six months of 1962, authorization for the purchase of 1,185,000 tons was previously announced. The additional 215,517 tons herein authorized are needed to assure adequate supplies of sugar throughout the six-month period. A reserve of 174,105 tons subsequently may be authorized for purchase, including purchases under reciprocal barterlike arrangements.

(Sec. 403, 61 Stat. 932; 7 U.S.C. 1153. Interprets or applies secs. 101, 408, 61 Stat. 922, as amended, 933, as amended; 7 U.S.C. 1101, 1158; Public Law 87–15, approved March 31, 1961. Presidential Proclamation 3440 (26 F.R. 11714)

Effective date. To permit the nonquota sugar herein authorized for purchase to be marketed in an orderly manner, it is essential that the amendments made herein be made effective immediately. Therefore, it is hereby determined and found that compliance with the notice, procedure, and effective date requirements of the Administrative Procedure Act is unnecessary, impracticable and contrary to the public interest, and this amendment to the regulations shall become effective when published in the FEDERAL REGISTER.

Done at Washington, D.C., this 12th day of February 1962.

CHARLES S. MURPHY,
Acting Secretary.

Concurred in for the Secretary of State.

EDWIN M. MARTIN,
Assistant Secretary.

[F.R. Doc. 62–1599; Filed, Feb. 15, 1962; 8:46 a.m.]

Chapter IX—Agricultural Marketing Service (Marketing Agreements and Orders), Department of Agriculture

[959.302]

PART 959—ONIONS GROWN IN SOUTH TEXAS

Limitation of Shipments

Findings. (a) Marketing Agreement No. 143 and Order No. 959 (7 CFR Part 959), effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674), provide

methods for limiting the handling of onions grown in the production area defined therein through the issuance of regulations authorized in §§ 959.1 through 959.90, inclusive, of the order. The South Texas Onion Committee, pursuant to § 959.51 of the order, has recommended that regulations limiting the handling of the 1962 crop onions should be issued. Committee recommendations, with information submitted therewith and other information, have been considered and it is hereby found that the regulations hereinafter set forth will tend to effectuate the declared policy of the act.

(b) It is hereby found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule making procedure, and postpone the effective date of this section until 30 days after publication in the FEDERAL REGISTER (5 U.S.C. 1001–1011) in that (1) the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient, (2) more orderly marketing in the public interest, than would otherwise prevail, will be promoted by regulating the shipment of onions, in the manner set forth below, on and after the effective date of this section, (3) compliance with this section will not require any special preparation on the part of handlers which cannot be completed by the effective date, (4) reasonable time is permitted, under the circumstances, for such preparation, and (5) information regarding the committee's recommendations has been made available to producers and handlers in the production area.

§ 959.302 Limitation of shipments.

During the period from February 19, 1962, through March 20, 1962, no person shall handle any lot of onions grown in the production area, except onions of the red variety, unless such onions meet the grade requirements of paragraph (a), one of the applicable size requirements of paragraph (b), and the container requirements of paragraph (c), or unless such onions are handled in accordance with the provisions of paragraphs (d), (e), (f), and (g) of this section.

(a) *Grade.* U.S. No. 2, or better, grade.

(b) *Size requirements.* For purposes of regulation under this part, the size of onions shall be in accordance with one of the following classifications:

(1) "Small," for white onions only—1 to 2⅛ inches in diameter;

(2) "Repackers"—1¾ inches to 3 inches in diameter, with 60 percent or more 2 inches or larger;

(3) 2 inches to 3½ inches in diameter; or

(4) 2⅞ inches or larger in diameter.

(c) *Container requirements.* Onions may be handled only in containers classified by weight, with respective dimensions, as follows:

(1) 25 pound containers, with not to exceed in any lot an average net weight of 27½ pounds per container and, if packed in bags, the bags shall be of outside dimensions not larger than 29 inches by 31 inches.

(2) 50 pound containers, with not to exceed in any lot an average net weight of 55 pounds per container, and, if packed in bags, the bags shall be of outside dimensions not larger than 33 inches by 38½ inches.

(d) *Minimum quantity exemption.* Pursuant to § 959.52(c)(2) of this part, any handler may handle, only as individual shipments and other than for resale, not more than 100 pounds of onions per day, in the aggregate, without regard to the requirements of this section or to the inspection and assessment requirements of this part.

(e) *Special purpose shipments.* (1) The requirements of paragraphs (a), (b), and (c) of this section, and the assessment requirements of this part, shall not be applicable to onions handled for the following special purposes:

(i) relief or charity; or

(ii) experimental purposes.

(2) The requirements of paragraph (c) of this section shall not be applicable to onions handled for Federal government purchases.

(f) *Safeguards.* (1) Each handler of onions which do not meet the requirements of paragraphs (a), (b), and (c) of this section and which are handled pursuant to paragraph (e) of this section for relief or charity or experimental purposes shall, prior to handling, apply for and obtain a Certificate of Privilege from the committee which shall require the handler to furnish such reports and documents as the committee may require showing that the onions were handled for the purpose specified in the Certificate of Privilege.

(g) *Inspection.* (1) On and after the effective date hereof, no handler shall handle any onions unless an appropriate inspection certificate has been issued with respect thereto.

(2) No handler shall transport or cause the transportation of any shipment of onions by motor vehicle for which an inspection certificate is required unless each such shipment is accompanied by a copy of the inspection certificate applicable thereto or by documentary evidence on forms furnished by the committee identifying truck lots to which a valid inspection certificate is applicable and a copy of such inspection certificate or committee document, upon request, is surrendered to authorities designated by the committee.

(3) For purpose of operation under this part each required inspection certificate or form required by the committee as evidence of inspection is hereby determined to be valid for a period not to exceed 72 hours following completion of inspection as shown on the certificate.

(h) *Definitions.* The terms "U.S. No. 1" and "U.S. No. 2" shall have the same meanings as set forth in the United States Standards for Bermuda-Granex Type Onions (§§ 51.3195—51.3209 of this title), or United States Standards for Grades of Onions (§§ 51.2830—51.2850 of this title), whichever is applicable to the particular variety, including [illegible] ances for decay and [illegible] therein. All other terms used in [illegible] tion shall have the same [illegible] when used in Marketing Order [illegible] (Part 959 of this title).

(Secs. 1–19, 48 Stat. 31, as amended; [illegible] 601–674).

Dated: February 9, 1962, to [illegible] effective February 19, 1962.

[Reg. Docket No. 904; Amdt. 40–8]

PART 40—SCHEDULED INTERSTATE AIR CARRIER CERTIFICATION AND OPERATION RULES

Illumination of Passenger Emergency Exit Markings

The Federal Aviation Agency published as a notice of proposed rule making (26 F.R. 9241) and circulated as Civil Air Regulations Draft Release No. [illegible] dated September 21, 1961, a proposal to amend Parts 40, 41, 42, and 46 of the Civil Air Regulations to require the illumination of passenger emergency exit markings during all takeoffs and landings, day and night.

In proposing these amendments, the Agency considered several recent accidents and incidents where illumination of the emergency exits during daylight hours may have resulted in a more effective evacuation of the passengers and crew. The Civil Air Regulations as originally adopted did not require daytime use of the emergency exit lighting system. It is now considered that this additional lighting during daylight hours is necessary to provide maximum safety where the evacuation of large numbers of passengers is concerned.

Interested persons have been afforded an opportunity to participate in the making of this regulation and due consideration has been given to all relevant matter presented. In general, all comments received from interested persons as a result of the Agency's notice of proposed rule making were favorable to the proposal.

In consideration of the foregoing, § 40.173(f)(2) of Part 40 of the Civil Air Regulations (14 CFR Part 40, as amended) is hereby amended to read as follows, effective March 20, 1962:

[illegible] Emergency equipment for all [illegible]

* * * * *

Interior emergency exit markings.

[illegible] In all passenger-carrying airplanes, a source or sources of light with an energy supply independent of the main lighting system shall be installed to illuminate all passenger emergency exit markings. Such lights shall be designed to function automatically in a crash landing and to continue to function thereafter, and shall also be operable manually, or shall be designed only for manual operation and also to continue to function following a crash landing. When such lights require arming of the system to function automatically, the system shall be armed prior to each takeoff and landing. When such lights require manual operation to function, they shall be turned on prior to each takeoff and landing.

(Secs. 313(a), 601, 604, 605; 72 Stat. 752, 775, 778; 49 U.S.C. 1354(a), 1421, 1424, 1425)

Issued in Washington, D.C., on February 12, 1962.

N. E. HALABY,
Administrator.

[Reg. Docket No. 904; Amdt. 41–4]

PART 41—CERTIFICATION AND OPERATING RULES FOR SCHEDULED AIR CARRIER OPERATIONS OUTSIDE THE CONTINENTAL LIMITS OF THE UNITED STATES

Illumination of Passenger Emergency Exit Markings

The Federal Aviation Agency published as a notice of proposed rule making (26 F.R. 9241) and circulated as Civil Air Regulations Draft Release No. 61–20 dated September 21, 1961, a proposal to amend Parts 40, 41, 42, and 46 of the Civil Air Regulations to require the illumination of passenger emergency exit markings during all takeoffs and landings, day and night.

In proposing these amendments, the Agency considered several recent accidents and incidents where illumination of the emergency exits during daylight hours may have resulted in a more effective evacuation of the passengers and crew. The Civil Air Regulations as originally adopted did not require daytime use of the emergency exit lighting system. It is now considered that this additional lighting during daylight hours is necessary to provide maximum safety where the evacuation of large numbers of passengers is concerned.

Interested persons have been afforded an opportunity to participate in the making of this regulation and due consideration has been given to all relevant matter presented. In general, all comments received from interested persons as a result of the Agency's notice of proposed rule making were favorable to the proposal.

In consideration of the foregoing, § 41.23d(b)(2) of Part 41 of the Civil Air Regulations (14 CFR Part 41, as amended) is hereby amended to read as follows, effective March 20, 1962:

§ 41.23d Emergency evacuation equipment.

* * * * *

(b) *Interior emergency exit markings.* * * *

(2) In all passenger-carrying airplanes, a source or sources of light with an energy supply independent of the main lighting system shall be installed to illuminate all passenger emergency exit markings. Such lights shall be designed to function automatically in a crash landing and to continue to function thereafter, and shall also be operable manually, or shall be designed only for manual operation and also to continue to function following a crash landing. When such lights require arming of the system to function automatically, the system shall be armed prior to each takeoff and landing. When such lights require manual operation to function, they shall be turned on prior to each takeoff and landing.

(Secs. 313(a), 601, 604, 605; 72 Stat. 752, 775, 778; 49 U.S.C. 1354(a), 1421, 1424, 1425)

Issued in Washington, D.C., on February 12, 1962.

[Reg. Docket No. 904; Amdt 42–39]

PART 42—IRREGULAR AIR CARRIER AND OFF-ROUTE RULES

Illumination of Passenger Emergency Exit Markings

The Federal Aviation Agency published as a notice of proposed rule making (26 F.R. 9241) and circulated as Civil Air Regulations Draft Release No. 61–20 dated September 21, 1961, a proposal to amend Parts 40, 41, 42 and 46 of the Civil Air Regulations to require the illumination of passenger emergency exit markings during all takeoffs and landings, day and night.

In proposing these amendments, the Agency considered several recent accidents and incidents where illumination of the emergency exits during daylight hours may have resulted in a more effective evacuation of the passengers and crew. The Civil Air Regulations as originally adopted did not require daytime use of the emergency exit lighting system. It is now considered that this additional lighting during daylight hours is necessary to provide maximum safety where the evacuation of large numbers of passengers is concerned.

The amendment adopted herein, as distinguished from that adopted in Parts 40, 41, and 46, excludes small passenger-carrying aircraft. This exclusion is consistent with the present provisions of Part 42 and Draft Release 60–13 (25 F.R. 7452) in regard to interior emergency exit markings for small aircraft.

Interested persons have been afforded an opportunity to participate in the making of this regulation and due consideration has been given to all relevant matter presented. In general, all comments received from interested persons as a result of the Agency's notice of proposed rule making were favorable to the proposal.

In consideration of the foregoing, § 42.24c(b)(2) of Part 42 of the Civil Air Regulations (14 CFR Part 42, as amended) is hereby amended to read as follows, effective March 20, 1962:

§ 42.24c Emergency evacuation equipment.

* * * * *

(b) *Interior emergency exit markings.* * * *

(2) In all large passenger-carrying airplanes, a source or sources of light with an energy supply independent of the main lighting system shall be installed to illuminate all passenger emergency exit markings. Such lights shall be designed to function automatically in a crash landing and to continue to function thereafter, and shall also be operable manually, or shall be designed only for manual operation and also to continue to function following a crash landing. When such lights require arming of the system to function automatically, the system shall be armed prior to each takeoff and landing. When such lights require manual operation to function, they shall be turned on prior to each takeoff and landing.

(Secs. 313(a), 601, 604, 605; 72 Stat. 752, 775, 778; 49 U.S.C. 1354(a), 1421, 1424, 1425)

Issued in Washington, D.C., on February 12, 1962.

N. E. HALABY,
Administrator.

[F.R. Doc. 62–1609; Filed, Feb. 15, 1962; 8:47 a.m.]

[Reg. Docket No. 904; Amdt. 46–5]

PART 46—SCHEDULED AIR CARRIER HELICOPTER CERTIFICATION AND OPERATION RULES

Illumination of Passenger Emergency Exit Markings

The Federal Aviation Agency published as a notice of proposed rule making (26 F.R. 9241) and circulated as Civil Air Regulations Draft Release No. 61–20 dated September 21, 1961, a proposal to amend Parts 40, 41, 42, and 46 of the Civil Air Regulations to require the illumination of passenger emergency exit markings during all takeoffs and landings, day and night.

In proposing these amendments, the Agency considered several recent accidents and incidents where illumination of the emergency exits during daylight hours may have resulted in a more effective evacuation of the passengers and crew. The Civil Air Regulations as originally adopted did not require daytime use of the emergency exit lighting system. It is now considered that this additional lighting during daylight hours is necessary to provide maximum safety where the evacuation of large numbers of passengers is concerned.

Interested persons have been afforded an opportunity to participate in the

making of this regulation and due consideration has been given to all relevant matter presented. In general, all comments received from interested persons as a result of the Agency's notice of proposed rule making were favorable to the proposal.

In consideration of the foregoing, § 46.173(d) of Part 46 of the Civil Air Regulations (14 CFR Part 46, as amended) is hereby amended to read as follows, effective March 20, 1962:

§ 46.173 Emergency equipment for all operations.

* * * * *

(d) *Interior emergency exit markings.* All emergency exits, their means of access, and their means of opening shall be marked conspicuously. In all passenger-carrying helicopters, a source or sources of light with an energy supply independent of the main lighting system shall be installed to illuminate all passenger emergency exit markings. Such lights shall be designed to function automatically in a crash landing and to continue to function thereafter, and shall be operable manually, or shall be designed only for manual operation and also to continue to function following a crash landing. When such lights require arming of the system to function automatically, the system shall be armed prior to each takeoff and landing. When such lights require manual operation to function, they shall be turned on prior to each takeoff and landing. The identity and location of emergency exists shall be recognizable from a distance equal to the width of the cabin. The location of the emergency exit operating handle and the instructions for opening shall be marked on or adjacent to the emergency exit and shall be readable from a distance of 30 inches by a person with normal eyesight.

(Secs. 313(a), 601, 604, 605; 72 Stat. 752, 775, 778; 49 U.S.C. 1354(a), 1421, 1424, 1425)

Issued in Washington, D.C., on February 12, 1962.

N. E. HALABY,
Administrator.

[F.R. Doc. 62-1610; Filed, Feb. 15, 1962; 8:47 a.m.]

Chapter III—Federal Aviation Agency

SUBCHAPTER C—AIRCRAFT REGULATIONS

[Reg. Docket No. 1008; Amdt. 400]

PART 507—AIRWORTHINESS DIRECTIVES

Marvel-Schebler MA-3A, MA-3SPA, MA-4SPA, MA-4-5, MA-4-5AA Carburetors

A proposal to amend Part 507 of the Regulations of the Administrator to include an airworthiness directive requiring replacement of solder safetied float bracket attaching screws and float valve assemblies in Marvel-Schebler carburetors with parts incorporating nylon inserts was published in 26 F.R. 12256.

Interested persons have been afforded an opportunity to participate in the making of the amendment. No objections were received.

In consideration of the foregoing and pursuant to the authority delegated to me by the Administrator (25 F.R. 6489), § 507.10(a) of Part 507 (14 CFR Part 507), is hereby amended by adding the following new airworthiness directive:

MARVEL-SCHEBLER. Applies to all aircraft equipped with Marvel-Schebler MA-3A, MA-3SPA, MA-4SPA, MA-4-5, MA-4-5AA carburetors used on various models of Franklin (Aircooled), Continental, Lycoming, and Ranger engines.

Compliance required at the next carburetor replacement or overhaul of either the carburetor or engine, whichever occurs first, after the effective date of this AD.

Failure of the solder safety on the two Marvel-Schebler P/N A15-A21 screws which secure the float bracket to throttle body of the carburetor allows the screws to back out, thus causing loosening of the float bracket and loss of normal needle valve action resulting in reduction of engine power, and complete engine stoppage at reduced throttle settings. To preclude this, the following shall be accomplished:

Replace all soldersafetied float bracket attaching screws, P/N A15-A21, with "Long-Lok" safety screws incorporating nylon inserts, and replace all soldersafetied float valve assemblies with "Long-Lok" matched float valves and float valve seats, in the manner described in Marvel-Schebler Service Bulletins Nos. 9-60 and 15-60.

(Marvel-Schebler Service Bulletins Nos. 9-60 and 15-60 cover this same subject.)

This amendment shall become effective March 20, 1962.

(Secs. 313(a), 601, 603; 72 Stat. 752, 775, 776; 49 U.S.C. 1354(a), 1421, 1423)

Issued in Washington, D.C., on February 9, 1962.

G. S. MOORE,
Acting Director,
Flight Standards Service.

[F.R. Doc. 62-1590; Filed, Feb. 15, 1962; 8:45 a.m.]

[Regulatory Docket No. 1075]

PART 450—INTER-AMERICAN AVIATION TRAINING GRANTS

PART 560—REIMBURSEMENT FOR DAMAGE TO PUBLIC AIRPORTS BY FEDERAL AGENCIES

PART 580—ANCHORAGE AIRPORT AND FAIRBANKS AIRPORT

Recision

Draft Release 61-25, published in the FEDERAL REGISTER on November 15, 1961 (26 F.R. 10698) outlined the objectives of this Agency's recodification program. One of these objectives is the elimination of obsolete regulatory material. Accordingly, this amendment rescinds Parts 33, 450, 560, and 580 of Title 14 of the Code of Federal Regulations.

Part 33 contains certification and general operating rules for flight radio operators. Aircraft communication equipment has been improved to the point where flight radio operators are no longer utilized in air commerce and there is, consequently, no longer a need for the rules in Part 33.

Part 450 prescribes the requirements for the awarding of Inter-American aviation training grants. This Part has not been used for several years and there are no present appropriations [illegible] for its use. Aviation training of this type is now being provided under technical assistance programs under the Mutual Security Act.

Part 560 prescribes procedures under which public agencies may request reimbursement for the repair or rehabilitation of public airports damaged by a Federal agency. These procedures were prescribed under section 17 of the Federal Airport Act (49 U.S.C. 1116). Section 17 prohibits consideration of any request submitted after March 31, 1956. Accordingly, Part 560 should be deleted from the regulations.

Part 580 prescribes rules governing the operation of the Anchorage and Fairbanks Airports in Alaska. These rules no longer have any applicability as the FAA has turned over the operation of these airports to the State of Alaska.

As this amendment imposes no additional burden on any person but simply deletes obsolete regulatory material, compliance with the notice, public procedure, and effective date provisions of the Administrative Procedure Act is unnecessary.

In view of the foregoing, effective February 15, 1962, Chapter I of Title 14 is amended by deleting Part 33 and Chapter III of Title 14 is amended by deleting Parts 450, 560, and 580.

(Sec. 313(a) of the Federal Aviation Act of 1958 (49 U.S.C. 1354) and sec. 17 of the Federal Airport Act (49 U.S.C. 1116))

Issued in Washington, D.C., on February 14, 1962.

N. E. HALABY,
Administrator.

[F.R. Doc. 62-1675; Filed, Feb. 15, 1962; 9:36 a.m.]

SUBCHAPTER E—AIR NAVIGATION REGULATIONS

[Airspace Docket No. 62-WA-17]

PART 600—DESIGNATION OF FEDERAL AIRWAYS

PART 601—DESIGNATION OF CONTROLLED AIRSPACE, REPORTING POINTS, POSITIVE CONTROL ROUTE SEGMENTS, AND POSITIVE CONTROL AREAS

PART 602—DESIGNATION OF JET ROUTES, JET ADVISORY AREAS, AND HIGH ALTITUDE NAVIGATIONAL AIDS

Alteration of Federal Airways and Associated Control Areas, Control Area Extension, Control Zone, Reporting Point, Jet Routes and Jet Advisory Areas

The purpose of these amendments to Parts 600, 601 and 602 of the Regulations of the Administrator is to change the name of the Mission Bay, Calif., VOR to San Diego, Calif., VOR, and to change the name of the San Diego-Lindbergh, Calif., VOR to Lindbergh Field, Calif., VOR wherever they appear in these Parts. This action will associate the en route navigational aid with the principal city in this area and associate the

[illegible] navigational aid with the [illegible] airport serving this city. Better communications and improved charting facility will result from this action.

Since these changes are editorial in nature and will not assign or reassign the use of navigable airspace, notice and public procedure hereon are unnecessary and they may be made effective on less than 30 days notice.

In consideration of the foregoing and pursuant to the authority delegated to me by the Administrator (25 F.R. 12582) the following actions are taken:

1. Section 600.6023 (14 CFR 600.6023, 26 F.R. 572, 1209, 4052, 11727, 27 F.R. 98) is amended as follows:

a. In the caption "Mission Bay, Calif.," is deleted and "San Diego, Calif.," is substituted therefor.

b. In the text "From the Mission Bay, Calif.," is deleted "and From the San Diego, Calif.," is substituted therefor.

2. Section 600.6025 (14 CFR 600.6025, 26 F.R. 2221, 4052, 7803, 11727) is amended as follows:

a. In the caption "Mission Bay, Calif.," is deleted and "San Diego, Calif.," is substituted therefor.

b. In the text "From the Mission Bay, Calif.," is deleted and "From the San Diego, Calif.," is substituted therefor.

3. In the text of § 600.6066 (14 CFR 600.6066) "From the Mission Bay, Calif.," is deleted and "From the San Diego, Calif.," is substituted therefor.

4. In the text of § 600.615 (14 CFR 600.6168, 26 F.R. 11727) "From the San Diego-Lindbergh, Calif., TVOR via the INT of the San Diego-Lindbergh TVOR 287°" is deleted and "From the Lindbergh Field, Calif., VOR via the INT of the Lindbergh Field VOR 287°" is substituted therefor.

5. In the text of § 600.1540 (26 F.R. 1068) "From the Mission Bay, Calif., VOR 12 mile wide airway to the INT of the Mission Bay VOR 090°" is deleted and "From the San Diego, Calif., VOR 12-mile wide airway to the INT of the San Diego VOR 090°" is substituted therefor.

6. In the text of § 600.1542 (26 F.R. 6231) "From the Mission Bay, Calif., VOR 12 mile wide airway to the INT of the Mission Bay VOR 090°" is deleted and "From the San Diego, Calif., VOR 12-mile wide airway to the INT of the San Diego VOR 090°" is substituted therefor.

7. In the text of § 600.1557 (26 F.R. 1097, 10428, 27 F.R. 616) "From the Mission Bay, Calif., VOR" is deleted and "From the San Diego, Calif., VOR" is substituted therefor.

8. In the text of § 600.1613 (26 F.R. 1098) "From the Mission Bay, Calif., VOR;" is deleted and "From the San Diego, Calif., VOR;" is substituted therefor.

9. In the caption of § 601.6023 (14 CFR 601.6023, 26 F.R. 4052, 27 F.R. 98) "Mission Bay, Calif., is deleted and "San Diego, Calif.," is substituted therefor.

10. In the caption of § 601.6025 (14 CFR 601.6025, 26 F.R. 4052) "Mission Bay, Calif.," is deleted and "San Diego, Calif.," is substituted therefor.

11. The text of § 601.1111 (14 CFR 601.1111) is amended to read as follows:

Within a 21-mile radius of the San Diego, Calif., VOR extending counterclockwise from the San Diego VOR 251° radial to the boundary of the Miramar, Calif., control area extension (§ 601.-1223), within 5 miles either side of the 251° radial of the San Diego VOR extending from the VOR to 28 miles SW, and within 5 miles either side of the 287° radial of the Lindbergh Field VOR extending from the VOR to 28 miles NW, excluding the portion under the jurisdiction of Mexico and within the Imperial Beach, Calif., Warning Area (W-536).

12. In the text of § 601.2186 (26 F.R. 7262) "within 2 miles either side of the San Diego-Lindbergh VOR 287° radial" is deleted and "within 2 miles either side of the Lindbergh Field VOR 287° radial" is substituted therefor.

13. In the text of § 601.7001 (14 CFR 601.7001) "Mission Bay, Calif., VOR." is deleted and "San Diego, Calif., VOR." is substituted therefor.

14. In § 602.100 Jet routes (26 F.R. 7080, 12561) Jet Routes Nos. 1, 2 and 3 are amended as follows:

a. In the caption "Mission Bay, Calif.," is deleted and "San Diego, Calif.," is substituted therefor.

b. In the text "From Mission Bay, Calif.," is deleted and "From San Diego, Calif.," is substituted therefor.

15. In § 602.200 En route jet advisory areas (26 F.R. 7082, 12561) Jet Route Nos. 1 and 2 jet advisory areas are amended as follows: "Mission Bay, Calif.," is deleted and "San Diego, Calif.," is substituted therefor.

These amendments shall become effective 0001 e.s.t., March 8, 1962.

(Sec. 307(a), 72 Stat. 749; 49 U.S.C. 1348)

Issued in Washington, D.C., on February 13, 1962.

D. D. THOMAS,
Director, Air Traffic Service.

(Sec. 6, 38 Stat. 721; 15 U.S.C. 46. Interpret or apply sec. 5, 38 Stat. 719, as amended; sec. 8, 65 Stat. 179; 15 U.S.C. 45, 68f) [Cease and desist order, Todd Brothers Apparel Company et al., Cincinnati, Ohio, Docket 8419, Oct. 19, 1961]

In the Matter of Todd Brothers Apparel Company, a Corporation, and Samuel P. Todd and Sidney Rosenfeld, Individually and as Officers of said Corporation

Consent order requiring Cincinnati furriers to cease violating the Fur Products Labeling Act by failing, in labeling and invoicing fur products, to show the true animal name of the fur in the product, the country of origin, and when the fur was dyed; by failing to keep adequate records as a basis for price and value representations made in advertising; and failing in other respects to comply with requirements of the Act.

The order to cease and desist is as follows:

It is ordered, That Todd Brothers Apparel Company, a corporation and its officers, and Samuel P. Todd and Sidney Rosenfeld, individually and as officers of said corporation and respondents' representatives, agents and employees, directly or through any corporate or other device, in connection with the introduction into commerce, or the sale, advertising, or offering for sale in commerce, or the transportation or distribution in commerce of fur products, or in connection with the sale, advertising, offering for sale, transportation, or distribution of fur products which are made in whole or in part of fur which has been shipped and received in commerce, as "commerce," "fur," and "fur product" are defined in the Fur Products Labeling Act, do forthwith cease and desist from:

1. Misbranding fur products by:

A. Failing to affix labels to fur products showing in words and figures plainly legible all the information required to be disclosed by each of the subsections of section 4(2) of the Fur Products Labeling Act;

B. Setting forth on labels affixed to fur products the name or names of any animal or animals other than the name or names provided for in section 4(2)(A) of the Fur Products Labeling Act;

C. Setting forth on labels affixed to fur products:

1. Information required under section 4(2) of the Fur Products Labeling Act and the rules and regulations promulgated thereunder mingled with nonrequired information;

2. Information required under section 4(2) of the Fur Products Labeling Act and the rules and regulations promulgated thereunder in handwriting.

D. Failing to set forth the information required under section 4(2) of the Fur Products Labeling Act and the rules and regulations promulgated thereunder in the required sequence;

E. Failing to set forth separately on labels affixed to fur products composed of two or more sections containing different animal furs the information required under section 4(2) of the Fur Products Labeling Act and the rules and regulations promulgated thereunder with respect to the fur comprising each section;

F. Failing to set forth on labels the item number or mark assigned to a fur product.

2. Falsely or deceptively invoicing fur products by:

A. Failing to furnish invoices to purchasers of fur products showing in words and figures plainly legible all the information required to be disclosed by each of the subsections of section 5(b)(1) of the Fur Products Labeling Act;

B. Setting forth information required under section 5(b)(1) of the Fur Products Labeling Act and the rules and regulations promulgated thereunder in abbreviated form;

C. Failing to set forth information required under section 5(b)(1) of the Fur Products Labeling Act and the rules and regulations promulgated thereunder with respect to each section of fur products composed of two or more sections containing different animal furs.

3. Making claims and representations of the types covered by subsections (a), (b), (c), and (d) of Rule 44 of the rules and regulations promulgated under the Fur Products Labeling Act unless there are maintained by respondents full and adequate records disclosing the facts upon which such claims and representations are based.

By "Decision of the Commission", etc., report of compliance was required as follows:

It is ordered, That the above-named respondents shall, within sixty (60) days after service upon them of this order, file with the Commission a report in writing, setting forth in detail the manner and form in which they have complied with the order to cease and desist.

Issued: October 19, 1961.

By the Commission.

[SEAL] JOSEPH W. SHEA, *Secretary.*

[F.R. Doc. 62-1504; Filed, Feb. 15, 1962; 8:45 a.m.]

Title 41—PUBLIC CONTRACTS

Chapter 5—General Services Administration

PART 5-53—CONTRACT ADMINISTRATION

Miscellaneous Amendments

1. Section 5-53.000 is added to read as follows:

§ 5-53.000 Scope of part.

This Part 5-53 establishes policies and procedures relating to the administration of contracts.

2. Subparts 5-53.1, 5-53.4, 5-53.5, and 5-53.6 are added to read as follows:

Subpart 5-53.1—General

§ 5-53.101 Definition.

Contract administration is the performance or coordination of actions necessary to assure that both the Government and the contractor fulfill their obligations under existing contracts and that both receive the benefits to which they are entitled.

Subpart 5-53.4—Contract Performance

§ 5-53.401 General.

(a) In order to obtain contractor performance and to assure Government performance in accordance with contract terms, action shall be taken, consistent with sound business practice and based on the circumstances in each case, as prescribed in this Subpart 5-53.4.

(b) A system shall be maintained for obtaining contractor performance and assuring Government performance as required by the contract within the time period established in the contract. This system should be based on determinations by the contracting officer, early in the existence of the contract, regarding the specific contract administration actions to be taken, who shall take them, and when and where they will be performed. Followup action should include coordination with appropriate elements of GSA.

(c) Decisions regarding extension of performance time, suspension of work, and termination of a contractor's right to proceed shall be made only by the contracting officer or, when specifically vested with such authority, another person or ordering office.

§ 5-53.402 Contractor performance under supply or service contracts.

(a) Followup action on performance by a contractor may be initiated before the required time of performance if, after inquiry, no definite indication is received that the contractor intends to perform in accordance with the contract terms. Subsequent followup, before the required performance date, should be scheduled on the basis of the reply to the inquiry.

(b) When performance time under a contract has expired, and the contractor has not performed, or given substantial indication that performance will be completed within a reasonable period of time, satisfactory results can often be obtained through the use of collect telegrams or collect telephone calls, or by personal contact with the contractor or his representative.

(c) If it becomes apparent that the contractor cannot, or will not, perform in accordance with the terms of the contract, the contracting officer, as indicated in § 5-53.401(c), shall take appropriate action as provided in § 5-53.501.

§ 5-53.403 Contractor performance under construction contracts.

The administration of construction contracts is a continuous process from the time the contractor is given a notice to proceed to the time of final acceptance of the work and payment therefor. Careful adherence to the following will aid in successful completion of the contract:

(a) Frequent and timely inspections should be scheduled to determine if satisfactory progress is being made and, in the event of any delay, to take appropriate action.

(b) Prompt action should be taken to provide required approvals of shop drawings, equipment, and materials, and to expedite necessary change orders as authorized.

(c) Progress and advance payments should be made promptly in accordance with contract terms.

(d) Materials to be furnished by the Government and installed by the contractor should be delivered at the proper time.

Subpart 5-53.5—Termination

§ 5-53.501 Termination for default.

(a) Termination for default, as discussed in this § 5-53.501, is that action taken by the Government against a contractor for a breach (actual or anticipatory) of contract in which cessation of remedial steps provided for by law are substituted for the right to full contract performance. Termination may be directed to the whole or any part of the remaining performance depending on the circumstances of each situation. The actions taken in the exercise of the remedial steps are, from a legal standpoint, separated into the following two major parts:

(1) Termination by written notice of the contractor's right to proceed with performance of the contract in whole or in part.

(2) Final adjustment of the rights of the parties on the unperformed or nonperformed portion of the contract by mutual agreement or disputes-appeal process.

§ 5-53.501-1 General.

(a) Action to terminate a contractor's right to proceed with the performance of a contract shall be taken by the contracting officer or, when specifically vested with such authority, another individual or ordering office.

(b) The termination of a contractor's right to proceed with the performance of a contract for default depends upon the provisions of each particular contract. Every failure of a contractor to perform in accordance with the contract terms does not, in itself, create a necessity to terminate the right of a contractor to proceed with performance. Before termination action is taken a contracting officer shall consider the factors in § 5-53.501-4.

(c) A contractor shall not be held liable for actual or liquidated damages when a delay in performance arises out of causes beyond the control and without the fault or negligence of the contractor, as defined in the default provisions of the contract. The timely procurement of materials required for the performance of a contract is the responsibility of a prime contractor, and he is responsible for obtaining and submitting data to justify delays caused by subcontractors and suppliers.

(d) Under a contract which contains a performance bond, the surety has a right to an opportunity to complete the defaulted contract or portion thereof. If a surety takes over the performance of a contract, ordinarily a new agreement incorporating the terms of the original contract should be executed with the surety and the original contractor. The agreement should also include necessary

adjustments of the obligations of the original contract (such as accrued liquidated damages, if any) and necessary arrangements for the continued contract performance (such as appointment by the surety of a new contractor acceptable to, and determined responsible by, the contracting officer).

§ 5-53.501-2 Termination of fixed-price supply or service contracts.

(a) Termination action under the Default clause (see § 1-7.101-11) may be taken to terminate the whole or any part of a contract for default if the contractor fails to make delivery of the supplies or to perform the services within the time specified in the contract or any extension thereof, fails to make progress so as to endanger performance of the contract, or fails to perform any other provision of the contract. When the contracting officer waives the delay, he may not terminate. Termination action, however, may be taken by the contracting officer, where desirable, even if an excusable cause for delay has been found. When action to terminate for default is to be taken, proper notice shall be given in accordance with the Default clause and as set forth in §§ 5-53.501-5 and 5-53.501-6.

(b) When action to terminate for default is properly taken, the Government is not liable for the contractor's costs on undelivered work and is entitled to repayment of any advance payments and of any progress payments applicable to such work. If the Government elects to take all or any part of the completed supplies and the manufacturing materials (as defined in the Default clause) or the completed services, the contractor shall be paid the contract price for such completed supplies and services as may be accepted and the amount agreed on by the contractor and the contracting officer for the manufacturing materials.

(c) When a contract is terminated, the contractor shall be liable for any excess costs for supplies or services procured by the Government and for any other damages legally chargeable under the contract, unless the clauses are excusable under the contract (e.g., if the failure to perform arises out of causes beyond the control and without the fault or negligence of the contractor; or failure is caused by the default of a subcontractor and his default is without his fault or negligence or that of the contractor).

§ 5-53.501-3 Termination of fixed-price construction contracts.

Under contracts containing the Termination for Default-Damages for Delay-Time Extensions clause contained in § 1-16.901-19 or § 1-16.901-23A, the Government has the right to terminate the contractor's right to proceed with the work if the contractor, except for excusable causes (see (a), below), refuses or fails to prosecute the work required by the contract, or any separable part thereof, with such diligence as will insure its completion within the time specified in the contract or any extension thereof, or fails to complete the work required under the contract within such time. The contractor's right to proceed may also be terminated for violation of paragraph 1, Standard Form 19A, Labor Standards Provisions (illustrated at § 1-16.901-19A).

(a) Where the delay is due to unforeseeable causes beyond the control and without the fault or negligence of the contractor, the contractor's right to proceed shall not be terminated if written notice of such causes has been furnished the contracting officer within 10 days from the beginning of such delay. This period may be extended by the contracting officer but not beyond the date of final payment. The extended date becomes the new date from which the Government's right to terminate proceeds.

(b) If a contractor's right to proceed is terminated for default, and the surety does not desire to take over and complete the work or, if the contracting officer determines that action proposed by the surety will not be in the best interests of the Government, the Government may take over the work and complete it or cause it to be completed, taking possession of and utilizing such materials, appliances, and plant as may be on the site and necessary for such completion, and the contractor and his surety shall be liable to the Government for any excess costs caused thereby. If after taking over the work the Government is not reasonably able to complete it, or have it completed, within the time specified for completion in the defaulted contract, the contractor and his surety shall be liable for, in addition to any excess costs, any liquidated damages for the delay as may be specified in the contract, or for actual damages caused by the delay if liquidated damages are not so specified.

§ 5-53.501-4 Basic considerations for termination action.

Upon failure of a contractor to perform in accordance with the terms of the contract, the following factors shall be considered in determining whether or not to terminate his right to proceed:

(a) The provisions of the contract, and applicable laws and regulations;

(b) The significance of the failure or failures of the contractor;

(c) The availability of the supplies or services from other sources, or, in the case of construction contracts, the availability of a substitute contractor;

(d) In the case of supply or service contracts, the urgency of the need for such supplies or services and the period of time which would be required to obtain the supplies or services from other sources as compared with the time in which delivery or performance could be obtained from the delinquent contractor; or, in the case of construction contracts, the period of time which would be required for the Government or another contractor to complete the work as compared with the time required for completion by the delinquent contractor;

(e) The essentiality of the contractor in the Government procurement program and the effect of a termination for default upon the contractor's capability as a supplier under other contracts;

(f) The effect of a termination for default on the ability of the contractor to liquidate guaranteed loans, progress payments, or advance payments; and

(g) Any other pertinent facts and circumstances.

§ 5-53.501-5 Notice of intent to terminate for default.

When the contract so requires or when urgent action to terminate for default is not required and, in any event, the contractor has not been excused from the specific failure to perform, the contractor shall be furnished a preliminary notice in writing advising that termination action will be taken after the expiration of 10 days (or longer period as authorized by the contracting officer) unless the contractor has cured the failure within that period of time. The preliminary notice shall be specific with respect to the contract number and date, the contract provision under which action is contemplated, the failure which will cause termination action unless corrected, and the length of time for corrective action. If the need for performance is urgent and the specific failure to perform has not been excused, the contracting officer may take immediate termination action without issuance of a preliminary notice unless the notice is required by the terms of the contract (e.g., paragraph 11(a)(ii), Standard Form 32, General Provisions (Supply Contract) requires such a notice).

§ 5-53.501-6 Termination notice.

(a) After decision by the contracting officer to terminate a contractor's right to proceed, a written notice of such termination shall be forwarded to the contractor. Language suggesting cancellation of the contract should be avoided. The written notice to the contractor shall be specific with respect to the following:

(1) Identification of the contract, its date, and the provision of the contract permitting termination;

(2) Description of the acts or omissions constituting the default;

(3) A statement terminating the contractor's right to proceed with performance of the contract, or the specific portion thereof, and the effective date of the termination;

(4) A statement that the Government reserves all rights and remedies provided by law or under the contract;

(5) A statement that the notice constitutes a decision that the contractor is in default as specified, and that the contractor has the right to appeal under the applicable Disputes clause;

(6) A statement that the contractor will be liable for any excess costs to the Government occasioned by the termination action;

(7) Instructions regarding the safeguarding and disposition of any Government property in the possession of the contractor;

(8) Where applicable, a statement that the defaulting contractor and his surety will be liable for liquidated damages at the rate specified until such reasonable time as may be required to complete the work or secure delivery, as the case may be, in addition to any excess

costs involved in obtaining performance elsewhere; and

(9) Instructions regarding the acquisition by the Government of such materials, appliances, and plant as may be on the site of the construction work and necessary therefor; or any completed supplies or manufacturing materials.

(b) The termination notice shall be signed by the contracting officer or other person properly vested with such authority.

(c) In order to assure that the contractor receives the termination notice, the contracting officer shall forward such notice via certified mail, return receipt requested, or other appropriate means which will assure a signed receipt for the notice.

(d) In addition to internal distribution within the service or staff office involved, copies of termination notices shall be furnished to Office of General Counsel, Office of Comptroller, and the Compliance Division. A copy of the notice shall also be furnished to any assignee or surety of the contractor for the particular contract involved. At the same time, the surety shall be given an opportunity to take over and complete the contract.

§ 5–53.501–7 Reprocurement against defaulting contractor.

(a) If property or services (including construction) are to be reprocured against a defaulting contractor, such reprocurement shall be done as soon as practicable after termination of the contractor's right to proceed, and shall be for the same or similar property or services (in the case of construction, for the unfinished work) as covered by the termination notice. Such reprocurement shall be made at as reasonable a price as practicable considering the quality, quantity, and time of performance required by the Government.

(b) Reprocurement may, at the discretion of the contracting officer, be made by negotiation.

Subpart 5–53.6—Disputes

§ 5–53.601 General.

Questions of fact arising under contracts which are not disposed of by agreement shall be decided by the contracting officer and the decision, if appealed, processed in accordance with this Subpart 5–53.6.

§ 5–53.602 Notice to contractor.

When a contracting officer has decided a disputed matter involving a question of fact, the contractor shall be notified of such decision in writing. The notice shall contain a paragraph substantially as follows: This is the final decision of the contracting officer. Decisions on disputed questions of fact and on other questions that are subject to the Disputes clause may be appealed in accordance with the provisions of the Disputes clause. If you decide to make such an appeal from this decision, the appeal (in triplicate) addressed to the Administrator of General Services, General Services Administration, General Services Building, Washington 25, D.C., must be mailed or otherwise furnished to the contracting officer within thirty days from the date you receive this decision. Such appeal should reference this decision and identify the contract. Pending final decision of the dispute, you must proceed diligently with the performance of the contract.

§ 5–53.603 Appeals.

(a) Upon receipt of an appeal or notice of appeal timely filed (or notice from the Board of Contract Appeals that an appeal has been filed), the contracting officer shall compile and transmit to the Board of Contract Appeals copies of all documents pertinent to the appeal. Timeliness of the appeal may be raised by the Government and heard as a preliminary matter of the Board's jurisdiction. In assembling the documents the contracting officer should obtain advice from the appropriate legal counsel on the adequacy of the documents and the need for additional supporting information, findings, or statements.

(b) The documents should include, but not be limited to, the following when pertinent:

(1) The findings of fact and the decision from which the appeal is taken;

(2) The invitation for bids, the contract, pertinent plans, specifications, amendments, and change orders;

(3) Correspondence between the parties and other data material to the appeal;

(4) Transcripts of any testimony taken during the course of the proceedings of the matter prior to the filing of the appeal;

(5) Such additional information as the contracting officer or other official may consider material; and

(6) A brief stating the position of the Government.

§ 5–53.604 Decision on appeal.

After consideration of the disputed matter, the Board of Contract Appeals will render its decision which shall be final and conclusive with respect to any question of fact. This does not preclude the rendition by the Board of Contract Appeals of a decision on a question of law incident to a decision on a disputed question of fact. The Board of Contract Appeals shall advise both the contractor and the contracting officer of its decision.

Effective date. These regulations are effective upon publication in the FEDERAL REGISTER.

(Sec. 205(c), 63 Stat. 390; 40 U.S.C. 486(c))

Dated: February 12, 1962.

BERNARD L. BOUTIN,
Administrator.

Proposed Rule Making

FEDERAL COMMUNICATIONS COMMISSION

[47 CFR Parts 2, 11]

[Docket No. 14499; FCC 62-123]

FREQUENCY ALLOCATIONS AND RADIO TREATY MATTERS; AND INDUSTRIAL RADIO SERVICES

Proposed Amendment of Regulations To Substitute Frequencies Available for Assignment to Non-Government Stations Transmitting Hydrological and Meteorological Data in Cooperation With Agencies of Federal Government

1. Notice is hereby given of proposed rule-making in the above-entitled matter.

2. The band 162–174 Mc/s is allocated nationally to Government radio service; however, Footnote US13 to the Commission's Part 2 Table of Frequency Allocations and Part 11 permit the use of certain specific frequencies in this band by non-Government stations to transmit hydrological and meteorological data in cooperation with agencies of the Federal Government.

3. In the interest of more efficient spectrum utilization, Government users have adopted a narrow-band frequency assignment plan which specifies the following 25 kc/s channels in the 162–174 Mc/s band for hydrologic use by all Government agencies, shared with non-Government stations under the terms of Footnote US13:

169.425	170.225	171.025	171.825
.450	.250	.050	.850
.475	.275	.075	.875
.500	.300	.100	.900
.525	.325	.125	.925

4. Inasmuch as non-Government use of this band is limited to cooperation with agencies of the Federal Government, it is hereby proposed to amend Footnote US13 of Part 2 and Part 11 of the Commission's rules as shown below, to substitute the above-mentioned frequencies for those presently specified.

5. It is proposed that non-Government stations currently licensed to use frequencies 169.575, 170.375, 171.175 or 171.975 Mc/s may continue to operate on these presently assigned frequencies on a non-interference basis.

6. The proposed amendment to the Commission's rules, as set forth below, is issued pursuant to the authority contained in sections 303 (c), (f), and (r) of the Communications Act of 1934, as amended.

7. All interested persons are invited to file, on or before March 16, 1962, comments supporting or opposing the proposal set out here, or submitting any modifications or counter-proposals the parties may wish to submit. Comments in reply thereto may be submitted on or before March 26, 1962. The Commission will consider all comments filed hereunder prior to taking final action in this matter provided that, notwithstanding the provisions of § 1.213 of the rules, the Commission will not be limited solely to the comments filed in this proceeding.

8. In accordance with the provisions of § 1.54 of the Commission's rules and regulations, the original and 14 copies of all statements, briefs, or comments filed shall be furnished the Commission.

Adopted: February 6, 1962.

Released: February 9, 1962.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] BEN F. WAPLE,
Acting Secretary.

§ 2.106 [Amendment]

1. Footnote US13 to § 2.106 of the Commission's rules and regulations is amended to read as follows:

US13 For the specific purpose of transmitting hydrological and meteorological data in cooperation with agencies of the Federal Government, the following frequencies may be authorized to non-Government fixed stations on the condition that harmful interference will not be caused to Government stations:

Mc/s	*Mc/s*	*Mc/s*	*Mc/s*
169.425	170.275	171.125	406.075
169.450	170.300	171.825	406.125
169.475	170.325	171.850	406.175
169.500	171.025	171.875	412.625
169.525	171.050	171.900	412.675
170.225	171.075	171.925	412.725
170.250	171.100	406.025	412.775

§ 11.254 [Amendment]

2. Section 11.254(a) of the Commission's rules and regulations is amended by deleting from the tabulation of frequencies, entries beginning 169.425 Mc/s and ending 171.975 Mc/s and substituting the following:

Frequency or band	Class of station(s)	Limitations
Mc/s		
169.425	Operational fixed	4
169.450	do	4
169.475	do	4
169.500	do	4
169.525	do	4
170.225	do	4
170.250	do	4
170.275	do	4
170.300	do	4
170.325	do	4
171.025	do	4
171.050	do	4
171.075	do	4
171.100	do	4
171.125	do	4
171.825	do	4
171.850	do	4
171.875	do	4
171.900	do	4
171.925	do	4

§ 11.304 [Amendment]

3. Section 11.304(a) of the Commission's rules and regulations is amended by deleting from the tabulation of frequencies, entries beginning 169.425 Mc/s and ending 171.975 Mc/s and substituting the following:

Frequency or band	Class of station(s)	Limitations
Mc/s		
169.425	Operational fixed	2
169.450	do	2
169.475	do	2
169.500	do	2
169.525	do	2
170.225	do	2
170.250	do	2
170.275	do	2
170.300	do	2
170.325	do	2
171.025	do	2
171.050	do	2
171.075	do	2
171.100	do	2
171.125	do	2
171.825	do	2
171.850	do	2
171.875	do	2
171.900	do	2
171.925	do	2

§ 11.354 [Amendment]

4. Section 11.354(a) of the Commission's rules and regulations is amended by deleting from the tabulation of frequencies, entries beginning 169.425 Mc/s and ending 171.975 Mc/s and substituting the following:

Frequency or band	Class of station(s)	Limitations
Mc/s		
169.425	Operational fixed	2
169.450	do	2
169.475	do	2
169.500	do	2
169.525	do	2
170.225	do	2
170.250	do	2
170.275	do	2
170.300	do	2
170.325	do	2
171.025	do	2
171.050	do	2
171.075	do	2
171.100	do	2
171.125	do	2
171.825	do	2
171.850	do	2
171.875	do	2
171.900	do	2
171.925	do	2

§ 11.504 [Amendment]

5. Section 11.504(a) of the Commission's rules and regulations is amended by deleting from the tabulation of frequencies, entries beginning 169.425 Mc/s and ending 171.975 Mc/s and substituting the following:

Frequency or band	Class of station(s)	General reference	Limitations
Mc/s			
169.425	Operational fixed	Hydrological	
169.450	do	do	
169.475	do	do

[47 CFR Part 3]

[Docket No. 14267]

DEINTERMIXTURE OF SPRINGFIELD, ILLINOIS

Order Extending Time To Respond to Motion To Strike

1. The Commission has before it for consideration a motion, filed on February 8, 1962, by Wabash Valley Broadcasting Corporation, to extend the time from February 5, 1962, to February 19, 1962 for it to file a response to the "Motion to Strike Portion of Wabash Valley Reply Comments," filed on January 26, 1962, by Fort Harrison Telecasting Corporation in this proceeding.

2. Wabash Valley states that it needs additional time to prepare and file a response to the Fort Harrison motion and that Fort Harrison has advised that it has no objection to the extension of time it requests.

3. Upon consideration of the subject motion and the matters raised by the Fort Harrison motion to strike, the Commission believes that the extension requested for filing a response to the Fort Harrison motion is warranted.

4. In view of the foregoing: *It is ordered*, This 9th day of February 1962, That the motion of Wabash Valley Broadcasting Corporation is granted, and that the time for filing responses to the above-mentioned motion to strike of Fort Harrison Telecasting Corporation is extended to February 19, 1962.

5. This action is taken pursuant to authority found in sections 4(i), 5(d)(1), and 303(r) of the Communications Act of 1934, as amended, and section 0.241 (d)(8) of the Commission's rules.

Adopted: February 9, 1962.

Released: February 13, 1962.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] BEN F. WAPLE,
Acting Secretary.

[47 CFR Parts 7, 8]

[Docket No. 14423]

USE OF CERTAIN FREQUENCY FOR SAFETY AND OPERATIONAL COMMUNICATIONS

Order Accepting Comments and Extending Time for Filing

In the matter of amendment of Parts 7 and 8 of the Commission's rules concerning use of the frequency 2000 kc/s for safety and operational communications between ship stations and limited coast stations at causeways, bridges, waterways and similar locations, and between ship stations and U.S. Coast Guard coast stations for port security communications.

The Commission having under consideration petitions filed February 6 and 7, 1962, by E. M. Webster and Lake Carriers' Association, respectively, to accept late-filed comments in this proceeding;

It appearing that the Commission's notice of proposed rule making in this proceeding specified that comments should be filed on or before January 31, 1962; and

It further appearing that although the failure to meet the comment period date was the fault of the respective petitioners, the public interest will be served by accepting the late-filed comments of these petitioners;

It is ordered, That the late-filed comments of E. M. Webster and Lake Carriers' Association are accepted and made a part of this proceeding;

It is further ordered, That the time for filing reply comments in this proceeding is hereby extended from February 2, 1962 to February 12, 1962.

Adopted: February 12, 1962.

Released: February 13, 1962.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] BEN F. WAPLE,
Acting Secretary.

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

[7 CFR Part 981]

HANDLING OF ALMONDS GROWN IN CALIFORNIA

Proposed Amendment of Administrative Rules and Regulations

Notice is hereby given that there is under consideration a proposal to amend the administrative rules and regulations (Subpart—Administrative Rules and Regulations) pertaining to operations under the amended marketing agreement and order (7 CFR Part 981), regulating the handling of almonds grown in California, effective under the Agricultural Marketing Agreement Act of 1937, as amended (secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674).

Consideration will be given to written data, views, and arguments pertaining to the proposal which are filed with the Director, Fruit and Vegetable Division, Agricultural Marketing Service, United States Department of Agriculture, Washington 25, D.C., not later than fifteen days after publication of this notice in the FEDERAL REGISTER.

The proposal is:

(a) Amend paragraph (b) of § 981.450 by adding the following subpart (5):

(5) Identification of surplus almonds shall be further preserved in that no handler shall issue, or permit to be issued, any warehouse receipt or other storage document covering surplus almonds, which fails to state that it covers almonds which are subject to the terms of the order and regulations issued thereunder.

(b) Amend paragraph (a)(5) of § 981.452 by adding the following sentence: "Each inspection certificate for shelled almonds shall show the highest grade which such almonds meet as set forth in the effective United States Standards for Grades of Shelled Almonds and, if such almonds grade at least U.S. No. 1, the kernel size in terms of the average number of kernels per ounce."

(c) Amend paragraph (a) of § 981.467 by adding the following sentence: "During the period of such agency, such handlers may obtain loans on surplus almonds by hypothecating such almonds as security for the loans: *Provided*, Such handlers inform the lender, in the hypothecation agreement, that the disposition of the pledged surplus almonds is controlled by the Almond Control Board and the lender shall have no recourse against the Board. Each loan on surplus almonds shall be repaid by the handler prior to the termination of the agency, except loans obtained from the Commodity Credit Corporation which recognize the disposition requirements of this part and loans on almonds sold but held for delivery during the time permitted by the Board, in which case the loan shall be repaid upon shipment or at the end of the permitted period, whichever occurs first."

Dated: February 13, 1962.

PAUL A. NICHOLSON,
Acting Director,
Fruit and Vegetable Division.

FEDERAL AVIATION AGENCY

[14 CFR Part 600]

[Airspace Docket No. 61-LA-74]

FEDERAL AIRWAYS

Proposed Alteration

Pursuant to the authority delegated to me by the Administrator (14 CFR 409.13), notice is hereby given that the Federal Aviation Agency (FAA) is considering amendments to §§ 600.6111 and 600.6485 of the regulations of the Administrator, the substance of which is stated below.

VOR Federal airway No. 111 presently extends in part from the Salinas, Calif., VORTAC to the intersection of the Salinas VORTAC 041° True radial with the Los Banos, Calif., VOR direct radial to the Oakland, Calif., VORTAC. VOR Federal airway No. 485 presently extends in part from the Priest, Calif., VOR via the intersection of the Priest VOR 334° and the Oakland VORTAC 131° True radials to the Oakland VORTAC.

The FAA has under consideration the following airspace proposals:

1. Alter the above-mentioned segment of Victor 111 from Salinas to the intersection of the Salinas 026° True radial with the Los Banos VOR direct radial to the Oakland VORTAC. This realignment will provide the lowest possible minimum en route altitude (MEA) between Salinas and Low altitude VOR Federal airway No. 107 at the relocated Cathedral Intersection (intersection of the Los Banos VOR 311° and the Stockton, Calif., VORTAC 183° True radials).

2. Alter the above-mentioned segment of Victor 485 from the Priest VOR via the intersection of the Priest VOR 331° and the Oakland VORTAC 131° True radials to the Oakland VORTAC. This realignment would form a common intersection with Victor 111 and VOR Federal airway No. 107. Indications are that this action will allow for a lower MEA on Victor 485 between the Priest VOR and the Rancho Intersection (to be located at the INT of the Los Banos VOR 266° and the Priest VOR 331° True radials).

The control areas associated with these airways are so designated that they would automatically conform to the altered airways. The vertical extent of these control areas would remain as designated pending review of the adjacent airspace. Separate actions will be initiated to implement on an area basis Amendment 60-21 to Part 60 of the Civil Air Regulations.

Interested persons may submit such written data, views, or arguments as they may desire. Communications should be submitted in triplicate to the Assistant Administrator, Western Region, Attn: Chief, Air Traffic Division, Federal Aviation Agency, 5651 West Manchester Avenue, P.O. Box 90007, Airport Station, Los Angeles 45, Calif. All communications received within forty-five days after publication of this notice in the FEDERAL REGISTER will be considered before action is taken on the proposed amendment. No public hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Agency officials may be made by contacting the Regional Air Traffic Division Chief, or the Chief, Airspace Utilization Division, Federal Aviation Agency, Washington 25, D.C. Any data, views, or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

The official Docket will be available for examination by interested persons at the Docket Section, Federal Aviation Agency, Room C-226, 1711 New York Avenue NW., Washington 25, D.C. An informal Docket will also be available for examination at the office of the Regional Air Traffic Division Chief.

This amendment is proposed under section 307(a) of the Federal Aviation Act of 1958 (72 Stat. 749; 49 U.S.C. 1348).

Issued in Washington, D.C., on February 9, 1962.

CLIFFORD P. BURTON,
Acting Chief,
Airspace Utilization Division.

[F.R. Doc. 62-1587; Filed, Feb. 15, 1962; 8:45 a.m.]

[14 CFR Part 601]

[Airspace Docket No. 61-FW-47]

CONTROLLED AIRSPACE

Withdrawal of Proposal To Designate Transition Area

In a notice of proposed rule making published in the FEDERAL REGISTER as Airspace Docket No. 61-FW-47 on June 10, 1961 (26 F.R. 5235), it was stated that the Federal Aviation Agency (FAA) proposed to designate a transition area at Tupelo, Miss.

Subsequent to publication of the notice, the FAA has determined that a further review of this area is desirable prior to taking any action to alter the controlled airspace associated with the Tupelo area. Accordingly, the notice is

being withdrawn, and a new proposal will be issued upon completion of this review.

In consideration of the foregoing and pursuant to the authority delegated to me by the Administrator (14 CFR 409.13), notice is hereby given that the proposal contained in Airspace Docket No. 61-FW-47 is withdrawn.

(Sec. 307(a) of the Federal Aviation Act of 1958 (72 Stat. 749; 49 U.S.C. 1348))

Issued in Washington, D.C., on February 9, 1962.

CLIFFORD P. BURTON,
Acting Chief,
Airspace Utilization Division.

Notices

DEPARTMENT OF JUSTICE

Office of Alien Property

VICTOR AHBEL

Notice of Intention to Return Vested Property

Pursuant to section 32(f) of the Trading With the Enemy Act, as amended, notice is hereby given of intention to return, on or after 30 days from the date of publication hereof, the following property, subject to any increase or decrease resulting from the administration thereof prior to return, and after adequate provision for taxes and conservatory expenses:

Claimant, Claim No., Property, and Location

Victor Ahbel, Nice A.M., France; Claim No. 43992, Vesting Order No. 11553; $11,493.83 in the Treasury of the United States.

Executed at Washington, D.C., on February 8, 1962.

For the Attorney General.

[SEAL] PAUL V. MYRON,
Deputy Director,
Office of Alien Property.

[F.R. Doc. 62-1561; Filed, Feb. 14, 1962; 8:49 a.m.]

POST OFFICE DEPARTMENT

ASSISTANT POSTMASTER GENERAL, BUREAU OF FACILITIES

Delegation of Authority

The following is the text of various orders of the Acting Assistant Postmaster General, Bureau of Facilities:

ORDER 211

JANUARY 15, 1962.

Assistant Postmaster General, Bureau of Facilities, Order No. 179 dated September 29, 1960 (25 F.R. 9959-9960) is amended to substitute the title "Chief, Real Estate Branch," for the title "Regional Real Estate Manager."

ORDER 212

JANUARY 15, 1962.

Assistant Postmaster General, Bureau of Facilities, Order No. 173 dated October 15, 1959 (24 F.R. 8750-8751) is amended to substitute the title "Chief, Realty Acquisition Branch, Realty Division," for "Director of Real Estate Leasing, Division of Real Estate."

ORDER 213

JANUARY 15, 1962.

Assistant Postmaster General, Bureau of Facilities, Order No. 157 dated March 24, 1958 (23 F.R. 2754) is amended to substitute "Assistant Chief, Real Estate Branch," for the title of "Assistant Regional Real Estate Manager."

ORDER 215

JANUARY 29, 1962.

(a) Pursuant to Order No. 55941 of the Postmaster General, dated July 1, 1955 (20 F.R. 5269) and for the purposes of paragraph (b) thereof, the Director, Procurement Division, Bureau of Facilities, or any person acting in that position, is hereby designated as the Chief Procurement Officer for the Post Office Department, to exercise the authority and perform the functions vested in that officer by such Order No. 55941, and within the $25,000 limitation as prescribed, in addition to the functions and authority heretofore, or which may hereafter be, assigned to him.

(b) This Order supersedes and cancels Order No. 112 dated November 14, 1955 (21 F.R. 162).

ORDER 216

JANUARY 29, 1962.

Assistant Postmaster General, Bureau of Facilities, Order No. 113 dated November 14, 1955 (21 F.R. 162) is amended to substitute the title, "Director, Procurement Division," for "Director, Division of Supplies."

ORDER 217

JANUARY 29, 1962.

Assistant Postmaster General, Bureau of Facilities, Order No. 114 dated November 14, 1955 (21 F.R. 162) is amended to substitute the title, "Director, Procurement Division," for the title "Director, Division of Supplies."

ORDER 218

JANUARY 31, 1962.

In the absence of the Assistant Postmaster General or the Deputy Assistant Postmaster General, Bureau of Facilities, or persons duly designated to act in these positions, the following Division Directors or those officially designated as Acting Directors, shall serve in the order named as Acting Assistant Postmaster General:

Director, Realty Division
Director, Procurement Division
Director, Maintenance Division

(R.S. 161, as amended; 5 U.S.C. 22, 39 U.S.C. 309, 501)

LOUIS J. DOYLE,
General Counsel.

[Docket No. 12726 etc.]

CITY OF ANDERSON, IND., ET AL.

Order Instituting Investigation

Adopted by the Civil Aeronautics Board at its office in Washington, D.C. on the 12th day of February 1962.

In the matter of the application of the City of Anderson, Indiana, Anderson Chamber of Commerce, for air service on Lake Central's Route 88, Docket 12726; in the matter of the joint petition of the Fort Wayne Board of Aviation Commissioners, and the Chamber of Commerce of Fort Wayne, Indiana and Board of Aviation Commissioners of Delaware County, Indiana and Muncie Chamber of Commerce, Inc., for an order to show cause to add a segment on Lake Central's Route 88, Docket 12793; in the matter of the applications of Lake Central Airlines, Inc., for an amendment of its certificate for Route 88, Dockets 12957, 13259; in the matter of the applications of North Central Airlines, Inc., for an amendment of its certificate for Route 86, Dockets 12202, 12839; in the matter of the application of Trans World Airlines, Inc., for an amendment of its

certificate for Route 2, Docket 13255; in the matter of the Fort Wayne-Muncie Area Investigation, Docket 13391.

son, Indiana, and the Anderson Chamber of Commerce (Anderson) filed application (Docket 12726) requesting the inauguration of air service at Anderson by certain route extensions of Route 88, operated by Lake Central Airlines, Inc. (Lake Central), connecting Anderson with Indianapolis-Detroit-Chicago-Cincinnati.

On July 17, 1961, the Fort Wayne Board of Aviation Commissioners and the Chamber of Commerce of Fort Wayne, Indiana, and the Board of Aviation Commissioners of Delaware County, Indiana, and the Muncie Chamber of Commerce, Inc. (Fort Wayne-Muncie) filed a joint petition (Docket 12793) requesting the issuance of an order to show cause why Lake Central's certificate of public convenience and necessity for Route 88 should not be amended so as to add thereto a new segment to provide air service between Indianapolis, Muncie-Anderson-New Castle, Fort Wayne, Lima, Toledo, and Detroit. An application (Docket 12839), requesting authority to serve the same segment, was filed on July 25, 1961 by North Central Airlines, Inc. (North Central), as an amendment to its certificate of public convenience and necessity for Route 86. North Central, also on July 25, 1961, moved for consolidation with the Fort Wayne-Muncie joint application, its applications in Docket 12839 and its earlier application (Docket 12202) filed March 9, 1961, and amended December 27, 1961, which requests an amendment of its certificate for Route 86, to authorize service, (a) from Chicago to South Bend, to Fort Wayne, to Dayton, and beyond Fort Wayne to Cleveland via the intermediate point, Toledo; and (b) from Grand Rapids to Fort Wayne, via the intermediate point Kalamazoo, Mich.

By application, Docket 12957, filed August 24, 1961, Lake Central applied for authority to serve the Chicago-Cleveland segment, and the Grand Rapids-Fort Wayne segment, as proposed by North Central. In addition, on December 8, 1961, Lake Central filed an application (Docket 13259) to serve between Chicago and Dayton via South Bend and Fort Wayne.

On December 8, 1961, Trans World Airlines, Inc. (Trans World) filed an application (Docket 13255) alleging that the public convenience and necessity do not require its services at South Bend and Fort Wayne, and requesting the deletion of the two points from its certificate for Route 2.

Answers and replies have been received from the interested parties and intervenors in support of, and/or in opposition to, the various applications, counter-applications, motions and requests in the foregoing referenced proceedings.

Upon consideration of the foregoing and in the light of all the circumstances, the Board concludes that there are involved here, as evidenced in the pleadings, a number of issues with respect to the precise needs for air service at the cities named in the various applications listed in terms of quality and quantity, raising controversial questions which should be resolved pursuant to section 401(g) of the Act after public hearing. In order to give the Board the necessary flexibility in deciding how services should be provided and who should provide them, we have decided that it is appropriate at this time to institute a limited review of the route structures of the area's certificated air carriers.

Anderson has requested air service at the Anderson Municipal Airport by Lake Central on two routes: (1) Between Indianapolis and Detroit; and (2) between Cincinnati and Chicago. The city has been designated for many years as the point Anderson-Muncie-New Castle on Routes 8 and 54 of Delta Air Lines, Inc. (Delta), but it has never received air service through its own municipal airport and Delta has not provided service at the hyphenated point. However, Muncie, a city closely adjacent to the northeast, does receive air service from Lake Central on a Chicago-Cincinnati route, which essentially duplicates one of Anderson's route proposals. As to the proposals of Anderson and of Fort Wayne and Muncie, for a Detroit-Indianapolis route, the institution of this investigation in the area covered by this request will render unnecessary consideration of the Fort Wayne and Muncie joint application for the issuance of an order to show cause.

The application of North Central for a route between Indianapolis and Detroit, which duplicates that which is proposed as a subject of Board investigation, will be consolidated and considered since it involves substantially the same issues of public convenience and necessity.

We have decided to include in our investigation an issue as to the need for imposition of a long-haul restriction on, or possible elimination of, Delta's service at Fort Wayne, which may render feasible better short-haul local service by a local air carrier. Delta's answer to the petition of Fort Wayne and Muncie opposed the possible deletion or restriction of its service at Fort Wayne, although it supported deletion of its service at Anderson-Muncie-New Castle and authorization of local service at both points.

Additionally, we shall include the issue of the possible suspension or deletion of Trans World at Fort Wayne and South Bend for which the carrier has applied. Trans World provides these cities with one daily round trip. United Air Lines, Inc. (United) provides five daily round trips, and carries the bulk of traffic. However, deletion of Trans World alone may not make available sufficient traffic to warrant the addition of a local service carrier in these markets.

In this connection, we will include an issue as to whether United's service at South Bend and Fort Wayne should be made subject to a long-haul restriction if it should be concluded that improved local service is required in these markets, and that the local service carrier would require such protection in order to conduct a reasonably economic operation. Inclusion of such issue will permit the Board to consider and resolve such issue on the basis of a full evidentiary record.

A complete survey of Fort Wayne's air service requirements also requires the consolidation of North Central's application in Docket 12839, requesting authority to serve between the terminal points Indianapolis, Ind., and Detroit, Mich., via the intermediate points Muncie and Fort Wayne, Ind., and Lima and Toledo, Ohio. Consideration of this and other North Central applications and the related Lake Central filings will permit consideration of the need for service from Fort Wayne to Grand Rapids on the north, Fort Wayne to Dayton on the south, Fort Wayne to Cleveland on the east, and Fort Wayne to Chicago on the west. Thus, Fort Wayne becomes the axis of a small area case in which the local service air requirements will be examined. The maps attached[1] as Appendices A, B, and C are illustrative of the proposed scope of the proceeding instituted herein.

Finally, we find that the joint petition of the cities of Fort Wayne and Muncie in Docket 12793 for the issuance of a show cause order should be denied, and that the other enumerated applications are essentially connected and can most appropriately be disposed of with the proceeding instituted herein. Consequently, these matters will be consolidated.

Accordingly, it is ordered:

1. That an investigation, to be known as the Fort Wayne-Muncie Area Investigation, Docket 13391, be and it hereby is instituted, pursuant to section 401(g) of the Act, to determine whether the public convenience and necessity require the alteration, amendment, modification, suspension, or deletion of service in air transportation now rendered or authorized to be rendered by the certificated air carriers in central Indiana, western Ohio, and southern Michigan, as illustrated in Appendices A, B, and C, and, in particular, to determine the following issues involving the public convenience and necessity:

(a) Should the following segment be added to either North Central's or Lake Central's routes: Between the terminal points Indianapolis, Ind., and Detroit, Mich., via the intermediate points Muncie-Anderson-New Castle, Ind., Fort Wayne, Ind., Lima, Ohio, and Toledo, Ohio?

(b) Should Delta's authority to serve Fort Wayne be amended to require a "closed door" or a "long-haul" restriction, or be suspended or deleted?

(c) Should Delta's authority to serve Muncie-Anderson-New Castle be deleted?

(d) Should the point Muncie on Lake Central's Route 88 be redesignated as Muncie-Anderson-New Castle?

(e) Should United be restricted so as to require all flights serving South Bend and/or Fort Wayne to originate or terminate at a point west of Chicago or Milwaukee?;

2. That the Fort Wayne-Muncie joint petition in Docket 12793, insofar as it seeks the issuance of a show cause order for an amendment of Lake Central's certificate for Route 88, be and it hereby is denied;

[1] Filed as part of the original document.

4. That the applications and/or petitions in Dockets 12726, 12793, 12957, 13259, 12202, 12839, and 13255, except to the extent denied herein, be consolidated in the proceeding hereby instituted;

5. That a copy of this order be served on Lake Central Airlines, Inc., North Central Airlines, Inc., Trans World Airlines, Inc., United Air Lines, Inc., Delta Air Lines, Inc., the City and Chamber of Commerce of Anderson, Ind., the Fort Wayne Board of Aviation Commissioners and the Chamber of Commerce of Fort Wayne, Ind., the Board of Commissioners of Delaware County and the Muncie Chamber of Commerce, Ind., the City of New Castle, Ind., and the Postmaster General, all of whom are hereby made parties to this proceeding;

6. That all other motions, petitions and requests, or portions thereof not otherwise granted herein, be and they hereby are denied; and

7. That this order be published in the FEDERAL REGISTER.

By the Civil Aeronautics Board.

[SEAL] HAROLD R. SANDERSON, *Secretary.*

[F.R. Doc. 62-1624; Filed, Feb. 15, 1962; 8:49 a.m.]

FEDERAL COMMUNICATIONS COMMISSION

[Docket No. 14479; FCC 62M-207]

DeKALB BROADCASTING CO.

Order Continuing Hearing

In re application of Samuel C. Chafin and N. W. Griffin d/b as DeKalb Broadcasting Co., Decatur, Georgia, Docket No. 14479; File No. BP-14133; for construction permit.

A prehearing conference in the above-entitled matter having been held on February 8, 1962, and it appearing from the record made therein that certain agreements were reached and certain rulings made by the Hearing Examiner which properly should be formalized by order;

It is ordered, This 8th day of February 1962, that:

(1) All written exhibits to be offered in evidence in the presentation of the direct affirmative cases of the parties[1] shall be under oath and exchanged among the parties and copies thereof supplied the Hearing Examiner on April 16, 1962;

(2) Notification of witnesses responsible for the preparation of exhibits to be called for cross-examination shall be given on or before April 23, 1962. In the event no notice is given for the production of a witness responsible for the preparation of an exchanged exhibit, such exhibit, to the extent it is otherwise acceptable, will be admitted into evidence as if such witness were present and the exhibit was offered through him;

It is further ordered, That the hearing herein heretofore scheduled to commence on March 8, 1962, is continued to May 1, 1962, commencing at 10:00 a.m. in the offices of the Commission at Washington, D.C.

Released: February 13, 1962.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] BEN F. WAPLE, *Acting Secretary.*

[F.R. Doc. 62-1611; Filed, Feb. 15, 1962; 8:47 a.m.]

[1] While the burdens of proof and proceeding with the evidence herein lie on the applicant, the Commission's order of Designation (FCC 62-29, Mimeo. No. 13860) makes clear that the fundamental factual question in dispute is the location of the 0.5 mv/m contours of the applicant's proposed station and the existing station of respondent. Although the development of the proceeding may persuade the respondent and the Broadcast Bureau that they do not wish to offer any exhibits, the possibility of the necessity of exhibit evidence in this area by parties which may not agree with the applicant's showing is sufficiently clear that in the interest of expedition, all parties will be required to prepare in advance and exchange their exhibits directed to this matter.

[Docket No. 14523; FCC 62-145]

HIAWATHA VALLEY BROADCASTING CO., INC., AND NORTHLAND RADIO CORP.

Order Designating Application for Hearing on Stated Issues

In re Application of Hiawatha Valley Broadcasting Co., Inc. (Assignor), Docket No. 14523, File No. BAL-4172; Northland Radio Corporation (Assignee), for assignment of license of Station KCUE, Red Wing, Minnesota.

At a session of the Federal Communications Commission held at its offices in Washington, D.C., on the 6th day of February 1962;

The Commission having under consideration the above-captioned and described application;

It appearing that, a grant of the subject application would give to the proposed assignee its second standard broadcast facility in Southeastern Minnesota; and that, as noted below, the service areas of the two stations would overlap to a substantial degree; and

It further appearing that, because of this fact, Northland Radio Corporation was requested to submit a showing covering the matters set forth in § 3.35 of the Commission's rules; and

It further appearing that, on the basis of the showing submitted, the Commission is unable to make a finding that a grant of the subject application would serve the public interest, convenience and necessity; and

It further appearing that, the following matters are to be considered in connection with the issues specified below:

1. Northland Radio Corporation (Northland) is the licensee of Station KWEB, Rochester, Minnesota, and through its officers, directors and stockholders, owns and controls Station KOTE, Fergus Falls, Minnesota, and its principals are the applicants for a construction permit for a new standard broadcast station at Northfield, Minnesota. Engineering studies relating to the primary service contours of Stations KWEB and KCUE indicate that the same presently overlap.

2. The cities of Red Wing and Rochester are approximately 39 miles apart. Commission consent to a grant of the subject application would place the ownership and control of Stations KCUE and KWEB under the corporate direction of Northland. Northland's control of two standard broadcast stations with such close proximity to each other would create a substantial duplication of service, for both area and population, involving approximately one-third of the service areas of the respective stations.

3. In view of the foregoing, and after full consideration of the information contained in the application, it appears that a grant of the subject application would contravene the provisions of § 3.35 of the Commission's rules, since the applicant has not shown that the public interest, convenience and necessity will be served through such multiple ownership situation.

4. In reaching a determination on the question raised by the § 3.35 issue, it will be important to consider, among other things, the size, extent and locations of the overlapping service areas of Stations KWEB and KCUE; the populations residing in the overlapping service areas; the classes and power of the stations involved; the extent of other competitive service to the areas in question; the distribution of population within the overlapping service areas; the location of trade areas, metropolitan districts, and political boundaries; the areas and populations to which the service of each station is directed; the manner in which the business affairs of the stations are conducted, including any plans the assignee may have for the use of joint rates or discounts for multiple use of the stations under common control; the program plans of the proposed assignee for each station, including, among other things, diversification of presentations, prospective use of similar or identical programs for broadcast by the stations under common control; a comparison of the program plans of the assignee as compared with the existing programming of the station; coverage claims made or which the assignee anticipates will be made with respect to the joint operation of Stations KWEB and KCUE; statistical data on the audience preferences for other standard broadcast stations operating in the area, with a view toward establishing the percentage of the population in the overlap area that will rely on the service of the stations under common control; the planned location of main and secondary studios; factors relating to the use of local talent, program sources, broadcast of local news, and availability of facilities for local public service programs; and the assignee's plans for management (personnel) for each of the stations involved.

It further appearing, that, in view of the foregoing, the Commission is of the opinion that the application must be designated for hearing on the issues set forth below:

It is ordered, That, pursuant to section 309(e) of the Communications Act of 1934, as amended, the above-entitled ap-

plication is designated for hearing at a time and place to be specified in a subsequent order, upon the following issues:

1. To determine whether a grant of the subject application would be in contravention of § 3.35 of the Commission's rules;

2. To determine, in the light of the evidence adduced pursuant to the foregoing issue, whether a grant of the instant application would serve the public interest, convenience and necessity.

It is further ordered, That, to avail themselves of the opportunity to be heard, the applicants herein, pursuant to § 1.140 of the Commission's rules, in person or by attorney, shall, within 20 days of the mailing of this order, file with Commission, in triplicate, a written appearance stating an intention to appear on the date fixed for the hearing and present evidence on the issues specified in this order.

It is further ordered, That, the applicants herein shall, pursuant to section 311(a)(2) of the Communications Act of 1934, as amended, and § 1.362(b) of the Commission's rules, give notice of the hearing, within the time and in the manner prescribed in such Rule, and shall advise the Commission of the publication of such notice as required by § 1.362(g) of the rules.

Released: February 13, 1962.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] BEN F. WAPLE,
Acting Secretary.

[F.R. Doc. 62-1612; Filed, Feb. 15, 1962; 8:47 a.m.]

[Docket Nos. 14510-14514; FCC 62-151]

ROCKLAND BROADCASTING CO. ET AL.

Order Designating Applications for Consolidated Hearing on Stated Issues

In re applications of Sidney Fox, George Dacre, Harry Edelstein, d/b as Rockland Broadcasting Company, Blauvelt, New York, requests: 1300 kc, 500 w, DA-D, Docket No. 14510, File No. BP-13477; Delaware Valley Broadcasting Co. (WAAT), Trenton, New Jersey, has: 1300 kc, 250 w, Day, requests: 1300 kc, 5 kw, DA-2, U, Docket No. 14511, File No. BP-14054; Rockland Radio Corporation, Spring Valley, New York, requests: 1300 kc, 500 w, DA-D, Docket No. 14512, File No. BP-14461; Rockland Broadcasters, Inc., Spring Valley, New York, requests: 1300 kc, 1 kw, DA-D, Docket No. 14513, File No. BP-14462; Asbury Park Press, Inc. (WJLK), Asbury Park, New Jersey, has: 1310 kc, 250 w, U, requests: 1310 kc, 250 w, 1 kw-LS, DA-D, U, Docket No. 14514, File No. BP-14469; for construction permits.

At a session of the Federal Communications Commission held at its offices in Washington, D.C., on the 6th day of February 1962;

The Commission having under consideration the above-captioned and described applications;

It appearing, that, except as indicated by the issues specified below, each of the instant applicants is legally, technically, financially, and otherwise qualified to construct and operate the instant proposals; and

It further appearing that the following matters are to be considered in connection with the aforementioned issues specified below:

(A) The proposal of Sidney Fox, George Dacre, Harry Edelstein d/b as Rockland Broadcasting Company:

1. Causes interference to and receives interference from the following existing standard broadcast stations and proposals:

To—
WADO, New York, N.Y.
WHBI, Newark, N.J.
WVIP, Mount Kisco, N.Y.
BP-14054 (WAAT) Trenton, N.J.
BP-14461,[1] Spring Valley, N.Y.
BP-14462,[1] Spring Valley, N.Y.

From—
WAAT, Trenton, N.J.
WAVZ, New Haven, Conn.
WVIP.
WEEE, Rensselaer, N.Y.
BP-14054 (WAAT).
BP-14461.
BP-14462.

[1] Mutually exclusive with subject proposal. (BP-13477.)

It has not been determined whether or not this proposal will comply with § 3.28(d)(3) of the Commission's rules regarding interference received from existing stations.

2. The population of Blauvelt, New York is not listed separately from the county in which it is located in the 1960 United States Census report; however, Blauvelt does have a post office; and thus a question obtains as to this proposal's compliance with § 3.30(a) of the Commission's rules relating to identification of a station with an ascertainable community.

3. The subject applicant requested that any comparative hearing be held in Rockland County, New York. However, since the issues to be decided in this proceeding are primarily of an engineering nature, and can best be tried at the Commission's offices in Washington, D.C.; the request is being denied.

(B) The proposal of Delaware Valley Broadcasting Co. (WAAT):

1. Causes interference to and receives interference from the following existing standard broadcast stations and proposals:

To—
WTHT, Hazelton, Pa.
WKAP, Allentown, Pa.
WOOD, Grand Rapids, Mich.
WFBR, Baltimore, Md.
BP-13477, Blauvelt, N.Y.
BP-14461, Spring Valley, N.Y.
BP-14462, Spring Valley, N.Y.

From—
WCAM, Camden, N.J.
WAVZ, New Haven, Conn.
WJLK, Asbury Park, N.J.
WFBR.
BP-13477.
BP-14461.
BP-14462.
BP-14469 (WJKL), Asbury Park, N.J.

2. The Baltimore Radio Show, Inc., licensee of Station WFBR, Baltimore, Maryland, filed a petition to deny on August 14, 1961 contending that the proposed operation of WAAT will create objectionable interference within its normally protected nighttime contour, and that any pre-sunrise operation with daytime facilities would constitute a modification of the license of WFBR. This order includes an issue to determine the nature and extent of nighttime interference the proposed operation of WAAT will cause to WFBR, and also includes a condition prohibiting the use of daytime facilities in the pre-sunrise operation of WAAT.

3. Pursuant to § 3.28(d)(3) of the Commission's rules, the applicant indicates that the percentage of population loss from existing stations is greater than 10 percent to both its daytime and nighttime operations. Applicant shows the loss to the proposed daytime operation from existing stations to be 13.7 percent and the proposed nighttime operation will suffer a population loss of 48.2 percent and an area loss of 84.8 percent (nighttime limitation is 19.0 mv/m). A waiver of § 3.28(d)(3) of the Commission's rules is requested. This Order includes an issue to determine if the proposed operation would be consistent with § 3.24(b) of the rules.

4. The proposed RCA type 335-BR frequency is not type accepted by the Commission.

(C) The proposal of Rockland Radio Corporation:

1. Causes interference to and receives interference from the following existing standard broadcast stations and proposals:

To—
WAVZ, New Haven, Conn.
WADO, New York, N.Y.
WHBI, Newark, N.J.
WEEE, Rensselaer, N.Y.
BP-13477,[1] Blauvelt, N.Y.
BP-14462,[1] Spring Valley, N.Y.
BP-14054 (WAAT), Trenton, N.J.

From—
WAVZ.
WAAT, Trenton, N.J.
WEEE.
BP-13477.
BP-14462.
BP-14054.

[1] Mutually exclusive with the subject proposal. (BP-14461.)

(D) The proposal of Rockland Broadcasters, Inc.:

1. Causes interference to and receives interference from the following existing standard broadcast stations and proposals:

To—
WAVZ, New Haven, Conn.
WADO, New York, N.Y.
WHBI, Newark, N.J.
WTHT, Hazelton, Pa.
BP-14054 (WAAT), Trenton, N.J.
BP-13477,[1] Blauvelt, N.Y.
BP-14461,[1] Spring Valley, N.Y.

From—
WAVZ.
WEEE, Rensselaer, N.Y.
WAAT, Trenton, N.J.
BP-14054.
BP-13477.
BP-14461.

[1] Mutually exclusive with subject proposal. (BP-14462.)

2. Applicant, by its own calculation, indicates that the subject proposal will involve an overlap of the proposed 25 mv/m contour with the existing 2 mv/m contour of Station WADO resulting in a violation of § 3.37 of the Commission's rules. A waiver of said § 3.37 has been requested.

(E) The proposal of Asbury Park Press, Inc. (WJLK):

1. Causes interference to and receives interference from the following existing standard broadcast stations and proposals:

To—
WFOW, New York, N.Y.
WEVD, New York, N.Y.
BP-14054 (WAAT), Trenton, N.J.

From—
WVIP, Mt. Kisco, N.Y.
WCAM, Camden, N.J.

2. Pursuant to the provisions of § 3.28(d)(3) of the Commission's rules, the applicant in this proposal indicates a percentage of population loss of 18.41 percent. The present operation shows a percentage of population loss of 20.01 percent. A waiver of § 3.28(d)(3) of the rules is requested.

3. The proposed 25 mv/m contour of WJLK's proposal involves an overlap of the 2 mv/m contour of Station WEVD in violation of § 3.37 of the Commission's rules. It is necessary to determine if the circumstances warrant waiver of said § 3.37 of the rules.

4. WJLK presently operates as a Class IV station on a regional channel. This proposal is for a Class III daytime operation, and to continue the existing Class IV operation in the nighttime hours.

It further appearing that in view of the outstanding proposed rule making proceeding in Docket No. 14419 with respect to pre-sunrise operation with daytime facilities, any grant of the proposals in this proceeding prior to a final decision in Docket 14419, should be appropriately conditioned.

It further appearing that, in view of the foregoing, the Commission is unable to make the statutory finding that a grant of the subject applications would serve the public interest, convenience and necessity and is of the opinion that the applications must be designated for hearing in a consolidated proceeding on the issues set forth below:

It is ordered, That, pursuant to section 309(e) of the Communications Act of 1934, as amended, the instant applications are designated for hearing in a consolidated proceeding, at a time and place to be specified in a subsequent Order, upon the following issues:

1. To determine the areas and populations which would receive primary service from the proposals of Rockland Broadcasting Company, Rockland Radio Corporation and Rockland Broadcasters, Inc., and the availability of other primary service to such areas and populations.

2. To determine the areas and populations which may be expected to gain or lose primary service from the proposed operations of Station WAAT and Station WJLK and the availability of other primary service to such areas and populations.

3. To determine the nature and extent of the interference, if any that each of the instant proposals would cause to and receive from each other and the interference that each of the instant proposals would receive from all other existing standard broadcast stations, the areas and populations affected thereby, and the availability of other primary service to the areas and populations affected by interference from any of the instant proposals.

4. To determine whether the instant proposal of Rockland Broadcasters, Inc., would cause objectionable interference to Station WAVZ, Station WADO, Station WHBI, Station WTHT, or any other existing standard broadcast stations, and, if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other primary service to such areas and populations.

5. To determine whether the instant proposal of Station WAAT would cause objectionable interference to Station WTHT, Station WKAP, Station WOOD, Station WFBR, or any other existing standard broadcast stations, and, if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other primary service to such areas and populations.

6. To determine whether the instant proposal of Rockland Radio Corporation would cause objectionable interference to Station WAVZ, Station WADO, Station WHBI, Station WEEE, or any other existing standard broadcast stations, and, if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other primary service to such areas and populations.

7. To determine whether the instant proposal of Rockland Broadcasters, Inc., would cause objectionable interference to Station WAVZ, Station WADO, Station WHBI, Station WTHT, or any other existing standard broadcast stations, and, if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other primary service to such areas and populations affected by interference from any of the instant proposals.

8. To determine whether the instant proposal of Rockland Broadcasting Company would cause objectionable interference to Station WADO, Station WHBI, Station WVIP, or any other existing standard broadcast stations, and, if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other primary service to such areas and populations.

9. To determine whether the interference received by each instant proposal from any of the other proposals herein and any existing stations would affect more than ten percent of the population within its normally protected primary service area in contravention of § 3.28(d)(3) of the Commission's rules and, if so, whether circumstances exist which would warrant a waiver of said section.

10. To determine whether the instant proposal of Rockland Broadcasting Company would serve primarily a particular city, town, or other political subdivision as contemplated by § 3.30(a) of the Commission's rules and, if not, whether circumstances exist which would warrant a waiver of said section.

11. To determine whether overlap of the 2 and 25 mv/m contours would occur between the instant proposal of Rockland Broadcasters, Inc., and Station WADO in contravention of § 3.37 of the Commission's rules, and, if so, whether circumstances exist which would warrant a waiver of said section.

12. To determine whether overlap of the 2 and 25 mv/m contours would occur between the instant proposal of Station WJLK and Station WEVD in contravention of § 3.37 of the Commission's rules, and, if so, whether circumstances exist which would warrant a waiver of said section.

13. To determine whether, because of interference received, the proposed nighttime operation of Delaware Valley Broadcasting Co. (WAAT) would be consistent with § 3.24(b) of the rules.

14. To determine, in the light of the section 307(b) of the Communications Act of 1934, as amended, which one of the proposals for Spring Valley, New York, or the proposal for Trenton, New Jersey, or the proposal for Asbury Park, New Jersey, or the proposal for Blauvelt, New York (should Issue No. 10 be decided favorably for Rockland Broadcasting Company) would best provide a fair, efficient, and equitable distribution of radio service.

15. To determine in the event it is concluded pursuant to Issue No. 14 that one of the proposals for Spring Valley, New York, or the proposal for Blauvelt, New York, should be favored, which of the said proposals would best serve the public interest, convenience and necessity in the light of the evidence adduced under the issues herein and the record made with respect to the significant differences between the said applicants as to:

(a) The background and experience of each having a bearing on the applicant's ability to own and operate the proposed standard broadcast station.

(b) The proposal of each with respect to the management and operation of the proposed station.

(c) The programing services proposed in each of the said applications.

16. To determine, in the light of the evidence adduced pursuant to the foregoing issues which, if any, of the instant applications should be granted.

It is further ordered, That the following licensees of the stations indicated are made parties to the proceeding:

Licensee	Station
(1) Bartell Broadcasters of New York, Inc.	WADO
(2) May Radio Broadcast Corp.	WHBI
(3) Suburban Broadcasting Co., Inc.	WVIP
(4) Radio 18, Inc.	WTHT
(5) WKAP, Inc.	WKAP
(6) Time-Life Broadcast, Inc.	WOOD
(7) The WAVZ Broadcasting Corp.	WAVZ
(8) Fairview Broadcasters, Co., Inc.	WEEE
(9) WPOW, Inc.	WPOW
(10) Debs Memorial Radio Fund, Inc.	WEVD
(11) The Baltimore Radio Show, Inc.	WFBR

It is further ordered, That in the event of a grant of the application of Delaware Valley Broadcasting Co., the construction permit shall contain the following condition: To the extent that it permits operation with daytime facilities prior to local sunrise, § 3.87 of the Commission's rules is not applicable to this authorization and such operation is prohibited.

It is further ordered, That the Petition to Deny filed by the Baltimore Radio Show, Inc., is granted to the extent set forth in the next preceding ordering clause and is denied in all other respects.

It is further ordered, That in the event of a grant of the application of Delaware Valley Broadcasting Co., the construction permit shall contain the following condition: Permittee shall install an approved type of frequency monitor.

It is further ordered, That the request of Rockland Broadcasting Company that the hearings be held in Rockland County, New York is denied.

It is further ordered, That any grant of the proposals in this proceeding, except the Delaware Valley Broadcasting Co. proposal, will be conditioned as follows, if the grants are made prior to a final decision in Docket 14419: "Pending a final decision in Docket No. 14419 with respect to pre-sunrise operation with daytime facilities, the present provisions of § 3.87 of the Commission rules are not extended to this authorization, and such operation is precluded."

It is further ordered, That, to avail themselves of the opportunity to be heard, the applicants and the parties respondent herein, pursuant to § 1.140 of the Commission's rules, in person or by attorney, shall, within 20 days of the mailing of this order, file with the Commission in triplicate, a written appearance stating an intention to appear on the date fixed for the hearing and present evidence on the issues specified in the order.

It is further ordered, That the applicants herein shall, pursuant to section 311(a)(2) of the Communications Act of 1934, as amended, and § 1.362(b) of the Commission's rules, give notice of the hearing, either individually, or, if feasible jointly, within the time and in the manner prescribed in such rule, and shall advise the Commission of the publication of such notice as required by § 1.362(g) of the rules.

It is further ordered, That, the issues in the above-captioned proceeding may be enlarged by the Examiner, on his own motion or on petition properly filed by a party to the proceeding, and upon sufficient allegations of fact in support thereof, by the addition of the following issue: To determine whether the funds available to the applicant will give reasonable assurance that the proposals set forth in the application will be effectuated.

Released: February 12, 1962.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] BEN F. WAPLE,
Acting Secretary.

[F.R. Doc. 62-1613; Filed, Feb. 15, 1962; 8:48 a.m.]

[Docket No. 12949; FCC 62-149]

SOUTH MINNEAPOLIS BROADCASTERS

Order Designating Application for Hearing on Stated Issues

In re application of Charles Niles and Marie Niles, d/b as South Minneapolis Broadcasters, Bloomington, Minnesota, requests: 740 kc, 250 w, DA-D, Class II, Docket No. 12949, File No. BP-14046; for construction permit.

At a session of the Federal Communications Commission held at its offices in Washington, D.C., on the 6th day of February 1962:

The Commission having under consideration the above-captioned and described application;

It appearing, that, except as indicated by the issues specified below, the instant applicant is legally, technically, financially and otherwise qualified to construct and operate the instant proposal; and

It further appearing that the following matters are to be considered in connection with the aforementioned issues specified below:

1. The subject proposal appears to cause objectionable interference to Station KBOE, Oskaloosa, Iowa.

2. The proposed 25 mv/m contour apparently covers substantially less than the entire business area of Bloomington, in contravention of § 3.188(b)(1) of the Commission's rules. Similarly, the proposed 5 mv/m contour would fail to cover the entire residential area of the city, in contravention of § 3.188(b)(2) of the rules.

3. A substantial question exists as to whether the proposed operation represents sound engineering practice, since a considerable portion of the city of Bloomington is located in the area of maximum signal suppression.

It further appearing that in view of the outstanding proposed rule making proceeding in Docket No. 14419 with respect to pre-sunrise operation with daytime facilities, any grant of the instant proposal prior to a final decision in Docket No. 14419 should be appropriately conditioned.

It further appearing, that, in view of the foregoing, the Commission is unable to make the statutory finding that a grant of the subject application would serve the public interest, convenience and necessity, and is of the opinion that the application must be designated for hearing on the issues set forth below:

It is ordered, That, pursuant to section 309(e) of the Communications Act of 1934, as amended, the instant application is designated for hearing at a time and place to be specified in a subsequent order, upon the following issues:

1. To determine the areas and populations which would receive primary service from the subject proposal and the availability of other primary service to such areas and populations.

2. To determine whether the instant proposal would cause objectionable interference to Station KBOE, Oskaloosa, Iowa, or any other existing standard broadcast stations, and, if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other primary service to such areas and populations.

3. To determine whether the instant proposal would provide coverage of the city sought to be served, as required by § 3.188(b)(1) and (2) of the Commission's rules and, if not, whether circumstances exist which warrant a waiver of said section.

4. To determine whether a portion of the city sought to be served is in an area of maximum signal suppression, and, if so, whether the proposed directional antenna system represents good engineering practice, especially in light of the normally expected variations in signal strength occurring in null areas of directional patterns.

5. To determine, in the light of the evidence adduced pursuant to the foregoing issues, whether a grant of the instant application would serve the public interest, convenience and necessity.

It is further ordered, That Oskaloosa Broadcasting Company, licensee of Station KBOE, Oskaloosa, Iowa is made a party to the proceeding.

It is further ordered, that any grant of the instant proposal, prior to a final decision in Docket No. 14419, will be conditioned as follows: "Pending a final decision in Docket No. 14419 with respect to presunrise operation with daytime facilities, the present provisions of § 3.87 of the Commission rules are not extended to this authorization, and such operation is precluded."

It is further ordered, That, to avail itself of the opportunity to be heard, the applicant and party respondent herein, pursuant to § 1.140 of the Commission's rules, in person or by attorney, shall within 20 days of the mailing of this order, file with the Commission in triplicate, a written appearance stating an intention to appear on the date fixed for the hearing and present evidence on the issues specified in this order.

It is further ordered, That the applicant herein shall, pursuant to section 311(a)(2) of the Communications Act of 1934, as amended, and § 1.362(b) of the Commission rules, give notice of the hearing, within the time and in the manner prescribed in such rule, and shall advise the Commission of the publication of such notice as required by § 1.362(g) of the rules.

Released: February 12, 1962.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] BEN F. WAPLE,
Acting Secretary.

[Docket No. 14515; FCC 62-154]

WDSU BROADCASTING CORP. (WDSU)

Order Designating Application for Hearing on Stated Issues

In re application of WDSU Broadcasting Corporation (WDSU), New Orleans, Louisiana, has: 1280 kc, 5 kw, DA-1, U, requests: 1280 kc, 5 kw, DA-1, U; Docket No. 14515, File No. BMP-9055; for modification of construction permit.

At a session of the Federal Communications Commission held at its offices in Washington, D.C., on the 6th day of February 1962;

The Commission having under consideration the above-captioned and described application;

It appearing, that, except as indicated by the issues specified below, the applicant is legally, technically, financially and otherwise qualified to construct and operate WDSU as proposed but that the proposed operation will cause interference to Stations WDSP, De Funiak Springs, Florida, and WSCM, Panama City Beach, Florida, and

It further appearing that in view of the outstanding proposed rule making proceeding in Docket No. 14419 with respect to pre-sunrise operation with daytime facilities, any grant of the instant proposal prior to a final decision in Docket No. 14419 should be appropriately conditioned.

It further appearing that, in view of the foregoing, the Commission is unable to make the statutory finding that a grant of the subject application would serve the public interest, convenience and necessity, and is of the opinion that the application must be designated for hearing on the issues set forth below:

It is ordered, That, pursuant to section 309(e) of the Communications Act of 1934, as amended, the instant application is designated for hearing, at a time and place to be specified in a subsequent Order, upon the following issues:

1. To determine the areas and populations which may be expected to gain or lose primary service from the proposed operation of Station WDSU and the availability of other primary service to such areas and populations.

2. To determine whether the instant proposal would cause objectionable interference to Stations WDSP, De Funiak Springs, Florida, and WSCM, Panama City Beach, Florida, or any other existing standard broadcast station, and, if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other primary service to such areas and populations.

3. To determine, in light of the evidence adduced pursuant to the foregoing issues, whether a grant of the instant application would serve the public interest, convenience, and necessity.

It is further ordered, That the Euchee Valley Broadcasting Co., and WSCM Broadcasting, Inc., licensees of Stations WDSP and WSCM, respectively, are made parties to the proceeding.

It is further ordered, That, in the event of a grant of the application of the WDSU Broadcasting Corporation, program tests will not be authorized until Station WSJC, Magee, Mississippi, has begun program tests on a frequency other than 1280 kilocycles and a license will not be issued until WSJC has been licensed on a frequency other than 1280 kilocycles.

It is further ordered, That any grant of the instant proposal, prior to a final decision in Docket No. 14419 will be conditioned as follows: "Pending a final decision in Docket No. 14419 with respect to pre-sunrise operation with daytime facilities, the present provisions of § 3.87 of the Commission rules are not extended to this authorization, and such operation is precluded."

It is further ordered, That to avail themselves of the opportunity to be heard, the applicant and parties respondent herein, pursuant to § 1.140 of the Commission rules, in person or by attorney, shall, within 20 days of the mailing of this order, file with the Commission in triplicate, a written appearance stating an intention to appear on the date fixed for the hearing and present evidence on the issues specified in this order.

It is further ordered, That the applicant herein shall, pursuant to section 311(a)(2) of the Communications Act of 1934, as amended, and § 1.362(b) of the Commission's rules give notice of the hearing, within the time and in the manner prescribed in such Rule, and shall advise the Commission of the publication of such notice as required by § 1.362(g) of the rules.

Released: February 12, 1962.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] BEN F. WAPLE,
Acting Secretary.

[F.R. Doc. 62-1615; Filed, Feb. 15, 1962; 8:48 a.m.]

FEDERAL POWER COMMISSION

[Docket No. CP62-96]

TAYLORSTOWN NATURAL GAS CO.

Notice of Application

FEBRUARY 9, 1962.

Take notice that on October 16, 1961, as supplemented on January 2, 1962, Taylorstown Natural Gas Company (Applicant), P.O. Box 87, Taylorstown, Pennsylvania, filed in Docket No. CP62-96 an application pursuant to section 7(a) of the Natural Gas Act for an order of the Commission directing The Manufacturers Light and Heat Company (Manufacturers) to establish physical connection of its facilites with those which Applicant operates, and to sell and deliver to Applicant natural gas for resale and distribution in Blaine, Buffalo, Donegal, and East Finley Townships and Claysville Borough, all in Washington County, Pennsylvania, all as more fully set forth in the application, as supplemented, which is on file with the Commission and open to public inspection.

Applicant, which is regulated by the Pennsylvania Public Utility Commission, states that it serves about 1,000 customers at retail in the above-named communities. For more than 60 years Applicant's source of natural gas supply has been from local wells in this area, called the Taylorstown Field. Applicant both produces and purchases gas in this area. The application states that this field is now diminishing in production and approaching depletion; and since no further development of the field is anticipated, Applicant finds it necessary to augment its gas supply by purchase of gas from Manufacturers, an interstate pipeline whose facilities are located in this area.

To serve Applicant as requested, Manufacturers would have to build two separate connections with Applicant's system and meters in the vicinity of Taylorstown, Pennsylvania. Applicant proposes to construct the necessary pipeline between the taps on Manufacturers system and its own system at a cost of about $200 to be defrayed from cash.

Applicant considers the 1960 requirements of 190,186 Mcf of gas at 14.73 psia and the peak and average days, respectively, of 2,184 and 522 Mcf of gas to be typical of the area's future requirements. Applicant estimates the total remaining reserve in the Taylorstown field to be 1,000,000 Mcf of gas and the decline in production to be about 10 percent annually. To meet this decline in production, Applicant states that it will require from Manufacturers annual volumes of about 40,000 Mcf of gas and up to 1,000 Mcf of gas per day on peak days. Applicant would purchase gas under Manufacturers' CDS-1 Rate Schedule.

Manufacturers filed its answer to the subject application on November 17, 1961, as supplemented on December 18, 1961, stating that it is able and willing to render the proposed service.

Protests, requests for hearing, or petitions to intervene in this proceeding may be filed with the Federal Power Commission, Washington 25, D.C., in accordance with the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) on or before March 5, 1962.

JOSEPH H. GUTRIDE,
Secretary.

[Docket No. RI62-321 etc.]

HUMBLE OIL & REFINING CO. ET AL.

Order Providing for Hearings on and Suspension of Proposed Changes in Rates [1]

FEBRUARY 9, 1962.

Humble Oil & Refining Company, Docket No. RI62-321; Walters Drilling Company (Operator), et al., Docket No. RI62-322; Hamilton Brothers, Ltd., Docket No. RI62-323; Socony Mobil Oil Company, Inc., Docket No. RI62-324; Sunray Mid-Continent Oil Company, Docket No. RI62-325; Shell Oil Company, Docket No. RI62-326; Cities Service Petroleum Company, Docket No. RI62-327; The British-American Oil Producing Company, Docket No. RI62-328.

The above-named respondents have tendered for filing proposed changes in presently effective rate schedules for sales of natural gas subject to the jurisdiction of the Commission. The proposed changes are designated as follows:

[1] This order does not provide for the consolidation for hearing or disposition of the several matters covered herein, nor should it be so construed.

Docket No.	Respondent	Rate schedule No.	Supplement No.	Purchaser and producing area	Amount of annual increase	Date filing tendered	Effective date [1] unless suspended	Date suspended until—	Cents Per Mcf [2] Rate in effect	Cents Per Mcf [2] Proposed increased rate

		165	5	Panhandle Eastern Pipe Line Co. (Camrick Field, Texas County, Okla.).	78	1-19-62	3-22-62	8-22-62	16.8	[3] 17.0	
		170	6	Natural Gas Pipeline Co. of America (Camrick Field, Beaver County, Okla.).	44	1-19-62	3-21-62	8-21-62	17.0	[3] 17.2	
R162-326...	Shell Oil Co., 50 West 50th Street, New York 20, N.Y.	152	2	Northern Natural Gas Co. (Farnsworth Field, Ochiltree County, Tex.) (R.R. District No. 10).	1,318	1-22-62	4-1-62	9-1-62	15.5	[3] 16.5	
R162-327...	Cities Service Petroleum Co., Cities Service Building, Bartlesville, Okla.	101	3	Panhandle Eastern Pipe Line Co. (Morton County, Kans.).	100	1-22-62	4-1-62	9-1-62	16.0	[3] 17.0	
		129	4	Natural Gas Pipeline Co. of America (Camrick Field, Beaver County, Okla.).	74	1-22-62	3-21-62	8-21-62	17.0	[3] 17.2	
R162-328...	The British-American Oil Producing Co., P.O. Box 749, Dallas 21, Tex.	7	7	Mississippi River Fuel Corp. (Waskom Field, Harrison County, Tex.) (R.R. District No. 6).	1,454	1-19-62	3-1-62	8-1-62	14.1344	[4] 14.6302	

[1] The stated effective date is the 1st day after expiration of the required statutory notice, or, if later, the date proposed by the respondent.

[2] The pressure base for all sales is 14.65 psia, except for that of Humble Oil & Refining Co., which is 15.025 psia.

[3] Periodic rate increase.

[4] Redetermined rate increase based on weighted average price in the Panhandle Field as determined by the Texas Railroad Commission.

The proposed increased rates exceed the applicable area price levels set forth in the Commission's Statement of General Policy No. 61–1, as amended (18 CFR, Chapter I, Part 2, § 2.56).

The proposed changed rates and charges may be unjust, unreasonable, unduly discriminatory, or preferential, or otherwise unlawful.

The Commission finds: It is necessary and proper in the public interest and to aid in the enforcement of the provisions of the Natural Gas Act that the Commission enter upon hearings concerning the lawfulness of the several proposed changes and that the above-designated supplements be suspended and the use thereof deferred as hereinafter ordered.

The Commission orders:

(A) Pursuant to the authority of the Natural Gas Act, particularly sections 4 and 15 thereof, the Commission's rules of practice and procedure, and the regulations under the Natural Gas Act (18 CFR, Ch. I), public hearings shall be held upon dates to be fixed by notices from the Secretary concerning the lawfulness of the several proposed increased rates and charges contained in the above-designated supplements.

(B) Pending hearings and decisions thereon, the above-designated rate supplements are hereby suspended and the use thereof deferred until the date indicated in the above "Date suspended until" column, and thereafter until such further time as they are made effective in the manner prescribed by the Natural Gas Act.

(C) Neither the supplements hereby suspended, nor the rate schedules sought to be altered thereby, shall be changed until these proceedings have been disposed of or until the periods of suspension have expired, unless otherwise ordered by the Commission.

(D) Notices of intervention or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D.C., in accordance with the rules of practice and procedure (18 CFR 1.8 and 1.37(f)) on or before April 3, 1962.

By the Commission.

JOSEPH H. GUTRIDE,
Secretary.

[F.R. Doc. 62-1545; Filed, Feb. 15, 1962; 8:45 a.m.]

[Docket No. CI60-652]

F. A. CALLERY, INC., ET AL.

Notice of Application and Date of Hearing

FEBRUARY 9, 1962.

Take notice that on May 23, 1960, F. A. Callery, Inc., et al. (Applicant), Bank of the Southwest Building, Houston 2, Texas, filed in Docket No. CI60–652 an application pursuant to section 7(b) of the Natural Gas Act for permission and approval to abandon natural gas service to United Fuel Gas Company from the Luling Field, St. Charles Parish, Louisiana, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant was authorized in Docket No. G–10996 on April 27, 1957 to render the subject service.

The application states that the gas supply from which the subject service was rendered is depleted.

This matter is one that should be disposed of as promptly as possible under the applicable rules and regulations and to that end:

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing will be held on March 13, 1962, at 9:30 a.m., e.s.t., in a Hearing Room of the Federal Power Commission, 441 G Street NW., Washington, D.C., concerning the matters involved in and the issues presented by such application: *Provided, however,* That the Commission may, after a non-contested hearing dispose of the proceedings pursuant to the provisions of § 1.30(c) (1) or (2) of the Commission's rules of practice and procedure. Under the procedure hereby provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D.C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before March 1, 1962. Failure of any party

to appear at and participate in the hearing shall be construed as waiver of and concurrence in omission herein of the intermediate decision in cases where a request therefor is made.

JOSEPH H. GUTRIDE,
Secretary.

SECURITIES AND EXCHANGE COMMISSION

[File No. 811–800]

GAULEY MOUNTAIN CO.

Notice of Application for Order Declaring That Company Has Ceased To Be an Investment Company

FEBRUARY 9, 1962.

Notice is hereby given that an application has been filed pursuant to section 8(f) of the Investment Company Act of 1940 for an order of the Commission declaring that The Gauley Mountain Company ("Applicant"), 500 Fifth Avenue, New York, N.Y., a registered closed-end investment company, has ceased to be an investment company.

The application represents that, pursuant to shareholder approval of a Plan of Complete Liquidation given on November 21, 1958, Applicant was dissolved on December 12, 1958, upon the issuance of a Certificate of Dissolution by the Secretary of State of the State of West Virginia. The application further represents that all of Applicant's outstanding shares have been surrendered and all assets available after satisfying Applicant's liabilities have been distributed to the shareholders.

Section 8(f) of the Act provides, in part, that whenever the Commission upon application finds that a registered investment company has ceased to be an investment company, it shall so declare by order and that upon the taking effect of such order the registration of such company shall cease to be in effect.

Notice is further given that any interested person may, not later than February 26, 1962, at 5:30 p.m. submit to the Commission in writing a request for a hearing on the matter accompanied by a statement as to the nature of his interest, the reason for such request and the issues of fact or law proposed to be controverted, or he may request that he be notified if the Commission shall order a hearing thereon. Any such communication should be addressed: Secretary, Securities and Exchange Commission, Washington 25, D.C. A copy of such request shall be served personally or by mail (air mail if the person being served is located more than 500 miles from the point of mailing) upon applicant. Proof of such service (by affidavit or in case of an attorney-at-law by certificate) should be filed contemporaneously with the request. At any time after said date, as provided by Rule O–5 of the rules and regulations promulgated under the Act, an order disposing of the application herein may be issued by the Commission upon the basis of the showing contained in said application, unless an order for hearing upon said application shall be issued upon request or upon the Commission's own motion.

By the Commission.

[SEAL] ORVAL L. DUBOIS,
Secretary.

[File No. 24S–1859]

PACIFIC ALASKAN LAND & LIVESTOCK CO.

Order Temporarily Suspending Exemption, Statement of Reasons Therefor, and Notice of Opportunity for Hearing

FEBRUARY 12, 1962.

I. Pacific Alaskan Land & Livestock Company (issuer), P.O. Box 2111, Fairbanks, Alaska, an Alaskan corporation, filed with the Commission on October 19, 1961, a notification on Form 1–A and an offering circular relating to a proposed offering of 30,000 shares of no par value common stock at $10 per share, an aggregate offering of $300,000, for the purpose of obtaining an exemption from the registration provisions of the Securities Act of 1933, as amended, pursuant to the provisions of section 3(b) thereof and Regulation A promulgated thereunder.

II. The Commission has reasonable cause to believe that:

A. The terms and conditions of Regulation A have not been complied with, in that:

1. The notification does not disclose information concerning affiliates as required by Item 2(b) of Form 1–A;

2. The financial statements filed by the issuer are not prepared in accordance with generally accepted accounting principles and practices and do not meet the requirements of Regulation A.

B. The offering circular contains untrue statements of material facts and omits to state material facts necessary in order to make the statements made, in the light of the circumstances under which they are made, not misleading, particularly with respect to:

1. The failure to disclose accurately and adequately the past history of the issuer and the activities of Mr. Cline S. Koons in connection with the promotion thereof;

2. The failure to disclose accurately and adequately the direct and indirect interests of officers and directors of the issuer, the consideration paid for the interests and the circumstances relating to the acquisition of such interests;

3. The failure to disclose accurately and adequately the extent and nature of the control exercised by Mr. Cline S. Koons over the past, present and future activities of the issuer;

4. The failure to disclose accurately and adequately the current financial status of the issuer and the possible adverse effect thereof on the operation of the issuer's proposed business;

5. The failure to disclose accurately and adequately the extent and nature of the financing necessary to enable the issuer to undertake operation of its proposed business as set forth in the offering circular and the failure to disclose accurately and adequately what the effect would be on the issuer's proposed operations if less than the entire offering is sold;

6. The failure to disclose accurately and adequately whether the issuer will have the ability to operate successfully if only $100,000 is raised from the offering;

7. The failure to disclose accurately and adequately the difficulties to be encountered and the expense involved in acquiring, sheltering, feeding and raising cattle in the Aleutians, and in transporting cattle, feed and supplies between the sources of supplies, the Aleutian Islands and the markets for beef;

8. The failure to disclose accurately and adequately the possible tracts available for purchase or lease for the conduct of the issuer's proposed business, their exact location, the probable terms and conditions of such leases, the number of acres of such land needed for its operations, and the feasibility of such location from the standpoint of climatic conditions favorable for raising cattle, the availability of feed and the difficulties and expense of transportation of cattle and feed;

9. The failure to disclose accurately and adequately the length of time required to build up a herd and the failure to disclose that during such time the company will have little or no income and considerable expense;

10. The failure to disclose accurately and adequately the location of the markets for the beef the issuer proposes to grow, process and market;

11. The failure to disclose accurately and adequately the effect on issuer's ability to operate and market its meat successfully if cattle cannot be slaughtered under government standards and inspection;

12. The use of financial statements of the company which are not prepared in conformance with generally accepted accounting principles and practices.

C. The offering would be made in violation of section 17 of the Securities Act of 1933, as amended.

III. *It is ordered,* Pursuant to Rule 261(a) of the general rules and regulations under the Securities Act of 1933, as amended, that the exemption under Regulation A be, and it hereby is, temporarily suspended.

Notice is hereby given that any person having any interest in the matter may file with the Secretary of the Commission a written request for a hearing within thirty days after the entry of this order; that within twenty days after receipt of such request the Commission will, or at any time upon its own motion may, set the matter down for hearing at a place to be designated by the Commission for the purpose of determining whether this order of suspension should be vacated or made permanent, without prejudice, however, to the consideration and presentation of additional matters at the hearing; that if no hearing is requested and none is ordered by the Commission,

this order shall become permanent on the thirtieth day after its entry and shall remain in effect unless or until it is modified or vacated by the Commission; and that notice of the time and place for any hearing will be promptly given by the Commission.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

[F.R. Doc. 62-1620; Filed, Feb. 15, 1962; 8:48 a.m.]

[File No. 812-1480]

PROVIDENT FUND FOR INCOME, INC., AND PROVIDENT MANAGEMENT CORP.

Notice of Filing of Application for Order of Exemption

FEBRUARY 8, 1962.

Notice is hereby given that Provident Fund for Income, Inc. ("Fund"), of 3 Penn Center Plaza, Philadelphia, Pennsylvania, a Delaware corporation and a management open-end diversified investment company registered under the Investment Company Act of 1940 ("Act") and Provident Management Corporation of 3 Penn Center Plaza, Philadelphia, Pennsylvania, a Delaware corporation and the Fund's principal underwriter, have filed a joint application pursuant to section 6(c) of the Act for an order of the Commission exempting certain sales of Fund shares from the provisions of section 22(d) of the Act.

The price at which the Fund's shares are offered currently to the public, as described in its prospectus, is the net asset value of the shares plus a sales load varying with the dollar amount of the purchase. The sales load is expected to be increased on the effective date of a registration statement amendment which will be filed by the Fund under the provisions of the Securities Act of 1933. The following table shows the current and proposed sales load expressed as a percentage of the applicable offering price:

Amount of purchase	Present sales load	Proposed sales load
Under $5,000	8.5	8.5
$5,000-$24,999	6.0	7.5
$25,000-$49,999	4.0	5.0
$50,000-$99,999	3.0	4.0
$100,000-$199,999	2.0	2.0
Over $200,000	1.0	2.0

The sales load which is currently applicable to a single purchase of a given quantity of shares is also applicable if such quantity is purchased during any consecutive 13-month period pursuant to a so-called "Letter of Intention" entered into between the purchaser and Provident Management Corporation. This is an agreement in which the purchaser states that within the next thirteen months he intends, but is not committed, to make purchases aggregating a specified amount, and in which it is agreed, and procedures are provided to assure, that the sales load charged on such purchases will be that described in the prospectus for a single transaction of the aggregate amount actually purchased.

Exemption from the provisions of section 22(d) is sought to permit those investors who executed such an agreement within 13 months prior to the effective date of the new public offering price to complete purchases of Fund shares under such agreements at the then current rather than the proposed public offering price, if the then current price was lower.

Section 22(d) of the Act, with certain exceptions not here relevant, prohibits a registered investment company, its principal underwriter, or a dealer from selling its redeemable securities to any person except at a current public offering price described in its prospectus. Generally speaking, Rule 22d-1 adopted under the Act, among other things, exempts from the provisions of section 22(d) the sale of such securities in accordance with a scale of reducing sales load varying with the aggregate quantity of securities purchased by any person within a period of not more than thirteen months pursuant to a written statement of his intention, if the procedures utilized are described in the prospectus and applicable to sales to all persons. Section 6(c) of the Act provides that the Commission, by rule, regulation, or order, may exempt any person or transaction from any provisions of the Act if, and to the extent that, such exemption is necessary or appropriate in the public interest and consistent with the protection of investors and the purposes intended by the Act.

Notice is further given that any interested person may, not later than February 23, 1962, at 5:30 p.m., submit to the Commission in writing a request for a hearing on the matter accompanied by a statement as to the nature of his interest, the reason for such request and the issues of fact or law proposed to be controverted, or he may request that he be notified if the Commission shall order a hearing thereon. Any such communication should be addressed: Secretary, Securities and Exchange Commission, Washington 25, D.C. A copy of such request shall be served personally or by mail (air mail if the person being served is located more than 500 miles from the point of mailing) upon Applicant. Proof of such service (by affidavit or in case of an attorney-at-law by certificate) should be filed contemporaneously with the request. At any time after said date, as provided by Rule O-5 of the rules and regulations promulgated under the Act, an order disposing of the application herein may be issued by the Commission on the basis of the showing contained in said application, unless an order for hearing upon said application shall be issued upon request or upon the Commission's own motion.

By the Commission.

Codification Guide

The following numerical guide is a list of the parts of each title of the Code of Federal Regulations affected by documents published in today's issue. A cumulative list of parts affected, covering the current month to date, appears at the end of each issue beginning with the second issue of the month.

Monthly, quarterly, and annual cumulative guides, published separately from the daily issues, include the section numbers as well as the part numbers affected.

CODE OF FEDERAL REGULATIONS

Title 3, 1954–1958 Compilation

Contains full text of proclamations, Executive orders, reorganization plans, and certain administrative orders issued by the President and published in the Federal Register during the period January 1, 1954–December 31, 1958. Includes tabular finding aids and a consolidated index.

Price: $4.00

Compiled by Office of the Federal Register, National Archives and Records Service, General Services Administration

Order from Superintendent of Documents, United States Government Printing Office, Washington 25, D.C.

Rules and Regulations

Title 8—ALIENS AND NATIONALITY

Chapter I—Immigration and Naturalization Service, Department of Justice

MISCELLANEOUS AMENDMENTS TO CHAPTER

The following amendments to Chapter I of Title 8 of the Code of Federal Regulations are hereby prescribed:

PART 101—PRESUMPTION OF LAWFUL ADMISSION

Subparagraph (1) of paragraph (j) of § 101.1 is amended so that when taken with the introductory material it will read as follows:

§ 101.1 Presumption of lawful admission.

A member of the following classes shall be presumed to have been lawfully admitted for permanent residence even though a record of his admission cannot be found, except as otherwise provided in this section, unless he abandoned his lawful permanent resident status or subsequently lost that status by operation of law:

* * * * *

(j) *Erroneous admission as United States citizens or as children of citizens.* (1) An alien for whom there exists a record of admission prior to September 11, 1957, as a United States citizen who establishes that at the time of such admission he was the child of a United States citizen parent; he was erroneously issued a United States passport or included in the United States passport of his citizen parent accompanying him or to whom he was destined; no fraud or misrepresentation was practiced by him in the issuance of the passport or in gaining admission; he was otherwise admissible at the time of entry except for failure to meet visa or passport requirements; and he has maintained a residence in the United States since the date of admission. For the purposes of the foregoing, the terms "child" and "parent" shall be defined as in section 101(b) of the Immigration and Nationality Act, as amended.

PART 214—NONIMMIGRANT CLASSES

Subparagraph (1) of paragraph (c) of § 214.2 is amended so that when taken with the introductory material it will read as follows:

§ 214.2 Special requirements for admission, extension, and maintenance of status.

The general requirements in § 214.1 are modified for the following nonimmigrant classes:

* * * * *

(c) *Transits*—(1) *Without visas.* Any alien, except a citizen and resident of the Union of Soviet Socialist Republics, Estonia, Latvia, Lithuania, Poland, Czechoslovakia, Hungary, Rumania, Bulgaria, Albania, Cuba, Communist-controlled China ("Chinese People's Republic"), North Korea ("Democratic People's Republic of Korea"), the Soviet Zone of Germany ("German Democratic Republic"), North Viet-Nam ("Democratic Republic of Viet-Nam"), and Outer Mongolia ("Mongolian People's Republic"), applying for immediate and continuous transit through the United States, must establish that he is admissible; that he has confirmed and onward reservations to at least the next country beyond the United States (except that, if seeking to join a vessel or aircraft in the United States as a crewman, the vessel or aircraft will depart directly foreign, and his departure will be completed within a maximum of 5 calendar days after his arrival, and, if joining a vessel, the crewman is in possession of, or makes application upon arrival for, a Form I–184 permanent landing permit and identification card), and that he has a document establishing his ability to enter some country other than the United States. Except for transit from one part of foreign contiguous territory to another part of the same territory, application for direct transit without a visa must be made at one of the following ports of entry: Boston, Mass.; New York, N.Y.; Norfolk, Va.; Baltimore, Md.; Philadelphia, Pa.; Miami, Fla.; Tampa, Fla.; New Orleans, La.; San Antonio, Tex.; Dallas, Tex.; Houston, Tex.; Brownsville, Tex.; San Diego, Calif.; Los Angeles, Calif.; San Francisco, Calif.; Honolulu, Hawaii; Seattle, Wash.; Portland, Oreg.; St. Paul, Minn.; Chicago, Ill.; Detroit, Mich.; Anchorage, Alaska; San Juan, P.R.; Charlotte Amalie, V.I.; Christiansted, V.I.; Agana, Guam. The acceptance of the transit privilege constitutes an agreement by the alien and the carrier that he will depart voluntarily from the United States without recourse to any hearing or proceeding provided for in this chapter and that at all times he is not aboard an aircraft which is in flight through the United States he shall be in the custody directed by the district director, provided that if admissibility is established only after exercise of the discretion contained in section 212(d)(3)(B) of the Act the alien shall be in the custody of the Service at carrier expense and must depart on the earliest and most direct foreign-destined plane or vessel.

PART 237—DEPORTATION OF EXCLUDED ALIENS

Section 237.5 is amended to read as follows:

§ 237.5 Notice to transportation line of alien's exclusion.

An excluded alien shall, immediately or as promptly as the circumstances permit, be offered for deportation to the master, commanding officer, purser, person in charge, agent, owner, or consignee of the vessel or aircraft on which the alien is to be deported, as determined by the district director, with a written notice specifying the cause of exclusion, the class of travel in which such alien arrived and is to be deported, and with the return of any documentation which will assist in effecting his deportation. If special care and attention is required, the provisions of § 243.7 of this chapter shall apply.

(Sec. 103, 66 Stat. 173; 8 U.S.C. 1103)

This order shall become effective on the date of its publication in the FEDERAL REGISTER. Compliance with the provisions of section 4 of the Administrative Procedure Act (60 Stat. 238; 5 U.S.C. 1003), as to notice of proposed rule making and delayed effective date, is unnecessary in this instance because the rules prescribed by the order, other than those which are editorial in nature, relate to agency procedure.

Dated: February 13, 1962.

R. F. FARRELL,
Commissioner of Immigration and Naturalization.

[F.R. Doc. 62–1661; Filed, Feb. 16, 1962; 8:49 a.m.]

Title 14—AERONAUTICS AND SPACE

Chapter III—Federal Aviation Agency

SUBCHAPTER C—AIRCRAFT REGULATIONS

[Reg. Docket No. 1074; Amdt. 401]

PART 507—AIRWORTHINESS DIRECTIVES

Sud Aviation Alouette II SE 3130 Helicopters

Amendment 154, 25 F.R. 4376, requires inspection of the tail rotor blade surfaces at the attachment bolts on Alouette II SE 3130 helicopters. Inspection of a failed tail rotor blade disclosed cracks in the skin adjacent to the outboard end

of the reinforcement plate. Therefore, Amendment 154 is being revised to require inspection of the entire area which is subject to cracking.

As a situation exists which demands immediate action in the interest of safety, it is found that notice and public procedure hereon are impracticable and good cause exists for making this amendment effective in less than 30 days after date of publication in the FEDERAL REGISTER.

In consideration of the foregoing, and pursuant to the authority delegated to me by the Administrator (25 F.R. 6489), § 507.10(a) of Part 507 (14 CFR Part 507), is hereby amended as follows:

Amendment 154, 25 F.R. 4376, Alouette II SE 3130 helicopters, is amended by revising paragraph (a) to read as follows:

(a) Visually inspect the upper and lower blade surfaces to determine that the blade cuff at the attachment bolts and the skin around the entire reinforcement plate area are free from cracks.

This amendment shall become effective February 28, 1962.

(Secs. 313(a), 601, 603; 72 Stat. 752, 775, 776; 49 U.S.C. 1354(a), 1421, 1423)

Issued in Washington, D.C., on February 13, 1962.

G. S. MOORE,
Acting Director,
Flight Standards Service.

[F.R. Doc. 62-1631; Filed, Feb. 16, 1962; 8:46 a.m.]

[Regulatory Docket No. 1072; Amdt. 399]

PART 507—AIRWORTHINESS DIRECTIVES

Fairchild F-27 Series Aircraft

Amendment 312, 26 F.R. 6642, requires inspection and replacement of the main landing gear drag strut attaching bolts on Fairchild F-27 Series aircraft. The manufacturer has completed tests of a new bolt which is shown to have a higher fatigue life limitation. Therefore, Amendment 312 is being superseded by a new directive providing for the use of the new bolt. The compliance time for the new directive is expressed in terms of landings rather than hours time in service since this is a more realistic basis for parts affected only by landings.

Since this amendment relaxes a requirement and imposes no additional burden on any person, notice and public procedure hereon are unnecessary and it may be made effective upon publication in the FEDERAL REGISTER.

In consideration of the foregoing and pursuant to the authority delegated to me by the Administrator (25 F.R. 6489), § 507.10(a) of Part 507 (14 CFR Part 507) is hereby amended by adding the following new airworthiness directive:

FAIRCHILD. Applies to all F-27 Series aircraft.

Compliance required as indicated.

Due to the failure of several main landing gear drag strut attaching bolts, the following is required on aircraft having accumulated 300 or more landings. (It will be necessary for operators to maintain a record of landings in order to ascertain compliance with this AD. If past records are unavailable, the number of landings prior to this AD may be estimated.)

(a) Within the next 50 landings after effective date of this AD unless already accomplished within the past 100 landings:

(1) Remove the bolts, Dowty P/Na 9017Y11 and 9027Y7, and inspect for cracks, using magnetic particle or dye penetrate methods, or FAA approved equivalents. Cracks emanate from the center grease hole and progress around the bolt circumference. Replace cracked bolts prior to further flight either with the original type bolts, nuts, and washers, or the following:

(i) For the upper bolt, P/N 9017Y11, substitute any one of the following or FAA approved equivalent: Dowty bolt, P/N 200021.064; NAS 630-38 bolt with one NAS 143-10C washer under the bolt head, one NAS 143-10 washer under the nut, and an AN310-10 or AN320-10 nut; or Dowty bolt P/N 200021.267, with lock plate P/N 200021.255, washer P/N BS/SP13-Q, and nut P/N A.103-LS. Dowty lock plate P/N 200021.255 must be connected to Fairchild P/N 27-502033-11 with an AN173-11A bolt and an AN365-1032 nut as shown in Fairchild Service Bulletin 32-44 revised January 23, 1962, or FAA approved equivalent. Where an NAS 630-38 bolt is not available, longer NAS 630 bolt lengths may be used, with NAS 143-10 washers under the nut, provided proper clearances are maintained.

(ii) For the lower bolt, P/N 9027Y7, substitute either of the following, or FAA approved equivalent: Dowty bolt, P/N 200042.-627, with washer P/N BS/SP16-Q, nut P/N SP878-2, bushing P/N 200021.347, grease adapter P/N 200021.348, nipple P/N MS15001-1 and split pin P/N BS/SP.9C10 or cotter pin P/N AN381-4-22, installed in accordance with Fairchild Service Bulletin No. 32-44, revised January 23, 1962; or NAS 632-60 bolt with one NAS 143-12C washer under the bolt head and an AN310-12 or AN320-12 nut. Where an NAS 632-60 bolt is not available, longer NAS 632 bolt lengths may be used with NAS 143-12 washers under the nut provided proper clearances are maintained.

(2) Drill a 0.141-inch diameter hole for a cotter pin in the NAS bolts listed in (a) (1) and (ii). Coat each NAS bolt with MIL-G-3278A grease before installing, and tighten nut to fit snug.

(b) Oil NAS bolts daily with SAE 20 motor oil without removing.

(c) If NAS bolts are installed inspect using the magnetic particle or dye penetrant methods or FAA approved equivalents, and regrease every 300 landings from the date of installation. Replace cracked bolts in accordance with (a)(1).

(d) If no cracks are evident in the existing bolts, P/N's 9017Y11 and 9027Y7, they may be reinstalled. Thereafter, remove and inspect the bolts per (a)(1) at intervals of 150 landings from the date of reinstallation.

(e) If Dowty bolts, P/N 200021.064, or new original bolts, Dowty P/N 9017Y11 or 9027Y7 are used, further inspection is not required until the bolts have accumulated 300 landings. Thereafter, remove and inspect the bolts for cracks, using the magnetic particle or dye penetrant methods or FAA approved equivalent at intervals of 150 landings. Replace cracked bolts in accordance with (a)(1).

(f) If Dowty bolts, P/N 200021.267, are used, remove and inspect bushing P/N 27-502046-3 or FS-10381410-77 whichever is installed in the nacelle fitting P/N 27-502033-11, and the drag strut bushing P/N D7761T7. If the bushing-bolt clearance does not exceed 0.004 inch, subsequent inspection of the bolts for cracks using the magnetic particle or dye penetrant methods or FAA approved equivalents shall be within 3,000 landings and every 300 landings thereafter. Replace cracked bolts in accordance with (a)(1). The bushings are to be inspected at each bolt inspection. If bolt-bushing clearance is more than 0.004 inch but less than 0.006 inch subsequent inspection of the bolts and bushings shall be within each 300 landings until the bushings are replaced. After replacement of the bushing the next repetitive inspection of the bolts and bushings shall be within 3,000 landings after installation of the bolts and thereafter within each 300 landings. Whenever the bushing-bolt clearance exceeds 0.006 inch replace the bushing prior to further flight except ferry flight in accordance with the provisions of CAR 1.75. Replace bushings with a bushing of the same part number or FAA approved equivalent.

(g) If Dowty bolts P/N 2.00042.627 are used, remove and inspect bushings P/N 2.00021.347 and D9207Y8 which are installed in the drag strut fitting P/N 2.00021.345 or C9017Y9. If the bushing-bolt clearance does not exceed 0.0035 inch subsequent inspection of the bolts for cracks using the magnetic particle or dye penetrant methods or FAA approved equivalents shall be within 5,000 landings and every 300 landings thereafter. Replace cracked bolts in accordance with (a)(1). The bushings are to be inspected at each bolt inspection. If bolt-bushing clearance is more than 0.0035 inch but less than 0.006 inch subsequent inspection of the bolts and bushings shall be within each 300 landings until the bushings are replaced. After replacement of the bushing the next repetitive inspection of the bolts and bushings shall be within 5,000 landings after installation of the bolts and thereafter within each 300 landings. Whenever the bushing-bolt clearance exceeds 0.006 inch replace the bushing prior to further flight except ferry flight in accordance with the provisions of CAR 1.75. Replace bushings with a bushing of the same part number or FAA approved equivalent.

Upon request of the operator, an FAA maintenance inspector, subject to prior approval of the Chief, Engineering and Manufacturing Branch, FAA Eastern Region, may adjust the repetitive inspection intervals specified in this Airworthiness Directive to permit compliance at an established inspection period of the operator if the request contains substantiating data to justify the increase for such operator.

(Fairchild Service Bulletin 32-44, revised January 23, 1962, covers this subject.)

This supersedes Amendment 312, 26 F.R. 6642.

This amendment shall become effective February 17, 1962.

(Secs. 313(a), 601, 603; 72 Stat. 752, 775, 776; 49 U.S.C. 1354(a), 1421, 1423)

Issued in Washington, D.C., on February 9, 1962.

G. S. MOORE,
Acting Director,
Flight Standards Service.

[F.R. Doc. 62-1691; Filed, Feb. 16, 1962; 8:52 a.m.]

SUBCHAPTER E—AIR NAVIGATION REGULATIONS

[Reg. Docket No. 1042; Amdt. 256]

PART 609—STANDARD INSTRUMENT APPROACH PROCEDURES

Miscellaneous Amendments

The amendments to standard instrument approach procedures contained herein are being adopted to become effective when indicated in order to promote safety. The revised procedures supersede the existing procedures of the same classification now in effect for the airports specified therein. For the convenience of the users, the revised procedures specify the complete procedure and indicate the changes to the existing procedures.

As a situation exists which demands immediate action in the interests of safety in air commerce, I find that compliance with the notice, procedure and effective date provisions of section 4 of the Administrative Procedure Act would be contrary to the public interest and is therefore not required.

Pursuant to the authority delegated to me by the Administrator (24 F.R. 5662), Part 609 is amended as follows:

1. The low or medium frequency range procedures prescribed in § 609.100(a) are amended to read in part:

LFR STANDARD INSTRUMENT APPROACH PROCEDURE

Bearings, headings, courses and radials are magnetic. Elevations and altitudes are in feet MSL. Ceilings are in feet above airport elevation. Distances are in nautical miles unless otherwise indicated, except visibilities which are in statute miles.

If an instrument approach procedure of the above type is conducted at the below named airport, it shall be in accordance with the following instrument approach procedure, unless an approach is conducted in accordance with a different procedure for such airport authorized by the Administrator of the Federal Aviation Agency. Initial approaches shall be made over specified routes. Minimum altitudes shall correspond with those established for en route operation in the particular area or as set forth below.

Transition				Ceiling and visibility minimums			
					2-engine or less		More than 2-engine, more than 65 knots
From—	To—	Course and distance	Minimum altitude (feet)	Condition	65 knots or less	More than 65 knots	
Burley VOR	BY-LFR	Direct	6000	T-dn*	500-1	NA	NA
				C-dn	600-1	NA	NA
				S-dn-20	400-1	NA	NA
				A-dn	800-2	NA	NA

Procedure turn W side N crs, 006° Outbnd, 186° Inbnd, 6000' within 10 miles.
Minimum altitude over facility on final approach crs, 4900'.
Crs and distance, facility to airport, 198°—2.3 mi.
If visual contact not established upon descent to authorized landing minimums or if landing not accomplished within 2.3 miles, make a climbing right turn direct to BY-LFR. Climb to 6000' on N crs within 20 miles.
*200-1 take-off authorized on Runways 2, 6, and 20.

City, Burley; State, Idaho; Airport Name, Burley Municipal; Elev., 4150'; Fac. Class., SBMRAZ; Ident., BY; Procedure No. 1, Amdt. 7; Eff. Date, 24 Feb. 62; Sup. Amdt. No. 6; Dated, 3 Oct. 59

Radar control must provide 1000' clearance within 3 mi or 500' clearance within 3-5 miles of radio towers 1108' m.s.l. 14 mi north; 1221' m.s.l. 10 mi WSW; 2349' m.s.l. 23 mi. SSW of airport.
No procedure turn.
Minimum altitude over Vickery Int# on final approach crs, 2000'.
Crs and distance, Vickery Int# to airport, 340°—5.0 mi.
Crs and distance, breakoff point to end of runway, 333°—1 mi.
If visual contact not established upon descent to authorized landing minimums or if landing not accomplished when over the VOR, turn right and proceed direct to DAL-VOR, climbing to 2000'.
NOTE: Air carrier use NA.
#Vickery Int: Int ADS-VOR R-160 and DAL-VOR R-220.

City, Dallas; State, Tex.; Airport Name, Addison; Elev., 637'; Fac. Class., BVOR; Ident., ADS; Procedure No. TerVOR-33, Amdt. 2; Eff. Date, 24 Feb. 62; Sup. Amdt. No. 1; Dated, 30 May 59

5. The instrument landing system procedures prescribed in § 609.400 are amended to read in part:

ILS STANDARD INSTRUMENT APPROACH PROCEDURE

Bearings, headings, courses and radials are magnetic. Elevations and altitudes are in feet, MSL. Ceilings are in feet above airport elevation. Distances are in nautical miles unless otherwise indicated, except visibilities which are in statute miles.
If an instrument approach procedure of the above type is conducted at the below named airport, it shall be in accordance with the following instrument approach procedure, unless an approach is conducted in accordance with a different procedure for such airport authorized by the Administrator of the Federal Aviation Agency. Initial approaches shall be made over specified routes. Minimum altitudes shall correspond with those established for en route operation in the particular area or as set forth below.

Transition				Ceiling and visibility minimums			
From—	To—	Course and distance	Minimum altitude (feet)	Condition	2-engine or less: 65 knots or less	2-engine or less: More than 65 knots	More than 2-engine, more than 65 knots
Allentown LFR	LOM	Direct	2400	T-dn	300-1	300-1	200-½

6. The radar procedures prescribed in § 609.500 are amended to read in part:

RADAR STANDARD INSTRUMENT APPROACH PROCEDURE

Bearings, headings, courses and radials are magnetic. Elevations and altitudes are in feet, MSL. Ceilings are in feet above airport elevation. Distances are in nautical miles unless otherwise indicated, except visibilities which are in statute miles.
If a radar instrument approach is conducted at the below named airport, it shall be in accordance with the following instrument procedure, unless an approach is conducted in accordance with a different procedure for such airport authorized by the Administrator of the Federal Aviation Agency. Initial approaches shall be made over specified routes. Minimum altitude(s) shall correspond with those established for en route operation in the particular area or as set forth below. Positive identification must be established with the radar controller. From initial contact with radar to final authorized landing minimums, the instructions of the radar controller are mandatory except when (A) visual contact is established on final approach at or before descent to the authorized landing minimums, or (B) at pilot's discretion if it appears desirable to discontinue the approach, except when the radar controller may direct otherwise prior to final approach, a missed approach shall be executed as provided below when (A) communication on final approach is lost for more than 5 seconds during a precision approach, or for more than 30 seconds during a surveillance approach; (B) directed by radar controller; (C) visual contact is not established upon descent to authorized landing minimums; or (D) if landing is not accomplished.

Radar terminal area maneuvering sectors and altitudes														Ceiling and visibility minimums

				C-dn#	700–1¼	700–1¼	700–1¼
				A-dn#	800–2	800–2	800–2

Radar terminal area transition altitudes: All bearings are from the radar site with sector azimuths progressing clockwise.
Radar control will provide 1000′ vertical clearance within a 2-mile radius or 500′ vertical clearance within a 3- to 5-mile (inclusive) radius of 1222′ TV tower 11 mi SSE, 1051′ TV tower 11 mi SW, 784′ TV tower 11 mi WNW, 753′ TV tower 8½ mi NW, 610′ structure 7 mi NE of airport, 580′ tower 16 mi SW, 605′ tower 16 mi SE.
If visual contact not established upon descent to authorized landing minimums or if landing not accomplished climb to 2300 straight ahead then proceed to Houston LFR or VOR or proceed as directed by radar control.
#Aircraft on any direct course to Houston VOR may descend to 750′ MSL from 5 mi radar fix.
*Runway visual range 2000′ also authorized for landing on Runway 3; provided that all components of the PAR, high intensity runway lights, approach lights, condenser-discharge flashers, middle and outer compass locators and all related airborne equipment are in satisfactory operating condition. Descent below 250′ MSL shall not be made unless visual contact with approach lights has been established or the aircraft is clear of clouds.
**Runway visual range 2000′ also authorized for takeoff on Runway 3 in lieu of 200–½ when 200–½ is authorized; providing high intensity runway lights are operational.

City, Houston; State, Tex.; Airport Name, International; Elev., 50′; Fac. Class., Houston; Ident., Radar; Procedure No. 1, Amdt. 8; Eff. Date, 24 Feb. 62; Sup. Amdt. No. 7; Dated 20 May 61

Title 7—AGRICULTURE

Chapter IX—Agricultural Marketing Service (Marketing Agreements and Orders), Department of Agriculture

[Orange Reg. 4]

PART 905—ORANGES, GRAPEFRUIT, TANGERINES, AND TANGELOS GROWN IN FLORIDA

Limitation of Shipments

§ 905.313 Orange Regulation 4.

(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 905, as amended (7 CFR Part 905), regulating the handling of oranges, grapefruit, tangerines, and tangelos grown in Florida effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674), and upon the basis of the recommendations of the committees established under the aforesaid amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of shipments of oranges, including Temple oranges, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this section until 30 days after publication thereof in the FEDERAL REGISTER (5 U.S.C. 1001–1011) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient; a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. Shipments of oranges, including Temple oranges, grown in the production area, are presently subject to regulation by grades and sizes, pursuant to the amended marketing agreement and order; the recommendation and supporting information for regulation during the period specified herein were promptly submitted to the Department after an open meeting of the Growers Administrative Committee on February 13, 1962, such meeting was held to consider recommendations for regulation, after giving due notice of such meeting, and interested persons were afforded an opportunity to submit their views at this meeting; the provisions of this section, including the effective time hereof, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such oranges; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period hereinafter set forth so as to provide for the continued regulation of the handling of oranges, including Temple oranges, and compliance with this section will not require any special preparation on the part of the persons subject thereto which cannot be completed by the effective time hereof.

(b) *Order.* (1) Terms used in the amended marketing agreement and order shall, when used herein, have the same meaning as is given to the respective term in said amended marketing agreement and order; and terms relating to grade, diameter, standard pack, and standard box, as used herein, shall have the same meaning as is given to the respective term in the United States Standards for Florida Oranges and Tangelos (§§ 51.1140–51.1178 of this title; 25 F.R. 8211).

(2) During the period beginning at 12:01 a.m., e.s.t., February 19, 1962, and ending at 12:01 a.m., e.s.t., March 1, 1962, no handler shall ship between the production area and any point outside thereof in the continental United States, Canada, or Mexico:

(i) Any oranges, including Temple oranges, grown in the production area, which do not grade at least U.S. No. 1 Russet;

(ii) Any oranges, except Temple oranges, grown in the production area, which are of a size smaller than 2⅛ inches in diameter, except that a tolerance of 10 percent, by count, of oranges smaller than such minimum diameter shall be permitted, which tolerance shall be applied in accordance with the provisions for the application of tolerances specified in said United States Standards for Florida Oranges and Tangelos: *Provided*, That in determining the percentage of oranges in any lot which are smaller than 2⅛ inches in diameter, such percentage shall be based only on those oranges in such lot which are of a size 2 1/16 inches in diameter or smaller; or

(iii) Any Temple oranges, grown in the production area, which are of a size smaller than 2⅛ inches in diameter, except that a tolerance of ten percent, by count, of Temple oranges smaller than such minimum diameter shall be permitted, which tolerance shall be applied in accordance with the provisions for the application of tolerances specified in said United States Standards for Florida Oranges and Tangelos.

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Dated: February 14, 1962.

PAUL A. NICHOLSON,
Acting Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[F.R. Doc. 62-1672; Filed, Feb. 16, 1962; 8:52 a.m.]

[Grapefruit Reg. 4]

PART 905—ORANGES, GRAPEFRUIT, TANGERINES, AND TANGELOS GROWN IN FLORIDA

Limitation of Shipments

§ 905.314 Grapefruit Regulation 4.

(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 905 as amended (7 CFR Part 905), regulating the handling of oranges, grapefruit, tangerines, and tangelos grown in Florida, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674), and upon the basis of the recommendations of the committees established under the aforesaid amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of shipments of grapefruit, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this section until 30 days after publication thereof in the FEDERAL REGISTER (5 U.S.C. 1001–1011) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient; a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. Shipments of all grapefruit, grown in the production area, are presently subject to regulation by grades and sizes, pursuant to the amended marketing agreement and order; the recommendation and supporting information for regulation during the period specified herein were promptly submitted to the Department after an open meeting of the Growers Administrative Committee on February 13, 1962, such meeting was held to consider recommendations for regulation, after giving due notice of such meeting, and interested persons were afforded an opportunity to submit their views at this meeting; the provisions of this section, including the effective time hereof, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such grapefruit; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period hereinafter set forth so as to provide for the continued regulation of the handling of grapefruit, and compliance with this section will not require any special preparation on the part of the persons subject thereto which cannot be completed by the effective time hereof.

(b) *Order.* (1) Terms used in the amended marketing agreement and order shall, when used herein, have the same meaning as is given to the respective term in the respective term in the United States Standards for Florida Grapefruit (§§ 51.750–51.783 of this title; 26 F.R. 163).

(2) During the period beginning at 12:01 a.m., e.s.t., February 19, 1962, and ending at 12:01 a.m., e.s.t., March 5, 1962, no handler shall ship between the production area and any point outside thereof in the continental United States, Canada, or Mexico:

(i) Any grapefruit, grown in the production area, which do not grade at least U.S. No. 1: *Provided*, That such grapefruit may have discoloration to the extent permitted under the U.S. No. 2 Russet grade, and may have slightly rough texture caused only by speck type melanose;

(ii) Any seeded grapefruit, grown in the production area, which are smaller than 3 1/16 inches in diameter, except that a tolerance of 10 percent, by count, of seeded grapefruit smaller than such minimum size shall be permitted, which tolerance shall be applied in accordance with the provisions for the application of tolerances, specified in said United States Standards for Florida Grapefruit; or

(iii) Any seedless grapefruit, grown in the production area, which are smaller than 3⅛ inches in diameter, except that a tolerance of 10 percent, by count, of seedless grapefruit smaller than such minimum size shall be permitted, which tolerance shall be applied in accordance with the provisions for the application of tolerances, specified in said United States Standards for Florida Grapefruit.

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Dated: February 14, 1962.

PAUL A. NICHOLSON,
Acting Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[Navel Orange Reg. 7]

PART 907—NAVEL ORANGES GROWN IN ARIZONA AND DESIGNATED PART OF CALIFORNIA

Limitation of Handling

§ 907.307 Navel Orange Regulation 7.

(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 907, as amended (7 CFR Part 907), regulating the handling of navel oranges grown in Arizona and designated part of California, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674), and upon the basis of the recommendations and information submitted by the Navel Orange Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of handling of such navel oranges, as hereinafter provided, will tend to effectuate the declared policy of the act by tending to establish and maintain such orderly marketing conditions for such oranges as will provide, in the interests of producers and consumers, an orderly flow of the supply thereof to market throughout the normal marketing season to avoid unreasonable fluctuations in supplies and prices, and is not for the purpose of maintaining prices to farmers above the level which it is declared to be the policy of Congress to establish under the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this section until 30 days after publication hereof in the FEDERAL REGISTER (5 U.S.C. 1001–1011) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. The committee held an open meeting during the current week, after giving due notice thereof, to consider supply and market conditions for navel oranges and the need for regulation; interested persons were afforded an opportunity to submit information and views at this meeting; the recommendation and supporting information for regulation during the period specified herein were promptly submitted to the Department after such meeting was held; the provisions of this section, including its effective time, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such navel oranges; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period herein specified; and compliance with this section will not require any special preparation on the part of persons subject hereto which cannot be completed on or before the effective date hereof. Such committee meeting was held on February 15, 1962.

(b) *Order.* (1) The respective quantities of navel oranges grown in Arizona and designated part of California which may be handled during the period beginning at 12:01 a.m., P.s.t., February 18, 1962, and ending at 12:01 a.m., P.s.t.,

February 25, 1962, are hereby fixed as follows:

(i) District 1: Unlimited movement;
(ii) District 2: 400,000 cartons;
(iii) District 3: Unlimited movement;
(iv) District 4: Unlimited movement.

(2) As used in this section, "handled," "District 1," "District 2," "District 3," "District 4," and "carton" have the same meaning as when used in said amended marketing agreement and order.

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Dated: February 16, 1962.

PAUL A. NICHOLSON,
Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[F.R. Doc. 62-1739; Filed, Feb. 16, 1962; 11:16 a.m.]

[Lemon Reg. 8]

PART 910—LEMONS GROWN IN CALIFORNIA AND ARIZONA

Limitation of Handling

§ 910.308 Lemon Regulation 8.

(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 910, as amended (7 CFR Part 910), regulating the handling of lemons grown in California and Arizona, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674), and upon the basis of the recommendation and information submitted by the Lemon Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of handling of such lemons as hereinafter provided will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this section until 30 days after publication hereof in the FEDERAL REGISTER (5 U.S.C. 1001–1011), because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. The committee held an open meeting during the current week, after giving due notice thereof, to consider supply and market conditions for lemons and the need for regulation; interested persons were afforded an opportunity to submit information and views at this meeting; the recommendation and supporting information for regulation during the period specified herein were promptly submitted to the Department after such meeting was held; the provisions of this section, including its effective time, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such lemons; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period herein specified; and compliance with this section will not require any special preparation on the part of persons subject hereto which cannot be completed on or before the effective date hereof. Such committee meeting was held on February 13, 1962.

(b) *Order.* (1) The respective quantities of lemons grown in California and Arizona which may be handled during the period beginning at 12:01 a.m., P.s.t., February 18, 1962 and ending at 12:01 a.m., P.s.t., February 25, 1962, are hereby fixed as follows:

(i) District 1: 9,300 cartons;
(ii) District 2: 186,000 cartons;
(iii) District 3: Unlimited movement.

(2) As used in this section, "handled," "District 1," "District 2," "District 3," and "carton" have the same meaning as when used in the said amended marketing agreement and order.

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Dated: February 14, 1962.

PAUL A. NICHOLSON,
Acting Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[F.R. Doc. 62-1670; Filed, Feb. 16, 1962; 8:51 a.m.]

[Grapefruit Reg. 2]

PART 912—GRAPEFRUIT GROWN IN THE INDIAN RIVER DISTRICT IN FLORIDA

Limitation of Handling

§ 912.302 Grapefruit Regulation 2.

(a) *Findings.* (1) Pursuant to the marketing agreement and order (7 CFR Part 912; 27 F.R. 87) regulating the handling of grapefruit grown in the Indian River District in Florida, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674), and upon the basis of the recommendations and information submitted by the Indian River Grapefruit Committee, established under the said marketing agreement and order, and upon other available information, it is hereby found that the limitation of handling of such grapefruit, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this section until 30 days after publication hereof in the FEDERAL REGISTER (5 U.S.C. 1001–1011) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. The committee held an open meeting during the current week, after giving due notice thereof, to consider supply and market conditions for Indian River grapefruit, and the need for regulation; interested persons were afforded an opportunity to submit information and views at this meeting; the recommendation and supporting information for regulation during the period specified herein were promptly submitted to the Department after such meeting was held; the provisions of this section, including its effective time, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such Indian River grapefruit; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period herein specified; and compliance with this section will not require any special preparation on the part of persons subject hereto which cannot be completed on or before the effective date hereof. Such committee meeting was held on February 15, 1962.

(b) *Order.* (1) The quantity of grapefruit grown in the Indian River District which may be handled during the period beginning at 12:01 a.m., e.s.t., February 19, 1962, and ending at 12:01 a.m., e.s.t., February 26, 1962, is hereby fixed at 160,601 standard packed boxes.

(2) As used in this section, "handled," "Indian River District," "grapefruit," and "standard packed box" have the same meaning as when used in said marketing agreement and order.

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Dated: February 15, 1962.

FLOYD F. HEDLUND,
Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[F.R. Doc. 62-1701; Filed, Feb. 16, 1962; 8:52 a.m.]

Title 21—FOOD AND DRUGS

Chapter I—Food and Drug Administration, Department of Health, Education, and Welfare

SUBCHAPTER A—GENERAL

PART 1—REGULATIONS FOR THE ENFORCEMENT OF THE FEDERAL FOOD, DRUG, AND COSMETIC ACT

Labeling Requirements for Drugs and Devices; Change in Effective Date

The FEDERAL REGISTER of September 6, 1961 (26 F.R. 8389) announced a revision of § 1.106 (b)(3), (c)(3), and (d)(3) with an 180-day effective date. Thus, this order would become effective on March 5, 1962.

The Commissioner of Food and Drugs has received a series of petitions from representatives of pharmaceutical manufacturers pointing out the steps that have been taken in an attempt to comply with this regulation. These petitions, however, delineate the difficulties involved and support the view that complete compliance with the revised order prior to March 5 cannot be expected.

On the basis of the representations made, the Commissioner concludes that a delayed effective date is necessary. Therefore, pursuant to the provisions of the Federal Food, Drug and Cosmetic Act (sec. 701, 52 Stat. 1055; 21 U.S.C. 371) and the authority delegated to the Commissioner of Food and Drugs by the Secretary of Health, Education and Welfare (25 F.R. 8625), the effective date of the order published in the FEDERAL REGISTER of September 6, 1961, is changed from 180 days to 270 days from date of publication.

(Sec. 701(a), 52 Stat. 1055; 21 U.S.C. 371(a))

Dated: February 13, 1962.

GEO. P. LARRICK,
Commissioner of Food and Drugs.

[F.R. Doc. 62-1651; Filed, Feb. 16, 1962; 8:48 a.m.]

SUBCHAPTER B—FOOD AND FOOD PRODUCTS

PART 27—CANNED FRUIT JUICES; DEFINITIONS AND STANDARDS OF IDENTITY; QUALITY; AND FILL OF CONTAINER

Artificially Sweetened Canned Pineapple; Standard of Identity; Effective Date

Pursuant to the provisions of the Federal Food, Drug, and Cosmetic Act (secs. 401, 701, 52 Stat. 1046, 1055, as amended 70 Stat. 919, 72 Stat. 948; 21 U.S.C. 341, 371) and in accordance with the authority delegated to the Commissioner of Food and Drugs by the Secretary of Health, Education, and Welfare (25 F.R. 8625), notice is hereby given that no objections were filed to the order published in the FEDERAL REGISTER of December 28, 1961 (26 F.R. 12563), establishing a definition and standard of identity for artificially sweetened canned pineapple. Accordingly, the definition and standard of identity promulgated by that order will become effective February 26, 1962.

(Secs. 401, 701, 52 Stat. 1046, 1055, as amended 70 Stat. 919, 72 Stat. 948; 21 U.S.C. 341, 371)

Dated: February 13, 1962.

GEO. P. LARRICK,
Commissioner of Food and Drugs.

[F.R. Doc. 62-1657; Filed, Feb. 16, 1962; 8:49 a.m.]

Title 36—PARKS, FORESTS, AND MEMORIALS

Chapter I—National Park Service, Department of the Interior

PART 3—NATIONAL CAPITAL PARKS REGULATIONS

Commercial Vehicles and Common Carriers

Notice is hereby given that pursuant to the authority vested in the Secretary of the Interior by section 3 of the Act of August 25, 1916 (39 Stat. 535; 16 U.S.C. 3), § 3.36 of Title 36, Code of Federal Regulations, is amended as set forth below. The purpose of the amendment is to permit the operation of commercial trucks on Constitution Avenue east of 18th Street NW.

It is the policy of the Department of the Interior, whenever practicable, to afford the public an opportunity to participate in the rule-making process. However, because of the desire of the Interior Department to assist the Department of Highways and Traffic, Washington, D.C., in correcting a serious traffic situation existing at the intersection of Virginia Avenue and Constitution Avenue NW., it has been determined to be in the best interest of the general public to revise the routing of traffic in this area as soon as practicable. Accordingly, this amendment shall become effective upon publication in the FEDERAL REGISTER.

Paragraph (c) of § 3.36 is amended to read as follows:

§ 3.36 Commercial vehicles and common carriers.

* * * * *

(c) *Commercial trucks.* The use of any park road by commercial trucks when such trucking is in no way connected with the operation of the park system is prohibited, except (1) on the section of Constitution Avenue east of 18th Street, (2) that in special cases, trucking permits may be issued at the discretion of the Superintendent.

JOHN A. CARVER, Jr.,
Assistant Secretary of the Interior.

FEBRUARY 13, 1962.

Title 43—PUBLIC LANDS: INTERIOR

Chapter I—Bureau of Land Management, Department of the Interior

APPENDIX—PUBLIC LAND ORDERS

[Public Land Order 2605]

[Sacramento 065502]

[1653043]

CALIFORNIA

Revoking Executive Order No. 7505 of December 11, 1936

By virtue of the authority vested in the President by section 1 of the act of June 25, 1910 (36 Stat. 847; 43 U.S.C. 141), and pursuant to Executive Order No. 10355 of May 26, 1952, it is ordered as follows:

1. Executive Order No. 7505 of December 11, 1936, so far as it withdrew the following described public lands for classification and in aid of legislation, is hereby revoked:

MOUNT DIABLO MERIDIAN

T. 34 N., R. 2 E.,
Sec. 24, SE¼SW¼;
Sec. 25, E½NW¼.

Containing 120 acres.

2. The lands are located approximately eight miles south of Burney, California.

3. The lands released from withdrawal by this order are hereby restored to the operation of the public land laws, subject to any valid existing rights and equitable claims, the requirements of applicable law, rules, and regulations, and the provisions of any existing withdrawals, provided that until 10:00 a.m., on August 13, 1962, the State of California shall have a preferred right of application to select the lands in accordance with subsection (c) of section 2 of the act of August 27, 1958 (72 Stat. 928; 43 U.S.C. 851, 852).

4. The lands have been open to applications and offers under the mineral leasing laws and to location for metalliferous minerals. They will be open to location for nonmetalliferous minerals beginning at 10:00 a.m., on August 13, 1962.

5. Inquiries concerning the lands should be addressed to the Manager, Land Office, Bureau of Land Management, Sacramento, California.

JOHN A. CARVER, Jr.,
Assistant Secretary of the Interior.

FEBRUARY 12, 1962.

[F.R. Doc. 62-1634; Filed, Feb. 16, 1962; 8:46 a.m.]

[Public Land Order 2606]

MONTANA

Withdrawing Lands for Reclamation Purposes

By virtue of the authority vested in the Secretary of the Interior by section 3 of the act of June 17, 1902 (32 Stat. 388; 43 U.S.C. 416), it is ordered as follows:

1. Subject to valid existing rights, the following described public lands are hereby withdrawn in the first form from all forms of appropriation under the public land laws, and reserved for use of the Bureau of Reclamation, Department of the Interior, in connection with the Missouri River Basin and Sun River Projects, as indicated:

a. [Montana 037751]

MISSOURI RIVER BASIN

LONESOME LAKE RESERVOIR

Lower Marias Unit—Principal Meridian

T. 29 N., R. 12 E.,
Sec. 29, SW¼NW¼.

b. [Montana 040242]

PISHKUN RESERVOIR

Sun River Project—Principal Meridian

T. 22 N., R. 8 W.,
Sec. 22, SE¼NE¼.

The areas described aggregate 30 acres.

JOHN A. CARVER, Jr.,
Assistant Secretary of the Interior.

FEBRUARY 12, 1962.

[Public Land Order 2607]

[1009651]

ALASKA

Partly Revoking Executive Order No. 9114 of March 28, 1942

By virtue of the authority vested in the President and pursuant to Executive Order No. 10355 of May 26, 1952, it is ordered as follows:

1. Executive Order No. 9114 of March 28, 1942, so far as it reserved by metes and bounds 481.7 acres in the Sitka Area in the vicinity of U.S. Survey No. 1763 described as "Tract 1," and 2,215.7 acres in the same vicinity, described as "Tract 2", for use of the War Department for military purposes, is hereby revoked.

2. The lands in Tract 2 have been heretofore disposed of. Public Land Order No. 871 of November 5, 1952, reserved 140 acres in Tract 1 for townsite purposes.

3. Until 10:00 a.m., on May 14, 1962, the State of Alaska shall have a preferred right to select the public lands released from withdrawal by this order in accordance with the Act of July 28, 1956 (70 Stat. 709; 48 U.S.C. 46–3b), and section 6(g) of the Alaska Statehood Act of July 7, 1958 (72 Stat. 339), and the regulations in 43 CFR Part 76.

Beginning at 10:00 a.m., on May 14, 1962, the lands shall be subject to operation of the public land laws generally, including the mining laws, subject to existing valid rights, to equitable claims, the provision of any existing withdrawals, and the requirements of applicable law, rules and regulations.

Inquiries concerning the lands shall be addressed to the Manager, Land Office, Bureau of Land Management, Anchorage, Alaska.

JOHN A. CARVER, Jr.,
Assistant Secretary of the Interior.

FEBRUARY 12, 1962.

[Public Land Order 2608]

[New Mexico 074638]

NEW MEXICO

Withdrawing Lands for Use of Federal Aviation Agency in Maintenance of Air Navigation Facilities

By virtue of the authority vested in the Secretary of the Interior by section 4 of the Act of May 24, 1928 (45 Stat. 729; 49 U.S.C. 214), it is ordered as follows:

Subject to valid existing rights, the following-described public lands are hereby withdrawn from all forms of appropriation under the public land laws, including the mining laws, and reserved for use of the Federal Aviation Agency in the maintenance of air navigation facilities:

NEW MEXICO PRINCIPAL MERIDIAN

T. 27 S., R. 18 W.,
Sec. 30, S½NW¼SE¼, SW¼NE¼SE¼, and W½SE¼SE¼.

The areas described aggregate approximately 50 acres.

Authority to change the use specified by this order or to grant rights to others to use the lands, including grants of leases, licenses, easements and rights-of-way but excluding permits revocable at will, is reserved to the Secretary of the Interior or his delegate.

JOHN A. CARVER, Jr.
Assistant Secretary of the Interior.

FEBRUARY 12, 1962.

[Public Land Order 2609]

[Arizona 030116]

ARIZONA

Modifying the Executive Order of August 18, 1904 (Whipple Barracks Target Range)

By virtue of the authority vested in the President, and pursuant to Executive Order No. 10355 of May 26, 1952, it is ordered as follows:

The Executive order of August 18, 1904, establishing the Whipple Barracks Target Range, is hereby modified to the extent necessary to permit the grant of a highway right-of-way made by section 2477, United States Revised Statutes (43 U.S.C. 932), to become effective as to those portions of the following described lands delineated on maps in two sheets entitled "Yavapai County Highway Department, Map of Willow Creek Road through Whipple Barracks Rifle Range," filed by the Yavapai County Board of Supervisors with the Bureau of Land Management as part of its application, Arizona 030116:

GILA AND SALT RIVER MERIDIAN

T. 14 N., R. 2 W.,
Sec. 2, SW¼SW¼;
Sec. 10, SW¼NE¼ and E½NE¼;
Sec. 11, NW¼NW¼.

Containing 10.89 acres.

JOHN A. CARVER, Jr.,
Assistant Secretary of the Interior.

FEBRUARY 12, 1962.

[F.R. Doc. 62–1638; Filed, Feb. 16, 1962; 8:46 a.m.]

[Public Land Order 2610]

[Anchorage 045884]

ALASKA

Withdrawing Lands for Use of the Department of Justice, Bureau of Prisons

By virtue of the authority vested in the President, and pursuant to Executive Order No. 10355 of May 26, 1952, it is ordered as follows:

Subject to valid existing rights, the following described public lands in Alaska are hereby withdrawn from all forms of appropriation under the public land laws, including the mining laws, and reserved under the jurisdiction of the Secretary of the Interior for use by the Department of Justice, Bureau of Prisons, as a detention center, under such terms and conditions as may be prescribed by the Secretary of the Interior or his delegate:

PORTAGE AREA

An unsurveyed parcel of land located in the Portage Townsite and situated adjacent to the southwest side of the Airstrip reserved for the (formerly) Territorial Department of Aviation more particularly described as follows:

Beginning at Corner No. 1 which is situated at the intersection of the southwest boundary of the Territorial Department of Aviation Airstrip and the northwest boundary of the gravel pit reserved for the Bureau of Public Roads (Anchorage 020805), thence northwest 660' along airport boundary to Corner No. 2; thence southwest 330' to Corner No. 3; thence southeast 660' to Corner No. 4; thence northeast 330' to point of beginning.

Containing 5 acres.

JOHN A. CARVER, Jr.,
Assistant Secretary of the Interior.

FEBRUARY 12, 1962.

[F.R. Doc. 62–1639; Filed, Feb. 16, 1962; 8:47 a.m.]

[Public Land Order 2611]

[Oregon 09944]

[Oregon 010256]

OREGON

Withdrawing Public Lands for Protection of Forest Service Administrative Site; Revoking Executive Orders No. 4397 of March 17, 1926, and No. 8691 of February 20, 1941

By virtue of the authority vested in the President by section 1 of the act of June 25, 1910 (36 Stat. 847; 43 U.S.C. 141), and otherwise, and pursuant to Executive Order No. 10355 of May 26, 1952, it is ordered as follows:

1. Subject to valid existing rights, the following described public lands are hereby withdrawn from all forms of appropriation under the public land laws, including the mining laws, and reserved under jurisdiction of the Secretary of the Interior for protection of the Dale Ranger Station Administrative Site of the Forest Service:

[Oregon 09944]

WILLAMETTE MERIDIAN

T. 6 S., R. 31 E.,
Sec. 36, S½S½SW¼SW¼.

Containing 10 acres.

2. Executive Order No. 4397 of March 17, 1926, and Executive Order No. 8691 of February 20, 1941, which withdrew the following described lands in connection with the administration of the Mt. Hood and the Siskiyou National Forests, respectively, are hereby revoked:

[Oregon 010256]

WILLAMETTE MERIDIAN

Executive Order No. 4397

T. 4 S., R. 3 E.,
Sec. 9, SW¼NE¼.

Executive Order No. 8961

T. 40 S., R. 8 W.,
Sec. 33, SW¼SW¼.

The areas described aggregate 80 acres, of which 40 acres, comprising the lands described in section 9, are revested Oregon and California Railroad grant lands.

3. The lands in section 9 are situated some eight airline miles southeast of Oregon City, Clackamas County. Those in section 33, are located about three airline miles southeast of O'Brien, in Josephine County.

4. The public lands released from withdrawal by this order are hereby restored to the operation of the public land laws, subject to valid existing rights and equitable claims, the requirements of applicable law, rules and regulations, and the provisions of any existing withdrawals provided, that, until 10:00 a.m. on August 13, 1962, the State of Oregon shall have a preferred right of application to select the lands in accordance with subsection (c) of section 2 of the act of August 27, 1958 (72 Stat. 928; 43 U.S.C. 851, 852).

The lands have been open to applications and offers under the mineral leasing laws, and to location for metalliferous minerals. They will be open to location for nonmetalliferous minerals beginning at 10:00 a.m., on August 13, 1962.

5. At 10:00 a.m., on March 20, 1962, the revested Oregon and California Railroad grant lands described in paragraph 2, hereof, shall become subject to such forms of disposition as may by law be made of such lands.

Inquiries concerning the lands should be addressed to the Manager, Land Office, Bureau of Land Management, Portland, Oregon.

JOHN A. CARVER, Jr.,
Assistant Secretary of the Interior.

FEBRUARY 12, 1962.

Title 46—SHIPPING

Chapter II—Maritime Administration, Department of Commerce

SUBCHAPTER J—MISCELLANEOUS

[General Order 90, Amdt. 1]

PART 365—OFFICIAL SEAL OF THE MARITIME ADMINISTRATION

Miscellaneous Amendments

Part 365 is hereby amended by (a) changing § 365.1 *Purpose* to read as set forth below; (b) deleting the heading and text of § 365.2 *Federal Maritime Board Seal* and substituting therefor the heading and text of § 365.3 *Maritime Administration Seal;* (c) deleting the section designation "365.3"; and (d) amending the part heading to read as set forth above.

§ 365.1 Purpose.

To prescribe and give official notice of the seal of the Maritime Administration.

(Sec. 204, 49 Stat. 1987, as amended; 46 U.S.C. 1114)

Dated: February 14, 1962.

By order of the Maritime Administrator.

JAMES S. DAWSON, Jr.,
Secretary.

[F.R. Doc. 62–1663; Filed, Feb. 16, 1962; 8:50 a.m.]

Title 47—TELECOMMUNICATION

Chapter I—Federal Communications Commission

PART 12—AMATEUR RADIO SERVICE

PART 19—CITIZENS RADIO SERVICE

PART 20—DISASTER COMMUNICATIONS SERVICE

Miscellaneous Amendments

The Commission, having under consideration the amendment of Part 12, 19 and 20 of the rules governing the Amateur, Citizens and Disaster Communications Radio Services, to effect the editorial changes described below; and

It appearing that the Geneva (1959) Radio Regulations, to which the United States is signatory, have been ratified by the Senate of the United States; and

It further appearing that wherever possible, the Commission's rules should conform to the Geneva Radio Regulations; and

It further appearing that the abbreviations kc (for kilocycles) and Mc (for megacycles) have been amended in the Geneva Radio Regulations to read kc/s and Mc/s respectively; and

It further appearing that the amendments herein ordered make no substantive change, and, being editorial in nature, the prior public notice and effective date provisions of the Administrative Procedures Act are not applicable; and

It further appearing that the amendments adopted herein are issued pursuant to the authority contained in sections 4(i) and 303(r) of the Communications Act of 1934, as amended, and section 0.341(a) of the Commission's Statement of Delegations of Authority;

It is ordered, This 8th day of February 1962, that effective February 19, 1962, the terms "kc" and "Mc" are amended to read "kc/s" and "Mc/s" wherever they appear in Parts 12, 19 and 20 of the Commission's rules.

(Sec. 4, 48 Stat. 1066, as amended; 47 U.S.C. 154. Interprets or applies sec. 303, 48 Stat. 1082, as amended; 47 U.S.C. 303)

Released: February 14, 1962.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] BEN F. WAPLE,
Acting Secretary.

[F.R. Doc. 62–1669; Filed, Feb. 16, 1962; 8:51 a.m.]

Proposed Rule Making

FEDERAL AVIATION AGENCY

[14 CFR Part 600]

[Airspace Docket No. 61-LA-69]

FEDERAL AIRWAYS

Proposed Alteration

Pursuant to the authority delegated to me by the Administrator (14 CFR 409.13), notice is hereby given that the Federal Aviation Agency is considering an amendment to § 600.1545 of the regulations of the Administrator, the substance of which is stated below.

Intermediate altitude VOR Federal airway No. 1545 extends in part from the Tucson, Ariz., VOR as a 10-mile wide airway via the intersection of the Tucson VOR 299° and the Casa Grande, Ariz., VOR 158° True radials, the Casa Grande VOR to the Phoenix, Ariz., VOR. The Federal Aviation Agency has under consideration alteration of this segment of Victor 1545 from Tucson to Phoenix by realigning it as a 12-mile wide airway from the Tucson VOR to the intersection of the Tucson VOR 316° and the Phoenix VOR 161° True radials, thence as a 10-mile wide airway to the Phoenix VOR. This would align Victor 1545 to overlie low altitude VOR Federal airway No. 16, and facilitate transitioning between the two route structures in the Tucson and Phoenix terminal areas and provide a shorter route between Tucson and Phoenix. The reduced airway widths would provide lateral separation from the training areas in the vicinity of Williams Air Force Base, Ariz.

Interested persons may submit such written data, views, or arguments as they may desire. Communications should be submitted in triplicate to the Assistant Administrator, Western Region, Attn: Chief, Air Traffic Division, Federal Aviation Agency, 5651 West Manchester Avenue, P.O. Box 90007, Airport Station, Los Angeles 45, Calif. All communications received within forty-five days after publication of this notice in the FEDERAL REGISTER will be considered before action is taken on the proposed amendment. No public hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Agency officials may be made by contacting the Regional Air Traffic Division Chief, or the Chief, Airspace Utilization Division, Federal Aviation Agency, Washington 25, D.C. Any data, views or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

The official Docket will be available for examination by interested persons at the Docket Section, Federal Aviation Agency, Room C-226, 1711 New York Avenue NW., Washington 25, D.C. An informal Docket will also be available for examination at the office of the Regional Air Traffic Division Chief.

This amendment is proposed under section 307(a) of the Federal Aviation Act of 1958 (72 Stat. 749; 49 U.S.C. 1348).

Issued in Washington, D.C., on February 13, 1962.

CLIFFORD P. BURTON,
Acting Chief,
Airspace Utilization Division.

[F.R. Doc. 62-1627; Filed, Feb. 16, 1962; 8:45 a.m.]

[14 CFR Parts 600, 601]

[Airspace Docket No. 61-LA-40]

FEDERAL AIRWAYS AND ASSOCIATED CONTROL AREAS

Proposed Alteration

Pursuant to the authority delegated to me by the Administrator (14 CFR 409.13), notice is hereby given that the Federal Aviation Agency is considering amendments to §§ 600.6002, 600.6025, and 601.6025 of the regulations of the Administrator, the substance of which is stated below:

The Federal Aviation Agency has under consideration the following actions:

1. Low altitude VOR Federal airway No. 2 extends in part from Seattle, Wash., to Ephrata, Wash., via Ellensburg, Wash., including a N alternate from Seattle direct to Ephrata. It is proposed to redesignate the N alternate from Seattle to Ephrata via the Wenatchee, Wash., VOR.

2. Low altitude VOR Federal airway No. 25 extends in part from Yakima, Wash., to Ellensburg. It is proposed to extend Victor 25 and its associated control areas northward from Ellensburg to the Wenatchee VOR.

The designation of Victor 2 north alternate via the Wenatchee VOR would not change the alignment of this airway segment. However, it would permit better navigational guidance along this airway and permit the establishment of lower minimum en route altitudes in the vicinity of Wenatchee. The extension of Victor 25, as proposed, would provide a designated route for VOR equipped aircraft operating between Ellensburg and Wenatchee.

The control areas associated with this segment of Victor 2 north alternate are so designated that they would automatically conform to the altered airway. Accordingly, no action relating to control areas associated with this airway would be necessary. The vertical extent of the control areas associated with these airway segments would extend from 700 feet above the surface to the base of the continental control area. Separate actions will be initiated to implement on an area basis Amendment 60-21 to Part 60 of the Civil Air Regulations.

Interested persons may submit such written data, views or arguments as they may desire. Communications should be submitted in triplicate to the Assistant Administrator, Western Region, Attn: Chief, Air Traffic Division, Federal Aviation Agency, 5651 West Manchester Avenue, P.O. Box 90007, Airport Station, Los Angeles 45, Calif. All communications received within forty-five days after publication of this notice in the FEDERAL REGISTER will be considered before action is taken on the proposed amendment. No public hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Agency officials may be made by contacting the Regional Air Traffic Division Chief, or the Chief, Airspace Utilization Division, Federal Aviation Agency, Washington 25, D.C. Any data, views or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

The official Docket will be available for examination by interested persons at the Docket Section, Federal Aviation Agency, Room C-226, 1711 New York Avenue NW., Washington 25, D.C. An informal Docket will also be available for examination at the office of the Regional Air Traffic Division Chief.

This amendment is proposed under section 307(a) of the Federal Aviation Act of 1958 (72 Stat. 749; 49 U.S.C. 1348).

Issued in Washington, D.C., on February 12, 1962.

CLIFFORD P. BURTON,
Acting Chief,
Airspace Utilization Division.

[F.R. Doc. 62-1628; Filed, Feb. 16, 1962; 8:45 a.m.]

[14 CFR Parts 600, 601]

[Airspace Docket No. 61-NY-70]

FEDERAL AIRWAY AND ASSOCIATED CONTROL AREAS

Proposed Designation and Alteration

Pursuant to the authority delegated to me by the Administrator (14 CFR 409.13), notice is hereby given that the Federal Aviation Agency (FAA) is considering amendments to Parts 600 and 601 and § 600.6249 of the regulations of the Administrator, the substance of which is stated below.

Low altitude VOR Federal airway No. 249 is designated in part from DeLancy, N.Y., via Rockdale, N.Y., to Utica, N.Y. The Federal Aviation Agency has under consideration the alteration of this segment of Victor 249 by redesignating it from DeLancy direct to Utica. It is also proposed to designate low altitude VOR Federal airway No. 449 and its associated control areas from the DeLancy VOR via the Rockdale VOR to the intersection of the Rockdale VOR 348° and the Utica VOR 280° True radials.

The proposed realignment of Victor 249 together with the designation of Victor 449 would provide parallel arrival and departure routes to serve the Griffiss Air Force Base, N.Y./Utica terminal areas and would reduce the traffic delays now occurring at Griffiss AFB and Oneida County Airport. The control areas associated with this segment of Victor 249 would remain as designated pending review of the adjacent airspace. The control areas associated with Victor 449 would extend from 700 feet above the surface to the base of the continental control area. Separate actions would be initiated to implement on an area basis Amendment 60-21 to Part 60 of the Civil Air Regulations.

Interested persons may submit such written data, views or arguments as they may desire. Communications should be submitted in triplicate to the Assistant Administrator, Eastern Region, Attn: Chief, Air Traffic Division, Federal Aviation Agency, Federal Building, New York International Airport, Jamaica 30, N.Y. All communications received within forty-five days after publication of this notice in the FEDERAL REGISTER will be considered before action is taken on the proposed amendment. No public hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Agency officials may be made by contacting the Regional Air Traffic Division Chief, or the Chief, Airspace Utilization Division, Federal Aviation Agency, Washington 25, D.C. Any data, views, or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

The official Docket will be available for examination by interested persons at the Docket Section, Federal Aviation Agency, Room C-226, 1711 New York Avenue NW., Washington 25, D.C. An informal Docket will also be available for examination at the office of the Regional Air Traffic Division Chief.

This amendment is proposed under section 307(a) of the Federal Aviation Act of 1958 (72 Stat. 749; 49 U.S.C. 1348).

Issued in Washington, D.C., on February 13, 1962.

CLIFFORD P. BURTON,
Acting Chief,
Airspace Utilization Division.

[F.R. Doc. 62-1629; Filed, Feb. 16, 1962; 8:46 a.m.]

[14 CFR Parts 600, 601]

[Airspace Docket No. 61-NY-106]

FEDERAL AIRWAY AND ASSOCIATED CONTROL AREAS

Proposed Alteration

Pursuant to the authority delegated to me by the Administrator (14 CFR 409.13), notice is hereby given that the Federal Aviation Agency is considering amendments to §§ 600.6246 and 601.6246 of the regulations of the Administrator, the substance of which is stated below.

Low altitude VOR Federal airway No. 246 extends from Rosewood, Ohio, to Mansfield, Ohio. The Federal Aviation Agency has under consideration the extension of Victor 246 and its associated control areas from the Mansfield, Ohio, VORTAC, via the Mansfield VORTAC 066° True radial to the intersection of the Cleveland, Ohio, VORTAC 138° and the Tiverton, Ohio, VOR 017° True radials. This intersection would be utilized as a holding fix for the Cleveland terminal area. The proposed extension of Victor 246 would establish a segment of designated Federal airway to the holding fix for traffic approaching the Cleveland terminal area from the south and southwest.

The control areas associated with this proposed airway segment would extend upward from 700 feet above the surface to the base of the continental control area. Separate actions will be initiated to implement on an area basis Amendment 60-21 to Part 60 of the Civil Air Regulations.

Interested persons may submit such written data, views or arguments as they may desire. Communications should be submitted in triplicate to the Assistant Administrator, Eastern Region, Attn: Chief, Air Traffic Division, Federal Aviation Agency, Federal Building, New York International Airport, Jamaica 30, N.Y. All communications received within forty-five days after publication of this notice in the FEDERAL REGISTER will be considered before action is taken on the proposed amendment. No public hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Agency officials may be made by contacting the Regional Air Traffic Division Chief, or the Chief, Airspace Utilization Division, Federal Aviation Agency, Washington 25, D.C. Any data, views or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

The official Docket will be available for examination by interested persons at the Docket Section, Federal Aviation Agency, Room C-226, 1711 New York Avenue NW., Washington 25, D.C. An informal Docket will also be available for examination at the office of the Regional Air Traffic Division Chief.

This amendment is proposed under section 307(a) of the Federal Aviation Act of 1958 (72 Stat. 749; 49 U.S.C. 1348).

Issued in Washington, D.C., on February 12, 1962.

CLIFFORD P. BURTON,
Acting Chief,
Airspace Utilization Division.

[F.R. Doc. 62-1630; Filed, Feb. 16, 1962; 8:46 a.m.]

FEDERAL COMMUNICATIONS COMMISSION

[47 CFR Parts 2, 10, 11, 16, 19]

[Docket No. 14503 (RM-201, RM-306); FCC 62-129]

ALLOCATION OF ASSIGNABLE FREQUENCIES BAND

Notice of Proposed Rule Making

1. Notice is hereby given of proposed rule making in the above-entitled matter.

2. Previous Commission action in Dockets 11253 and 12169 determined, inter alia, that the creation of channels having a frequency separation of 20 kc/s rather than 40 kc/s was technically feasible. As a result, the appropriate rules of the above-mentioned parts have been amended to require all equipments used after October 31, 1963, to be of a type capable of permitting operation on channels separated by 20 kc/s.

3. In light of this "channel splitting," it is proposed herein to allocate the frequencies in the 25-42 Mc/s band among the various services referred-to-above, each frequency to have a channel separation of 20 kc/s. This proceeding is substantially responsive to petitions filed by Electronics Industries Association (EIA) and by Special Industrial Radio Service Association, Inc. (SIRSA), RM-201 and RM-306, respectively.

4. The Appendices to this notice set forth the proposed disposition of the frequencies in this band to the aforementioned Safety and Special Radio Services. The following table summarizes the proposed availability of the primary and split channels to the various services; it does not purport to represent changes in the amount of frequency space allocated to the respective services:

Service	Present total channels allocated	Proposed total channels allocated
Business	25	60
Citizens	28	30
Fire	15	15
Forestry Conservation	20	23
Forest Products	2	9
Highway Maintenance	6	10
Industrial Developmental	0	12
Land Transportation Developmental	0	2
Local Government	0	31
Motor Carrier (Urban Passenger)	12	0
Petroleum	19	27
Police	36	36
Power	11	21
Public Safety Developmental	0	12
Relay Press	0	2
Special Emergency	6	10
Special Industrial	14	45
Telephone Maintenance	1	1

5. The proposed allocation is predicated on the evidence now available to the Commission concerning the needs of a particular service for additional frequencies as well as a tentative judgment concerning the priority of need among these services. Within this framework, the proposal generally makes split channels available to the service now occupying that particular part of the band. In some cases, however, in order to avoid

interspersion, it was necessary to move portions of one or more services to adjacent frequencies. In the long run it appears more advantageous to create "block allocations" even though some existing systems will be required to change frequencies rather than to intersperse services in order to honor existing allocations.

6. As previously stated, existing licensees in these services (pre-August 1, 1958) operating in the 25–42 Mc/s band utilizing 40F3 equipment are required under present rules to comply with all narrow-band technical standards set forth in the various service rules no later than October 31, 1963. Also, present rules require that new licensees (post-August 1, 1958) must use equipment capable of meeting all these narrow-band technical standards. Thus, in order to facilitate immediate usage of these new "split channels" the Commission is proposing the following:

(a) After the effective date of the final rules in this Docket, no new systems will be authorized unless the frequency requested is in accord with the revised frequency allocation tables.

(b) Licensees authorized prior to the aforementioned effective date will be required to reduce the frequency deviation of all transmitters authorized to operate in this band to plus or minus 5 kc/s within six months thereafter.

7. It should be noted that persons authorized pursuant to Parts 10, 11, and 16 to operate radio stations on frequencies in the band 25–50 Mc/s must recognize that the band is shared with various services in other countries; that harmful interference may be caused by tropospheric and ionospheric propagation of signals from distant stations of all services of the United States and other countries operating on frequencies in this band; and that no protection from such harmful interference generally can be expected. Persons desiring to avoid such harmful interference should consider operation on available frequencies higher in the radio spectrum not generally subject to this type of difficulty. Ref. §§ 10.101(g), 11.8(h), and 16.8(e) respectively.

8. It should be noted that the few instances in which it was deemed necessary to move a portion of a service to an adjacent frequency to avoid interspersion present a special problem. It is reasonable to allow existing users on these affected frequencies to continue to operate for some period of time. To impose an imminent date for these licensees to change frequencies because of this proposed reallocation appears to be unduly onerous. On the other hand, to permit such operation indefinitely would preclude potential new users from establishing systems on frequencies made available to them under this proposed reallocation. The Commission specifically invites comments on this problem as an aid in determining an optimum cutoff date.

9. Attention is directed to the proposal to allocate 10 kc/s segments contiguous to the Government band in the form of two 5 kc/s segments to the service adjacent to this band. Similar segments have been created contiguous to one frequency band now available to the Domestic Public Radio Service, and it has been proposed to allocate these to the adjacent Industrial Radio Service. It should be noted that segments of like size could be created contiguous to Government bands in the 42–50 Mc/s band. While this notice contains no specific proposal with reference thereto, comments are invited as to the desirability of establishing such segments.

10. Authority for the proposed amendments is contained in sections 4(i) and 303 of the Communications Act of 1934, as amended.

11. Pursuant to applicable procedures set forth in § 1.213 of the Commission's rules, interested persons may file comments on or before May 1, 1962, and reply comments on or before May 11, 1962. All relevant and timely comments and reply comments will be considered by the Commission before final action is taken in this proceeding. In reaching its decision in this proceeding, the Commission may also take into account other relevant information before it, in addition to the specific comments invited by this notice.

12. In accordance with the provisions of § 1.54 of the Commission's rules and regulations, an original and fourteen copies of all statements, briefs, and comments filed should be furnished the Commission.

Adopted: February 6, 1962.

Released: February 14, 1962.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] BEN F. WAPLE,
Acting Secretary.

1. Section 2.106 of the Commission's rules and regulations is amended to read, in part, as follows:

(a) *Table of frequency allocations.*

Federal Communications Commission

Band (Mc/s)	Service	Class of station	Frequency (Mc/s)	Nature of services
7	8	9	10	11

[F.R. Doc. 62-1582; Filed, Feb. 16, 1962; 8:45 a.m.]

DEPARTMENT OF AGRICULTURE

Agricultural Stabilization and Conservation Service

[7 CFR Part 730]

RICE

Notice of Proposed Amendments to Regulations for Determination of Acreage Allotments for 1959 and Subsequent Crops

Notice is hereby given that the action proposed and published (26 F.R. 8962), with respect to changes in the regulations for the determination of rice acreage allotments for 1959 and subsequent crops of rice relating to reissuance of the regulations and to determination of allotments in the entire State of Louisiana on a "producer" basis will not be taken. Instead, notice is hereby given that pursuant to the authority contained in the applicable provisions of the Agricultural Adjustment Act of 1938, as amended (7 U.S.C. 1301, 1352, 1353, 1354, 1377), the Department proposes to amend §§ 730.1021, 730.1024 and 730.1033 of the regulations (23 F.R. 8528), as amended. The changes as proposed would be effective for the 1962 and subsequent crops of rice and would provide (1) that if either the county or State commitee has reason to believe a producer is not or was not in fact actively participating in the production of rice, a hearing may be scheduled for the purpose of obtaining facts before reaching a decision as to whether or not the farm rice acreage allotment should be reduced, and (2) uniformity in the current regulations with respect to the release and reapportionment of rice acreage allotments and similar regulations for other commodities.

The proposed changes follow:

1. Section 730.1021(e) is to be amended to read as follows:

(e) If the county or State committee has reason to believe, after the establishment of any farm acreage allotment in accordance with this section, that a tenant whose allotment acreage was allocated to such farm is not, or was not, in fact actively participating in the production of the rice crop produced on the farm in such year, a hearing shall be scheduled by the county committee and the tenant shall be invited to be present, or to be represented, at which time he shall be given an opportunity to substantiate his claim that he is, or was, actively engaged in the production of rice on the farm as indicated at the time of filing his request for the allocation of his producer allotment to the farm. If the county committee, with State committee approval, or the State committee finds that such tenant is not, or was not, actively participating in the production of the rice crop on the farm, except where allocation was made for the purpose of participating in the conservation reserve program or for the preservation of acreage, and therefore did not actively engage in the production of rice on such farm during the year in question, the county committee shall, with the approval of the State committee, recall such producer's allotment acreage previously allocated to the farm and adjust the farm rice acreage allotment accordingly. The county committee shall notify the farm operator of the revised farm acreage allotment. Such notice shall be on an official Form MQ-24 and will be accompanied by a letter of explanation as to the reason such action was taken to reduce the farm acreage allotment. A copy of the notice and letter shall be forwarded to all persons engaged in the production of rice on the farm. Any allotment acreage recalled by the county committee under this section shall not be available for apportionment or reallocation to any other farm.

2. Paragraphs (a) and (b) of § 730.1024 are to be amended to read as follows:

(a) In a producer State or area; a producer may, not later than the applicable closing date prescribed in this section voluntarily release to the county committee all or any part of his producer rice acreage allotment that will not be allocated to a farm in the current year. Such released acreage shall be deducted from the allotment established for such producer and may, except as provided in paragraph (e) of this section, be reapportioned by the county committee to other producers (old or new) by whom a request for increase in acreage allotment has been timely filed in the same county in amounts determined to be fair and reasonable on the basis of the production of rice by the producer during the five years immediately preceding the current year; previous rice acreage allotments established for the producer; abnormal conditions affecting acreage; land, labor, water and equipment available for the production of rice; crop-rotation practices; and the soil and other physical factors affecting the production of rice. The closing date in each producer State or area for the release of rice acreage allotments shall be as follows:

California	Apr. 1
Florida	Mar. 15
Louisiana [1]	Apr. 24
North Carolina	Mar. 1
Tennessee	Apr. 1
Texas	Apr. 20

[1] Producer administrative area.

The closing date in each producer State or area for reapportionment of rice acreage allotment shall be a date not later than 15 days after the applicable release date indicated herein.

(b) To be eligible for an increase in a farm acreage allotment from released acreage, a request for such increase must be filed in the county office by the applicant on or before the applicable release date indicated herein. The State committee shall have the option of considering a verbal request acceptable, or requiring a written request before the county committee may consider reapportioning released acreage to a farm. In either event, only those farms for which a request is timely filed shall be given consideration when reapportioning released acreage in the State.

3. Paragraphs (a) and (b) of § 730.1033 are to be amended to read as follows:

(a) In a farm State, any part of the rice acreage allotment determined for a farm that will not be planted in the current year, including pooled rice acreage allotment for a farm acquired under right of eminent domain, and which is voluntarily released by the owner or operator of the farm to the county committee not later than the applicable closing date prescribed in this section shall be deducted from the rice acreage allotment determined for such farm, and may, except as provided under paragraph (e) of this section, be reapportioned by the county committee to other farms (old or new) for which a request for increase in acreage allotment has been timely filed, in the same county receiving allotments in amounts determined by the county committee to be fair and reasonable on the basis of the production of rice on the farm during the five years immediately preceding the current year; farm acreage allotments previously established for the farm; abnormal conditions affecting acreage; land, labor, water and equipment available for the production of rice; crop-rotation practices; and the soil and other physical factors affecting the production of rice. The closing date, in each farm State, or area, for the release of farm rice acreage allotments shall be as follows:

Arkansas	May 1
Illinois	May 1
Louisiana [1]	Apr. 24
Mississippi	May 1
Missouri	May 1
Oklahoma	May 1
South Carolina	Apr. 1

[1] Farm administrative area.

The closing date in each farm State or area for reapportionment of farm rice acreage allotment shall be a date not later than 15 days after the applicable release date indicated herein.

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Food and Drug Administration

[21 CFR Part 3]

PREPARATIONS FOR TREATMENT OF PERNICIOUS ANEMIA

Proposed Statement of General Policy and Interpretation

Notice is given that the Commissioner of Food and Drugs, on his own initiative and pursuant to the provisions of the Federal Food, Drug, and Cosmetic Act (secs. 502(f), 503(b), 701(a), 52 Stat. 1051, 1052 as amended 65 Stat. 648, 52 Stat. 1055; 21 U.S.C. 352(f), 353(b), 371(a)), and under the authority delegated to him by the Secretary of Health, Education, and Welfare (25 F.R. 8625), proposes to issue a statement of general policy and interpretation on preparations for the treatment of pernicious anemia, as follows:

§ 3.40 Preparations for the treatment of pernicious anemia.

(a) The ninth announcement of the Anti-anemia Preparations Advisory Board of the U.S.P. is concerned with the status of the treatment of pernicious anemia. It clearly explains the basis for the following facts:

(1) The Sixteenth Revision of the Pharmacopeia of the United States, which became official on October 1, 1960, does not include preparations intended for the treatment of pernicious anemia by oral administration.

(2) The U.S.P. Unit for anti-anemia preparations no longer has any significance.

(3) The U.S.P. Anti-anemia Preparations Advisory Board was disbanded.

(b) On the basis of the scientific evidence and conclusions summarized in the statement of the U.S.P. Anti-anemia Preparations Advisory Board as well as pertinent information from other sources, the Commissioner of Food and Drugs finds it is the consensus of well-informed medical opinion that:

(1) The parenteral administration of cyanocobalamin or vitamin B_{12} is the generally recognized, wholly reliable treatment of pernicious anemia.

(2) At the present time there can be no assurance that any orally ingested preparation is a wholly reliable treatment of pernicious anemia.

(3) The substitution of any unreliable treatment such as the ingestion of oral preparations of vitamin B_{12} with intrinsic factor concentrate in place of a completely adequate and wholly reliable treatment for a disease condition as serious as pernicious anemia cannot be regarded as safe.

(4) The oral ingestion of intrinsic factor may in some cases delay the development of the classical symptoms of pernicious anemia that would cause a person to seek medical attention. Pernicious anemia is a disease which is associated, among other things, with a higher than normal incidence of cancer of the stomach and which, for the safety of the patient, requires continuous expert medical supervision.

(5) There is the risk that the oral ingestion of products containing vitamin B_{12} with intrinsic factor concentrate or liver extract, by masking the anemia symptoms of the disease state, would permit the development or progression of the nervous system involvement in a patient under this form of treatment. It is well established that whereas the anemia involvement is completely reversible after adequate treatment, the nervous system involvement may not be completely reversible and thus may result in permanent nervous system damage.

(6) Some hematologists prescribe oral preparations of vitamin B_{12} with intrinsic factor concentrate to supplement parenteral administration of cyanocobalamin or vitamin B_{12} in the treatment of pernicious anemia patients.

(7) Intrinsic factor and intrinsic factor concentrate serve no known useful clinical or nutritional purpose except to the extent that they do increase the gastrointestinal absorption of vitamin B_{12} in patients suffering from pernicious anemia.

(8) Medical expertise is required for the diagnosis as well as the management of pernicious anemia.

(c) The Eleventh Edition of The National Formulary and its first interim revision include monographs for oral preparations of vitamin B_{12} with intrinsic factor concentrate; establish a unit of vitamin B_{12} with intrinsic factor concentrate; and provide for a National Formulary Anti-Anemia Preparations Advisory Board to assign the potency of such preparations. This provides for the availability of such oral preparations standardized within the meaning of the broad limits characteristic of the evaluation of such preparations.

(d) In view of the foregoing, the Commissioner of Food and Drugs announces the following Food and Drug Administration policy:

(1) Any drug that contains or purports to contain intrinsic factor or intrinsic factor concentrate will be regarded as misbranded within the meaning of section 503(b) of the Federal Food, Drug, and Cosmetic Act unless it is labeled with the legend "Caution—Federal law prohibits dispensing without prescription."

(2) Any drug intended, represented, or advertised for oral ingestion in the prevention or treatment of pernicious anemia or which contains or purports to contain any substance or mixture of substances described in subparagraph (1) of this paragraph will be regarded as misbranded under sections 502 (f) (2) and (j) of the act unless its label and labeling bear a warning statement to the effect: "Caution—This preparation is not a reliable substitute for parenterally administered cyanocobalamin (vitamin B_{12}) in the management of pernicious anemia. Periodic examinations and laboratory studies of pernicious anemia patients are essential."

(3) Under the food additives amendment to the Federal Food, Drug, and Cosmetic Act, intrinsic factor and intrinsic factor concentrate are regarded as food additives. No food additive regulation nor existing extension of the effective date of the food additives amendment to the act authorizes these additives in foods, including foods for special dietary uses. Any food containing added intrinsic factor or intrinsic factor concentrate will be regarded as adulterated within the meaning of section 402 (a) (2) (C) of the act.

(e) Regulatory action may be initiated with respect to any article shipped within the jurisdiction of the act contrary to the provisions of this policy statement after the sixtieth day following publication of this statement in the FEDERAL REGISTER.

All interested persons are invited to submit their views in writing regarding the proposal published herein. Such views and comments should be submitted in quintuplicate, addressed to the Hearing Clerk, Department of Health, Education, and Welfare, Room 5440, 330 Independence Avenue SW., Washington 25, D.C., prior to the thirtieth day following the date of publication of this notice in the FEDERAL REGISTER.

Dated: February 13, 1962.

GEO. P. LARRICK,
Commissioner of Food and Drugs.

[F.R. Doc. 62-1650; Filed, Feb. 16, 1962; 8:47 a.m.]

[21 CFR Part 120]

TOLERANCES AND EXEMPTIONS FROM TOLERANCES FOR PESTICIDE CHEMICALS IN OR ON RAW AGRICULTURAL COMMODITIES

6,7,8,9,10,10-Hexachloro-1,5,5a,6,9,9a-Hexahydro-6,9-Methano-2,4,3-Benzodioxathiepin-3-Oxide, Notice of Filing of Petition

Pursuant to the provisions of the Federal Food, Drug, and Cosmetic Act (sec. 408(d)(1), 68 Stat. 512; 21 U.S.C. 346a (d)(1)), notice is given that a petition has been filed by Niagara Chemical Division, FMC Corporation, Middleport, New York, proposing the establishment of a tolerance of 2 parts per million for residues of 6,7,8,9,10,10-Hexachloro-1,5,5a,6,9,9a-hexahydro-6,9-methano-2,4,3,-benzodioxathiepin-3-oxide in or on cherries, cucumbers, head lettuce, melons, plums, prunes, pumpkins, summer squash, watercress, and winter squash.

The analytical methods proposed in the petition for determining residues of 6,7,8,9,10,10-hexachloro-1,5,5a,6,9,9a-hexahydro-6,9-methano-2,4,3-benzodioxathiepin-3-oxide are the methods published in the FEDERAL REGISTER of March 18, 1960 (25 F.R. 2269), and a modification of the gas chromatographic microcoulometric procedure of Coulson et al, published in the Journal of Agricultural and Food Chemistry, Volume 8, page 399 (1960). A direct combustion total chloride procedure with potentiometric measurement is also used.

Dated: February 13, 1962.

ROBERT S. ROE,
Director, Bureau of Biological and Physical Sciences.

[21 CFR Parts 141b, 146b]

STREPTOMYCYLIDENE ISONICOTINYL HYDRAZINE SULFATE

Notice of Proposal To Change Name to Streptonicozid Sulfate

The regulations for tests and methods of assay and certification of streptomycin and streptomycin-containing drugs use the name "streptomyclidene isonicotinyl hydrazine sulfate" as the name for the crystalline sulfate compound of streptomycin and isonicotinic acid hydrazide. It has come to the attention of the Commissioner of Food and Drugs that the name "streptonicozid sulfate" has been generally adopted for this antibiotic drug. The Commissioner of Food and Drugs has concluded that in order to prevent confusion in the medical literature and avoid having the same drug sold under different names, appropriate changes should be made in the regulations promulgated under section 507 of the Federal Food, Drug, and Cosmetic Act to recognize "streptonicozid sulfate" as the common or usual name for the subject drug.

Therefore, the Commissioner of Food and Drugs, under the authority of the Federal Food, Drug, and Cosmetic Act (sec. 507(b), 59 Stat. 463; 21 U.S.C. 357(b)), delegated to him by the Secretary of Health, Education, and Welfare (25 F.R. 8625), proposes to amend the applicable sections of Parts 141b and 146b to require that "streptonicozid sulfate" be used as the name for this drug.

All interested persons are invited to present their views in writing regarding this proposal to the Hearing Clerk, Department of Health, Education, and Welfare, Washington 25, D.C., within 30 days from the date of publication of this notice in the FEDERAL REGISTER. Such views and comments should be filed in quintuplicate.

Dated: February 13, 1962.

GEO. P. LARRICK,
Commissioner of Food and Drugs.

Notices

DEPARTMENT OF THE TREASURY

Coast Guard

[CGFR 62–1]

EQUIPMENT, INSTALLATIONS, OR MATERIALS

Approval and Termination of Approval Notice

1. Various items of lifesaving, firefighting, and miscellaneous equipment, installations, and materials used on merchant vessels subject to Coast Guard inspection or on certain motorboats and other pleasure craft are required by law and various regulations in 46 CFR Chapter I to be of types approved by the Commandant, United States Coast Guard. The procedures governing the granting of approvals, and the cancellation, termination or withdrawal of approvals are set forth in 46 CFR 2.75–1 to 2.75–50, inclusive. For certain types of equipment, installations, and materials, specific specifications have been prescribed by the Commandant and are published in 46 CFR Parts 160 to 164, inclusive (Subchapter Q—Specifications), and detailed procedures for obtaining approvals are also described therein.

2. The Commandant's approval of a specific item is intended to provide a control over its quality. Therefore, such approval applies only to the item constructed or installed in accordance with the applicable requirements and the details described in the specific approval. If a specific item when manufactured does not comply with the details in the approval, then such item is not considered to have the Commandant's approval, and the certificate of approval issued to the manufacturer does not apply to such modified item. For example, if an item is manufactured with changes in design or material not previously approved, the approval does not apply to such modified item.

3. After a manufacturer has submitted satisfactory evidence that a particular item complies with the applicable laws and regulations, a Certificate of Approval (Form CGHQ–10030) will be issued to the manufacturer certifying that the item specified complies with the applicable laws and regulations and approval is given, which will be in effect for a period of 5 years from the date given unless sooner canceled or suspended by proper authority.

4. The purpose of this document is to notify all concerned that certain approvals were granted and terminations of approvals were made, as described in this document, during the period from December 1, 1961, to December 22, 1961. These actions were taken in accordance with procedures set forth in 46 CFR 2.75–1 to 2.75–50, inclusive.

5. The delegations of authority for the Coast Guard's actions with respect to approvals may be found in Treasury Department Orders 120, dated July 31, 1950 (15 F.R. 6521), 167–14, dated November 26, 1954 (19 F.R. 8026), 167–15, dated January 3, 1955 (20 F.R. 840), 167–20, dated June 18, 1956 (21 F.R. 4894), CGFR 56–28, dated July 24, 1956 (21 F.R. 5659), or 167–38, dated October 26, 1959 (24 F.R. 8857), and the statutory authority may be found in R.S. 4405, as amended 4462, as amended, 4488, as amended, 4491, as amended, secs. 1, 2, 49 Stat. 1544, as amended, sec. 17, 54 Stat. 166, as amended, sec. 3, 54 Stat. 346, as amended, sec. 3, 70 Stat. 152 (46 U.S.C. 375, 416, 481, 489, 367, 526p, 1333, 390b), sec. 4(e), 67 Stat. 462 (43 U.S.C. 1333 (e)), or sec. 3(c), 68 Stat. 675 (50 U.S.C. 198), and implementing regulations in 46 CFR Chapter I or 33 CFR Chapter I.

6. In Part I of this document are listed the approvals granted which shall be in effect for a period of 5 years from the dates granted, unless sooner canceled or suspended by proper authority.

7. In Part II of this document are listed the approvals which have been terminated. Notwithstanding this termination of approvals of the items of equipment as listed in Part II such equipment may be used so long as such equipment is in good and serviceable condition.

PART I—APPROVALS OF EQUIPMENT, INSTALLATIONS, OR MATERIALS

LIFEBOATS

Approval No. 160.035/397/1, 24.0′ x 8.0′ x 3.5′ fibrous glass reinforced plastic, motor-propelled lifeboat without radio cabin (Class B), 37-person capacity, identified by general arrangement Dwg. No. P–24–1B, Alt. C, dated August 12, 1959 (gasoline engine), or general arrangement Dwg. No. P–24–1D, Alt. C, dated December 7, 1961 (diesel engine), manufactured by Marine Safety Equipment Corp., Point Pleasant Beach, New Jersey, effective December 20, 1961. (It supersedes Appr. No. 160.035/397/0 dated December 17, 1959.)

Approval No. 160.035/421/0, 30.0′ x 10.0′ x 4.33′ aluminum, hand-propelled lifeboat, 78-person capacity, identified by general arrangement Dwg. No. 30–4, rev. B, dated August 9, 1961, manufactured by Marine Safety Equipment Corp., Point Pleasant Beach, New Jersey, effective December 1, 1961.

BUOYANT VESTS, KAPOK OR FIBROUS GLASS, ADULT AND CHILD

NOTE: Approved for use on motorboats of Classes A, 1, or 2 not carrying passengers for hire.

Approval No. 160.047/523/0, Type I, Model AK–1, adult kapok buoyant vest, U.S.C.G. Specification Subpart 160.047, manufactured by Ero Manufacturing Co., McKinney, Texas; Crystal Lake, Illinois; and Hazelhurst, Georgia; for S. H. Barton and Co., 4910 South Vermont Avenue, Los Angeles 37, Calif., effective December 12, 1961.

Approval No. 160.047/524/0, Type I, Model CKM–1, child kapok buoyant vest, U.S.C.G. Specification Subpart 160.047, manufactured by Ero Manufacturing Co., McKinney, Texas; Crystal Lake, Illinois; and Hazelhurst, Georgia; for S. H. Barton and Co., 4910 South Vermont Avenue, Los Angeles 37, Calif., effective December 12, 1961.

Approval No. 160.047/527/0, Type I, Model CKM–1, child kapok buoyant vest, U.S.C.G. Specification Subpart 160.047, manufactured by Hawthorn Finishing Co., New Haven, Missouri, for H. Wenzel Tent and Duck Co., 2200 South Hanley Road, St. Louis 17, Missouri, effective December 15, 1961.

Approval No. 160.047/528/0, Type I, Model CKS–1 child kapok buoyant vest, U.S.C.G. Specification Subpart 160.047, manufactured by Hawthorn Finishing Co., New Haven, Missouri, for H. Wenzel Tent and Duck Co., 2200 South Hanley Road, St. Louis 17, Missouri, effective December 15, 1961.

Approval No. 160.047/529/0, Type I, Model AK–1, adult kapok buoyant vest, U.S.C.G. Specification Subpart 160.047, manufactured by Hawthorn Finishing Co., New Haven, Missouri, for Sears, Roebuck and Co., 925 South Homan Avenue, Chicago 7, Illinois, effective December 12, 1961.

Approval No. 160.047/530/0, Type I, Model CKM–1, child kapok buoyant vest, U.S.C.G. Specification Subpart 160.047, manufactured by Hawthorn Finishing Co., New Haven, Missouri, for Sears, Roebuck and Co., 925 South Homan Avenue, Chicago 7, Illinois, effective December 15, 1961.

Approval No. 160.047/531/0, Type I, Model CKS–1, child kapok buoyant vest, U.S.C.G. Specification Subpart 160.047, manufactured by Hawthorn Finishing Co., New Haven, Missouri, for Sears, Roebuck and Co., 925 South Homan Avenue, Chicago 7, Ill., effective December 15, 1961.

BUOYANT CUSHIONS, KAPOK OR FIBROUS GLASS

NOTE: Approved for use on motorboats of Classes A, 1, or 2 not carrying passengers for hire.

Approval No. 160.048/212/0, Group approval for rectangular and trapezoidal kapok buoyant cushions, U.S.C.G. Specification Subpart 160.048, sizes and weights of kapok filling to be as per Table 160.048–4(c)(1)(i), manufactured by Ero Manufacturing Co., McKinney, Texas; Crystal Lake, Illinois; and Hazelhurst, Georgia, for S. H. Barton and Co., 4910 South Vermont Avenue, Los Angeles 37, Calif., effective December 12, 1961.

Approval No. 160.048/213/0, Special approval for 15″ x 15″ x 2″ rectangular kapok buoyant cushions, 20-oz. kapok, U.S.C.G. Specification Subpart 160.048, manufactured by Hawthorn Finishing Co., New Haven, Missouri, for H. Wenzel Tent and Duck Co., 2200 South Hanley Road, St. Louis 17, Missouri, effective December 15, 1961.

Approval No. 160.048/214/0, Special approval for 14″ x 17″ x 2″ rectangular, ribbed-type kapok buoyant cushion, 21-oz. kapok, Dwg. HFC–BC–1, dated November 27, 1961, manufactured by Hawthorn Finishing Co., New Haven, Missouri, for H. Wenzel Tent and Duck Co., 2200 South Hanley Road, St. Louis 17, Missouri, effective December 15, 1961.

Approval No. 160.048/215/0, Special approval for 15″ x 15″ x 2″ rectangular kapok buoyant cushions, 20-oz. kapok, U.S.C.G. Specification Subpart 160.048, manufactured by Hawthorn Finishing Co., New Haven, Missouri, for Sears, Roebuck and Co., 925 South Homan Avenue, Chicago 7, Illinois, effective December 15, 1961.

Approval No. 160.048/216/0, Special approval for 14″ x 17″ x 2″ rectangular, ribbed-type kapok buoyant cushion, 21-oz. kapok, Dwg. No. HFC–BC–1, dated November 27, 1961, manufactured by Hawthorn Finishing Co., New Haven, Missouri, for Sears, Roebuck and Co., 925 South Homan Avenue, Chicago 7, Illinois, effective December 15, 1961.

BUOYANT CUSHIONS, UNICELLULAR PLASTIC FOAM

NOTE: Approved for use on motorboats of Classes A, 1, or 2 not carrying passengers for hire.

Approval No. 160.049/34/1, Group approval for rectangular and trapezoidal unicellular plastic foam buoyant cushions, U.S.C.G. Specification Subpart 160.049, sizes to be as per Table 160.049–4(c)(1), manufactured by Texstar Plastics, 110 Manufacturing Street, Dallas 7, Texas, and 115 East Brackenridge, Fort Wayne, Indiana, effective December 12, 1961. (It supersedes Approval No. 160.049/34/1 dated October 24, 1960, to show change of name and address of manufacturer.)

Approval No. 160.049/43/0, Group approval for rectangular and trapezoidal unicellular plastic foam buoyant cushions, U.S.C.G. Specification Subpart 160.049, sizes to be as per Table 160.049–4(c)(1), manufactured by Ero Manufacturing Co., Crystal Lake, Illinois, effective December 21, 1961.

FIRE PROTECTIVE SYSTEMS

Approval No. 161.002/4/0, Audible and visual, supervised smoke detecting system, Model ESDS–1 (General Schematic Wiring Diagram Dwg. No. 93615), consisting of five major components, viz: (1) Control Unit—Smoke Detector Cabinet, Dwg. No. 93325; (2) Engineroom Alarm, Dwg. No. 93865; (3) Wheelhouse Annunciator Panel, Dwg. No. 94280; (4) Twin Suction Blower, Dwg. No. 94180; and (5) 3″ Air Direction Valve, Dwg. No. 93325; manufactured by Fyr-Fyter Co., Newark Branch Office, P.O. Box 750, Newark 1, New Jersey, effective December 5, 1961.

TELEPHONE SYSTEMS, SOUND POWERED

Approval No. 161.005/3/3, Sound powered telephone station assembly, selective ringing, common talking, 8 and 17 stations maximum, waterproof, Dwg. No. 70–526, Alt. 5, dated May 22, 1959, manufactured by Henschel Corp., Amesbury, Massachusetts, effective December 12, 1961. (It supersedes Appr. No. 161.005/3/2 dated December 31, 1958.)

SAFETY VALVES (POWER BOILERS)

Approval No. 162.001/194/1, Style HNP–MS–35–6 drum pilot safety valve, carbon steel body, maximum pressure of 900 p.s.i., maximum temperature 650° F., Dwg. No. D–40015–2, approved for sizes 1½″ and 2″, manufactured by Crosby Valve and Gage Co., Wrentham, Massachusetts, effective December 22, 1961. (It supersedes Appr. No. 162.001/194/0 dated December 31, 1958, to include 2″ size.)

FLAME ARRESTERS, BACKFIRE (FOR CARBURETORS)

Approval No. 162.015/19/2, Model No. B175–16 backfire flame arrester for carburetors, Dwg. No. B175–16, revision A, dated May 21, 1954, manufactured by Zenith Carburetor Division, Bendix Aviation Corp., 696 Hart Avenue, Detroit 14, Michigan, effective December 4, 1961. (It is an extension of Appr. No. 162.015/19/2 dated December 4, 1956.)

Approval No. 162.015/50/0, Model No. 2–3–87 backfire flame arrester for carburetors, Dwg. No. F–1124, Flame Arrester, Marine, dated September 13, 1961, manufactured by Fisher Industries, 1625 West Maple Road, Troy, Michigan, effective December 21, 1961.

Approval No. 162.015/51/0, Model No. 4–4–87 backfire flame arrester for carburetors, Dwg. No. F–1124, Flame Arrester, Marine, dated September 13, 1961, manufactured by Fisher Industries, 1625 West Maple Road, Troy, Michigan, effective December 21, 1961.

Approval No. 162.015/52/0, Model No. 4–4–125 backfire flame arrester for carburetors, Dwg. No. F–1124, Flame Arrester, Marine, dated September 13, 1961, manufactured by Fisher Industries, 1625 West Maple Road, Troy, Michigan, effective December 21, 1961.

Approval No. 162.015/53/0, Model No. 4–5–125 backfire flame arrester for carburetors, Dwg. No. F–1124, Flame Arrester, Marine, dated September 13, 1961, manufactured by Fisher Industries, 1625 West Maple Road, Troy, Michigan, effective December 21, 1961.

APPLIANCES, LIQUEFIED PETROLEUM GAS CONSUMING

Approval No. 162.020/143/0, Model No. MCG 11–2 counter type deep fat fryer for liquefied petroleum gas service, approved by the American Gas Association, Inc. under Certificate No. 13–(17–2.0 and –4.0).001, manufactured by Anetsberger Brothers, Inc., Northbrook, Illinois, effective December 21, 1961.

FIRE EXTINGUISHING SYSTEMS, FOAM TYPE

Approval No. 162.033/1/0, National Aer-O-Foam Marine Foam Fire Extinguishing Systems with 6 percent Foam Liquids, Instruction Sheet No. 620A revised September 11, 1961, manufactured by National Foam System, Inc., Union and Adams Streets, West Chester, Pennsylvania, effective December 12, 1961. (It supersedes unnumbered approval (File JJ/162.021/National Foam) dated August 16, 1960.)

PART II—TERMINATIONS OF APPROVAL OF EQUIPMENT, INSTALLATIONS, OR MATERIALS

BUOYANT CUSHIONS, KAPOK OR FIBROUS GLASS

NOTE: Approved for use on motorboats of Classes A, 1, or 2 not carrying passengers for hire.

Termination of Approval No. 160.048/111/0, Group approval for rectangular and trapezoidal kapok buoyant cushions, U.S.C.G. Specification Subpart 160.048, sizes and weights of kapok filling to be as per Table 160.048–4(c)(1)(i), manufactured by Ben-Sun Products Corp., 527 North Eighth Street, Philadelphia 23, Pa., for Flote-Rite Corp., Eighth and Spring Garden Streets, Philadelphia 23, Pa., effective December 21, 1961. (Approved FEDERAL REGISTER March 25, 1958. Terminated December 21, 1961. Item no longer manufactured.)

FLAME ARRESTERS, BACKFIRE (FOR CARBURETORS)

Termination of Approval No. 162.015/38/0, Model No. 9300508 backfire flame arrester for carburetors, Dwg. No. 9300508, flame arrester assembly, dated November 11, 1958, and Dwg. No. SK–9300811–1, flame arrester assembly dated January 28, 1959, manufactured by Purolator Products, Inc., 3927 Fourth Street, Wayne, Michigan, effective December 21, 1961. (Approved FEDERAL REGISTER June 21, 1960. Terminated December [illegible], 1961. Item contained in larger component.)

Dated: February 12, 1962.

[SEAL] A. C. RICHMOND,
Admiral,
U.S. Coast Guard Commandant.

BUREAU OF COMMERCIAL FISHERIES

Testimony of Government Employees

FEBRUARY 13, 1962.

The regulations issued herein are based on the authority of the Director, Bureau of Commercial Fisheries, to issue such regulations. The requirements herein set forth apply as a portion of the directives system of the Bureau of Commercial Fisheries. Such material follows the format of the Bureau's manual and is to be included therein. Material that relates solely to internal management has not been included.

SERIES 2000—ADMINISTRATION

• • • • •

TITLE 2300—PERSONNEL

• • • • •

Chapter 2310—Policy and Delegations of Authority

• • • • •

2311.1 *Policy.* It is the policy of the Director, Bureau of Commercial Fisheries, to delegate to Regional and Area Directors, and such others as are specified in this delegation, all authority necessary for carrying out the responsibilities of their offices. Such delegation of authority is subject to review by persons authorized to make such review.

2311.2 *Testimony of employees.* 43 CFR 2.20 requires written approval from the head of the Bureau, or his designee, before any employee of the Department of the Interior may testify concerning matters relating to the business of the government. The section contains requirements for the submission of affidavit requests by parties desiring the testimony. Some attorneys outside the Federal service may not be familiar with this requirement. Requests for testimony generally come on extremely short notice and it is felt that fewer delays will be entailed by delegating the authority included in 43 CFR 2.20 to those offices having the greatest need for such authority.

Consultation with the nearest Regional or Field Solicitor's office is suggested prior to the granting of permission. When the Regional or Area Director is of the opinion that a request should be denied, the request must be forwarded to the Director with an appropriate recommendation.

2311.3 *Delegation.* The Chief, Division of Administration and Regional and Area Directors are severally authorized, unless specifically excepted to the extent stated in each case or in section 2411.4, Limitations, to exercise the authority of the Director with respect to administrative matters concerning the granting of written approval for employees to testify as set forth in section 2311.2 herein.

2311.4 *Limitations.* (a) Where requests may be made for the Chief, Division of Administration or Regional or Area Directors to testify, written authority must be obtained in each such instance from the Director, Bureau of Commercial Fisheries.

(b) The foregoing authorization shall be exercised in strict conformity with applicable laws, regulations, policies and administrative procedures.

CHARLES BUTLER,
Acting Director.

Office of the Secretary

PUBLIC LANDS; MONTANA, NORTH DAKOTA, AND SOUTH DAKOTA

Modification of Moratorium on Applications and Petitions

1. Pursuant to the authority granted to the Secretary of the Interior by sections 453 and 2478 of the Revised Statutes (43 U.S.C. 2 and 1201), as amended and otherwise, the moratorium on applications and petitions directed by the Secretary of the Interior on February 14, 1961, and published on page 1382 of the FEDERAL REGISTER for February 16, 1961, is hereby modified to exclude from its provisions public lands in the States of Montana, North Dakota, and South Dakota.

2. Beginning at 10:00 a.m., on March 1, 1962, the Manager of the land office at the Crum-McKinnon Bldg., 1245 North 29th Street, Billings, Montana, who has jurisdiction over public lands in the States of Montana, North Dakota, and South Dakota, will resume, pursuant and subject to the regulations in Title 43 of the Code of Federal Regulations, the receipt of petitions for classification and applications for rights and privileges, acceptance of which was temporarily suspended by the moratorium referred to in section 1 of this Order.

STEWART L. UDALL,
Secretary of the Interior.

FEBRUARY 13, 1962.

DEPARTMENT OF AGRICULTURE

Office of the Secretary

KANSAS

Designation of Areas for Emergency Loans

For the purpose of making emergency loans pursuant to section 321(a) of Public Law 87-128 (7 U.S.C. 1961) it has been determined that in the hereinafter named counties in the State of Kansas natural disasters have caused a need for agricultural credit not readily available from commercial banks, cooperative lending agencies, or other responsible sources.

KANSAS

Chautauqua.	Labette.
Cherokee.	Leavenworth.
Coffey.	Montgomery.
Cowley.	Neosho.
Crawford.	Wilson.
Elk.	Woodson.
Greenwood.	

Pursuant to the authority set forth above, emergency loans will not be made in the above-named counties after December 31, 1962, except to applicants who previously received emergency or special livestock loan assistance and who can qualify under established policies and procedures.

Done at Washington, D.C., this 13th day of February 1962.

ORVILLE L. FREEMAN,
Secretary.

[F.R. Doc. 62-1645; Filed, Feb. 16, 1962; 8:47 a.m.]

NORTH DAKOTA

Designation of Area for Emergency Loans

For the purpose of making emergency loans pursuant to section 321(a) of Public Law 87-128 (7 U.S.C. 1961) it has been determined that in Richland County, North Dakota, natural disasters have caused a need for agricultural credit not readily available from commercial banks, cooperative lending agencies, or other responsible sources.

Pursuant to the authority set forth above, emergency loans will not be made in the above-named county after June 30, 1962, except to applicants who previously received emergency or special livestock loan assistance and who can qualify under established policies and procedures.

Done at Washington, D.C., this 13th day of February 1962.

ORVILLE L. FREEMAN,
Secretary.

DEPARTMENT OF COMMERCE

Great Lakes Pilotage Administration

PILOTAGE POOL

Notice of Application for Establishment

Notice is hereby given that application has been filed under § 401.310 of the Great Lakes Pilotage Regulations (46 CFR Part 401) by the St. Lawrence Seaway Pilots' Association, 182 Main Street, Massena, New York, a voluntary association of United States registered pilots, for authorization to establish a pilotage pool at Cape Vincent, New York.

The Association proposes to provide such arrangements and facilities as may be necessary or desirable for the efficient dispatching of vessels and rendering of pilotage services. Cape Vincent is located in District 1 of the United States waters of the Great Lakes designated by the President in a Proclamation dated December 22, 1960 as being those in which registered vessels of the United States and foreign vessels will be required to have in their service a United States or a Canadian registered pilot.

The application is on file with the Administrator of the Great Lakes Pilotage Administration for public inspection. Protests to the granting of the application, together with requests for hearing if desired, may be submitted in writing to the Administrator, Great Lakes Pilotage Administration, Department of Commerce, Washington 25, D.C. within 20 days after publication of this notice in the FEDERAL REGISTER.

Dated: February 9, 1962.

A. T. MESCHTER,
Administrator,
Great Lakes Pilotage Administration.

Maritime Administration

FARRELL LINES INC.

Notice of Application

Notice is hereby given that Farrell Lines Incorporated has filed an application for continuation of a waiver under the provisions of section 804 of the Merchant Marine Act, 1936, as amended, to permit Farrell Lines Incorporated to operate its two feeder services on the West Coast of Africa, one at Monrovia, Liberia, and one at Lagos, Nigeria, with owned feeder vessels registered under the Liberian flag. The operations do not include the booking of cargo or passengers for foreign flag vessels.

Any person, firm or corporation having an interest in such Application who desires to offer views and comments thereon for consideration by the Maritime Administrator should submit same in writing, in triplicate, to the Secretary, Maritime Administration, Washington 25, D.C., by the close of business February 28, 1962. The Maritime Administrator will consider these views and take such action with respect thereto as may be deemed appropriate.

Dated: February 14, 1962.

By order of the Maritime Administrator.

JAMES S. DAWSON, Jr.,
Secretary.

Office of the Secretary

ROBERT F. EHINGER

Report of Appointment and Statement of Financial Interests

Report of appointment and statement of financial interests required by section 710(b)(6) of the Defense Production Act of 1950, as amended.

REPORT OF APPOINTMENT

1. Name of appointee: Robert F. Ehinger.

2. Employing agency: Department of Commerce, Business and Defense Services Administration.

3. Date of appointment: February 7, 1962.

4. Title of position: Assistant Director for Mobilization Planning, Communications Industries.

5. Name of private employer: Western Electric Company, Inc., 195 Broadway, New York 7, N.Y.

CARLTON HAYWARD,
Director of Personnel.

JANUARY 30, 1962.

STATEMENT OF FINANCIAL INTERESTS

6. Names of any corporations of which the appointee is an officer or director or within 60 days preceding appointment has been an officer or director, or in which the appointee owns or within 60 days preceding appointment has owned any stocks, bonds, or other financial interests; any partnerships in which the appointee is, or within 60 days preceding appointment was, a partner; and any other businesses in which the appointee owns, or within 60 days preceding appointment has owned, any similar interest.

American Telephone & Telegraph Co.
Bank deposits.
Western Electric Co.

ROBERT F. EHINGER.

FEBRUARY 9, 1962.

[F.R. Doc. 62-1654; Filed, Feb. 16, 1962; 8:48 a.m.]

DEPARTMENT OF LABOR

Office of the Secretary

[Secretary's Order No. 11-61]

CERTIFICATION OF DOCUMENTS

Delegation of Authority

1. *Purpose.* The purpose of this order is to delegate authority relating to the release and authentication of originals and copies of correspondence, reports, publications, and other documents from the files of the Department of Labor.

2. *Authority.* Act of March 4, 1913 (37 Stat. 736, 5 U.S.C. 611), R.S. 161 (5 U.S.C. 22), and Reorganization Plan No. 6 of 1950 (15 F.R. 3174, 64 Stat. 1263, 5 U.S.C. 611, Note).

3. *Directives affected.* General Order No. 72 (Revised), published in the FEDERAL REGISTER on April 17, 1954 (19 F.R. 2234) is hereby superseded and canceled.

4. *Delegation of authority*—(a) *The Solicitor of Labor.* The Solicitor of Labor is authorized to perform the functions of the Secretary under § 2.9, Title 29, Code of Federal Regulations, relating to requests for withdrawal of originals and copies of documents.

(b) *The Administrative Assistant Secretary.* The Administrative Assistant Secretary and officers acting in that capacity are designated Authentication Officers of the Department of Labor. They are authorized to sign and issue certifications of authentication under the seal of the Department of Labor pursuant to § 2.10, Title 29, Code of Federal Regulations.

(c) Delegations of authority to officers other than those designated in section 4 b. of this order may be made by the Administrative Assistant Secretary in order to accomplish more effectively the purpose of this order.

5. *Action requirements.* The Administrative Assistant Secretary shall develop and issue any procedural instructions that may be required for implementing this order.

6. *Effective date.* This order is effective immediately and will remain in effect for four years unless canceled or superseded earlier.

Signed at Washington, D.C., this 22d day of November 1961.

ARTHUR J. GOLDBERG,
Secretary of Labor.

[F.R. Doc. 62-1643; Filed, Feb. 16, 1962; 8:47 a.m.]

[Secretary's Order No. 12-61]

AUTHENTICATION OF MATERIALS FROM FILES

Delegation of Authority

1. *Purpose.* This order delegates authority to sign and issue certifications of authentication under the seal of the Department of Labor and prescribes procedures to be followed in exercising the authority.

2. *Directives affected.* This order implements Secretary's Order No. 11-61 of November 22, 1961 which designated the Administrative Assistant Secretary and officials acting in that capacity as Authentication Officers of the Department of Labor. The order authorizes the Administrative Assistant Secretary to make delegations of authority to officers other than those named in the order, and to develop and issue any procedural instructions that may be required for implementing the order.

3. *Delegation of authority.* The following officers are designated Authentication Officers of the Department of Labor. They are authorized to sign and issue certifications of authentication under the seal of the Department of Labor pursuant to § 2.10, Title 29, Code of Federal Regulations. In the event an Authentication Officer is the custodian of a document which is to be authenticated, the certification of authentication shall not be made by such officer but the certification may be made by any other Authentication Officer designated by or pursuant to Secretary's Order No. 11-61.

(a) Chief, Division of Administrative Management, Office of the Administrative Assistant Secretary.

(b) Deputy Director, Office of International Personnel and Management, Bureau of International Labor Affairs.

(c) Administrative Officer, Office of the Solicitor.

(d) Chief, Division of Management Services, Bureau of Apprenticeship and Training.

(e) Administrative Officer, Office of Administrative Management, Bureau of Employees' Compensation.

(f) Chief, Division of Management Appraisal and Business Administration, Bureau of Employment Security.

(g) Administrative Officer, Office of the Assistant Commissioner for Management, Bureau of Labor-Management Reports.

(h) Chief, Branch of Management Services, Bureau of Labor Standards.

(i) Deputy Commissioner for Management, Office of Management, Bureau of Labor Statistics.

(j) Deputy Director, Bureau of Veterans' Reemployment Rights.

(k) Chief, Office of Administrative Management, Wage and Hour and Public Contracts Divisions.

(l) Deputy Director, Women's Bureau.

4. *Records Authentication Certificate.* General Form No. 126, Records Authentication Certificate, is prescribed for use in implementing this order.

5. *Action requirements.* (a) Requisitions for dies of the Department of Labor seal may be submitted to the Chief, Division of Administrative Management, Office of the Administrative Assistant Secretary.

(b) Requests for delegation of authority to officers other than those named in this order will be considered by the Administrative Assistant Secretary.

(c) Copies of General Form No. 126 should be requisitioned from the Division of Administrative Management, Office of the Administrative Assistant Secretary.

6. *Effective date.* This order is effective immediately.

Signed at Washington, D.C., this 28th day of November 1961.

JAMES E. DODSON,
Administrative Assistant Secretary.

ATOMIC ENERGY COMMISSION

[Docket No. 50-192]

UNIVERSITY OF TEXAS

Notice of Issuance of Construction Permit

Please take notice that no request for a formal hearing having been filed following the publication of notice of the proposed action in the FEDERAL REGISTER, the Atomic Energy Commision has issued Construction Permit No. CPRR-70 authorizing The University of Texas to construct a TRIGA Mark I nuclear reactor on the University's campus in Austin, Texas.

The permit as issued was set forth in the Notice of Proposed Issuance of Construction Permit published in the FEDERAL REGISTER January 24, 1962, 27 FR 701.

Dated at Germantown, Md., this 12th day of February 1962.

For The Atomic Energy Commission.

EDSON G. CASE,
Acting Chief, Test and Power Reactor Safety Branch, Division of Licensing and Regulation.

[F.R. Doc. 62-1626; Filed, Feb. 16, 1962; 8:45 a.m.]

[Docket No. 50-1]

ARMOUR RESEARCH FOUNDATION OF ILLINOIS INSTITUTE OF TECHNOLOGY

Notice of Issuance of Facility License Amendment

Please take notice that the Atomic Energy Commission has issued Amendment No. 3 to Facility License No. R-3. This amendment authorizes the Armour Research Foundation of Illinois Institute of Technology, Chicago, Illinois, to utilize a concentration reduction factor of 10 for radioactive argon and fission product noble gases released as stack effluent in connection with the operation of the Armour Research Reactor.

The Commission has found that operation of the facility in accordance with the license, as amended, will not present undue hazard to the health and safety of the public and will not be inimical to the common defense and security.

The Commission has further found that prior public notice of proposed issuance of this amendment is not necessary since operation of the facility in accordance with the license, as amended, would not present any substantial change in the hazards to the public from those already considered acceptable in connection with the previously approved operation of this facility.

In accordance with the Commission's rules of practice (10 CFR Part 2), the Commission will direct the holding of a formal hearing on the matter of issuance of the license amendment upon receipt of a request therefor from the licensee or an intervener within thirty (30) days after the issuance of the license amendment. Petitions for leave to intervene and requests for a formal hearing shall be filed by mailing a copy to the Office of the Secretary, Atomic Energy Commission, Washington 25, D.C., or by delivery of a copy in person to the Office of the Secretary, Germantown, Maryland or the Commission's Public Document Room, 1717 H Street NW., Washington, D.C.

For further details, see (1) the application for license amendment dated December 14, 1960, and letters dated June 2, 1961, and December 11, 1961, from the Armour Research Foundation, and (2) a hazards analysis prepared by the Division of Licensing and Regulation, both on file at the Commission's Public Document Room, 1717 H Street NW., Washington, D.C. A copy of item (2) above may be obtained at the Commission's Public Document Room, or upon request addressed to the Atomic Energy Commission, Washington 25, D.C., Attention: Director, Division of Licensing and Regulation.

Dated at Germantown, Md., this 12th day of February 1962.

For the Atomic Energy Commission.

EDSON G. CASE,
Assistant Director for Facilities Licensing, Division of Licensing and Regulation.

CIVIL AERONAUTICS BOARD

[Docket No. 13394 etc.; Order E-18044]

FRONTIER AIRLINES, INC., ET AL.

Order Instituting Investigations

Adopted by the Civil Aeronautics Board at its office in Washington, D.C. on the 13th day of February 1962.

In the matter of the Frontier Airlines, Inc., Docket 13394, "Use It or Lose It" Investigation as to certain points on Route 73; In the matter of the application of Frontier Airlines, Inc., and North Central Airlines, Inc., Docket 12849, for approval of an agreement for the transfer of certain route authority; In the matter of the investigation of Frontier Airlines, Inc., and North Central Airlines, Inc., Docket 13395, agreement for transfer of certain route authority; In the matter of the application of Western Air Lines, Inc., Docket 13398, for the deletion of Lewistown, Montana, from its certificate for Route 28.

In the Seven States Area Investigation (Order E-13254, December 8, 1960), the Board made extensive route awards and subjected them to the "Use It Or Lose It" policy, which was simultaneously adopted. This policy contemplated an early reassessment of the traffic response to the newly authorized services in order to determine whether sufficient use was being made of them to warrant their continuation. The Board specifically set a minimum standard of use which required that each city, whether certificated on a temporary or an indefinite basis, originate an average of five passengers daily for the twelve months following the initial six months of service, and indicated that it would, in the absence of unusual or compelling circumstances, institute a formal investigation to determine whether a city should lose its air service for lack of use in the event it does not meet the standard. Further, the Board stated that it would similarly reassess the traffic results on each route segment for the same twelve months period. The minimum standard in this regard required an average passenger load of seven passengers per flight during the trial period, and provided that an inadequate traffic response on any segment would result in the institution of appropriate proceedings to determine whether the subject segment should be suspended or deleted. In addition, with respect to those segments experiencing average passenger loads ranging between five and seven passengers per flight, it was provided that formal proceedings looking toward the termination of service would be instituted, except in those situations in which unusual circumstances such as extreme isolation or national defense needs may dictate the contrary.

Subsequent to the Seven States Case, and in order to properly and adequately implement the "Use It or Lose It" policy, the Board adopted a regulation which required local service carriers to report to the Board on a monthly basis the passenger loads on all flights on each

route segment of their respective systems.[1]

In Orders E-14170, July 2, 1959; E-14385, July 29, 1959; E-14460, September 15, 1959, and E-14714, December 4, 1959, the Board decided the Montana Area Local Service Case, and the certificates of the carriers who received awards therein became effective September 15, 1960 (except for Sidney, Montana on segment 15 which became effective February 4, 1960), subject to the "Use It or Lose It" policy enunciated in the Seven States Case. Pertinent traffic data for the full trial period is now available. Consequently, we are in a position to proceed pursuant to our announced policy.

We have carefully examined the traffic data filed by Frontier Airlines, Inc. (Frontier), with respect to that portion of its post-Montana Case system not involved in current proceedings. These materials are reflected in part in the Appendices,[2] and we find that an investigation should be instituted with respect to the points and segments set forth below to determine whether they should be deleted from Frontier's certificate in the light of the use made of the various services and, as will appear below, whether or not some of them should be served by another carrier as a result of an acceptable route transfer.

As indicated above, and as shown in the appendices,[2] the following cities and segments served on Frontier's route 73 have not met the standards as to traffic set by the "Use It or Lose It" policy.[3] Points averaging less than 5 originated passengers per day:

Glasgow, Mont.
Glendive, Mont.
Great Falls, Mont.
Havre, Mont.
Idaho Falls, Idaho.
Lewistown, Mont.
Miles City, Mont.
Rawlins, Wyo.
Sidney, Mont.
Williston, N. Dak.
Wolf Point, Mont.

Segments, or portions thereof, experiencing average passenger loads below 7 passengers per flight: Segments 9, 15, 16, and segment 7 between Riverton-Lander and Idaho Falls.

In Order E-16710, dated April 24, 1961, we stated that "traffic considerations relevant to Rock Springs, Wyoming, and Vernal, Utah, will be deferred until such time as the awards made in the Montana Area Local Service Case, Docket 6293, come before us for review, since Rock Springs and Vernal are on segment 7 and segment 7 traffic considerations have been deferred until we review the awards in the Montana Case." Also in that case, Frontier (Seven States) "Use It or Lose It" Investigation, Docket 12078, the parties were directed to show cause why segments 5 and 7 in Frontier's certificate should not be combined, since they are presently duplicative in part. Because of this overlapping of segments, the issue of deletion of Laramie and Cheyenne on those segments was not included in that case. Upon further examination we find that there is much duplication of segment 6 with the present segments 5 and 7 as well as with the proposed realignment. And in addition, Vernal-Salt Lake City are on segments 1, 6 and 7. Because of the service pattern offered, it is difficult to segregate the traffic between these segments. Because of the procedural stage of the Frontier (Seven States) "Use It or Lose It" Investigation, we cannot now consider a consolidation of segment 6 with segments 5 and 7, and since segment 1 is involved in the Southern Rocky Mountain Area Local Service Case, Docket 5395, we will defer consideration of the issue of deletion of Rock Springs and Vernal until a later appropriate proceeding.[3]

By Orders E-16749, May 1, 1961, and E-17063, June 29, 1961, we permitted Frontier to (1) temporarily suspend service between Jackson, Wyoming, and Idaho Falls, Idaho, on segment 7; and (2) overfly any or all intermediate points on segment 7 flights between Salt Lake City, Utah, and Jackson, Wyoming, for the period June 1 to September 30 each year, these authorizations to expire 90 days after final decision in a Montana Case "Use It or Lose It" Investigation. In the latter order we stated that "the whole matter of winter service to Jackson will be explored in the aforementioned 'use it or lose it' investigation and the Board will then be in a position to rule on Frontier's request upon a full record." We will therefore, include as an issue in this case, the question of whether Frontier should be permitted to suspend service between Riverton-Lander, Wyoming, and Jackson, Wyoming, on a seasonal basis for the period October 1 through May 31 of each year.[3]

Many of the same stations and segments listed above have also come before us for adjudication in connection with a proposal that we approve their transfer from Frontier's system to that of North Central Airlines, Inc. (North Central).

On July 26, 1961, a joint application was filed by Frontier and North Central for approval of an agreement of sale, dated July 21, 1961, for transfer by Frontier of segments 9, 15, 16, and that portion of segment 10 north of Rapid City, South Dakota, of its route 73, to North Central. Also to be transferred to North Central is the station equipment at each of the stations involved. The consideration for the transfer is the sum of $15,004.49, which is alleged to be the book value of the station equipment as of June 30, 1961. The application accompanying this agreement has been given docket number 12849.

The representatives of the cities of Miles City, Great Falls, Glasgow, Havre, Sidney, Minot, Billings, Wolf Point, Dickinson, Williston, and Lewistown and Bismarck, the South Dakota Aeronautics Commission, and the Montana Aeronautics Commission filed communications with the Board in support of the application.

The applicants allege that the transfer is in the public interest since: (1) It will result in savings in subsidy to the Government of more than $400,000, calculated either in terms of breakeven need or the class rate formula; (2) operation of the route by North Central will convenience more traffic since most of the traffic at the points in question, according to the Board's survey, moves in an east-west direction, rather than in the north-south pattern provided by Frontier's system. North Central can provide one carrier service between all of the points in question to Fargo and Minneapolis; (3) the transfer will eliminate duplicate operations by the two carriers at and between Minot and Bismarck, and thus reduce costs and subsidy requirements; (4) the transfer will give the cities to be transferred which are failing to meet the test a further opportunity to develop traffic in sufficient quantities to meet "use it or lose it" standards. The applicants request that the application be disposed of without oral hearing and as promptly as possible.

Northwest Airlines, Inc. (Northwest), filed an answer opposing, particularly, disposition of the application without a hearing. Northwest urges that most of the cities have had a full trial period since certificated under the "Use It Or Lose It" policy, have not met the standards required, and the question should be explored as to whether these cities should be served by any carrier. It also alleges that the Board found that the public convenience and necessity required that the cities should be served on the Frontier system, most of whose operations are in a north-south direction, and that there has never been a finding that the public convenience and necessity required the east-west pattern of service proposed by North Central; and that such questions should not be decided without a hearing. Northwest also urges that the applicants' forecasts of subsidy savings are based on inflated estimates and unsound traffic forecasts; that even accepting the inflated traffic forecasts, it is doubtful that the cities would meet the "Use It Or Lose It" standards with North Central's service; and that the ex parte representations of the applicants are in insufficient basis for deciding questions as to the effect of the transfer on the subsidy problem. Northwest refers to the fact that the Board held formal hearings in the Resort Certificate Transfer Case, Docket 11610 et al.; and the Eastern-Mohawk Transfer

[1] Part 241, Amendment 13, effective November 1, 1959, and Amendment 1 to Part 241, effective August 1, 1961. Passenger origination data were previously required to be filed as part of the carrier Form 41 reports.

[2] Filed as part of the original document.

[3] Order E-17613, dated October 19, 1961, redesignated Frontier's segments 15 and 16 as 14 and 15. They are referred to herein by the former designation as used in the agreement of July 21, 1961, the subject of Docket 12849.

[3] There may also be a similar consideration of Riverton-Lander, Lovell-Powell-Cody, and Worland.

[3] By Order E-17494, September 22, 1961, and E-17758, November 22, 1961, we granted Frontier permissive authority to suspend Jackson-Riverton/Lander service and instead to serve Jackson on nonstop flights between Billings and Salt Lake City, such authority to expire 90 days after decision in the instant investigation.

Case, Docket 12130, as precedents indicating that the even more complex issues present in this case require that a full hearing be held.

West Coast filed an informal communication expressing its continued interest in the segment between Great Falls and Billings (segment 16) for which West Coast applied in the Montana Local Service Case, Docket 6293, et al. It still maintains that Frontier's segment and West Coast's segment 8 should be operated as a unit. It contends that it would be unfair to have a "Use It Or Lose It" investigation in connection with the award to West Coast of its segment 8, also awarded in the Montana Local Service Case, while deciding the instant application without hearing and without a "Use It Or Lose It" investigation, as such a procedure would give but a piecemeal and incomplete answer to the problem.

Western Air Lines, Inc. (Western), on August 30, 1961, filed an application, Docket 12995, requesting the deletion of Lewistown, Montana, from its certificate for Route 28. On the same date, it filed a motion requesting consolidation of its application with the instant proceeding. It recites the fact that its service at Lewistown is temporarily suspended while this point is served by Frontier, and that if Frontier's service were discontinued it would technically be required to resume service. It urges that consolidation would not unduly delay completion of the proceeding since its evidence would be extremely limited.

On August 31, 1961, Frontier and North Central filed a motion for leave to file a reply to Northwest's answer, and with said motion filed the proposed reply. Our rules of practice make no provision for replies to answers in matters of this kind, and the Board is reluctant to encourage the encumbering of its dockets with more documents than are essential. Permission to file an unauthorized document may lead to further requests for leave to file in rebuttal of new material in each succeeding document permitted to be filed. A principal basis for the request is that if no hearing is to be held no opportunity would be afforded to correct errors in the answering material or to supply newly discovered and relevant material. Since the Board proposes that a hearing be held in this matter, opportunity will be presented to supply for the record any deficiencies, or to correct any errors noted, in accordance with our normal practice. On the basis of all of these considerations, we will deny the applicants' motion and direct that the proposed reply be rejected for filing.
